GENERAL NEWS ITEMS.

TRESPASS ON COAL LANDS.

Commissioner Binger Hermann Advises Relative to Trespass On Surveyed and Unsurveyed Coal Lands.

Special Agent Max Pracht is in receipt of a copy of the letter of the commissioner of the general land office to the special agent in Colorado, which, under date of May 21, 1898, gives instructions relative to the prosecution of trespassers on coal lands, and the same are made to apply to New Mexico, and especially to the region about Gallup, where trespasses of this character are to be investigated The letter reads as follows:

"Sir—I am in receipt of your letters dated respectively April 2 and May 2, 1898, relative to coal trespass on surveyed an unsurveyed public lands in Colorado.

"You state that coal lands are filed for parties who make coal declaratory statements and hold the same for about one year, when they relinquish in favor of some other member of the family or friend and continue to hold the land in this way, robbing it of its valuable coal, and thus evade the requirements of the law to purchase and pay for the same at the expiration of the year.

"Such procedure is for no other purpose than to cloak the intentional trespass under the color of title, and is in violation of the spirit of the law.

"The intention of the law, see act of March 3, 1873, in granting persons, of legal qualifications, the right to make coal declaratory statements, is to protect them in a preference of right of entry, under section 2347, of the mines opened and improved by them.

"The government does not, under the above law, confer the right of privilege to mine coal on public lands and sell it for speculative purposes, any more than the homestead law allows the entryman to cut and sell timber from his unperfected homestead for speculative purposes.

"Then it follows that a person or persons can be held responsible for the amount of coal taken unlawfully from public lands under each coal declaratory statement, and the parties purchasing the coal, thus obtained, can also be held responsible for the value of the same until the government has recovered full satisfaction for the amount of the trespass, as in the case of Woodenware Company vs. the United States (106 U. S. 432) In the investigation of coal trespass the amount and value of coal unlawfully procured under each declaratory statement should be reported separately.

"In reference to making entries on unsurveyed coal lands, parties may locate and make improvements, and according to 21 L. D., 77, apply for a survey of the lands with a view to making declaratory statement filings according to law when they come into market, but the same restrictions govern in such cases as apply to surveyed land.

"You are advised, therefore, to act upon your best judgment in the matter and report in such cases as may appear expedient, thus keeping this office informed, so that you may be instructed for such further action as may be deemed advisable.

Very respectfully,
"Binger Hermann,
"Commissioner."

THE NEW GOVERNMENT PRINTING OFFICE

The new government printing office will cost about $2,000,000, and it is said that even after its completion it will not be large enough to meet the demands upon it. The new building will be eight stories in height, and its floor space will be about nine acres. The floors will sustain a load of 85,000,000 pounds. The building will be constructed in such a substantial manner that nearly the entire space can be filled with paper and books without injuring its stability in any degree. Access to the various floors will be obtained by twelve electric elevators. The building will be lighted with 7,000 incandescent lights. A refrigerating plant will furnish cold filtered water on every floor for drinking purposes. A large crematory will destroy all the refuse material, and this will aid in heating water, etc. It is hoped in time that Congress will appropriate the money for modern typesetting machines, but it is probable that when the census is coniplete and the reports published, the equipment of the census printing office will revert to the government printing office.—Scientific American.

Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I.T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt-rheum, ulcers, boils and running sores It stimulates liver, kidneys and bowels, expels poisons, helps digestion builds up the strength. Only 50 cents. Sold by M. G. Paden Druggist. Guaranteed.

Yours for business,
ZIEGLER BROS.

A friend in need is a friend indeed. That is exactly what Chamberlain's Cough Remedy is. It is the mother's help when she is suddenly awakened in the night by the ominous husky cough, and labored breathing, of her babe. It is the safe resort of the youth or adult when he has "caught cold" and there is coughing and irritation of the mucous membrane of the throat. It allays the irritation and cures the cold. For sale by M. G. Paden.

New Mexico Mining Stocks.

Last week on the Boston stock exchange 5,515 shares of the Cochiti district, of the par value of $10, were sold at from $16.35 to $17.50 per share. Of the Santa Fe Gold & Copper Mining Company, of San Pedro, Santa Fe county, 2,535 shares of $10 par value were sold at from $8.50 to $9.88.—New Mexican.

A Life and Death Fight

Mr. W. A. Hines of Manchester, Ia writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5 00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest, and Lung troubles." Regular size 50c and $1.00. Trial bottles free at M. G. Paden's Drug Store

About Forest Preservation.

A college in the mountain region of Kentucky has established a course on forestry as a part of the education of the youth of that part of the country It is intended to educate them not to ruthlessly destroy timber, and also encourage them to plant forest and to teach the best varieties of timber to cultivate. All the schools in the United States should instruct pupils of the evil results of needless forest devastation and the wisdom of replenishing timber used in the past. In the course of time sentiment would be formed which would result in legislative methods for preserving or renewing forests, without which any country is deprived of much that goes to make life worth living and robbed of a source of wealth that should be used intelligently.—New Mexican.

Used by British Soldiers in Africa.

Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my and in every case it proved beneficial." For sale by M. G. Paden, druggist.

Official Paper of Lincoln County

The D. and R. G. Will Build South to White Oaks and El Paso.

Now that the El Paso & Northeastern has announced that it will not extend its line eastward, the White Oaks people are beginning to study how they are to secure a railway connection. White Oaks is not on the railway from El Paso, says the New Mexican. The distance from White Oaks is probably seventy five miles to where the Pecos Valley line could be tapped.

A spur of twelve miles would connect White Oaks with El Paso over the new line. But with this spur built by the Denver & Rio Grande as part of an extension from Santa Fe, a distance of perhaps 150 miles, White Oaks, the coal fields, gold mines, and timber country, would be on a through line to Denver, that would pass through a productive country, tapping Albuquerque, and there connecting with the Santa Fe for east and west business.

The Denver & Rio Grande business in the southwest, via Santa Fe, is growing and some day the road will be extended to White Oaks and El Paso. El Paso Herald.

MAX LUNA DROWNED.

Dispatches from the Philippines say that Lieut. Max Luna and two men of his escort were drowned while crossing the Agno river of the island of Luzon. Lieut. Luna served in the late regiment of Rough Riders in Cuba as a Captain and at his discharge was made a Major by brevet, but as he had a further desire to serve his country he received an appointment as lieutenant in the 34th volunteer infantry and left for the Philippines about three months ago. Lieut. Luna was made an aide to Gen Lawton and was serving in that capacity at the time he met his death. Lieut. Luna was a member of the last Territorial Assembly from Valencia county, serving that body as speaker of the house. He was well known throughout New Mexico and was a prominent politician.

The El Paso and Northeastern people are losing heavily every day at the Salado by not having the editor of Alamogordo News to superintend the development of its coal mines el sabe los negocios perfectamente.

The Albuquerque Citizen, 18, says Albuquerque has handled about 1,000,000 pounds of wool in the grease and scoured during the past two weeks.

POSTMASTER WOULD'NT CHIP IN.

In Consequence the Office at Picacho is Discontinued.

The people in and around Picacho, that lively little hamlet in the sunny vale of the Hondo, have been given a taste of the republican methods that they do not much enjoy—no less than the fact that hereafter they must hot foot it to Lincoln, twenty miles away, every time they want their mail.

It all came about through the postmaster, Mr. J. B. Hopkins, declining to be bled by the republican party. Some time since he received notice of an assessment placed against him for use in electing republican candidates in Ohio and Nebraska, with the request to please remit. Having the spirit that becomes a man, he declined to do anything of the sort, and as soon as his reply reached Washington he was notified that the office at Picacho would be discontinued after the first of the present month—thus punishing him for refusing to be blackmailed.

The order will be a genuine hardship to a large number of farmers and cattlemen, as far up the river as the forks of the Bonito, and a much greater distance east and south, who have been tributary to Picacho, finding there a base of supply not excelled by any of its kind in the territory. Now they must travel in some instances thirty miles for their mail, or to do any postal business whatever. No relief can be expected from the mail carriers, as they are not of a sort to be capable of rendering intelligent assistance. So the only thing they can do will be to look pleasant, and get up a new petition, with but little hopes that their application will be granted.

This present instance is a bright and shining example of republican methods all over the country, and should give the voters along the Hondo something to chew on between now and the next election. Roswell Record.

ALAMOGORDO COURT.

Alamogordo, N. M., Nov. 17, 1899.

Editor EAGLE:

The first term of the District Court for Otero county, adjourned today. Judge F. W. Parker presided and performed the difficult duties of his position with fairness and ability. Messrs. W. B. Mitchell, clerk, H. B. Holt, stenographer, and Cesario Pedragon, interpreter, discharged the duties devolving upon them in manner satisfactory to every one concerned.

The visiting lawyers were J. E. Wharton of White Oaks, Judge Newcomb and Judge Fall of Las Cruces, and Editor Matteson of Tularosa. Mr Hutcheson of Tularosa, was admitted to practice until the meeting of the Supreme court. There were three pleas of guilty in felony cases, one for burglary, one for theft of a horse and one for robbery, and they received four, one, and three years in the penitentiary for the crimes named in the order stated above. Rube Payne was tried and convicted for assault to rape, and given ten years in the penitentiary. Considerable civil business on the docket, but only a few cases in which service had been completed.

The grand jury indicted many for infractions of law, there being more for violations of the gaming and Sunday laws than for other more serious offenses; and altogether, the first term of Otero County District Court was a very satisfactory one to all persons interested. Respectfully, O. K.

THE SAN ANDRES

Morgan Llewellyn came in from the San Andres Tuesday, and in a very elaborate discourse delivered in this sanctum said, among other things: "We are shipping a car load of ore from the Major and Florence to the El Paso smelter this week. Operations have been temporarily suspended on the Florence, but in the Major about twenty inches of good ore is being worked. It takes about five days to make the round trip to the station at Las Cruces with a load of ore, and the great need of the district is concentrating machinery or a branch line, which will come sooner or later.

"Hopkins & Co., are doing considerable work in the San Andres canyon, and also in Membrillo canyon.

"D. McCowan and Franklin are also working their claims, and the district is full of prospectors.

"A number of shafts will soon be sunk on the soda beds by the Pittsburg people and that company is quite likely to make a big thing, as a number of commercial salts can be obtained, and it is also said there are large deposits of borax existing there."—Dona Ana County Republican.

KETCHUM PLEADS GUILTY.

Tom Ketchum, the notorious outlaw, pleaded guilty of holding up the United States mail, in Las Vegas yesterday morning. He was taken back to jail at Santa Fe by Deputy United States Marshal Hall, without having received his sentence, which it is said will more than likely be imprisonment for life. It is thought that by his action in pleading guilty of the United States offense, and Ketchum has an indictment against him for this crime in Union county. Yavapai county, Arizona, authorities feel positive that he can be convicted there on a charge of wilful murder.—Albuquerque Journal Democrat, Nov. 17.

BRONCO BILL SENTENCED.

He Pleads Guilty of Murder in the Second Degree and Will Be Imprisoned For Life.

William H. Walters, alias Broncho Bill, decided to plead guilty of murder in the second degree at Socorro, Monday Judge Leland sentenced him to the penitentiary for life. Broncho Bill and "Kid" Johnson were overtaken by Deputy Sheriff Francisco Vigil and two Indians, a day or two after the Belen train robbery. Vigil and one of the Indians were killed in the fight which followed. Months afterward the outlaws were again encountered by the authorities and Johnson was killed and Bill badly wounded. He is still suffering with his injured arm. Albuquerque Journal Democrat, November 17.

Almer N Blazer, son of Dr. J. F. Blazer, lately deceased, one of the oldest of the old timers, has brought a suit against Walter McM. Luttrell, United States Indian agent at the Mescalero Indian agency, to cover damages and to restrain the agent from interfering with the complainant in the possession of certain lands on the Indian reservation. It appears that there are a number of settlers, of whom Mr. Blazer is one, who located lands in that section before the reservation was established, but who, while tolerated by the Indian officer, have not heretofore been able to secure title, and that the Indian agent, whether or not by the sanction of his superiors at Washington remains to be seen, has undertaken to remove these settlers from the reservation. This suit will determine the status of the lands in question, and is of great importance.

CLARK'S OPINION.

David Clark returned on Tuesday from the White Oaks country. He verifies the previous stories of the poor outlook for a good coal field in the Salado district.—Gallup Gleaner.

The above from the Gleaner substantiates the correctness of the interview with Salado miners published by this paper, October 5th. The EAGLE'S article, about which the pig headed Editor of the Eddymogordo News is still prating, applied only to shafts No. 1 and 2, while Clark talks about the whole district. It is needless, however, to try to convince a fool against his will, and it would be a pity to spoil this clever journalist's opinion of himself—he is truly a suitable product for the position he occupies at the "Infant Wonder" and is a sweet singer from Israel, when his song is keyed for singing the panegyric of the illustrious fame of the noble founder of that Oasis in the desert between Dog Canyon and the White Sands, and the wonderful (invisible) resources which surround the city on all sides.

Your Honor, when it comes to lathering asses; dealing with gray matter etc. the unsoaped of Ipswich could have been regenerated and washed as clean as the driven white on a very small percentage of the amount it would take to give your conscience the first coating; and the intelligence of that humble beast of burden to which your literary genius drives you when a clever comparison is desired, can school you for a half century yet in coal mining. Better stick to the alkali flats of Alamogordo a while longer before you branch out to subjects you have not been taught, else the general public will soon get on to you.

La Luz, Tularosa, White Oaks and Nogal, about the only points in the White Oaks country that are truly the centers of resourceful districts, are scrupulously avoided when the Editor of that sheet writes up the the resources of the country.

The White Oaks EAGLE is one among other papers which believe facts and not misrepresentations should be used in advertising the resources of a country, and will continue to put such information before its readers, let it be good, bad or indifferent.

THE WOOL CLIP OF 1899.

(Denver Times.)

According to the estimate made by the national association of wool growers, the wool clip of the year will amount to a total of 272,191,330 pounds, of which about 8 per cent is pulled and the balance wool in the grease. When scoured the equivalent shows a product of 113,958,469 pounds against 111,651,581 in 1898, and about the same amount in 1897. The average weight is put down at 6.46 pounds. Montana, Oregon, Wyoming, Idaho, Texas, Ohio, California, New Mexico, Utah and Colorado are all credited with a field of 10,000,000 pounds, running in the order named here, with Montana in the lead with 21,887,854 pounds and our own state with 10,126,175. The highest average yield per head is given to Washington, which is given 8.5 pounds. Colorado is set down at 6.5 pounds. While the wool in sight is said to be considerably in excess of this date last year, yet an advance in price is noted in the last sixty days, with a strong foreign market.

The Las Vegas Optic says Secretary LaRue of the territorial cattle sanitary board and a large force of assistants has been kept exceedingly busy for some time sending out recorded certificates of brands and answering the voluminous correspondence he receives. Up to November 11, he had sent out 4,000 certificates from the 16,000 brands on record in the records of the office having completed the lists for San Miguel, Guadalupe, Grant, Socorro and Chaves counties. He expects to complete this work by the first of December.

E. T. Collier returned Monday morning from a trip to Albuquerque, Socorro and El Paso. E. T. was summoned to Socorro for jury service, but was excused on his reaching there and went on to Albuquerque where he visited his brother-in-law and sister, Mr. and Mrs. Geo. L. Hopping. He returned by way of El Paso.

M. H. Wells for Drugs and Books. Orders promptly filled. El Paso, Texas.

Regular service at the Baptist Hall, Saturday night at 7:30, and Sunday at 11 o'clock; and Sunday night at 7:30, by Rev. Pope, Alamogordo. Rev. Kinney, pastor, Baptist church at Albuquerque, is expected here the first of next week.

J. H. Baker of Chicago, who has been operating in the Nogal mining district for several months, has moved to El Paso. His family will soon join him from Chicago and they will reside in El Paso this winter.

He Fooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed: but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on Earth, and the best Salve in the World. 25 cents a box. Sold by M. G. Paden, Druggist. Guaranteed

Arthur H. Buck came in from El Paso with E. W. Parker last week, and went out to the Capitan Mountains Thursday, where he will take the initiative in the working of some iron properties for Haley & Parker. Mr. Buck was a classmate of J. H. Parker at the Colorado School of Mines and visited J. H. here a year ago.

The Appetite of a Goat,

Is envied by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful Stomach and Liver Remedy, gives a splendid appetite, sound digestion and regular bodily habit that insures perfect health and great energy. Only 25c at M.G. Paden's Drug store.

Roswell Register: Dr. Veal, J. N. Donahoo and Geo. M. Slaughter, who intended building a sanitarium here, spent most of the week here discussing a proposition to build a hotel instead. A propostion to subscribe a bonus of $6,000, to which J. J. Hagerman proposes to contribute $1,500 and Col. Slaughter $1,000, is under consideration.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by M. G. Paden.

W. H. DeRoscar, a mining engineer and expert of wide reputation is in the city. Mr. DeRoscar is looking at the mineral resources of this vicinity, and expresses himself as very much pleased with White Oaks. He thinks the Old Abe a bonanza and believes many other such properties may soon be opened up as capital begins to look at this particular locality. DeRoscar has been mining in the Bland and Cochiti Country for several months previous to his coming here.

Chas. Vale and a gentleman by the name of Harry came in from the road Thursday. Mr. Vale is from Victor, Texas, at which place he has during the past three years convinced himself that that independence generally applied to the cotton farmer is all a fake. Previous to engaging in cotton production Mr. Vale lived here, and was an employee at the Old Abe mine. He has returned for the purpose of again engaging in the same business. Mr. Harry is an Illinois man and is here looking after business interests.

Rain and snow and plenty of it this week. Regular blizzard Monday. Mails delayed ten or twelve hours Monday.

Old papers 25 cents a hundred at this office.

CAPITAN IRON.

John A. Haley and E. W. Parker, Haley & Parker, of this place, have leased a controlling interest in the stock in the Capitan Iron Company, and are making preparations to ship to El Paso smelters. These iron properties are located about 6 miles east of Capitan station, the terminus of the Northeastern. There is a group of some ten claims which were located and stocked three years ago. John A. Haley and E. W. Parker have recently secured a lease on the majority of stock and are making preparations to work the properties.

The locations embrace a group of some ten claims and is one of, if not the very greatest iron propositions in New Mexico. No shipments have yet been made, but the smelter tests have shown the ore to run about 64 per cent iron. The supply is such that a market of the product will make iron mining one of the chief industries of this locality; there are not only thousands and thousands of tons, but a whole mountain of ore, waiting for the miner and the market.

Messrs. Haley and Parker have already put men to work getting out ore at the mines, and will begin shipping as soon as teams can be procured to put it aboard the cars.

Should the demand for the raw product not be sufficient to justify working the properties, these gentlemen will probably put in machinery for reducing it to pig on the ground, and put it on the market in that way. Whatever the method used in its disposition the quantity and quality of this Capitan ore will add greatly to the mining industry of Lincoln county.

Chamberlain's Pain Balm Cures Others Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—ADOLPH L. MILLETT, Manchester, N. H. For sale by M. G. Paden.

NOGAL CORRESPONDENCE.

If there is any truth in the old time honored saying that "brevity is the soul of wit," this communication should assuredly take the palm in that respect. Since my last correspondence a whole week has rolled round, without developing a single item of special or journalistic interest, in our midst. During the last few days the weather has been exceptionally unfavorable to prospecting enterprise, and with the exception of the works to which I alluded in my previous contribution, nothing of moment has developed in this section.

During Sunday and Monday of this week it has rained or snowed almost without intermission day and night; and those who have not been called out on urgent or imperative business, have remained very domesticated.

For the last few days there has been considerable enquiry for men and teams to work, and haul ore for the Oscura Copper Mining Co., from the point of operations to Milagro on the White Oaks, R.R. a distance of about twenty five miles. The rate of wages offered, as reported here ranges from $2.00 to $2 25 per day and board; while teams can obtain from $12 to $15. per ton. Several men and wagons have already left this vicinity for the point indicated, as it is reported that at least 100 men or more are required at once.

Much confidence is expressed in the future prosperity of Nogal, not only by our own citizens but by mining men and practical prospectors from a distance who have lately done considerable work in this immediate neighborhood. As stated in my previous letter some of the specimens lately taken out present a remarkably rich showing, and apparently only require capital and development to form a very valuable industry for Nogal and surrounding country, as soon as spring opens, and permits outside work being prosecuted.

Dr. Lane of White Oaks has been here for several days on a visit to his son in law and daughter, Mr. and Mrs. Geo. Sligh.

Mr. S. E. Bailey of Roswell is still here, where he came to superintend work on his copper mining property in this immediate neighborhood. He expects to return to Roswell tomorrow, but expresses himself entirely satisfied with the prospects, as far as the work has been developed

The Nogal Public school is now in full running order, and from present indications, including the steady increase in attendance from the surrounding country, it is probable that the present term will prove very satisfactory.

HOTEL ARRIVALS.

HOTEL GALLACHER.

J. C. Harry, Lexington, Ill; E. Levy, El Paso; John A. Haley and wife, city; James Bragg, Park; Wilson McDurham, Park; D. Doherty, J. A. Ross, Jicarilla; Newt Kemp, J. C. McCoy, Gray, N. M; D. H. Lucras, Rabinton; C. H. Byfield, Miss Alice Byfield, Mrs. M. E. Anderson, Mrs. Lillie B. Moore, Nogal; Nate Allen, Mr. Hale, F. B. King, Ruidoso; Thomas Johnson, J. C. Smith, John Crisp, Nogal; D. B. Hightower, Jim Morris, T. W. Heman, city; Demetrio Perea, Lincoln; A. M. Patten Denver Republican; M. F. Davidson, Gallinas.

HOTEL OZANNE.

A. F. Brown, San Francisco, Cal.; H. M. James, of Waltz Music Co, San Francisco; G.C. Turbell, City; Harry Comery Chas. Bull, City; C. S. Frankee, El Paso traveling for Baumenthal & Co.

Dr. M. C. Paden, Jas. Reed and Dave Tinnon were hunting in the White Mountains this week. They returned yesterday with a number of turkey.

A. M. Patten, representing the Denver Republican, has been in the city two or three days, looking after the interests of his paper.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.

To accommodate those who are averse to the use of atomizers in applying Ely's Cream Balm into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

EAGLE CREEK NEWS.

Correspondence.

The people of Eagle Creek vicinity are about through gathering their crops.

A. C. Storm is going to move his Sawmill up Eagle Creek two or three miles in a few days.

Tom Burditt is very sick.

A. J. Gilmore made a big crop of hay.

Watt Gilmore came in home for a day or two from his Rinconada ranch.

Several new homestead places have been taken up lately.

Miss Pearl Burditt's school on Eagle Creek is getting along splendid. She is an excellent teacher.

Miss May and Ula Gilmore have filed on a piece of land; they are going to have a home if nothing else.

Old settlers claim it is dryer than ever before at this season of the year.

J. P. C. Langston was arrested here Monday by officers of Otero county on a charge of complicity in the holdup of the Lumber Company at Alamogordo last spring. The officers returned home Monday leaving Mr. Langston to come when ready. He and W. S Roberts left Tuesday to attend the court at Alamogordo. This arrest was probably no greater surprise to Mr. Langston than to the people of White Oaks who have known him for years. Mr Langston was at home in White Oaks when the robbery occurred which he will prove when allowed a hearing by the Otero county court. He has been a peace officer in one capacity and an other in this county for many years and has always been acknowledged to be our very best when acting in an executive capacity. No doubt Mr. Langston will be able to show by what means he has been pulled into this disgraceful affair.

White Oaks merchants received 5 car loads of freight at Carrizozo station last week. This was only a little more than half of the total amount received, as there is yet a good deal of freight coming from San Antonio.

Jones Taliaferro returned from Socorro where has been on jury service for Uncle Sam's court in session at that place.

THE

NEW YORK WORLD

THRICE-A-WEEK EDITION.

The Best Paper at the Lowest Price

156 Papers.

A Year

FOR ONE DOLLAR.

As good as a daily at the price of a weekly.

During the Spanish-American war THE THRICE-A-WEEK WORLD proved its great value by the promptness thoroughness and accuracy of its reports from all the scenes of important events. It was as useful as a daily to the reader, and it will be of equal value in reporting the great and complicated questions which are now before the American people.

It prints all the news of the world having especial correspondence from all important news points on the globe. It has brilliant illustrations, stories by great authors, a capital humor page, complete markets, departments for the household and women's work and other special departments of unusual interest.

We offer this unequalled newspaper and WHITE OAKS EAGLE together on year for $2.00.

The regular subscription price of the two papers is $2.50

THAT YAQUI REBELLION

A press dispatch from Guaymas says: With restoration of telegraphic communications between Gen. Torres' headquarters at Torin and Guaymas comes a dispatch conveying news of a two days' fight between Mexican troops and the Yaquis.

The Indians attacked the garrison at Fort Angostura, near Potam, and were repulsed. Later, reinforcements were sent from Torin and Potam.

The troops attacked the town of Vicam and routed the Indians with considerable loss to the latter. Thursday the troops again engaged the Indians at Loocbampo and scattered them, the Yaquis' losses being heavy. The casualties of the Mexicans are given as four killed and twelve wounded.

Edison's Dry Washer.

Many newspapers of the country refer in terms sarcastic, and otherwise not complimentary, to Edison and his gold saving process. Mr. Edison speaks of his mammoth "dry washer" as the greatest work of his life. Mining men who have been successful believe in him. That the gold exists in large quantities in the district where this machinery is to be operated is unquestioned, and everything points to the successful working of the "dry" gold deposits of the territory, of which there are thousands of acres. Should any thing like the success claimed for the invention be the outcome of trial on a large scale New Mexico stock will soar into the azure, and these "mining experts" who do their mining in newspaper offices only will have to revise their estimate of Mr. Edison's ingenuity. Practical, conservative men are interested in the venture, men who have not acquired the habit of purchasing gold bricks, and this in itself gives confidence to the thoughtful.—Mining Record.

SIX-SHOOTERS AND DEATH.

A Killing at Magdalena.

Deputy Sheriff George Sanders of Socorro county, last Tuesday shot and killed Luke Flanigan of W. S. cattle outfit. Flanigan rode into Magdalena in the afternoon and entered a saloon, carrying a six-shooter in his pocket. Deputy Sheriff Sanders told Flanigan to remove the revolver and gave him five minutes in which to do so. Later Sanders saw Flanigan drinking with a friend in another saloon, drew his gun and shot him in the head killing him instantly. Sanders was arrested and said that he shot Flanigan in self-defense as Flanigan had made a move as if to draw a weapon.

THANKSGIVING PROCLAMATION.

Governor Otero Advises Observance of the National Holiday.

EXECUTIVE OFFICE,
Santa Fe, N. M., Nov. 7, 1899.

Whereas, the president of the United States, in accordance with a time honored custom, has by proclamation of recent date, set apart and named Thursday, the 30th day of November, A. D. 1899, as a day of general thanksgiving and prayer to Almighty God for the blessings he has vouchsafed to us and has therein earnestly exhorted all our people, wheresoever they may be, to assemble in their several places of worship on that day, and render devout thanks to the Most High for His Countless individual blessings, and His signal favors to us as a nation during the year; and frequently to implore a continuance of His favor and divine guidance for the nation.

Now, therefore, I, Miguel A. Otero, governor of the territory of New Mexico, do hereby call and commend said proclamation to the special attention of the people of this territory; and in accordance with established precedent, do likewise here designate and name the said 30th day of November, A. D. 1899, as a day of general thanksgiving for the people of the territory of New Mexico, recommending and advising that it be in all things observed by them in the very appropriate manner suggested and advised by the president in his said proclamation.

Let us all, as citizens of New Mexico, upon that day, express our gratitude to Almighty God, for the profound peace and harmony existing throughout our territory; for the spirit of loyalty and patriotism existing among our people; for the safe return of so many of our valiant soldiers, and, seek His care of those still absent defending the honor of our nation in the onward march of civilization, liberty and law; for the general prosperity existing in all branches of business and the advancement and success of our educational and charitable institutions as well as for the growing spiritual, moral and charitable sentiment prevailing among our people.

It is further recommended that said day be treated as a legal holiday by the people of the territory, and make the occasion for family reunions; the renewal of friendships; the reconciliation of personal animosities, and for ministering to the needy and distressed.

Done at the executive office this, the 7th day of November, in the year of our Lord One Thousand Eight Hundred and Ninety-nine. In witness whereof I have hereunto set my hand and caused the great seal of the territory of New Mexico to be affixed.

MIGUEL A. OTERO,

By the Governor:

GEO. H. WALLACE,
Secretary,
Territory of New Mexico.

WANTED:—We will pay $12.00 a week salary to either a man or woman to represent the Midland Monthly Magazine as a subscription solicitor. The Midland is the same size as McClure's or the Cosmopolitan. It is now in its sixth year and is the only Magazine of this kind published in the great Central West. A handsome premium given to each subscriber. Send 10 cents for a copy of the Midland and premium list to the TWENTIETH CENTURY PUBLISHING CO., St. Louis, Mo.

The TOLEDO WEEKLY BLADE

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 post offices in the country. It is edited with reference to a national circulation. It is a Republican paper, but people of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department, [best in the world], Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau [which answers questions for subscribers], the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only $1 a year. If you wish to raise a club, write for terms.

Address THE BLADE,
Toledo Ohio.

The EAGLE and the Blade, $1.60.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The policies of the great political parties are now being formed and the candidates discussed. The voice of the people as recorded by ballot at the approaching Presidential election will probably decide the policy of the nation for the next decade. Every citizen must study the great questions that are to come before the people. This can only be done through the medium of a great newspaper. Now is the time, therefore, for every voter to subscribe for the best and most reliable newspaper obtainable. The Semi-Weekly Republic covers the whole field of political news. While it is Democratic, it publishes the news in regard to all political parties without prejudice. Its telegraphic and cable news service is superior to that of any other paper. Its special features are the best. In fact, it is the paper for that large class of readers who cannot afford or do not have access to the daily papers.

Attention is also called to the Republic's Sunday Magazine. Its half tone illustrations are alone worth the subscription price. It is made up of special articles by the best literary talent, embracing a variety of subjects of current interest. News features of absorbing interest are illustrated and enlarged upon. For the benefit of the ladies the latest fashions are handsomely illustrated. The Republic Sunday Magazine is always interesting to every member of the family.

The subscription price of the Semi Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1.25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid at the same time.

Address all orders to THE REPUBLIC, St. Louis, Mo.

THE delights of an evening spent around a well-lighted reading table are not half understood. An illustrated magazine with its wealth of illustrations, its stories of adventure and love, its descriptions of travel which carry you to the remotest ends of the earth, and its instructive articles for young and old—these are the first requisites for your own enjoyment and the entertainment and proper education of your children.

To secure for you the best and most interesting of the great illustrated magazines at the lowest possible price has been the aim of the editor of this journal. That we have succeeded we leave our readers to judge. A special contract recently entered into with The Cosmopolitan, which seeks to become better known in this neighborhood, has enabled us to offer you a year's subscription to the greatest of the illustrated magazines together with a year's subscription to this journal,

Both Together One Year for Only $2.10

In this way you secure your own home paper and an illustrated magazine at a price that is only about a fourth of what some of the illustrated magazines sell for. For three years The Cosmopolitan has undisputedly claimed that it reached the largest clientele possessed by any periodical, daily, weekly or monthly, in the world. It was The Cosmopolitan which sent Julian Hawthorne to India to let the world know the real horrors of famine and plague. It was The Cosmopolitan which established at its own cost a great Free Correspondence University which now has over 20,000 students on its rolls. It was The Cosmopolitan which offered a prize of $5,000 for the best horseless carriage and prizes for best plans for public baths, and best arrangement of sewer and pipe systems for cities. It was The Cosmopolitan which set the presidents of great schools and universities seriously discussing the defects of existing educational systems. It is The Cosmopolitan whose enterprise is always in the lead in advancing the world's civilization.
