Advice to Voters.

The voters of the Central District of Lincoln county do not absolutely control elections in the county, as some are disposed to imagine. The central district is a very powerful factor, but can accomplish nothing alone.

Last year when J. B. Mathews, the editor of this paper and others tried to have a new court house built at this place, we found that the natural opposition united with White Oaks and Upper Penasco in combination, easily defeated the scheme.

In the present campaign different issues are presented. Now White Oaks, Lincoln and Upper Penasco are together in accord. Past differences have nothing to do with the present. Success in the county is certain if we are true to ourselves and friends. And some of our best informed citizens believe that the Republican ticket will carry the district composed of Lincoln, Chaves and Eddy counties.

In a street corner discussion at Las Cruces, last week, Martin Lohman earnestly exclaimed: "I never saw a decent democrat." And yet Mr. Lohman is the "People's Party" candidate for the office of sheriff and Tom Bull is supporting him.—NM. Pot Pourri.

The above, from the "Pot Pourri," is worthy of notice. Mr. Lohman, though a young man, is looked upon by all enterprising citizens of the Mesilla Valley as a "Mossback," and is always in arms against any enterprise that may be brought up by the enterprising citizens of the Valley. Mr. Lohman is doing a large mercantile business in Las Cruces and is much credited in mercantile circles. Still, he permits his prejudices to work against his section of country, and the People's Party are not envied in accepting his company and co-operation. The people of Lincoln county have organized a fourth party, with W. O. Norman as President, and in case all concerned are true to the move they certainly will carry the election.

The Denver Short Line.

The new short line is going to be built. Such is the declaration of its promoters. For some time past the principal men of the road have been quietly working with a view to gathering statistics of the line, collecting facts and information as to the best form of organization; and gaining entry into the channels through which the securities of the road are to be floated. The promoters of this very important enterprise have not been doing much talking for a few months, but they have been "sawing wood" and lots of it, too. They now propose to do some talking, and they desire all who want this road built to do the same.

On Saturday evening, the secretary of the road, Mr. Norman C. Raff, arrived from the east. He at once opened his office for the business of the road, and is now engaged in the work of presenting the plans, objects and resources of the road, in a systematic way, to all the people along the proposed route.—Las Vegas Optic.

Railroad Convention.

A convention to be composed of representatives of those sections of Colorado and New Mexico interested in the building of a railroad from Cortez, Colorado, via. Albuquerque, to the town of Eddy, N. M., is hereby called to meet in the city of Albuquerque, N. M., on Tuesday, September 13th, 1892.

The date fixed is during the week of the New Mexico Territorial Fair at Albuquerque, to which all the Railroads in New Mexico have given the unusually low fare of one cent per mile. The object is one in which the people of all that section through which the proposed line is to run are very largely interested, and it is very earnestly requested by the Committee of Arrangements that each town, county, commercial organization and newspaper entitled to be represented in the convention will have its full quota of delegates present, in person or by proxy. The basis of representation has been so fixed as to entitle each town, county or commercial organization within the district of country interested, to five delegates, and each newspaper to one delegate; and it is earnestly requested that commissioners of counties, mayors of towns and cities and president of boards of trade and other commercial bodies, will promptly attend to the matter of appointing delegates, and that they impress upon such delegates the importance of attending, in person or by proxy.

From Associated Press Dispatches.

Cholera Spreading.

London, Aug. 27.—There is now no doubt that cholera has at last entered England. The disease was brought here by the steamer, "Gemma," which arrived at Gravesend, yesterday, from Hamburg. Two persons who were allowed to land have died. This fact has caused considerable anxiety, but there is no panicky feeling. The local government board and the health authorities of the various English ports will see to it that a more strict inspection is made of vessels and passengers from infected ports.

New York.—The health officials of New York fully expect a visit of cholera, but it will be stopped at quarantine island, if great care and vigilance can effect this purpose. Every precaution imaginable is being taken. Orders have been issued for the thorough investigation of tenements and other parts of the city and instructions given for cleaning and fumigating wherever dirt exists. Gutters, outhouses, etc., will be renovated and the city will present a cleaner appearance than it has for many a year. Strict quarantine is being kept up on all suspected vessels and preparations are complete at the cholera hospital for the reception of patients in case any arrive.

U. S. DEPARTMENT OF AGRICULTURE, Weather Bureau,

Fort Stanton, New Mexico, August 25th, 1892.

The Chief of the Weather Bureau directs the publication of the following data, compiled from the record of observations for the month of September, taken at this station during a period of seven years.

It is believed that the facts thus set forth will prove of interest to the public, as well as the special student, showing as they do the average and extreme conditions of the more important meteorological elements and the range within which such variations may be expected to keep during any corresponding month.

TEMPERATURE.

Mean or normal temperature 61°

The warmest September was that of 1891, with an average of 63°.

The coldest September was that of 1889, with an average of 59°.

The highest temperature during any September was 86° on 10th, 1889 and 1891.

The lowest temperature during any September was 31° on 20th, 1889.

Average date on which first "killing" frost occurred (in Autumn) October 9th.

PRECIPITATION.

(Rain and melted snow.)

Average to the month, 2.38 in.

Average number of days with 01. of an inch or more, 8.

The greatest monthly precipitation was 4.29 inches in 1889.

The least monthly precipitation was 1.16 inches in 1893.

The greatest amount of precipitation recorded in any 24 consecutive hours was 2.01 inches on September 10th and 11th, 1889.

CLOUDS AND WEATHER

Average number of cloudless days, 12.

Average number of partly cloudy days, 12.

Average number of cloudy days, 6.

WIND.

The prevailing winds have been from the Southeast.

The highest velocity of the wind during any September was 30 miles on the 1st, 1888 and 26th, 1891.

Indian Report.

The second report on the Indians of the southwest has been received at the Indian bureau from Dr. Dorchester, superintendent of the Indian schools. The report deals with the Indians of Arizona and gives prominence to the Apaches and Navajos.

The whole Indian population of the Territory is given at 85,707 and the number of children available for schools at 4,290. This is an increase in population since 1890 of 386 children. About 1,200 attend school, either in Arizona or elsewhere. In 1880 only 83 children of Arizona made a pretense of attending school.

School accommodations have been increasing each year and for 1893 accommodation will be furnished for 1070 children in the Territory. The superintendent is not favorable to removing Indian children to northern schools.—Alb. Citizen.

Fortunes are being made by many a New Mexican these times out of sheep or alfalfa or both, (though it won't do to mix them too closely.) Not a few citizens are clearing up $10,000 from their alfalfa fields, and there are scores of men in the Territory whose annual wool clip brings them in from $5,000 to $30,000 yearly. Young man, go thou and do likewise. Quit panting after the gay life of the city, but pull your freight to some well watered valley or sunny mountain side, and prosperity, good health and real happiness will not be long in finding you.—Chicago Times.

The disclosures made by the Times in regard to the inhuman treatment of pupils at the government Indian school at this place have aroused the sympathies of hundreds of citizens of this city, and they universally applaud our course in exposing the canting hypocrite who presides over that institution, and outrages every conception of humanity and decency. It is gratifying to know that we have the encouragement and moral support of the people in the matter, as is evidenced by the many expressions of approval which have come to us during the last two weeks.—Albuquerque Times.

The United States Court of Private Land Claims convened at Santa Fe on Monday last. The time for filing claims for settlement of grants expires on March 3d next, after which all grants not confirmed, or which are not in that court, will revert to the general government and become part of the public domain. Settlers on lands, who have had possession adversely to the United States, either by themselves or their grantors, should file a claim for the land with the surveyor general of New Mexico, at Santa Fe.—Headlight.

My Orchard Fence.

An unsightly board structure, that for many years was a terrible eyesore has finally undergone a decided change, at least for a part of the year, and no fence, ugly or otherwise, causes one such discomfort in winter time, when Jack Frost has it under his care, as it does when one is out of doors, and in closer proximity.

First, I had a border, a trifle over two feet wide, spaded along the whole length of the fence. Into this I transplanted all kinds of rank growing perennials, such as sweet rocket, phlox, valerian, old-fashioned feather flowers, both white and pink, and every sort of tall, luxuriant perennials, that would come up year after year, and take care of themselves. In the spring I set out dahlia tubers—all that I do not know what else to do with—giant marigolds, sunflowers and any other coarse, showy annuals that are a nuisance among the finer flowers, but show to good advantage in suitable localities. Then, I must not forget the hollyhocks. They also take care of themselves year after year, although they do not bloom the first year from the seed. Marshmallows make a grand show late in the summer. As a background I have planted hardy climbers, alternating different kinds over each length of fence—bittersweet, wild clematis, Virginia creeper, and tea vine. They make a charming background for the flowers, and the whole forms one of the attractive features of the farm.—American Agriculturist.

A young man, Mexican, arrived in Prescott Saturday to consult with physicians, he having been bitten on the arm by a skunk while asleep at a ranch twenty miles north of Ash Fork. He was advised to go to Chicago and take the Pasteur treatment, which he will do. As men being bitten by these animals is not an unusual occurrence of late years, and several deaths from rabies brought on by their bites have occurred in various parts of the territory, people who sleep out should be on the lookout for them and persons living in isolated cabins should guard against their entrance. Some time in '82, a skunk entered the cabin of Sam Rowley, in Williamson valley, near Prescott. Sam kicked the intruder out, but as he did the animal bit through the toe of Sam's boot, sticking its deadly teeth into his foot. Sam was a powerful man, he was taken with the rabies and it took four men to hold him. He died at the Pioneer Hotel within four days of the time he was taken sick.—Prescott Arizona Courier.

As E. W. Leighton was drivi through Wind canon Monday last, he was overtaken by a flood of water which rolled down the canon in a breast six feet high. Leighton managed to cut the horses loose from the buckboard, which was carried away by the torrent. In the excitement incident to the occasion one of the horses shed his harness, which was recovered later on and put aside. Next day Leighton returned to the scene of the wreck only to discover that his harness had been stolen. The buckboard was recovered and is now undergoing repairs.—Silver City Sentinel.

To the Voters of Lincoln County

In connection with other qualifications required by law, to cast a legal vote at the coming November election for county and territorial officers, the person offering to vote must have paid his poll tax on or before September 8th, 1892, as shown by the following provision:

Sec. 4, Chapter 77, Acts of 1891.

Sec. 4. That it shall be illegal for any person to vote or attempt to vote at any election who has not paid his poll tax for the current year, and said payment must be made in case of a general election, at least sixty days previous to such election day.

Mrs. Laura Richards, one of Mrs. Julia Ward Howe's daughters, in some recently published reminiscences of her childhood, tells the following of her brother Harry: When about four years old, he had the habit of summoning his father to breakfast, and, not being able to say the word, would announce, "Breccott is ready!" This excited the mirth among the other children, which he never could stand; accordingl, one morning he appeared at the door of the dressing-room and said solemdly, Papa, your food is prepared!

All About Shorthand.

This is the title of a 32 page pamphlet of information, containing answers to all the questions an inquirer would be likely to ask about books, instruction, salaries of stenographers, how to secure positions, etc., etc. It will show what young men have done at home on farms and in workshops; how from the humblest beginnings the highest success has been reached by learning this art at piece-meal study, and while pursuing other occupations. The success of stenographers as compared with the success of young men in any other vocation in life, will be seen to be marvelous and encouraging. The author of this system was himself a farmer's boy and learned the art while following the plow. The information he gives in this pamphlet will be of interest and value to every young man (or young woman either) who must earn their living. The pamphlet is mailed for a one cent postage stamp to anyone writing for it and mentioning the paper in which this article appears.

THE LOCAL BUDGET

Mr. Geo. Sena returned from Las Vegas, Tuesday.

J. B. Mathews and family are the guests of Mrs. J. J. Dolan.

Mr. Thornton's youngest child is quite sick with scarlet fever.

Col. Jewett has been in the mountains around Nogal, this week.

Deputy Sheriff Laugaton was in town Monday and Tuesday.

Judge Cronin and Miss Lillie Roberts returned yesterday from the Indian Agency. The Judge and Col. Hudson are friends of long standing.

W. S. Ryan had his foot badly cut, a few days ago, by stepping on a broken bottle. The glass cut though shoe and over-shoe, and Mr. Ryan is so badly lamed that he is confined to his rooms.

Sidney Grumbles and Robert Parker came over from White Oaks on the Sunday stage, on their way to the Goss Military Institute at Roswell. We had a very pleasant call from the boys, who are laying out a year's hard work for themselves.

Wild dogs are becoming a serious nuisance in this county. A pack of dogs and gray wolves are prowling around the Park south of White Oaks, and several calves have been killed by them. A number of wild dogs have been seen in the Capitan mountains and the White mountains are said to be full of them.

Sunday afternoon, two wagons loaded with boys and girls bound for the Goss Military Institute, passed through town and went into camp near the orchard of Mr. Ellis. The party consisted of Charles Brown and two daughters of Mr. P. G. Peters, of Nogal; Miss May Goudin and brothers and Miss Daisy Nabours, matronized (pro tem.) by Mrs. B. F. Brown and Mrs. Noah Ellis.

Mr. Ogle, agent for Pierce and Brown, Chicago, was in town yesterday. He is traveling through the Territory selling school furniture and apparatus. He has met with good success in introducing reading, geographical, astronomical and anatomical charts, into the schools of the larger towns and in many of the country districts.

Pay Your Poll Tax Now.

The poll tax books will be closed next Wednesday and no person will be allowed to vote at the next general election for delegate to Congress, members of the legislature nor for county officers, who does not hold a receipt for his poll tax, dated not later than Wednesday, Sept. 7th. Only five days remain in which to attend to this matter.

EDITOR REPUBLICAN: In response to an enquiry in your issue of August 20, 1892, we beg leave to say that it is true six hundred dollars was paid in this Precinct (No. 1), under the high license law, for the benefit of the school fund of said Precinct; the law in this respect has been carried this way, to wit: All money paid in from such sources is apportioned to all the school districts in the precinct wherein said license is paid.

Now, we have four school districts in this Precinct (No. 1).

On July 6, 1892, the apportionment was made by the Superintendent of Public Schools, and our prorata, including the money turned in by the sheriff from taxes for the school fund, was something over $300.

In the month of March the board of school directors had this district surveyed for the purpose of bonding the same, to build a new schoolhouse in said district. The expense of said survey and other expenses attached to to the same, amounted to $198, leaving a balance to our credit of $102.

Now, that amount, $102, is in the treasurer's office of this county, but such amount is not sufficient to carry on the school for any reasonable length of time.

Another fact we will state in connection with the above, that in the month of February when we were appointed school directors for said district, there was not one dollar to the credit of the same, all funds having been used during the year 1891. Very respectfully,

GEORGE SENA,
M. W. NEEDHAM,
FRANCISCO GOMEZ,
School Directors Dist. No. 1.

ATTENTION !!! G. A. R.

The Santa Fe Route, with its usual promptness, has not only arranged for reduced rates of less than one fare for the round trip to the National Encampment at Washington in September, but has also secured *Free Sleeping Accommodations* for all old soldiers after arrival in Washington.

Now and commodious barracks have been erected in the Washington Monument Park, in which we will reserve quarters for all old soldiers and G. A. R. if application is made in advance.

Arrangements have also been made to serve meals in temporary dining-rooms in the vicinity of the barracks at very moderate prices.

Special trains containing *Pullman* and *Tourist Sleepers, Chair Cars* and coaches will be arranged from Kansas, Colorado, New Mexico and Oklahoma, on which we will reserve accommodations if advised of your wishes.

Stop-overs will be allowed east of our lines.

As the Santa Fe is the only line in the West offering these inducements, it would be advisable to make early application to the undersigned or to Geo. T. Nicholson, G. P. & T. A., Topeka, for such accommodations as you may desire.

Further particulars, such as dates of sale, limits, etc., can be obtained by applying to

THE G. M. I. ROSWELL, N. M.

Has done more for Roswell, and the development of New Mexico than anyother enterprise of its kind in the Territory and should be patronized.

A Chinese woman appealed to Judge Caldwell today to put her in the jail and keep the highbinders from killing her. She seemed very much frightened, and said a Chinaman belonging to the highbinders had attempted her life. The officers wished to arrest her assailant, but she decidedly refused to give his name, saying she would be killed if she did. The woman was locked up on charge of vagrancy and her case will come up this morning. A representative of the Times procured an interpreter and visited her at the calaboose, with the hope of getting an interview, but the lady positively refused to talk, not even condescending to give her name. A Chinaman was murdered in this county two years ago for which the highbinders received credit. They are said to be an organization formed by six wealthy Chinamen who bring Chinese to this country that are too poor to pay passage. These companies bear the expense of a Chinaman's passage to America and expect to receive their pay from the man in installments with interest after he procures work. After the immigrant has payed all the money advanced on him, he is sworn into this organization though fear and swears to execute all orders he may receive from them.—El Paso Times.

"What trials you must have!" said the lady, contemplating a famished tramp devouring the generous repast she had placed before him.

"Yes'm, and the worst of it is I allus get caught," answered the tramp between bites.
