CAPITAN. N. M.

LOCAL ROUNDUPS.

W. S. Prager, C. D. Bonney and L. B. Tannehill arrived from Roswell yesterday and are looking up mining interests here.

Col. J. M. Rice, who is here from the Parsons mine, upper Bonito, reports work going steadily on at both mine and mill up there.

Cranberries at,
TALIAFERRO'S.

Two distinct earthquake shocks were felt here this, Thursday morning about 5 o'clock. They were only a few moments apart and each lasted about three seconds.

Corn Flakes, a delicious breakfast food:
TALIAFERRO'S.

Doc. Paden was unfortunate in losing his fine mare a day or two ago by leaving his feed bin unfastened, the animal getting an over dose of wheat.

Dr. Thurman Williams arrived Sunday morning last from Chickasha, Ind. Ter. and is stopping at Dr. Paden's. He brought along a good supply of babbet metal and a buzz wheel and will remain long enough to cork up that aching void in your dental economy.

Household goods for sale.
Mrs. L. W. Stewart.

Special attention is called to the extremely low prices at which Welch and Titsworth are now offering goods, as will be seen by consulting their ad. in this week's paper. This firm is now selling fresh Colorado potatoes for $1.60 by the sack, Pride of Denver flour $2.30 per cwt. Imbodens Best at $2.35, Granulated sugar at $5.50 per hundred pounds, and all other goods as cheap, if not cheaper than you can buy the same grades in El Paso.

If you want a dressed turkey for Thanksgiving leave your order soon at—Taliaferro's.

Judge John Y. Hewitt, Arthur Bond and Mrs. Whitmore formed a party out of White Oaks to Carrizozo Wednesday morning. They will all go to El Paso and remain a day or two visiting that city and Juarez, Mexico, after which they will separate. Mr. Bond returning to his home in Oakland, California, Mrs. Whitmore will go to her's at Swanton, Nebraska, while Judge Hewitt will visit relatives in southern Michigan for a few weeks before returning here.

Pride of Denver Flour $2.50 pev 100 pounds at—
TALIAFERRO'S.

Mrs. Elbert Collier slipped away from home a month or two ago without giving the boss of the ranch any deffinite idea as to her intentions, only that she expected to pull in at her old home, Brownwood, Texas. Elbert is now carrying around a smile of comfortable self-satisfaction like unto that on the face of a man who was running on the democratic ticket in this county. The returns from Texas inform him he is the father of a fine, nine pound girl which made its appearance there on the 8th of this month. His smile no doubt is broadened by the fact that some one else is doing the floor walking act these nights.

A full Line of Felt Boots, Rubbers and Arctics—TALIAFERRO'S.

The weather man got on a tear for a short time here this morning and raised Helen Patter generally. It lifted the roof clean off an adjoining business block, sending it right over this office and landing it against the stone building beyond. In its present condition it is more valuable for kindling wood than for a rain shelter. No other serious damage was done.

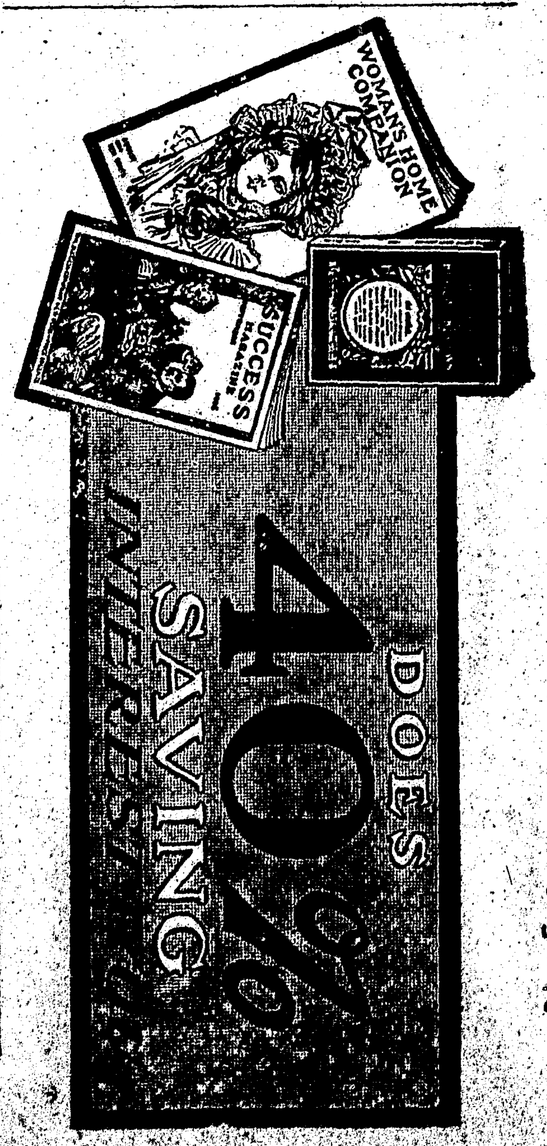
Our Bellflower apples are fine. 50 lb boxes $2,00.
TALIAFERRO'S.

R. B. Thomas, the big Oscuro iron man, is here this week looking over our coal fields and over our coal prospects with a covetous eye and a negotiating smile.

The OUTLOOK is a little late getting out this week on account of too liberal rations of "pi" which is liable at times to impair the digestion, and tend to stimulate luridand emphatic expressions from a single-hand type manipulator.

HOTEL OZANNE,
WHITE OAKS, NEW MEXICO.
Now open for business. Clean beds and an excellent cuisine awaits the traveling public.

ALL KINDS of PRINTING DONE AT THE OUTLOOK OFFICE.



The Greatest Magazine Bargain of the year.

By special arrangement we are now prepared to offer the Review of Reviews, price $3.00, the Womans Home Companion, price $1.00, the Success Magazine, price $1.00 and The Outlook, price $1.00 making in all $6.00 if subscribed for separately. These four periodicals are offerd for a limited time only $3.60

Send in your order to this office at once if you wish to take advantage of this extremely liberal offer.

Who's your Tailor?

Not a cheap tailor-shop but a shop where *good* tailoring can be had *cheap*.

If you went through the immense plant that this good tailoring comes from you would understand how our prices are possible.

Your tailor could not exercise more singleness of purpose than the men who would make your clothes in the workshops of this plant.

Each man is a specialist in his particular part of the work.

The Spring and Summer line of woolens is the finest and largest ever displayed.

Come in and inspect it.

THE OUTLOOK

WHITE OAKS, - NEW MEXICO.

An Up-to-Date Navy.

United States naval officers do not admit that the *monster* battleships planned by Great Britain and Italy are necessarily more effective than warships of the Connecticut Louisiana and the Michigan South Carolina types. Now that fuller details have reached here regarding the Conberti' battleship, with which Italy expects to outclass the Dreadnaught, there is less disposition than ever to overestimate the importance of Italy's move. The assumption that the biggest battleship can whip one a few hundred tons smaller leaves out *of account* the matter of seamanship, brains, courage, marksmanship, and relative efficiency, says Harper's Weekly. *American* warships may not be as big as the biggest, but in personnel and equipment they equal anything afloat. Our *newest* warships have a steaming radius of 5,000 miles, much greater than that of any other battleships afloat. This is a very important element in the fighting efficiency of all war vessels, and one in which the large English and Italian battleships are likely to fail.

The Indifferent Citizen.

Indifference is the blight that affects all efforts for better things. The prosperous citizen is optimistically confident that things are going right and that any side-stepping must be only temporary. So he lets them go and is *content* to think that he at least has nothing to worry about. Comfortably *fixed* in the first cabin with all the *luxuries of modern life* about him, he cares nothing what other people in the same ship are doing - whether they are scuttling it, setting it afire or preparing a mutiny. all he knows or cares about is that it's mighty pleasant right where he is and that's enough. This negligence and indifference clear the way for those who do care and who have selfish ends to serve. All the deals and machinations that make modern politics disreputable are due, fundamentally, to the neglect of the great majority to be alert, says the Hartford, Conn., Courant. It is nonsense to say that society itself is rotten. It holds together just because of its *sweet* and *wholesome* strength. The piratical element that lives on it is tolerated, not dominant.

Our Coal Supply.

Occasionally fears are expressed that the coal supply of the United States will give out. This apprehension is entertained because this country, while surpassing all others in production, is also the greatest coal consumer in the world. But every now and then comes the announcement of a new discovery which shows that the limit has not yet been reached. A vein in Pennsylvania has just been *found which the experts say* contains millions on millions of tons of coal, and they roughly estimate its value at $50,000,000 to $75,000,000. It is about as difficult to convince people of the danger of a complete exhaustion of the coal supply as it is to make them believe in the reality of an ice famine.

Spelling reform has been receiving the attention of Chinese officials. The director of the imperial telegraphs has announced that a committee has been appointed to recommend a uniform system of spelling the names of Chinese cities in the Roman alphabet. When the report is adopted telegraphic messages will be delivered more promptly than is now possible when the English, the French and the Germans each spell the name of the same city *differently*.

Fredrick Peterson M. D., President of the New York Neurological Society and member of the New York Lunacy Commission, says that in the life in New York City the friction is greater than in any other known existence endured for long periods of time by large numbers of people. Each day finds presented the proof that more and more we are verging on the limits of human endurance.

The kaiser was an honored guest at the Krupp wedding breakfast and made a speech on wifely duties. No doubt he placed the proper mixing and finishing of good round cannon balls like rather used to make near the top of the list.

That California professor was judicious in timing the announcement of a new language which contains no cuss words. This is the season when the householder takes in the fly screens and puts up the sto ea.

The site of a spacious Roman villa in the Castle Park, Colchester, England, has been discovered in a remarkable way. The intense heat, acting upon the grass above the ruined foundations revealed an entire ground plan of the various rooms and passages.

When a girl under 14 gets a mania to become an actress it'l up to her mother to get down the old slipper and try to produce a counter irritation.

NEW MEXICO NEWS SUMMARY

M. J. Drury, Santa Fe master mechanic at Raton, has been made mechanical superintendent of the Santa Fe at La Junta, succeeding C. M. Taylor, who retires November 1st.

Prof. J. E. Clarke of Albuquerque has been appointed assistant superintendent of the public schools of the territory. Professor Clarke came to Albuquerque from Michigan in August, 1905, to take charge of the city schools, which he has placed on a high plane.

A Colorado Springs dispatch says: Judge R. M. Cash, who recently came to this city from Galveston, Texas, is negotiating for the sale of 1,640,000 acres of New Mexico lands to an eastern syndicate. The price is said to approximate fifty cents an acres, making a total of $820,000.

The following have been appointed notaries public by Governor Hagerman: Carl Harberg, Cleveland, Mora county; Otto Dieckman, Albuquerque, Bernalillo county; Bryant H. Thompson, Elida, Roosevelt county; William R. McGill, La Lande, Roosevelt county; Cecilio Rosenwald, Las Vegas, San Miguel county; Jessie I. Baldwin, Raton, Colfax county.

On the night of November 1st Jose Marci and Christian Croix, Pima Indian youths from Arizona, attending St. Catharine's school at Santa Fe, secured whisky and attacked the home of Frank M. Jones, near town. Mrs. Jones, who was alone, put them to flight. Captain Fornoff and Lieutenant Collier of the mounted police captured one of the boys. The other escaped to the school.

The mystery has been cleared surrounding the mysterious disappearance of Peter Grisak, a rancher, who had been missing for some time from his home about twenty miles east of Cloudcroft. His body was found a short distance from his ranch with a bullet hole in the head, and lying near the corpse was a revolver which was identified as belonging to him. Indications pointed to suicide, but it is the general opinion that he accidentally killed himself while herding goats.

Capt. Arthur Trelford, superintendent of the New Mexico penitentiary, has begun the introduction of uniforms in the territorial prison, with the result that some of the convicts might be mistaken for members of the mounted police force from the standpoint of clothing. The old "stripes" are to be entirely eliminated as fast as the clothing is worn out. The new prison clothing is of a light bluish-gray in color, substantially made and well fitting. It is similar to that in use in many of the larger penal institutions of this country and England. The finger print method of identification, which in the United States is a comparatively new feature, will likely be placed in use in the New Mexico prison in the near future. By this method an impression of the palm of each convict is taken and it is said that it is impossible for a man thus recorded to escape identification if again arrested for any offense.

La Plata Project Turned Down.

The board of consulting engineers which recently made a thorough field examination of land under the La Plata irrigation project, has submitted a report to the chief engineer of the reclamation service in Washington. The La Plata project is located along the northern side of the San Juan river, in northwestern New Mexico, the greater portion of the land lying along the La Plata river, a tributary of the San Juan.

The farmers in this valley formerly received an adequate water supply from the La Plata river, but recent appropriations in Colorado divert all the normal flow before it reaches New Mexico. The normal flow has been greatly decreased in late years by deforestation of the mountain slopes of the draining basin, so that the river in this section is now practically dry after the spring run-off, except during passing storms. As a result, orchards are dying, many farms have been deserted and settlers who remain are receiving an inadequate water supply. When the attention of the reclamation engineers was called to the situation in 1904, it was thought that possibly the water supply might be regulated by storage reservoirs, or supplemented by diversions from the Las Animas river, which lies just to the east of the La Plata drainage basin.

A feasible reservoir site was located on the La Plata river at the state line. An investigation of the Las Animas valley disclosed a good reservoir site just above the town of Durango, but the site is traversed by a railroad, and the heavy cost of moving this railroad would fall upon the irrigators.

A diverting canal would have to be carried through town lots and other valuable mining property, making the right of way through Durango alone an expensive one. The dividing ridge between the two drainage basins presents another obstacle, and a tunnel three miles long through the mountain would add further to the expense.

The soil in the La Plata valley proper and on various mesas which could be cultivated is unusually adapted to successful growing of all kinds of grain, grasses, vegetables, deciduous fruits and melons. The yield in all cases, when sufficient water is properly applied, is large, and the products of fine grade, but engineers have found the cost to be in excess of anything that the limited area with its present lack of transportation facilities could bear.

In view of the limited fund available, and the many more attractive schemes which are being presented for consideration, the engineers have recommended that this project be abandoned, for the present, at least.

Fort Bayard Sanitarium.

In his annual report Surgeon General Rixey of the navy department says:

"In order to secure for unfortunate sufferers from tuberculosis conditions of climate and environment favorable for open air treatment of the disease, and to protect other patients in naval hospitals from danger of infection by them, the bureau has continued to utilize the facilities of the army hospital at Fort Bayard, New Mexico, for selected cases. Many patients have received great benefit from their treatment in this hospital.

"Of 99 cases treated during the year 1900, the following disposition is recorded: Invalidated from service, 28; granted sick leave, 2; died, 7; continued to 1906, 30; discharged to duty well, 21; discharged at expiration of enlistment, not cured, 10.

"At the army hospital at Fort Bayard there are difficulties inherent to control and discipline navy patients under army regulations; the camps are only expedients and the best means obtainable under the circumstances for treatment of tubercular cases and protection of patients with other diseases in naval hospitals.

"The naval service is therefore in urgent need of a well appointed sanitarium of sufficient capacity for 150 tuberculosis patients. Preliminary investigations are being made and several locations are under consideration by the bureau, with a view of the selection and recommendation of a site possessing the most favorable conditions for the establishment of a naval sanitarium for cases of tuberculosis in the navy and marine corps."

Whiskey Caused Suicide.

A Roswell dispatch of the 27th ult. says: N. M. Pavey, aged fifty years, committed suicide at his home here and was found to-day dead on the bed with his left wrist severed. A bloody razor was on the bed. He left a letter stating that the act was caused by whisky, which brought on trouble with his family. In the letter he accused Nathan Hendricks of being the author of his latest trouble, and said his wife and six children were in Texas, where Hendricks now resides. Hendricks was tried here twice for his life on the charge of killing William Rainbolt. The last trial resulted in a verdict of not guilty.

Hendricks had been paying attentions to one of Pavey's daughters, which the latter strongly disapproved, but was sanctioned by Mrs. Pavey. Mrs. Pavey separated from her husband six months ago. A grown son lives at Cloud Croft, New Mexico. Pavey was highly respected and was a member of the federal grand jury which ended its work this week. He was not a heavy drinker until a short time ago. Suicide was the verdict of the coroner's jury.

Irrigation Contracts Awarded.

A Washington dispatch says that the secretary of the interior has awarded a contract to J. P. Nelson of San Antonio, Texas, for the construction of a diversion dam, other structures, and six miles of canal for the Rio Grande irrigation project in New Mexico.

The work is in the vicinity of Las Cruces and involves furnishing and driving 35,000 linear feet of round piles and 17,000 feet board measure of sheet piles, constructing about 21,600 cubic yards of concrete, excavating about 231,000 cubic yards of earth, and other related works.

This unit, the first to be undertaken under the Rio Grande project, is known as the Leasburg diversion. It is for the purpose of delivering water from the river into the present Mesilla valley canals, which have no permanent headings. Construction will be pushed as rapidly as possible, with hope that water may be delivered during the next irrigation season.

Sister of Charity Dies.

Sister Catherine of Pueblo, Colorado, a Sister of Charity, one of the pioneers of the order in the Southwest, died of heart disease at Santa Fe on the 29th ult.

She came over the Santa Fe trail in 1865 from the mother house at Cincinnati, and was one of the three founders of St. Vincent's sanitarium and hospital at Santa Fe, performing similar services later for St. Joseph's sanitarium at Albuquerque, St. Raphael's hospital at Trinidad, and for a sanitarium at Pueblo, Colorado.

She was born sixty years ago in Ireland and her name was Catharine Mallon. She experienced many hardships in the early days when the sisters were compelled to take in washing and sewing in order to meet the expenses of their charitable work.

Only recently she went to the mother house at Cincinnati to retire, but her love for the West drew her back, and she was grateful to be in Santa Fe during her last days.

Restoring Stolen Horses.

New Mexico and Texas mounted police have been busy recently rounding up some forty-five or fifty stolen horses which have been in pasture in the southern part of the territory. They are restoring the horses to the rightful owners as fast as possible. The animals were stolen from ranches in the northern part of El Paso county, Texas, and the southern part of Otero and Eddy counties, New Mexico. Deputy Sheriff Felipe Lucero of Dona Ana county and Officer Robert Birch of the New Mexico mounted police, it will be remembered, apprehended the horse thieves about two months ago. Texas authorities notified them that the band had crossed the border into New Mexico and they at once started in pursuit.

Railroad Incorporated.

The Phelps-Dodge interests have filed incorporation papers at Santa Fe for a railroad from their coal camp of Dawson, in Colfax county, to Corona, Lincoln county, via Las Vegas at Corona, to connect with the El Paso and Southwestern system owned by the Phelps-Dodge company. The capitalization is $200,000, and the principal place of business is Alamogordo, Otero county.

The incorporators and directors are: A. C. James, C. H. Dodge, James McLean of New York City, John Franklin and H. J. Simmons of El Paso, Texas; E. L. Carpenter of Dawson, and W. A. Hawkins of Alamogordo. The road will be known as the Dawson, El Paso and Southwestern railway.

ELECTION NEWS

REPUBLICANS RETAIN CONTROL OF CONGRESS.

HUGHES WINS IN NEW YORK

Massachusetts Elects Republican Governor, As Do Other Northern States Except Minnesota.—Joint Statehood Defeated in Arizona.

Denver.—The News Wednesday morning sums up election returns as follows:

Elections were held yesterday in forty-two states and, while the results in a number of instances were of unusual interest, it may be said that, generally speaking, there were no great surprises.

The Republicans retain control of Congress by a good majority.

Perhaps the widest general interest in the elections centered in the remarkable fight for governor which has been waged in New York state between Charles E. Hughes and William Randolph Hearst. The latest returns available show that Hughes while losing nearly all of the principal cities of the state, was successful by about 50,000 plurality. The rural districts brought about the Republican victory.

Massachusetts has re-elected Curtis Guild (Rep.) as governor over District Attorney John B. Moran of Boston, who was the candidate of the Democratic party, the Independence League and the Prohibitionists.

In Chicago it is estimated that the Independence League ticket polled 40,000, but there was a heavy Republican plurality for the state officers.

Pennsylvania has elected Stuart (Rep.) governor over a Fusion opposition by the usual Republican plurality.

Michigan, Iowa, New Hampshire, North Dakota, Connecticut, Indiana and Wisconsin have rolled up Republican pluralities, although there was some falling off from the usual vote in Iowa.

In Minnesota, Governor Johnson Johnson (Dem.) was re-elected by the largest majority ever given a Democrat in the state.

Nebraska shows big Republican gains. Ohio also shows gains over the Pattison vote of last year. The Republicans expect a plurality of 75,000 in the state.

The constitution of the new state of Oklahoma will be written by Democrats.

Joint statehood for New Mexico and Arizona is defeated in Arizona, which defeats the proposition.

Governor Hoch is probably re-elected in Kansas by a greatly reduced majority.

The result in Missouri was in doubt at a late hour. The Democrats regained some of the congressional districts they lost two years ago.

New York.—Returns from the state of New York, including Greater New York, with 205 districts out of 4,500 missing, give Hughes 51,773 plurality. Hearst Tuesday night issued a statement admitting his defeat.

Hughes' plurality up-state is 130,000, and Hearst's plurality in the city is 80,000.

It is almost certain that the Tammany judicial nominees are elected with one exception.

Brooklyn broke nearly even, and the up-state counties showed remarkable Republican gains, but the cities went the other way.

The congressional delegation and the Legislature of the state will remain in Republican control.

The widest general interest in today's elections centered in the remarkable fight for governor which has been waged in New York between Charles E. Hughes, the Republican candidate, who throughout the campaign has had the support of President Roosevelt, and William Randolph Hearst, who has been running as the regular Democratic and Independence league nominee.

The latest returns available show that Mr. Hughes, while losing nearly all of the principal cities of the state, was successful by about 50,000 plurality. The rural districts brought about the Republican victory.

Two years ago Governor Higgins was elected on the Republican ticket by 80,560.

Columbus, Ohio.—At 11 o'clock this morning Senator Dick, chairman of the state Republican committee, sent the following telegram to President Roosevelt and to the chairman of the congressional committee:

"Ohio Republican by not less than 75,000 and elects seventeen Republican congressmen, three Democrats, with one district in doubt."

Figures are yet incomplete but such returns as have been received indicate a Republican plurality of not less than that secured by Pattison, Democrat, last year when he won by 40,000.

San Francisco.—From meagre returns received from the various sections of the state up to 10 p. m. Gillett, Republican, for governor, is probably elected by about 10,000 majority, with Bell, Democratic and Union Labor, second, and Langdon, Independence League, third.

San Francisco, which was expected to give Bell a big vote, will probably give Gillett about 10,000 majority, while in Los Angeles, normally a heavy Republican city, the vote was comparatively close.

Des Moines, Ia.—For the first time in many years the gubernatorial result in Iowa has been in doubt, but returns now coming are reducing Governor Cummins' loss, as shown by earlier returns. If these keep up, the Republican claims of at least 10,000 plurality will be substantiated.

Phoenix, Ariz.—At 12 o'clock there is little at hand to estimate the results of election except that joint statehood seems to be defeated overwhelmingly. Seven county precincts complete in Maricopa county give 196 against 19 for jointure. As far as counted in the four Phoenix precincts the vote is 644 to 92. Seven county precincts give Smith, Dem., delegate to Congress, 112; Cooper, Rep., 74.

THEY CURE RHEUMATISM

A Particularly Painful Form of This Disease Yields to Dr. Williams' Pink Pills.

Of the many forms which rheumatism takes, that which is popularly known as sciatic rheumatism probably tortures its victim more than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proven by the following statement, and no sufferer who reads this can afford to let prejudice stand in the way of trying these blood-making pills.

Rheumatism is now generally recognized as a disease of the blood. Dr. Williams' Pink Pills make—actually make—pure blood. When the blood is pure there can be no rheumatism. Mrs. Thomas Bresnehan, of 54 Mill street, Watertown, N. Y., says:

"My trouble began with a severe cold which I took about a week before Christmas in 1904. I began to have rheumatic pains in my back and limbs and after a time I couldn't straighten up. I suffered the most awful pain for months and much of the time was unable to leave the house and I had to take hold of a chair in order to walk and sometimes I could not stand up at all.

"The disease was pronounced sciatic rheumatism and, although I had a good physician and took his medicine faithfully, I did not get any better. After some six weeks of this terrible pain and suffering I tried Dr. Williams' Pink Pills and that is the medicine that cured me. After a few boxes the pain was less intense and I could see decided improvement. I continued to take the pills until I was entirely cured and I have never had any return of the trouble."

All druggists sell Dr. Williams' Pink Pills, or the remedy will be mailed postpaid, on receipt of price, 50 cents per box, six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

SICK HEADACHE

CARTER'S LITTLE LIVER PILLS.

Positively cured by these Little Pills.

Walter's Modest Request.

Melba admires the independence of her fellow Australians, but on one occasion she had rather a pronounced experience with what she calls their "delightful impudence." She had waited a long time for dinner at her hotel in a large mining town and finally made a sharp complaint to the waiter. "Well, ma'am," said he, coolly, "you might sing us a song to pass the time." This to a vocalist who one evening received $5,000 from William Waldorf Astor for singing four songs in his London mansion.

Woman Novelist Widely Read.

Miss Braddon, the popular novelist, who celebrated her seventieth birthday by issuing her sixty-second book, received $12.50 for her best known effort, "Lady Audley's Secret." Since then royalties have been paid to her on over a million copies. Miss Braddon reads French, German, Spanish and Italian with equal facility.

SHARE THE PROFITS.

A Smelter Company Gives Its Employes Part of the Earnings.

One of the most successful plans for sharing profits with employes is being conducted by the American Smelting & Refining Company, which is managed by the Guggenheims. This company has a large number of employes in Colorado, and to each of them is given each year a pro rata division of such net profits of the company as remain after dividends are paid on its preferred and common stock. This year the amount distributed was $400,000 at all its plants.

This profit sharing plan originated with the executive committee of the company, for the purpose of attaching its employes more closely to their work. In some large companies a system of pensions are resorted to, but the plan of sharing profits appears to make each employe feel additional responsibility, and regard the interests of the company as his own. The annual cost of this plan to the company means nearly one-half million dollars, and is much more expensive than pensions, but at the same time is much more satisfactory.

On the pay roll of the Guggenheim interests in Colorado are some of the most contented and loyal working men that can be found anywhere in the country. The result of the plan of profit sharing is at once the delight and astonishment of students of industrial conditions, who have pondered deeply on the problem of dividing earnings with labor. This is one of the numerous instances where business men took up and settled an industrial problem to the satisfaction of labor, while mere theorists were baffled by the perplexing situation.

The Guggenheims, while up to date business men in every respect, still adhered to the good old-fashioned idea that an employer is in a measure responsible for those who work for him. To this plan of dealing with laboring men they attribute no small part of their success.

SILVER STILL CLIMBING.

Mr. Simon Guggenheim Says White Metal is Again to Reach High Price.

What seems like a prophecy founded on a knowledge of the facts is the statement made by Simon Guggenheim of Denver, several months ago, with regard to the price of silver. The white metal is still climbing upward, and is now above 70 cents an ounce. Mr. Guggenheim, who is intensely loyal to Colorado and all her interests, made the announcement some time ago that silver would soon advance and the mining of that metal be once more profitable in the once great silver camps.

"Colorado is a magnificent state," said Mr. Guggenheim, who has been active in her development for eighteen years. "And there is every indication that silver mining is again to be profitable in the famous camps we were so proud of in the old days. In a very few months silver will reach 70 cents, with every prospect of going higher."

This prediction has come true to the delight of every loyal Coloradan. Mr. Guggenheim's companies have been active since silver was demonetized to restore the metal to at least something near its former value. It begins to look as if what was attempted for Colorado by political platforms when silver was an "issue" will be done by persistent work along business lines by men who are able to exert powerful influence in behalf of whatever plans for helping Colorado they have in hand.

OFF FOR PANAMA

PRESIDENT ROOSEVELT WILL INSPECT BIG DITCH.

WILL SAIL ON BATTLESHIP

Ship Louisiana to Be Convoyed by Two Cruisers—Mrs. Roosevelt Goes With Him—Plans to spend Four Days on the Isthmus.

Washington.—"Good bye, I am going down to see how the ditch is getting along," shouted President Roosevelt, as he stood on the deck of the yacht Mayflower at the Washington navy yard, as the vessel was leaving the dock with the President for his Panama trip.

Accompanying him were Mrs. Roosevelt and her maid, Surgeon General Rixey of the navy, and M. C. Latta, one of the assistant secretaries at the White House. The Mayflower will take the party to Wolf Trap light, at the mouth of the Rappahannock river in Chesapeake bay, where a transfer will be made to the battleship Louisiana, which is to convey the President to and from the isthmus.

The President's trip will be an absolute novelty in American history. For the first time since the United States joined the society of independent nations its President will set foot on foreign soil. Probably the most interesting feature is the fact that the President is to visit the big ditch under its worst possible conditions.

The rainy season is now at its height in Panama, and if Chairman Shonts and Engineer Evans can show the President a cheerful prospect along the way of mud and through the drenching showers, they will undoubtedly be entitled to hold their jobs.

The President purposely selected this season for his trip, arguing that inspection made during fine weather, when everything on the zone would be in dress parade would be of little use to him. He wants to see the men working under difficulties, for if they do well when the conditions are against them, they can not help doing better when the skies are fair and the roads are good.

The President's visit to Porto Rico on the return trip will be a social affair and is planned mainly with the idea of popularizing Governor Winthrop among the natives.

The Louisiana will be convoyed to and from the isthmus by the armored cruisers Tennessee and Washington.

Aboard the Louisiana is Lieutenant Frank Evans, who will utilize the wireless telegraph apparatus with which the ship is equipped for communicating with the White House at Washington whenever the President desires it. In this way the public will be accurately informed of the movements of the ships.

The President will spend four days on the isthmus. He will arrive at Colon Thursday, November 15th, where he is to be greeted aboard ship by President Amador of Panama, and Mrs. Amador, Chairman Shonts and other officials of the canal commission. A considerable part of that day will be spent at La Poca and Ancon, the train making a slow run across the isthmus in order to give an opportunity to see the sights and make an examination of the work. At La Boca there is to be an inspection of the present terminals of the old French canal and the Panama railroad, following which there will be a trip to nearby islands, where the President is to be shown the proposed actual Pacific end of the canal in deep water and its approaches. In the afternoon there will be a sightseeing trip around Ancon hill. At Ancon the day is to be made a fiesta, with the town decorated and illuminated. The President and party are to be driven in carriages through the principal streets, accompanied by an escort on horseback. An address will be made by President Amador and a response by President Roosevelt.

In the evening the President and Mrs. Roosevelt and others are expected to dine with President and Mrs. Amador at the presidencia. This probably will be the only time on the isthmus when the President will leave the jurisdiction of the United States.

The program for Friday and Saturday contemplates a visit to and inspection of all points of interest on the isthmus, including the Culebra cut, the site of the proposed dam and locks at Gatun and the present and proposed terminals of the railroad and canal at Cristobal. Sunday will be spent quietly on the isthmus and in the evening the party will board the Louisiana for San Juan, Porto Rico, where the vessel is scheduled to arrive Thursday morning, November 22d. At San Juan elaborate preparations have been made for the reception of the President. He will remain there one day, leaving Friday, November 23d, for Washington. When the Louisiana reaches Wolf Trap light the party will be transferred to the Mayflower and proceed to Washington, where the vessel is scheduled to arrive Tuesday, November 27th.

Hoch Probably Carries Kansas.

Topeka, Kans.—Although there are still five counties unheard from relative to the election of Tuesday, it is generally believed that Hoch, for governor, has been elected by between 3,500 and 4,000 votes. The Democratic committee has conceded nothing, saying the official canvass will be necessary to determine the result.

Owens Defeats Musser.

Colorado Springs.—Chairman W. C. Charles of the El Paso county Democratic central committee is said to concede the election of James Owens of Cripple Creek (Rep.) over G. W. Musser (Dem.), for district judge in the Fourth judicial district. The election of Owens completes the total victory of the Republicans in county and district. Musser had approximately 750 plurality in Teller county, against which nearly 1,000 plurality is rolled up by El Paso and the other five counties in the district.

SKIN ERUPTIONS 35 YEARS.

Suffered Severely with Eczema All Over Body—A Thousand Thanks to Cuticura Remedies.

"For over thirty-five years I was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times, and they said there was no cure for me. I have taken all kinds of medicine and have spent large sums of money for doctors, without avail. A short time ago I decided to try the Cuticura Remedies, and after using two cakes of Cuticura Soap, two boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all, I am now well and completely cured. A thousand thanks to Cuticura. I cannot speak too highly of the Cuticura Remedies. John T. Roach, Richmondale, Ross Co., Ohio, July 17, 1905."

Plenty More!

Russell Sage was much opposed to drinking. He would often rail with homely and humorous wisdom against drink.

"Men drink,' he said one day to a broker, 'because they are happy, because they are sad, because they are too warm, because they are too cold. Is there any logic in that?

"When I see men drinking I think of a little boy at the seashore.

"This little boy, at play with his bucket and shovel in the sand, suddenly ran to the edge of an advancing wave, and, scooping up a handful of salt water and foam, drank it greedily.

"'Oh, don't drink that,' said his nurse. 'It will make you thirsty.'

"'What if it does?' said he. 'There's plenty more.'"

The Ideal Family Laxative.

is one that can be used by the entire family, young and old, weak and strong, without any danger of harmful effects. It should have properties which insure the same dose always having the same effect, otherwise the quantity will have to be increased and finally lose its effect altogether. These properties can be found in that old family remedy, Brandreth's Pills, because its ingredients are of the purest herbal extracts, and every pill is kept for three years before being sold, which allows them to mellow. We do not believe there is a laxative on the market that is so carefully made.

Brandreth's Pills are the same fine laxative tonic pills your grandparents used. They have been in use for over a century and are for sale everywhere, either plain or sugar-coated.

Going to Take a Day Off.

A postmaster, not many miles from Billville, posted the following notice on his shutter recently:

"All parties expectin' mail are hereby notified to git all that's comin' to 'em in advance—any time before next Thursday, that bein' the day we have app'inted to go huntin'—not havin' had a holiday from the government since July 4, and the said government seemin' to forget that bein' only human, we need rest and recreation occasional. There's some little mail here for the Joneses and the Tompinses—but it don't amount to much, as it's all got one-ecnt stamps on it. There ain't nuthin' much in the business nohow!"—Atlanta Constitution.

A Rule and an Exception.

According to the New York Tribune, a country paper lays down this rule of etiquette: "When a lady and gentleman are walking in the street, the lady should walk inside of the gentleman."

It seems a little strange that this simple rule, so long current among the cannibal tribes of the Andaman and other islands, should find its way into a rural journal of more or less civilization. It would appear that the etiquette editor of the paper in question was either too careless or too hurried to note any exceptions to the rule. Otherwise he would have explained that when the gentleman was thirsty and desired to enter a cafe the lady would walk on the outside.—Cleveland Plain Dealer.

HARD TO SEE.

Even When the Facts About Coffee Are Plain.

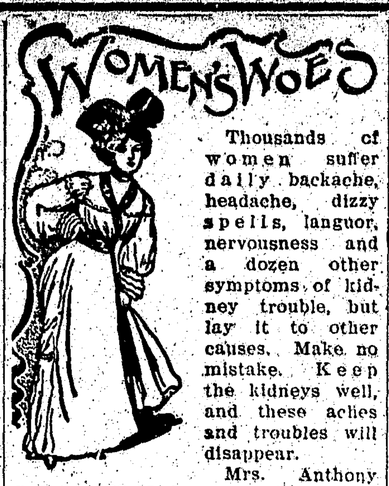
It is curious how people will refuse to believe what one can clearly see.

Tell the average man or woman that the slow but cumulative poisonous effect of caffeine—the alkaloid in tea and coffee—tends to weaken the heart, upset the nervous system and cause indigestion, and they may laugh at you if they don't know the facts.

Prove it by science or by practical demonstration in the recovery of coffee drinkers from the above conditions, and a large per cent. of the human family will shrug their shoulders, take the drugs and—keep on drinking coffee or tea.

"Coffee never agreed with me nor with several members of our household," writes a lady. It enervates, depresses and creates a feeling of languor and heaviness. It was only by leaving off coffee and using Postum that we discovered the cause and cure of these ills.

"The only reason, I am sure, why Postum is not used altogether to the exclusion of ordinary coffee is, many persons do not know and do not seem willing to learn the facts and how to prepare this nutritious beverage. There's only one way—according to directions—boil it fully 15 minutes. Then it is delicious." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville, in pkgs. "There's a reason."



Thousands of women suffer daily backache, headache, dizzy spells, languor, nervousness and a dozen other symptoms of kidney trouble, but lay it to other causes. Make no mistake. Keep the kidneys well, and these aches and troubles will disappear.

Mrs. Anthony Cadrette, 77 Mechanic street, Leominster, Mass., says: "My sight failed, I had sharp pain in my back and bearing-down pains through the hips. I was nervous, fretful and miserable. The urine was greatly disordered and I began to have the swellings of dropsy. I was running down fast, when I started using Doan's Kidney Pills. A wonderful change came and after using them faithfully for a short time I was well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Immigrants for Ecuador.

The government of Ecuador has signed a contract with an agency in Guayaquil for the purpose of importing immigrants into the lower and eastern portion of the republic. The company binds itself to import 5,000 families. It is specified in the contract that the immigrants shall be white and preferably of the German or Dutch races.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Purchased "Old Red House."

T. W. Leete, a prominent business man of Springfield, Mass., has purchased the historic "Old Red House" at Longmeadow, Mass., which was built 171 years ago, and has presented it to the town as a museum. The house was built by Simon Colton, a soldier of the French and Indian wars.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

To keep a house warm in winter have the cellar coaled.

Carpet rags dyed with PUTNAM FADELESS DYES will remain bright and beautiful. No trouble to use.

He who steals a watch should not be surprised if he has to do time later.

Mrs. Winslow's Soothing Syrup.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Important News Chronicled.

An English paper gravely announces that "Sir Keri Singh, the maharao of Srohi, lost his last jaw tooth on July 2 and had a diamond one put in its place."

That an article may be good as well as cheap, and give entire satisfaction, is proven by the extraordinary sale of Defiance Starch, each package containing one-third more Starch than can be had of any other brand for the same money.

Japan Will Copy from America.

Prof. Taichiro Honjo is concluding in New York a tour of inspection of the great school systems of this country. He was sent here by his government of Formosa. When he goes home he is to establish a gigantic educational institution modeled after the American high school.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher.

In Use For Over 30 Years.

The Kind You Have Always Bought.

New York Girl Now Lady Paget.

There are now ten Lady Pagets in Great Britain, the latest being the wife of Gen. Paget, who has just been knighted. She was Miss Minnie, daughter of Mrs. Paran Stevens, of New York. Her first appearance in London society was made a good many years ago, when her beauty and vivacity caused quite a sensation.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Keeping Parents in Subjection.

In the life of the very rich some parents still seek to resemble those curfews incarnate in humble life who keep the girls at home and the boys out of the barrooms. Middle life and old age are too hidebound to get accustomed to the manners of the new generation of young men who are old and worn before they graduate and of young women who win or lose large sums at gambling. Children have a right to expect from their parents docile obedience. At first this may be difficult, but, as Aristotle says, "Virtue is a habit," and it can be acquired.—N. Y. Evening Post.

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start this trying period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:— (First Letter.)

"I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and backache, and as I have heard that you can give helpful advice to girls in my condition, I am writing you."—Myrtle Mills, Oquawka, Ill.

Dear Mrs. Pinkham:— (Second Letter.)

"It is with the feeling of utmost gratitude that I write to you to tell you what your valuable medicine has done for me. When I wrote you in regard to my condition I had consulted several doctors, but they failed to understand my case and I did not receive any benefit from their treatment. I followed your advice, and took Lydia E. Pinkham's Vegetable Compound and am now healthy and well, and all the distressing symptoms which I had at that time have disappeared."—Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows:

Dear Mrs. Pinkham:—

"Before taking Lydia E. Pinkham's Vegetable Compound my periods were irregular and painful, and I always had such dreadful headaches.

"But since taking the Compound my headaches have entirely left me, my periods are regular, and I am getting strong and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me."—Matilda Borman, Farmington, Iowa.

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, from a source that has no rival in the experience of woman's ills, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood.

Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of cures of female ills of any medicine that the world has ever known. Why don't you try it?

THE OUTLOOK

Weekly Newspaper Devoted to the Interest of White Oaks and Lincoln Co., N. M.

Published Every Thursday.

Lee H. Rudisill, Editor and Pub.

Entered as second-class matter, September 6th, 1904, at post office at White Oaks, New Mexico, under the Act of Congress of March 3d, 1879.

SUBSCRIPTION PRICE.

One Year (in Advance).....$1.00
If not paid within 3 months.. 1.50

Notwithstanding that 9,000 majority for forcible annexation here in this territory we will continue to write it New Mexico.

Major General Shafter, United States Army, retired, died at Bakersfield, on the 12th of this month of pneumonia.

It sounds a little raw for one of the late comers of Quay county to write letters to the Tucumcari News and sign himself "Old Settler".

An exchange pertinently remarks that after the attorney general gets through with the Drug Trust it will be within the means of the poorest citizen to get sick once in a while.

It was a great fight and a very successful one that the Albuquerque Journal put up against the Hubbell gang. Ring rule in the Republican party of New Mexico must go.

Arizona will have the respect of all fair thinking men throughout the country for the stand she has taken and the vote she has cast against the joint statehood bill, and stands a better chance today for early admission than New Mexico.

It is getting to be a dull day for news when a railroad accident entailing a great loss of life is not reported from some part of the country. We should remodel our laws something after those of Mexico if this holocaust continues longer.

Out of the wreck and the ruin of the recent election Romoldo Duran is the spared monument on the Lincoln ticket, and a fit relic of the shameless outrage sought to be perpetrated on the Republicans of this county by a clique of would-be political bosses.

It is said that Lincoln county's newly elected school superintendent is a spelling reformer, and that he has a system all his own which would put the Roosevelt-Carnegie method way back in the 'cell box with the long primer pi. A type written page would look something like an artistic combination of ancient Sanscrit and modern Scandinavian.

Gov. Hagerman in an interview at Roswell, where he had gone to vote, had this to say in regard to the political situation in some parts of New Mexico which seems to fit conditions here in Lincoln county as well as if he had it in mind, "It is not surprising that in some counties the honest voters, irrespective of party, should have combined in an attempt to protect themselves against the evils sure to follow the election of men whose records prove them to be unsafe and unworthy of the confidence of the people. From the standpoint even of political expediency it is worse than heresy for such men to try to hide themselves under the cloak of party regularity. If the voters know them to be unfit to be trusted, or if they have been proven to be dishonest, then the true interests of the republican party demand that these men should no longer be allowed to prostitute the name of republicanism in their attempts to retain or recover, directly or indirectly, powers which experience has shown they will use improperly.

A NEW DEAL.

Now that the result of the recent election is definitely known would it not be well for the better class of Republicans in Lincoln county to organize for good government and self protection?

That the party machinery has gone into the hands of an unscrupulous and designing lot of men who have the chronic office-seeking habit, does not admit of a doubt. The nominating convention was characterized by jobbery and the dirtiest kind of bad politics. Some of the parties dominating it were persons of unclean records, and at least one of the candidates nominated had been tried, found wanting and was summarily removed. Others were utterly incompetent and had no conception whatever of the duties of the office they were seeking.

The ticket was beaten with the exception of a single member, as it should have been, and no one can see any valid reason why there should have been any exception in that instance.

The result of the election was only a protest on the part of the decent fair minded members of the Republican party against the methods of the gang and the kind of ticket for which they were responsible. The vote for the head of the ticket shows the county to be yet reliably Republican under right conditions, so it is the duty of every fair-minded member of the party to organize for a square deal and an honest administration of public affairs hereafter.

ONLY TALKING THROUGH HIS HAT.

Mr. Bryan's claim that President Roosevelt has been only stealing his thunder is hardly borne out by the facts. To become a little reminiscent: When he first started out in political life free trade was about his only hobby. He was one of those democrats who professed to believe that the repeal of the McKinley tariff was about the only thing that could prevent the country from going to wreck and ruin. He helped to frame the Wilson-Gorman law which came as near carrying out his idea as anything it was possible to adopt at that time.

Every one knows what it cost the country to test his theory even in its mildest form. There wasn't anything Rooseveltian about that.

Then came the cross of gold and free silver campaign. When this had been repudiated by the people and the country once more began to prosper under protection and the gold standard, the Spanish war had been fought and the United States had become a world power in fact as well as name, then this astute politician, for want of something better on which to base an issue, took up the cry of anti-imperialism. His overwhelming defeat followed and subsequent events have abundantly proven that the people made no mistake when they elected Theodore Roosevelt president, whose principles and policies are almost diametrically opposed to the theories advanced by the erratic statesman from Nebraska. And now that his municipal ownership hobby bids fair to get squeaky in its joints before the campaign of 1908 it is hard for any one to predict just what his next paramount issue will be.

"Graft is not the peculiar product of the Republican or Democratic party nor is the tariff system, as so many howlers would make us believe. It flourishes even in steady-going, countries like Holland, and from London comes the report that there has been an immense grab made at The Hague in connection with the erection of the Palace of Peace, which is to be built by a contribution from Andrew Carnegie. Graft seems to be a spontaneous disease, indigenous to every country under the sun.—Tribune.

PUSHING

Right from the start.

Having purchased a large and complete line of general merchandise, I will sell them at very close margins.

NO LEADERS, But right through the stock the lowest prices will prevail.

UNDOUBTEDLY THE BEST MERCHANDISE FOR THE LEAST MONEY IN LINCOLN COUNTY

S.C. WIENER.

He will save you money.

THE EXCHANGE BANK,

WHITE OAKS, NEW MEXICO.

Transacts a General Banking Business—Issues drafts on all Principal Cities of the World—Accords to Borrowers every accommodation consistent with safety. Accounts solicited.

INTEREST PAID ON TIME DEPOSITS.

El Paso appropriately followed her election with a Y.M.C.A. boom

The White Oaks colony at Tucumcari seems to be prospering. A late item in the News states that M. H. Koch is about to put up a stone business block 30x40 feet.

According to the returns from all over the territory the democrats elected only one member of the upper house and he hails from Roswell and his name is Mullens. Imagine the racket all those other members will make when, with their tin horns and their tom toms, they make a charge on that lone and defenseless Mullen stalk.

The octopus came out of the election looking worse than an amatour after a modern football game. Its body was crushed about as flat as a tortilla and it is minus all its tentacles except the one which was labeled Duran. In fact it appears to be so badly knocked out that it may be hard to gather itself together for the next political convention.

From the returns it looks a little as if the next territorial legislature would be a repetion of the last and need watching. That there will be quite a number of new faces when the two houses meet, is now well known, but from the unanimity of the county conventions throughout the territory in endorsing Mr. Bursum, there is a strong suspicion that the men nominated by those conventions and subsequently elected, pledged to stand by that gentleman in any scheme he may have up to nullify all wholesome legislation recommended by Gov. Hagerman. The whole course of the Governor thus far has been on the side of an economical administration of the affairs of the territory, hold each official rigidly accountable for his stewardship and give the people a square deal. From past experience this is about the last contingency the Bursum crowd wants to face. Already their official mouthpiece, the Santa Fe New Mexican, is beginning to talk about economy on the part of the next legislature, but "economy without parsimony or stinginess" and every one who can read between the lines knows what that means. That paper also carries the idea that tax dodgers are the only ones who are likly to do any kicking, as if tax payers did not also become disgusted with jobbery and corrupt legislation.

CLUB MEETING.

A special meeting of the White Oaks Commercial Club is called for next Monday afternoon at 3 oclock. All members are requested to be there promptly as business of importance will be presented.

By order of the president.

Election days are over, the saddest of the year for the defeated.

Elsewhere is given the official vote of the late election by precincts which will be rather interesting reading—to democrats. Precinct one gave 5 votes, precinct eight 7 votes and precinct fourteen 9 votes, not shown in the table, for the present school superintendent who was in no way a candidate—all complimentary and duly appreciated as such.

According to the latest reports Delegate Andrew's majority in the territory had dwindled to 250. A few more endorsements of Mr. Bursum's kind of honesty and good management and those 10.000 surplus votes would have lookd like the vacuum left by the moon when it goes down.

THE REV. IRL R. HICKS 1907 ALMANAC.

The Rev. Irl R. Hicks has been compelled by the popular demand to resume the publication of his well known and popular Almanac for 1907. This splendid Almanac is now ready. For sale by newsdealers, or sent postpaid for 25 cents, by WORD AND WORKS PUBLISHING COMPANY, 2201 Locust Street, St. Louis, Mo., publishers of WORD AND WORKS, one of the best dollar monthly magazines in America. One Almanac goes with every subscription.

TO CONSUMPTIVES

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Bronchitis and all throat and lung maladies. He hopes all sufferers will try his Remedy, as it is invaluable. Those desiring the prescription, which will cost them nothing, and may prove a blessing, will please address.
