## GENERAL NEWS ITEMS.

**RECLAMATION AND UTILIZATION OF ARID LANDS.**

Washington, D. C., Jan.—The preliminary work of the Census office in collecting data relative to the arid and sub humid regions shows that during the past ten years vast areas have been reclaimed by irrigation, both by ditching from running streams and drilling for subterranean waters.

Where only a few years ago the sage brush struggles for existence in the midst of a waste of alkali and sand, to day are fields of waving grain and blossoming orange-groves. Hundreds of miles of canals and ditches have been constructed; hundreds of wells have been sunk, and thousands of acres of land have been cultivated in zones where once the desolation of shara resigned.

Moistened by fresh waters and fertilized by the rich silt of the swift mountain streams, once trackless wastes and desolate valleys in the arid Southwest, have become as fertile as the famous Valley of the Nile, and send forth crops of endless variety and exceeding abundance.

Irrigation is intensive farming. Where the water supply is ample, it is sure farming. There are no failures, and crops are enormous. The experienced irrigator is like the trained engineer with his hand on the lever. The movements of his hand regulate the amount of water supplied to his fields as those of the engineer control his engine.

In most of the irrigable sections of the West, fertalizers have never been used, although the land has been constantly cultivated for over two centuries. In many sections fields may be seen which have yielded sucessive crops of wheat for forty years and show no diminution of productive strength.

Wonderful progress is shown in the method of constructing canals, dams, and pumping machinery, and in the manner of distributing water. Modern inventions in machinery have greatly lessened the time, labor, and cost of construction and management and made possible many gigantic enterprises of land reclamation and water utilization.

Mountains have been tunneled and whole rivers have been lifted from their beds spread over the valleys precisely as wanted. High up in the ranges and on the elevated plateaus immense storage reservoirs have been constructed to impound the flood-waters of the streams so that the thirsty land below shall not suffer during the long rainless summer.

As the successful solution of the problems of conservation of flood waters means the reclamation of millions of acres of public land, the people naturally ask the Government to promote measures having this end in view. To this demand the Government responds Lands containing excellent reservoir sites have been set asile and a through study of sources and permanence of the water supply of arid regions has been made to enable Congress to legislate with intelligence upon this important snbject.

In said of this work the Twelfth Census will endeavour comprehensively to show the present condition and values of Agriculture in the arid and sub humid regions; the length, irrigable extent and cost of the various canals, wells, and ditches; the character, volume and constancy of water supply: systems employed in distribution; amount paid for water and the crops, acreage, and yield of irrigated farms.

This effort will be successful if those interested in irrigation shall heartily cooperate with the Census Office and its agents.

Within a brief period the main schedules for taking the census of irrigation will be distributed, and Director Merriam requests that all recipients prepare properly to fill them out and to return them promptly.

**FOR THE BABIES.**

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. **New Mexico and Statehood.**

From the El Paso "News."

The politicians in New Mexico are making their bi-ennial talk about statehood for that Territory. There is little likelihood of statehood being granted, while the desirability of the grant is infinitely less. This is realized by the best people in the Territory, and it is doubtful if many of those who talk the most in favor of statehood really want it. Their talk is for political effect only.

If the good people of New Mexico, and they are numerous of both races, would but combine to put down the politicians and conduct the affairs of the Territory on a business basis and for the benefit of the people rather than of the adventurers who have become prominent in politics, then statehoot would be a benefit; but under existing conditions, no greater curse could be conflicted on the people.

**An Editor's Life Saved by Chamberlain's Cough Remedy.**

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I feard that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. **NOTICE.**

A Missing Woman.

Raventon, N. Mex. Jan. 22, 1900.

Know all the inhabitants of New Mexico, that on or about September 3d 1899., clandestinely, went off from White Oaks N. M., under the influence of "Insanity" the old woman Mrs. Trinidad Garcia native of Socorro, N. M. and known by the Nick-name of "Tia Cainita."

The information that has alarmed her relatives, is the one given me by Mrs. S. E. Barbor of Three Rivers on the 3d inst. saying that about Sept. fifth or sixth of last year she found the missing woman near her Ranch, and as she knew her, she gave her bread and water.

If any person in or out of the County of Lincoln knows anything in regard to the whereabouts of the above said Old Lady, please give notice to the undersigned or to the White Oaks EAGLE.

## Official Paper of Lincoln County

Senator Goebel, of Kentucky, was fatally shot by an unknown assassin at Frankfort, on Jan., 30. This is the unfortunate conclusion of the Taylor-Goebel contest, and adds deeply to the shame of Kentucky in her policy of gunning for the enemy in the settlement of political questions.

Governor Wells of Utah, has issued a proclamation calling an election, Monday, second day of April next for the purpose of electing Robert's successor as representative to the Fifty-sixth Congress, the necessity of which was occasioned by that gentleman's expulsion from the House of Representatives because of his tenacious propensity in holding to his theory of the justice of the plurality of wives; of which he possesses three.

Roberts, the Utah polygamist has been fired out of the Congress; Clark of Montana should be, and Quay of Pennsylvania should never be allowed to get in. A powerful precedent bearing on this point is exactly what is needed, and a good strong ousting rule applied unhesitatingly to this character of ambitious intreaguers will be the salvation of the country and the preservation of the dignity of the congress instead of a dangerous precedent as the professional politician would have us believe.

In summing up Uncle Sam's new acquisition, Senator Vest remarked that we have the bubonic pleague added to leprosy in Hawaii; starvation in Puerto Rico; unrest and disgust in Cuba, and a war of indefinite length in the Philippines. The gentleman from Missouri forgot, says the Cleveland, Ohio, Press, to say that we are also the possessors of a sultan whose subjects cultivate harems and slaves, and of a dusky king in Samoa, who is about to receive a course of European schooling from Uncle Sam, to keep him in line of civilization and to enable him to see the Paris show at the expense of American taxpayers.—Carlsbad Current.

## THE MEXICAN GOVERNMENT SHOULD BE HELD TO ACCOUNT.

**General Torres Said to Have Had Prospectors Shot.**

Guaymas, Mex., January 27.—It is reported here that six Americans—David Cusick, John Eldrige, George Lunt, Charles Burns, Lon Webester and Henry Williams—were shot last week east of Guaymas by order of General Torres, who is in command of the Mexican troops now operating against the Yaqui Indians. It is said the Mexican troops found the Americans in friendly intercourse with the Yaquis, whom the troops have surrounded in the range.

## HURLED BACK ACROSS THE TUGELA.

The news of British defeat at Spion Kop is confirmed by the latest despatches from South Africa. Buller is reported in full retreat across the Tugela river, leaving 1,500 dead and wounded on the field. The retaking of Spion Kop is said to be the master stroke by the Boers in this war. The fall of Lady Smith is thought to be inevitable; both Generals, Buller and Warren, have been severely whipped, and will not likely again attempt an advance without re-inforcements which cannot now arrive in time to relieve the beleaguered city.

## LOOKS BAD FOR TAYLOR.

The Van Meter-Berry contest for a seat in the Kentucky legislature resulted in a vote 51 to 47 in favor of Van Meter, democrat, The republicans admit the result as an accurate forecast of the Goebel-Taylor contest. The democrats claim that out of the 99 votes cast they will have 53 at least, against 46 for the republicans. The latter claim 52 against the democratic maximum of 47. On a strict party vote there are in the house 59 democrats including Speaker Trimble and 40 republicans.

## WASHINGTON LETTER.

Special to the EAGLE.

The visit of Col. W. J. Bryan to the east has resulted in the adoption by the democratic leaders in Congress of a concerted plan on the subjects of expansion and trusts. This agreement was not reached until after a somewhat heated debate which gave rise to the rumors of serious disagreement which were sent broadcast over the country by the correspondents of republican papers. There was, however, no real trouble. All those present were genuinely anxious to reach an agreement that would be satisfactory to all and on which the "ant is" of both parties would stand in preference to the republican platform. After a good deal of talk, the members got together and formulated a policy which will hold until the National Convention meets. Until that time, none of the members will make speeches or give out interviews antagonizing the provisions of the agreement, even though they do not quite suit all of them. On expansion, the agreement may be summed up as follows: The rebellion is to be suppressed; immediately thereafter a republican form of government is to be established in the Philippines; as soon as this is done, the army is to be withdrawn; the United States is to relinquish sovereignty, retaining coaling stations, etc., and retaining a protectorate so as to prevent foreign interference; the Philippine republic is to issue bonds to pay back our $20,000,000 and the incidental expenses of government there. On trusts it was found easier to reach an agreement, there being general approval of Mr. Bryan's plan to extend the jurisdiction of the federal government over trusts engaged in business in more than one state, and, therefore, really coming under the meaning of interstate commerce. All such are to be required to take out licenses, to publish statements of their accounts and to have their books always open to the inspection of government officials. This, by the way, is practically what will be recommended by the Industrial Commission. On silver no agreement was necessary, as that is already a shibboleth of democratic faith. Mr. Bryan declared that in his further journeying through the east, he should discuss all three issues in his speeches. He said: "I shall talk about trusts and imperialism and free silver. I have got pretty tired of having one particular topic suggested to me by a person who likes to hear it talked more than any other. Let every one arrange them in order of importance as he sees fit. I won't.

Montague White, consul general of the Transvaal to Great Britain, has been in this city for several days. Yesterday he called on Secretary Hay, and stated that he came merely as a citizen, having no credentials authorizing him to act as agent for the Boer government, as had been supposed. Unfortunately for the administration, semi-official warnings had already been given out by the State Department to the effect that he would not be received, the excuse being that England was the "suzereign" of the Transvaal and that consequently the latter country could not be considered independent. This excuse was evidently a mere subterfuge, designed to prevent Mr. White from obtaining a place of vantage from which he might obstruct the British in their efforts to use the country as a depot of military supplies. The excuse that the Transvaal is not independent was a most remarkable one in view of the fact that the United States has for years accredited three consuls to President Kruger, all of whom have acted under exequaturs issued by his government. However, when the senior member of the Anglo-Saxon partnership makes demands on its junior partner, it can always depend on the present Administration responding, no matter at what sacrifice to the liberties of other people. Mr. White by the way, was consul-general of the Transvaal in London when the Jamieson raid took place. While lying ill in bed his house was attacked by a mob and he was forced to flee for his life. This furnishes an excellent example of the English ideas of fair play.

"Owing to arrears of work," said Commissioner Duell of the Patent Office, today, "an application for a patent will not be reached in this Office until about a month after it has been filed. Attorneys nearly always make their claims too broad, with the entirely proper desire to do their best by their clients, and we have to return 95 per cent of them for the amendment. The attorney may either accept our objections, modify his application in accordance with them and hurry it back, or he may keep it longer and study it more carefully before returning it. Of course, the broader the claim that he can get granted, the more valuable his patent will be. It requires some two weeks to finish it after it comes back, so that at least seven weeks, in all, is required to get a patent through, and it can be done in that time, only by the attorney for the claimant conceding all the objections of this Office.

Another effort is to be made to return to its owners the proceeds of the cotton captured and sold in the south soon after the civil war. Senator Money of Miss is giving especial attention to the subject, and Senator Davis of Minn. has introduced a bill granting one year additional for presenting proof of ownership before the Court of Claims. Some twenty million dollars were collected and paid into the Treasury from the sale of captured and confiscated cotton, and less than nine millions have been paid over to the heirs and their heirs.

Both the democratic and the republican parties are looking for candidate for Vice-president.

## OF LOCAL INTEREST.

J. W. Whitmire and a party of mining men from Colorado went to the Oscuras Tuesday to examine a number of copper prospects in that district.

The Lady Godiva will resume operations the first of March. Free milling ore has been uncovered at a number of different places on the Godiva, and when the owners erect a mill as it is understood they intend to do this will be added to the number of producing properties.

Chas. Vail and Jos. Ross left here the first of the week for the Oscura copper camp. Both of these gentlemen have valuable claims in that district and have gone there to do their assessments. Vail has opened up a contact lead of high grade copper ore which shows ore for 25 feet that runs 17 per cent. He is making preparations to ship.

### Boston Boy Reported Sold.

The Boston Mininig property which lies north of the Old Abe, is reported sold to New York mining men this week, for a handsome consideration, though the exact figures have not been learned by the EAGLE.

This property is considered one of the most promising claims in the White Oaks district, and will, so it is understood, be developed by the new owners, who are negotiating a lease of the South Homestake mill, which they want for the purpose of milling the ore.

### Oscura Copper Shipments.

Max Wienberger, Ziegler Bros. and Capt. D. Doherty are shipping ore from the Effie mining claim in the Oscuras 8 miles South of Red Canyon. This ore is hauled 17 miles to Malagra station. Returns so far as known show the ore to run about 19 per cent. Felix Guelara and Priciliano Pino of this place have the contract for hauling.

Nogal parties are shipping from the same vicinity, two miles North the Effie claim. Several new discoveries are reported and the Oscura camp has every prospect of being a very lively one in a few weeks.

Henry Little and George Denton, of Colorado Springs, and J. C. Spicer, of the firm of Spicer and Schisler, of Cripple Creek, Colorado, were in White Oaks, Tuesday. These gentlemen are mining men with capital behind them and are looking at the country for the purpose of finding a place for its profitable investment. They spent several days in the Jicarillas and in White Oaks, and are very much pleased with both places. They are now in the Oscura copper camp 20 miles from Malagra to examine properties belonging to White Oaks parties and from that place will return to White Oaks.

### ROBBED THE GRAVE.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters;' and to my great joy and suprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50cts., guaranteed, at M. G. Paden's Drug Store.

### PRICES OF COAL.

**Mining and Stock Industry of The White Oaks Country.**

The New Mexican says in no city in New Mexico, but Santa Fe can people buy bituminous coal at $4 per ton for domestic use; nor so cheaply for engines.

This may be true as applied to cities. White Oaks does not claim that distinction yet, but we can beat $4.00 per ton for bituminous coal for domestic purposes or any other purpose. The Old Abe Co. mine and haul their coal three miles at a cost of $1.75 per ton and deliver to the bins in the city for $3.75 per ton. But there is probably no place in New Mexico where coal can be mined so easily as at White Oaks, and where there is such quantities of it available.

Most any body here can have a coal mine that wants it—the field is extensive and so much ground yet untaken. There is not much excitement over the immense deposits for the reason that there is no way of getting the coal to maket except a 15 mile haul by wagon.

The Old Abe Co. is contracting with A. H. Hilton of San Antonio, who is shipping to El Paso where there is a demand for an excellent quality of coal for blacksmithing as well as domestic uses. The Old Abe coal is said to be equal to the Pennsylvania for blacksmithing and will compete with the best coal in this market for domestic and steam uses.

The only drawback to the extensive shipping of this as well as other White Oaks coals is the 15 mile haul to get it aboard the cars. But these difficulties will however, now, pretty soon too, change for, the reason that such mineral and stock districts as White Oaks, Jicarillas and Gallinas will bring it. Watch the EAGLE's prediction.

The tremendous wealth of these districts, is becoming generally known, and more money will be invested and greater returns realized here during the next twelve months than anywhere else in Southern New Mexico. The new era has already begun and a general and substantial progress in the mining and stock industries is now assured for this locality.

An exchange states the following truth, which but few people, and especially the fellows who "know just how to run a newspaper," realize: "The fact is worthy of consideration that if the newspaper man should print the contents of his waste basket there would probably be a riot. There would certainly be trouble in many homes, arrests in some directions, shotguns in another and trouble all around. But the patron never sees the waste basket. He only glances at the beautifully printed page, complains if one letter in five hundred is upside down, growls if one man's name in fifty is spelled wrong, kicks because his communication signed, 'Taxpayer,' has been condenced into respectable English; frowns because the editor did not take advice about publicly telling his neighbor about some shortcoming, and is generally disgruntled. He knows not his share of the waste basket, but if he could have one look at the contribution made to that receptacle by his neighbors and friends he would be thankful for the existence of a man of sufficient intelligence and courage not to print all he knows, and to temper even that which he does print."

### JICARILLA NEWS.

Correspondence.

The party of Colorado men that has been looking over the camp during the past week left on Monday morning the 29th for Roswell on their way back North. These men are not very well pleased with the camp with the possible exception of one, we judge. They expected to find gold sticking out of the ground with bell buoys attached together with other conveniences for finding and locating.

Mr. Stanley who has been here for a couple of months will remain and Mr. Williams, his associate, will return after taking the other gentlemen to the R. R. at Roswell.

E. J. Phillips is putting in stock of goods preparatory to opening a store at his ranch.

J. F. Mains has located a small claim on top of the divide and has done the location work.

Postmaster Ross is pushing his assessment on the "Katydid" and work on Toledo has been completed.

Geo. Johnson recently ill with rheumatism is now recovered.

The Report is current that Jno. Puler is soon to go out of business. Report don't say how whether it's a sell out or a trust out.

### Gray Gleanings.

Correpondence.

Mrs. Ralph, from Alamogordo has opened a boarding house between Gray and Capitan.

Bessie Lesnet of Lincoln is visiting her sister, Mrs. Edith Gray, at this place.

A. H. Hudspeth who has been bookkeeper for more than a year at the V. ranch is now living on his homestead near the Salado. All heartily welcome Mr. H. back to this neighborhood.

Manager of the Capitan mines, T. L. Welles has returned to his home in Pennsylvania, and W. P. Thompson of Colorado has arrived to fill the vacancy.

Dr. Henwood of Alamogordo was in Gray last Thursday and Friday engaged in dental work.

Rev. Hoffman of El Paso preached an instructive sermon at Capitan, Sunday morning.

Mrs. Roberts of Nogal was a guest of Mrs. S. T. Gray, the first of this week.

J. A. Eddy arrived last night to take charge of the surveying of the town of Gray which work will begin at once.

Mrs. Geo. Sleigh and her father, Dr. Lane visited at W. M. Reily's on Sunday.

### The Best Medicine For Rheumatism.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Herminie, Pa. ### BRYAN BANQUETED

**Makes Speech in New York and is Greatly Surprised at the Warmth of His Reception.**

The following dispatch was sent out from New York on Jan. 24:

Hon. W. J. Bryan was banqueted by the Robert Davis association at their club house in Jersey City tonight, after which he delivered a political speech before a large crowd at St. Mary's hall.

Bryan received a most hearty reception from about 3,500 persons, all that could possibly get into the hall, to whom he spoke for nearly two and a half hours upon silver, trusts and imperialism. Bryan had the appearance of being greatly cheered and somewhat surprised by the warmth of the greeting which he encountered when he walked in on the stage. For fully a minute the hall resounded with cheers and seemed to be full of waving hats. When this subsided it was followed by three cheers for Bryan himself, which was immediately drowned by cheers for "our next president."

### THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The wars of America have, heretofore, settled affairs of state. Great questions of policy, of national motives and national conclusions have been answered as soon as the battle smoke cleared away, and the victor realized his victory. The war with Spain is unlike its predecessors. It has not answered questions, but has created problems which may not be solved lightly. These problems are being formulated by the political parties, and before they can be definitely settled at the ballot box it is necessary that the people be informed in regard to the situation. The result of the campaign of 1900 will make a broad mark upon the page of history; it will doubtless establish the policy of the great Republic of America for a quarter of a century. It is vastly important, therefore, that every citizen shall study the situation through that best of mediums, a great newspaper. The Semi-Weekly Republic which affords a comprehensive view of political situation in all its bearings. It publishes the new news. The Semi-Weekly Republic is a Democratic paper, but it offers to its readers the news regarding all the political parties, and this without prejudice. It is a fair newspaper. Its telegraph and cable news service has been proved to be the very best employed by a modern paper. Its special features are unsurpassed. It is the newspaper for the reader who has not access to a daily paper.

News features, art, and literature combine to make The Republic's Sunday Magazine a specially attractive weekly magazine. The half tone illustrations printed in this magazine surpass anything ever attempted by a newspaper. These products of photography are worth the price of the paper. Special articles by trained writers on the news, and the subjects engaging the public attention are prepared for The Republic's Sunday Magazine. A distinctly useful and attractive feature of this magazine is the fashion department. Always reliable and up with the times, the ladies find the fashion page a delight. Indeed, The Republic's Sunday Magazine appeals to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1.25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid for at the same time.

Address all orders to THE REPUBLIC, St. Louis, Mo.
