NEW MEXICO NEWS SUMMARY

MESILLA VALLEY DAM.

Elephant Butte Dam Project to Be Realized.

After years of fighting on the surface and underneath, fighting which at times has been intensely bitter, it now begins to appear that the people of New Mexico, Texas and Mexico may get together on the question of reclaiming the lower Rio Grande valley and impounding the waters of the Rio Grande. The long-discussed and hard-fought Elephant Butte dam project seems in a fair way to be realized, if not on the original site of the first promoters of the plan, yet so near as to make it virtually the same undertaking. The long-discussed international dam is undoubtedly a thing of the past. The unanimous report of the governments' reclamation engineers declaring against it is enough to put an end to the scheme by which it is proposed to rob New Mexico of all the rights of water falling in her catchment area. Instead, if the sentiment shown in the irrigation congress just closed in El Paso can be taken as definite, the sentiment for the international dam has faded quite away and in its place has come only a demand for justice to all parties concerned.

This undoubtedly would be a dam in New Mexico well up in the Mesilla valley, which would supply plenty of water not only to the valley but to El Paso and Mexico as well.

At a meeting of the delegates to the congress from Texas, New Mexico and Mexico, held in El Paso Thursday the following resolutions were unanimously adopted:

"Whereas, The question of an adequate water supply for domestic and irrigation purposes for the Rio Grande valley has for years been a question paramount to all others; and

"Whereas, The reclamation service of the United States, by its splendid and valuable work and investigations, has demonstrated that the only feasible manner in which a full supply of water can be secured is by the erection of a dam or reservoir, under the provisions of the reclamation act, at a location known as the Elephant Butte site, at or near Elephant Butte, New Mexico; and

"Whereas, It has been demonstrated by scientific research and investigation that a sufficient supply of water to supply the needs of irrigation in the Rio Grande valley in New Mexico, Texas and Mexico, can be had through the erection of the said Elephant Butte dam; now, therefore, be it

"Resolved, in consideration of these facts, that we do hereby sincerely, unanimously and heartily approve the splendid and valuable work of the reclamation service under the Department of the Interior at Washington, and its officers in the Rio Grande division in New Mexico and elsewhere, and we heartily endorse and approve the proposal of building said Elephant Butte dam as a happy solution that has heretofore embarrassed the parties interested, and we unitedly pledge ourselves to do all in our power to assist the said reclamation service in any way required of us to enable the department to erect the said Elephant Butte dam at the earliest possible date; provided, that an equitable distribution of the water from said reservoir be made with due regard to the rights of New Mexico, Texas and Mexico."

These resolutions show that the people who are most interested, land schemers apart, are standing close together for the greatest good for the greatest number and that the long-dreamed-of Elephant Butte dam is nearer to realization than ever before.

Committees have been appointed to ascertain the feeling of every individual in the valley from Fort Hancock to Las Cruces, and this committee, it is understood, will begin its work at once.

New Mexico Day.

The correspondent of the New Mexican gives the following account of the celebration of New Mexico Day at the World's Fair.

The weather at yesterday's observations of New Mexico Day at the Louisiana Purchase Exposition was beautiful and reminded the hundreds of New Mexicans present of their own sunny skies and famous climate. The ceremonies passed off exactly as planned and there was no hitch in the details great or small. Governor Otero, accompanied by his staff and the members of the Territorial Board of Managers present, called on Director David M. Francis at 10 o'clock yesterday forenoon and then the entire party proceeded in carriages to the New Mexico building, under an escort of one thousand troops, consisting of two bands, the Ninth regiment of United States infantry, the Filipino scouts at the Exposition, all under command of Brigadier General Edmund Rice of the Army, a detachment of mounted police and of the Jefferson guards who were also a part of the escort. Governor Otero and Director General Francis reviewed the troops at the New Mexico building.

Herbert J. Hagerman of the Board of Managers, who had charge of the arrangements, introduced the speakers to the great crowd present. Ex-Governor Francis delivered a forcible and eloquent address of half an hour's duration. He was followed by Governor M. A. Otero and Associate Justice John R. McFie, of New Mexico. Both speeches were a high type of oratory and the three speeches were received with much gratification and loudly cheered by those present. The famous band of St. Louis, under the leadership of Professor Vogel, attended during the entire ceremonies. Among the ladies who received at the reception were: Miss Bliss of St. Louis, daughter of the secretary of the interior; Mrs. Otero; Mesdames Reynolds, Frost, Seligman, Bergere, of New Mexico.

Many congratulations were extended to the New Mexico receiving party by those who were at the reception, on account of the complete success of the ceremonies, the many attractive and [illegible]

ance of the New Mexico exhibits at the Fair.

During the evening a banquet was tendered Governor Otero and Mrs. Otero and the ladies on the reception committee by Messrs. Seligman and Hagerman, two members of the New Mexico Board of Managers. The register at the New Mexico building showed that there were 1,500 people at the reception, about half from New Mexico.

This gives nineteen seats to the Republicans, five to the Democrats.—Santa Fe New Mexican.

Prize for Indian Exhibits.

The following bulletin was posted yesterday afternoon in the Fred Harvey Indian building at the local Santa Fe station, says the New Mexican of November 15th:

"A report just received from the World's Fair in St. Louis states that the Fred Harvey Indian exhibits in the division of anthropology have been awarded four prizes: The grand prize for the best ethnological exhibit, two gold medals, and the grand prize for the Navajo blanket exhibit."

The bulletin came from headquarters of the Harvey system in Kansas City and caused great rejoicing among the employes of the Harvey Indian department, who have been confident for some time that the Harvey exhibits would figure prominently in the awarding of prizes.

The winning of the two grand prizes is worthy of note, for in both the ethnological and blanket exhibits, the Harvey collections were pitted against those of the Smithsonian Institute, heretofore believed to be the finest in existence. It was confidently expected that the Harvey Navajo blanket collection would win a first prize, for the collection, which has been years in forming, is valued at $2,000, and is unanimously the best in the world. It is the combination of several fine collections which have been years in forming and which have been acquired by the system at great cost. Many of the blankets are absolutely not to be duplicated. The winning of the grand prize in this department therefore has not created great surprise, but in the ethnological exhibit the Harvey men are both surprised and delighted, for it has heretofore been the belief that no collection could be compared with that of the Smithsonian Institute, which stands second in the contest at the exposition.

Boy Parricide.

The Santa Fe New Mexican of November 12th says: Sheriff Jose R. Lucero of Dona Ana county arrived here with Isaac Cobling, the thirteen-year-old parricide who has been sentenced by Judge Frank W. Parker to serve three years in the territorial penitentiary for the murder of his father.

The crime was committed last June, when young Cobling went into the bedroom occupied by his father and shot him through the head with a Winchester rifle while he lay asleep. The boy had been herding goats for his father and was accused by his parent of losing several of them. About 6 o'clock in the morning the elder Cobling awakened the boy to light the kitchen fire and told him he was going to thrash him [illegible]

to dread, he secured his gun and killed his father as he was sleeping.

At the trial his mother and neighbors testified that the boy had often been mistreated by his father and as he plead guilty, Judge Parker sentenced him to three years in the penitentiary. The boy had never had but a few weeks' schooling and his case is not a penitentiary one, but one for the reform school, and shows the necessity for such an institution in the territory.

Negro Convicted of Murder.

An Albuquerque dispatch of November 16th says: Ike Worth, a negro, was found guilty of murder in the second degree to-day in the Bernalillo county District Court, for strangling to death Hattie White, in this city on the night of February 16th last.

The negro had been the White woman's friend, and killed her because she attended the funeral of a negro. Worth ascended the witness stand and testified that he saw another man leaving the White woman's house just before he discovered the dead body, but on the cross-examination Worth got a tall man and a short man leaving the house at the same time.

At the time of the murder Hattie White had a daughter living at 2225 Arapahoe street, Denver.

New Mexico W. C. T. U.

The seventh annual convention of the territorial Woman's Christian Temperance Union, at Santa Fe, came to a close November 20th. The following officers were elected for the ensuing year:

President, Mrs. Borden, Albuquerque; first vice president, Mrs. Webster, Albuquerque; second vice president, Mrs. Long, Las Vegas; corresponding secretary, Mrs. Whitcomb, Albuquerque; recording secretary, Mrs. Ross, Albuquerque; treasurer, Mrs. Wood, Santa Fe. Mrs. Long of Las Vegas was elected delegate to the national convention at Philadelphia November 29th.

Guillermo Servier, a musician who had acquired considerable reputation in Las Vegas, died suddenly while sitting in a chair at his home a few days since.

Incorporation papers have been filed at Santa Fe by the Forest Mining and Marble Company, capitalization $1,000,000, and headquarters at Alamogordo.

A special session of the territorial Supreme Court has been called in Santa Fe for November 26th for the purpose of handing down opinions in cases which have been decided.

Acting Governor J. W. Raynolds during the absence of the governor in St. Louis appointed W. H. Jack of Silver City as a member of the cattle sanitary board of the territory vice W. H. H. Greer of Albuquerque, resigned.

Levi Anderson of Artesia had his hands terribly burned in saving his wife from death. Her dress caught fire and he tried to extinguish it with his hands, but did not do so until he pulled the skirt and underskirt from his wife. Mrs. Anderson was not injured.

Official election returns received today from Rio Arriba county on the congressional delegate election are as follows: W. H. Andrews, Republican, 2,014; George P. Money, Democrat, 987; H. S. Rodey, Independent, 80. From Otero county, Andrews, 693; Money, 687; Rodey, 28.

Lovio Uristo and Leandro Alvarez quarrel over a woman named Confirino Roybal at Las Vegas. There was a fight in which Uristo was cut so badly he will die. Alvarez was arrested. He is a prominent young man, a member of the military band, and has a wife and children.

A Roswell dispatch of November 19th says: Roswell has taken the blue ribbon from Artesia, the town of wells, for big wells. To-day the largest gusher in the entire valley was brought in eight miles east of the city. It is less than 500 feet deep, but of terrific force and pieces of stone weighing as high as five pounds were shot out like pebbles. The water is gushing five feet over the top of the casing. Hundreds went out to see this great well.

By a trust deed filed in the office of the probate clerk of Santa Fe county, the Albuquerque Eastern Railway Company, now constructing a line from Moriarty, on the Santa Fe Central, to Albuquerque, has mortgaged its property, franchises and equipment to the Pittsburg Trust Company of Pittsburg, Pennsylvania, which in return furnishes the capital for the enterprise. Delegate-elect W. H. Andrews is president of the Albuquerque Eastern and W. S. Hopewell general manager.

A Santa Fe dispatch says: Major C. B. Vodges, recruiting officer of the United States army, will close the recruiting office for the Southwest in this city soon and will be ordered to one of the Northwestern states to obtain recruits for the army in that section. It has been demonstrated to the satisfaction of the War Department that New Mexico is not good recruiting ground, the enlistments during the five months that Maj. Vodges has been here not warranting a continuance of the station. The sub-stations at Las Vegas, Albuquerque and Roswell have been closed already.

A new scheme is being experimented with by the American Live Stock and Loan Company of Denver which owns large cattle interests in New Mexico. For many years northern range men have labored under the idea that it was dangerous to move southern cattle north excepting in the spring, so as to give them time to get acclimated before winter arrived. A year ago Manager de Riequles of the Denver firm above referred to concluded to try the experiment of shipping young cattle north, feeding them through the winter and turning them on the range early in the spring. The idea was that keeping them growing through the winter they would be in better shape for the range in the spring and that there would be a more satisfactory outcome. The result was so satisfactory that this fall several thousand heifers and young steers were shipped north from this Territory and up to the present time are doing well. The cattle are being fed on hay and it is said that [illegible]

RUSSIAN PAPERS

SUPPRESSED BY GOVERNMENT

Issues of One Liberal and One Reactionary Sheet Confiscated by Minister of the Interior.

St. Petersburg, Nov. 25.—Interior Minister Sviatopolk-Mirsky went to the Tsarskoe-Selo yesterday to present the Zemstvo memorial to Emperor Nicholas.

The situation is extremely delicate. Two incidents have occurred, both of which militate against the liberals and increase the difficulty of Prince Sviatopolk-Mirsky's position.

Prince Mestichersky, editor of the Grach Dain, who is head of the reactionary press, yesterday morning unmasked his batteries, attacking the interior minister in such a fashion for his liberal tendencies that Prince Sviatopolk-Mirsky, for the first time since he assumed the ministry, ordered the confiscation of the issue.

In the strength of the influence behind such an attack lies the real significance of Prince Mestichersky's act.

At the same time, from the opposite direction, the Nasha Zziesn (Our Life) a new radical paper, authorized by Minister Sviatopolk-Mirsky, indulged in a direct attack on the Emperor, with the result that the minister ordered the suspension of the publication. The action of this paper is considered to be be very unfortunate, as it places a powerful weapon in the hands of Prince Sviatopolk-Mirsky's enemies. Many of the minister's friends are inclined now to believe that the Zemstvoists went too far, and have jeopardized the position of their best friend. Prince Ukhtomsky, editor of the Viedomosti, said to the Associated Press:

"The duty of all friends of a liberty regime is to uphold and sustain Prince Sviatopolk-Mirsky in every possible way. His retirement would be a great misfortune."

There was some talk this afternoon of an offer on the part of the government to compromise with the Zemstvos by giving them a voice in the Council of the Empire, which is the law-making body. The proposition is to elect two members of each Zemstvo to sit in the council and participate in its deliberations, but not to vote. Such a plan, it is pointed out, while not giving the Zemstvos a share in the law-making, would insure the presentation of the views of the provinces on all laws enacted.

Thomas F. Lawson Sued.

Boston, Nov. 24.—Thomas F. Lawson said that service had been made upon him Tuesday of papers in a suit for $350,000 brought by persons in New York, but that he was ignorant both as to the contents of the documents and the individuals named in them.

Mr. Lawson refers to pressure being brought at Washington in an effort to exclude from the mails his writings on finance. He expresses the opinion that such a proceeding would not be permitted by the postal authorities.

"In regard to the suits and rumors of suits, civil and criminal, brought and to be brought against me by Standard Oil, the insurance companies and individuals, because of my story, 'Frenzied Finance,' I can simply say: 'Bring them along, and I will be prepared to give battle, giving no odds and asking for none.' I have been telling a few raw truths, and in this age of dollars no man will be allowed to distribute truths about finance without paying the price. My truths are big ones, and I suppose the price will be equally big, but the American people may rest assured that whatever the price I will pay it and not ask any sympathy for doing so, and they can rest easy about another fact—I will make those who have been plundering the people during the past ten years pay a price to which mine will appear like a tight shoe compared with the inquisitorial racks of the dark ages.

"Let the American people make no mistake. Twelve o'clock is just being struck at the 'While You Wait' factory where multi-millionaires have been turned out from the raw material, and unless I miss my guess it will take more courts than there are in America to drown the ominous sound of that high noon bell."

Y. M. C. A. Convention.

Denver, Nov. 24.—A Boulder dispatch says: A meeting of the committee having in charge the Y. M. C. A. convention to be held in this city, December 8th, 9th, 10 and 11th, was held in the office of T. S. Waltemeyer last night. State Secretary Bilheimer of Denver was present and outlined the program for the convention.

Sunday, December 11th, a men's session will be held in the M. E. church; a boys' session in the Christian church, and a woman's session in the Presbyterian church.

Saturday evening a banquet will be served in the delegates and members of the state and local committee.

The convention promises to be the most important of its kind ever held in the state, the object being to stir up still more interest in Y. M. C. A. matters in this state, and especially in this city.

The speakers from abroad will be J. Wilbur Chapman of Philadelphia, F. S. Goodman of New York City, B. W. Peck of Minnesota, C. S. Ward of Chicago, Lester McClain of New York City, Dr. Herbst of Topeka, Kansas; Dr. Hayle of Denver and Bruno Hobbs of Cripple Creek.

On Monday following the convention there will be a banquet given to the business men of this city, when the question of creating a fund for Y. M. C. A. matters will be discussed.

Washington, Nov. 24.—For twenty-five years Horace Vose of Westerly, Long Island, has presented each year to the President a fine turkey for his Thanksgiving dinner. Mr. Vose's bird arrived at the White House yesterday. It was a fine specimen, weighing between thirty-five and forty pounds.

THE PILLS THAT

CURE RHEUMATISM

Mrs. Henry Story, of No. 532 Muskingdum Ave., Zanesville, Ohio, says: "My husband suffered from rheumatism so that he could hardly stand. His back hurt and he had such pain in his left arm that he could not rest night or day. The doctor did him no good and it was not until he tried Dr. Williams' Pink Pills that he was helped. Six boxes cured him completely and he has not had an ache or a pain since. We think the pills are the best medicine in the world."

A GREAT INSTITUTION.

It is unusual that a single institution in a city of 3,000 people will overshadow in importance every other interest, but such is the case with the American School of Osteopathy, and A. T. Still Infirmary at Kirksville, Mo.

A stranger in Kirksville is immediately impressed with the idea that the town is sustained by this institution, in fact, Kirksville has been made what it is to-day by Dr. Still and his famous School and Infirmary. It is the largest patronized undowed institution of its kind in the United States.

Dr. Still's school enrolls over 700 students yearly and each student is required to attend four terms of five months each before completing the course of study. There are over 2,000 graduates and they are practicing in every state and territory of the Union. About two-thirds of the states have passed special laws legalizing the science.

This school teaches every branch taught in medical colleges except "drugs" and osteopathy is substituted for that. So thorough is the teaching in anatomy that over one hundred human bodies are dissected yearly by the students.

At the Infirmary, patients from every part of the country and with almost every form of disease are constantly under treatment. For the past fifteen years almost every train coming to Kirksville has brought some new sufferer hoping to find relief by the science of Osteopathy. By the thousands who have left the institution benefited by the treatment, the science has been heralded to the world as a safe and rational method of cure. Several years ago a free clinic was established in connection with the practice department of the school and this is still in operation. Hundreds of the worthy poor, who are unable to pay for treatment, are treated every afternoon by the senior students free of charge.

Think of the cheer in a [illegible]

A lodging-house for girls and working women will soon be built in New York City, if the plans now under consideration are carried out. Philanthropy and business will be combined in the running of the hotel. Plans have been submitted by an architect, involving the expenditure of $100,000. Several well known men interested in the project think there will be no difficulty in raising whatever money is necessary, because assistance has been offered by men prominent in the financial world. The hotel probably will be in the neighborhood of the large department stores on the West Side, where many girls and women are employed. Their board at the hotel will be about $3 or $4 a week. They will have the use of the hotel laundry when they wish to do up their collars, handkerchiefs, cuffs, and such light articles. There will be a room with sewing machines at their service when they wish to do up their collars, handkerchiefs, cuffs and such light articles. There will be a room with sewing machines at their service when they want to do mending, and a number of smaller rooms on the first floor where the girls may receive friends.

Nothing will be said to the guests about religion or their family affairs. If the girls are out of employment at any time the management will try to tide them over until they get work.

Battlefield Telephones.

Electricity never played so important a role as it does at present in the Far East. The Japanese generals use both telegraph and telephone in issuing their commands. As soon as firing is heard in any direction bamboo poles are planted and wires strung, and in a short time the line is ready for use.

"WHACKS".

And What They Mean.

When Old Mother Nature gives you a "whack" remember "there's a reason," so try and say "thank you," then set about finding what you have done to demand the rebuke, and try and get back into line, for that's the happy place after all.

Curious how many highly organized people fail to appreciate and heed the first little, gentle "whacks" of the good old Dame, but go right along with the habit whatever it may be, that causes her disapproval. Whiskey, Tobacco, Coffee, Tea, or other unnatural treatment of the body, until serious illness sets in or some chronic disease.

Some people seem to get on very well with those things for a while, and Mother Nature apparently cares but little what they do.

Perhaps she has no particular plans for them and thinks it little use to waste time in their training.

There are people, however, who seem to be selected by Nature to "do things." The old Mother expects them to carry out some department of her great work. A portion of these selected ones oft and again seek to stimulate and then deaden the tool (the body) by some one or more of the drugs—Whiskey, Tobacco, Coffee, Tea, Morphine, etc.

You know all of these throw down the same class of alkaloids in Chemical analysis. They stimulate and then depress. They take from man or woman the power to do his or her best work.

After these people have drugged for a time, they get a hint, or mild "whack," to remind them that they have work to do, a mission to perform, and should be about the business, but are loafing along the wayside and become unfitted for the fame and fortune that waits for them if they but stick to the course and keep the body clear of obstructions so it can carry out the behests of the mind.

Sickness is a call to "come up higher." These hints come in various forms. It may be stomach trouble or bowels, heart, eyes, kidneys or general nervous prostration. You may depend upon it when a "whack" comes it's a warning to quit some abuse and do the right and fair thing with the body.

Perhaps it is coffee drinking that offends. That is one of the greatest causes of human disorder among Americans.

Now, then, if Mother Nature is gentle with you and only gives light, little "whacks" at first to attract attention, don't abuse her consideration, or she will soon hit you harder, sure.

And you may be sure she will hit you very, very hard if you insist on following the way you have been going.

It seems hard work to give up a habit, and we try all sorts of plans to charge our ill feelings to some other cause than the real one.

Coffee drinkers when ill will attribute the trouble to bad food, malaria, overwork and what not, but they keep on being sick and gradually getting worse until they are finally forced to quit entirely, even the "only one cup a day." Then they begin to get better, and unless they have gone long enough to set up some fixed organic disease, they generally get entirely well.

It is easy to quit coffee at once and for all, by having well made Postum, with its rich, deep seal brown color which comes to the beautiful golden brown when good cream is added, and the crisp snap of good, mild Java is there if the Postum has been boiled long enough to ring it out.

It pays to be well and happy for good old Mother Nature then sends us her blessings of many and various kinds and helps us to gain fame and fortune.

Strike off the handicaps, leave out the deadening habits, heed Mother Nature's hints, quit being a loser and become a winner. She will help you sure, if you cut out the things that keep you back.

"There's a reason" and a profound one.

The railroad mileage in this country is increasing at the rate of about 5,000 miles a year. At this rate in twenty years there will be 100,000 more miles of railroad in the country. If the country continues to develop during the next twenty years as rapidly as it has during the last two decades, it will require fully 100,000 more miles of railroad to handle the increase in the volume of traffic. With this increase in railroad mileage the demand for steel and iron will be correspondingly greater. The last great building constructed in New York with iron beams and iron girders was the Waldorf hotel, and yet this building is only eleven years old. Every large building that has gone up since has been constructed with steel.—New York Tribune.

[illegible] Port Arthur newspaper, Novi Krai, of November 14th, copies of which were brought to Che Foo by the Russian torpedo boat destroyer, Rasteropny, contains a romantic story of Haritena Korotkiewitch, who, although a woman served valorously in many fights at Port Arthur, until death closed her strange career.

The husband of Haritena Korotkiewitch was serving at Port Arthur. In endeavoring to join him she was stopped at Harbin and was not allowed to proceed further owing to her sex. She then donned masculine attire, and succeeded in reaching Port Arthur shortly before the landing of the Japanese on the peninsula of Liao Tung.

Finding her husband's regiment, she enlisted in it. She participated in numerous sorties and in the defense of the forts, and, although her sex was soon discovered, her record for bravery, tirelessness and attention to the wounded, and the excellent moral influence she exerted over the soldiers, who never swore in her presence, won her permission to remain in the ranks.

While fighting side by side with her husband the latter was wounded. His wife nursed him until the crisis in his case was passed, when she returned to the front, where she became messenger to Captain Gourzakofiky of the Thirteenth regiment. In the performance of her duties as messenger she was often seen riding fearlessly from one position to another, seemingly unaffected by the bursting of shells or the din of battle.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in ¾-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

It sometimes happens that a self-made man marries a tailor-made woman.

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or falling of the womb. The words sounded like a knell to me. I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily, and each dose added health and strength. I am so thankful for the help I obtained through its use."—MRS. GOVERNOR OF OREGON

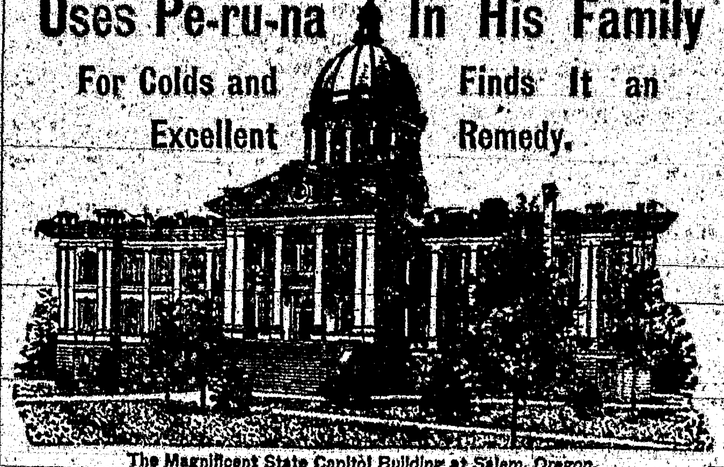
Uses Pe-ru-na In His Family

For Colds and Finds It an Excellent Remedy.



The Magnificent State Capitol Building at Salem, Oregon.

PRAISE FROM THE EX-GOVERNOR OF OREGON.

PERUNA is known from the Atlantic to the Pacific. Letters of congratulation and commendation testifying to the merits of Peruna as a catarrh remedy are pouring in from every State of the Union.

Dr Hartman is receiving hundreds of such letters daily. All classes write these letters, from the highest to the lowest.

The outdoor laborer, the indoor artisan, the clerk, the editor, the statesman, the preacher—all agree that Peruna is the catarrh remedy of the age.

The stage and rostrum, recognizing catarrh as their greatest enemy, are especially enthusiastic in their praise and testimony.

Any man who wishes perfect health must be entirely free from catarrh. Catarrh is well-nigh universal; almost omnipresent.

Peruna is the only absolute safeguard known. A cold is the beginning of catarrh. To prevent colds, to cure colds, is to cheat catarrh of its victims.

Peruna not only cures catarrh, but prevents it. Every household should be supplied with this great remedy for coughs, colds and so forth.

The Ex-Governor of Oregon is an ardent admirer of Peruna. He keeps it continually in the house.

In a letter to The Peruna Medicine Co., he says:

STATE OF OREGON, EXECUTIVE DEPARTMENT.

The Peruna Medicine Co., Columbus, O.

Dear Sirs:—I have had occasion to use your Peruna medicine in my family for colds, and it proved to be an excellent remedy. I have not had occasion to use it for other ailments.

Yours very truly,

W. M. Lord.

It will be noticed that the Ex-Governor says he has not had occasion to use Peruna for other ailments. The reason for this is, most other ailments begin with a cold.

Using Peruna to promptly cure colds, he protects his family against other ailments.

This is exactly what every other family in the United States should do—keep Peruna in the house. Use it for coughs, colds, la grippe and other climatic affections of winter, and there will be no other ailments in the house.

Such families should provide themselves with a copy of Dr. Hartman's free book, entitled, "Chronic Catarrh."

A. Ridgeway, one of the original old-timers of this place, will leave next week, it is said, for sand knobs and copper stained rocks over in Arizona. He goes in search of a location that holds points over White Oaks but will not move his family until he strikes pay dirt.

Ziegler Brothers took the contract this week to edit the first page of the Outlook for a short time, and our readers will get some new ideas about the dry goods and grocery trade thereby. They are determined to keep fully in the front line of our business firms who advertise and away up at the head. Those who have traded elsewhere say that most lines of goods can be bought as cheaply in White Oaks as in El Paso and other railroad towns. This shows that our merchants are up to date and wide awake.

Dry Goods, Notions, Blankets, Quilts, etc., must go. Prices talk—cash also. S. C. Wiener.

Col. J. Francisco Chaves, the Territorial Superintendent of Public Instruction, and the most conspicuous figure in New Mexico, was foully assassinated last Saturday night at Pinos Wells. He was at the house of a friend and while eating supper some fiend of incongruous shape stealthily approached the window and shot him through the heart, and then vanished into the darkness from whence he came. Nothing since the dastardly murder of Col. Fountain several years ago has stired the people up to so high a sense of indignation and outrage, several posses were soon on his trail and a suspect was arrested and taken to Santa Fe. This tragedy no doubt was enacted out of revenge for Col. Chaves attempted to break a gang of live stock thieves known to infest that region.

Millinery—balance of stock at cost and less, if you want it at S. C. Wiener's.

James H. Parker, who has prospered as a mining engineer, who now has an office in El Paso in connection with his brother Morris, doing a general mining business, paid his old home here a short visit during the past week. Being in a reminiscent mood, he went over pretty much all the premises so intimately connected with his boy hood even taking a peep into the attic where he used to tease the cat and play pranks on his younger brothers until you couldn't rest. Ah, those were halcyon days! Full of the promise of the future which brings to all some measure of success or failure as one has the foresight to grasp his opportunities. Jaime's friends, who are many, are glad to hear that his lines are leading on to fortune.

Felix Chacary was summoned from the United States jury for the fall term of said court in session at Alamogordo this week. They left for that oasis Sunday.

LEGAL NOTICE.

Andrew C. Austin, Administrator of the Estate of Charles B Knowlton, deceased, Plaintiff.
vs.
The unknown heirs of Charles B. Knowlton, deceased, Defendants.

The defendants "The Unknown Heirs of Charles B. Knowlton," deceased, are hereby notified that a suit has been commenced in the District Court, of the County of Lincoln, Territory of New Mexico, against them by Andrew C. Austin, Administrator of the estate of Charles B. Knowlton, deceased, for a decree authorizing and empowering plaintiff to sell at public auction the south half of the southwest quarter of section nine, in township ten south, of range thirteen east of New Mexico Principal Meridian, containing eighty acres of land situated in Lincoln County, New Mexico, of which the said Charles B. Knowlton, at the time of his death, was the owner; and to apply the proceeds from the sale of said land, to the payment of debts probated and allowed against the estate of the said Charles B. Knowlton, deceased, and for such further relief as the nature of the case may require and to the Court may seem meet.

That unless you, the said unknown heirs of Charles B.
