MARRIED AT ALAMOGORDO

Taking advantage of the terrible dust storm which was raging, and while the people were digging the sand out of their eyes, Howard W. Hall and Miss Nellie McMain boarded the train Sunday and went to Alamogordo where they were united in marriage by Rev. Dr. Murray of the Methodist Episcopal Church. Miss Nettie Leo accompanied the couple upon their matrimonial tour. The couple returned Sunday night and Monday night about eleven o'clock were given the usual reception. About twenty of the young people loaded with tin-weare, bells, horns and the front wheels of an old wagon from the blacksmith shop made their way to the bed-room window of the "newly-weds," and proceeded with the usual strains of music. It was not long before the house was filled with the young people and they expressed their wants which were soon satisfied after the appearance of a bowl of punch. Refreshments being over, the couple was loaded on the "half of a wagon and pulled through the street to the hotel, where a band concert was given, after which the croud departed leaving the couple to walk home. Both the young people are well known, and their many freinds wish them a long and happy life.

More towns die for lack of confidence on the part of the business men and lack of public spirit than any other cause. When a man in search of a home or a business location goes into a town and finds everything brim full of hope and enthusiasm of the propects of the place and all earnestly at work to build it up he soon becomes imbued with the same spirit, and as a result he drives down stakes and goes to work with the same interest. When, however, he goes into a town where everyone expresses doubt and apprehension for the future prosperity of the place, moping about and indulging in mournful complaints, he naturally feels that it is no place for him, and he at once shakes the dust from his feet while he pulls out with all possible speed for some other place Consequently, try to make a live, enterpsising town out of the town in which you live. When you are working for your town you are accomplishing all the more for yourself. Every man is always ready and willing to work for his own interests, so why not help the other fellow while helping yourself. Great things can be accomplished by uniting forces.

Great preparations are being made in Seattle Washington, for the Alaska-Yukon-Pacific-expostion which is to be held there this summer. 2100 men are laboring hard in order to complete the buildings and grounds by May 15th. Exhibits from every county of the world are being installed and the people of the Pacific coast are certainly doing all in their power to make a world-wide showing and will undoubtedly make a lasting impression upon the visitors at the exposition.

The Baptists of New Mexico and El Paso are going to take charge of the Fraternal City sanatorium at Alamogordo and makeit a nucleus for national Baptist sanatorium for the treatment of tuberculosis. People are ginning to see the horrors of the fatal disease and heroic efforts are being made to stop the most prevalent, cruel of all diseases. Alamogordo is a fine location for such an undertaking and it is sincerely hoped that the new sanatorium will be a success

Theo. Roosevelt recieved a great welcome on his arrival at Italy. When the steamer Hamburg sailed into the harbor at Naples, crowds of people were on the docks awaiting to see the former president. Thousands of foreigners made their way to Naples to witness Mr. Roosevelts arrival. As usual the ex-president was to be seen with the broad smile upon his face as he was welcomed by the ambassador and others.

Wm J. Bryan visited the Texas legislature at Austin the other day while it was in session and was soon taking part in all the discussions and business in general. He made special comment on the bank deposit guaranty bill. It is thought that his long talk on the bill will loose rather than gain votes for it.

Gen. Porfirio Diaz will again run for the presidency of Mexico. Diaz and Bryan are similar in one respect. They repeatedly run but Diaz always recieves the election while Bryan continues to run with no reward.

HINTS ON DRY FARMING

BY R BRANAGH, EXPERT FOR MEXICAN GOVERNMENT ON AGRICULTURE

There is no greater mistake made and one for which there is no excuse, by the man who wants results, (and that is what we are all after) than to use any but the best seed obtainable. Like produces like. Be sure and use those seeds that are raised without irrigation if it is possible to obtain them. It is most important to get seed which is thoroughly clean, free from weed seeds and all other impurities. The cost of such seeds is of very little importance compared with the results which the best is sure to give

The best paying dry farms will be those in which a system of cropping and feeding stock combined: Where the crops are fed to stock at the farm there is practically no loss of fertility. The manure is an important item to be added to arid soil increases their humus, making them more retentive of moisture as well as richer in plant food. As has been suggested also, where grains are raised for stock feed they may cut early and fed in the bundle, which avoids the extra work of threshing and hauling to market There are most excellent opportunities in Wyoming on account of our market facilities and favorable climate for finishing lambs or old sheep, cattle and swine, principally hogs of the bacon type, sand such system of farming will be sure to bring the largest profit.
