BUY DIRT.

The advice given by the original John Jacob Astor to his son was of the most practical nature. He said—"Buy dirt, it won't run away." The Astors now have millions of dirt; indeed they own a very respectable slice of the earth. And very little of it has ever gotten away from them.

By the way, what's the matter with White Oaks' dirt! There is lots of it. The man who owns it is in luck; he who buys it is a wise man.

As sure as two and two make four, so sure it is that within a very brief period White Oaks will make antelope strides and take her position in the front rank of towns quickened from insignificance into importance through the breaking out of its latent forces and the spirit vested in it through the new blood infused. Croakers now have to take back seats—they can no longer fatten on retailing unhealthy forebodings. Time, which is said to make all things even, has revealed its proposed line of march and with the clearness of electric light White Oaks can be seen basking in the sunshine of perpetual prosperity.

There are few of our readers who have not had some experience, who have not seen Chicago, Kansas City or Denver spring from hamlets to important cities and the sites embracing them rise in value to more per foot than shortly before they were held per acre, aye, per quarter section.

And yet, none of the cities we have named, nor all of them put together, had, in their incipiency, the natural advantages and God-given resources that White Oaks has. Chicago was lifted up from a marsh; Kansas City was located on a mountain; Denver was and is on a plain, miles remote from her present source of mineral supplies and dependence. How different is White Oaks. Here we are nestling between mountains, with head, feet and hands fairly touching the beds of treasure which Nature's chambermaid so lavishingly spread here in the beginning, or through her forces provided at a later day.

Nor was it capital that built up either of the cities cited. Each and all were originally located by men whose only capital was muscle, brains and [illegible] will power. But instead of each haying and taking a tangent of his own, they connected together, worked in unity and for a common purpose. As a result capital was attracted until they now have population [illegible] of many cities built [illegible] [illegible]

New Tariff Documents.

Three admirable [illegible] have just been issued [illegible] American Protective Tariff League.

No. 10, "Farmer and [illegible] Tariff" is a complete revision of an article, which proved very popular in 1888.

No 53. is entitled "Free Trade England and Protection United States."

No. 54 embraces the reports of the Minority of the Ways and Means Committee on the bills to put Wool, Binding Twine and Cotton Bagging on the Free list. The document publications of the League now embrace fifty-four numbers all of which will be sent to any address for Fifty Cents.

Address Wilbur F. Wakeman, Gen'l Sec'y, 135 West 23d Street, New York.

THERE is no place in America from which more lies emanate than Washington. The latest lie is that Muldoon, the famous pugilistic trainer, had been engaged by Sec. Blaine for physical instruction. The lie was garnished with elaborate and delightful embellishments, and was sent to all metropolitan papers. It soon developed that the matter was news to both gladiators. Blaine had never seen Muldoon nor thought of engaging him to train him down or up physically.

Safety in the Midst of Danger.

This would seem a contradiction—it is so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who dwells in a malarious region. A robust constitution [illegible] the dreaded [illegible] [illegible] Stomach Bitters [illegible] In South America, the [illegible] Panama, Mexico, everywhere [illegible] [illegible]

THE democrats are divided as to who to nominate for President. Some object to Palmer because he is too old; others to Hill because he is too fresh; still others to Cleveland because he is too fat.

HILL and Boies is a favorite ticket with many democrats. They would make tolerably fair mates. The one in the lead has no hair on his head and the other wears no hirsute on his face.

YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American [illegible] is its specialty, being the best. It wants your subscription [illegible] particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier.
"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 21x28 inches, and they are elegantly reproduced in [illegible] showing every tint and color of the great originals, either one of which could not be purchased for $100,000.

"Women and Children First," by C. Napier Hemy,
"Christ Leaving the Pretorium," by Gustave Doré.

Each of these pictures is reproduced in photogravure, size 21x28, and uniformly [illegible] for framing, and will adorn the walls of the most refined homes.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $7,500—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that its premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The EXAMINER and the LEADER, the combined price of which is $3.50, will be sent you for one year, postage paid, for $3.00. Send the money to the office of the LEADER and your subscription will be promptly forwarded to the EXAMINER, and you will receive therefor the EXAMINER's numbered receipt. You can get a Premium Supplement by applying at this office.

L. [illegible] tion as [illegible] World's [illegible] have known [illegible] years, ago, [illegible] this Territory, a[illegible] that her withdrawal [illegible] mission is a calamity. THE redoubtable Tom Catron, together with Judge J. D. Bail, [illegible] T. A. Whitmore, Tranquilla Luna and M. A. Otero have been chosen as delegates to the National Republican Convention, with the following named alternates: J. H. Riley, T. B. Burns, Juan Santistevan, M. W. Mills, M. A. Hawkins, and Juan Naverre.

BILL NYE is something of a farmer too. He believes in feeding bran mush to cows. He believes the hard times for farmers is due to their not feeding enough bran to their cows. He gives his experience in feeding bran to a sickly "taffy-colored Jersey," as follows: At first she would insert her nose in it up to the top of the lower eyelid an then looking far away over the purple hills, she would blow this bran mash across the state, and what did not go up the sleeves of my overcoat would chink up the barn and freckle our family carriage. But after awhile she ate it almost greedily and the birds sang again in her sorrowing heart. She forgot her grief, had no more acidity of stomach, flashes of heat or sinking, ringing in the ears, dizziness or tired feeling and now she is perfectly well. Last fall she ate not only her three meals a day, but also a scarlet geranium belonging to my wife, a Mackinac straw hat of mine, two yards of brocaded ribbon from the costume of a young lady from Chicago who was putting her on her head, $4 worth of gladiolus bulbs, a child's shirt, and a dish of blanc mange which was cooling on the rain barrel for the pastor.

IT is hoped and believed that Charley McComas, who was kidnapped by the Apaches near Silver City 9 years ago after killing his father and mother, has been traced to Old Mexico.

Seymour's Shears and Scissors

[illegible] to be of [illegible] Decoration Day story, [illegible] Voodoo Charm," and a Decoration Day poem, "Our Dead," beautifully illustrated, besides other good stories; "Chat" tells about the latest fads, from "Home Art" you can learn "How to Frame Pictures" yourself, and all the other departments are running over with seasonable matter; and besides three full-page pictures, there are nearly 200 illustrations. Indeed, every member of the family is sure to find something of personal interest in every number of DEMOREST'S FAMILY MAGAZINE, and it is published for only $2 a year, by W. JENNINGS DEMOREST, 15 E. 14th St., New York.

PROCEEDINGS of the fire meeting held last Saturday night at Athletic Hall were withheld from us until too late an hour to publish in full. The intentional slight visited upon us by the trusted conservator of the minutes does not prevent us publishing the upshot, which was, that it was resolved that a hook and ladder company be organized in White Oaks, and to that end a committee was appointed to solicit the wherewith, which committee is now at work and succeeding satisfactorily.

Subsequently a preliminary organization of a company was ordered as follows: President, A. L. Parker; Vice President, Jos. [illegible] Gumm; Secretary, Ernest Lang[illegible]; Treasurer, Geo. L. Hoppin[illegible]; Chief, Elmer J. Gumm; [illegible] [illegible], Wallace Gumm.

A CALAMITOUS FIRE.

A LITTLE LIFE LOST.

About 0:30 on Tuesday morning the South Homestake whistle startled our people by one of its loudest blasts. It didn't take long to divine the cause. From near the corner of Heman Avenue and Placer st., black volumes of smoke were climbing the heavens, emanating from what has long been known as the C. T. Clark building, for some years owned by U. Ozanne. Soon the larger portion of our populace was on the scene, each with pail in hand. In an incredible short time two full water tanks were wheeled into line and those present worked heroically to stop the dread element from devouring contiguous buildings which seemed doomed, notably the Langston residence, and it was only through indefatigable work intelligently applied that a serious conflagration was stopped.

But it was serious, involving as it did a precious young life, causing the stoutest heart to quail and to make each spectator feel that a personal loss had touched him. The burned house was occupied by Chas. Ericson (Ozanne's blacksmith) wife and two children, one nearly 4 years of age and the other a 7 month's old infant. A short time before the fire broke out Mrs. E. left her children alone in the house and hurried over to Weed's store to make some little purchase. While so engaged she happened to see the smoke and exclaiming "My God! my children!" ran to the scene, alas, too late. At the outbreak of the fire Mrs. Davies gave the alarm and Ericson hearing it ran, kicked the door in and from the clutch of the flames bore his infant out but not before its little body had been pretty badly singed, though not dangerously. The elder child was not reached until its charred remains were taken from out the ruins. It is hoped and believed that smoke sucked the little fellow's life away and that he was insensible to pain incident to conscious contact with fire.

Of course the origin of the fire will always be a mystery, but it was doubtless due to some innocent operations of the children as it is said there was little or no fire in the stove. It is safe to say that Mrs. E. will never again confine her children alone in a house, as it is to say that mothers have done it before, and others will do it again.

Of course not a chattel was saved and the stricken and bereft couple a god in their helpless misery without shelter or change of raiment. But the people of this town, true to their noble instincts bestirred themselves. A furnished house was procured and Langston swung around the circle with a subscription paper, returning with an amount overlapping $100, enough to compensate them for their loss—save that of their loving child.

Last Tuesday the fire fiend visited Nogal and devoured the Henley houses. Both the log and frame houses were burned. W. J. Henley's family saved everything but stove—the old folk lost all.

BUY DIRT.

The advice given by the original John Jacob Astor to his son was of the most practical nature. He said—"Buy dirt, it won't run away." The Astors now have millions of dirt; indeed, they own a very respectable slice of the earth. And very little of it has ever gotten away from them.

By the way, what's the matter with White Oaks dirt? There is lots of it. The man who owns it is in luck; he who buys it is a wise man.

As sure as two and two make four, so sure it is that within a very brief period White Oaks will make antelope strides and take her position in the front rank of towns quickened from insignificance into importance through the breaking out of its latent forces and the spirit vested in it through the new blood infused. Croakers now have to take back seats—they can no longer fatten on retailing unhealthy forebodings. Time, which is said to make all things even, has revealed its proposed line of march and with the clearness of electric light White Oaks can be seen basking in the sunshine of perpetual prosperity.

There are few of our readers who have not had some experience, who have not seen Chicago, Kansas City and Denver spring from hamlets to important cities and the sites embracing them rise in value to more per foot than shortly before they were held per acre; aye, per quarter section.

And yet, none of the cities we have named, nor all of them put together, had, in their incipiency, the natural advantages and God-given resources that White Oaks has. Chicago was lifted up from a marsh; Kansas City was located on a mountain; Denver was and is on a plain, miles remote from her present source of mineral supplies and dependence. How different is White Oaks. Here we are nestling between mountains, with head, feet and hands fairly touching the beds of treasure which Nature's chambermaid so invitingly spread here in the beginning, or through her forces provided at a later day.

Nor was it capital that built up either of the cities cited. Each and all were originally located by men whose only capital was muscle, brains and heroic will power. But instead of each haying and taking a tangent of his own, they counseled together, worked in unity and for a common purpose. As a result capital was attracted until they now have population equal to many cities built centuries [illegible] continent was discovered, now [illegible] [illegible] of [illegible], and [illegible] [illegible], Australia [illegible] all around

To those who propose [illegible] until [illegible] dirt." It is by far than [illegible] hence. If we [illegible] our own vines [illegible] can all nestle [illegible] and be the happy [illegible] dirt."

New Tariff Documents.

Three admirable [illegible] have just been issued [illegible] American Protective Tariff League.

No. 10, "Farmer and [illegible] Tariff" is a complete revision of an article, which proved very popular in 1888.

No 83, is entitled "Free Trade England and Protection United States."

No. 54 embraces the reports of the Minority of the Ways and Means Committee on the bills to put Wool, Binding Twine and Cotton Bagging on the Free list. The document publications of the League now embrace fifty-four numbers all of which will be sent to any address for Fifty Cents.

Address Wilbur F. Wakeman, Gen'l Sec'y, 135 West 23d Street, New York.

There is no place in America from which more lies emanate than Washington. The latest one is that Muldoon, the famous pugilistic trainer, had been engaged by Sec. Blaine for physical instruction. The lie was garnished with elaborate and delightful embellishments, and was sent to all metropolitan papers. It soon developed that the matter was news to both gladiators. Blaine had never seen Muldoon nor thought of engaging him to train him down or up physically.

Safety in the Midst of Danger.

This would seem a contradiction—it is so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who dwells in a malarious region. A robust constitution is no certain defence against the dreaded chills. What [illegible] [illegible] [illegible] a period little short of half a century, proves that Hostetter's Stomach Bitters is precisely this. This continent does not limit the field where the medicine has proved its efficacy. In South America, the Isthmus of Panama, Mexico, everywhere in fact where miasma-born disease takes on its most obstinate and formidable types, the Bitters is a recognized specific by illimitable demand, and prescribed by physicians of repute. Potent, too, is it in disorders of the stomach, liver and bowels, and against that destroyer, la grippe. It improves appetite and sleep, [illegible] and kidney [illegible].

The democrats are divided as to who to nominate for President. Some object to Palmer because he is too old; others to Hill because he is too fresh; still others to Cleveland because he is too fat.

Hill and Boies is a favorite ticket with many democrats. They would make tolerably fair mates. The one in the lead has no hair on his head and the other wears no hirsute on his face.

[illegible] YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent [illegible] in its specialty; being the best. It wants your subscription [illegible] particularly and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier,
"The Roman Chariot Race," by A. Wagner.

Each of these pictures is [illegible] inches, and they are elegantly reproduced in the [illegible] [illegible] the [illegible] of the great originals, either one of which, could not be [illegible] [illegible].

"Women and Children First," by C. Napier Hemy,
"Christ Leaving the Pretorium," by Gustave Doré.

Each of these pictures is reproduced in photogravure, size [illegible], and [illegible] for framing, and will adorn the walls of the most refined home.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from [illegible] cents to $[illegible]—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that its premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The Examiner and the Leader, the combined price of which is $[illegible], will be sent you for one year, postage paid, for $[illegible]. Send the money to the office of the Leader and your subscription will be promptly forwarded to the Examiner, and you will receive thereafter the Examiner's numbered receipt. You can get a Premium Supplement by applying at this office.

The redoubtable Tom Catron, together with Judge J. D. Bell, [illegible] [illegible] Whitmore, Franquilla Luna and M. A. Otero have been chosen as delegates to the National Republican Convention, with the following named alternates: J. H. Riley, T. B. Burns, Juan Santistevan, M. W. Mills, M. A. Hawkins, and Juan Naverre.

Bill Nye is something of a farmer too. He believes in feeding bran mush to cows. He believes the hard times for farmers is due to their not feeding enough bran to their cows. He gives his experience in feeding bran to a sickly "taffy-colored Jersey," as follows: At first she would insert her nose in it up to the top of the lower eyelid and then looking far away over the purple hills, she would blow this bran mash across the state, and what did not go up the sleeve of my overcoat would chink up the barn and freckle our family carriage. But after awhile she ate it almost greedily and the birds sang again in her sorrowing heart. She forgot her grief, had no more acidity of stomach, flashes of heat or sinking, ringing in the ears, dizziness or tired feeling and now she is perfectly well. Last fall she ate not only her three meals a day, but also a scarlet geranium belonging to my wife, a Mackinac straw hat of mine, two yards of brocaded ribbon from the costume of a young lady from Chicago who was patting her on her head, $4 worth of gladiolus bulbs, a child's shirt, and a dish of blanc mange which was cooling on the rain barrel for the pastor.

It is hoped and believed that Charley McComas, who was kidnapped by the Apaches near Silver City 9 years ago after killing his father and mother, has been traced to Old Mexico.

A DISASTROUS FIRE.

A LITTLE LIFE LOST.

About 9:30 on Tuesday morning the South Homestake whistle startled our people by one of its loudest blasts. It didn't take long to divine the cause. From midst the corner of Harrison Avenue and Placerett, black clouds of smoke were climbing the heavens, emanating from what had long been known as the C. T. Clark building, for some years owned by U. Ozanne. Soon the larger portion of our populace was on the scene, each with pail in hand. In an incredible short time two full water tanks were wheeled into line and those present worked heroically to stop the dread element from devouring contiguous buildings which seemed doomed, notably the Langston residence, and it was only through indefatigable work intelligently applied that a serious conflagration was averted.

But it was serious, involving as it did a precious young life, causing the stoutest heart to quail and to make each spectator feel that a personal loss had touched him. The burned house was occupied by Chas. Ericson (Ozanne's blacksmith) wife and two children, one nearly 4 years of age and the other a 7 month's old infant. A short time before the fire broke out Mrs. E. left her children alone in the house and hurried over to Weed's store to make some [illegible] purchase. The plates are without question the most famous novels that were ever written. For a number of a century they have been celebrated in every book and review of the civilized world. Yet there are thousands of homes in America and yet supplied with a set of Dickens, the most high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

PRINTERS' INK.
A Journal for Advertisers.
Is issued on the first and fifteenth days of each month, and is the representative journal—the trade journal of American advertisers. It indicates to the inexperienced advertiser how, when, and where he should advertise; how to write an advertisement; how to display one; what newspapers to use; how much money to expend—in fact, discourses on every point that admits of profitable discussion. Advertising is an art practiced by many but understood by few. The conductors of PRINTERS' INK understand it, and their advice is based on an experience of more than twenty-five years in placing advertising contracts for many of the largest and most successful advertisers. A year's subscription costs but One Dollar; sample copies Free. Address

PICKWICK PAPERS,
BARNABY RUDGE AND CHRISTMAS STORIES,

The above are without question the most famous novels that were ever written. For a generation of a century they have been celebrated in every book and corner of the civilized world. Yet there are thousands of homes in America and yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the greatest books extant.

Inside County Leaders can get your mail full set of Dickens, for $2.75

WEEKLY CALL

MORNING CALL

The Leader and Daily Call, (3 issues a week,) $6 a year. The Weekly Call and Leader $2.50

YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—and is for speciality, being the best. It wants your subscription—yours particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier.
"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 30x40 inches, and they are elegantly reproduced in the etching, showing every line and color of the great originals, either one of which would not be considered too cheap.

"Women and Children First," by C. Napier Hemy.
"Christ Leaving the Pretorium," by Gustave Doré.

Each of these pictures is reproduced in photogravure, size 24x40, and exclusively fine for framing, and will adorn the walls of the most refined home.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as his subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $5,000—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that the premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The EXAMINER and the LEADER, the combined price of which is $3.50, will be sent you for one year, postage paid, for $3.00. Send the money to the office of the LEADER and your subscription will be promptly forwarded to the EXAMINER, and you will receive thereafter the EXAMINER's numbered receipt. You can get a Premium Supplement by applying at this office.

[illegible]

G. A. R. Monday night.

Wm. Watson and C. D. Bonney started on Saturday for Tularosa on business known only to themselves.

Hon. Geo. B. Barber spent a couple of days in town this week, a couple of hours of the time at the moral center.

Jno. Y. Hewitt and wife left on Tuesday last for a prolonged trip to California. They will be absent some four months.

A good, commodious lodging house is much needed in White Oaks. Every day and night there are strangers within our gates soliciting rooms.

ADVICE TO MOTHERS. [illegible]

W. H. C. Day, of Roswell, came up Tuesday, to take in the sights of our prosperous town.—He is a brother in law of Capt. J. C. Lea.

We think our home readers will enjoy the advertisement in another column headed, "Notice to the Public," as much as they would the most eloquently written local.

Mrs. J. L. Zimmerman, Miss Lizzie Shields and Col. David Taylor and Mr. Sharon, went out to Three Rivers ranch on Saturday last, where they enjoyed the hospitality of Mrs. Susan E. Barber. They returned Wednesday.

Capt. R. C. Stewart, accompanied by Mr. Farris, arrived at this hub a few days ago, since when they have been interviewing our merchants. We are always pleased to note the arrival of Mr. S., as he is always a welcome visitor.

Two of our leading citizens allowed their angry passions to rise the other day. The result was not quite as sanguinary as that of the two Arkansaw fellows of whom it is written: "They [illegible] it, and go ugol and bit [illegible] bled in the mud, till all the ground for miles around, was kivered with their blood." But fighting is one of their accomplishments and nobody was hurt. We wouldn't even vaguely allude to it were it [illegible] a foregone conclusion that the [illegible] has already [illegible] both by mails and express.

We learn from reliable authority that our popular druggist, Mr. J. L. Zimmerman, won the contest that appeared against him in the Roswell land office when making his final proof; also it's being confirmed by the Washington authorities. Mr. Z. owns a valuable claim adjoining South Roswell and we congratulate him on his success.

We acknowledge receipt of an invitation to attend the 3rd annual spring meeting of the gentlemen's driving association of Albuquerque, to be held May, 5-6-7. El Quirrea will be contested for each day.

Owing to the sickness of Mrs. E. W. Parker and Miss Gunn, the Congregational concert announced for to-night is indefinitely postponed.

Ed. Hamm, one of the oldest of White Oaks old timers, is with us again. Hope he has come to stay.

Col. Heman returned from his trip to Silver City and El Paso Thursday morning.

Bulfinch—"How much is this thermometer?"

Clerk—"Seventy-five cents."

Bulfinch—"Why I got one like it here a couple of days ago for 40 cents."

Clerk—"What time in day did you buy it?"

Bulfinch—"About 8 o'clock in the morning."

Clerk—"Ah, well, it's 12 o'clock now; thermometers are always higher at noon."

"Isn't it fine," said the young man to his companion in the restaurant, "to go into the country in the summer and see the girl with the milk pail."

"The girl's all right enough," was the answer, "but I'd hate to see the milk any paler than this is."

The Leader has for sale a piano, an organ, 2 wagons, 2 carriages, 2 carts, 2 type writers, a watch, a soda fountain, a shot gun, a stove and range, 2 bicycles, one for a lady and one for a gentleman, —also a first-class sewing machine. Calvin Fisk is our agent for the sale of any or all of the above.—See him and secure bargains.

NOTICE TO THE PUBLIC.

And all Persons Interested in the Proposed White Oaks Park Reservation at White Oaks, New Mexico.

In pursuance of instructions of the Commissioner of the General Land Office, the undersigned has made a personal inspection of the land and country comprising the Drainage Basin to the north and west of Carizo and Patos Mountains in the vicinity of White Oaks, and has decided to recommend to the Honorable Commissioner that not only the lands sloping to the north and westward of Patos and Carizo Mountains, but also the lands on the mesa and sloping to the southward and furnishing a water-shed and running into a common channel and arroya basin descending to the westward toward the plains to the west of the Carizo Mountains be comprised within the limits of said reservation.

The preservation of the timber slopes to the southward of the mountains is essential to the preservation of such limited water supply and springs as may be utilized for agricultural or mining industries that may be developed in the future.

The lands embraced in the proposed White Oaks Reservation are described as follows:

Sections 12, 13, 24, 25 and 36, twp. 6 s. r. 12 east.

Also, sections 1, 12, 13, 24, 25 and 36, twp. 7, s. r. 12 e.

Also, sections 7, 8, 9, 16, 17, 18, 19, 20, 21, 26, 27, 28, 29, 30, 31, 32, 33, 34 and 35, twp. 6, s. r. 13 e.

Also, sections 4, 5, 6, 7, 8, 9, 16, 17, 18, 19, 20, 21, 28, 29, 30, 31, 32, 33, 34 and 35, twp. 7, s. r. 13, e.

Also, sections 3, 3, 4, 5, 6, 7, 8 and 9 [illegible] r. 14 e.

Recommendation will be made that no restrictions be placed on mining for coal, minerals, and taking of water supplies within the boundaries of the proposed reservation. The restrictions will only apply to the cutting of timber in the proposed reservation.

The object of this publication is to give timely notice of the proposed reservation in order that all persons who favor or oppose its establishment may have opportunity to submit their views to the Honorable Commissioner of the General Land Office by petition or otherwise for the purpose of having them considered prior to the final establishment of such reservation.

Objections to the proposed reservation may be forwarded to the undersigned, Special Agent of the General Land Office, at Santa Fe, N. M., for transmission to the Hon. Commissioner of the General Land Office.

$300 Reward for One Thief.

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, in amalgam and bullion.—Therefore, the "Old Abe" Company offers a standing reward of Three Hundred Dollars for the arrest and conviction, or information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore.—The rule of this company is to mill all specimens. Therefore none of the ore specimens can be honestly held as from this mine. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the hold of Old Abe specimens.
