MUST HAVE GOOD MEN

If the Republicans of Lincoln county will get together in a clean, straightforward manner and nominate a ticket made up of good men, and men suited to the various offices, next Tuesday's convention will mean the naming of a winning ticket, but to go to Lincoln with a slate made out of names of men who are merely named by reason of the strength they may have in their own precincts, and without regard to their fitness, prefaces defeat.

The Democrats will have a strong ticket in the field. They realize the necessity of putting up their very best men, and this is exactly what they will do. Unofficially we know of several good men who are prospective nominees on that ticket, and their selection makes it imperitive that we have equally as good timber in our building.

Take, for instance, the office of Sheriff. Should either our own good fellow townsman, Brockway, or the present incumbent, Owen, receive the nomination, we needs must have a good man on the Republican ticket to win. No choice of a man by political conniving will give us the right kind of a man. A politician is not wanted. A business man possessing the essential qualifications to the office is needed and demanded. No other will suffice.

Take, again, the office of Superintendent of Schools. We really believe our worthy antagonists are preparing to nominate Editor Haley, of the Carrizozo News. Do any of you think for a moment that the voters of this county are so dense or short-sighted as not to see the the fallacy of voting for a man of no merit when the office can be filled by such a man as Bro. Haley? Do you think they are going to vote for just any one whose name happens to be on the ticket? Would the future of our children be sacrificed just to satisfy party leanings? Not by a jug full. We must nominate a man who has the ability, the intelligence, the experience in a degree corresponding, or if possible surpassing, that of the Democratic nominee. We can win with no other kind of material.

We could go on down the entire list of offices with like results and comparisons. The same argument would still be true. Every office must have a Republican nominee provided, and every Republican nominee must possess the ability to fill the office intelligently and to the entire satisfaction of the people in case of his election. Otherwise his election is not at all probable.

We have at the head of our ticket in the personage of Hon. W. H. Andrews, the choice of our party for Delegate to Congress, a strong man, and one whose name lends great strength to the ticket, and now it behooves us to get correspondingly good men to furnish us with their names for all the offices of lesser importance, and if we do this Republican victory is assured.

John Kahler, who has been working at the Vera Cruz mines during the past two or three weeks was in Carrizozo last Sunday.

Dr. N. North, the Dentist who was located in Carrizozo for about four months about a year ago, and who has for the past several months has been in the east, taking a course of lectures, has returned here preparatory to bringing his family and will locate here permanently He has opened an office in the Burrell House and is now practicing. Dr. North is a graduate of the Kansas City Dental College and has had twenty-three years of practical experience.

White Oaks has a new postmaster in the personage of Lee H. Rudiselle. The former postmisterss, Miss Sarah de Aguayo, who has been so attentive and satisfactory in her duties to the office, has resigned. While her resignation is regretted by all White Oaks people, the appointment of Mr. Rudiselle in a great degree reconciles them, as he is sure to prove a pleasing, accommodating and highly satisfactory incumbent of the office.

There was quite a pleasant picnic held at McDonald's grove by the Methodist Sunday School on Thursday of this week. All took lunches with them and one big spread was made of it. About forty were in attendance and enjoyed the day's pleasure.

E. Babcock, who formerly had charge of the local U. S. A. recruiting station, who is now located at El Paso, came up on last nights train.

Relative to some means being provided for the town to protect itself from fire no action has been taken by the citizens of the town. The railroad will do a great deal to help this movement and our people should evidence enough concern in it to get together and take the right action. Delay in this matter may prove costly and while we should go ahead with the railroad in doing something in this line.

YOU MUST REGISTER

We take it for granted that a good many of the ptople in the county are new to the country like ourselves, we give herewith a few facts relative to the election laws of New Mexico.

The qualifications of a legal voter shall be as follows: He shall be a male citizen of the United States, of the age of 21 years, shall have resided in the territory for at least six months, in the county wherein he offers to vote for at least three months, and in the precinct thirty days immediately perceding the election.

The law makes it necessary for every voter to be registered at least ten days before the election.

Boards of registration are provided for each precinct, whose duty it is to register all qualified voters af their respective precincts. The law requires them to meet at least thirty days before election for the purpose of registering the names of voters of their respective precincts. This board of registration is not required to hunt up the voters, especially those who did not vote in the county at the last election, to appear before the board and see that their names are duly registered.

THE OLD MAIDS SOCIETY

A meeting of the "Society for the Prevention of Chronic Bachelors and Widowers," ordinarilly termed "The Old Maid's Society," was held at Wetmore's Hall on last Wednesday night. Thirteen members of the club, one inventor and many onlookers were present, and the meeting was a success in every way.

A mixed quartette, composed of Mr. and Mrs. J. Allen Ray and Mr. and Mrs. C. L. Davis rendered several numbers and were highly appreciated. Rev. Ray rendered a curtain speech on which the less said the better—it was awful.

Prof. D. S. Collins, our new Superintendent of Schools, gave two recitations that were truly good and well appreciated. The Professor is an elocutionist of no mean ability.

The converting machine of Professor Will Frederick Antone Grierke Esq, was a success in every way but gave much evidence of being stiff in the cogs and hard to run.

The transformation of the ladies from their former selfs into a design suiting their various desires was wonderful, and if repeated often enough they doubtless ultimately get a few men in their meshes.

Andrews' strength through Lincoln county is gaining every day, and he will carry this county by twice or three times his majority of two years ago.

A strong Republican ticket this fall means Republican success in Lincoln county. A weak Republican ticket means the prabable defeat of our party for local offices.

The "Outlook" is Republican to the core, but it is also American, and will be found exercising its privilege of free speech when things do not go to its liking. Just kindly remember this.

There is no meaner man on earth than the cuss that will profess to assist you in gaining a certain point, and then, at the same time, be doing gum shoe missionary work for your opponent. And this is being done in our county today.

Whether a man be a Republican, a Democrat, or a Whatnot, he should be qualified to the highest degree before he is given the nomination for an office. Qualification and aptitude are the all-predominating essentials a candidate should possess.

Peculiar conditions exist in our county at the present time. Precinct No. 14, Carrizozo, has but one representative in the Republican county convention, yet in all probability it will cast more votes for the head of the ticket than will Lincoln, with her county convention strength of nine votes or San Patricio with a representation of eight delegates.

If all the trees in the Lincoln Forest Reserve were to be sold for six bits, the revenue we have derived from politics wouldn't buy a dead scrub oak tree, and we are correspondingly free to voice our opinion or exercise our pens for or against any candidate. If we have reason to disapprove of any one man's election we shall be found lined up against him. No county boss can dictate a policy to us, thank you.

If the result of the Republican county convention, held at Lincoln on next Tuesday is a ticket made up of representative Republicans, who are capable of filling the positions to which they are nominated, Lincoln county will have Republican officers in the near future. But, if the nominees are men in whom the people have no confidence, and men who have been put up for slaughter by certain would-be political bosses and tricksters there is but little doubt of the continuance of Democratic county office-holders.

On another page of this paper will be found the call for the Republican County Convention, at Lincoln, on Tuesday, September 22, 1908. This call reached us too late for our last issue, and comes out now at a very late date. The Central Committee showed but little concern, to say the least, in furnishing us with the call, and not only in furnishing us with it, but, also, in getting it to the precinct chairman, who is supposed to post calls for a precinct primary five days in advance of the convention. Whether it was neglect or ignorance we do not attempt to say, but we are candid in our disapproval of the manner in which the Central Committee has treated us and our Committeeman.

It is an indesputable fact that there is a more or less percentage of voters who cast their vote for a man because he is the nominee of that particular party of which the voter is a deciple. Such always has been and always will be the case. Men are Republicans because their fathers were such; men are Democrats solely because Democracy had been the belief of their daddy. Nothing could be advocated by, no plank inserted in the platform of, the opposite party that could cause these men to desert their old party, or that would cause them to feel more favorably impressed with the principles of the apposition. They are partizans first last and all the time. Yet whie this is positively a truth, it is also a certainty that it is so to a much lesser extent than was the case a few years ago. Men of today are more prone to do their own thinking than were those of a generation ago, and having thought are likely to follow the dictates of their own conscience and judgment. Men of today realize the fact that a condition may exist at this time that may never have been before their forefathers, and, hence, those fathers were in no position to judge intelligently of what would be best for the present day citizen. Again, the voter of today knows full well that party lines are very flexible, and are often manipulated in such a way as to allow of the nomination or very undesirable men. The liberty-loving and free born American citizen enjoys the privilege of secret ballot and that right of franchise accorded him by the laws of the nation, and he is going to cast his vote for the man, who, in his own estimation, is capable and likely to give the office the best service. And right along these lines is where the "Outlook" figures a winning campaign for Hon. W. H. Andrews. Democrats make a great use of the argument that Larazolo will win this year by reason of the fact that a great percentage of the new voters of the territory have emigrated here from Texas, Oklahoma, and other Democratic strongholds, and are, therefore, probably supporters of the Democratic nominee. We believe they are figuring along this line to such a degree that it makes them over-confident and entirely too sanguine of success. We feel confident that there are a vast number of these new voters who will realize that New Mexico stands a far better chance of statehood (the all-important issue) under the election of Andrews than would it should Larrazolo be elected, and while they may have been at one time Democrats, they are not of the old school of rock-ribbed, hide-bound, narrow-minded partizans, who cannot be swerved from their party, but are, instead, loyal American citizens, who recognize conditions as they really exist, and will, therefore, cast their vote for a man who can reasonably be expected to be of benefit to the territory in gaining admission to the sisterhood of states, Hon. William H. Andrews.

BASEBALL AT ALBUQUERQUE

There will be baseball enough and to spare during the two weeks of the Sixteenth National Irrigation Congress and International Exposition, Albuquerque, September 29 to October 10. Every day there will be something doing in Traction Park.

And it will be big doings, too. For big prizes have been hung up, and giants will contest. So far four teams have entered, and three more will report before the entrances close, September 20.

Teams entered are El Paso, Texas, Globe, Arizona; and Hagerman and Albuquerque, New Mexico. These are enough for an exciting tournament, even without the three teams yet to report.

Four purses of the first class, $2600 are offered, as follows: first prize, $1000; second, $750; third, $400; fourth, $300; fifth, $150; These are spot cash and no discount, on the day of final award.

In addition, four purses of $150, $75, and $25, and offered for a collegiate tournament. Entries for this event so far are University of New Mexico, (Albuquerque); Government Indain School, (Albuquerque); Territorial Military School, (Roswell); with the Territorial Agricultural College, (Las Cruces), to hear from.

In each class, every team must play the others, and the schedule of games will be determined by lot. The umpire will be taken from one of the western leagues, and he must be an umpire of the season of 1908.

The whole Southwest is interested in these tournaments. The local newspapers are full of them, and baseball fans are saving up their time to witness the sport. Speaking of the event, the El Paso Times says: El Paso will be represented in the baseball tournament at Albuquerque by the Tobin Sox, according to plans now being considered, and "Johnny" Sullivan, the popular El Paso pitcher who made good with Waco this season, will have active charge of the El Paso team. Sullivan has already recieved a number of letters from good baseball players who want to go with him to Albuquerque, and if he succeeds in getting the support he asks he promises to take to Albuquerque a team that will win good place in the meat.

The Sox have already been entered in the tournament by Manager Crawford, who has turned the team over to Sullivan for organization, and Sullivan is enthusiastic about what he will accomplish at the Irrigation Congress. He says he can get together a bunch of ball players that will play rings around any thing that has appeared in the Southwest this season, and he proposes to get to work on his plans at once.

For these games the several teams have been strengthened materially. There will be surprises in every match. El Paso is not the only team that has taken on big timber.

Nobody need stay at home on account of railway fare. The Santa Fe has fixed joint tariff rates so low that riding will be cheaper than staying at home.
