THE SUPERIORITY OF NEW MEXICO

Infant State Offers a Field of Advancement and Development Unequaled Elsewhere in the Nation

LET'S ALL BOOST OUR NATURAL RESOURCES

New Mexico, one of the infant twins of Uncle Sam's family, stands in a peculiar light before the elder members composing the household of this nation She is gradually coming into her own, but the present trend of activity on the part of those who are vitally interested in her welfare and development is far behind the present day requirements. New Mexico offers a field of advancement and development, unequalled elsewhere, nature having been the master hand that laid the corner stone of her futue prosperity.

New Mexico is rich in historic treasures, her meadow valleys and mountain sides, long ago, being the sustenation of the early pioneers of the United States. Here in New Mexico we find ruins of the ancient and prehistoric races of mankind, that are in themselves the wonder of this continent Scientists have studied them, artists have attempted to transpose them upon canvass, poets have sung their wonder and beauty, and shall we, who dwell in the very shadow of these marvels, say naught? Valleys where tens of thousands of long-horned cattle have grazed have fed the hungry and added wealth to their owners Decaying cathedrals, and cemeteries where rest the ashes of those who blazed the trail of civilization across the lonely streches of desert waste, that east and west might be joined, fertile productive farms whose broad acres were wrested from the cradle of nature by sturdy sons of Spain years and years ago, mountain peaks robed in snow that for scenic beauty rival the stately Alps, and whose crest have yet to be touched by the foot of man, millions of acres of virgin soil waiting to feel the touch of the twentieth century farmer that it might be a factor in the store-house of the world, sunshine that warms and strengthens mankind and fits him for the great and responsible tasks of life.

Never write a letter outside the state that does not tell of New Mexico and her opportunities Were our older sister states way down east to have one tenth the material for advertising purposes possessed by this state, it would be spread broadcast throughout the universe and a spirit of co-operative boosting would manifest itself that would result in bringing thousands of people to the state.

Men who came into this state of ours less than three years ago with a meager farming outfit are today comfortably and happily housed in homes that are a source of pride to them and which are the result of a combination of brain and muscle with the fertile valleys of this state.

Men who scaled the mountain peaks or hewed their way into the vastness of a canyon in other states, have taken from the rocks and ledges of this state many millions of dollars worth of ore. And the hills of this state, standing majestically near the sky line, have for their foundation millions of tons of the highest grade coal awaiting the miner's pick

With these resources and the proper spirit of co-operation in advising the world of the same, New Mexico will in a short time, be the mecca of those seeking pleasure, the shrine of those who worship art, the granary for millions of cereals, the corral of thousands of sleek, well bred horses and cattle, the home of the contented and prosperous

Let us exploit, let us proclaim yea, let us learn for ourselves what New Mexico contains, and then, with an earnestness that is convincing, we can and will lead others within our borders

"FESTIVAL DAY" ADDITIONS

A number of eleventh hour attractions of genuine merit have been added to the big Field Day celebration now in progress. Among them the following may be mentioned as of special interest to visitors:

A delegation of expert rock drillers from the mines at White Oaks consisting of four adept teams, will contest for the benefit and enlightenment of the visitors The actual mineral bearing rock has been brought here especially for this exhibition of skill, and as these men are practiced drillers, doing actual work, some genuine good drilling will be done here today.

Another thing which is proving of intense interest to visitors, especially to the ladies, is the display of fancy work of all kinds at the court house. This feature is a new one and has proven a most popular addition to the regular events, as many excellent pieces of work are on display, representing much skill and painstaking on the part of the owners.

At no time has this annual time of celebration been more completely representative of the industries and pursuits of all the people of the county. This is as it should be, and Carrizozo feels itself honored with the unusual number of interested visitors, and considers itself amply repaid for all expenditures of money in securing the very best of everything and for any personal sacrifices of any nature whatever.

SUPT. McCURDY HONORED

Supt. Andrew McCurdy of the Carrizozo school has been the recipient of a signal honor, in that he has been requested by President Enloe of the Silver City Normal to prepare and outline for Algebra study in county teachers' institutes for the next six years. The new manuals will be printed by the first of the year and the various outlines will be the contributions of the leading educational men of the state, so the patrons of the local school may share in this unusual distinction accorded its superintendent.

H. S. SEWING CLASS ACTIVE

Anyone having any towels, tablecloths, napkins, dust-cloths or any other articles to be hemmed may have this work done free of charge by the high school sewing class. One letter will also be embroidered on any piece of linen, all materials to be furnished by the owners.

THE TWO BIG "FALL FESTIVAL" DAYS

Crowds Are Assembling For The Two Days of Sport And a Record Breaking Crowd is in Attendance

MANY BLOODED HORSES HAVE BEEN ENTERED IN THE RACES

Carrizozo is now in the midst of the biggest Field Day celebration in its history People from all over the county, and even from surrounding counties, for miles around are arriving in autos, carriages, wagons and on horseback to unite with Carrizozo in making this a genuine time of rolicking jubilee And not only a good time is being had but a profitable one, and those who are availing themselves of this unprecedented opportunity to see what kind of a county they are living in, are seeing that it is a live one, resourceful and rich in all its harvests.

A specially appointed reception committee is welcoming the visitors to the city The hand shakers are holding forth at the Lincoln county court house and the band is there to assist in the spirit of good cheer which pervades the very atmosphere. That big El Paso band cost the business men of this town some cash, but it is proving itself a plendid addition to the success of the two days, and they say that the selected orchestra which will be on the job tonight and tomorrow night is a bunch of irresistible melody makers.

The agricultural exhibit is a winner. Not even the oldest citizens had any idea of the possibilities in the way of an exhibit. Such a variety of valuable crops and representatives of mineral wealth untold. The Carrizozo school has on exhibit some of the rarest gems of the art of cooking in the form of loaves of bread, cakes and tempting candies, a veritable revelation of what the coming generation of Carrizozo cooks will be (Boys here's the chance of your lifetime.)

The initial basket ball game of the big series between Carrizozo and Capitan will be played an hour earlier today than scheduled to allow the visitors to recuperate for the big game they play this afternoon. This makes the time of the game 9:30 a. m. but as the visiting delegation arrived from their mountain home last evening, they are in fine trim for the early morning contest and no doubt prove worthy opponents for the local teams of experts

The big barbecue to be served free to all comers tomorrow noon is now in process of preparation and is being gotten to its state of finest savor by experts in the barbecue game. The choicest beeves are in the deal and the people may expect a feast when the horn blows for dinner. A committee which has proven itself in time past to be able to meet the most stupenous demands on their services will show the guests how indefinitely they can perform, and no one will be allowed to want for anything it is in their power to bestow in the way of plenty of good substantial eats, besides the one big prominent item of juicy barbecued beef.

The teams from Alamogordo and Tularosa will arrive today noon on number 8 and a big delegation of students and townspeople will be entitled to anything in town but the game—and that too if they can win it.

And never before has the town been visited by so many blooded horses. The racing feature is proving a winner this year as it has never been before. There will be some expert goat ropers in the contest There would be some expert broncho busters on exhibition too, but the past experience of the field day management has been that the bronchos refused to "bust" sufficiently to make it an interesting feature for either the busters or the crowd, so they have wisely discontinued anything in which the element of action is at all doubtful

See the baseball games today and tomorrow. They bid fair to be fast, snappy exhibitions of the national sport. The best that Carrizozo and the Fort have in the shop and that celebrated team of shoppers from the Southwestern plant at El Paso will cross bats for a fight to the finish

In short, we will say to you visitors, "Don't miss any of it Make yourself at home, for you are our guests and we're here to make you feel it". Welcome visitors to Carrizozo.

WILL RESUME OPERATIONS

The McIvers coal mine at Willow Springs will resume operations in a short while, as Mrs McIvers is in El Paso arranging for a competent manager. The mine will be worked on a larger scale than ever and the work as planned will be continuous. The local demand for this fuel has always been excellent, as it is the best coal in New Mexico as far as experience of those in this section extends. The people of Carrizozo and vicinity will be glad to know that they can get this fine coal at a nominal cost and the mine will afford employment to a number of miners and haulers, thereby adding that much to the industry of this district.

NOT AN IMPEACHMENT

Newspaper subscribers who are in arrears should bear in mind that a dun is not an impeachment of their integrity, but simply an outcroping of a publisher's necessity For instance, a thousand men owe him from one to four dollars each It is a small amount to each individual, but to him the aggregate is large. Instead of becoming indignant because the publisher asks for this honest dues, the deliquent subscriber should be grateful to him for waiting so patiently, and pay up.

FORD GARAGE

The most recently development in the garage business of Carrizozo is the new Ford Garage which has been opened on El Paso Avenue near the Outlook printing office Walter H. Smith an expert and experienced mechanic will be in charge of this new venture, and the enterprise will, as its name signifies, cater especially to operators of Ford machines. A complete service station for this universal car will be maintained and anything in the way of Ford accessories or mechanical parts will be furnished on short notice. As this newly established garage bids fair to be a great accommodation to the Ford owning public we bespeak for it the signal success which it deserves.

SHALL COTTON BE TAXED IN THE FUTURE?

Courts Are Asked to Settle Another Case Caused by The Blunders of The Democratic Party

MORE EVIDENCE OF DEMOCRATIC SLOVENLINESS

Democratic carelessness has raised a doubt as to the integrity of the law taxing future sales of cotton and has thrown the statute into the courts

A suit has been brought in the federal courts to test the constitutionality of the act, on the ground that it is a revenue measure originating in the Senate.

The title declares that it is "an act to tax the privilege of dealing on exchanges, boards of trade and similar places in contracts on the sale of cotton for future delivery."

It was introduced by Senator Smith of South Carolina, and was first passed by the Senate, the House afterwards approving the Senate bill with amendments. Section 3 of the act provides that "upon any contract of sale of any cotton for future delivery made on any exchage, etc., there is hereby levied a tax of two cents for each pound of cotton included in such contract"

The administration of the law is delegated to the commissioner of Internal Revenue.

Section 7, article 1 of the constitution provides that. "all bills raising revenue shall originate in the House of Representatives."

It is on this section of the constitution that the plaintiffs in the suit rely, together with the claim that the Smith bill was in the class referred to in the constitutional requirement and the fact that the law was first passed by the Senate.

The courts may or may not decide the case in favor of the government. The fact remains that by the exercise of ordinary care and forethought, the Democrats could have prevented all doubt and litigation on this point by the simple expedient of first passing the measure in the House

Their failure to exercise such care still further contributes to the increasing evidence of Democratic slovenliness and inefficiency.

ENTERTAINMENT POSTPONED

The measuring party which was to have been held under the auspices of the Home Mission Society last Friday evening at the home of Mr. and Mrs. McCurdy was made a physical impossibility by the drenching rain which came up late that evening A pleasant social time was enjoyed by the nearest neighbors, but the main body of the entertainment as planned has been postponed to some time in the near future. A large number of interested townspeople will be glad to know that this novel entertainment has not been entirely abandoned and notices will be issued when the date is again definitely settled The ladies were able to dispose of all eatables to good advantage, so no actual loss was experienced.

ALLIES' GREAT DRIVE IN WEST

HEAVY BOMBARDMENT FILLS TWENTY MILES OF TRENCHES WITH DEAD.

20,000 GERMANS TAKEN

ONSLAUGHT CONTINUES, AND FATALITIES TO BOTH SIDES YET UNKNOWN.

Western Newspaper Union News Service.

London, Sept. 26.—Twenty thousand unwounded German prisoners and dead and wounded on both sides in numbers of which as yet there is no estimate, is the toll taken in the first two days' drive of the Anglo-French forces, who have begun a great offensive movement against the German entrenchments along the line of the western war zone, which extends from the North sea to the Swiss frontier.

Two distinctive operations are under way, one to the north of Arras and the other in the Champagne region, while there has been an incessant bombardment along almost the entire front.

Both the British and French have been successful, carrying trenches extending over a distance of twenty miles and a depth varying up to two and a half miles. It is reported officially both from Paris and London that the advance still is being continued, the ground gained having in a large measure been held and consolidated.

The Berlin war office admits the retirement of the German forces at various points, but minimizes the result of the engagements.

For several weeks British and French artillery have been pounding fiercely and continuously at the German line. The forward movement of the infantry began Saturday morning, when thousands of allied troops threw themselves against the German trenches, in which, though battered and torn by heavy shells, the Germans waited, having long expected the onslaught. Much of the fighting was at close range, hand-to-hand encounters being carried from trench to trench.

The heavy artillery continued to pour forth a rain of heavy projectiles, while aviators took the air to direct the firing and themselves engaged in many combats.

Luis Terrazas Escapes.

El Paso, Tex.—After being held hostage for about eighteen months, Luis Terrazas, Jr., son of Gen. Luis Terrazas, together with his son, Guillermo Terrazas, have escaped from Chihuahua City and are en route to the border overland, according to official Villa advices received here. Three guards at the Chihuahua jail are reported to have been shot on suspicion of complicity in the escape. It is said that nearly $1,000,000 was paid for the promised release of Luis without moving him nearer the border. Guillermo Terrazas was held merely as a member of the Terrazas family.

Floods in Iowa.

Dubuque, Ia.—The heaviest rain storm in the history of the city swept over this section Sunday, causing thousands of dollars damage to property and tying up railroad traffic. In the fifteen hours which ended at 7 o'clock Sunday morning, 4.76 inches of rain had fallen. Many streets and buildings were flooded. Railroad tracks were submerged and numerous washouts of roadbeds reported.

U. S. MARINES SHOT.

Forty Haitien Rebels Killed in Attack on Americans.

Cape Haitien, Sept. 26.—In an attack by Haitien rebels on an American force about two miles from Cape Haitien, forty Haitiens were killed. Ten Americans were wounded. The rebels have refused to disarm and the Americans are marching on Haut du Cap, in the plain of the north. Another battle is expected and Admiral Caperton is disposing of his force of marines so as to guard against surprise. The marines recently were fired on from ambush and a night battle followed, but it was believed that the disorders had ceased until today's attack.

Washington, Sept. 26.—No official word has been received here concerning the attack on American marines at Cape Haitien, but officials are greatly concerned over press dispatches stating that ten United States marines were wounded and forty Haitiens shot, when a force of the latter attacked the Americans.

WAS MISERABLE COULDN'T STAND

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lackawanna, N. Y.—"After my first child was born I felt very miserable and could not stand on my feet. My sister-in-law wished me to try Lydia E. Pinkham's Vegetable Compound and my nerves became firm, appetite good, step elastic, and I lost that weak, tired feeling. That was six years ago and I have had three fine healthy children since. For female troubles I always take Lydia E. Pinkham's Vegetable Compound and it works like a charm. I do all my own work."—Mrs. A. F. Kreamer, 1574 Electric Avenue, Lackawanna, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A DAY OF QUESTIONS.

Matthew 22:15-22—Aug. 30.

"Render therefore unto Caesar the things that are Caesar's, and unto God the things that are God's."—Verse 21.

TODAY'S Study shows that the wicked vine-dressers, the unready guests, were so enamoured of their own methods and theories as to be really blinded to the beauty of the Divine Plan as expressed by Jesus. Perceiving that His teachings were influencing the masses, the worldly-wise (and spirit-blind) Scribes and Pharisees, who knew the inconsistencies of their own teachings, thought that they could show up as inconsistent the teachings of Jesus. To this end they sent amongst the multitude some of their followers, to ask questions and to seek to entrap Jesus, and thus to discredit Him with the people.

The first of these was to entrap Jesus into saying something that would lead to His arrest as a seditious person, teaching contrary to Caesar's law. On the other hand, if He advocated Caesar's law, they thought that thus He would antagonize the public sentiment.

Jesus had a wisdom from Above. In answer to their query, "Is it lawful to give tribute unto Caesar or not?" He replied, "Why do ye tempt Me, ye hypocrites? Show Me the tribute money." And they brought Him a penny. And He saith unto them, "Whose is this image and superscription?" They said, Caesar's. Then saith He unto them, "Render therefore unto Caesar the things that are Caesar's; and unto God the things that are God's." No wonder they marveled at such an answer!

Showing the Tribute Money.

"The Things That Are Caesar's."

Nor can we say that the Master dodged the question shrewdly. His answer was the truth, in every sense of the word fully in harmony with all His teachings. His followers were instructed not to be seditious, not to be quarrelsome, fault-finding, but to be thankful, holy, happy, subject to "the powers that be." They were to recognize that these powers are ordained of God, and not merely of men.

True, indeed, earthly kingdoms are not God's kingdoms, as sometimes they claim. True, indeed, they sometimes foster sin, iniquity, unrighteousness, and are largely, from outward appearance, the result of human scheming and wickedness. Nevertheless, God's people are to recognize that Jehovah is the great Over-Lord; and that He exercises such a supervision of human affairs as justifies the statement that He ordains, authorizes, permits, these kingdoms. Whatever, therefore, the Heavenly Father has authorized, none of His obedient children should think for even a moment of resisting or overturning.

In the case of the Roman Empire, of which Caesar was head, centuries before God had foretold through the prophecy of Daniel its rise to universal dominion. It was not, therefore, for Jesus or any of His disciples to speak against representatives of that Roman power. If Rome ruled, Rome should

NOTICE FOR PUBLICATION.
PUBLIC LAND SALE.

Office of the Commissioner of Public Lands, State of New Mexico.

Santa Fe, New Mexico, September 4, 1915.

Notice is hereby given that pursuant to the provisions of an Act of Congress approved June 20, 1910, the laws of the State of New Mexico and the rules and regulations of the State Land Office, the Commissioner of Public Lands will offer at Public Sale, to the highest bidders, at 10 o'clock a. m., on Tuesday, November 23 1915, in the town of Carrizozo, County of Lincoln, State of New Mexico, in front of the court house therein, the following described tracts of land, viz:

All of Sec. 36, Twp. 10S., R. 9E., containing 640 acres. There are no improvements on this land.

No bids will be accepted for less than Three Dollars ($3.00) per acre, which is the appraised value thereof.

The above sale of lands will be subject to the following conditions, viz: The successful bidder must pay to the Commissioner of Public Lands, or his agent holding such sale, one-tenth of the price offered by him for the land; 4 per cent interest in advance for the balance of such purchase price; the fees for advertising and appraisement and all costs incidental to the sale herein, the each and all of said amounts must be deposited in cash or certified exchange at the time of sale, and which amounts and all of them are subject to forfeiture to the State of New Mexico if the successful bidder does not execute a contract within thirty days after it has been mailed to him by State Land Office, said contract to provide for the payment of the balances of the purchase price of said tract of land in thirty equal annual installments, with interest on all deferred payments at the rate of four per cent per annum, in advance, payments and interest due on October 1st of each year, and such other conditions, obligations reservations and terms as may be required by law.

The Commissioner of Public Lands, or his agent holding such sale, reserves the right to reject any and all bids offered at said sale. Possession under contract of sale for the above described tract will be given within thirty days after date of sale.

Witness my hand and the official seal of the State Land Office this 14th day of September, A. D. 1915.

THE BIG STATE FAIR

Albuquerque, N. M. Sept. 30.—The boys' and girls' club which is to be one of the big features of the next state fair, has assumed such proportions that it will be a problem to accomodate all the youngsters that will be in camp at Albuquerque at that time. However, the fair management has pledged its word that every boy and every girl shall be well looked after and that none will be turned down.

Practically every county in New Mexico will be represented at this boys' and girls' encampment. Agricultural subjects will have preference in the lectures to be given them. Prof. Cooley, of the state college at Las Cruces, having directed charge of this work. Miss Annette Myers, the state superintendent of industrial education, will lecture to the girls and will look after their comfort. In addition a representative of the department of agriculture at Washington will be on hand to give special instruction in the matter of agricultural clubs for the youngsters.

The Whitney company, of Albuquerque, will furnish the complete equipment for a model kitchen, which will be under the direction of Miss Myers in giving instruction in domestic science, and there will be contests between the girls in bread-baking and other cooking. The Kellogg company has donated all the breakfast-food necessary for the two hundred children who will be on hand. This donation comes through Gross Kelly & Company. In addition to this, donations of foods to the value of over two hundred dollars, including vegetables and meats, have been made by citizens of Albuquerque. The kids will be housed in Sibley tents, and their program will be arranged as to have all their work come in the morning, leaving the afternoon for the full enjoyment of the amusement program. The children will be at all times under the chaperonage of grown-ups who will look out for their welfare.

The decision to hold a state rifle shoot in Albuquerque during the fair has aroused the keenest interest of riflemen throughout New Mexico. There are nineteen rifle clubs in the state, including that at the New Mexico Military Institute at Roswell and the University of New Mexico. Trophies and money prizes have been offered, and some of the best marksmen in the country will participate in the competition. Those interested in this feature of the fair should communicate at once with H. C. Miller, box 650 Albuquerque, who has charge of all matters pertaining to the shoot. It is the intention to form a state organization of riflemen which in future will have charge of all contests.

The amusement features of the fair grow bigger and more important with each passing day, and it is certain that time will not be allowed to hang heavy on the hands of visitors. With eight bands in the city, with the finest racing program ever put on in New Mexico and with night shows that will put to shame in spectacular features anything ever before attempted in connection with a state fair, there will be something doing every minute of the time from early Monday morning until late Saturday night.

POLITICAL GOSSIPS

When one class of people has anything to say, it has become largely the custom to make a political issue out of it instead of a friendly discussion, to print it in a law book instead of a newspaper and to argue it before a jury instead of to settle it in the higher courts of Common Sense. As a result, political agitators, political lawyers, political preachers and masculine women are powerful in politics and dissension, selfishness, intolerance and hysterics run rampant in public affairs, for when the low, damp, murky atmosphere of misunderstanding envelops public thought it breeds political reptiles, vermin, bugs and lice which the pure air of truth and the sunshine of understanding will choke to death.

We have too many self-appointed interpreters of industry who are incapable of grasping the fundamental principles of business and who at best can only translate gossip and add color to sensational stories. No business can stand upon error and might rules—right or wrong. No industry can thrive upon misunderstanding, for public opinion is more powerful than a King's sword.

When prejudice, suspicion and class hatred prevail, power gravitates into the hands of the weak, for demagogues thrive upon dissension and statesmen sicken upon strife.

The remedy lies in eliminating the middleman—the political gossip—and this result can be accomplished by the managers of business sitting around the table of industry and talking it over with the people. Interchange of information between industries and the people is as necessary to success in business as interchange in commodities, for the people can only rule when the public understands. Away with political interpreters who sum[illegible] spirits from their prison [illegible] loose them to prey upon th[illegible] of the people in the name [illegible] country."

Jack disliked being kissed, and, being a handsome little chap, sometimes had a good deal to put up with. One day he had been kissed a lot. Then, to make matters worse, on going to the picture palace in the evening, instead of his favorite cowboy and Indian pictures there was nothing but a lot more hugging and kissing.

He returned home completely out of patience with the whole tribe of women.

After he had rolled into bed mother came in to kiss him good-night.

He refused to be kissed.

Mother begged and begged, till in disgust he turned to his father, who was standing at the doorway looking on, and said:

"Daddy, for the love of heaven, give this woman a kiss!"

Freckles.

"Is it true that only people with an excess of iron in their systems have a tendency to freckles?" asked the summer girl of her father.

"I don't believe it is," replied Dad. "That young chap who goes bathing with you has an excess of brass, and he's got freckles."

Suburban Quiet.

In one of the southwestern states the courtroom of the courthouse was overlooking the cemetery. A negro had just been sentenced for two years. The judge, piqued at his apparent indifference, remarked: "You don't seem to mind your sentence."

"Bless you', judge, des plenty ob 'em ovah yondah would like to hab it."

Helping Hubby.

"My husband has found a way by which he says I am of the greatest help to him in his literary work."

"How nice that must be for you, my dear! But how are you able to do it?"

"As soon as I see him at his desk I go into another room and keep perfectly quiet until he has finished."

Better Corn Flakes—

made by a brand new process—mighty tasty and always ready to serve.

New Post Toasties

resulting from years of practice and study, are the inner sweet meats of choicest Indian Corn skilfully toasted to a crackly, golden-brown crispness.

By a new process the true corn flavour, unknown to corn flakes of the past, is brought out in every flake.

As you pour Toasties from the package, note the little pearly "puffs" on the flakes—a distinguishing characteristic of these New Toasties. Another point—they don't mush down when cream or milk is added.

Insist upon these distinctive corn flakes—the New Post Toasties—

OUR GUARANTEE

On Each

Cole's Original Hot Blast Heater

Your Money Back!
You get back the original cost of your stove in the fuel money saved each winter. Could you ask for more?

1. We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal, lignite or slack.
2. We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same size firepot.
3. We guarantee that the rooms can be heated from one to two hours each morning with the fuel put in the stove the evening before.
4. We guarantee that the stove will hold fire with soft coal or hard coal from Saturday evening to Monday morning.
5. We guarantee a uniform heat day and night with soft coal, hard coal or lignite.
6. We guarantee every stove to remain absolutely air-tight as long as used.
7. We guarantee the feed door to be smoke and dust proof.
8. We guarantee the anti-puffing draft to prevent puffing.

All we ask is that the stove be operated according to directions and connected with a good flue.

(*Signed*) COLE MANUFACTURING CO. (Not Inc.)
(Makers of the Original Patented Hot Blast Stove)

This guarantee cannot be made on any other heating stove. If you want comfort and economy put one of these heaters in your home.

FARMER SHOULD ADVERTISE

Local Newspaper Affords Excellent Means for Disposing of Products to City Folks.

The local newspapers afford the farmer a means of disposing of farm products on a par with its value to the local merchant. But the farmer must make proper use of its columns or the expense will be another of the many leaks that the farmer suffers from, writes C. T. Chamberlain of Michigan.

My neighbor raised ten bushels of early potatoes more than he used during summer and fall, and required for seed. Potatoes for eating purposes brought 75 cents per bushel. My neighbor paid one dollar a peck for seed and he decided to get some of this expense money back. Instead of selling them for 75 cents he put them down in his dry cellar and the next spring advertised them in the local daily thus:

"Last summer I paid four dollars the bushel for my early Five Weeks potatoes. The dealer said if I planted them in April I could have them to eat in mid-June and he told the truth. I have a few of those potatoes to spare and I'll cut the price in two for my neighbors. Get them at once, two dollars per bushel."

This ad. was run three days for one cent a word—or it would have been had not the farmer cancelled it the second day. He sold out the first day and could have sold three times as many.

Another man has named his farm and sells every article of produce under this name. It is a guarantee of quality as patrons know and he could sell much more than his seventy acres will produce.

This man sells to a small city market, 5,000 population, and delivers his produce. He doesn't call it out, huckster fashion, from door to door, but has a telephone and takes orders by it. His ads. in the local papers, keep the people informed of what he has to sell and orders are given and time of delivery arranged over the phone.

TO CAN FRUIT IN OVEN

By This Method Fruit Retains Its Shape, Color and Flavor to Remarkable Extent.

Cooking canned fruit in the oven is easily and quickly done, while the fruit retains its shape, color and flavor better than when cooked in a preserving kettle.

Cover the bottom of the oven with a sheet of asbestos, the same as used by plumbers for covering furnace pipes. This is very reasonable at any plumbing shop. If it is impossible to purchase the asbestos, use a large pan in which there is about two inches of boiling water. Thoroughly sterilize the jars and utensils. Make the sirup of sugar and water as sweet as needed. Prepare the fruit the same as for cooking in the preserving kettle. Fill the hot jars with this, pouring in sufficient sirup to fill the jar. Run the blade of a silver knife around the inside of each jar. (Never use a steel knife.) Place the jars in the oven either on the asbestos or in the open pan of water.

The oven should be moderately hot. Cook the fruit ten minutes. Remove from the oven and fill each jar with boiling sirup. Wipe and seal. If the screw covers are used, tighten them after the glass has thoroughly cooled.

Large fruits may require a pint of sirup to each quart jar of fruit. The small fruit will require a little over half a pint of the sirup.—Ladies' World.

SOME SIMPLE FOOD TESTS

How Ptomaine Poisoning Can Be Avoided by Testing Contents of Can for Copper.

Chicory is not harmful and some like it, but when we buy coffee we don't want to pay coffee price for chicory. To find out whether you are buying the real thing, put a tablespoonful of the coffee in a glass; pour cold water over it, and watch.

If the coffee is pure the water will hardly be stained. If chicory is present it turns the water a deep brown color.

Here is a good test for canned foods: Put a bright, clean steel knife in the contents directly you open the can. Leave for a minute. If copper is present it will be seen on the knife's blade and you've escaped ptomaine poisoning.

Fresh eggs will always sink in water. Stale eggs have smooth and glassy shells; fresh eggs have a lime-like surface.

Pear Marmalade.

Choose nice, fine flavored pears; pare, core and quarter and drop into cold water. When ready to use drain and weigh, and to each pound of fruit allow three-fourths of a pound of sugar. Pour over just enough water to cover and simmer until tender. Make a sirup with the sugar and some of the water in which the pears were boiled; add to this sirup lemons sliced very thin, using about one lemon to each six pounds of fruit. Boil the sirup until thick, then add the pears and simmer until they are clear. Pack fruit into jars and pour the sirup over.

Apple Fritters.

One cupful of sweet milk, one teaspoonful of baking powder, one egg, a little salt, flour enough for a batter thicker than for the average griddle cake and two apples chopped fine stirred into the batter. Fry to a delicate brown in hot lard. Serve warm with sirup or whipped cream.

Baked Eggplant.

Peel the eggplant, cut a piece from the top, take out the seeds, fill the cavity with dressing as for ducks, replace the top piece and bake one hour, basting with a spoonful of butter in a cupful of hot water, afterward dredging with flour. Serve immediately.

Kitchen Tables.

Two tables in the kitchen lessen work, one preferably zinc-covered to be used for such rough work as preparing vegetables and meats and dishing up meals, the other for general convenience. Close to the first, which should be on castors but stand near sink and stove, should be meat-block, meat-saw, meat-knife, small cleaver, food-chopper or a bowl and chopping knife, paring knife, vegetable cutters, skewers, basting spoons and such other articles as are frequently used at this table.

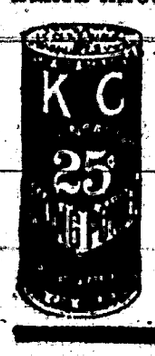
Swiss Steak.

Lay thick round steak on a board, sprinkle with salt and pepper and pound in all the flour the meat will take. Treat the other side in the same manner. Put a little butter into the frying pan and when smoking hot brown the meat quickly on both sides. Fill the pan two-thirds full of hot water, cover closely and let cook one and a half or two hours. Onion may be added if desired. When done the gravy will be already thickened.

WHY DINING CAR CHEFS PREFER KC BAKING POWDER

Those who have had cakes ruined by jarring the stove, slamming the oven door or a heavy footstep, may have wondered how the dining car chef can turn out such marvelous biscuits, hot breads and pastry when his oven is being incessantly jarred and jolted and shaken by the motion of the train.

To get pastry to raise and stay raised under these conditions, a baking powder must be used that continues to give off its leavening gas—*that sustains the raise*—until the dough is baked through.



Dining Car Chefs have found a baking powder exactly suited to their needs in K C and you will find it just as well suited to your requirements. K C is really a blend of two baking powders, one active as soon as moistened, the other requiring both moisture and heat to start the generation of leavening gas. No matter how moist and rich you make your cake, K C Baking Powder will sustain the raise until a crust is formed and all danger of falling is past.

K C Baking Powder is pure and healthful. It is guaranteed under all pure food laws, and is guaranteed to please you. And it is sold at a reasonable price—no baking powder should sell for more.

There Was a Doubt.

Here is a little story that was told by Congressman William H. Murray of Oklahoma, in gently throwing the harpoon into a lawyer friend:

One afternoon a stranger debarked from a train at a bustling town in the West and headed up the street. Finally he met a party that looked like a native.

"Pardon me," said the stranger, halting the likely-looking party. "Are you a resident of this town?"

"Yes, sir," was the rejoinder of the other. "Been here something like fifty years. What can I do for you?"

"I am looking for a criminal lawyer," responded the stranger. "Have you one here?"

"Well," reflectively answered the native, "we think we have, but we can't prove it on him."—Philadelphia Telegraph.

CURED OF BRIGHT'S DISEASE.

Mrs. A. L. Crawford, Medfield, Mass., writes: "Dodd's Kidney Pills cured me of Bright's Disease, and I am healthy and strong to-day and have been blessed with good health ever since my cure. When the doctors pronounced my case Bright's Disease I was in such a serious condition that they could not do anything for me. I kept getting worse. My limbs from my ankles to my knees swelled and my eyes were so swollen that I couldn't see. As a last hope I thought I would give Dodd's Kidney Pills a trial. I gradually improved and kept on taking them and they cured me thoroughly."

Dodd's Kidney Pills, 50c per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y. Dodd's Dyspepsia Tablets for Indigestion have been proved. 50c per box.—Adv.

Couldn't Tell.

Saturday afternoon a woman rushed up to one of the gatemen at the South station and asked:

"Will I have time to catch my train if I wait for my husband?"

"Where is he?" said the gateman.

"I don't know," she replied.

"Well, neither do I," said the gateman.

She walked away. The incident was closed.—Boston Record.

Prepared to Obey Orders.

"Tickets, sir, please," said an inspector at one of the local railway stations to a gentleman who, as a season-ticket holder for some time, believed his face was so well known that there was no need for him to show his ticket.

"My face is my ticket," replied the gentleman, greatly annoyed.

"Indeed," said the inspector, rolling back his wristband, and displaying a powerful wrist. "My orders are to punch all tickets!"

Where He Learned.

"Why, Willie, I'm surprised to hear you use such language. You have been playing with those naughty boys again, haven't you?"

"Truly I haven't, mamma. I was just over to Tommy Brown's house playing with the parrot his uncle sent him from Chicago."

Quite True.

"Say, do you know if I was in your place I would paint my house a nice shade of brown instead of white."

"My dear fellow, if you were in my place you probably wouldn't paint the house at all."

Not Used to It.

Alyce—I'm learning to paint on china.

Grayce—Don't you find it hard to become accustomed to such a hard surface?

Thought So.

"Does she approve of cosmetics?"

"She seems to lend countenance to them, as far as I can see."

TO GIVE PROGRAM HERE

Mrs J. Sonstegard King, a professional story-teller and the first in the southwest to devote all her time and attention to that work, is coming to Carrizozo the first part of October and will make arrangements to give one of her programs here. Her "Blue Bird" program has become such a popular one wherever she has given it, that she may give that here also. Some of the most successful entertainments given in Santa Fe and Albuquerque were given by Mrs. King. Her entertainments are on the cooperative plan and any local society or club that goes in with her shares in the proceeds

Mrs King has introduced a new era in the line of entertainment, a very useful one.

Story telling is a long lost art and one that few are gifted for.

From her Norse ancestors, Mrs. King has inherited a love for the beautiful and mystical and her interpretation of the "Blue Bird" is a delight to young and old. Below are some comments concerning her work:

Amarillo News: A simple story that discloses the things in life that are really worth while; and just so simple, unaffected and truly refined was Jua Sonstegard King in her rendition of it

Roswell Daily Record: Beautiful, ennobling, uplifting. Mrs. King kept her audience spellbound as she pictured the strange scenes with startling clearness and lucidity. To hear her is a treat.

Baltimore Sun: The little Norse girl charmed all with her quaint child impersonations.

From Canyon Normal School: Her interpretation of the "Blue Bird" opened to us beauties hitherto unsuspected and gave us a message that is exquisite and true.

SUNDAY SCHOOL RALLY

The children are practicing for the "Baptist Sunday School Rally and State Mission Day" program, to be given at the Baptist Church Sunday, Oct. 3, at the regular Sunday school hour. All parents and children are invited to be present —Con.

CARD OF THANKS

We wish to express our heartfelt thanks to the people of Carrizozo for the many acts of kindness shown us in our bereavement over the death of father, husband and brother, Chas. Chas. S. Jones, and for the many beautiful floral offering.—Mrs. Chas S. Jones, Mr. and Mrs. R. R. Sale, Grace, Ebb, Ralph and Lewis Jones.

AT THE "MOVIES"

The Crystal Theater offers two fine programs for Field Days, especially for to-night, as they will show a Mutual program of three reels consisting of a famous drama in two parts entitled "His Brother's Keeper" and a celebrated comedy entitled "A One Night Stand". This combination assures the patrons one of the best programs ever shown on the local screen, and the management promises a good program for Saturday night

In order to accommodate the visitors in the city to-day and tomorrow the show will start promptly at 7 p m. and give two shows each evening from 7 to 8 p. m. and 8 to 9 p m
