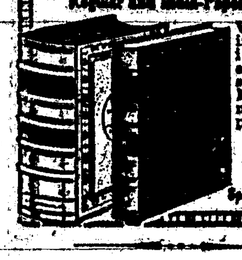
Are You Equipped to Win?

The New International provides the means to success. It is an all-knowing teacher, a universal question answerer.

If you seek efficiency and advancement why not make daily use of this vast fund of information?

400,000 Vocabulary Terms. 2700 Pages. 6000 Illustrations. Colored Plates. 30,000 Geographical Subjects. 12,000 Biographical Entries.

Regular and India-Paper Editions.



Write for specimen pages, illustrations, etc. Free, a set of Pocket Maps if you name this paper.

G. & C. MERRIAM CO., Springfield, Mass.

Home Economics Department Box Supper.

The Box Supper held in Howard Hall last night for the benefit of the Domestic Science Department of Lincoln County High School was a phenominal success. The largest crowd ever assembled in Howard Hall was present and bidding on the magnificent boxes of delicacies prepared by pupils and friends throughout the entire county was very encouraging and ranged from one to twenty dollars. After partaking of these delicacies, dancing was enjoyed with apparent delight due to the unusually excellent music furnished gratis by the wonderful trio from Fort Stanton, Messrs. Kelley, Fleet and McNeff.

The receipts for the department will reach nearly $300, for which great credit is due to the efficient manager of the function and head of the department, Miss Viola Wright, who worked faithfully in carrying out the program. The girls of the Domestic Science department we e nthusias ic from the start and worked hard to bring the event to a successful finish. In fact, the entire community responded freely and earnestly and their interest was evident in this response, both financially and by their presence.

Miss Wright and the members of her department desire to express their gratitude to all who so faithfully and willingly contributed to the success of this function.

Mr. Fred Purdy, father Basil Purdy who has spent the past year here, arrived recently from California, and will reside here.

Mistletoe Creamery Station.

The creamery station at this place is fully equipped with a first-class testing outfit, and we are ready to receive cream in any quantities, if it only one gallon bring it in or send it in and receive a fair tent, and check at same time.

Willis Hightower,
Agent.

A photographer has recently located in J. K. Such's old Jewelry stand, fully equipped to do high grade Portrature. Temporarily located for a short time only. The Art Shop, Carrizozo, New Mexico.

Highest market price paid for butter and eggs, especially eggs.

W. B. Payne,
Capitan Restaurant.

Harding Carries the Country.

Senator Harding has been elected President by an overwhelming majority. He will probably have 404 votes in the electoral college, and both houses of congress will be largely Republican. Mechem has been elected Governor by about 2000 majority.

County Election.

The following is the majorities in the county of the candidates elected:

For Representative—Lutz, 346
Grey—322
For Sheriff—Ed Harris, 7
Clerk—Ralph Treat, 112
Treasurer—Harry Norman 288
Tax Assessor—John Bryan 152
Psobate Judge—Chavez 54
School Supt.—Mrs. M. L. Blaney 145
Surveyor—Harvey 185
Commissioners — Hulber t58, Stone 96, Lujan 296

It was a closely contested election. It will be seen that the Democrats, with the help of Republican votes, elected four of the county officers—Sheriff, Clerk, Treasurer and Tax Assessor.

In the Capitan precinct, the hardest fight was made for the candidates for sheriff and Ed Harris carried the precinct by 48. Mrs. Wilber Coe, the Democratic candidate for School Superintendent, carried the precinct by 98 majority, which is evidence of her popularity where she has taught school and is well known.

E. M. Brickley, of Carrizozo, Democratic candidate for State Senator in this district, carried the county by 244 votes and the comes that he is elected.

The Republican presidential electors carried the county by 375 majority, which is the largest in the county. Mechem, Republican dandidate for Governor, received 211 majority.

Our Largest Parks.

The largest national parks in the United States are Yellowstone, in Wyoming and Montana, containing 3,348 square miles; Yosemite, California, containing 1,125 square miles, and Glacier, in northwestern Montana, containing 1,534 square miles.

What Eyebrows Tell.

Thin eyebrows show a lack of vitality and thick ones a highly-vitalized temperament, together with power of endurance. Highly-arched eyebrows denote a sensitive temperament. The average eyebrow is a combination of black and red.

India's Many Plants.

India has perhaps a greater variety of plants than any other country in the world, having 1,500 native species, or about 50 per cent more than is embraced in the flora of the whole of Europe.

We'll Say It Is!

Our idea of a tough situation is for a fellow to get a kiss fairly well launched and then have a sneeze beat him out.—Philadelphia Inquirer.

Softens Paint Brush.

Paint brushes that are hard and dry will soften if put into vinegar and allowed to simmer for ten minutes. Then wash them in soapsuds.

Times Have Changed.

The celebration of a birthday anniversary, customary among the ancients, was originally frowned upon by the Christians.

Appropriate.

The long-lasting little flowers, called "immortelles" in France, have grown in popularity for decorating soldiers' graves.

Art of Die Making.

Old coins have been found which show that the art of die making was known to the Greeks as early as 800 B. C.

Word has been received here that Monroe Read and family are leaving Los Angeles, California and coming back to Mesa, Arizona. Capitan friends are expecting here soon.

You Patronage Solicted.

Safety First

This is a slogan that is given all possible publicity where human life may become the victim of carlessness and ignorance, this slogan has saved the life of many employees of Railroads, Factories and such.

But did you ever stop to think that the same slogan can and does save more people when applied to a drug store than all others combined. Our State and national officials have recognized the importance of tnis and have enacted laws for the protection of the Country, whereby in order to run a Drug Store you must pass a Rigid Examination, given by the State Board of Pharmacy.

Any medicine that you buy here is handled only by a Registered Pharmacist, who not only keeps all medicine as it should be kept to insure you of their full value but also to to tell you what kind of medice you are in need of.

We sell Drugs that you can depend on for their results, if you buy here you havela right to feel that satisfaction which you have when you are sure of what you are getting.

Ours is a complete Drug Store any medicine that you need can be found here.

we also carry a complet line of Sundries of the very highest class, and in our toilet articles Dept you will find all the Standards, in celd Creams face powder, perfumes etc. A complete line of High Grade Watches, we offer you the benefit of a modern Drug Store, it will pay you to come to us when in need of any thing in the line.

Dried Mummies as Medicine

Animal products were much used in medicine from the sixteenth to the eighteenth century. Dried mummy was a favorite remedy. The importation of mummy was an industry of some commercial importance and several writers of that day caution against the use of spurious mummy, giving directions as to what distinguishes the good from the poor product. There was much substitution, and one dealer was found to have done an extensive trade in bodies dried in imitation of the genuine article.—National Geographic Society Bulletin.

Art of Staining Glass.

Fifty years ago the old secret of staining glass, which was lost with the decline of art in the seventeenth and eighteenth centuries, was rediscovered and, with the aid of chemistry, has made remarkable progress. This is shown by the fact that today the glass stainer disposes of more than 5,000 different pigments, while in the twelfth century, the golden age of glass staining, only 12 colors were known.

Choice of Subject.

Invention in painting does not imply the invention of the subject, for that is commonly supplied by the poet or historian. With respect to the choice, no subject can be proper that is not generally interesting. * * * "There must be something, either in the action or in the object, in which men are universally concerned, and which powerfully strikes upon the public sympathy.—By Sir Joshua Reynolds.

Powder Puffs Replace Sugar.

Since the French sugar ration was increased and restaurants have resumed serving it, Paris women are converting their sugar boxes into powder puff cases. The carrying of sugar in little gold boxes was a fashionable war fad. The new use for the boxes is said to have originated with a Rue de la Paix jeweler who saw in the rising sugar ration a decline in the demand for his wares.

Man's Debt to the Horse.

Not only has the horse inhabited the earth for many millions of years, but throughout the ages he has made the world ring with tales of equine valor. From Pegasus, the winged steed, who aided Bellerophon in slaying the monster, Chimaera, down to the 10,000,000 horses which helped the allies to win the World war, they have served man well, and oftimes purchased his safety with their lives.

Foolish Oversensitiveness.

A great deal of discomfort arises from oversensitiveness about what people may say about you or your actions. Many unhappy persons seem to imagine that they are in an amphitheater, with the assembled world as spectators, whereas they are playing to empty benches all the while.

No Really White Silk.

There is no such thing as pure white silk. There are three colors of so-called white silk, oyster, which is sometimes called pure white, though it has a slight blue tinge; ivory, which has a tinge of pale yellow, and cream, in which the yellow tone can be plainly seen.

Origin of Slang.

Slang originated from the gypsy language. It used to be a secret language of that race. It is by no means of modern date, being well known in the classic ages of Greece and Rome.

Preserves Poland's Traditions.

The members of the Kachawbe race are said to preserve the language and customs of the Poles from time immemorial. They refuse to be corrupted by modernism in any shape.

The Telephone.

A ruffled telephone screen, which is really very ornamental, is made of rose silk and lace. Every telephone in a pretty room nowadays is concealed by some attractive conceit.

The Real Test.

The measure of civilization in any race or community is the capacity for co-operation—the harmonious and effective getting along together.

Region of Heavy Snowfalls.

The heaviest snowfall in the United States is in the Cascade mountains of Washington and Oregon and the Sierra Nevada of California.

Jud Tunkins.

"Some men," said Jud Tunkins, "have a lot of sense about making money and a lot of foolishness about spending it."

No Harm Done.

Morals will creep into business. Here's a sign in the window saying, "Good men's shoes." — Savannah News.

Old Custom.

In Catholic countries, bells, like other church furniture, are solemnly consecrated before being taken into use.

Largest Horse and Mule Market.

St. Louis is the largest horse and mule market in the world. Kansas City is the second largest.

The DOLLAR THAT GOES farthest IS THE DOLLAR that stays at home

Investment

Your money in a Certificate by the First State Bank, offer of a marketable investment character.

Certificates of Deposit earn 4 per cent. The principal and interest are payable promptly when due. They are issued in any amount for periods of six or twelve months.

First State Bank

S. O. S., Signal for Help.

S. O. S. is the code signal of distress and other than being the signal agreed upon as a call for help is hardly to be "translated." Seamen sometimes say the letters mean "Save our souls." The letters also are sometimes interpreted as standing for "send out succor," but do not, of course, mean either of the phrases. S. O. S. in the international Morse code is three dots, three dashes and three dots.

Chinese Warning to Counterfeiters.

It was a rash man that made counterfeiting his trade in defiance of the grim warning printed on Chinese bank notes of the Ming dynasty, "Who makes a copy of this will have his head cut off." The most superficial student of Chinese history knows that the threat was not idle. Nowhere, except in Lewis Carroll's Wonderland, was the royal privilege of cutting off heads exercised so freely as at the court of Peking.—Youth's Companion.

Dreams.

To dream of a snake denotes treachery; a black snake signifies disease; a green snake is a good omen to farmers, but to others it foretells loss of money by unfortunate investments. A rattlesnake in a dream means that one who pretends to be a friend is secretly endeavoring to ruin your reputation. To fight snakes means you will outwit your enemies and succeed in what you have undertaken.

Imitating Mahogany.

In the manufacture of furniture and cabinets a great deal of red gum is used as an imitation of mahogany or Circassian walnut, says the American Forestry Magazine. When red gum is properly finished it can be made to look much like either of these woods. There is a very distinct difference, however, between red gum and mahogany or walnut. This difference lies in the size of the pores.

Health Note.

There is no question but that we, as a nation, are fast acquiring an excellent knowledge of food values and a sense of appreciation of the "balanced ration" in diet. And one of the principal things we are learning is that a definite amount of easily digested oil is indispensable to the proper maintenance of health and efficiency.

What Really Makes for Success.

There are a few men and women so circumstanced and handicapped that the only possible success for them is their heroic acceptance of what to others would be failure. But with the great majority the element that is lacking is the hearty taking hold of the work before them.—Exchange.

Camel's Feet.

The camel's foot is like a soft cushion, peculiarly well adapted to the gravel and stones over which it is constantly walking. During a single journey through the Sahara, horses have worn out three sets of shoes, while the camel's feet were not even sore.

Is There Anything New?

How many such civilizations have arisen and passed to the twilight of the gods? How much of art, literature, science, philosophy, religion, that we have held to be new, was old in the days before Sargon? Who can say?—Cincinnati Enquirer.

Turkish Polygamy on Evil Days.

Turks are limited to four wives by a new law. If the prospective wife stipulates that she be the only wife, the Turk who agrees to the stipulation is thereby legally bound to monogamy.—The Argonaut.

Adam's Ale.

Adam's ale signifies water used as a beverage, on the supposition that Adam had only water to drink. Just how, when or where the term first came into use is not known.

Ancient Symbol.

The initials I. H. S., appearing on grave stones, in churches, etc., are the initial letters of the Latin phrase "Jesus Hominum Salvator," which means "Jesus the Savior of Man." This was originally written in Greek and was the first three letters of the name Jesus, but its origin was lost sight of through substituting the "S" for the Greek sign sigma. Then by mistaking the Greek H for the Latin H a significance was found for each letter.

Exhaustion Was Mental.

The golfer who was employing him was playing very badly and the caddie threw himself down on the grass at one point and watched him. When the man had at last succeeded in getting his ball out of the bunker, he glanced toward the boy and remarked: "You must be tired, lying down at this time of day." "I ain't tired of carrying," said the caddie, "but I certainly am tired of counting." —Boston Transcript.

Spectacles.

We are told that the ancients had no spectacles. Roger Bacon, an English scholar of the thirteenth century, is said to have first pointed out that old persons with weak eyes would see letters better by reading through a plano-convex lens, but the credit of first showing the world how to use spectacles is given to Alessandro di Spina, an Italian monk, who died in Pisa in 1313.

His Reason.

She was teaching the fourth grade in one of the ward schools and had just finished the explanation of fractions. In order to see if the class understood her, she asked Willie Brown which he would prefer, one-fourth or one-third of a pie. Willie said he preferred the quarter, and when asked his reason, replied: "Because it wouldn't look so hoggish."

Leads That Are of Benefit.

Every evil and wasteful habit draws upon our strength and resources without making any proper return. On the other hand, every task faithfully done, every responsibility manfully borne in the path of duty, steadies us, like well-bestowed ballast. There are loads that help as well as loads that hinder. These we should cheerfully take up, and those resolutely cast off.

Chain Screen Doors for Furnaces.

Chain screen doors have been found satisfactory as a protection for firemen against the intense heat of metal, glass and chemical furnaces. The curtain of chain shuts in heat, gases and sparks, and shuts out cold air, permits an unhampered view of the interior of the furnace, and allows tools or other objects to be very easily projected into it.

Grease Spots.

If you have the misfortune to spill grease upon your kitchen floor, let it cool, scrape up all you can, then pour a few drops of alcohol on the spot, wipe it off and add a few more drops, enough to cover the spot. Let this remain a short time, then wipe the spot with a clean cloth.

Absolute Proof.

There is one infallible method by which a man's greatness may be judged. If your friend sits mum for half an hour, listening to you discuss your favorite topic, then you know beyond the shadow of a doubt that he is a broad-minded as well as a brilliant conversationalist.

Good Points About Failure.

Do not be downcast at failures. They are often far better for the student than success. He who goes to school to his mistakes will always have a good schoolmaster, and will not be likely to become idle or conceited.

Diamond Mining.

Diamond mining is an ancient industry, and [illegible] antedates Christ's birth by [illegible] centuries. There is no question that the Roman [illegible] was acquainted with the [illegible] diamond in A. D. 16, and a ring of imperial times set with a one-carat rough stone, has been preserved. Since then, diamond mining has furnished employment to tens of thousands, and for well over two hundred years to from seventy-five to one hundred thousand men. It is a world-wide industry in which the common labor is almost wholly done by negroes.—Exchange.

Success Calls for Sacrifice.

What sacrifices are you willing to make to attain your ambition—that position or thing you desire above all else? Are you willing to cut out luxuries and pleasures, to dismiss the hundred and one little desires that you have been accustomed to gratify? Have you the grit and pluck to stand all manner of discouragement to struggle on without losing heart; to get up again every time you fall? Upon this will depend your failure or success.—Orison Swett Marden in Chicago Daily News.

Early Treatment the Thing.

Untreated cancer means a mortality of exactly 100 per cent. No authentic exception has ever been known, or ever is likely to be known. But in its early stages, cancer is curable and has been cured thousands of times by a thorough operation that removes every particle of diseased tissue. Every case of cancer in a civilized country comes to the doctor some time. Why not come early enough to be saved?—Chicago Journal.

Wedding Anniversaries.

The wedding anniversaries are: First, cotton; second, paper; third, leather; fourth, fruit and flowers; fifth, wooden; sixth, sugar; seventh, woolen; eighth, India rubber; ninth, willow; tenth, tin; eleventh, steel; twelfth, silk and fine linen; thirteenth, lace; fourteenth, ivory; fifteenth, crystal; twentieth, china; twenty-fifth, silver; thirtieth, pearl; fortieth, ruby; fiftieth, golden; seventy-fifth, diamond.

Fire Test for Carpets.

An old way of testing carpets to see if it is a true Persian product is in vogue in Persia. A piece of red-hot charcoal is dropped upon it, which leaves a round singed spot. If the carpet is of the first quality the singed wool can be brushed off with the hand without leaving a trace of the burn discernible.

Common Sense Greatest Gift.

Notwithstanding all our admiration for genius, and our longing for gifts, for talents, there is no endowment so envious as sound common sense. It may not soar into the heavens, not fathom the deeps, nor achieve earth's wonderful successes, but it is the balance wheel of life.

First Whites Through Grand Canyon.

On May 24, 1869, Maj. J. W. Powell and a party of explorers left Green river, Utah, in boats and passed through Marble and Grand canyons, emerging from the latter on August 29. Major Powell was later director of the United States geological survey.

Alibi Explained.

Asked if he knew the meaning of an alibi a colored man replied: "Yes, sah; it's one of dem times when you prove you was at de lodge whar you wan't to prove you wasn't at de crap game whar you was."—New Haven Register.

Almost Human.

Scotland Yard has just become possessed of an ingenious instrument known as a "metal detector," which has the peculiar property of detecting arms in ships attempting gun-running operations.

A Billion Prayers a Day.

Five times daily, 220 million Mohammedans kneel on their prayer carpets to invoke the Spirit who, as the Koran teaches, is the source of wisdom and knowledge.

Needed Prayer.

"We are in the hands of a receiver," writes a western editor, "and may the Lord make him duly thankful for what he is about to receive."—Boston Transcript.

Quite Often, in Fact.

Jud Tunkins says the man who gives three cheers is sometimes offering just as intelligent and convincing an argument as the man who is talking.

Good Place for It.

"Yes, this simple device makes washing a pleasure." "What is it?" "A mirror to attach to the tub."—San Francisco Chronicle.

Poor Heel!

Hollow rubber balls have been patented by a Massachusetts man to be slipped over the legs of hens to discourage them from sitting.

And New?

Some hundreds of years ago mummies were powdered into dust and made into powders and potions for the cure of disease.

Safety First

This is a slogan that is given all possible publicity where human life may become the victim of carlessness and ignorance, this slogan has saved the life of many employees of Railroads, Factories and such.

But did you ever stop to think that the same slogan can and does save more people when applied to a drug store than all others combined. Our State and national officials have recognized the importance of tnis and have enacted laws for the protection of the Country, whereby in order to run a Drug Store you must pass a Rigid Examination, given by the State Board of Pharmacy.

Obituary.

Last Monday, October 25, Miss Opal Madeline Hunnell, daughter of Mr. and Mrs. J. E. Hunnell of Fort Stanton, passed from this life to be with her Savior. Miss Opal was twenty years of age. She was a devoted Christian, having professed faith in Christ and united with the Methodist church at the age of thirteen. At her home in Uniontown, Kansas, she was an active church worker and Sunday school teacher. It was always a great joy to her to serve the Lord by being of service to her fellow beings. She leaves her parents and two brothers to mourn because of the great loss. The family had won a great many friends during the brief stay at Fort Stanton.

Funeral service was conducted by Pastor J. W. Evans of the Capitan Baptist church. Three soliers and three sailors, dressed in uniforms, acted as pall-bearers. Miss Kuhrte rendered the organ prelude and Chaplain Gay sang "Somewhere." Mrs. Ashford, Mr. and Mrs. Green, Mr. Sodeland and other friends accompanied the family to Carrizozo. From there the body was shipped to Uniontown, Kansas, for burial.

Alto News.

The school gave a Halloween program which was to have been Saturday night October 30th, but the rain put it off until Wednesday night November 3rd. A large crowd was present. After the program the boxes were auctioned off to the highest bidder by Mr. B. L Luck. They amounted to the handsome sum of $49 00. The proceeds are to go for school supplies.

The women of Alto took an active part in the election. They seemed to know just what to do if it was their first time to vote.

The hunters have been going through the forest continualty; several deer and turkeys have been killed.

Mr. Oscar Easeley left Tuesday for California. He had been visiting his parents for the two weeks, Mr. and Mrs. J. A. Easeley.

Mr. Jesse Harris made a trip to Roswell this week.

Miss Madie Carleton, who is teaching school at Ancho, is spending a week at home, visiting her parents, Mr. and Mrs. L. W. Carleton.

THE VACCINE THAT MADE KANSAS FAMOUS

This is the Originel Formula Kansas Germ Free Vaccine (Aggressin) which has revolutionized Blackleg treatment. It originated thru experiments at Kansas Agricultural College directed by the President of this company in person. One dose prevents Blackleg. Proved on over a million calves. Absolutely reliable—one trial convinces.

U. S. Blackleg Vacine 20c per dose.

WANTED—Piñon nuts.
The Titsworth Co.

Our Christmas goods are now arriving in various varieties.
The Titsworth Co.

Fox River nut Nargerine 40 cents per pound.

W. S. Norman of Carrizozo had business in Capitan Wednesday.

H. F. Dockary was over from Spindle Wednesday.

Wes Purcell of Arabela, passed through Capitan, Wednesday afternoon on his way to Carrizozo.

Dr. F. H. Johnson of Carrizozo, was among his Capitan friends Thursday of last week.

Jesse Parker, a former Capitan boy, whose home is now in Alamogordo, is holding a job at Fort Stanton.

Miss Jennie Peters is here from Duran visiting with her aunt, Mrs. Willis Hightower.

Mrs. Wilber Coe and Mrs. Reuben Boone called the Mountaineer office a visit on Friday of last week.

Larry Dow spent Tuesday in Lincoln looking after the interest of his friends who were candidates.

Mr. P. G. Peters is putting up an addition to his store building to be used as a private office.

W. H. Marr and his son Ellis Marr, of Alto, were in town Wednesday.

Mr. John Boger, of Roswell, was visiting his brother-in law, Mr. Robert A. Hurt and family of Capitan this week.

Messrs. Geo. C. Clements and Sheriff R. A. Duran were here last Friday. They were delivering ballot boxes to the different precincts and incidentally seeing voters.

Chas. Henderson left Tuesday for a few days visit with his family in El Paso.

Mrs. J. B. Burch has been quite sick at the Cottage Hotel, but is now improving.

W. R. Read had business in Carrizozo the first of the week.

Always fresh meat, fish and oysters at Capitan Restaurant.

A. J. Payne of Pecos, Texas, is here visiting his brother, W. B Payne. He may conclude to locate here.

Mr. E. W. Hulbert of Lincoln, spent last Tuesday in Capitan.

Mr. Frank Coe was over from Glencoe Wednesday.

John B. Burch sold his farm to T. J Simer this week. This is one of the best little farms in the country.

George R. Hyde has recently returned from a trip to Texas. While gone he attended the Dallas Fair and visited friends in other parts of that State. George returned in fine spirits and he no doubt had one of the best times in his life while on the trip.

Mrs. Annie Brazel came in from her ranch Tuesday to cast her first vote in a general election.

Mr. Witt Sears, the gentleman who recently bought R. B. Provine's farm and home at Capitan has moved in with his family and is a permanent resident of the town. Mr. Sears moved here from Thorp Springs, Texas, and had spent the most of his life in that part of the country. He was an old time cowman in central Texas back in the days when that part of the state was an open range and was acquainted with many of the cattle Kings of the early days.

The girl's High School Basket Ball Team, under the efficient direction of Miss Peters, defeated the Lincoln Team last Saturday by a score of 22 to 10 in a fast game. They are now ready to challenge any team in the country for a game as early as possible.
