THE MARINE HOSPITAL GOES TO OLD FORT STANTON.

El Paso don't get the marine hospital. The TIMES learned yesterday through Harry Alexander, commercial agent for the White Oaks road that the hospital will be located at Fort Stanton, the old military reservation in New Mexico, in the White Oaks country.

According to Mr. Alexander's information the government yesterday turned over to the marine hospital department the old Fort Stanton military reservation embracing 1024 acres of land. The abandoned government buildings on the land are to be repaired and converted into hospital buildings.

Two good reasons influenced the marine health department in selecting Fort Stanton for the location of the proposed hospital for marines suffering from pulmonary troubles. First the property belonged to the government and can be put in repairs for much less money than it would require to buy land and put up new buildings and the second reason was no doubt the splendid summer climate of that section.

It is very likely that the government has no money at present that could be appropriated to the erection of a marine hospital in this section so it has turned ever to General Wyman the old Fort Stanton reservation, the buildings on which can, at small cost, be repaired and put in excellent condi ion to accommodate the governmen t patients who will be sent there.

The winter weather at Fort Stanton is very severe and will prove hard on consumptives who are in a very delicate condition. The El Paso climate is much more preferable and the hospital would undoubtedly have been located here if the government owned any land and unoccupied buildings near this city.

Still it would be a difficult matter to find in the entire west a more delightful spring, summer and fall climate than is offered at Fort Stanton.

It is intimated that General Wyman will be allowed to establish on the reservation a large private sanitarium which he will conduct for the benefit of the general public, and where consumptives from civil life will be accepted and treated. The White Oaks road will run within a short distance of the Fort Stanton reservation.

[Editor's Comment.]

The above article form the El Paso Times is probably correct with the exception of the reference to the climate of the reservation, which is very wrong. The winters are not so severe as the fifth paragraph of the Times' article would indicate. The isotherm of 56 degrees passes through the reservation; and the elevation above sea level is 6000 feet, giving it a rarefied and pure atmosphere. It has an almost continuos sun shine throughout the year. To be sure the mercury falls a little lower at Stanton than at El Paso, but it is entirely free from that chilly sensation characteristic of localites of a lower altitude and denser atmosphere, which is so annoying to sufferers from pulmonary diseases.

Some of the most distinguished physicians of this country and Europe have declared Fort Stanton the most favorable spot on record for treatment of lung diseases: hence its selection by the government.

THE ISSUE IN 1900.

The Pittsburg Post, which is numbered among the most ardent supporters of William Jennings Bryan expresses the opinion that silver coinage will sink to subordinate issues next year, and perhaps not heard of at all in the presidential campaigns, because our great national contests hinge on one or two principles that are moving the people. The Post is confident that the trust issue and imperialism are now to the fore and will remain in that position until the battle of 1900 is fought and won.—New Orleans states.

The Post is right, It is no longer a question as to silver or gold, or as to Mr Bryan's 16 to 1 proposition we may all live—even if we have to beg, as two million and a half people within Roosevelt's state are doing today, dependents upon the charity of Miss Helen Gould and her sort of people, but the real issue will nevertheless be the trusts. It realy matters little what Bryan says. Abe Lincoln foresaw the situation. Bryan, equally inspired merely follows in his path.—Optic.

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read your advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs. The Herald, Andersonville, Ind. For sale by M. G. Paden.

Pneumonia is one of the most dangerous and fatal diseases. It always results from a cold. Chamberlain's Cough Remedy will quickly cure a cold and perhaps prevent an attack of pneumonia. It is in fact made especially for that ailment and has become famous for its cures over a large part of the civilized world. It counteracts any tendency of a cold toward pneumonia. Can you afford to neglect your cold when so reliable a remedy can be had for a trifle? For sale by M. G. Paden.

GOVERNMENT CANNOT RESTRAIN MONOPOLY.

New York world.

The Administration through its official legal adviser and mouthpiece, Attorney General Griggs, has now committed itself frankly and squarely to these propositions:

That the United States Government cannot suppress or even restrain monopoly by the use of existing laws.

That the United States Government has not the power under the Constitution to enact a law that will suppress or even restrain monopoly.

That (to quote Mr. Griggs's exact language) "if monopolies are amenable to any law they are amenable to the laws of the respective States."

As the World showed yesterday, they are not amenable to the laws of the respective States, because under the Federal Constitution, as interpreted by the Supreme Court in an unbroken series of decisions, no State has a right in any way to descriminate against the products of any other State, and therefore one State permitting monopoly could undo and render unconstitutional the adverse legislation of all other States.

Mr. Griggs and all lawyers know well that even if the States had the power to descriminate against the products of other States, that power could not be exercised without disrupting the Union. For the use of it would lead to retaliatory legislation to interstate trade wars, to industrial anarchy, and therefore ultimately to political chaos

Our own State Attorney-General, John C. Davies, is a fair exemplar of the State official attitude toward monopoly. When the Griggs "unconditional surrender" letter was shown to him he at once, as becomes a good partisan, accepted its conclusions as final and took up the cry that the only hope lies in State action. "I do not intend to shirk my duty," said he, "but amendments to existing laws are needed to enable me to proceed."

Precisely! More law, more legislation, and yet more legislation! More "constructions" and no convictions! More loopholes and no justice! Mr. Davies well knows, as does the Attorney-General of every other State in the Union, that to suppress a manufacturing monopoly in any given State no statute whatever is needed, but only quo warranto proceedings under the common law.

Mr. Davies also knows what monopolies do when they are driven from a State. "The Sugar Trust," said he, "was driven out of this State by one of my predecessors, only to be organized under the laws of New Jersey and proceed with its operations here and elsewhere."

And that is precisely what monopoly will continue to do as long as the Attorney-General of the United States says, "In no circumstances can I touch monopoly," and the politicians, eager for the campaign contributions, echo and re-echo the disingenuous and misleading cry that the States can and must deal with monopoly.

Will the people be deceived by this juggling? Says Mr. Davis:

There is no question which seems to be attracting half the attention that trusts are. It seems to be the live topic everywhere. I am in receipt of letters from Governors and Attorney-Generals all over the country asking for information about our laws.

The people, as this trust-tied Attorney-General cannot but admit, are thinking intently upon this monopoly question. Will they not presently see that it is a national and is not and cannot be made a State question? Will they not suspect that there is "something rotten" in an Administration that can find in the Constitution "implied powers" for dominating remote possessions, yet can find nothing therein to restrain monopoly from dominating and industrially enslaving our own people?

Official Paper of Lincoln County

FORT STANTON WINS.

LINCOLN COUNTY TO THE FORE.

The establishing of a marine hospital and general sanitarium at Ft. Stanton, is a mammoth enterprise and means more to the people of Lincoln county than probably the most sanguine has ever expected. It practically means the rebuilding of the old fort with the addition of a goodly number of substantial structures, suitable to the splendid hospital service the government proposes to establish.

It will not only be the means of restoring to health and happiness hundreds of patients disabled through governmental service; but, it will be a boon to the consumptive from every section of the country, many of whom will seek its advantages, as soon as preparations can be made to receive them.

When old Fort Stanton was occupied by Uncle Sam's soldiers, only a few companies being located there, it was not possible to understand the great benefit to the surrounding country by the market it gave the small farmer and ranchman for almost everything he produced, until the old Fort had been abandoned. And now as is indicated from the latest reports from Surgeon General Wyman, arrangments will be made, not only to care for soldiers, sailors and marines, but government clerks, and later for all who may seek to enter, for the treatment of lung diseases.

Instead of being occupied by a few companies of cavalry, as was once the case, this enterprize will give it a population many times greater than when used as a fort for soldiers; and where its maintenance then necessitated the expenditure of ten to twenty thousand dollars every year, in exchange for the products of Lincoln county, the expenses of this hospital and sanitarium will be much greater.

While the selection of Ft. Stanton is the result of several years of diligent research by the government for a suitable location for an institution of this character, there is no question that the building of the El Paso & Northeastern railroad into Lincoln county made the selection possible, and the Company's efforts recently made to bring Fort Stanton's advantages prominently before General Wyman should not be passed by unmentioned.

Should this great undertaking prove successful, as it unquestionably will, it will not only be of incalculable benefit to the people of this section in a direct way, but it will bring the climatic advantages before the general public, and will be a potent factor in showing the great undeveloped resources of the country, and ultimately will turn the current of capital this way to engage in a general and substantial development.

The latent spirits of Lincoln county citizenship prevalent before the assurance that we were to have a rail road and the many enterprises that incidentally follow in its wake, seems to have received a new impetus; the manana state of things is rapidly passing, getting out of the way of the pushing and energetic strides of our encouraged and prosperous people. Lincoln county is hopeful and her citizens rejoice alike in the bow of promise clearly visible in her future.

The reclaiming of the historical and beautiful land mark, old Fort Stanton is hailed with delight by every inhabitant.

THE LAST CALL.

Third Notice:—Every editor has received them. The post master is not to blame. For instance there was a man by the name of———, well say Tim Short, who sent us three notices to stop his paper he did not want it any longer. We wondered what was the matter. Upon investigating our subscription book we found that Tim was short $0.50. He never had paid a cent and yet he stopped his paper as a matter of economy to us. A few evenings ago we stopped into church and Tim's melodious voice rang out loud and clear in that soul-stirring song "Jesus paid it all." He might have been mistaken, but his earnestness impressed us The next day we sent him a receipt in full, begging his pardon for not knowing he had made an assignment of his liabilities to the Lord.—Ex.

Daily skirmishes continue unabated in the Philippines. The American soldier is losing his life as regularly as he goes to battle, and Aguinaldo can always be found near the American lines ready to fight, notwithstanding the reports that his power is nearly broken, and that he is near the point of negotiating for peace.

J. C. CALDWELL.

GOOD RESULTS LIKELY.

Republic.

There will unquestionably be a deep public interest aroused by this government's experiments in the cure of consumption, the official plans for the novel undertaking have just been made public.

The system contemplates the establishment of a sanitarium at Fort Stanton, N. M., that reservation of 10,000 acres being set apart for the purpose. Suitable hospital buildings are to be erected and army physcians, nurses and attendants detailed for service. The first patients will be soldiers, sailors and marines, but the experiment will extend to include goverment clerks and employees later. Should the success of the system be demonstrated, private citizens may also be admitted for treatment.

There is considerable promise of benificial results in the unusual undertaking. Undoubtedly much definite and authoritative data of great value will be obtained under such a system. It is safe to predict that medical scientists the world over will pay close attention to the experiment, even though they may not share Surgeon General Wyman's confidence that consumption can be cured under proper treatment and with favorable climatic conditions.

SALE OF PERSONAL PROPERTY UNDER CHATTLE MORTGAGES.

The law providing for the sale of personal property under chattle mortgages, reads as follows:

Section 1—That hereafter when personal property is to be sold under process of any of the courts of the territory of New Mexico and under chattle mortgages it shall be sufficient to give notice of such sale by posting at least six handbills, or notices in writing, at six separate places in the precinct where said sale is to be made, describing the property to be sold and stating the character of the instrument under which the sale is to be made, the names of the parties thereto, the time and place of such sale and the amount of the debt and the costs to be satified; provided, however, that no sale shall be made under the provisions of this act where the debt to be realized exceeds the sum of $300.

Sec. 2.—All acts and parts of acts in conflict with this act are hereby repealed whether the same be general or special, and this act shall take effect and be enforced from and after its passage.

Mining Exchange.

Under the above head and in advocacy of establishing the Exchange at Albuquerque, the Journal-Democrat says:

Every one who knows anything about the mining situation in New Mexico knows that the one great difficulty experienced in every part of the territory, is want of capital wherewith to develop our properties. It is well known to those who are aquainted with the situation that our natural resources are not inferior to those of any other mining region on the continent, but mines cannot be made anywhere without money; no matter how promising a prospect may be it can turn out no values without development, and development calls for capital. There is no reasonable doubt that if the truth in regard to our natural wealth could be brought to the attention of men of means, they would see in it sufficent inducement to warrant them in putting money into the work, and it is believed that an organization such as the one now being talked about would go a long way toward accomplishing this end, since it would give probable investors an opportunity to gather much valuable information which is now inaccessable to them.

There are no better or more reliable districts anywhere in the United States than scores of those in New Mexico, but in most cases it requires a good deal of effort and courage for a stranger to get them. Take for instance the districts in the Mogollon mountains, or those around White Oaks, all possessing marvelous mineral resources, and what capitalists visiting the territory would be willing to undertake a trip to any of those camps unles he had a definite idea of what he was to find there and what he could accomplish by going? But such information as would likely induce him to make the trip could be given him by an organization such as the one in question, and in that way it could be made to accomplish much good for the whole territory."

For the information of capitalists, who desire to invest some of their surplus cash in mining properties, that will yield the greatest returns at a minimum cost of operation the EAGLE takes this opportunity to inform them that the difficulties above mentioned of getting into the mineral belt of this section is rapidly approaching an end. The beginning of the end of the difficulties from which we have suffered ever since the first discovery of gold in Baxter mountain in the early eighties was born with the El Paso & Northeastern enterprise; and while capitalists can now reach us from Alamogordo in one day with very little difficulty, it will be only a short time until the Northeastern will be running trains through the very heart of the White Oaks country.

So the effort of reaching the richest mineral section of New Mexico need no longer deter the capitalist, and the many unparalleled opportunities now open will not see many anniversaries. The Helen Ray at Nogal and the famous Parsons on the Bonito, have already been stricken from the long list of purchasable properties, and will both be operating at wonderful profits as soon as the rail road now building, is near enough to begin shipping their ore to the smelters.

Try a pair of our Clover Brand Shoes.—Ziegler Bros.

Location Notices are still going and if some fellow doesn't get rich hereabouts in the near future it will be no fault of his. Lone Mountain looks like a cyclone had struck it in some places and prospect work still continues.

Ziegler Bros have just received a large shipment of the well known celebrated Clover Brand Shoes, and if in need of shoes for Spring Wear, it will pay you to look over this Stock, and see the new Styles and the extremely low prices for which they are selling.

Ross and Duran started up their Eraster mill last week in the Jicarillas on ore from Mr. Ross' property. They have just started and are very much pleased with results already obtained.

"There Are no Birds in Last Year's Nest."

So wrote Longfellow, and in Spring days the birds are getting new nests. Their blood beats warm and hearty in expectation, but how about yours, my friend, is it warm and hearty, vigorous and pure? If not, turn at once to that tried and true remedy, Hood's Sarsaparilla, the world's best Spring medicine for making impure blood clear and pure.

The difference in a person's feelings before and after using it is phenomenal. Hood's *never disappoints.*

Scrofula—"Three years ago our son, now eleven, had a serious case of scrofula and erysipelas with dreadful sores, discharging and itching constantly. He could not walk. Several physicians did not help for sixteen months. Three months' treatment with Hood's Sarsaparilla made him perfectly well. We are glad to tell others of it." Mrs. David Laird, Ottawa, Kansas.

Blood Poisoning—"The surgeon said when he took out the brass shell received in wound at San Juan Hill two weeks before, that it would have poisoned me if it had not been for my pure blood. I told him it was Hood's Sarsaparilla that made it pure." George P. Cooper, Co. G, 25th U. S. Inf., Washington Barracks, Washington, D. C.

Abscesses—"I am past 54 and my good health is due to Hood's Sarsaparilla and Hood's Pills, which purified my blood and healed the ugly abscesses that troubled me." Mrs. Britton C. Estell, Southard, N.J.

Dyspepsia—"My husband had dyspepsia and Hood's Sarsaparilla cured him. Our little boy was nervous and the baby had ulcerous sores. It cured both." Mrs. Emma Bebe, Portage, Pa.

Indigestion—"I could not eat for some months on account of distress and indigestion. Hood's Sarsaparilla cured me so that I can eat and sleep well." Mrs. G. A. Guntz, Taylor and Walnut Sts., Wilmington, Del.

Three Troubles—"I had rheumatism, weakness of the heart and stomach, with scrofula. Nothing helped me until I took Hood's Sarsaparilla, it relieved me in short time." Mrs. R. P. Wallis, Winnisquam, N.H.

DIED IN EL PASO.

The following appeared in the El Paso Herald of April 7th:

Mrs. Connie E. Swope of Weed, N. M., died last night at 12:45 o'clock in this city.

Mrs. Swope was only 36 years of age and had been here but a week where she was brought from her home for treatment by the expert phisicians of this city.

The funeral takes place from the Caldwell Undertaking parlors at 2 o'clock tomorrow afternoon with interment at Evergreen.

Deceased was the wife of J. D. Swope, a prominent resident of Weed.

Mention was made in the Eagle two weeks since of the death of Jose Analla, and he was said to be the wealthiest native in the county. It was often reported that during his life time he had large sums of money buried, and it is known that several attempts were made to rob him, none of which, however, proved successful. But when death came knocking at the door the old man never discovered to any of his family the hiding place of his money, remaining eccentric to the end, and, as a last request to his family, demanded that his body be wrapped in a sheet, without a coffin, and further, that he be buried without socks. His wishes were followed and he was buried accordingly. Wednesday of last week the deceased's grand son, a boy of ten, accidentally stumbled upon a can of the buried treasure, which was dug up and found to be three-fourths full of shining $20 gold pieces.

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by M. G. Paden.

Charles Beljean, of Lincoln, will start in a few days to visit his old home in Chaux de Fonds, Switzerland. Last Monday at 5 o'clock, the Lumber Co. at Alamogordo was a victim of one of the most daring hold ups on record since the James Boys made an assignment. Three masked men rode up to the offices of the Lumber Co. and covered the crowd with six-shooters and proceeded to investigate the contents of the comapany's money drawer and safe. After procuring $10 in cash and $5,000 in company scrip, leaving the employees, who had just been paid off, unmolested, they rode off toward the mountains. Officers are in pursuit.

M. H. Bellomy and S. C. Wiener went to Nogal yesterday on business.

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dispeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alterative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at M. G. Paden's Drug Store. 50 cents per bottle.

The board of county commissioners met in regular session at Lincoln last week. All routine business was attended to, such as approving reports, paying bills, etc. At this meeting it was the duty of the board to ascertain the indebtedness of Lincoln county, and the clerk to certify same to the counties of Chaves and Otero; and despite the fact that M. Cronin, chairman, and Estolano Sanchez were sick, and B. Cleve, the other member of the board, was letting his private business run itself during his absence, and, consequently, was anxious to get back home; yet they stuck to the arduous task, and examined the musty records in the clerk's office until all indebtedness was discovered. The total indebtedness, bonded and floating, was a little in excess of $68,000.00: from this had to be deducted cash on hand and an Eddy county bond, leaving a balance of between $56,000.00 and $57,000.00, for which the counties of Chaves and Otero will pay their pro rata to Lincoln in bonds.

Remarkable Cure of Rheumatism.

Kenna, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. LIENS TO PURCHASERS AT TAX SALES.

The new law providing for county and territorial liens to purchasers of property sold at tax sales heretofore, reads as follows:

Sec. 1.—That under all tax sales made heretofore by the various county collectors of this territory by virtue of the revenue laws in force prior to the 1st of January 1899, the certificates of sale issued by said collectors as provided for by section 409 of the Compiled Laws of 1897, shall and hereby do vest in the purchasers to whom said certificates may have been issued, the heirs and assigns, all the right, title, interest and lien of the county and territory in and to the real estate sold for taxes for which the same may have been sold, or subsequently paid as provided for by section 4094 of said laws; and under any sale made heretofore under the provisions of said revenue laws for the non payment of taxes which may be hereafter proved to be invalid, and ineffectual to convey the title for any cause except in case of land exempt from taxation, or upon which the taxes may have been prior to such therefore, the lien which the county and territory had on such land for all taxes, territorial, county and municipal, for which said lands may have been sold, or subsequently paid by the purchaser at tax sale as provided for by section 4094, shall remain in full force and effect as hereby declared to be transferred by said certificate of sale to the grantees, their heirs and assigns, who shall be entitled to foreclose said lien as mortgages and other liens are foreclosed the owner of said lands being allowed to redeem the same as now provided by law, upon the payment to the said county collectors of the amounts for which said property was sold for taxes, together with interest thereon at the rate hereinbefore provided by law and costs. "Provided, that the holder of said certificate will pay or cause to be paid the full amount of taxes due upon the property, to the proper officer authorized to receive the same."

Section 2. This act shall be in force from and after the date of its passage.

A PEN OPINION.

W. E. Martin, of Socorro, has been appointed by Mr. Bursum as his assistant in the penitentiary. He has been there before, and no doubt the narrow apartments occupied by him years ago will bring visions of unhappy thoughts of the time he did not hold any official position. Mr. Bursum's bad break is the theme of much comment over the Territory.—Springer Stockman.

In order to prove the great merit of Ely's Cream Balm, the most effective cure for Catarrh and Cold in Head, we have prepared a generous trial size for 10 cents. Get it of your druggist or send 10 cents to ELY BROS., 56 Warren St., N. Y. City.

I suffered from catarrh of the worst kind ever since a boy, and I never hoped for cure, but Ely's Cream Balm seems to do even that. Many acquaintances have used it with excellent results. Oscar Ostrum, 45 Warren Ave., Chicago, Ill.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no cocaine, mercury nor any injurious drug. Price, 50 cents. At druggists or by mail.

An exchange very sapiently remarks: The prosperity of a town, village or city is not guided by the wealth of its inhabitants, but by the uniformity with which they pull together when any important duty is to be accomplished. A man with a thousand dollars at his command and interest in the welfare of his town at heart can do more for the building and improvement of it than a millionaire who locks up his capital and snaps his finger at home prosperity.

BRYAN'S BOOK.

Chicago, April 6.—Wm. COPYRIGHT 1898 BY COSMOPOLITAN MAGAZINE

THE delights of an evening spent around a well-lighted reading table are not half understood. An illustrated magazine with its wealth of illustrations, its stories of adventure and love, its descriptions of travel which carry you to the remotest ends of the earth, and its instructive articles for young and old—these are the first requisites for your own enjoyment and the entertainment and proper education of your children.

To secure for you the best and most interesting of the great illustrated magazines at the lowest possible price has been the aim of the editor of this journal. That we have succeeded we leave our readers to judge. A special contract recently entered into with The Cosmopolitan, which seeks to become better known in this neighborhood, has enabled us to offer you a year's subscription to the greatest of the illustrated magazines together with a year's subscription to this journal,

Both Together One Year for Only $2.10

In this way you secure your own home paper and an illustrated magazine at a price that is only about a fourth of what some of the illustrated magazines sell for. For three years The Cosmopolitan has undisputedly claimed that it reached the largest clientele possessed by any periodical, daily, weekly or monthly, in the world. It was The Cosmopolitan which sent Julian Hawthorne to India to let the world know the real horrors of famine and plague. It was The Cosmopolitan which established at its own cost a great Free Correspondence University which now has over 20,000 students on its rolls. It was The Cosmopolitan which offered a prize of $5,000 for the best horseless carriage and prizes for best plans for public baths, and best arrangement of sewer and pipe systems for cities. It was The Cosmopolitan which set the presidents of great schools and universities seriously discussing the defects of existing educational systems. It is The Cosmopolitan whose enterprise is always in the lead in advancing the world's civilization.
