THE CAPITAN MOUNTAINEER

FIFTH YEAR NUMBER 1. CAPITAN, NEW MEXICO, APRIL 26, 1919. SUBSCRIPTION PRICE $1.50 A YEAR.

Recollections and Observations of Seven Years in Washington.

By the Editor of the Capitan Mountaineer

At the solicitation of several of my friends and readers, as well as to carry out a plan which I have had in view for several years, I will commence in the Mountaineer the publication of "Recollections and Observations of Seven Years in the National Capital," beginning in 1883. In doing this I am aware that to some readers this character of reading will have little interest, but I am led to believe that there is another class who will relish it because I will state facts now of history, and give my observations of men, measures and things as they transpired and were seen at that time. Before beginning these reminiscences it will not be out of place to preface what I shall say with a short explanation of how I came to go to Washington and what I did during my seven years so journ there.

In 1882 I was publishing a newspaper at Bentonville, Arkansas; in the election of that year the country went Democratic by a large majority, giving them control of the lower branch of Congress, which they had lost two years previous when Garfield was elected to the Presidency. In that election S. W. Peel. of Bentonville, was elected to Congress, and before starting to Washington to take his seat in the 48th Congress proposed that if I would accompany him he would secure me a position under one of the officers of the House to be elected in its organization. To a young country editor the offer was aduring and of course I accepted it. We arrived in Washington on Monday morning previous to the caucus to be held on Saturday night. The Speakership was an exciting contest. The candidates were John G. Carlisle of Kentucky, Samuel J. Randall of Pennsylvania, and S. S. Cox of New York. The greatest interest centered around Carlisle and Randall as they represented the two extreme views held by Democrats on the tariff question, and the followers of each were aggressive and determined in their fight for the principles involved. as well as for the representatives of the principles. In the causcus Carlisle won by a good majority and tariff legislation in the coming session was foreshadowed. For the other officers of the House the caucus nominated the following gentlemen: Clerk, Gen. John B. Clark of Missouri, Sergeat-at-Arms John P. Leedom of Ohio, Door Keeper, James G. Wintersmith of Texas, Postmaster, Lycurgus Dalton, of Indiana.

After the officers had been installed, the work of distributing the positions under their control was commenced. It was found that there were enough available places to give each Democratic member one for whom he might designate, and I was given a Messenger's place on the Doorkeeper's roll and assigned to the service of the Committee on Territories, and also, to duties in the House when it was in session. This gave me a good opportunity to see at close range a great deal of its members.

The next article will give my impressions of the Speaker of that House as I knew him, and perhaps a sketch of one or two prominent leaders. Each succeeding article will give sketches of leading members and senators in congress, other high officials of the government, and matters and things which transpired during that period now of some historical value.

Four Million for Roads.

More than four million dollars will be expended in New Mexico this year for road construction and maintenance. Of this sum, $750,000 will be contributed by the state for maintenance. In addition, the state will spend $1,300,000 for permanent construction to match a similar sum made available by the government. There will be four kinds projects: federal aid on main inter-county and inter-state lines; state projects of repair and culvert and bridge construction; foresty-state-county projects for roads through forest reserves, and county projects.

Mr. John Hall, who has been residing in Paradise Valley was in town Tuesday He has recently returned from a visit to his sister Mrs. Jane Ramey, who lives near Alpine Pass, Boone County, Arkansas, where he went last August. Mr. Hall says besides the association with his sister, he spent a very enjoyable time while in Arkansas. He was there in the summer and autum when the fruits and berries were ripening, and in the winter when the porkers, grown fat on the range, were being butchered; he had a good time fishing in the beautiful clear mountain streams, and killing squirrels in the forest during the nutting season. He helped can the fruits and the berries, and felt like he was in a land of plenty where all good things to eat can be found The editor of this paper can vouch for these statements as he once lived in this identical part of Arkansas,

At the urgent request of his Roswell friends, Mr. Doyle Murray, of Tinnie, left last week for Rochester, Minn., where he entered the sanitarum of Mayo Bros., distinquished sergeons. Mr. Murray will undergo an operation there for stomach trouble from which he has been suffering a long time. His many friends here and elsewhere sincerely hope that he will pull through the trying ordeal all right.

Miss Jenny Boone received a letter yesterday from her brother Reuben, who is stationed at Lay St. Remy, France. He writes that he does not have an idea when he will be discharged, and return home. He sent his sister quite a number of war photos, notably among them are two, one of which shows the collapsed airplane the Germans brought down young Quintin Roosevelt was killed, and his dead body is shown; the other is the monument placed over his grave The phostos will all serve as appropriate souvenirs of the great war.

Governor Pankey Optimistic Over State's Future.

Santa Fe, April 16 The heavy rain and snow of the past winter winter will be a tremendous money maker for New Mexico, according to Governor Pankey, who wired an optimistic report on business conditions in the state in response to a request from an eastern trade journal. Pankey says he looks for the best livestock season for 20 years in New Mexico. That he believes the general ideas as to the ravages among livestock interests by the drouth of the past two years and the severe winter has been grossly overestimated and that there will not exceed 15 per cent, that the coal industry is going to have a good year, as there will be a big construction era with plenty of labor at hand to do the work. He also says that the prospects for oil and the almost certainty that it will be found in the state will add another element of prosperity.

In last weeks issue the Mountaineer made an error in stating district court would commence at Carrizozo last Monday. The term will commence next Monday and will likely continue three or four weeks.

THE OIL FIELDS OF TEXAS

Are daily making men and women independently wealthy. Thousands of people have laid down at night too poor to own a comfortable home, and have been awakened in the morning to be informed that they have been made rich over night. Oil did it.

LIKE ALADIN'S LAMP reads the story of fabulous riches that is flowing in golden streams from the ground, It reads like a fairy tale, but its the truth. Texas is today offering the greatest opportunity of a lifetime. Never before and perhaps never again will such opportunties be offered anywhere.

You Don't Have to Live in Texas to Benefit From Her Great Oil Wells

THEMUNGER RANCH OIL COMPANY

Capital Stock $60,000.00, Shares $10 00 Each, is now offering a limited amount of stock at par $10.00 per share, and we want to tell you what this may mean to you. You may be one of those who will gaain riches through the Munger Raneh Oil Company.

30 ACRES IN PROVEN FIELD

The Munger Ranch Oil Company owns a lease of 30 acres in the Iowa Park oil field It is just 450 feet southeast of the Munger Flowing well and the Park Pool oil well; one-half mile West of the Black Diamond oil well, and one and one-half miles Northwest of the Quadruple oil well. These wells are producing from 50 to 75 barrels daily of high gravity oil that sells for $2.50 a barrel. Take your pencil and make a diagram of these wells. It will show you that the Munger Ranch Oil Company's acreage is so surrounded by production that we are practically assured of getting oil.

These wells are producing from the 700 foot sand and can be drilled in from two to three weeks. Thirty acres will easily bear 30 of these wells. Take your pencil again, figure 30 wells of 50 barrels daily capacity each, 1,500 barrels. Allow 50c a barrel for royalties and cost of pumping—1,500 barrels at $2 00 a barrel—$3,000.00 a day clear money. 30 days, $90,000.00 monthly income. Do you see now where these princely fortunes that are made from Texas oil comes from ?

WHAT IT MEANS IN DOLLARS AND CENTS

See what 10 shares. $100 worth of Munger Oil stock may do for you. $90,000.00 equals 150 per cent on the entire capitalization of the company, so it can pay on your $100 of stock a dividend of $150.00 every month and that means $1,800.00 a year. A $200.00 investment would mean $300.00 a month or $3,600.00 a year. $1,000.00 invested now in Munger Ranch stock would make you independently wealthy.

MUNGER RANCH OIL COMPANY OFFICERS

are among the leading business men of Wichita Falls, and do not want a dissatisfied stockholder in the company, so they say—

YOUR MONEY BACK IF YOU WANT TT

You can investigate this proposition in any manner you see fit, and at any time up to 15 days after drilling has been started, you can return your stock and get your money back if you want it.

NOW IS YOUR OPORTUNITY

To Become indendently wealthy. If you think of investing in oil, get your money in a company owning proven acreage and backed by responsible men. Above all things get into the game now while you can grasp the big dividend opportunity the Munger Ranch gives you.

This coupon and your check may end forever all your financial troubles.

MONEY BACK IF YOU WANT IT

Jacob Ziegler Succumbs.

Jacob Zeigler died in Hotel Dieu in El Paso Wednesday night at 8 o'clock following an operation for kidney and bladder trouble. He went to El Paso Monday, accompanied by Mrs. Albert Ziegler and underwent the operation Tuesday morning. Albert; the brother, went to El Paso on the first train after receiving news of his brother's critical condition, but death intervened before he even left Carrizozo. The funeral will take place in El Paso to day and a number long time friends of the deceased went down to be present at the last obsequies.

Jacob Ziegler was a native of Germany, but came to this country when a young man. He had lived in New Mexico for forty years or more the greater part of the time in Lincoln county. The firm of Ziegler Brothers, of which the deceased was a member, established a mercantile business at White Oaks in 1886. With the exception of a short interval at Trinidad, Colorado, the firm has been a leading one in Lincoln county. The firm has been engaged in business at Carrizozo for the past twelve years and was one of the strongest and most successful firms in this section.

The deceased was about sixty-five years old at the time of his death, and had never married. He was of a kind and pleasant disposition, and was an especial favorite with children, to whom he was always kind, generous and considerate and probably the little ones will miss him more than they would any man in town.

Deceased leaves a brother and the brother's family here, and numerous relatives in Germany, among whom is a brother. In his death the community has lost one of its best citizens, the town one of its most substantial business men and the people a generous friend. The News extends sincere sympathy to the family in their bereavement.—Carrizozo News.

The editor of the Mountaineer had very little personal acquaintance with Jacob Zeigler. His business relations with the firm have been with Jacob's brother, Albert Zeigler, general manager of the business, but he has known of Jacob by reputation ever since he came to the country. He was an old time resident of the county, and had established a reputation for good business ability, square dealing and good citizenship in every respect. When such a man dies, it is the community's or the country's loss, and his place is hard to fill. His brother here and other relatives have our sympathy in their bereavement.

To the Public.

I wish to state to my old customers as well as to the public in in general that I will take charge of the Capitan Hotel again on or about May 1st, and will be glad to have them when in town and that I will greatly appreciate their trade.

MRS. ANNIE JULIAN.

W. H. Rose, the San Patricio merchant, was here Tuesday after a shipment of goods He reported every thing looking well on the Ruidoso especially a fine prospect for a fruit crop of all kinds

The County Commissioners will meet as an equalization board the first Monday in June, when it is said a close scrutiny of the tax schedules and values will be made.

John L. Keel, of Roswell, known by all his acquaintances as Lonie Keel and Joseph A Waller were in Capitan Wednesday on land business

Our farmers are more than a month earlier in getting in their corn crops this spring than they have been for the past few years, and there will be a much larger acreage planted this season than usual

All reports from the fruit growing districts in the county indicate that there has never been a better prospect for a fine crop of fruit than there is this year

Billy Sevier, our worthy County Commissioner is building a summer home on the southside of the Capitan Mountain His house is being made of adobes and will contain 4 rooms and will make a delightful place to live. He will still retain a residence in Lincoln.
