THE following dispatch, taken off the wires by B. F. Brown, operator at Nogal, explains itself:

New Orleans, Oct. 7, '92.

Sullivan was knocked out in 21 rounds, by a tremendous blow from Corbett's right. Corbett was declared champion of the world. Corbett did not get a scratch. John L. was brought to the center of the ring and made a speech, resigning the belt, saying he was proud it stays in America. The people have gone wild over Corbett. They also cheered Sullivan lustily.

In the fight Monday night McAuliff whipped Meyers.

On Tuesday night, Dixon, the darkey, whipped Skelly.

We are glad that the agony is over. Expectancy touching the issue of these brutal combats has torn up the country, for, look which way one would, naught but prize fight met the eye and the ear received no sound not coupled with Sullivan. We are glad the monster-brute met a trouncing.—He should now go and hang himself.

"That remains to be seen," as the boy said when he spilt the ink on the table cloth.

OLD TIMES.

It is enough to sicken a well organized stomach to hear some men prate about "old times," and declare that our fathers—those of our aged men—lived better and easier than do the people of to-day.—Let us see:

For instance, in '57 it cost 35½ cents to carry a bushel of wheat by the cheapest route from Chicago to New York; in '91 it cost less than six cents.

Surrounded by these conditions life on the farm was hard indeed. Calico and Kentucky jean had to do for Sunday garments, and an ox cart in which to ride to church was the height of style.

Luxuries for the table were almost unknown; Johnny-cake and salt pork was a princely diet.

Those were days of hard times, when the farmer cradled his grain and raked and bound it by hand. He toiled early and late, saved and scrimped, and received less return for a week of hardest toil than the farmer of '92 receives for a single day's pleasant ride on a sowing machine or a self-binder.

Then, again, think of how hard it was in the "good old days" to secure an education and how easy it now is to become educationally equipped. Let the mind revert back to "the good old days" in which Abe. Lincoln and Andy Johnson were boys. Albeit they both attained to the Presidency neither of them ever attended school for an hour—indeed Johnson became a man and was married before he ever learned to read and Lincoln studied his letters and read borrowed books by fire-place light. Now schools are as open as churches, aye, more so, and learning can be secured like unto salvation, "without money and without price."

Yet to hear some of our free trade croakers croak one could wish that they had been born in the "good old days." Though now living in the glare of school houses, academies and colleges, they are as dark as though they lived in days before kissing was known to the sexes and instinct told lovers to rub noses. Indeed the nasal organs of some of the green back, alliance, calamity and free trade howlers look as though they had not been unused to rubbing about extremities not essential to sweetness of temper or conducive to common sense or decency.

THE White Oaks Republican League met on Wednesday night and elected the following named gentlemen as officers for the ensuing year:

DEATH OF T. B. McCOURT.

On Friday night of last week, T. B. McCourt, County School Superintendent, surrendered his hold on life at Brothers' Hotel, in this town. On the Sunday evening previous to his death he complained of feeling ill, and so complaining retired to bed from which he never rose, but it was not until Friday following that apprehensions were felt as to the result.

Mr. McCourt was born in Buffalo, N. Y., some 46 years ago. His father and mother survive him and are residents of St. Paul, Minn., the former an Irishman and the latter a Virginia born lady. When but a lad of tender years he removed with his parents to Wisconsin, where he grew up to manhood, learned the trade of machinist, was married and held several offices of honor and trust. He came to White Oaks in the Spring of '87, heavily freighted with a complication of diseases, the chief being dropsy and Bright's disease, the latter being the immediate cause of death. While resident here he held the office of Justice of the Peace and two years ago he was elected County School Superintendent.

It was not until Friday that he apprehended that his hold on life was loosening, when he expressed himself as reconciled, remarking that his poor body had suffered much pain and needed rest.

He leaves four children to mourn the loss of a loving father—John and Paul, Jennie and Margie. On Saturday his funeral took place from the Congregational Church and was largely attended, and the remains of "Tom McCourt" were followed to the grave by a large number of laden carriages.

* * *

Whether death invades the charmed family circle and renders his visitation a personal loss to us; knocks at a neighbor's door and enters to depart with a friend, or strikes down a stranger within our gates, his every conquest causes not only pain to the heart of cognizant survivors, but the nerve tissues of the brain are enforced to work out the problematic thought as to where the spirit which inhabited the vacated body had gone. There are some who hold to the belief that death is a finality, closing in oblivion ALL of life—others who believe that death is but transition from one sphere of life to another. But there are none who KNOW, nor can any know until they pass the portal whose gates never outward swing, and however much curiosity one may hold to fathom the unfathomable mystery, all of us prefer living in ignorance to dying in pursuit of knowledge touching the solution of the mooted question.

The Christian's hope is fathered to the thought that this earth is not the only home of human life, but only the preparatory school, and this hope seems to be chrystalized in the fact that savage, barbarian man is born with instinct which tells him that there is a Supreme Being and a future life. We all know how truthful the homely old adage is, "While there's life there's hope," but oh! how blissful the thought, born of knowledge, that our loved one's last heart-beat pulsated with hope of immortality.

IF it be true that from 1850 to 1860 the market price of corn was from 72c. to 95c. per bushel, as brazenly stated by our local contemporary, how is it that during the winter months within the decade mentioned, we, situated in a R. R. city in the great corn producing State of Illinois, took corn on subscription at 10c. per bushel using it for fuel, while the cash price was still less! Figures won't lie, but it frequently happens that the man who makes figures falls into the democratic habit of prevaricating. We doubt not that some of our readers were corn burners in the days indicated and will certify that our experience was theirs.

Right here, for the information of such of our readers as never employed corn as a substitute for wood or coal, we'll say that corn on the cob is cleaner and produces a fiercer heat than any other thing we wot of, but it is dear at 10c. or any lower price for fuel, as it is very destructive to stoves, burning them out in short order. Distilleries in the days shortly preceding the war paid the highest prices for corn, but they were few and very far between, and corn being so low it had to be burned or permitted to rot, save in sections where large herds of cattle were raised and stock raisers used to cultivate their own feed and their motto was, "the lower the price of corn in the shock the higher it is in the hoof."

$300 Reward for Ore Thieves.

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion.—Therefore, the "Old Abe" Company offers a standing reward of Three Hundred Dollars for the arrest and conviction, of or information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore.—The rule of this company is to millall specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holder of Old Abe specimens.

Republican Platform.

The representatives of the Republicans of the United States assembled in general convention on the shores of the Mississippi river, the everlasting bond of an indestructible republic whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the nation under the banners inscribed with the principles of our platform of 1888, vindicated by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles.

We reaffirm the doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the Republican congress. We believe that all articles which can not be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor, there should be levied duties equal to the difference between wages abroad and at home. We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890. We denounce the efforts of the Democratic majority of the house of representatives to destroy our tariff laws by piecemeal, as manifested by their attacks upon wool, lead and lead ores, and we ask the people for their judgment thereon.

We point to the success of the Republican policy of reciprocity, under which our export trade has vastly increased and new and enlarged markets have been opened for products of our farms and workshops. We remind the people of the bitter opposition of the Democratic party to this practical business measure, and claim that as executed by a Republican administration, our present laws will eventually give us control of the trade of the world.

The American people, from tradition and interest, favor bi-metallism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions to be determined by national legislation as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt paying power of the dollar, whether of silver, gold or paper, shall be at all times equal.

The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the government shall be as good as any other dollar.

We commend the wise and patriotic steps taken already by our government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every individual, rich or poor, native or foreign born, white or black, this sovereign right granted by the constitution.

The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our Republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of the elections shall be fully guaranteed and protected in every state.

We denounce the continued inhuman [illegible] outrages [illegible] American citizens [illegible] certain southern [illegible] [illegible]

We re-affirm our approval of the Monroe doctrine and [illegible] the achievements of the manifest destiny of the republic in the broadest sense.

We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

We favor efficient legislation by congress to protect the life and limbs of employes of transportation companies engaged in carrying interstate commerce, and recommend such legislation by the respective states as will protect employes engaged in state commerce, in mining and manufacturing.

The Republican party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of faith, color or nationality; it sympathizes with the cause of home rule in Ireland and protests against the persecution of the Jews in Russia.

The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We, therefore, declare anew our devotion to liberty of thought and conscience, of speech and of the press and approve all agencies and instrumentalities which contribute to the education of the children of the land, but while insisting upon the fullest measure of religious liberty, we are opposed to any union of church and state.

We reaffirm our opposition, declared in the Republican platform of 1888, to all combinations of capital organized in trusts or otherwise to control arbitrarily the conditions of trade among our citizens. We heartily endorse the action already taken upon this subject, and ask for such further legislation as may be required to remedy any defects in existing laws, and to render their enforcement more complete and effective.

We approve the policy of extending to towns, villages and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the postoffice department and the highest class of postal service.

We commend the spirit of reform in the civil service and the wise and consistent enforcement by the Republican party of the laws regulating the same.

The construction of the Nicaragua canal is of the highest importance to the American people as a measure of national defense and to build up and maintain American commerce and should be controlled by the United States government.

We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interests of the people of the territories and of the United States. All the federal officers appointed for the territories should be selected from bona fide residents thereof and the right of self-government should be accorded as far as practicable.

We favor the cession, subject to the homestead laws, of the arid public lands to the states and territories in which they lie, under such congressional restrictions as the disposition, reclamation and occupancy by settlers will give the maximum benefits to the people.

The World's Columbian Exposition is a great national undertaking, and congress should promptly enact such reasonable legislation in aid thereof as will insure a discharging of the expense and obligations incident thereto and attainment of results commensurate with the dignity and progress of the nation.

We sympathize with all wise and legal efforts to lessen and prevent the evils of intemperance and promote morality.

Ever mindful of the services and sacrifices of the men who saved the life of the nation, we pledge anew to the veteran soldiers of the republic a watchful care and recognition of their just claims upon a grateful people.

We commend the able, patriotic and thoroughly American administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the nation, at home and abroad, have been faithfully maintained, and we offer the record of pledges kept as a pledge of faithful performance in the future.

We give in the following table the new apportionment for each state, the old states being divided between the two parties as they voted the last presidential election:

Newspaper Laws.

Dr. Tuckerman, editor of the Workman, Cleveland, has taken some pains to collect and compile the decisions of the U. S. Courts on this subject and gives to the Washington Post, as the result of his investigations, the following, which may be relied upon as correct:

1. Subscribers who do not give express notice to the contrary are considered wishing to renew their subscriptions.

2. If the subscriber orders the discontinuance of his periodical the publisher may continue to send it until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. If subscribers move to other places without informing the publisher and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it, and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "refused," or have a postal card sent notifying the publisher, leaves him self liable to arrest and fine the same as for theft.

Excellent Train Service.

The present schedule of trains on the A. T. & S. F. R. R. from New Mexico is an excellent one.

A fast express leaves El Paso, Deming and Silver City early each afternoon, making the run to Rincon, and from Wallace to La Junta, by daylight, arriving at Kansas City evening of second day, and Chicago morning of third day after day of departure. This train carries Pullman palace sleepers from El Paso to Kansas City, and Los Angeles to Chicago, with Pullman tourist sleepers Los Angeles to Kansas City making direct connection at La Junta for Pueblo, Colorado Springs and Denver, and at Burrton for St. Louis via the 'Frisco Ry.

The train from San Francisco (with palace sleepers to Kansas City and tourist sleepers to Chicago) leaves Albuquerque daily about noon, strikes darkness near Wagon Mound, arriving in Kansas City evening of next day, and in Chicago the following morning. An additional Pullman sleeper is attached at Las Vegas, running through without change to Denver via La Junta and Trinidad.

The Santa Fe Route aims by its fast time, fine equipment and reasonable rates, to merit the patronage of the traveling public.

Yet there are thousands of homes in America not yet supplied with a set of Dickens, the most high and of the books prevailing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It wants your subscription—yours particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier,
"The Roman Chariot Race," by A. Wagner,

Each of these pictures is 21x36 inches, and they are elegantly reproduced in the etching, showing every flat and color of the great originals, either one of which would not be purchased for $100,000.

"Women and Children First," by G. Napier Henry,
"Christ Leaving the Prætorium," by Gustave Doré,

Each of these pictures is reproduced in photogravure, size 16x20, and suitable for framing, and will adorn the walls of the most school house.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $5,000—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that its promises are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The EXAMINER and the LEADER, the combined price of which is $3.50, will be sent you for one year, postage paid, for $2.50. Send the money to the office of the LEADER and your subscription will be promptly forwarded to the EXAMINER, and you will receive therefor the EXAMINER's numbered receipt. You can get a Premium Supplement by applying at this office.

Republican Platform

The representatives of the Republicans of the United States assembled in general convention on the shores of the Mississippi river, the everlasting bond of an indestructible republic whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the nation under the banners inscribed with the principles of our platform of 1888, vindicated by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles:

We reaffirm the doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the Republican congress. We believe that all articles which can not be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor, there should be levied duties equal to the difference between wages abroad and at home. We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890. We denounce the efforts of the Democratic majority of the house of representatives to destroy our tariff laws by piecemeal, as manifested by by their attacks upon wool, lead and lead ores, and we ask the people for their judgment thereon.

We point to the success of the Republican policy of reciprocity upon which our export trade has vastly increased and new and enlarged markets have been opened for products of our farms and workshops. We remind the people of the bitter opposition of the Democracy to this practical business measure, and claim that as executed by a Republican administration, our present laws will eventually give us control of the trade of the world.

The American people, from tradition and interest, favor bi-metallism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions to be determined by national legislation as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal.

The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the government shall be as good as any other dollar.

We commend the wise and patriotic steps taken already by our government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every individual, rich or poor, native or foreign born, white or black, this sovereign right granted by the constitution.

The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our Republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of the elections shall be fully guaranteed and protected in every state.

We denounce the continued inhuman [illegible] upon American citizens [illegible] in certain south[illegible] [illegible]

We reaffirm our unswerving devotion to the national constitution and to the indissoluble union of the states; to the autonomy reserved to the states under the constitution; to the personal rights and liberties of citizens in all the states and territories in the union, and especially to the supreme and sovereign right of every lawful citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in public elections and to have that ballot duly counted. We hold the free and honest popular ballot and the just and equal representation of all the people to be the foundation of our republican government, and demand effective legislation to secure the integrity and purity of elections, which are the fountains of all public authority.

We favor the extension of our foreign commerce, the restoration of our mercantile marine by home-built ships, and the creation of a navy for the protection of our national interests and the honor of our flag; the maintenance of the most friendly relations with all foreign powers; entangling alliances with none; and the protection of the rights of our fishermen.

We reaffirm our approval of the Monroe doctrine and believe in the achievement of the manifest destiny of the republic in its broadest sense.

We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

We favor efficient legislation by congress to protect the life and limbs of employes of transportation companies engaged in carrying on interstate commerce, and recommend such legislation by the respective states as will protect employes engaged in state commerce, in mining and manufacturing.

The Republican party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of faith, color or nationality; it sympathizes with the cause of home rule in Ireland and protest against the persecution of the Jews in Russia.

The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We, therefore, declare anew our devotion to liberty of thought and conscience, of speech and of the press, and approve all agencies and instrumentalities which contribute to the education of the children of the land; but while insisting upon the fullest measure of religious liberty, we are opposed to any union of church and state.

We reaffirm our opposition declared in the Republican platform of 1888, to all combinations of capital organized in trusts or otherwise to control arbitrarily the condition of trade among our citizens. We heartily endorse the action already taken upon this subject, and ask for such further legislation as may be required to remedy any defects in existing laws, and to render their enforcement more complete and effective.

We approve the policy of extending to towns, villages and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the postoffice department and the highest class of postal service.

We commend the spirit of reform in the civil service and the wise and consistent enforcement by the Republican party of the laws regulating the same.

The construction of the Nicaragua canal is of the highest importance to the American people as a measure of national defense and to build up and maintain American commerce and should be controlled by the United States government.

We favor the admission of the remaining territories at the earliest practicable date, having due regard to the interests of the people of the territories and of the United States. All the federal officers appointed for the territories should be selected from bona fide residents thereof and the right of self-government should be accorded as far as practicable.

We favor the cession, subject to the homestead laws, of the arid public lands to the states and territories in which they lie, under such congressional restrictions as to disposition, reclamation and occupancy by settlers will give the maximum benefit to the people.

The World's Columbian Exposition is a great national undertaking, and congress should promptly enact such reasonable legislation in aid thereof as will insure a discharging of the expense and obligations incident thereto and the attainment of results commensurate with the dignity and progress of the nation.

We sympathize with all wise and legal efforts to lessen and prevent the evils of intemperance and promote morality.

Ever mindful of the services and sacrifices of the men who saved the life of the nation, we pledge anew to the veteran soldiers of the republic a watchful care and recognition of their just claims upon a grateful people.

We commend the able, patriotic and thoroughly American administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the nation at home and abroad have been faithfully maintained, and we offer the record of pledges kept as a plea of faithful performance in the future.

We give in the following table the new apportionment for each state, the old states being divided between the two parties as they voted the last presidential election:

Free Reading Matter.

There are various schemes for supplying reading matter at a trifle above actual cost. What would you think if you could get good literature free?

Drop a postal to G. T. Nicholson, G. P. and T. A., A. T. & S. F. R. R. Co., Topeka, Kan., and ask for a copy of "To Mexico by Palace Car." You can also procure free copies of "A Santa Barbara Holiday," "Guide to San Diego Bay Region," "Las Vegas Hot Springs Guide," and folders relating to Texas, Oklahoma and Kansas.

Newspaper Laws.

Dr. Tuckerman, editor of the Workman Cleveland, has taken some pains to collect and compile the decisions of the U. S. Courts on this subject and gives in the Washington Post, as the result of his investigations, the following, which may be relied upon as correct:

1. Subscribers who do not give express notice to the contrary are considered wishing to renew their subscriptions.

2. If the subscriber orders the discontinuance of his periodical the publisher may continue to send it until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. If subscribers move to other places without informing the publisher and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it, and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

The latest postal laws are such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "refused," or have a postal card sent notifying the publisher, leaves himself liable to arrest and fine the same as for theft.

Excellent Train Service.

The present schedule of train service on A. T. & S. F. R. R. from New Mexico is an excellent one.

A fast express leaves El Paso, Deming and Silver City early each afternoon, making the run to Rincon, and from Wallace to La Junta, by daylight, arriving at Kansas City evening of second day, and Chicago morning of third day after day of departure. This train carries Pullman palace sleepers from El Paso to Kansas City, and Los Angeles to Chicago, with Pullman tourist sleepers Los Angeles to Kansas City making direct connection at La Junta for Pueblo, Colorado Springs and Denver, and at Burrton for St. Louis via the 'Frisco Ry.

The train from San Francisco (with palace sleepers to Kansas City and tourist sleepers to Chicago) leaves Albuquerque daily about noon, strikes darkness near Wagon Mound, arriving in Kansas City evening of next day, and in Chicago the following morning. An additional Pullman sleeper is attached at Las Vegas, running through without change to Denver via La Junta and Trinidad.

The Santa Fe Route aims by its fast time, fine equipment and reasonable rates, to merit the patronage of the traveling public.

Inquire of local agent, or write to G. T. Nicolson, G. P. & T. A., Topeka, Ka.

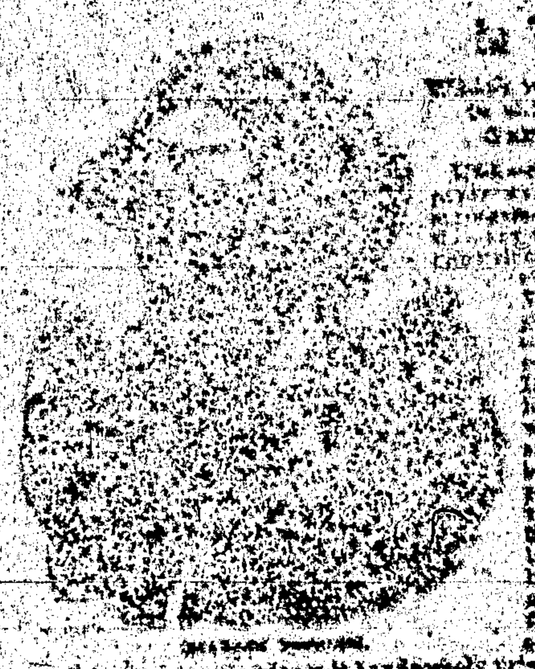
GRAND PREMIUM OFFER!

A SET OF THE WORKS OF CHARLES DICKENS,

In Twelve Large Volumes,

Which we Offer with a Year's Subscription to this Paper for a Trifle More than Our Regular Subscription Price.



DAVID COPPERFIELD,
MARTIN CHUZZLEWIT,
NICHOLAS NICKLEBY,
DOMBEY AND SON,
BLEAK HOUSE,
LITTLE DORRIT,
OUR MUTUAL FRIEND,
PICKWICK PAPERS,
BARNABY RUDGE AND CHRISTMAS STORIES,
OLIVER TWIST AND GREAT EXPECTATIONS,
THE OLD CURIOSITY SHOP AND THE UNCOMMERCIAL TRAVELER,
A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

Lincoln County LEADER one year and full set of Dickens, for $2.75

YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It wants your subscription—yours particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier,
"The Roman Chariot Race," by A. Wagner,

Each of these pictures is ... inches, and they are elegantly reproduced in ... showing every tint and color of the great originals, either one of which would not be purchased for $100,000.

"Women and Children First," by C. Napier Hemy,
"Christ Leaving the Prætorium," by Gustave Doré,

Each of these pictures is reproduced in photogravure, ... and ... for framing, and will adorn the walls of the most refined home.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $6,000—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that the premiums are distributed exactly as agreed and that every subscriber, no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The EXAMINER and the LEADER, the combined price of which is $3.50 will be sent you for one year, postage paid, for $3.00. Send the money to the office of the LEADER and your subscription will be promptly forwarded to the EXAMINER, and you will receive therefor the EXAMINER's numbered receipt. You can get a Premium Supplement by applying at this office,

THE Albuquerque Times has blossomed out as a daily. Considering that it is an organ of the "unwashed" it is marvelous that it should be, as it is, clean in appearance and language—almost the equal in those two important particulars to the LEADER. We wish it a long and vigorous life.

THE editor of the LEADER has not been further away from home than the cemetery in over two years and on Sunday he proposes to open a week's vacation by going to the Territorial Fair at Albuquerque. If our next issue exceeds this in excellence "give the devil his due."

HENRY J. PATTERSON, one of the oldest of White Oaks old citizens, rolled into town a few days ago and is still with us. Henry left here some six years ago, since which time he has been vibrating between the several western States and Territories. From here he goes to Old Mexico. Good luck go with him.

Two weeks more will round out the tenth year of the LEADER's existence. Those of our subscribers who are in arrears—and there are a host of them—are urgently requested to inspect the figures attached to their names on their papers and have them advanced, thus saving us the trouble of making out bills and collecting them.

Ripans Tabules cure the blues.

THE public school and academy will open on Monday next over Ridgeway's store, with the Wharton Bros. as teachers, W. W. M. teaching the common school branches and S. M. Wharton the academic. The whole will be conducted on the graded system. The number in attendance on Monday will be over 130, 25 of whom will be academic pupils.

A CALL has been issued for a People's Convention at Lincoln today. The call is not signed and the chump who wrote it can't spell "principle" correctly. Like the Irishman who said "nepotism" signified sleeping with a nigger, so the author of the call alluded to probably thinks "principal" means something good to drink.—In this case we think one will constitute a "peoples."

W. S PRAGER came up from Roswell this week to look at his new Jicarilla mine. He expressed himself as highly pleased with the prospect, but he couldn't keep his mind on this claim as his wife had just presented him with another, which, while not so large, is richer by far. "It never rains but it pours."

THE Baptists of this town organized last Tuesday night, 10 strong. A committee was appointed to secure quarters for exercises, the ulterior purpose being to build. We apprehend that sprinkling will have to be substituted for immersion until such time as our water supply is increased.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THE schools throughout the Co. during the past year, or since May 1891, have not been as successful as expected under the new school law enacted Feb. '91. The law requires many radical changes principally the sections devoted to revenue. The levy of two mills in '91 was too light, and the levy this year of three mills will not realize sufficient to allow even a 3 month's school in some of the districts, notably in the rural districts where no funds are derivable from the collection of liquor or gameing licenses, these licenses being paid in two or three precincts only. The districts situate in Lincoln, Nogal and White Oaks have large sums to use and have been able to maintain schools the full length of time desired.—There are about 35 districts which realize no benefit from license money, hence have little or no funds with which to maintain schools.—Under the apportionment made July 5, '92, there were $3,025.00 apportioned between 18 districts. The general school fund the same quarter, amounting to $118, was apportioned among 38 districts.—The total number of school children drawing public money in the county is 1,675. There are 32 teachers licensed by the board of examiners.
