THE SANTIAGO REVELATION.

A Dispatch from Washington brings out a startling fact in connection with the Schley inquiry. It appears on an analysis of the evidence that all other accounts of the battle hitherto published have been wrong. It has been supposed that the American fleet beat the Spanish fleet, and since our force was so much superior that idea has detracted somewhat from the glory of the victory.

It seems now that this was a mistake. The Maria Teresa was put out of action by the American fleet, but the other Spanish ships got away, and they were caught and beaten, not by our fleet but by the Brooklyn and Oregon alone, with a little help from the Texas. "Fighting Bob" Evans and the rest trailed along later to receive the surrender of the ships that the Brooklyn and Oregon had driven ashore.

Samps n's plan was for our fleet to form a semicircle about the mouth of the harbor and meet the enemy as he came out. It was tried and failed. Three of the Spanish ships broke through the cordon, apparently unhurt, and would have escaped had not the Brooklyn and Oregon developed unexpected speed in the chase. The facts might never have come out if the Sampson ring had not forced Schley into court.

Schley said there was glory enough for all, and there would have been if the others had been content to have it so. But now that the truth has been thrashed out on the witness stand it appears that there was really little more than enough glory for Schley, Cook and Clark. And the victory won by their two ships shines more splendidly than when it was supposed to have been divided among five or six.

RESOLUTION EXPRESSING GRATITUDE TO SCHLEY.

WASHINGTON, Dec. 16.—At the opening of today's session of the senate Mr. Jones, of Arkansas, introduced a joint resolution, as follows:

"That the thanks of congress and the American people are hereby tendered to Rear Admiral Winfield S. Schley and the officers and men under his command, for highly distinguished conduct in conflict with the enemy, as displayed by them in the destruction of the Spanish fleet off the harbor of Santiago, Cuba, July 3, 1898.

"That the president of the United States be requested to cause this resolution to be communicated to Rear Admiral Schley, and through him to the officers and men under his command."

Without comment the resolution was referred to the committee on naval affairs.

DECISION OF SCHLEY COURT OF ENQUIRY.

Is Received by the People of the Nation Like the News of the Death of a President.

FOUND GUILTY IN ELEVEN CHARGES.

Admiral Dewey Makes a Minority Report, Vindicating Schley's Action in the Matter.

The majority report condemns Admiral Schley on eleven points, while Admiral Dewey sustains him in most particulars.

The majority opinion finds, in brief, that Admiral Schley should have proceeded with the utmost dispatch to Cienfugos and there maintained a close blockade; that he should have endeavored to have obtained information of the Spaniards there; that he shonld have proceeded to Santiago with all possible dispatch, that he should not have made the retrograde movement; that he should have obeyed the department's orders; that he should have endeavored to capture the Spanish vessels in Santiago harbor; that he did not do his utmost to destroy the Cristobal Colon while she lay at the the mouth of Santiago harbor; that he caused the squadron to lose distance in the loop of the Brooklyn; that he thereby caused the Texas to back; that he did injustice to Hodgson; that his conduct of the campaign was characterized by dilatoriness and lack of enterprise; that his official reports on his coal supply were inaccurate and misleading; that his conduct in battle was self-possessed, and that he encouraged in his own person his subordinate officers and men.

The report of Admiral Dewey says that the passage to Cienfugos was made with all possible dispatch; that, in view of the coal supply of the squadron, the blockade off Cienfugos was effective as possible to make it; that the Adula was allowed to enter Cienfugos harbor to get information; that the passage to Santiago was made with as much dispatch as possible, keeping the squadron together; that the blockade of Santiago was effective; and, finally, that Admiral Schley was senior officer off Santiago, in absolute command, and entitled to the credit due for the glorious victory, which resulted in the total destruction of the Spanish ships.

The opinion of the senate is divided as to the probability of a congressional investigation of the Schley controversy, but it is, on the whole, against the probability of such a course. The majority of Republican senators appear to be adverse to reopening the question. Those holding this view include the friends of Schley. The Democratic senators generally seem to wait upon an expression of opinion by the friends of Schley. Senator Rawlins thought a resolution of confidence would be in order. Jones, Arkansas, thought a resolution bearing upon the question was among the probabilities. Representative Pearce, Maryland, who represents the Maryland district from which Schley came, stated today he would introduce a resolution for congressional investigation of the entire Sampson-Schley affair, unless his colleague from Maryland, Schirm, who contemplated introducing such a resolution, carried out his action.

STOCKHOLDERS MEETING.

The Iowa & New Mexico Mining & Milling company held their annual stockholders' meeting at Nogal Dec., 10th and 11th. The following named gentlemen were elected Directors for the ensuing year:

H. B. White, E. Croak, C. O. Balliett, Waterloo, Iowa; S. H. Miller, Webster City, Iowa; T. B. Cookerly, Des Moines, Iowa; Fred Dickman, Klingman, Iowa; E. L. Chase, White Oaks, New Mexico; Forest H. Smith and S. S. Doak, Nogal, New Mexico.

After the stockholders' meeting the board of directors met and elected officers as follows:

H. B. White, Waterloo, Iowa, President; S. H. Miller, Webster, Iowa, V-President; T. B. Cookerly, Des Moines, Ia., Sec. & Tr. S. S. Doak, Nogal, New Mexico, Manager.

Both the officers and stockholders present made a thorough examination of the properties owned by the company, and were highly pleased and feel sanguine the development of the coming year will show good results.

Please Notice.

Hereafter one-half the price of the photographs must be prepaid; balance on delivery. Negatives will be charged for, etc,

Respectfully,

FROM ANGUS.

[Bonito Valley Items.]

Correspondence.

J. Williams' wife has just died of congestion of the lungs. They were recently from Texas and lived on the high mesa above the Henley place, on the Bonito.

Mr. and Mrs. Wallace Gumm are spending the holidays with her parents, the Austins at the Willows.

Ages ago the 25th day of December was a festival day of the sun worshipers to celebrate the birth of a new sun, as it commenced its return course from the south, precursor of new life. Webster says it is "An annual festival commemorating birth of Christ." According to the shepherds and wise men of East, Jesus was born nearly four years before our calendar reckoning of time. The woman inquired if this Jesus was not the Christ.

Late discoveries, of the French scientests incline them to the opinion that the jimnazium one's lungs receive secure in high altitudes pump a larger amount of the rich red carpusels into the blood than in low countries, hence consumptives and people of low vitality are greatly benefitted by living in high mountain areas. A German scientist, a Doctor of recognized authority, asserts that an altitude of 6,000 feet is an ideal one for man; he might have added also that it is one where all the animal industries thrive as well.

An Iowa Gentlemen who recently visited our sunny slopes was of the opinion that our black gramma grasses are much superior for high grade butter than any feed they have. Quite an Iowa population will settle among us next summer—Iowa is now plastered over with gold bug prosperity in the shape of six millions more of mortgages than ever before, and it will take about all their surplus annuity to pay the interest on the money.

No buildings or improvements are in progress in the banner state which has stood heroically by the Republican heresy of monumental tariff taxation, which benefits the manufacturer only, of which they had noue.

There are many good people there who are discouraged, who do not realize what is the basic principle of their troubles. They are looking to the mountain country to free them from the bondage blight of commercial favoritism which lodges all the wealth in the east

Mr. Carnegie can well afford to donate every school district of that royal state a library of gift books and not cause the congestion of reading matter as in large cities where there is already a surfeit. If he wants to do the most good with his easily acquired gains, why don' he found hospitals, or houses and homes, and care for the aged poor who have sustained the heavy burdens of taxation—a method of taxation that has piled up his immense fortune so easily and rapidly.

COINAGE FOR PHILIPPINES.

The Filipinos are a silver using people, and since the American occupation much difficulty has been experienced in keeping them supplied with currency. The favorite coin has been the Mexican dollar. Small British silver coin has also been in use, but neither has proven entirely satisfactory, because of the difference in value with American gold coins. The war department, backed by commercial influence from Manila, will urge Congress to order a coinage especially for the Philippines, and also order a ratio on which it can be redeemed in gold, or, rather, exchanged for gold. Such coins must be made to suit the convenience and customs of the Filipinos, since custom, especially with orientals, is a large factor in the popularity of coined money. This means that our policy of imperialism is going to require two forms of coinage—one for this country, and one for its far eastern possessions. This is another illustration of the complex legislation that our 'colonies' will entail on Congress. The local labor status in the Hawaiian islands will require laws entirely different from those prevailing in the nation at large, if local climatic conditions were taken into account. Now comes the coinage question in the Philippines. The most earnest and honest advocate of imperialism will be compelled to admit that the policy is not an unmixed blessing. The time is at hand when dual legislation is about to be required, and this means that a republic has subject colonies.—Daily Mining Record.

DIED IN THE MOUNTAINS.

Word came to White Oaks Friday of the death of J. M. McCorkle, a hotel and grocery man of Capitan. He and a friend had gone hunting in the mountains, and night overtaking them they decided to camp there and go home the next morning. During the night, however, McCorkle, was attacked by a severe hemorrhage, and his companion hastened to Capitan for medical aid. He returned with relief as soon as possible, but upon reaching camp the sick man was not there. An immediate search was instituted, and many yards away the lifeless body of McCorkle was discovered, where he had evidently unconsciously wandered and from loss of blood had fallen down and died.

S. T. Gray, of Capitan, N. M., has leased the California stables. He has added to the original stock several good horses and will put in new rigs, and otherwise make it a well equipped stable. G. Y. Hadley will be in charge as manager.—El Paso Daily News.

THE NEW YORK WORLD THRICE-A-WEEK EDITION.

The Most Widely Read Newspaper In America.

Time has demonstrated that the Thrice-a-Week World stands alone in its class. Other papers have imitated its form but not its success. This is because it tells all the news all the time and tells it impartially, whether that news be political or otherwise. It is in fact almost a daily at the price of a weekly and you cannot afford to be without it.

Republican and Democrat alike can read the Thrice-a-Week World with absolute confidence in its truth.

In addition to news, it publishes first-class serial stories and other features suited to the home and fireside.

The Thrice-a-Week World's regular subscription price is only $1.00 per year and this pays for 156 papers. We offer this unequaled newspaper and WHITE OAKS EAGLE together one year for $2.00.

EYES TESTED FREE.—J. B. COLLIER, Optician.

"The Best is the Cheapest."

Not how cheap, but how good, is the question.

The TWICE-A-WEEK REPUBLIC is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce—and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Rev. Irl R Hicks is Not Dead.

Notwithing a widely current rumor that the Rev. Irl R. Hicks was dead, he never was in better hdalth, and never did a harder or more successful year's work than that just closing. He has just completed his large and splendid Almanac for 1902 and, with his staff of able helpers, has brought his journal, Word AND Works, justly forward into international reputation. For a quarter of a century Mr. Hicks has grown in reputation and usefulness as the people's astronomer, and forecaster of storms and the forecaster of coming seasons. Never were his weather forecasts so sought after as now, his timely warning of a serious drought this year having saved the people from loss and suffering. Millions of bushels of wheat were harvested through his advice to plant crops that would mature early. The American people will certainly stand by Prof. Hicks, when it costs them so little and the benefits are so great. His fine Almanac of 200 pages is only 25c and his splendid family journal is only one dollar a year including the Almanac. Send to Word AND Works Pub. Co., 2201 Locust St., St. Louis, Mo.

MORE FUNDS FOR THIS SCHOOL DISTRICT.

SANTA FE, N. M., 12-9-1901.

Col. J. Francisco Chaves,
Supt. Pub. Instruction,

Dear Sir:

Your favor of this date enclosing a statement from the Supt. of Schools of Lincoln county, asking my official opinion on the same, is received, and in reply will say that it appears from the statement made that a certain school district in that county had levied prior to and including the year 1899, a special tax of 5 mills on the dollar, for the purpose of paying interest on school house bonds, and for other school purposes, as provided by law. Sec. 1 of chapter 24, Session laws of 1901, provides that all delinquent taxes collected on account of taxes levied prior to and including the year 1899 shall be turned into the general expense fund and the school fund equally, and the question involved is whether the school district in question is entitled to the full amount of this special levy, or whether it shall be divided into the general county and general school fund, and the question is asked "Can the taxes arising from a special levy for specific purposes in a local community be legally diverted to the credit of general funds."

I have no hesitation in saying that in my opinion the proceeds of such levy cannot be so diverted, but must be all applied to the specific purpose for which they were levied and paid—to hold otherwise would be to impair the obligation of a contract and result in seriously crippling the public school interests not only in Lincoln, but in other counties of the Territory. I have previously given opinions that no levy for specific purposes, Territorial or County, could thus be diverted, but the present is a much stronger case. The law in my opinion cannot be construed to so divert the proceeds of such special levy.

Very Respectfully,
EDWARD L. BARTLETT,
Solicitor General.

Hon. E. L. Bartlett,
Solicitor General,
Santa Fe, N. M.

Dear Sir:—

Section 1 Chapter XXIV, Session Laws 1901, provides that "All delinquent taxes collected on account of taxes levied prior to, and including 1899, shall be turned into the general expense fund and school fund of the various counties in which the same are collectedof this territory, and all such taxes so collected shall be equally distributed to the credit of said funds."

A case in point: A certain school district in this county, prior to, and including the year 1899, carried a special levy of five mills on the dollar, to pay interest on school bonds and other expenses connected with running a graded school in the district. Is this school district entitled to the full amount of its special levy accruing from the payment of these delinquent taxes—this district being in no way responsible for such delinquency—or does it, under the provisions of this act, all go to the general county and school fund? In other words can the taxes arising from a special levy, for a specific purpose and in a local community, be legally diverted to the credit of a general fund?

Your opinion on this point would aid us very much at this time for the proper apportionment of our school money.

Very Respectfully,
LEE H. RUDISILLE,
Supt. of Schools,
Lincoln Co., N. M.

Additional Local.

The young people of the town had a pleasant Christmas party last night at the residence of Mr. and Mrs. Frank Crumb.

Misses Kittie Buford and Bessie Reid left today for Angus, where they will spend a part of the holidays as guests of Mr. and Mrs. P. G. Peters.

A party of young people, consisting of Messrs. Lloyd Hulbert, John Crowl, Harry Gallacher and Roy Gumm, and Misses Lorena Sager, Ida Hoyle, Edith Parker and Florence Wharton, leave tomorrow to be guests of Mr. and Mrs. P. G. Peters, the occasion being a reception, Friday night, to the newly wedded pair—Mr. Barrenger and wife.

Misses Edna and Corinne Hulbert are up from Lincoln, spending the holidays with relatives and friends.

S. S. Doak, manager of the Iowa, New Mexico Mining and Milling Co., is in from Nogal on his way to Webster City, Iowa, where he will meet his family and there spend the holidays. The company has closed down its mines at Schelerville, pending the arrival of hoisting machinery and air drills, and have transfered their force of men to their Turkey Creek properties.

THE COMMONER.

[Mr. Bryan's Paper.]

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic, and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts; and his reviews of political events as they arise from time to time can not fail to interest those who study public questions.

The Commoner's regular subscription price is $1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and WHITE OAKS EAGLE together for one year for $2.00. The regular subscriptions price of the two papers when subscribed for separately is $2.50.

The Carnival.

El Paso is preparing for another great Mid-winter Carnival to to be given January 14,15,16,17, and 18, 1902. This will be the second annual event, and will be the greatest entertainment ever given in the southwest.

The "sunshine in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest, you can get a glimpse of Mexico at El Paso and this, with the Mexican bull fights, is something that other cities can not afford. To see the ancient city of Juarez Mexico is worth the expense of the trip and since the railroads have promised a very low rate from everywhere thousands will attend, there will be a miners' convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous town and has become famous as an entertainer and at the coming Mid-Winte-Carnival the border metropolis promises the most extravagant free show, fiesta and general jubilee ever seen between New Orleans and Los Angeles. The Carnival association is now wreparing the program, which will be published soon.

IN GOOD TASTE

The man who can go into a store and buy an overcoat or a suit ready to wear, and who uses good taste and judgment in the selection, is better off than one who must depend upon his tailor. He sees how each garment fits. He examines them in general and in detail, and judges of their use in his case. And best of all, he is saving money. If any one doubts the truth of these assertions, let him come to us. We are ready to prove it. The following prices mean a saving on overcoats. If the prices please you, come in and see the garments. They will please you better:

Fine Melton Overcoats, former price, $10 now $7.50. Strictly fine Melton, former price, $12 now $10. Extra fine Cheviot, $15 now $12. Fine Ulsters from $7.50 up.
