Occupying School Lands.

A situation with reference to inclosure of public lands that is liable to interest a good many people in New Mexico, has developed in Utah. A dispatch from Washington states that acting Secretary Chandler, in reply to a letter from the Attorney General, says that, notwithstanding the recent opinion of the Supreme Court of Utah Territory, construing the act of February 25th, 1885, which prohibits the enclosure of public lands, holding that the act does not apply to sections 16 and 36 (school lands) he must request the Attorney-General to instruct the United States Attorney for Utah to take an appeal in the case and commence proceedings in every case of enclosure of school sections by persons not entitled to them.

This applies to school lands in New Mexico as well. Many cases of occupation and inclosure of school lands are now on file at Santa Fe. In many instances entire sections have been taken up and so held, though without a shadow of right in law. When New Mexico becomes a State, provision can be made by the Legislature for the disposal of school lands, but not till then. It is impossible to obtain any title or claim of title to such lands now.—Headlight.

Sure to become a state.

"There is no doubt that New Mexico will make another appeal to the next Congress for the elevation to statehood," said Judge William C. Hazeldine, of Albuquerque, at the Leland hotel. "We think that our next requisition for admission to the Union will be granted. New Mexico is increasing rapidly in wealth and population. Immigration has been stimulated by the establishment of the new land court by which the titles to real estate can be definitely settled. Since the acquisition of the Territory by the United States, the question of land titles has been uncertain. This fact has kept out millions of eastern capital, which would otherwise have been invested in New Mexico, could the investors be sure that their titles to land purchases could not be attacked. The problem of irrigation is being solved in New Mexico.

"We need but to take care of the water we get in the wet season and use it in the dry season. There are plenty of natural dams or reservoirs where the rainfall can be kept. At the Walnut creek flood the water carried a flat-iron on the top of a wave and deposited it on a bluff 100 feet above the valley. That shows the force of the natural flood. This can be utilized. We have a more productive country than is generally known. At our recent fair I saw forty-five varieties of grapes, which had been raised on a plot of ground twenty-five feet wide by fifty feet long.

"The great inundation around Salton seems to be permanent. It has changed the character of the climate in southern California. There have been many rain storms there this summer, something never before known."—Chicago Evening Post.

We once knew a man who got mad at the editor and ordered his paper discontinued, which was done. It was suggested to the dissatisfied subscriber that he punch his finger into water and then look for the hole. He did so and has found it with a magnifying glass of 2000 candle-power.

MORAL.—A large finger leaves a very small hole sometimes.—Ex.

A man 86 years of age was sent to the County Infirmary at Columbus O. He had spent the best part of his life in aiding the working men and women of the country. His name is Wm. Allen, but he is better known as "Land Bill Allen." Over fifty years ago Mr. Allen commenced the work of his life for his fellowmen. At that time he lived in Perry County. He was the owner of valuable farm and surrounded by a happy family. He commenced the agitation for the homestead law and traveled the country over at his own expense, delivered speeches and lectured in the furtherance of his work. He addressed Legislature and helped to mould public sentiments until at last Congress passed the national homestead law, giving every actual settler 160 acres of land. For this work Mr. Allen was highly praised, but he received no pay. He spent his fortune in this cause. Members of this family died one after another, and now he is in the Poor House. His work in Ohio led to the adoption in that state of the exemption law, by which the man has so much property set aside exempt from Sheriff's and Constable's sale. His farm in Perry County was sold by the Sheriff some years ago, since which time he has lived by begging. When sent to the Infirmary Mr. Allen presented a most miserable appearance, his clothing being little better than tatters and rags.

THE ADOBE PALACE.

Secretary Thomas will receive bids for repairing the "old adobe palace" until the afternoon of Oct. 26th. This venerable relic has been occupied by all the governors of New Mexico from 1600 down to date; incidents of thrilling historical interest are woven and interwoven about it like a dream of cobwebs; within its walls the death penalty was pronounced in 1695 by Spanish governors upon hundreds of Indians who were found guilty of participation in the bloody insurrection of 1680; in one of its musty and secluded rooms Governor Lew Wallace made himself rich in fame and gold by writing Ben Hur; in another of its rooms Governor Ross penned the stinging veto messages and other trenchant and wholesome state papers; in all of its many and spacious apartments Governor Prince daily ponders, writes, and rehearses his many matchless tributes to the climate and boundless resources of the sun kissed empire known on the map as New Mexico. Preserve this historic land-mark by all means.—Sun.

An American school boys' composition at school, on "an editor," speaks of that individual as follows: The editor is one of the happiest beggars in the world. He can go to the circus in the afternoon and evening without paying a cent, also to inquests and hangings. He has free tickets to the theatre, gets wedding cake sent to him, and sometimes gets licked, but not often, for he can take things back in the next issue which he generally does. While other folks have to go to bed early the editor can sit up every night and see all that is going on.

The presidents's salary is paid to him in monthly installments of $4,166.67. The warrant is brought to the White House by a special messenger from the treasury department, and afer the president has indorsed it, as he would an ordinary draft, his private secretary deposits it at the Columbia bank. When the president is out of town the draft is mailed to him. The same method is pursued in paying the justices of the supreme court.

The Western farmer, with his hundreds of acres of new and fertile soil, looks with contempt upon the small and often sterile farms that are to be found in some parts of New England. The owner of a Western farm of eight hundred acres, nearly all under cultivation, who was visiting in Maine, sent a letter home, in which he expressed his mind freely as follows:

"Here in this country they call two acres of ground, six hens and an old rooster a farm, and half the time one acre is graveyard. Give me old Kansas every time."—Youth's Companion.

A company has been formed in the city of Mexico to plant 100,000 India rubber trees in the state of Sinaloa.

ICE FOR PUBLICATION,

LAND OFFICE at Roswell, N. M.,
Sept. 10, 1891.

Notice is hereby given that the following-named settler has filed noti e of his intention to make final proof in support of his claim, and that said proof will be made before George Sena, Probate Clerk at Lincoln, New Mexico, on Monday, October 26, 1891, viz: Mathew H. Bellomy, Homestead No. 178, (R. S.] for the S. E. ¼ S. W. ¼, Sec. 20, and N. ½ N. W. ¼, and S. W. ¼ N. W. ¼, Sec. 29, Tp. 6 S. R. 13 E.

He names the following witnesses to prove his continuous residence upon and cultivation of, said land, viz;

NOTICE OF SALE.

Whereas, on the 26th day of May, 1890, Joshua Hale and Susan L. Hale his wife, executed and delivered to Samuel S. Terrell their certain mortgage-deed with power of sale, conveying the following lands and tenements situated in Lincoln county, New Mexico. to wit:

The South half of the Northwest quarter of Section Fourteen (14); Southeast quarter of Northeast quarter of Section Fifteen (15); Northeast quarter of the Southeast quarter of Section Fifteen (15); West half of Southwest quarter of Section Fourteen (14); Southwest quarter of Section Twelve (12); North half of the Northeast quarter of Section Fourteen (14); Northwest quarter of the Northwest quarter of Section Thirteen (13) and the Southeast quarter of the Southeast quarter of Section Eleven [11], all in township Eleven [11] South of Range Fourteen [14] East New Mexico principal meridian, which said mortgage-deed was given to secure the payment of an indebtedness of Three Thousand Four Hundred dollars, as evidenced by a certain promissory note, a copy of which is contained in said mortgage-deed, due and payable one year after the date thereof with interest thereon at the rate of 12 per cent. per annum and 10 per cent. attorney's fees. And, whereas, default has been made in the payment of said note and the same is long since due and unpaid. Now, therefore, in pursuance of the said power of sale in said mortgage deed contained, notice is here by given that I, the undersigned mortgagee, will, on the 12th day of October, 1891, at 9 o'clock in the forenoon of said day at the front door of the Court House at Lincoln, Lincoln county, New Mexico, expose at public auction and sell to the highest bidder for cash the said described premises named in said mortgage deed to satisfy the sum due on said note, the costs of sale and attorney's fees, and will execute and deliver to the purchaser or purchasers thereof, good and sufficient deed or deeds therefor.

Dated Sept. 2d, 1891.

SAMUEL S. TERRELL,
Mortgagee.

JOHN Y. HEWITT

THE INTERPRETER,
White Oaks N. M.

An Important Enterprise.

Pueblo Chieftian.

In the course of his remarks before the committee of the board of trade last night in advocacy of the proposed line of railroad to El Paso via Las Vegas and White Oaks, Mr. Jefferson Reynolds of Las Vegas, a former resident of Pueblo, who is well and favorably known to most of older citizens, mentioned some points which contain food for thought for our enterprising people. He called attention to the fact that the time had arrived when Pueblo must look to the south and west for her trade. On the east she is checkmated by Kansas City and on the north by Denver. A direct independent line of railroad via Las Vegas and White Oaks will connect her at El Paso 1,700 miles of completed railroad in Mexico. The mining resources of that country are being rapidly developed. the demand for mining smelting machinery is large and increasing and Pueblo is at present the most convenient point at which it can be manufactured. The shipments of ore from old Mexico are now more then sixty car loads per day. Of course as long as the only north and south lines of railroad are controlled by the trunk lines running east and west these people will go to Kansas City or Chicago to sell their ores and purchase their machinery and supplies. The eastern trunk lines want the long haul and while they control the only lines running north and south it will be impossible to divert any part of that important trade to Pueblo. An independent line could accomplish this and it is hoped by the projectors to bring by this means a large portion of this business to Colorado cities.

Another important advantage to begained by the construction of the line via Las Vegas and White Oaks is a connection at El Paso with the Southern Pacific thus giving Pueblo people another route to New Orleans on the east and San Francisco on the west.

Our citizens should carefully consider the importance of this proposed new line and give the enterprise all of the aid in their power.

DENVER, LAS VEGAS AND EL PASO.

From the Denver Times

The Times. prints to-day, the first correct map of the proposed Denver Las Vegas & El Paso railroad, together with a concise description of the route and the resources along its line. This enterprise has reached such a stage that the business men of Denver can no longer afford to neglect it. The $10,000 necessary to defray the expense of the preliminary survey has been raised, and that work will doubtless be completed by the close of the year. Although the distance from Denver to El Paso is over 600 miles the connections and conditions are such that only 420 miles of the road will have to built.

The route is almost a bee line. There are no steep grades, sharp curves or dangerous water-courses to be encountered, and the work of construction will, therefore, be comparatively easy. The resources of the country to be opened have already been frequently laid before the public, together with the fact that the whole tributary section is exceedingly anxious to do business with this city; but these alone are not the only advantages to be derived.

New railroad connections of great value will be attained. The line to Topolobampo will soon be built, opening up the trade of old Mexico, passing through a splendid mineral section of that republic and giving access to the best Mexican harbor on the Pacific coast East of El Paso line already built connect with New Orleans, Galveston and Vicksburg. The Eddy road, now building up the Pecos valley, will strike the line at Las Vegas or White Oaks opening a new farming and fruit growing country that is now being rapidly developed This road will also hasten connection with deep water harbors on the gulf. With all these facts it is evident that the Denver, Las Vegas & El Paso line should command the substantial support and consideration of this city. The people of New Mexico and Texas are terribly in earnest regarding the enterprise. They have meant business from the start.

Mass Meeting to be Held.

Hon. R L. Wootton, who represented Trinidad at the Las Vegas railroad convention, arrived in the city, this afternoon. He states that the meeting was a grand success, and the greatest enthusiasm prevailed among all of the delegates with reference to the construction of the El Paso road. Mr. Wootton advocated the project of an independent line from Trinidad to Las Vegas, while the Maxwell grant people were in favor of the Catskill route. Finally, Mr. Wootton carried his point, and the survey was ordered for an independent line through the Stonewall valley. This survey will be begun as soon as the quota of money for this purpose is paid into the treasury from the several cities along the line. Trinidad's proportion is $2,000, and this must be raised at once. To this end a mass meeting of the citizens will be called, this week, to consider the matter and make up the amount. Mr. Wootton predicts great things for Trinidad from this new road. He says that it will give the city a veritable boom, and that it will never do to let such a trifling sum stand in the way of its progress. The Pueblo delegates wanted a new line all the way to that city, but that was put aside as a matter of after consideration. The Denver and Pueblo delegates remained over and are being entertained at the Las Vegas hot springs hotel. The convention concluded with a grand banquet, last night, which did not break up until four o'clock, this morning. Mr. Wootton speaks in high praise of the generous hospitality of the Las Vegas people, who spared no pains or expense to make the visit a most agreeable one.—Trinidad Chronicle.

Correspondence of the Optic.

LAS VEGAS, October 24th,—Friends of our proposed railroad, who have been recounting the resources of the line, seem to have only a passing remark for that portion between Las Vegas and White Oaks, counting it as unproductive, except what value it may have as a grazing country. They all seem to have overlooked a prospective industry, which, to my mind, is scarcely secondary to any resource along the whole line. I refer to the salt beds of Valencia county. These beds are undeveloped and unworked; but nature manipulates them as follows: During the heavy rains, the salt is washed out of the earth, dissolved, and carried in solution to the natural basins which dot the surface of the country. As the water evaporates the salt crystallizes and merely requires to be gathered up and hauled away. For generations, the natives have visited these lagunas to gather salt In recent years, they have sold Valencia county salt all over New Mexico and parts of Colorado, at twenty-five cents to $1.00 per cwt.

In my estimation. it is only a question of time when thousands of thrifty people will owe their subsistence to the industry to be developed on the salt plains of Valencia county. F. MEREDITH JONES.

It will be of interest to old Kansans to know that Hon. Lawrence D. Bailey, of Kansas, died at Lawrence last week, aged about seventy years. The Chief Justice was Thomas Ewing, Jr., son of Hon. Thomas Ewing, of Ohio, whow as the first secretary of the Interior Department. The other Justice was Hon. S. A. Kingman, now dead. Chief Justice Ewing resigned in 1862 to take the Colonelcy of the 11th Kansas Regiment in the war of the rebellion, afterwards promoted to be a Brigadier General and later a Representative in Congerss from Ohio. Gen. Ewing is the only member of the first Supreme Court of Kansas now living —Deming Headlight.

The Fort Lewis military post, near Durango, has been abandoned and the post will be turned into an Indian industrial school, The fort contains all the necessary buildings for school purposes, accommodations for teachers and those in charge, as well as for 700 or 800 Indian children. The abandonment of the post was made upon the recommendation of Charles A. Bartholomew, the Indian agent.—Alb. Citizen.

Here is something from the Boulder Camera that is univer sal in its application, and fits White Oaks just as well as any other place. "If men will debase themselves by doing anything which will get them into trouble. they should not complain if the newspapers make an item of it. The fear of newspaper publication is as potent a factor as the law itself in keeping the populace within bounds. Many disgraceful acts would be committed were it not for this wholesome fear of publicity."

H. L. Ross, the mining expert Frank Raible and George Hopping, of the Advertiser, will leave the city early next week to locate at White Oaks. Arrangements have already been made, material bought, etc., for the issue of a weekly paper at that place, which will bear the euphonious title of "The Old Abe Eagle." Not for the reason that Old Abe ever visited that lonely section of country, or that eagles make it a favorite roosting place, but the name is taken from the Old Abe mine at White Oaks for which a syndicate recently offered $600,000. We sincerely hope that the newspaper enterprise may prove equally valuable. All of the parties are young enough to "grow up with the country," and blossom out in future years as members of congress, bonanza kings, etc The best of wishes of a host of friends in this city will go with them, and extra efforts be made to hurry a railroad to that point. It is best to be on the safe side, and a good railroad line of retreat is not to be despised in case of defeat.—Trinidad Chronicle.

The A. T. & S. F. Co., has made an export grain rate from all points in Kansas and Nebraska to Galveston. As soon as Velasco, the new deep harbor down at the mouth of the Brazos river is supplied with railroad connections, which will be within the next fifteen days, the export, rate will also be made to that port, which now has seventeen feet of water in its harbor against thirteen at Galveston.—L. V. Free Press.

Too honest to steal, too proud to beg, too weak to work, Mrs. Matilda Robinson, forty-nine years of age, a widow, literally starved to death in New York last week.

WHITE OAKS, N. M., Oct., 30, 1891

White Oaks Lodge, U. D., A. F. & A M., holds regular communications on the FIRST and THIRD Saturdays in each month, at Young & Taliaferro's hall Visiting brethren are welcomed.

J. B COLLIER, W. M.
JONES TALIAFERRO, Sec'y.

LOCAL MATTERS.

Lemons. Y. & T.

S. Marcus, from Las Vegas is clerking at Goodman, Zeigler & Co.

Mr. and Mrs. J. Y. Hewitt returned to-day from their Denver trip.

U. Ozanne comes from the rail road to-day with a load of passengers.

P. Lockner, a wool-buyer from Trinidad, has been in town this week.

Another large lot of school books has been received by Mrs. Timoney, at the Post Office Book Store.

Mr. Watson is having a frame cottage built on the south side of town. It will be occupied by Rev. A. A. Hurd and his family.

Mrs. Allen, who has been nursing the sick at Fort Stanton, returned home yesterday. She states that the sickness there is abating.

S. W. Duke and family, from Kentucky, have lately come to White Oaks, with the intention of making this their home.

Among other late arrivels are J R. Patton, C. L. Holbrock, C. L Krouse, B. Melton, M. Katzenburg. D. B. Murray and D. J. Bryan.

All persons indebted to Mrs. C. L Pearman are requested to call and settle immediately, as she will leave White Oaks in a few days,

The November number of St. Nicholas, the first of the new volume, is for sale at the Post Office Book Store.

W. T. Sharp, special agent from the Land Office, who was detained here by sickness, has so far recovered as to be able to start for his home in New York.

Jones Taliaferro and family returned from their visit to Salt Lake City, on Wednesday. They state that Mr. and Mrs Thomson are "doing well", which means "making money" there, and are much pleased with their new home.

White Oaks and Lincoln county, N. M., are attracting more attention and business inquiry to-day than any other locality west of the Mississippi; and well they may, for nowhere in the United States can be found an undeveloped territory of equal richness or greater opportunity for the enhancement of value. —Trinidad Advertiser.

An engineer has been appointed to make the survey for the new El Paso road between Las Vegas and White Oaks. This shows that the men who are at the head of this enterprise are not wasting any time. Another corps of engineers will soon be put on that part of the line which lies between Trinidad and Las Vegas. It is probably that the whole work will be completed by the 1st of January or early in next year. In this connection we may call attention to the fact that people of Trinidad have raised $2,000 to help pay the expense of making these surveys In many respects Denver is as much interested in the construction of this road as any other town with which it may connect, and Denver's share of the expense of the survey ought to be promptly raised.—Denver Republican.

Fred Blood is nothing if he is not a chicken fancier, and you can judge how sulphurous and blue the air was on Friday morning at the Blood ranch when he discovered that the coyotes had murdered twenty of his finest birds. He has now gone for the coyotes in earnest, and having planted the chickens, "properly doctored," where they will do the most good, will, he thinks, be in position to furnish his friends all the wolf skins necessary for the coming winter.—San Marcial Reporter.

Foster, the weather prophet whose forecasts through the season have appeared almost phenomenal, now states that we may look for an active cold spell about the fifth of November, a foretaste of the hard winter to follow the intervening storm wave now about due to cross the continent from the Pacific coast and which it is promised will be accompanied by warm rains through the southern part of its course.

Arrangements have been made by the Chamber of Commerce to extend to Judge John Y. Hewitt and his estimable wife, of White Oaks, N. M., a most cordial reception on their return to this city from Denver, next week. Judge Hewitt is one of the prime movers, and one of the most active as well as liberal promoters of the projected El Paso short line, and this city will endeavor to show him in a slight measure its appreciation of his valued efforts.—Trinidad Advertiser.

John Spiller returned last week from a trip to White Oaks, in the interest of eastern capitalists. While there he inspected the leading gold mines of that section, and considers several of them big properties. He pronounces the coal deposits of that section as simply immense. The coal is of fine quality. When a railroad reaches there White Oaks will be an exceedingly prosperous community.—S. C. Enterprise.

Mrs. Delaney, an old resident of Lincoln county, passed through White Oaks, this week, on her way to visit her daughter, Mrs. Richardson, of the Block Ranch. Mrs. Delaney has just returned from a trip to Japan, where another daughter is living.

Mrs. Marshall Parker will open her school on Monday, Nov. 9th in the room now occupied by the Interpreter.

Married, Sunday evening, Oct, 25th, at the residence of the parents of the bride, Rev. S. T. Burke officiating, Mr. Stonewall Jackson Grumbles and Miss Cassie Cooper, all of this county.

Eggs, chickens, creamery butter—40 cents. Y. & T's

General Manager Houghton has closed with the distinguished civil engineer, P. H. McCrickett, for the survey of the northern end of the Las Vegas shortline road He will begin at Trinidad and work this way.—Optic.

Give us a show and we will sell you your winter gloves.

Young & Taliaferro.

M. Whiteman is combining business and pleasure in his visit to this city, in renewing acquaintance with many he has known for years while he is buying and shipping to Roswell an immense stock of goods. On yesterday and to-day he shipped 60,000 pounds of such freight.

The Albuquerque Citizen says: "C. L. Hubbs has not let the grass grow under his feet since he sold The Citizen office, four years ago. He was not making expenses with the paper, and being of a nervous temper, he was fuming his life away. Since then he has become associated with a number of wealthy capitalists, has discovered the greatest iron deposit in the world, and is proposing to put a manufacturing plant at San Diego, California, to cost $4,000,000, and employ 10,000 men. This immense factory will make San Diego a great manufacturing city, and the next in importance on the coast to San Francisco. In this connection The Citizen desires to congratulate its old owner and founder on his prosperity. From an intimate knowledge of the man, and the resources at his back, we feel sure that the vast factory he is planning will soon be in successful operation."

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

The Invisible Army. } Of microcobe (micro-organisms) is a mighty host, which indeed no man can number. Invisible to the naked eye, the poisonous part of this army is the cause of four-fifths of all the diseases of the human family—they destroy more lives than war, famine, fire, murder and shipwreck combined, and they actually abbreviate the average term of human life by three-fourths. The way to relieve the human body of these microbes is to take Swift's Specific. When this medicine gets well into the system the poisonous germ must leave—he cannot exist there, hence he seeks an exit thro' the pores of the skin. After he departs, a continued use of the Specific will force out the poison, and the patient is well.

Treatise on Blood and Skin Diseases mailed free.

TWO BOTTLES CURED HER. 6

CARROLL, IA., July, 1889.

I was suffering 10 years from shocks in my head, so much so, that at times I didn't expect to recover. I took medicines from many doctors, but didn't get any relief until I took Pastor Koenig's Nerve Tonic: the second dose relieved me, and 2 bottles cured me.

S. W. PECK.

VANISHED.

Rev. H McDONOUGH, of Lowell, Mass., vouches for the following: There is a case of which I have knowledge, and I am very glad to avail myself of the opportunity to make known the good derived from the use of Koenig's Nerve Tonic. The subject is a young lady, who had been suffering from early childhood. On my recommendation she procured your remedy, and for three months the fits of epilepsy to which she has been so long subject have ceased entirely.

FREE A Valuable Book on Nervous Diseases sent free to any address, and poor patients can also obtain this medicine free of charge.

This remedy has been prepared by the Reverend Pastor Koenig, of Fort Wayne, Ind., since 1876, and is now prepared under his direction by the

NOTICE OF SALE.

Notice is hereby given that the undersigned, Gilbert E. Overton, as Trustee under and by virtue of the provisions of a certain Indenture of Mortgage, with power of sale, executed and dated on December 29th, A. D., 1888, by Joshua Hale and Susan L. Hale, his wife, to secure the payment of a certain promissory note therein mentioned, and bearing date April 28, 1888, for the sum of $1000.00, payable thirty days after the date thereof to Gilbert E. Overton or order, at Ft. Stanton, N. M., with interest from date until paid at the rate of 12 per cent. per annum, made and executed by Joshua Hale, C. S. Thurber and DeLaney & Terrell, default having been made in the payment of the said note in accordance with the terms thereof and of said mortgage deed, will on Monday, the 7th day of September, A. D., 1891, at the hour of ten o'clock in the forenoon of said day, at the principal door of the Court House in the Town of Lincoln and County of Lincoln and Territory of New Mexico, offer for sale at public auction to the highest and best bidder for cash in hand, the real estate and premises situated in the County of Lincoln and Territory of New Mexico, in said mortgage deed mentioned and described, to-wit: The Southwest Quarter of Section number, Twelve (12), in Township number Eleven (11) South of Range number fourteen (14) East of the New Mexico Principal Meridian, and containing One Hundred and Sixty (160) acres, more or less: of which land the said Joshua Hale, in and by said mortgage deed, guarantees and warrants that about seventy (70) acres were at the date of said mortgage deed in cultivation, and that some ten (10) or twelve (12) acres in addition could be put in cultivation with irrigation; which said sale is made at the request of the legal holder and owner of said promissory note, for the purpose of paying out of the proceeds of said sale, the costs and expenses of said sale and the proceedings relative thereto, including reasonable attorneys' fees, and the balance of principal and interest due and unpaid upon said note; and upon said sale being made, the undersigned, as Trustee, will execute and deliver to the purchaser or purchasers of said land and premises, a good and sufficient deed therefor.

Dated this 15th day of August, A. D 1891.

GILBERT E. OVERTON, Trustee.

$300 REWARD

FOR ORE THIEVES!

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion. Therefore the "Old Abe" Co. offers a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holders of Old Abe specimens.

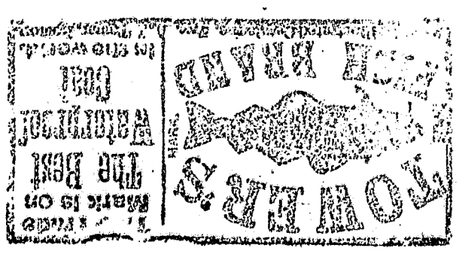
Many little fortunes have been made at work for us. In Anna Page, Austin, Texas, and Jos. Hoon, Toledo, Ohio, [illegible] M. Malloy & Co., Box 480 Portland, Maine.



MR. LEE. "Why, Addie, you needn't cry about it! I only said Mrs. Allen was a very well-informed woman, and I wished you would follow her example."

MRS. LEE. "Yes, and last week you said you wished I could manage to look as stylish as Mrs. Allen,—and she makes all her own clothes. But she has what I haven't."

MR. LEE. "What is that?"

MRS. LEE. "Well, she gets all of her information from the Magazine they take. I admit that she knows all that is going on, and is bright and entertaining in conversation but I could do as well as she does if I had the same source of information. She lent me the last number of her Magazine lately, and I learned more in one hour's reading, about various social matters and the topics of the day, than I would pick up in a month by my occasional chats with friends. It certainly covers every topic of interest, from the news of the day down to the details of housekeeping; and everything is so beautifully illustrated, too. Every time Mamie goes over to the Allens' she comes back and teases me to get you to take Demorest's Family Magazine, as the stories are so good. Even the boys watch for it every month, as a place is found for them also in its pages; and Mr. Allen swears by it. It is really wonderful how it suits every member of the family!"

MR. LEE. "Well perhaps I had better send for a Specimen Copy; for, if it is anything like what you say it is, it will amuse and instruct the whole of us."

MRS. LEE. "I see that W. Jennings Demorest, the publisher, 15 East 14th Street, New York, is offering to send a Specimen Copy for 10 cents, so we can't lose anything, as each number contains a 'Pattern Order' entitling the holder to any Pattern she may choose, and in any size—which alone makes each copy worth 30 cents; and I just want a jacket pattern like Mrs. Allen's. The subscription price is only $2.00 a year; and I must say I can't see how they can publish so elegant a Magazine for so little money."

20 Good Books Free

By special arrangement with the publisher, we are enabled to offer the entire list of Twenty Valuable Books enumerated and described below, *absolutely free* to every subscriber to this paper for the ensuing year, at the regular subscription price. These books, each one of which contains a complete first-class novel or other work by a well-known and popular author, are published in neat pamphlet form, printed from good readable type on good paper, and many of them handsomely illustrated. They comprise some of the finest works ever written by some of the greatest and most popular writers, both of America and Europe. Each one is complete in itself.
