Albuquerque Firm Is Low Bidder On Ft. Stanton Project

The State T. B. Hospitals' Board met last Monday at the Fort Stanton Hospital. An important item of business was the review of the bid summary on the first phase of the Fort Stanton water supply expansion. The low bid of $34,911.14 offered by E. M. Silver of Albuquerque was approved and authorization issued to the state purchasing agent for preparation of the formal contract. The contract includes the rehabilitation of an old well on the premises and the installation of the necessary pumps, equipment and pipe to insure a flow of water into the existing reservoir. Considering an anticipated water shortage this summer from normal watershed sources, the development of this auxiliary source is timely.

Publication for bids on the second phase of the Fort Stanton water program will be made within the week. This new contract will call for a purification and filtration plant at the reservoir site, plus a covered steel, 210,000 gallon storage tank. All work should be completed by August 1.

Thief Hits Variety Liquor

PROPOSED POOL—Designed by Paddock of Oklahoma City, above is artist's sketch of how a swimming pool, proposed for Ruidoso, will look. Ruidoso Lions Club, through a non-profit corporation, will finance the construction through public subscriptions. A campaign has just begun to raise money for the project, studied for several months by a special committee of Lions members.

Lions Open Drive For Swimming Pool

Ruidoso Lions Club, in a full page ad in today's Ruidoso News is laying before the community its plans for a campaign to secure for the Playground of the Southwest a super-fine swimming pool—estimated to cost about $65,000.00.

The pool will be built and operated by a separate non-profit corporation formed of members within the Lions Club, but the campaign to finance the construction is to be carried out by every member of the club.

Meeting last Saturday night in the office of Dr. W. D. Horton, the Lions committee that has worked for several weeks on the proposal wrapped up the final details of a campaign that will include personal solicitation of prospective contributors, full page advertisements, large circulars and personal letters. The committee said other organizations in the community will be contacted by the Lions to aid in this community-wide drive.

The pool, as proposed, will likely be located on land lying east of Cree Meadows Golf Course almost opposite the club house, and is to be 82 feet long by 50 feet wide at the shallow end and 30 feet wide at the deep end. Two diving boards will be installed and there will be a wading pool for little tots, a sundeck for those who want to soak up the sunshine, a concession stand, and showers and rooms. The dimensions of the pool are more than required by the A. A. U., in fact the length and width meet with Olympic rules, the committee stated.

The pool was planned by Paddock of Oklahoma City, specialists in this line, and is to be heated and filtered. A large picture in color is on display here in the local bank.

Contributions of any size will be accepted by the Lions Club, but the committee, in stressing the need for funds, has figured that an average of $65 per family from 1,000 families will be needed to build it. Contributions will be deductible on income taxes, the committee said, since a non-profit corporation is building it. Since no profits will be realized from the operation of the pool, should its income exceed operation costs after it is in operation for some time, the committee has stated admission prices would be reduced to give the public a saving in using the pool.

First money on the project's costs was to have been raised in the Lions Club meeting Tuesday evening this week at Carrizo Lodge. Individuals as well as the club itself were expected to kick the drive off with a handsome start.

D. J. Sovell, cashier of Ruidoso State Bank, is serving as treasurer for the swimming pool corporation, and is to hold all contributions in escrow in the local bank, until it is determined if the pool can be built. Should sufficient money not be raised, all contributions will be returned to those donating. Numbered receipts are being issued all who give so they may be reimbursed if the need arises.

The Lions Club advertisement stresses these "sales points" regarding its bid for donations:

Local residents are urged to consider their own probable use of the pool in determining what they can give, and what it will mean in recreation to the hundreds of summer visitors who expect a swimming facility in a resort town. "The safety realized in keeping our youngsters off the highways who would otherwise travel to nearby towns to go swimming is worth some consideration," Dr. W. D. Horton, one of the proponents, remarked at the committee meeting. That fact was included in the ad, too.

The increase in individual property values here with a pool of this size was also pointed out as another consideration in making a contribution.

Charter for the non-profit organization was issued recently by the State Corporation Commission. Legal work in filing the application was handled by John Thompson, local attorney.

The Lions committee, composed of Fred Grasswell, D. J. Sovell, Carmen Phillips, Dr. Horton, Elmer Petrillis, C. L. (Bones) Wright, Dr. James A. Beall, Dave Parks, Jack Kennedy and LeRoy Gooch, has worked for some time on whipping up a plan that might bring to Ruidoso a swimming pool. It has held conferences with pool designers, has swapped letters with operators of public pools in other places to learn more about such a project, has studied numerous possible sites and spent a total of many hours in laying the groundwork in hopes it can be built. "With the full cooperation of everyone in the community, we can foresee this campaign will be successful," the committee declared in a body at the end of its meeting last Saturday evening.

All members of the Lions Club have the numbered receipts at hand and can take your contribution. You are invited to read the page ad in today's paper to learn more about how the pool can be realized.

CLOVIS CONTRACTOR GIVEN CONTRACT FOR NEW SCHOOL GYM

Low bidder on the new addition to Ruidoso schools, which will include a combined gymnasium, [illegible] science and music rooms, is John C. Cornell of Clovis, Supt. L. H. Morris announced Monday.

[illegible] the contract awarded to Cornell was for $209,526.00. The [illegible] and other expenses, will bring the cost of [illegible] the new building to $222,114, Morris pointed out.

Many contractors over the area bid on the structure. The three low base bids and the bidders were John C. Cornell, $227,909; Frank Tatsch of Silver City, $229,600, and Sumner and Molesworth of Roswell, $235,249.

Other bidders included G. A. Jones, Lamesa; Bell-Erhard, Clovis; Frank Bennett, Lubbock; Earl Puckett, Albuquerque; Rio Grande Construction Co., Las Cruces, L. R. Fey, Albuquerque; O. M. Russell, Clovis, and others.

Construction on the new building is to start on or before May 24 with completion scheduled 240 calendar days from date of beginning of construction.

"Total cost of the building," Morris said, "is about $2,000 more than anticipated and the school board realizes it will mean a tightening of our financial belt on spending of school funds."

The new structure will be located west of the Junior High School building and north of the High School. Covered walks will connect to all three structures.

"With the increased enrollment in Ruidoso schools continuing," the superintendent said, "even when the new gym building is completed our school plant still will be inadequate."

The superintendent pointed out that several alterations were made in the original plan for the new building. These included reduction of size of the lobby; elimination of final floor coverings on the science, music and dressing rooms, as well as acoustical ceilings in these rooms. However, the final plans include an acoustical ceiling in the gym proper.

Another exclusion is completion of lower dressing rooms, designed primarily for athletic teams. These rooms, Morris explained, will include only "roughed in plumbing."

Construction of the new building is being financed by a recent bond issue of $120,000, together with available funds of the school board.

Zoning, Planning Commission Meets With Local Forester

In a breakfast session with Ruidoso Forest Ranger Sam Sinclair Tuesday morning at Irene's Cafe, Ruidoso's zoning and planning commission discussed areas of forest land surrounding Ruidoso which the village would like the forest service to earmark for potential future use, and which may be acquired through land exchange under the present requirements of the forest department.

Needs discussed were sites for sewage disposal plant, future school buildings, garbage sanitary land fills, additional cemetery acreage, camp sites for youth groups, possible sites for Cathedral of the Pines, heavy commercial buildings, small industries and parks and recreation needs.

Sinclair said the Forest Service was anxious to help Ruidoso plan ahead—and could hold land so earmarked for as long as 20 years awaiting the village's action to acquire sites. More than half a dozen such pieces of property were discussed, and are to be asked for by the village in a formal request.

At the meeting were Dan D. Swearingin, commission chairman, Mayor Jack Hall, Blair Halladay of the village sanitary department, Morris Books, the commission's secretary, and members Jim Littlefield, Carl Morrison and Vic Lewis.

Here from Texas after spending several weeks there on business is Lloyd Davis.

To Pick N. M. Maid Of Cotton In Ruidoso

The New Mexico cotton industry has begun its search for a 1959 Maid of Cotton to represent the state at the national finals in Memphis, Tenn., this fall.

Woodrow W. Allen, Lovington, chairman of the New Mexico Maid of Cotton Committee, has called on all local Chambers of Commerce, cotton ginners, county, district and state chairwomen of the New Mexico Farm and Livestock Bureau, and county extension agents to distribute contest application blanks to potential state contestants.

Local contests have already been held in some counties. Others are scheduled for May and June. Allen says it is not mandatory that potential candidates enter local contests to be eligible to participate in the state contest. They may send their applications direct to the Maid of Cotton Contest, P. O. Box 832, University Park, N. M. All applications for the state contest must bear a postmark of not later than midnight June 14, 1959.

The New Mexico finals will be held at the Navajo Lodge in Ruidoso, June 26 in conjunction with the annual meeting of the New Mexico Cotton Ginners Association.

Prospective candidates for the state title must have the following qualifications, according to Allen:

They must be unmarried between the ages of 19 and 25 inclusive and have been born in a cotton growing state; be a resident of the state; at least 5 ft. 5 inches tall, photogenic and in perfect health.

"The purpose of the entire program is to stimulate interest in cotton," Allen said. "Thus, we need to have a young lady who has appearance and personality and the ability to be a top-notch goodwill ambassador for the cotton industry."

Judges for the state contest will be announced later, the state chairman said.

Mopping Up Of Forest Fire Now Underway

Mopping up of a forest fire on the Mescalero Indian Reservation still was underway Wednesday morning by about 50 Red Hats from the reservation.

The blaze, located about two and a half miles southeast of the old Elk School, is believed to have broken out in the area some time Monday night and was burning rapidly by Tuesday morning.

Ralph Brown of Brown's Air Service here Tuesday was called to fly in supplies to the fire fighters. He dropped food and water for the 50 men.

A road was being bulldozed to the site, but had not been completed Tuesday, when Brown dropped the supplies.

The Ruidoso pilot Wednesday morning said that he believed the fire was now under control and he had received no further orders for supplies. He said about 10 acres were burned in the blaze.

He said construction is to begin within a short time on the new structure, on U. S. Highway 70, about half a mile east of the village limits of Ruidoso Downs.

Ft. Stanton Women Organize New Club

Women of Fort Stanton recently met in the Community House to organize the Women's Service Club.

Its purpose is to promote fellowship among the employes, to sponsor beneficial civic projects and to assist the hospital administration in its program for improving and beautifying the reservation.

Members of the maintenance crews of the Fort donated labor to build the attractive little kiosk, conveniently located back of home plate on the baseball diamond. Here, volunteers from the club membership dispense refreshment snacks during the games.

Officers elected at the initial meeting April 10 are Mrs. Lila Escobido, president, Mrs. Arsenia Griego, vice-president, Mrs. Maria Varner, treasurer, and Mrs. Maria Navarre, secretary.

All women employed at Fort Stanton, or who are members of employes' families are invited to join the club at its next meeting at 7:30 p. m. June 4 at the Community House.

On Tuesday evening, May 26, Rev. Wm. Sedat, missionary from Guatemala, will be presenting pictures and a talk at the Kekchi Indians. The service will be at the Capitan Church of the Nazarene at 7:30 in the evening. Everyone is welcome.

Mr. Sedat, on furlough as a missionary of the Church of the Nazarene, is internationally known for translating the New Testament into the Kekchi Indian language of Guatemala.

A linguist of ability, Mr. Sedat had worked for twenty years among the Kekchi Indians comprising about 150,000 persons. Only a small percentage is literate.

It was necessary for the Nazarene missionary to reduce the language to writing, make a phonetic alphabet, compile a dictionary and prepare a grammar in order to complete the translation.

Born in East Prussia, Germany, Mr. Sedat became a naturalized citizen of the United States in 1926. He prepared for missionary work at the National Bible Institute, New York, Pasadena College, Pasadena, Calif., and the summer Institute of Linguistics, Oklahoma University, Norman.

Mr. Sedat speaks German, Spanish and English. He also has studied Greek and Hebrew. He is an expert on the Kekchi Indians.

In his missionary talks, he will show colored slides illustrating the cultural traits of the Mayan tribes in Guatemala.

Control Mites Early

Plan to control mites before they build up enough to hurt the tree. After they have turned the tree brown, it will take the tree a long time to recover.

Mites are starting to appear in the apple orchards now. They are first noted in the center of the tree on watersprouts. If you note some deformed leaves in the shaded part of the tree, be sure to check them for mites on the underside of the leaf.

Mites can be controlled with several miticides now on market. Some of the miticides used are Kelthane, Genite 923 and Mitox. Some new chemicals showing promise for mite control are Guthion, Trithion and Diazinon.

Fruit Survey to Date

I have been making an orchard survey in Lincoln County, during the past month, and the results have been quite interesting, with 80% of the orchards in the survey to date. A total of 960 acres of orchard have been reported with Red Delicious, accounting for 974 acres of this total.

Golden Delicious ranks second with 113 acres. Jonathan, Rome and Winesap each have about 80 acres.

The age of the apple trees counted give an indication for a bright future of orchards in the Hondo Valley. Over 20% of the trees are under eight years of age, whereas only 16% are over 21 years of age.

County Fair Date

It is not too early to start planning now for the County Fair, on September 11-12. A full slate of events and exhibits are planned for the fair.

DOWNS NEAR OPENING OF THIRTEENTH SEASON

Ruidoso Downs will open its thirteenth season on Friday, May 29. The Meet consists of 49 days—with racing every Friday, Saturday, Sunday and holidays—through the middle of September.

This year the Downs will again offer another new look to the racing public. The grandstand, which was the last remnant of the old original track, has been replaced by a new and larger modern concrete and steel structure. The new stand was designed by Gene Hendry and offers the racing public more freedom of movement than any other stand in the Southwest.

The old concession stands were also thrown in the trash pile and these have been replaced by new ones with double their former capacity.

Along with the new physical structure, a new method of wagering has been added in the twelfth race called the "Quiniela." This is very similar to the Daily Double—only the bettor tries to pick the horses that run 1-2.

In case you are not familiar with the Quiniela it started in Canada way back in the 'twenties and has since spread over most of the United States.

The Quiniela is simply a parimutuel contract to pick the first two horses under the wire—the order of finish is not important. It is not as risky as the Daily Double nor as remunerative since in the Quiniela field of ten horses there are only 45 possible combinations, while in the ten horse field in the Daily Double there are one hundred possible winning combinations. This is because the (one two) and the (two one) combination are the same ticket and consequently only the (one two) ticket is sold.

The Ruidoso Downs Stall Committee, which has the job of assigning horses to the barn area, had their toughest job in years this year. Owners of over 2,999 horses applied for space and the Downs could only accommodate 1,000 for their 1959 season, starting May 29.

The Downs has constantly expanded its barn area and is moving toward an eventual capacity of 1800 stalls. But every time a new barn is built it seems as though another group of horsemen decide they want to spend their summer in the cool pines.

Another improvement that is making the Downs most attractive to the horsemen is the new track. The track was subjected to a careful soil analysis after their 1958 season and thousands of yards of special sand and dirt have been worked into the track itself. The result: A track that will help keep the horses from slipping on wet days and will furnish them with a better cushion on a dry track.

Action Opens In Softball, Little Leagues

As we went to press, action was beginning this mid-week in Little League and in the second annual softball league play on the lighted athletic field near the high school. Four teams were in the softball, with first games to be played Wednesday night, and again on Thursday night. Competing this year are the 1958 champions, Ruidoso News-Ruidoso Gas, and their worthy opponents, Community Public Service and Ruidoso Downs Volunteer Fire Department, with a new squad, sponsored by C. & L. Lumber & Supply and Bonnell Hdwe. & Building Supplies entering in the place of last year's R. H. S. Letterman's Club.

Bucky Morrison, directing the recreational program, said possibly three teams would come out of a practice session held Tuesday by the Little Leaguers, and a schedule is to be announced soon.

Ruidoso Men Win Rifle Team Meet At Ft. Hood

Ruidoso riflemen took top honors over 300 contestants at the three-day rifle team meet at Ft. Hood, Tex., winning the coveted Texas Civilian 4-Man Rifle Team Championship.

The local team, members of the Ruidoso Gun Club, is composed of Grady Eldridge, W. C. Wolf, "Bucky" Morrison and R. H. Hedgecoke.

More glory was gained by the men, when Eldridge and Wolf also captured the two-man championship event.

"We were mighty pleased," Hedgecoke said when the team returned, "as we were competing with 300 other riflemen."

Hedgecoke also commented on the fine shooting of Morrison, who "has only been shooting for about a year."

The Ft. Hood meet was held May 15-17.

Second place winner in the four-man rifle team competition was the Grant County civilian team.

Sports Bulletin

Despite a late rally, Ruidoso News and Ruidoso Gas Co. softball team, champions of 1958, lost their opening game Wednesday night in the start of the '59 softball season to their arch rivals, Community Public Service Co., 10-13. The C. P. S. crew led 8-0 at the end of the second inning. The News-Gassers hailed in the last two innings, but did not overtake the front runners. The batteries were Jack Wilson, who clouted one healthy homer, as pitcher and Ralph McGuire, catcher, for the winners, and Tommy Perteet and Jack Gillespie for the News-Gas nine. Ruidoso Downs V. F. D. and C. & L. Lbbr.-Bonnell Hdwe. & Lbr. were matched Thursday night.

TINY'S CONOCO STATION NOW OPEN FOR BUSINESS, TO OFFER EXTRA SERVICE

Service will be the main feature at Tiny's Conoco Service Station on Main Road, now open for business under the new ownership of E. B. "Tiny" Sloan.

"Tiny" says if they don't ask to sweep out your car floor board, then you get your gas free. That's super service, the owner believes, and he should know, for he has been in the service station business for the last 30 years.

Located next to Cook's Drug Store on Main Road, Tiny's Conoco Service is completely rebuilt, redecorated and bright and shiny with a new coat of paint.

Another feature at Tiny's Conoco Service will be free delivery and pickup. Expert wax, wash and grease jobs will be among the services offered at Tiny's. Top quality Conoco products will be sold there.

Sloan recently bought the station from O. A. Loslin, who handled Gulf products.

The Sloan family came here from Carlsbad, where Tiny operated a service station for 19 years. Mrs. Sloan teaches at Loving, but will be here to spend the summer. The Sloans have two sons, Riley, a freshman this year at Texas University, where he made the honor roll, and Darrell, who is a freshman in high school. Both boys will be here this summer to help wait on customers at the service station.

The first church organ to be used in the United States was carried in an ox-drawn cart from Mexico City to the Indian pueblo of San Felipe in New Mexico around 1600. A Franciscan friar, Fray Cristobal de Quinones, used the organ in his mission church and trained an Indian choir to sing.

DEEP ROCK STATION NOW DOING BUSINESS AT PALMER GATEWAY

Modern as tomorrow is the new Deep Rock Service Station now open for business at Palmer Gateway.

Gay Calypso hats now are being given away at the station as a friendly introductory favor.

The Deep Rock station, which is strictly modern in design and constructed largely of plate glass, is easily accessible from the highway leading through the Gateway.

Deep Rock products and all major brands of oil are handled at the station.

John Ramsey, manager of the Deep Rock Station, invites the public to stop by, get acquainted and receive a fancy Calypso hat. Ramsey recently moved here from Okemah, Okla.

Las Cruces, New Mexico, draws its name from an incident that occurred during Spanish colonial days. A wagon caravan was ambushed by Indians and all the travelers were slain. The cluster of crosses later erected over their graves resulted in the spot being known as Las Cruces—"The Crosses."

If you are worried about the dangerous effects of inflation, you might clip the coupon and send it to Representatives Joe Montoya and Tom Morris or Senators Anderson and Chavez. Mr. Montoya and Mr. Morris will receive your mail if you address it to the House Office Building, Washington, D. C. Letters to your two senators should be sent to the Senate Office Building.

Dear_______________,

People in many countries have been ruined or impoverished by inflation caused by excessive government spending. I am worried about inflation in the United States and depreciation in the value of the dollar. If our government keeps spending more than it takes in, we certainly will have more inflation and prices will keep on going higher.

If this happens: (check appropriate boxes)

- [ ] My savings will be worth less
- [ ] My insurance will be worth less
- [ ] My pension will be worth less
- [ ] My bonds will be worth less
- [ ] My income will buy less
- [ ] My social security will buy less

I hope that you will vote only for essential expenditures and against waste and appropriation bills favoring special interests. If we are to survive as a strong nation, we must avoid further inflation. Let's keep the dollar sound.

Sincerely,

HOW OLD ARE YOU?

If some one were to ask you your age, what would you have to say? Some people flatly refuse to give any information concerning their age. They have the right to remain silent if they so desire, but they need to know their own age.

There are several ways of expressing ages. We normally refer to chronological age which is expressed in years since birth. Even this is relative because two people of the same number of years may have different effective years. One can be older and the other younger than his years.

In the field of education we speak of mental age which is a measure of the growth of our mental capacity. Here people differ widely. Two children of the same age in years may have a considerable difference in their mental ages. From this information we judge whether a child is doing his best work in school.

Another age which receives little consideration is the spiritual age of a person. Paul speaks of the people of Corinth as being babes in Christ who needed to be fed milk. These were adults physically, but were infants in spiritual growth. The Bible teaches that people should grow spiritually to become mature responsible Christians. One measure of spiritual growth is the development of a desire to be pleasing to God. As long as you have to force yourself to do what is right, you are a spiritual child. The way some people have to be begged to attend their own church reminds us of the way [...] to watch television. If you fail to eat, it will soon be evident in the loss of weight and loss of physical strength. The process of spiritual malnutrition is not so easily diagnosed, but it takes its costly toll of your personality and character. You cannot ignore the spiritual things of your life without damage to yourself and all those with whom you are associated. Now, will you ask yourself how old you are in the spiritual achievements of your life. It takes a lot of effort to keep from being a victim of arrested spiritual development.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Corinthians	3	1-16
Monday	I Kings	9	15-28
Tuesday	I Kings	10	1-22
Wednesday	I Kings	10	23
		11	8
Thursday	I Kings	11	9-26
Friday	I Kings	11	26-43
Saturday	I Kings	12	1-15

His garden is the envy of all the neighbors. They say it's because he has a *green thumb.*

But the truth of the matter is, he loves to see things grow . . . and he works hard to help them grow . . . and he enjoys the hard work because he finds deep satisfaction in the beauty of its fruit.

The same spirit pervades the churches of our community. Congregations thrive and souls grow in spiritual strength because of consecrated men and women who love to see this God-given growth . . . who work hard to implant Christian truth in their hearts and yours . . . who enjoy this unselfish dedication of their time and talents and treasure because they share the joy of Christ in its spiritual fruit.

Be an active church member! Volunteer for enriching service in your congregation's busy, fruitful life!

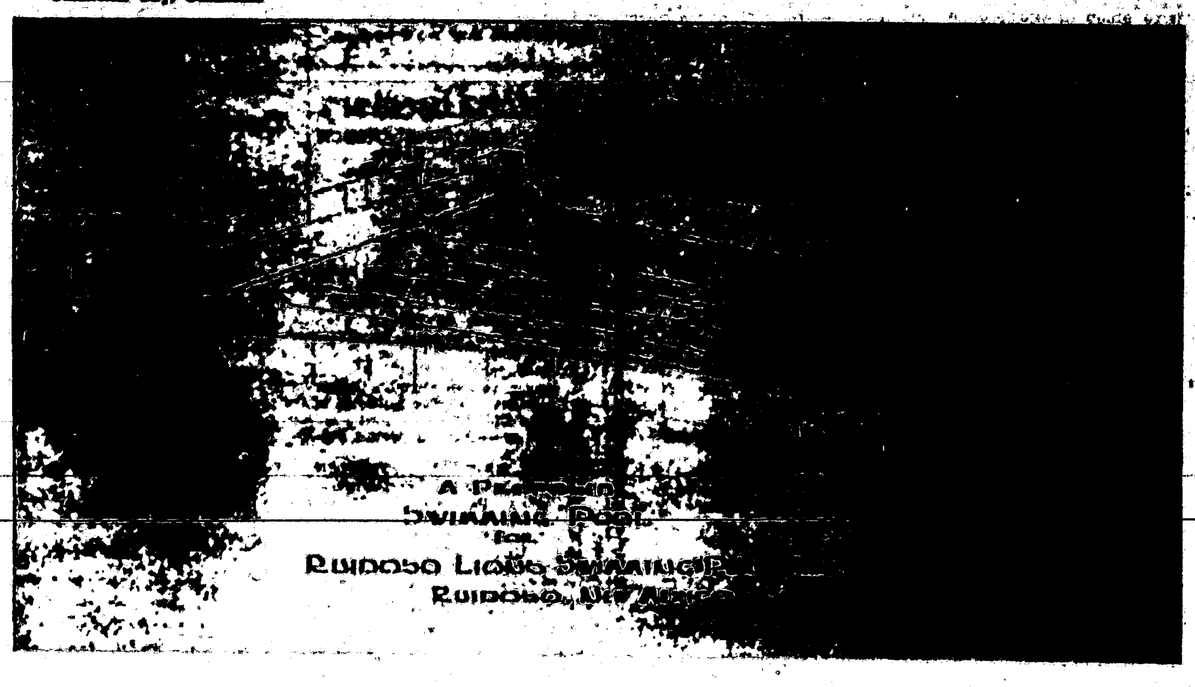
IF YOU ARE SINCERELY INTERESTED IN A SWIMMING POOL FOR RUIDOSO

POOLS
By The Original
PADDOCK
Oklahoma City, Oklahoma



Swimming pools are expensive to construct. They are a doubtful commercial investment as such. However, many of us believe that a pool is a worthwhile investment for the people of Ruidoso, for recreation for ourselves and our families. We believe that a pool would help to hold our week-end visitors here during the week. We believe that more families would accompany the head of the household when he comes here to play golf, attend the Races or any other recreation, if we had a pool for the younger members of the family. We believe that a pool would increase our mid-week business because of these things.

There are other reasons for a pool here. Many of our young people travel to neighboring towns to swim. We might keep some of these youngsters off the highways if we had a pool. It appears logical that any resort should have a swimming pool as one of its attractions.

WHAT HAS BEEN DONE?

1.) The Ruidoso Lions Club has investigated many angles for the construction of a swimming pool. We have learned that indoor pools are poorly attended all over the country. We have investigated the various types of construction and believe that poured concrete is the best. We have considered various possible dimensions, shapes and styles of pools and have come to the conclusion that the type pool pictured above is the most economical for Ruidoo. This will necessarily be a heated pool.

2.) A non profit corporation has been formed by the members of The Ruidoso Lions Club. The name of this corporation is: RUIDOSO LIONS SWIMMING POOL, Inc.

3.) PASCAL P. PADDOCK, Inc., engineers, pool builders, and pool equipment suppliers, have been engaged as engineers for this project.

4.) Possible sites have been considered and a location across from Cree Meadows Club House has been selected as the probable site.

HOW THIS CONCERNS YOU

1.) No one will be asked to contribute more to this project than he can reasonably afford.

2.) Ask yourself the following questions: (1) How much is a pool worth to me and my family for recreation? (2) How much is a pool worth to me to help increase my mid-week business? (3) How much is a pool worth to me to keep my teen-age youngsters off the highway? (4) How much will it increase my property value as a community asset? (5) How much will it help Ruidoso? (6) Is my civic pride great enough to justify a contribution to this project? (7) How much can I reasonably afford to contribute? (7) What is my share?

A FEW FACTS

1.) The proposed pool will cost approximately $85,000.

2.) The pool will be operated on a non-profit basis.

3.) The pool will be heated, filtered, cleaned and operated according to the regulations of the New Mexico Department of Public Health.

4.) It will be open to the public and a reasonable fee will be charged.

5.) There are approximately 1,000 families in this community. If each family would give $85.00 the financial problem would be solved. We know that this is assuming too much. Let us assume that half the families will contribute. This would cost each family $130.00. We also know that this may be too much for most of us. It will be necessary for courts and other businesses, which should benefit from the project, to give more money. Do the odds still appear to be too great? If they do, consider these facts. We have very good reason to believe that some of our summer visitors are already planning to help us with the project. However, we must first show them that we are sincere and are not expecting them to do the job alone.

6.) More figures to consider:

50	Contributors at $25.00 equals	$1,250.00
80	Contributors at $50.00 equals	$4,000.00
210	Contributors at $75.00 equals	$15,750.00
100	Contributors at $100 equals	$10,000.00
40	Contributors at $200 equals	$8,000.00
10	Contributors at $250 equals	$2,500.00
5	Contributors at $300 equals	$1,500.00
5	Contributors at $400 equals	$2,000.00
Total 500	Contributors	$45,000.00

Which group are you in? If we get this amount of money from Ruidoso and the Valley we will raise the balance somehow.

WHO WILL PROFIT?

Everyone in Ruidoso and the Valley will profit. NO ONE will profit directly. It will be illegal for any individual or The Ruidoso Lions Club to realize profits from this non-profit corporation. The project probably will make no money. However, if there should be some profit from the venture it will be held as a surplus for future expansion, operating expenses, and repairs. If this should happen admission prices would be reduced so that large reserves would never be accumulated.

Money will be placed in escrow at The Ruidoso State Bank. If we do not get enough money to build a pool it will be returned. We are all business people. We do not have time to come to you and beg for money. SEARCH YOUR SOUL AND POCKETBOOK AND TAKE YOUR CONTRIBUTION TO ANY LION or TO D. J. SOVELL AT THE RUIDOSO STATE BANK. You will be given a numbered receipt.

IF YOU WAIT TO SEE HOW THE PROJECT PROGRESSES IT WILL FAIL.

IF YOU WANT A POOL DO NOT WAIT FOR THE OTHER FELLOW. GIVE ALL YOU CAN REASONABLY AFFORD—NOW!

We will be contacting other organizations in the community to ask their active support and participation in this project.

No contribution is too small. It is entirely up to you. However, the pool cannot be built on small contributions alone. Many of us will have to contribute all we can afford.

Your contribution to this non-profit organization is deductible from your income tax.

If 650 Individuals Would Give $100.00 each the entire project would be accomplished. If 450 Individuals Would Give $100.00 We Will Raise the Balance.

This Venture Can Succeed. It is not up to you. It is up to YOU and ME and our NEIGHBORS.

PONDEROSA HEIGHTS
Large lot with partially finished two bedroom home, $8,777.00.

COUNTRY ESTATE
Four bedrooms, two baths, 3 fireplaces, extra spacious living room. 20 acres of land, two highway frontages, orchard, with choice grade apple trees. Rio Ruidoso flows through property. This is an outstanding piece of real estate with excellent future.

HIGHWAY & RIVER FRONTAGE
Approximately 190-ft. on paved highway, 5 lots with very comfortable furnished home. Close to shopping area. This is ripe for commercial development.

We have several summer cabins, ranging in price from $3,000.00 up with terms.

HIGHWAY AND RIVER FRONTAGE
This has 130 feet of highway frontage, level deeded ground, 4 bedrooms, 4 baths, large living room, fireplace, nicely landscaped. Nogal Work Day Set On Mesa This Saturday

By DOROTHY GUCK

The first work day at the Nogal Mesa Ranchmen's Camp Meeting has been set for Saturday, May 23. Anyone interested in taking part in the work just be on the grounds the morning of the 23. The women always come too and bring a picnic lunch for the workers.

Several improvements have been planned for some of the buildings. An amplifier may be used this year in the tabernacle so that services may be easily heard by those who cannot sit inside the building. Also, new booklets are being printed telling the history of the camp meeting.

The annual encampment will begin on Wednesday, July 15, and run through the following Sunday. This year's preachers will be Rev. Arthur Miller, Denver, Colorado, and Rev. Charles R. Thigpen, Albuquerque, New Mexico.

If you are a newcomer to Lincoln County, know that you are just the person who will be most welcome as an active participant in the camp meeting. In the beautiful mountain camp grounds on Nogal Mesa, interdenominational services are held each summer under the direction of the Ranchmen of Lincoln County. Camping facilities are available, and chuckwagon meals served to those attending services. The camp is supported by free-will donations.

N. M. Glass Co. Opens In Ruidoso On The Main Road

Another fine new business facility has opened in expanding Ruidoso—the New Mexico Glass Co., located on Main Road on East edge of city limits.

"We handle every kind of glass—from cathedral glass on down," said Woodrow Howard, manager of the modern new concern.

Any purchase of glass made from the New Mexico Glass Co. will be installed.

The company's stock also includes steel doors and windows, and some builders supplies—such as roofing and insulation. The biggest to the smallest job will be welcomed at the New Mexico Glass Co.

"We'd appreciate you letting us bid on anything," Howard said. "Just give us a chance. We won't get mad if we don't get the job."

The concern is located in a brand new building, with plenty of parking space for customers. Inside floor space is 1,200 square feet. The building faces Main Road and has a full frontage of plate glass. The Ruidoso concern is a branch of the Roswell Sash and Door Co.

An open house is planned soon at the New Mexico Glass Co. here and there will be free coffee and doughnuts for everyone. Date of the opening will be announced later.

NEW BUSINESS HERE — New Mexico Glass Co. opened last week-end as a new business in Ruidoso. Located in Palmer Gateway near J. B. Cloes's Ruidoso Gravel Service, the firm is to be managed by Woodrow Howard and features glass service of all kinds, including automobile glass, glass store fronts, windows, glass table tops, etc., Howard said. The new building housing the firm was only completed the first of this month.
