A GREAT THING FOR WHITE OAKS.

Should Display Our Resources at the Chaves Co. Fair.

A Big Mineral Exhibit There Would be an Eye-Opener to Capitalists.

While a mineral exhibit is being gotten out for the El Paso Chamber of Commerce, would it not be a good scheme to prepare one for the Chaves county fair to be held at Roswell in October?

This fair is to be a union exhibit for the counties of Chaves, Eddy and Lincoln, and since the mining industry is by far the most important interest in Lincoln county we should have an excellent mineral exhibit there, representing every resource of mineral in this county, which is a commonwealth of mineral unto itself. White Oaks, being the mining center and having greater development than any other district, should look well to the preparation of an exhibit for this fair.

The EAGLE has before urged the necessity of united effort along these lines of public interest, and the reader will readily agree that great good may be accomplished by the sending of a well selected representative exhibit of minerals, not only from the entire county, but from each respective district.

This a question of public interest that appeals to the citizen, no matter whether engaged in mining or what not. Anything that will advance the prosperity, and stimulate business in the community, as a whole, must certainly add to the personal interests of the individual.

Many people who will visit this fair know nothing of the infinite mineral riches of the White Oaks country, and there is nothing so convincing as seeing. "Seeing is knowing," and should the mining districts of this county put a representative collection of minerals on exhibition at this fair it will be like casting bread upon the waters it will be heard from, from many sections of the country, and will surely be a most effective means of bringing capital here for investment.

People talk about what they see, those who visit the Chaves county fair will come for the purpose of seeing, and many of them for business motives alone, who expect to profit by what they do see. A fair is instituted for the purpose of showing the resources, conditions, advantages and opportunities of the country represented, and are followed up by investors and promoters who know that they may see in the aggregate the resources of many localities at once which it would take unlimited time to visit severally. There is a purpose in a fair, and

Extensive and Handsome Mineral Display Coming.

What a Prominent Mining Man Thinks of White Oaks and Its Resources.

WHITE OAKS, N. M., July 3.
E. R. Russell, Secretary Chamber of Commerce, El Paso; Tex.

DEAR SIR:—To write up thoroughly the resources of White Oaks would take me a month, but I will give the people of El Paso an idea of what is up in the mountains at the doors of El Paso, waiting for development.

The Old Abe mine has a 20 stamp mill pounding away day and night on a fine grade of ore; also a finely equipped cyanide plant. I will not say anything about what is in the Old Abe, but will let the people of El Paso wait and see what will be put in the Chamber of Commerce building. It will make their eyes bulge. I went down 1200 feet and found every level, even the 1200, as dry as El Paso. I will only say that the Old Abe exhibit will be simply immense. Mr. Hewitt, president of the Old Abe Co., told me that if he could possibly come down with the exhibit he would do so.

In this letter I can only give you a general outline of what I have seen. The mining part will come later in pamphlet form, when the ore, etc., are all listed in the Chamber of Commerce. The manager of the Home Stake told me that as soon as he could get permission of its owners, he would also make a gold display and it too will be an "eye-opener" from what I hear in the camp. They have now over 200 tons of fine ore on the dump, and are only doing developing work at present, and not stoping any ore at all. There are now about 100 miners working in the camp.

I want to say to all who have not visited White Oaks, come up and know these whole-souled people. They are alive to what the Chamber of Commerce can do for them, and they want to buy every pound of goods they can use, in El Paso if they can do so in justice to themselves.

Mr. Taliaferro, of White Oaks, is developing some fine property in the Gallinas, forty-five miles northeast of White Oaks. The Spence Brothers also have some fine property. They have a concentrator on their mine, putting four to five tons into one, and are only shipping the concentrates which are rich in copper and lead, and some silver. The ore from Mr. Taliaferro's mine is fine, a solid mass of copper and lead, the finest fluxing ore I have seen in years, and much sought after by the smelters. Gallinas district will find a fine exhibit, which will come down with the White Oaks. The district has a bright future, and I would say to mining men. watch the Gallinas district. You can always get good teams or saddle from Mr. Paul Mayer, who is one of White Oaks, thorough-going business men, to whom we are under obligations for his kindness while at White Oaks.

I want to say to the members of the Chamber of Commerce, don't get impatient; these large exhibits cannot be gotten out in a day. Large blocks of coal, sand stone, marble, etc., take time to get out and put in shape, and have transported to the railroad; and it costs money to do this work. The people are not going to do this by halves, but are getting up a large exhibit as their exhibit in El Paso means much to them in the future prosperity and development of these industries. When the country north of El Paso is developed, it will be an enormous producer of mineral.

Dr. Nichols of Tularsa, formerly of El Paso, has charge of hustling up the exhibit from the district of Tularosa, and the east slope of the San Andres, and will, I know, make a creditable one.

The weather is pleasant, and the days bright and cool.

Yours respectfully,
S. M. DAVIS.

ROCK ISLAND COMING THROUGH WHITE OAKS!

An Agreement Between the Rock Island and E. P. & N. E. to Connect Immediately.

Special Dispatch to The News.

LIBERAL, Kas., July 11.—This morning the Chicago, Rock Island and Pacific corps of surveyors started overland west to begin the preliminary survey on the proposed extension of the Rock Island south and west into the New Mexico territory, with a connection to White Oaks or Carrizozo, close to White Oaks, where the El Paso and Northeastern railroad is now completed.

There is some doubt whether the desired grade can be had directly through White Oaks, and it may be necessary to swerve around that camp, the engineers understand. The line would in that event start from Carrizozo, where the stages leave for White Oaks, or perhaps a few miles eastward toward Walnut. Capitan is not considered a point from which to extend; the route via the camp being more difficult.

The outfit consists of Chief Engineer W. D. Worral, 16 men and and 5 wagons. Engineer Worral says that he had orders to begin work 100 miles west of Liberal, at the end of the old survey and run a line to Clayton, New Mexico. Further than this he has no official word. He expects to receive orders at Clayton. Mr. Worral believes that the preliminary survey will be made from Clayton to White Oaks and as soon as the first survey is made the grade stakes will be set and the grade work vigorously pushed. He anticipates a stay in that country of about 10 months. While the chief engineer was unable to tell anything official, he agrees with the public sentiment that the prospective extension is now assured. From the interviews secured from the officials at this place, everything portends a new road for the great Southwest.

In consequence of the movement real estate has gone to a high price and mortgage lifting is raising a dust in which prosperity is written in large gothic letters. Property is 50 per cent higher in Liberal.

ROCK ISLAND PEOPLE CONFIRM THE REPORT.

Special to The News:

CHICAGO, July 12.—Today, upon being shown your dispatch stating that surveyors of the Rock Island company left Liberal yesterday and admitted that they were headed for El Paso, an official at the general office of the company said the report was correct.

"So there is today no longer any secret about it," said he. "We do not tell of railway plans in advance of a determination, for obvious reasons. But the extension from Liberal has been fully determined upon and the route in a general way was settled, although variations may be required by the survey now being made. We had surveys made many years ago for a line to El Paso, crossing the Pecos Valley near Eddy. In fact, the Liberal branch was designed for the Southwest, with a view of getting New Mexico, Texas, Arizona and California business. Then a change of plan was made that sent us down to Ft. Worth and Indian Territory. There was once a thought of acquiring the Texas & Pacific line west from Ft. Worth, but the idea was abandoned and we no longer need or seek that route, since we have the chance given us to get through business desired without buying a line and by building an extension through a fine stock country that will furnish a paying local business. We are not going to build to El Paso, but have an agreement to go to a common point, presumable Clayton, New Mexico, where we will interchange business with the El Paso & Northeastern, which will be constructed to that point. The matter is simply a traffic arrangement, mutually satisfactory, by which passenger and freight business will be handled as if by one line and the proceeds divided in the way usual to connecting lines.

Our wide reaching lines extending into Colorado, Wisconsin, Minnesota, South Dakota, Illinois, Missouri, Nebraska, Iowa, Kansas, Texas and Indian Territory will carry business to southwestern Texas, Mexico and the Pacific coast through the gateway of El Paso as the spout of a funnel carries from the spreading mouth. We will not have trackage rights, but our freight cars will run over the connecting line and theirs over ours, and through sleeping cars between Chicago or Kansas City to El Paso and perhaps to the City of Mexico and California will be run. No, we are not planning to absorb the El Paso & Northeastern railway. It is not for sale; it is a paying line and has not been offered to us. But Mr. Parker went into that territory months ago and saw the situation in regard to El Paso, the advantage of entry there and the outlets from that mart. The agreement to build to a common point was virtually completed several weeks ago as the direct result of the efforts of President Chas. B. Eddy of the El Paso line, who came here with C. B. Simpson, of New York, a large stock holder in the line from El Paso to Capitan. Their road has made a wonderful record for the first year, by reason of local resources. The local trade that now goes to El Paso may be cut off to some extent but El Paso will gain a hundred fold more than she losses by the extension. It may be that the tendency of roads to consolidate may result in the Rock Island eventually owning the connecting line, but that is not now thought of. With the advantage of from 200 to 225 miles saved between El Paso and the east, under the mileage of all other lines, and good territory for local business the two lines could fear no competitor."

"But will not the Santa Fe-Pecos Valley combination head you off on this," was asked.

"No," was the answer, "at the best they can only play even if they run a line from Pecos Valley to El Paso as surveyed. I think most likely our move will force the Santa Fe to extend the Hagerman line, but that will not alter our plans in the least. We have been invading each other in exteding lines in Oklahoma. We have a good country and so has

ROCK ISLAND AND NORTHEASTERN NEWS CONFIRMED BY BOTH ROADS.

Both Rock Island and Northeastern Surveyors are Now in the Field.

White Oaks is on the Direct Line, Which Opens the Richest Mineral, Cattle, and Fruit Country in the Southwest--Will be in Operation Within Eight Months.

Through the courtesy of the El Paso Daily News, the EAGLE gives its readers this week a map of the route of the extension of the Rock Island and Pacific to a connection with the El Paso and Northeastern Ry. at Clayton, New Mexico. The El Paso Daily News, which is now the leading daily of that city, makes a genuine journalistic scoop on the Rock Island and Pacific and Northeastern extension news and turned all competition down in the service. The EAGLE reproduces the information published by the Daily News with the map showing the entire route from El Paso to Liberal.

The information has wrought an era of good feeling in this town and locality. The news comes from the right source this time. The Rock Island is the line White Oaks has always wanted, as it will give this country a quick outlet to Kansas City and all eastern points. The latest reports from Liberal, Kansas, are to the effect that the Rock Island and Pacific will extend from Liberal to Clayton, N. M., where the E. P. & N. E. will meet and connect with them, making a through line of road from El Paso to Kansas City, which will be 200 to 225 miles shorter than any other line now in operation through this territory from Northeast to Southwest.

Rock Island surveyors left Liberal, Kansas, to make the survey to Clayton on the 11th inst, and the Northeastern surveyors are now running a line through White Oaks and will push on to meet the Rock Island surveyors as rapidly as possible. The survey is now from the head of White Oaks Canyon, 4 miles east of town through White Oaks 1 mile west, and a grade of 1½ per cent has been obtained. They have yet a distance of 1½ miles to go to put them on the Carrizozo flat, and all are confident that the grade of 1½ per cent may be had to the mouth of the Canyon.

The road, as the above map will show the reader, will run right through the very heart of the greatest mining and stock country of New Mexico. The greatest shipping points on the line from El Paso to Liberal will be White Oaks, Puerto de Luna, and Clayton.

White Oaks will be a shipping point for cattle, horses and all kinds of live stock for 100 miles north, south, east and west; and thousands of head which now load at Roswell, Engle and other points near these, will all drive here for shipment. The Block ranch alone has shipped as high as 18,000 head in one season, and the Carrizozo Cattle Ranch Co., ten miles west of White Oaks, and the Angus V. V., 25 miles south, the I—X ranch, 17 miles southwest, all make large shipments, and smaller ranches all over the country driving to Roswell will ship from here.

All kinds of smelting and refractory ores will be shipped all along the line from White Oaks to Puerto De Luna, a distance of more than 100 miles.

This will without question be the greatest paying line of railway touching New Mexico, and will pay dividends from the beginning of operation.

NEW BANK.

The First National Bank of Carlsbad is a new financial institution that was authorized Saturday by the controller of the currency to commence business. The capital stock is $25,000. H. J. Hammond is president and A. J. Cranford, cashier.

A SNAP SHOT AT REPUBLICAN MISTAKES.

Here are a few of the things that voters will do well to make an especial study of between now and election day:

The Alger embalmed beef scandal,

The financial collusion between John D. Rockefeller and Secretary Gage.

The tariff oppression of the Porto Ricans.

The United States army outrages on the Cour d'Alene miners, authorized by William McKinley.

Thefts, murder and mismanagement in the Philippines.

Post-office rascality and embezzlement in Cuba.

The Hay-Pauncefote treaty, by which we are to build an isthmian canal while England commands it.

Tattooed and daubed with such a damning record, the republican party will find its platform a very minor consideration with the people.—Optic.

PERSONAL MENTION.

Born to Mr. and Mrs. Thos. Long, Monday, a baby girl.

S. T. Gray, W. M. Riley, F. C. Matterson, and Emil Fritz came in from Salado yesterday.

E. T. Collier and others have put a new top on the big cistern, belonging to the Fauvet block.

Monsieur Fauvet is going to build a new side walk in front of his Avenue property.

Mrs Clara Edney is digging a 100 barrel cistern on the residence property recently purchased from the Bonnell estate.

Mrs. A. E. Lesnet, of Lincoln, will move to White Oaks in about ten days. She will open a restaurant on White Oaks Avenue.

Ramon Ulibarri, of Raventon, was before the board of examiners here this week for teacher's certificate. He has applied for the Raventon public school.

The EAGLE neglected to mention the arrival of a boy baby at the home of Mr. and Mrs. Geo. M. Keith last week. The little fellow was introduced on the morning of the third.

Jones Taliaferro and family are in the Gallinas. Mr. Taliaferro is there looking after his mining interests, and took the folks for a few days recreation in the mountains.

Austin and Peterson have closed down their copper mine in the Gallinas for the present. They shipped several carloads of high grade ore to El Paso, but the cost of freight 40 miles to White Oaks, $8.00 per ton, and the freight to El Paso and smelting took most of the profits. This property is a bonanza and will be operated again as soon as railroad facilities are nearer. The property will be near the line of the Northeastern extension.

Joseph and Pete Gumm went to the Sulphur beds Tuesday evening to get out an exhibit for the El Paso Chamber of Commerce. The beds are only 3 to 5 miles from town and easy to get at. Should the E. P. & N. E. Ry. go through on the line surveyed this week by Engineer Sumner, the company will have only a haul of 2½ to 3 miles to reach a loading station. Watch White Oaks; there is something here.

HE FOOLED THE SURGEONS.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest Pile cure on earth, and the best salve in the world. 25c. a box. THE CLEANSING AND HEALING CURE FOR

CATARRH

Ely's Cream Balm

Easy and pleasant to use. Contains no injurious drug.
It is quickly absorbed.
Gives Relief at once.
It Opens and Cleanses the Nasal Passages.
Allays Inflammation.
Heals and Protects the Membrane. Restores the Senses of Taste and Smell. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.
ELY BROTHERS, 56 Warren Street, New York.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

the connecting line, for local traffic. We have weighed the chances and are ready to go ahead, as soon as our survey is ready. Both lines will grade through the winter and lay steel next spring. We ought to get to Clayton approximately at the same time, the way the work is divided. Both will work with all reasonable dispatch. The El Paso & Northeastern engineer has made a buckboard survey from White Oaks by Clayton to Liberal and the route offers no serious difficulties, so we know about what the cost will be and it cannot change our plans. The connecting line is able to hold up its end, making good profits from its coal mines and general business. We have no special interest in the coal fields in its territory, as we can get our supply over our own lines from Colorado or make a short haul from the Trinidad country down to Clayton over the Denver and Gulf line."

WHY DEMOCRACY WILL WIN THIS YEAR.

Upon what does Mr. Bryan's party base its hope for carrying thy country in 1900? Upon analogy, upon chance and upon a belief that its cause is inherently strong with the people.

In every election for president in which the same candidates confronted each other twice in succession the nominee who was beaten in the first instance won in the second. Jefferson, who was defeated by John Adams in 1796, defeated Adams in 1800. Jackson, who was left behind by John Quincy Adams in the contest which went to the house of representatives in 1824, was far ahead of Adams in the electorial college in 1828. William Henry Harrison, who was easily beaten by Van Buren in 1836, just as easily defeated Van Buren in 1840. Cleveland, who was 65 in the minority in the electorial college in 1888, in the contest against Benjamin Harrison, had a majority of double that figure, or 132 over Harrison in 1892. New York and Indiana have been swinging alternately from one party to the other in successive canvasses for more than a quarter of a century, and both were carried by the Republicans in 1896. Four years of power for each party has been the rule for several successive presidential terms, and it is the Democracy's "turn" to win in 1900.

These considerations or analogy and similitude have doubtless impressed themselves upon the minds of the Democratic leaders. Now for the hopes based upon chance.

The panic of 1837, which began a few weeks after Van Buren entered power, was one of the causes of his defeat in 1840. That of 1873, in the Republican period, helped to reduce the Republican majority in the electorial college in 1876 to one. The momentary convulsion of 1893, which started about a month after Cleveland went to the White House a second time, helped to roll up the majority which was cast against his party in 1896. The Homestead strike in the summer of 1892, in which many persons were killed and much property destroyed in the last year of Harrison's service, was one of the reasons for the Republican "apathy" which was noticed in that campaign, and for the Republican defeat which came at the polls. A panic is decidedly improbably this year, but labor troubles and crop failures are always among the possibilities, and any sort of a calamity invaribly hits the party in power.—Leslie's Weekly.

a business purpose, which is understood by those who visit them for the purpose of seeking information, and the great necessity of making a fair a true exhibition of the resources of the country is too important to receive only passive consideration from those who are interested in making it a success.

A citizens' meeting should be called in every community in Lincoln County and work immediately begun for the preparation of an exhibit for this fair. People who visit it, will expect it. If we do not show it, they will say we do not have it. White Oaks should get at this preparation without delay. A meeting should be called and an organization effected for the purpose of going at the collection and selection of our exhibit in a systematic and business like manner, and the cost should not be born by one or two but by the entire community. The upbuilding of the town and community is a question of interest to everybody and this is an opportunity for the investment of a little labor, and a small amount of capital, with a reasonable degree of thought, all expended with judgment, that will surely bring its reward to white Oaks, Lincoln County and to the inhabitants of the entire southwest.

EDITOR'S AWFUL PLIGHT.

F. M. Higgins, Editor Seneca, (Kas.,) News, was afflicted for years with Piles that no doctor or remedy helped until he tried Bucklen's Arnica Salve. He writes two boxes wholly cured him. It's the surest Pile cure on earth and the best salve in the world. Cure guaranteed. Only 25 cents. Sold by Dr. Paden, druggist.

RED HOT FROM THE GUN

Was the ball that hit G. B. Steadman, of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures cuts, bruises, burns, boils, felons, corns, skin eruptions. Best pile cure on earth, 25 cents a box. Cure guaranteed. Sold by Dr. Paden, druggist.

A LIFE AND DEATH FIGHT.

Mr. W. A. Hines of Manchester, In., writing of his almost miraculous escape from death, says: "Exposure after measles induced sirious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles." Regular size 50 cts. and $1.00. Trial bottles free at M. G. Paden's drug store.

The Best Remedy for Stomach and Bowel Troubles.

"I have been in the drug business for twenty years and have sold most all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by M. G. Paden.

THAT THROBBING HEADACHE

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by Dr. Paden, Druggist.

The Great Presidential Campaign of 1900.

The wars of America have, heretofore, settled affairs of state. Great questions of policy, of national motives and national conclusions have been answered as soon as the battle smoke cleared away, and the victor realized his victory. The war with Spain is unlike its predecessors. It has not answered questions, but has created problems which may not be solved lightly. These problems are being formulated by the political parties, and before they can be definitely settled at the ballot box it is necessary that the people be informed in regard to the situation. The result of the campaign of 1900 will make a broad mark upon the page of history; it will doubtless establish the policy of the great Republic of America for a quarter of a century. It is vastly important, therefore, that every citizen shall study the situation through that best of mediums, a great newspaper. The Semi-Weekly Republic which affords a comprehensive view of political situation in all its bearings. It publishes the new news. The Semi Weekly Republic is a Democratic paper, but it offers to its readers the news regarding all the political parties, and this without prejudice. It is a fair newspaper. Its telegraph and cable news service has been proved to be the very best employed by a modern paper. Its special features are unsurpassed. It is the newspaper for the reader who has not access to a daily paper.

News features, art, and literature combine to make the Republic's Sunday Magazine a specially attractive weekly magazine. The half-tone illustrations printed in this magazine surpass anything ever attempted by a newspaper. These products of photography are worth the price of the paper. Special articles by trained writers on the news and the subjects engaging the public attention are prepared for the Republic's Sunday Magazine. A distinctly useful and attractive feature of this magazine is the fashion department. Always reliable and up with the times, the ladies find the fashion page a delight. Indeed, The Republic's Sunday Magazine appeals to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year, The Republic Sunday Magazine $1.25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid for at the same time.
