COMMISSIONERS HOLD BUSY SESSION

Petition Asking that the Census of Carrizozo be Taken Looking Forward to Town Incorporation was Granted

ACTS ON PETITION CALLING PROHIBITION ELECTION

The Commissioners of the County have just closed a busy three days' session in which a number of important measures were considered Besides the regular routine of the approval of bills against the county, hearing of complaints, etc., two petitions, one originating with the voters of this precinct and those immediately adjoining and the other from the town of Carrizozo were considered and a favorable decision reached.

The first petition requested the ordering of an election to determine whether the prohibition of the sale of intoxicating liquors should be made in the three precincts containing the towns of Oscuro, White Oaks and Carrizozo. The petition was accordingly granted and the date for the election set for May 8th, next.

The second petition called for the ordering of a census of the town of Carrizozo to be taken to determine whether a population of fifteen hundred could be registered, with a view to full incorporation as a town, the legal requirement being the above mentioned population. Favorable action resulting, steps will be taken for the enumeration of the number of residents in the proposed corporate limits, and no apprehension is felt concerning the outcome of the count.

This petition was signed by practically every voter in the prescribed limits and when the question comes to a vote a generous majority will unquestionably be accorded the measure. The people of Carrizozo are anxious for incorporation, since they want some definite government of the mutual affairs of the community. The old saying that "Everybody's business is nobody's business" was never more true than in the management of public enterprise. The town has made wonderful progress, even though handicapped by a state of unincorporation, but the advancement made can all be attributed to a peculiarly progressive bunch of business men, willing to dig up the dollars for the general good.

Under the new regime, there will be a mayor and a board of aldermen—the official trustees of the town of Carrizozo and responsible for its general developement. Before them all complaints will be dealt with directly and all propaganda for local betterment find their proper promoters. What the results of the new order will be can only be guessed at, but it is a safe wager that the benefits accruing from incorporation will be more than the most enthusiastic promoters have imagined.

Lee M. Rudiselle was a business visitor here this afternoon from White Oaks.

BOY SCOUTS TO ORGANIZE

A number of boys interested in the Boy Scout movement went to the Baptist parsonage Wednesday afternoon to induce Rev. J. M Gardner to act as their scout master, which he consented to do. They will meet again next Monday afternoon at 4 o'clock, at the parsonage and all boys interested in the movement are requested to be present. Rev. Gardner has had a great deal of experience working with boys, having been physical director of three different boys' clubs in Chicago, also scout master of three different organization in New Mexico. The Boy Scout work is for those from 12 to 18 years of age and is for the purpose of fitting them to meet problems that confront them in every day life and prepare them to be the best kind of citizens. Many towns and cities are proud of their Boy Scouts and have many kind words to say about them and the great work they are doing.

THE BATTLE CRY OF PEACE

The big picture "The Battle Cry of Peace" was shown to big houses at the Crystal last Friday, both matinee and night. Manager Dingwall was wide-awake as usual and got this great picture on the open night. Selling as it has been in the cities for a dollar a seat, Mr. Dingwall made the prices for the matinee 25 and 35 cents and for the night show 50 cents All who have the least misgivings about the correctness of the preparedness program should see this masterpiece of drama—it's an eye opener to the most skeptical.

ENTERTAINS HOME MISSION

Mrs. Randolph J. Forrest entertained the Woman's Home Mission Society of the Methodist Church Wednesday afternoon at three o'clock at her home in the Bush Terraces. A large number of the members were present and much business was transacted. After the business session a two course luncheon was served and all present had a delightful time. The next regular meeting will be held at the home of Mrs. R. T Cribb, Wednesday afternoon, April 19th.

HIGH SCHOOL MINSTREL

Tonight at the Crystal the high school boys are giving a minstrel performance. The boys have demonstrated their ability along these lines in time past, and many enthusiastic fun-lovers will swell the crowd and hear the songs of fun and the jokes which are irresistible and put over the foot-lights with the customary "pep."

Mrs Frank Richard is expected to return this week from Wellington, Kansas, where she went to the funeral of her mother who was killed there by a Rock Island freight train.

Rev. E. D. Lewis, accompanied by H Clay Franklin, filled his regular appointments last Sunday at Angus and Capitan.

Tom Chant has returned to El Paso after a visit of several days to his parents, Mr. and Mrs. Harry Chant, west of town.

THE DANGERS OF AUTOMOBILE TRAFFIC

And How we Might Help to Prevent Them. Many Drivers go to Fast. Pedestrians Should not Walk in Street

MIDDLE OF STREET THE VEHICULAR RIGHT-OF-WAY

Following is an interesting article by Mrs. J. B. French read at the Civic League meeting Tuesday afternoon.

The rapidly increasing motor traffic on the streets of our town, while it shows the prosperous condition of the community, also brings with it a certain element of danger.

There are two reasons for this danger here

(1) Many drivers drive too fast, especially at crossings, around corners, and when passing other vehicles.

(2) Pedestrians walk in the middle of the street—that part of the road which is the vehicular right of way.

There is a movement on foot now, I understand, for incorporation, and many people seem to think if this carries and the town is incorporated that motor traffic, as well as many other things, can be easily controlled Doubtless incorporation would help in many ways provided we elected men to fill the various offices who would enforce the laws but what assurance have we that we would get the laws enforced then any more than we do now? We have on our statute book at the present time the following state laws: From Chapter X—Article 388 Date of March, 1913

Use of Highways. "Every person operating or driving a motor vehicle on the public highways shall (Also) when approaching an intersection or cross roads, or when passing another motor or other vehicle, or herd of cattle, sheep, horses or other animals, slow down to at least 15 miles per hour, and shall signal in such manner as to give warning of his approach"

Same Chapter Article 389 Same date

A person operating or driving a motor vehicle shall on signal by raising the hand from a person riding leading or driving a horse or horses or other animals bring such motor vehicle to a stop, and if traveling in the opposite direction remain stationary so long as may be reasonable to allow such person to pass, and if traveling in the same direction use reasonable caution in passing"

Same Chapter Article 394. Same date.

Duties of Peace Officers:—It shall also be the duty of the Secretary of State to require of sheriffs, constables and other police officers an enforcement of the provisions of this chapter."

Now if all motor drivers observed the first of these laws and slowed down to 15 miles per hour when approaching cross roads, rounding corners, and passing other vehicles, and "tooted their horns" before they were right on the crossing most of the danger at all corners and crossings would be averted.

There are some who think 15 miles too fast for cross roads and if we had incorporation that limit could be cut down to 10, 8 or whatever rate of speed those in authority thought expedient, but if we can't enforce a law we now have limiting the speed to 15 miles what hope have we of enforcing a law of a slower rate of speed

I agree with the statement who said "An unenforced law is worse than no law at all" and I respectfully suggest that The Civic League of Carrizozo draw up a petition requesting the rigid enforcement of Articles 388 and 389 of Chapter X on our statute book and send a copy of said petition to the sheriff

Let us now consider the second cause for danger from motor traffic as stated above—pedestrians and especially children walking in the middle of the street Of course the principle reason for this is because we have no pavements, but in many instances it is merely force of habit. Many of our streets now are just as level and good to walk on at the sides as in the middle so let us set the good example by taking the sides ourselves and let us impress on the children the desirability of walking on the sides of the street and not leisurely saunntering in danger's pathway—the automible right of way.

'Tis true there are places where the motor tract is the smoothest, if not the safest, part of the street but if we would take this matter up earnestly and by common consent would select a place to walk either at one or at both sides of the streets and all pedestrians used it could we not in a short time have reasonably good walkways or at least pathways parallel to but not identical with that of the vehicular traffic?

Would it be impossible for us to raise a little money to be applied toward moving the bumps and ruts along the sides of some of our more important streets? I'm sure the teachers of our public schools would be glad to co-operate with us in this matter and would talk to the children in a body about the dangers of going to and from school on that part of the street mostly used by automobiles.

How many of us have had the blood freeze in our veins as we have seen a car dash up behind a group of children and see them scatter right and left, then as the car gets closer some little tot wanting to join brother, sister or friend rush across the road escaping eternity only by inches.

There is a splendid article on this very subject in the American Magazine for April which doubtless some of you have read It says in part "The automobile is a locomotive operated on the public thoroughfare. It has most of the speed and much of the killing power of a locomotive, but has one supreme advantage over the locomotive in the matter of saving the lives of those who encroach on it ligitimate right of way—the automobile can almost invariably dodge the pedestrian who insists on risking his life." But the article goes on to say as long as girls and boys are allowed to run and play in that part of the street where cars constantly run often to fall sprawling in front of a rapidly moving machine dart unexpedly from behind a wagon, or rush across the street at the least expected moment that no degree of skill can prevent sooner or later injury to some of them."

The article further says—"There was a time when the driver of an automobile or a motor truck was more or less in conflict with the drivers of horse vehicles but that day has passed. Even the push cart man knows and conforms to his proper rights in swifter moving traffic. But how about the pedestrian? How about the fathers and mothers of scores of children who play in the street? Are the just rights of these to the use of the street properly defined and properly enforced?"

Laws will help but we must have incorporation before we can get the laws and after incorporation is an assured fact it takes a year before the machinery of the law is in work-order.

What then may happen in a year? Summer is coming on, which means there will be more cars on the streets and unless we, as mothers, take this matter up there will be more children on the streets in harm's way Legally now we have every right to walk on any part of the public thoroughfare, to allow our children to walk there, and legally they can make the automobile track their constant play ground But under such conditions it is just a question of time till some child is killed or what is worse, horribly maimed for life.

Are we so callous, so indifferent to consequences that we must wait for laws to be made compelling us to keep ourselves and our children out of destruction's path? Must we wait for some horrible tragedy to occure in our midst to wake us up?

Let us then make a most strenuous effort to enforce the laws we now have, and let us impress upon our own children and all other children who may come under our influence the necessity of keeping off that part of the street constantly used by vehicular traffic

NEW MEXICO LAND BEING TAKEN RAPIDLY

Those Looking for a Location in the Southwest Should not Delay Their Coming to This State too Long

MANY LAND GRANTS IN NEW MEXICO OF VARIOUS KINDS

(BY ROBT. P. ERVIEN, Com. Public Lands)

Land in New Mexico during the past two years has been taken up at a very rapid rate, and it would be well for those that may be looking to the southwest for a location, not to delay their coming to this state too long But come and investigate conditions first, and then bring your family if you decide to stay.

There are many land grants in New Mexico, of various kinds peculiar to the west. Among them are some that were made to individuals and to communities by the Spanish and Mexican governments, respectively, and later confirmed by the United States There are large Indian reservations and grants to Pueblo Indians; military reservations; National Forests; grants to railroads; coal and oil lands temporarily withdraw from entry by the Government, and lands set aside for school purposes but beside these there yet remain open to the entryman a magnificent acreage awaiting his coming.

Among the numerous inquiries reaching the State Land Office, there is none more insistent than that which pertains to the preliminary proceedings necessary to the acquiring of state lands by purchase, and for this reason the explanations herein given are very explicit in order that those unfamiliar with such matters may be fully informed on the subject.

In the first place it must be understood that the twelve million acres originally granted to the State of New Mexico, to which reference is hereinbefore made under the caption "Finances and Taxation," were not set aside in any particular section of the state, but have been selected from unoccupied lands of the U S Government, located in the various counties of the state. The State Land Office has no complete list of these lands for distribution, as it is awaiting final action by the U S. Government on approximately three million acres which have not yet been clear listed, (which is equivalent to a patent) to the state

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought

Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home *I did not need the doctor*. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it." —Mrs. E. H. Bean, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

TOO SEVERE A PUNISHMENT

Tramp Objected to So Long a Sojourn in a Town That Shall Remain Nameless.

A certain town—not the one you live in, dear reader, but it's nearest and dearest rival—was noted for being dead slow. There was no amusement in the place, not even so much as a moving-picture show, and everybody went to bed at nine o'clock every night because there was no other place to go.

One day a tramp was caught begging in the streets of this town and was promptly arrested and arraigned before the justice of the peace.

After hearing the evidence the magistrate put on his sternest look and said: "It appears from the testimony presented here that you are a vagrant without visible means of support. In order that you may not become a charge upon the taxpayers of a respectable community I sentence you to leave this town in three hours."

"Aw Judge," pleaded the tramp, with a look of abject terror on his face, "have a heart, won't yer? I didn't do nuthin' but ask a guy fer a nickel. Please don't make me stay in dis burg all dat time. Make it three minutes, Judge, can't yer?"

A girl thinks she has made good as soon as she hypnotizes some young man into buying her an engagement ring.

"Yes; two things—advice and water."

Ever Eat Grape-Nuts?

There's a vast army of physical and mental workers who do.

One reason—its delicious nut-like flavour.

Another—it is easily and quickly digested—generally in about one hour.

But the big reason is—Grape-Nuts, besides having delicious taste, supplies all the rich nutriment of whole wheat and malted barley, including the "vital" mineral salts necessary for building brain, nerve and muscle.

Always ready to eat direct from the package, Grape-Nuts with cream or good milk is a well balanced ration—the utmost in sound nourishment.

Acerca de la Guerra.

Una pelea violenta continúa entre los Rusos y los Teutones en la frente oriental, desde Riga hacia el Sud.

El General Funston dió la órden para que se le envíen ocho aeroplanos además de los que tiene ahora.

Abriendo su camino hacia el sitio de Verdun por un bombardeo terrible, los Alemanes alrededor de esa ciudad han capturado la pequeña loma de Haucourt.

Seis biplanos primer escuadrón en comando del Capitán B. D. Foulois, llegaron á Columbus, N. M., y van á explorar los montes con el objeto de descubrir al bandido Villa.

Los Austriacos fueron obligados á salir de Czernowitz, capital de Bukowina, Ispahan, Persia, fué capturada de los Turcos, que están huyendo ante los Rusos siempre adelantando.

Rusia ha empezado una ofensiva que puede tener gran importancia en la frente del noreste. Las tropas del Zar capturaron tres líneas de trincheras alemanas en la región de la orilla del suroeste del lago Narocz y están continuando su marcha al otro lado de las posiciones capturadas.

El General Luís Herrera se habría separado del General Carranza declarando que resistirá con toda su fuerza la entrada de los Americanos en Méjico, aunque quede todavía opuesto á la causa de Villa, según reportes procedentes de fuentes consideradas dignas de fe y recibidos en El Paso, Tex.

Oeste.

El tren de pasajeros N° 5 de "Clover Leaf," viajante comercial, fué descarrilado por el viento cuatro millas al este de Marlán, Ind., durante un ciclón.

Los arrestos de los partidarios de Villa en El Paso, Tex., y en otros puntos al largo de la frontera han alcanzado proporciones al por mayor.

El cónsul García el jueves por la noche anunció que había recibido un telegrama en El Paso, Tex., del Gen. Bertani diciendo que Villa estaba rodeado en El Oso, cinco millas al sud de Namiquipa, por las tropas americanas y carranzistas, y que era inminente la batalla esperada. Bertani dice que las tropas americanas llegaron después del vencimiento de las tropas de Villa por las de Carranza.

Extranjero.

Una tentativa, que no tuvo buen éxito, fué la de asesinar al primer ministro de Bulgaria, Radoslavoff.

Unos revolucionistas dispararon armas de fuego sobre el vapor Tachun en el Yang-Tse-Kiang, cerca de Feng-Tu-Hsien.

Sir Charles Wyndham, director de actores, se casó con la Señorita Mary Moore, prima dona de su compañía, en Londres.

Henry P. Fletcher, el nuevo embajador de América á Méjico, salió de Panamá á bordo del vapor Gorillo para Nueva York en su rumbo á Washington viniendo de su puesto en Santiago de Chile.

Sport.

Forest Duffy y Frank Bishop, jugadores de pelota muy bien conocidos en Denver, firmaron contratos para jugar con los del Club de Crested Butte, Colo., esta estación.

Fred Bunger, capitán del juego de balón cinco de la temporada de 1915, de la Universidad de Denver, fué reelegido á la posición para 1917 por los hombres de letra de la cuadrilla.

General.

El alguacil Ruby Rivera de Rawlins, Wyo., salió para Nueva York, en contestación á una carta de "Bob" Meldrum, asesino de "Chick" Bowen, un cowboy, en Baggs, Wyo., por quien están todavía buenas las promesas de una recompensa agregando la suma de $1,000, diciéndole que está en la ciudad y que se rendirá á llegada del oficial, que es su paisano y amigo desde mucho tiempo.

De todas las tropas enviadas á la frontera, todos excepto un batallón entrarán en Méjico, aumentando así la fuerza del General Pershing en 2,000 hombres. Un batallón de Vigésimo-cuarto regimiento de infantería—un regimiento de negros—que está en su estado completo, como en tiempo de guerra, y que hace poco retornó de las Filipinas, será empleado de patrulla en la frontera.

Washington.

El Senador Sherman presentó una resolución autorizando al Presidente á llamar 50,000 voluntarios para servicio en Méjico.

SOME WESTERN CANADA GRAIN REPORTS

In its issue of February 24th, 1916, the Wadena (Minn.) Pioneer Journal has the following letter from Western Canada written by Walter Gloeden, who is renewing his subscription to his home paper:

Oats 115 Bushels Per Acre.

"The times we are having up here are very good in spite of the war. I have had very good crops this fall and we are having very good markets for it all. Wheat went from 30 to 60 bu. to the acre, oats from 50 to 100 bu. to the acre. I had an 18-acre field of oats which yielded me 115 bu. per acre by machine measure, so I think this is a pretty prosperous country. I have purchased another quarter section, which makes me now the owner of three-quarters of a section of land. The weather was very nice this fall up to Christmas, then we had quite severe weather, but at the present time it is very nice again."

One of the Best Countries I Ever Saw.

"I lived many years in Alberta; filed a homestead in the Edmonton district; own property in several parts of Alberta. I found it one of the best countries I ever saw; its banking system is better than that of the United States; one quarter section I own, with about $4,000.00 worth of improvements, pays $18.00 a year taxes. All tax is on the land; implements and personals are not taxed. I was secretary-treasurer of Aspelund school district for two years. My duties were to assess all the land in the district, collect the tax, expend it ($1,000.00 a year), hire a teacher, etc., for the sum of $25.00 a year. Some economy, eh!

"All school and road taxes are expended in the districts where they are collected. There are no other taxes. Land titles are guaranteed by the government and an abstract costs fifty cents. Half of the population of Alberta are Americans or from Eastern Canada. (Sgd.) WILL TRUCKEN MILLER." Advertisement.

SWAMP-ROOT SAVES KIDNEY SUFFERERS

You naturally feel secure when you know that Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, is absolutely pure and contains no harmful or habit producing drugs.

The same standard of purity, strength and excellence, prescribed by Dr. Kilmer many years ago, is maintained in every bottle of Swamp-Root.

Swamp-Root is scientifically compounded from vegetable herbs. It is not a stimulant and is taken in teaspoonful doses. It is not recommended for everything. According to verified testimony it is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

If you suffer, don't delay another day. Go to your nearest druggist now and get a bottle. All drug stores sell it in two sizes—fifty cents and one dollar.

However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS

Says Too Much Meat Forms Uric Acid Which Clogs the Kidneys and Irritates the Bladder.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

WATCHFUL PURSUING

I am here in the interest of my country. Our country's policy in Mexico has changed. The Captain of our ship of State has changed his mind. The time has come to strike; but we must find the man to hit before we shoot. The policy has changed from watchful waiting to watchful pursuing It is the patriotic duty of every citizen to help watch.

I have packed my grip and am on the wing, without any authority from the head of our government; but stired up by what seems to me a patriotic duty I am putting up here at a second class hotel because I have to pay my own expenses. I had arranged for a meeting of the citizens and I will make at that meeting the following stirring address:

Fellow Peekers: It has seemed to me that the attitude of your location has put you in an especially advantageous position to aid our country, which I urge upon you as a patriotic duty. It is no time now to criticise the policy of watchful pursuit. When we were waiting for something we didn't know what, it was well enough to criticise But now fellow Peekers, the time has come to strike and we must watch to find what to hit.

It is with no feeling of disrespect that I address you as Peekers Peeking in the sense used here is just as honorable as watching Peeking means the same as spying Some of the greatest services to our country in times past were by spyers It is only when peeking is not justifiable that it becomes contemptible. Spying enabled my wife to get a divorce and I have no respect for the spyer.

Peeking implies that the person vatched is not aware of it I would arouse you to take advantage of your location and peek over the border into Mexico and locate a man by the name of Villa. Our country wants him and wants him bad. He has been the actor in many scenes of bloodshed in our distracted neighbor republic. He came into prominent notice when our country made it impossible for Huerta to bring peace out of the turmoil in Mexico.

It may have appeared to you as it did to me, unwise for this country to enter into the internal disputes in Mexico. Of course there was the justification of the cause in the idea that Huerta had been instrumental in Madero's taking off. If that were true it was a matter for Mexico to settle herself In attempting to settle that question for her this country got into the same fix as the fellow who stepped into protect the defender's female whose husband was whipping her. The last heard of the defender of the wife was that he was on the run and the wife after him.

When Huerta did not receive the recognition of the U. S. he would not salute our flag He felt a good deal like a man when the prohibitionists want to keep from the enjoyment of his favorite beverage. In my own case I never had contracted an appetite for whiskey until the prohibitioners tried to keep me from it. No man can truthfully say that my nose was too red before that.

Speaking of a red nose reminds me of an incident in the life of Petroleum V. Nasby, whose letters written from the Confederate X Roads in the time of the civil war were read by Abraham Lincoln and as Artemus Ward would say caused the President to say: "His nose was so red and prominent that it

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

TAX THE MAIL ORDER HOUSES

Washington, D. C., March 29, 1916

Thos O. Luster,
Carrizozo, N M

Dear Sir:

I am in receipt of a petition signed by yourself and others, asking my support of a bill to provide a tax upon persons, firms or corporations doing an interstate mail order business. I desire to say that I have been impressed that legislation along this line should be enacted, in order that the legitimate local merchant who contributes his full share toward the development of his community, should not have to meet this untaxed mail order competition.

I have examined the several bills which have been introduced in this Congress covering the subject, and shall give them my earnest support when reached for consideration in the House of Representatives.

Your petition has been presented to the House and referred to the Committee on Ways and Means.

Assuring you that I am always at your service I am,

Very truly yours,
B. C. HERNANDEZ.

ANNOUNCES FOR GOVERNOR

March 27, 1916.

To the Republican Voters of New Mexico:

Believing devoutly in the institutions of our country and in the administrative principles of government advocated by the Republican party, I offer myself as a candidate for nomination at its hands for the office of Governor of New Mexico

I do this, not so much because of the promptings of personal ambition as through a sense of personal responsibility. Through the long period of our territorial life, all parties have more or less drawn away from the people of our State and have yielded themselves unduly to the influences of political leaders—the so called machines. With practically no law regulating primary elections, with the crudest of laws governing general elections and with the dominance of men whose influence dates back to the territorial days of irresponsibility to the people. It seems to me vitually important that something should be done to awaken the interest of the people themselves in the conduct of our government.

The Republican party is the greatest organization for constructive legislation that this country has ever known. It has attracted to its councils those men whose genius it has been to build rather than to criticise. It has given New Mexico a great deal of its best legislation; but there remains to be done much that is essential in the development of the resources of our State, in the realization of the individual possibilities of our people, in the education of our children, in the advancement of our community life, in the development of our institutions for the general good, and in attracting within our bounds, others to join with us in this great work I believe this will only be done through infusion of new blood into the councils of our party and of our state.

About three months ago, I wrote a large number of letters to my political associates, asking their advice in this matter. More than ninety per cent of the replies received advised the announcement of my candidacy, and scores of letters have been since received, responsive to these inquiries, from political friends who had not been addressed, urging the same step. This nomination can only be accomplished if those who love New Mexico and believe in its future possibilities and in the possibilities of its people, turn out to the caucuses and conventions and participate actively and effectively in the work of the primaries of our party. If through their activity, I should be nominated and elected, I pledge myself to earnestly and honestly pursue in New Mexico, the best things which have been achieved in the most prosperous and enlightened states of our country. I shall not attempt untried things, nor advise venturing into fields of political experiment; but I shall seek to promote, by every legitimate and honorable means, the establishment in New Mexico of those conditions which in other states have been proven to be good, sound and workable. This is not reform, it is just common sense, profiting by the experience and the wisdom of others. I solicit the active and courageous support of all those who love New Mexico and believe in its possibilities of growth.

Yours very truly,

RALPH C. ELY.

SHEEP FEEDING

The owners of small herds of sheep and growers of feed crops, will be pleased to learn of the unqualified success of the extensive feeding experiments conducted by F. A. Hubbell, of Albuquerque, on his farm below that city.

When put in the feeding pens last November 15th, they averaged in weight 54 pounds, and the highest market price of the lambs was $3.50 per head. When weighed into the stock yards at Albuquerque on March 20th they weighed an average of 82 pounds strong, and were worth more then nine dollars a head.

This result was secured by methods of feeding and handling easily duplicated by any small farmer or herd owner in the state who has the feed, or can secure the financial backing to buy the corn, producing his own rough feed.

There can be no mistake about the feeding being profitable, as Mr Hubbell used more then three thousand head for the experiment thereby removing all elements of chance possible, and making the results more representative. The lambs used were considered rather under than over the average, being purposely selected under. The pens were in the open, no shelters from the weather being used, but they were so arranged that the men could accomplish much with the least effort. Every pound of feed used was carefully weighed and the data to be given out by Mr Hubbell as soon as the lambs have been turned into money will be of absolute value to those contemplating picking up some of the promising profits of the business.

Mr. Hubbell believes that an industry handling more than twenty five millions of dollars annually can easily be built up in the state on sheep feeding alone, and that the cattle feeding will add many more millions. He will feed about fifteen thousand sheep and three or four hundred head of cattle the coming season.

LISTEN TO THIS

Listen to what Herman Rosenfield advertising manager of Sears, Roebuck & Co. recently told the members of the American Ad Club at a convention:

"We have a bureau whose duty it is to read each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers and when we find a town where the merchants are not advertising in the local paper we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers." Could we find a stronger argument as to the need of advertising by the local merchants?—Andrew County (Texas) Times.

ARE YOU A PRAETORIAN?

If you are not a Modern Praetorian you are missing an opportunity to belong to one of the best Fraternal Orders in America. Many of the best citizens in Carrizozo and their wives have become members of Carrizozo Council.

Large Reserve to Protect Policy-holders

The Praetorians have over $60.00 reserve per member to protect policy holders. The Praetorians began business 18 years ago and began to put aside a reserve from the very beginning. This is the reason for the large reserve. The strength of any insurance institution is measured by the reserve per member. We charge enough to be safe; but no not charge an exorbant rate.

20 Year Payment Policy Our Leader

The Praetorians sell eight different policies. The 20 year payment is our leader. Why pay premiums on a policy as long as you live when you can get a policy in The Praetorians and get it fully paid up in 20 years. Any able bodied man can carry $100.00 to $3000.00 of this plan and not be burdened and their families will be protected. Accident benefits in every policy without extra cost. Every policy in full force from first payment. Annual or monthly payments.

Women and Men Admitted on the Same Basis

Women and men are admitted on the same rate basis. All join the same lodge and attend the meetings together. This makes a fine social feature.

If you are in the market for life insurance all we ask is that you investigate The Praetorians before taking out a policy. You will be pleased with a Praetorian policy.

WATCHFUL PURSUING

(Continued from page three)

was to him a pillar of fire by day and a pillar of cloud by night" An agent for a skin powder tried to sell Nasby a box politely telling him that he could entirely conceal the color in his nose by its use. Nasby told him that the color in his nose had cost him thousands of dollars and he didn't want to hide it

This man Villa became prominent by reason of his being a good fighter under the banner of Carranza After the defeat of Huerta, whose hands our country was holding while Villa was slugging him. Carranza like Roosevelt wanted to be president Then Villa, who had made Carranza possible wanted a president for his country elected under the constitution of his country

History is full of his story. His promise and victories had made another great, and he got no benefit Carranza got there Then Villa turned against the U S.

During the time, several years, it took for all these things to transpire our country was watchfully waiting. There were many depradations committed against the U. S There were many Americans killed, women and children were outraged. Senator Fall told about these things publicly in a speech in the Senate Chamber. He was so unreasonable as to want to fight right then

I have known what kind of a man Villa was ever since his courtship and marriage. He never even stopped to pop the question The girl was a saleslady in a dry goods store. The scoundrel went in there and asked for ten cents in "toback er." She smilingly told him they didn't keep it. He knew it. He had simply asked for something they didn't have because he didn't have the ten cents Then he took her right along with him and she became Mrs Villa.

What kind of a husband do you think he would make? Of course since his marriage he has been much away from home fighting the friends of Mexico He has not been there to enjoy his palatial residence located where he happened to pitch his tent; but I am creditably informed that he is a worse husband than some of those broken down Hinglish Lords who have married American girls for their money.

Now he has committed an act that has opened the eyes of the Captain of our ship of State

He went boldly into Columbus, named after the discoverer, of our country, and killed American citizens proclaiming "death to Americans."

It was time certainly that our policy should change from waiting to moving. While we are moving we must still be watchful to find the man we want to hit.

Don't be too sure that we can't find him He couldn't escape us even if he went up The heavens are full of our aeroplanes If he goes below we couldn't ask St. Peter to do more for him than send him there.

Oaks White.

OBITUARY

Miss Verna Ellen Skinner, second daughter of Mr. and Mrs. Lute A Skinner, died at her home on Nogal Mesa, March 25, 1916.

Verna was 16 years, 11 months and 9 days old when death claimed her as its own. She was sick only a short time and her going was a terrible shock to her relatives and friends. She first took the measles, which developed into bronchial pneumonia, that so soon sapped her young life and death fallowed. All was done for her that loving hearts and tender hands could, but to no avail.

Verna was a dear sweet girl, loved by every one; to know her was to love her She was the idol of her home, because of her kind obedient and loving disposition. She leaves father, mother, three sisters and two brothers to mourn her untimely death.

We know sweet Verna has gone to rest. We mourn for her, but not as one who has no hope. Our loss is her eternal gain. She has been spared the trouble, trials and distresses incident to this life, and while we can not call her back to us, we can go to her The Lord gave her to us; the Lord has taken her away, while we bow in humble submission to his Holy will. There is a vacancy in our home time can never erase. The beautiful star in the home for 17 years, has been transplanted in the skies where she awaits the coming of those whose life she has been such a blessing Her body was laid to rest in the Angus cemetery, while her pure soul returned to the God who gave it. Funeral services were held by her uncle Robert C Skinner amid a large crowd of relatives and friends. Look up dear loved one and prepare to meet your darling in the sweet bye and bye

We shall sleep but not forever,
There will be a glorious down,
We shall meet to part no never
On the resurrection morn

Mrs. Pinkie A. Skinner.

"YOU TOLD ME THE TRUTH AND I WANT THE PEOPLE TO KNOW IT"

The following unsolicited letter has been received from Mr. J. F. Ward of Donalda, Alberta. It is a plain statement of conditions as Mr. Ward has found them:

A Settler's Plain Letter.

"It is with pleasure I drop a line to you. We had a good year. Off of 65 acres, oats and wheat, I got over 2,500 bushels of wheat and oats. Oats went here from 50 to 100 bushels per acre, and wheat from 25 to 52 per acre. Just see me being here one year and have over 700 bushels of wheat. It is now over $1.00 per bushel. Oats is 42 cents, and going up. You told me the truth, and I want the people of Toledo to know it. Hogs are 8¾ cents; cattle are high. Canada is good enough for me. I have 5 good horses. I sold 2 good colts, 2 cows and 18 head of hogs and killed 2. I have 6 hogs left. I got 400 bushels of potatoes off an acre and a good garden last summer, fine celery and good onions. One neighbor had over 1,200 bushels of wheat, and sold over $700 of hogs and 2,000 bushels of oats. This is a great country. If you should tell the people of Toledo of this it would get some of them thinking. The soil is a rich black loam, and a pleasure to work it.

"We have a good farm. We have a flowing well with soft water. It is the best water in the country. Some people think they got to go to war when they come out here. They need not be afraid of war. There is no war tax on land; only school tax, $12.00 on 160 acres, and road tax of two days with your team. I tell you the truth, there is no land in or around Toledo as good as our land here in Alberta. If anybody wants to write us, give them our address.

"We have had nice weather. We have had it quite cold for one week, but no rain and sleet, and the sun shines nearly every day, and it is hot in the sun. Coal is $2.25 per ton. The people are very nice and good here. We are well enjoying the West. The horses and cows are feeding on the prairies all the winter. We just have two horses in the stable to go to town with. Yours truly, (Sgd.) J. F. WARD, Donalda, Alberta, Feb. 9, 1916."

Statement of Steve Schweitzberger

"I was born in Wisconsin, but moved with my parents when a boy to Stephen Co., Iowa. I was there farming for 50 years. I sold my land there for over $200 an acre. I moved to Saskatchewan, and located near Briercrest in the spring of 1912. I bought a half section of land. I have good neighbors. I feel quite at home here the same as in Iowa. We have perfect safety and no trouble in living up to the laws in force. My taxes are about $66 a year on the half section for everything. I have had splendid crops. Wheat in 1915 yielded me over 50 bushels to the acre. That is more than I have ever had in Iowa, and yet the land there costs four times as much as it does here. The man who comes here now and buys land at $50 an acre or less gets a bargain. (Sgd.) S. Schweitzberger, February 9th, 1916." Advertisement.

AN APPRECIATIVE LETTER.

Mr. M. A. Page, Osceola, Wis., under date of Feb. 16, 1916, writes: Some years ago I was troubled with my kidneys and was advised to try Dodd's Kidney Pills. It is now three years since I finished taking these Pills and I have had no trouble with my kidneys since. I was pretty bad for ten or twelve years prior to taking your treatment, and will say that I have been in good health since and able to do considerable work at the advanced age of seventy-two. I am glad you induced me to continue their use at the time, as I am cured.

Hot Water Each Morning Puts Roses in Your Cheeks

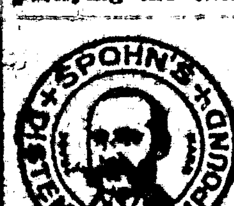
To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexions, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, billous spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.



HORSE SALE DISTEMPER

You know that what you sell or buy through the sales has about one chance in fifty to escape SALE STABLE DISTEMPER. "SPOHN'S" is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will soon be rid of the disease. It acts as a sure preventive, no matter how they are "exposed." 50 cents and $1 a bottle; $5 and $10 dozen bottles, at all good druggists, horse goods houses, or delivered by the manufacturers.

"Go ahead, niggah," retorted Sambo. "Go ahead and hab me arrested. Ah'll mek yo' prove whar yo' got dem chickens yo'self!"

The plain, unvarnished truth is better than questionable rhetoric.

BACKACHE AND KIDNEYS

Dear Mr. Editor:

For the benefit of others, I gladly give this statement regarding the merits of "Anuric." Am nearly 76 years of age. I suffered from backache, weak back, rheumatism, and could not control the excretion of the kidneys. I can safely say that "Anuric," the new discovery of Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., has done me more real good than anything I have ever taken for these ailments. Signed—Mrs. N. M. Flint.

NOTE:—A new remedy, called "Anuric," has been discovered by Dr. Pierce. It cures backache, headache and the darting pains and aches of rheumatism, kidney and bladder troubles. This "Anuric" is 37 times more potent than lithia, and dissolves uric acid, as hot water does sugar.

IN THE SPRING

Now is the time to bring to your aid Dr. Pierce's Golden Medical Discovery (in tablet or liquid form). This wonderful remedy helps to restore stomach to its natural health and strength and to secure proper flow of the digestive juices, a good appetite and full digestion of the food you eat. It invigorates the liver, regulates the bowels and purifies and enriches the blood.

Dr. Pierce's Golden Medical Discovery is absolutely free from alcohol and injurious drugs. Its ingredients printed on wrapper. You can be certain it is a true blood-maker, tissue-builder, and a restorative nerve tonic and that it will produce no evil after-effect. Thousands—probably many of your neighbors—are willing to recommend "Golden Medical Discovery" because it has made them stronger in body, brain and nerve.
