The Nogal Republican.

Vol. 1. No, 2. Nogal, Lincoln County, New Mexico. Thursday, April 24, 1902. $1.50 A Year, in Advance.

Stockholders and Officers of the Eagle Mining and Improvement company Are Highly Pleased with their Property and its Management.

R. C. Sturgeon, O. T. Olson, directors; Holden L. Risetter, Peter DeTamble, David I. Gelder, Chas, Houldsworth, stockholders of the Eagle Mining and Improvement company, accompanied by Capt. J.H. Lloyd, mining expert; the party of Chicago capitalists mentioned by us last week, have been the guests of John M. Rice and M. D. Gaylord the past week and have been buisy climbing the hills looking over their mining property in this locality.

The property of the Eagle Mining and Improvement company includes what is locally known as the Parsons groups of mines, the Rialto groupe and more than one hundred other good mining claims at the head of Nogal canon, on Tanbark Creek, Big Bear creek and the two Bonito's, some of them being located as far over as Eagle Creek, all being in the very heart of the richest mining district in New Mexico. In conversation with the stockholders above mentioned after they had carefully examined the property, they publicly stated that they were highly pleased and that the property was better than it had been represented to them in Chicago.

From what we can learn of the future intentions of the the company, here is the nucleus of what is to be the largest mining enterprises ever undertaken in the southwest. The company is capitalized at ten million of dollars and there are plenty of very wealthy men behind it who are ready and willing to put up the necessary capital to place the latest and best improved machinery at the disposal of the management. And all who are acquainted here know that they have the best mining proposition to be found in all New Mexico.

John M. Rice, who has so faithfully and honostly worked to organize this company is known to our people to be a man who is above reproach, for in all his dealings, covering a period of about four years, with hundreds of men wherein thousands of dollars were in the transactions, not one word of complaint, or a single question of his honesty or truthfulness has come to our notice, We congratulate the company upon the selection of Mr. Rice; for he is the proper man to handle their funds and place the property on a paying basis. And, too, we congratulate the people of Lincoln county for having such an energetic citizen, for to him more than anyone else is due the credit of bringing our rich deposits of gold ores to the notice of capitalists.

We welcome all such enterprises to our country and can assure the hearty co operation of the public.

M. D. Gaylord, of the American Gold Mining company, of Nogal New Mexico, was in the city Monday buying mining supplies for his company. Mr. Gaylord stated to the Record that they had pumped all the water from the American, but were keeping the pumps running day and night to keep it out, the flow being 80 gallons per minute. They are working two ten hour shifts at present, but will soon put on three. They have struck some very rich ore, some of it running $75 to the pound.—International Industrial Record.

The Nogal band wagon has gone to the front of the procession and you cant stop it if you so desire. In the language of Old Joshua; "We do move.

To come to Nogal by railroad come to Carrizozo then change cars for Walnut. A stage meets the train that arrives from Carrizozo at 7:45 in the morning.

Work is going on on the Vera Cruz, American, Ibex, Rockford, Cashier, Clipper and other mines that have been idle for a long time. A 500 foot shaft is being sunk on the Cashier; a 1,500 foo tunnel is being run on the Rockford to tap a rich lead; a 400 foot tunnel is just being completed on the Hellen Rae and besides the 500 feet being sunk on the American there are several drifts being worked.

The Free Gold Mining company have several men at work putting in machinery at their placer claims north of town. They will try the Johnson Jig concentrator, such as are used in the lead and zinc mines at Joplin, Mo., with slight improvements for settling the gold, Mr. Johnson, the patentee of the jig, assures us that his process for gathering placer gold (which is a new one here) will be a success, and if it is, will revolutionize the old process. The metod is a cheap one.

Don't Ask too Much.

What will a prospector with a prospect do without any money to proceed with the work of development! What will an inventor do with a valuable idea, but with no means to patent or place the manufactured article on the market! Both are at sea, and will never be able to reach a competence until capital is secured with which to proceed with the work. All the prospector can do is to hold his claim. But should he wish to get reasonably quick returns it is necessary then for him to search for other men with money, who are willing to make an investigation, and later if all is well to bond the property with or without a clause obligating the latter to make certain developments.

But can the finder reach a willing investor! Generally he can, if his representations are resonable but pointed, and he [illegible] a too high valu[illegible] upon the prospect. Right here, howe[illegible] generally the rub. He asks too much. If prospectors will be reasonable there is generally not much difficulty in getting by some source sufficient means to make sure that their properties are valuable.—Metal Miner.

That "if" is a seemingly insurmountable obstacle. The Record could have sold a prospet recently in a district near El Paso for $125,000; but the owners, not knowing much of the real value of the property, refused it, holding out for a half million dollars. Think of it! A half million for a property in which cannot be shown half the value. It is not a mine It is down only about a hundred feet and is mostly guess work beyond that; yet the owners turned up their noses at $125,000 offered for it. Such conduct represents a veritable dog in the manger policy. The owners will not work it not sell it to others to work. This is an actual detriment to the district. Still there are many others all over the Southwest who are carrying out this identical policy. It is a curse to the mining industry.—El Paso Industrial Record.

More Machinery for the American Mine.

M. D. Gaylord, superintendent of the American Gold Mining Company returned from El Paso Tuesday morning where he purchased a lot of new machinery for the American mine. The machinery will be put in at once.

The new addition consists of two forty-horse power boilers, and fifteen new stamps. This will make in all four boilers of forty horse power each and thirty stamps, with what is already in place. To this will soon be added tweny stamps more. A cyanide plant will also be put in at once to treat the tailings from the stamps. An electric dynamo will be put in place for the purpose of lighting up the mine and furnishing power and light for development work on other properties of the company.

The American is now working on good ore, some of which is very rich and with the addition of new machinery and with good management we can see no reason why it will not soon be paying handsome dividends.

The company acted wisely in selecting Mr. Gaylord to superintend the working of the mine for with his practical knowledge of mining, and his personal knowledge of the American property, specially fits him for this place. With a lot of energetic business men back of the enterprise and under the skillful management of such men there is no such thing as a failure with a rich property like this. The ore is in abundance in the American alone, to say nothing of the no lesser bonanzies, such as the Cashier, Clipper, Rockford, Ibex and other property of the company.

They are well Pleased.

E. F. Morton, Mayor, of Burlington Kansas accompanied by David Sanders of the same place, are in this section looking at mining property. Mr. Morton is president and Mr. Sanders is secretary and treasurer of the Sun flower Copper Company, of which W. M. Fnrguson of this place is manager, the other member of the company being A. L. Hitchens of Burlington.

The company own four first class copper claims in the Oscura mountains and will begin work on them at once. Mr. Sanders will remain here and assist Mr. Furguson for awhile.

Mr. Morton is a large wholesale cigar manufacturer of Burlington, having about thirty men in his employ.

R. C. Sturgen, one of the directors of the American Gold Mining Company left for El Paso last night on a business trip and will return Friday. Messrs Sturgen and Olson, the two directors of the company here from Chicago, are buisy assisting in getting things in readiness at the mine and both take to the mining business like "a duck takes to water," but Sturgen outshines Olson in one respect, in that he has, by the aid of our bright New Mexico sunshine, cultivated a bright red cherry nose.

Mayor Morton and David Sanders will go to Eata City, New Mexico tomorrow to look after their copper mines.—The Jeffersonian, Burlington Kan.

Mining location blanks for sale at REPUBLICAN office at fifty cents a dozen or five cents each.

Do what you think is right and dont worry too much about what the other fellow is going to do.

"In union there is strength." Everybody put a shoulder to the wheel and help to push the camp along. There is no room here for mossbacks and croakers.

The Eagle mining company will control about all the Bonito country from Parsons to below Bonito City, a distance of about seven miles.

Chas. Houldsworth, one of the Chicago capitalists, who has been visiting the American and Eagle mining company properties, left for Chicago last night highly pleased with his investment.

Burley drills will be put to work next Monday sinking the shaft on the American mine. This shaft will be put down to a depth of 500 feet before any levels are run from it.

M. M. Duke's company will soon begin work on the 19th Century. This mine assays from $80:00 to $1,264 per ton in gold.

The American stamp mills are now grinding out gold at a rapid rate.

Col. G. W. Pritchard, as attorney for Lincoln county, has brought suit against S. C. Weiner E. C. Pfingsten and Scipio Salazar county commissioners, for the sum of $336,00 claimed to have been illegally paid to R. E. Lund as commission on taxes collected by Lund.

A mossback, my son, looks something like a man. He has moss on his back where birds could build nests and lizzards hide with impunity. A croaker is the fellow who sets on sidewalks whittling goods boxes, cuts loco and is constantly showing what a cussed fool he is by damning everything that is good. If you would prosper, my boy, never be a mossback or a croaker.

Most croakers are unworthy of notice, but there is a fellow stopping in this camp that has the permission of all good people to get out. He pretends to represent capital but all the capital he has is a pocket knife and an unlimited amount of gab. His whole song is to run down the camp. If this camp is not good enough for such fellows there are no strings to them that will compel them to stay. Shame on such back-cappers: now either shut up or get out.

What Lincoln county girls say to the young man when he "pops the question" of marriage. The Capitan girl says "yes, I reckon so;" the Lincoln girl says, "you bet your also;" the White Oaks girl says, "the Lord be praised, the Nogal girl says, "O, give me a rest;" the Angus girl says "gee wiz! yes;" and the Bonito girl says; now wouldn't that sink your cork;" and the Hondo girl seals the proposition with a "flipityflop kiss."

Colonel John S. Bishop, of the United States Army, retired, is a guest of the Brown hotel this week Col., Bishop is on his way to Philadelphia from the Philippine Islands and is stopping in Nogal to look after his mining interests, being the owner of the Nogal Queen mine in Nogal canon. In 1888, Col., Bishop was quartered at Ft. Stanton when that was an important army post. He has made eight trips across the Pacific Ocean, going to and from the Philippine Islands. This is his first visit to Nogal in thirteen years.

The sale of Limburger cheese has been forbidden in Louisville, Ky. Hoch, Louisville!

Philadelphia expects to have a subway under construction within a year. Philadelphia is not so slow!

An Omaha man has invented a whisky tablet. Take two in a glass of water, and the earth is yours.

The new society recreation called progressive peanuts is not the first ball game introduced into society.

Colorado's legislature has adjourned, in order that the rural members may put in more time boring for oil.

If Joseph Chamberlain is not a blank liar what kind of a distinguished statesman is he? England pauses for a reply.

If John L. Sullivan has really quit drinking for good, it means an awful loss to the breweries and distilleries of the country.

The principal motive in writing a novel nowadays seems to be that the author may get the benefit of the dramatization.

Young Mr. Havemeyer, who sent his coachman to represent him in court, discovered that the law is no respecter of millionaires.

To a photographer belongs the distinction of being the only man in America who succeeded in making the prince look unpleasant.

The story of the tramp who stole a bar of soap is preposterously conflicting. Either he was not a tramp or he did not steal a bar of soap.

A Baltimore man was suddenly struck dumb while swearing at his wife. It is not stated whether she used the rollingpin or a flatiron.

The growth of the concentration idea has induced the invention of the whisky tabloid. Eventually the invitation will be to take a chew instead of a drink.

Colombia evidently wants to impress the world with the idea that its revolution is to be taken seriously, for it has issued orders that all news must be censored.

A big piano factory in New York has just burned down. Of course, when the company gets keyed up to the right pitch they will have a new factory on the string.

It is said that there are more than 2,000,000 brands of cigars on the market. The campaign cigar, however, always smells the same, no matter what name it goes by.

The Bacon enthusiasts will sniff, of course, when they hear that a quarterly magazine devoted to Shakespeare and Stratfor-on-Avon is about to appear in London.

A bigamist in Lima, Ohio, has asked the police to arrest him because he wants to be punished. A jury might decide that the poor fellow has suffered enough already.

Congressman Moody's declaration that he hardly knows the bow from the stern of a war vessel is frank, at all events. And he hasn't begun hitching up his trousers yet.

A gentleman of the name of Moss has been seated in the national house of representatives from a contested district in Kentucky. Congress proudly points to the act that it gathered him.

In a city in Russian Poland students set fire to the schools and attempted to lynch the teachers. The Chicago small boy who has supposed that he held the record will have to give up the competition.

Two men have declined the assistant postmaster generalship with its salary of $4,000 a year. It isn't likely, however, that the office will have to be left vacant permanently because of a lack of applicants for the job.

After the Brooklyn women got through hugging and kissing Fiddler Kubelik he was so limp that he couldn't walk alone. It is beginning to look as if the poor boy may in future be able to fiddle only under police protection.

An Illinois teacher inflicted corporal punishment on a pretty girl pupil, and then they were married. The sudden development of love on the part of the teacher is understandable, but how about the girl? Are we to understand that that is the proper way to woo?

A Baltimore lady donned an $18 new hat for a promenade and wondered why the first admiring glances on the street were changed to stares. Eventually she found that the hat had dropped off, and a search for it proved vain.

The latest literary quip is an argument that the poems of Robert Burns were really written by Adam Smith, author of "The Wealth of Nations." It is as plausible as most of the books on the Baconian origin of Shakespeare's plays.

FIVE MEN SLAIN

WERE MEMBERS OF SHERIFF'S POSSE PURSUING OUTLAWS.

IT WAS A PITCHED BATTLE IN VIRGINIA

Officers Were After Escaped Tennessee Murderer--Caught Him, but the Other Members of His Gang Got Away -- Besides Men Who Were Killed, Two Others Were Wounded.

KNOXVILLE, TENN. — (Special.) Meager details of a bloody battle between a sheriff's posse and outlaws in Scott county, Va., have reached Knoxville through a long distance telephone message from Jonesboro, Tenn.

Five men, all members of the sheriff's posse, were killed, two other possemen were wounded and Jim Wright, an escaped Hancock county, Tenn., murderer, was shot and captured.

Wright was under a life sentence for murder, and escaped from the state prison at Brushy Mountain two years ago. He returned to his haunts in Hancock county and defied the officers although there was a reward of $500 for his arrest. Not long after his return home, Sheriff Lager, of Hancock county, was shot from ambush and killed. The crime was charged to Jim Wright, John Templeton and the latter's brothers. Its alleged motive was that Lager had killed the father of the Templetons.

Recently officers have been planning to trap Wright in his home, and he, together with John Templeton and other members of his gang, crossed the state line into Virginia. They have been in Scott county about a month. The sheriff organized a strong posse and attempted to arrest them. The outlaws had been notified and a pitched battle resulted. In addition to the five of the sheriff's posse who were killed, eDputy Sheriff's Joe Most and Sam Wax are wounded. Although Wright was wounded and captured, all the other members of his gang escaptd. They are being pursued, but the mountains of the country afford them all possible chance of escape.

RUMORS OF PEACE.

It is Reported in London That the Boers Have Accepted British Terms.

LONDON.—(Special.) The Financier and Bullionist publishes a dispatch from Pretoria declaring that the Boer leaders have accepted the British terms, that peace has been arranged and that the terms of peace have been cabled to the Boer agents in Europe.

Other unconfirmed statements of a similar character are in circulation in London. It is said that Frederic Rutherford Harris, former secretary of the British Chartered South Africa Company, has received a telegram to the same effect, but nothing of any official or really reliable nature concerning the matter is known.

The war secretary, Mr. Brodrick, in the house of commons, referring to the press advices from South Africa, said Schalk-Burger, Reitz, Lucas Meyer and Jacobs had been joined at Klerksdorp by General Botha, and added that Steyn, DeWet, Delarey and three other members of the late Orange government, have arrived at the same place. No communication, Mr. Brodrick further said, had been received from the Boer leaders, except regarding safe conducts for the participators in the conference.

The colonial secretary, Mr. Chamberlain, added the information that no limit had been fixed for the expiration of the safe conducts. These would be extended so long as the negotiations were in progress, after which the delegates would be allowed to return to their respective districts without hindrance.

At the Auditorium.

"The Last Days of Pompeii," dramatized under the name of "When Titus Ruled," has been put on at the Auditorium, Kansas City, this week, and is said to be one of the finest and most impressive plays yet taken from a historical novel. The stage version was made by Lester Lonergan, who is again the leading man of the Woodward company, and appears in the part of Arbaces, the Egyptian magician, in his own play. There are ten scenes and each has special setting. The costumes and properties are very handsome. The great sensational feature is, of course, the eruption of Mount Vesuvius, the shower of burning ashes, and the earthquake that follows.

Wages of 75,000 Persons Increased.

BOSTON.—(Special.) A general advance of about 10 per cent in wages of the cotton mill operatives has gone into effect in practically very mill town in the southern half of New England except Fall River, where the increase was given last month. More than 75,000 hands are benefited by the raise.

Smallpox in Federal Jail.

SOUTH McALESTER, I. T.—(Special.) A well developed case of smallpox has been discovered in the United States jail here. Lee Fehworth, under sentence of three years imprisonment at Atlanta, is the victim. The jail has no cells and the 110 prisoners were all exposed. Most of these prisoners were tried here at the April term of court, beginning the 21st. A bar meeting has been called to determine what shall be done about the dockets.

FERGUSON CHARGES DROPPED.

Nothing in Allegation That Governor of Okla. Violated Civil Service Law.

WASHINGTON.—(Special.) The civil-service commission has dropped the charges filed with it several months ago alleging that Governor T. B. Ferguson, of Oklahoma, and J. R. Renshaw, formerly clerk of the United States district court of Oklahoma, had violated the civil service law by sending out circulars of assessments for campaign funds. The complaint alleges that, at the time these circulars were issued, bearing Ferguson's name as chairman of the Republican territorial central committee and Renshaw's as secretary of the committee, the former was postmaster at Watonga and the latter the clerk of the court. During the investigation Governor Ferguson and others testified the circulars were sent out without the knowledge of either of the two men and their names were ommitted in subsequent circulars on their request that the old ones be destroyed immediately.

PATRICK IN DEATH HOUSE.

Sentenced to the Electric Chair and Taken at Once to Sing Sing.

NEW YORK.—(Special.) Albert T. Patrick, who was convicted on March 26 of the murder of William Marsh Rice, has been sentenced by Recorder Goff to be put to death in the electric chair at Sing Sing prison on May 5. Rice died in this city on September 23, 1900. An appeal to be made to the court of appeals by Patrick's counsel will act as a stay of execution pending a decision by the higher court. The recorder, in pronouncing sentence, made no comment on the jury's verdict.

Before entering the carriage which was to take him to the prison, Patrick kissed his wife and said goodby. At the prison his beard was shaved off and he was placed in a cell in the death house. He will not be required to wear the prison uniform while he remains at Sing Sing.

MAIL BOXES AT COST.

The Government to Furnish Them to Rural Delivery Patrons.

WASHINGTON, D. C.—(Special.) Mr. Mason, chairman of the committee on postoffices and post roads, called up the postoffice appropriation bill the other day and its consideration was begun. Mr. Tillman, of South Carolina, offered an amendment directing the postmaster general to buy metal boxes of uniform size for the use of the patrons of the rural free delivery service, at a cost not exceeding 50 cents each and to furnish them to the patrons of the service at cost.

The amendment was adopted and the postoffice appropriation bill was passed.

The house committee on pensions has made a favorable report upon the senate bill granting a pension of $5,000 per annum to the widow of the late President McKinley.

FATALITY AT A WEDDING.

Daughter of the Groom So Badly Burned That She Died the Next Day.

DENVER, COL.—(Special.) Miss Anna Woodward, 17 years of age, died from injuries received at the wedding of her father, Warren D. Woodward, and Miss Lottie Newville. In the midst of the wedding ceremony the paper shade on a piano lamp caught fire. A man grabbed the blazing shade and rushed out of doors with it. In doing so, he rushed against Miss Woodward, whose gown of light fluffy material immediately burst into blaze. Every effort was made by the excited guests to smother the flames, but they did not succeed until the young lady sustained burns which caused her death. Mr. Woodward is a well known lawyer.

COLORADO BANK ROBBERY.

Four Men Make an $1,100 Haul at Fowler by the Use of Nitro-Glycerine.

PUEBLO, COL.—(Special.) The Bank of Fowler, at Fowler, Col., twenty-five miles east of this city, was robbed of $1,100 by safe-blowers. Several charges of nitro-glycerin were exploded to open the safe and the cash box. Citizens were aroused by the explosions and fired several shots at four men who were seen running away, but the robbers succeeded in getting out of town. News of the robbery was telephoned to neighboring towns. Two men who boarded the Santa Fe train at Nepesta, seven miles west of Fowler were arrested as suspects by Deputy Sheriff Thomas, who also boarded the train at Nepesta.

Killed By Lightning.

WINONA, MINN.—(Special.) A peculiar fatality is reported from Burns Valley. Henry Hornberg and Anton Rye were driving home from Winona, when a sudden thunderstorm came up. A stroke of lightning struck their rig, instantly killing Hornberg and the two horses, while Rye who sat alongside Hornberg, escaped unhurt.

$50,000 Fire in an Iowa Town.

LE MARS, IOWA.—(Special.) Fire destroyed the grocery and dry goods stores of aBron Bros.; the building and printing plant of the Le Mars Post and the furniture store of the Grand Rapids Furniture Company. The loss is $50,000, with $21,000 insurance. The fire spread rapidly. The firemen were unable to check the flames owing to an insufficient water pressure. An absence of wind probably prevented a holocaust.

Defiance Starch, 16 ounces, 10 cents.

HIS DEADLY AIM

ALABAMA NEGRO STANDS OFF A SHERIFF AND A MOB.

HE HELD THEM AT BAY FOR HOURS

Killed Two Men and Wounded Seven Others—Three Houses Burned in Trying to Drive Him From His Stronghold—He was Shot at Last and His Body Thrown Into the Fire.

TUSCUMBIA, ALA. — (Special.) Three men are dead, three more slightly wounded and four seriously wounded as the result of Sheriff Gassaway attempting to arrest Will Reinolds, a desperate negro. The dead:

Hugh Jones, shot through head.
Bob Wallace.
Will Reinolds.

Fatally wounded:

Sheriff Charles Gassaway, shot through arm and abdomen.
P. A. Prout, shot through stomach.

Seriously wounded:

—— Payne, shot through chest.
Jim Finney, shot through right shoulder.
Robert Patterson, shot through leg.
Jesse Davis, shot through jaw.

All the foregoing casulties except the death of Reinolds himself are the result of the deadly fire of Reinolds with a 45-caliber Winchester. The negro was in his turn riddled and thrown into a fire.

Sheriff Gassaway went to a negro settlement, "Knardtown," to arest Will Reinolds for obtaining merchandise under false pretense. The officer was met by the negro, who opened fire with a Winchester, wounding the sheriff and immediately firing upon the deputy, Will Gassaway, who was some 300 yards away, and mortally wounding him.

As soon as possible, every man in town who could procure a gun was in the neighborhood, but, owing to the location, none dared to venture within the open space. Dynamite was procured and the house in which the negro was barricaded was fired upon, but to no effect.

Finally Captain Simpson, of the Wheeler rifles, arrived with twelve guns and 1,000 cartridges, which were distributed among twelve picked men. This company was stationed around the house and riddled it, but the negro had taken reuge in the cellar and returned the fire, killing Jones and wounding Finney.

Coal oil was then procured and, after our hours of hard work, the houses adjoining that in which the negro was located was fired by the Wheeler rifles, who had arrived on the scene. The negro took refuge in a shed and opened fire, killing Wallace and wounding Davis, but the people and some militia men riddled the negro, and the crowd, numbering 1,000, grabbed the body and threw it in the burning building.

Wallace, who was killed, was closing in on the negro, who shot him through the body. His body fell in the burning debris, but was recovered. Davis, Wallace and Falkner were the men who fired the building.

Relic seekers cut off the negro's fingers and such parts of the body as could be procured.

Three houses were burned in the effort to reach the negro. Several horses were killed in the battle. It is reported that the sheriff and his brother cannot live. So deadly was the negro's aim that it was possibly an hour before the body of Prout could be recovered. Not a shot fired by Reinolds failed to count when those he was firing upon could be plainly seen by him.

The excitement is intense, but there is no fear of an uprising among the negroes. Fully 2,000 people from Florence and Sheffield were here and every surgeon in the two towns was pressed into service.

GAVE LIFE FOR OTHERS.

Young Physician Who Treated Consumptive Poor Free Takes the Disease.

NEW YORK.—(Special.) Dr. Clinton H. Catherwood of this city, who has devoted his time and his wealth not only to the scientific investigation of tuberculosis, but to the gratuitous treatment of the consumptive poor, has contracted the disease from one of his patients, and is now on his way to Colorado, hoping that the climate there will help him save his own life.

He is 27 years of age, and has been practicing medicine only a few years. When he left college and started out on a career which, because of his wealth and social position, was a most promising one, he was not only very robust, but was classed among the athletic. He became a surgeon at both the Hudson street and French hospitals. At his home he devoted certain hours every day to poor tuberculosis patients. He studied incessantly and believed he was on the eve of important discoveries for the cure of the disease when he was smitten.

Fireman Dead in Cab.

MINNEAPOLIS, MINN.—(Special.) When Engineer Fred Grey jumped from the cab of his engine that pulled the Burlington limited into the Union station, he noticed that his fireman, Fred Beaacker, was lying motionless on the floor. The top of his head was crushed in. He had evidently been killed by a bridge girder while looking out of his window. The better projecting back into the cab had prevented the engineer from seeing what had happened.

Defiance Starch, 16 ounces, 10c

LOOK IN THE GLASS.

What do you see? A face covered with pimples, blotches, or blackheads, a yellow skin, lusterless eyes—do you know what the trouble is? Are you going to continue to use soaps, powders, or other cosmetics, or will you *remove the cause* by getting your system in order? If your stomach, liver, kidneys and bowels are in good condition, your complexion will be all right again in a short time. Dr. Caldwell's (Laxative) Syrup Pepsin regulates the organs of digestion and secretion. Sold by all druggists on the manufacturers' guarantee.

If a man would secure his wife's undivided attention all he has to do is to talk in his sleep.

Clear white clothes are a sign that the housekeeper uses Red Cross Ball Blue. Large 2 oz. package, 5 cents.

Nothing angers a man like the silence of his wife when he attempts to quarrel with her.

SURGICAL OPERATIONS

How Mrs. Bruce, a Noted Opera Singer, Escaped an Operation. Proof That Many Operations for Ovarian Troubles are Unnecessary.

"DEAR MRS. PINKHAM:—Travelling for years on the road, with irregular meals and sleep and damp beds, broke down my health so completely two years ago that the physician advised a complete rest, and when I had gained

MRS. G. BRUCE.

sufficient vitality, an operation for ovarian troubles. Not a very cheerful prospect, to be sure. I, however, was advised to try Lydia E. Pinkham's Vegetable Compound and Sanative Wash; I did so, fortunately for me. Before a month had passed I felt that my general health had improved; in three months more I was cured, and I have been in perfect health since. I did not lose an engagement or miss a meal.

"Your Vegetable Compound is certainly wonderful, and well worthy the praise your admiring friends who have been cured are ready to give you. I always speak highly of it, and you will admit I have good reason to do so."—MRS. G. BRUCE, Lansing, Mich. *$5000 forfeit if above testimonial is not genuine.*

The fullest counsel on this subject can be secured without cost by writing to Mrs Pinkham Lynn, Mass. Your letter will be entirely confidential.

WESTERN CANADA'S

Wonderful wheat crop for 1901 now the talk of the Commercial World is by no means phenomenal. The Province of Manitoba and Districts of Assiniboia, Saskatchewan and Alberta are the most wonderful grain producing countries in the world. In stock raising they also hold the highest position. Thousands of Americans are annually making this their home, and they succeed as they never did before. Move Westward with the tide and secure a farm and home in Western Canada. Low rates and special privileges to homeseekers and settlers. The handsome, forty-page Atlas of Western Canada sent free to all applicants. Apply for rates, &c., to F. Pedley, Superintendent of Immigration, Ottawa, Canada, or to J. S. Crawford, Canadian Government Agent, 214 W. Ninth St., Kansas City, Mo.

Points for Women.

Defiance Starch.

Once used always used.

It is the best cold water starch ever made.

Each and every package contains sixteen ounces.

A single sixteen ounce package costs only ten cents; other starches cost ten cents for twelve ounce packages.

Every package contains a written guarantee to refund money if satisfaction is not given.

It gives clothes that stiff, glossy finish that is a guarantee of comfort to the wearer. No other starch has this advantage.

It contains ingredients that enables its manufacturers to omit all chemicals, the presence of which in other starches have proved injurious to linen.

There is nothing in it that can even in the slightest degree injure the most delicately woven fabric.

It will not blister nor break the goods.

It will not stick to the iron.

It requires no premiums to promote its sale.

It speaks for itself.

It will not disappoint you.

It is being placed on sale by all grocers. If your grocer "hasn't heard of it" insist that he order some for you from his wholesaler. Made by Magnetic Starch Co., Omaha, Neb.

Antiquity of Golf.

The latest golfer's yarn is the statement that Joseph of old was the original golf player. In the first place, we are told that he wore a coat of many colors, which certainly must have been a golf suit; and the statement that he was put into a hole by his brethren is declared at St. Andrew's to be merely a figurative expression, and signifies that they beat him at his own game.—New York Tribune.

ALTON RESUMES FAST ST. LOUIS TRAIN SERVICE.

Passengers destined to St. Louis and points east should go via the Kansas City gateway, thereby securing the advantage of the Chicago & Alton's fast night train; leaving Kansas City at 9 p. m., arriving in St. Louis at 7:05 a. m. Chair cars free of extra charge. Compartment sleeping cars. The Alton keeps their light a'shining just ahead of the rest. Write to L. D. Cooper, Traveling Passenger Agent, Chicago & Alton Railway, Kansas City, Mo., for lowest rates.

Glacier Will Deluge the Earth

Leon Lewis, of Winsted, Conn., author of "Telluria" and a writer of some considerable repute on scientific subjects, says a glacier at the South Pole three thousand miles in diameter and correspondingly thick, will some day break and melt, deluging the earth, beginning with South Africa.

The Kansas City Southern railway has now inaugurated for the season its new through service from Kansas City to Hot Springs via Salisaw and the St. L. I. M. & S. Ry. Through Pullman sleeping cars run direct between Kansas City and the great Health Resort via Little Rock.

This is the only company offering its patrons such service, and judging from the liberal patronage given last year, there is every reason to believe that this service is highly appreciated and what the public desires.

For rates and other information, write S. G. Warner, G. P. A., Kansas City Southern Railway, Kansas City, Mo.

Origin of "Arabian Nights."

Professor Seybold of Stuttgart has discovered in the Tuebingen university library an Arabian manuscript 500 years old, which is probably the original of "The Arabian Nights." He has also found manuscripts describing the whole religious system of the Druses.

You never hear any one complain about "Defiance Starch." There is none to equal it in quality and quantity. 16 ounces, 10 cents. Try it now and save your money.

Extent of Detroit River.

The Detroit river is the outlet of the greatest bodies of fresh water in the world, aggregating 82,600 square miles of lake surface, which, in turn, drain 125,000 square miles of land.

Empress and Her Tent.

The tent in which the Dowager Empress of China travels is made of yellow silk, copiously embroidered in silver and gold with great dragons and blazing suns.

The Best Insurance

Vogeler's Curative Compound furnishes the best insurance at a very small cost. The cures which it has made of blood, nerve, skin, liver and kidney diseases, are most marvellous. It insures protection against the development of those every day ailments, which are a menace to life and happiness.

A few doses of Vogeler's, when dyspepsia, constipation, headache, or nervousness appear, will insure good health.

A free sample bottle will be sent on application to the proprietors of St. Jacobs Oil, Ltd., Baltimore, Md.

Sold by all druggists.

PROVIDENCE ROAD,
GORLESTON, GT. YARMOUTH.

I have used St. Jacobs Oil for several years for lumbago and sprains and find it the greatest pain reliever before the public. I had a severe sprain on my right ankle which I received last week, and by using half a bottle of St. Jacobs Oil it is thoroughly cured. It acts like magic. All my friends in Gorleston, through it having cured me, are using it when occasion requires, and say it is worth its weight in gold.

JAMES SMITH.

CONGRESSIONAL.

TO MODIFY PUNISHMENT.

Bill Making Horse Stealing in Indian Territory Less of a Crime.

WASHINGTON.—(Special.) At the request of Attorney General Knox, acting on a suggestion from the president, Mr. Curtis, of Kansas, has introduced a bill in the house prepared by the department of justice, in relation to the punishment for horse stealing in the Indian Territory. In a letter to Mr. Curtis, the attorney general calls attention to the fact that under the act of February 15, 1888, no minimum was fixed for horse theft and the maximum penalty was imprisonment of not more that fifteen years or a fine of not more than $1,000 or both. Under the act of May 2, 1890, certain Arkansas statutes were made applicable to the territory with a provision that in all cases where the laws of the United States and the criminal laws of Arkansas have provided for the punishment of the same offenses, and the United States laws shall govern as to such offenses. Under the act of March 1, 1895, the law was reenacted with certain exceptions. The attorney general says:

"It is evident from very numerous letters and reports from the district attorneys of five years in the penitentiary is excessive in many cases of horse stealing. I agree with the district attorneys and judges in their conclusions in this matter and think that there should be remedial legislation."

The xecessive penalty is given as the reason for so many executive pardons. The bill introduced by Mr. Curtis provides, that any person, whether an Indian or otherwise, who shall hereafter be convicted in the Indian Territory of stealing any horse of any sex or kind, or marking killing or wounding with intent to steal any kind of cattle(pigs, hogs, sheep or goats, shall be punished by a fine of not more than $1,000 or by imprisonment for not more than five years, or both.

MISSOURI BACK IN THE BILL.

Senate Committee Includes Big Muddy in List of Appropriations.

WASHINGTON, D. C.—(Special.) The senate committee on commerce has completed the river and harbor bill, numerous amendments being added and the appropriations increased $9,609,173 to $70,297,439. Of this increase $4,601,385 is in the way of direct appropriation and the remainder for contracts authorized.

The following are among the principal items of increase:

Brazos channel, Texas, $400,000; Galveston inner harbor, Texas, $200,000, contract, $400,000; Oakland harbor, California, contract, $858,203; Tacoma harbor, Washington, contract, $225,000; Guam harbor, $150,000, contract, $250,000; Trinity river, Texas, $25,000, contract, $150,000; Upper White river, Arkansas, $200,000; Mississippi river, mouth of the Ohio to the mouth of the Missouri, $50,000, contract, $150,000; Mississippi river harbors, $620,000; Missouri river, $320,000; Stockton and Mormon channels, California, $50,000, contract, $275,000; Columbia river canal at The Dalles, Oregon and Washington, $400,000.

Substantially no decreases were made from the house bill.

A man is always on time when he has an appointment with a pretty girl.

POINT FOR KANSAS.

Colorado's Demurrer in Irrigation Suit Overruled.

WASHINGTON.—(Special.) The United States supreme court, in an opinion delivered by Chief Justice Fuller, has overruled the demurrer of the state of Colorado in the case of the state of Kansas vs. the state of Colorado. The case involves the right of Colorado to appropriate for purposes of irrigation the waters of the Arkansas river, which Kansas sought by an original action to restrain on the ground that the stream flows through Kansas and the people of the latter state are injured by Colorado's appropriation of the water. Colorado contested the jurisdiction of the court in the case and filed a demurred. The chief justice said that teh case is one in which the court can properly assume jurisdiction. He said also that the action of the court in overruling the demurrer was intended to be without prejudice, but was taken because the importance of the case is such that it should not be decided without full proof on the questions set up in the allegations of damage made by the state of Kansas.

The better the physician the less respect an undertaker has for him.

Secretary Root has completed his answer to the House resolution calling for the correspondence between the department and Lieutenant General Miles, respecting the latter's proposition to visit the Philippines. The answer would have gone to the House at once, except for a misunderstanding as to whether the body was in sesion. 1

In the executive session of the senate Senator Bacon of Georgia offered a resolution requesting the president to defer the issuing of his proclamation announcing the acquisition of the Danish West Indies under the terms of the treaty recently negotiated with Denmark until the pending investigation of the charges of bribery made in connection with that treaty should be concluded by the house of representatives.

Genius is the ability to get other people to carry out your ideas.

SOME WONDERFUL CROPS IN WESTERN CANADA.

The Territorial Government Reports Show Results Beyond Belief.

Regina, Assiniboia, Canada, January 19th.—At the Agricultural Statistics Branch of the Department of Agriculture for the Territories, reports are now being received from grain threshers throughout the Territories, for statistical purposes. The reports are somewhat delayed this year, owing to the extensive crop and the delay in getting it threshed. The Department of Agriculture is leading the way in a new departure, with regard to the collection of crop statistics. In the older provinces, crop estimates are based entirely on the opinion of persons interested in the grain business who ought to be, and no doubt are, well posted upon the probable yields. Still the reports are simply a matter of opinion, in which a mistake may easily be made. The Territorial Department, however, has adopted the system of returns of crops actually threshed, upon which to base their reports. The accuracy of the reports cannot, therefore, be gainsaid, for they represent a compilation of actual threshing results. In this connection, it might be mentioned that the Department is organizing a system of growing crop returns, which will be in operation next summer. The information thus obtained, with estimated acreage, will be available for business men, banks, railway companies, and other interests which have to discount the future in making provision for the conduct of their business.

The crop reports already to hand show some remarkable cases of abnormal development. In the Regina district, many returns are given of crops of wheat running from 40 to 45 bushels to the acre.

J. A. Snell, of Yorkton, threshed 28,000 bushels of oats from 450 acres, an average of 63 bushels per acre for a large acreage.

W. R. Motherwell, of Abernethy, threshed 2,650 bushels of wheat from a 50-acre field, an average of 53 bushels per acre.

In the Edmonton district, T. T. Hutchings threshed 728 bushels of wheat from a ten-acre plot, an average of nearly 73 bushels per acre.

S. Norman threshed 6,950 bushels of oats from 60 acres of land, an average of 116 bushels per acre.

The publication of the actual yields or grain threshed will likely open the eyes of the people to the great capabilities of the Western Canadian prairies.

What He Wanted.

A man elected to a local school board in London has sent this letter to the press defining his policy: "The scientific men are gone. I hope we shall have no more dabblelngs with laboritorys and that sort of thing. A good sound eleymentary education for our children is what we want; good reading, writeing and good arithmatic."

London's Catholic Cathedral.

The Roman Catholic cathedral in London, now in course of erection, is 260 feet long and 156 feet wide. Apart from the site, it has already cost $750,000. The material used is red brick, with Portland stone courses, and its Oriental decorative features, it is said, suggest a mosque rather than a cathedral.

Robbery by Wholesale.

A remarkable robbery has been committed at Birds' Island, near Toulon. There was on the island a bed containing 100,000 two-year-old oysters. They were safe at a recent date, but on the proprietor visiting the place again seven days later the whole stock had been cleared without any clue to the robbers being discoverable.

Threw His Canes Away.

Sault Ste. Marie, Mich., April 7th. Mr. C. L. Smith of 309 Anne St., the Secy. of the Trades Council has written this startling statement for publication.

"I feel it my duty to make public the facts of my recent illness and recovery. I was very sick and sore, and had to walk with the aid of two canes. It was a very painful attack, but I don't know what it was. Some said it was Lumbago and others that it was Sciatica or Rheumatism.

"I was told to take Dodd's Kidney Pills, and began a treatment. After I had used one box I could walk with one cane, and after two boxes were used I could walk without any help. I kept on and three boxes cured me completely.

"I am now well and happy without a pain or an ache and I can very truly say that Dodd's Kidney Pills are worthy of my greatest praise."

Not every man can get an increase of salary on the strength of his self-esteem.

You Can Get Allen's Foot-Ease Free.

IOWA FARMS $4 PER ACRE CASH BALANCE TEMP TILL PAID

"TIRED ALL THE TIME,"

Women in the Springtime Need a Tonic. Spring Fever is Spring Catarrh. Peruna Cures Catarrh.

A Beautiful Club Woman's Recovery.

Los Angeles, Cal., 535 S. Olive Street, May 5, 1901.

The Peruna Medicine Co., Columbus, Ohio.

Gentlemen:—"I suffered with pain in my right side for over eight years. Doctors said my liver was affected. My complexion was dark and yellow, I had a bad taste in my mouth, and was tired all the time. I took a great deal of medicine, but nothing seemed to do me any good. I read in the paper of Peruna, and decided to give it a trial. I felt better before the first bottle was gone, and after taking three bottles I was cured, and I have enjoyed perfect health since."

LENA HILTON.

Miss Lena Hilton, is President of the Wednesday Whist Club, of Los Angeles.

As a spring medicine Peruna is a never failing remedy. It cleanses the blood through digestion, and gives tone to the whole system by increasing the nutritive value of the food. "Spring fever," as it is sometimes called, which produces a tired out, sleepy feeling, and inability to do much mental or physical work, is the result of a sluggish digestion.

The great popularity that Peruna has is due to the fact that in all such cases it at once corrects digestive derangements and enriches the blood by purifying this very important source of that vital fluid.

Mrs. J. E. Finn, 83 East High Street Buffalo, N. Y., writes:

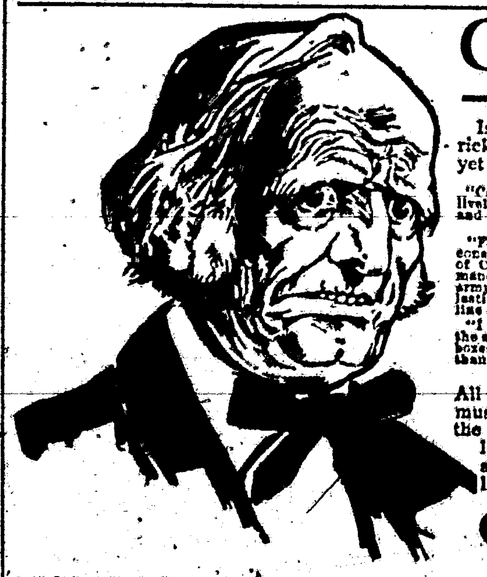
"A few years ago I had to give up social life entirely, as my health was completely broken down. The doctor advised a complete change and rest for a year. As this was out of the question for a time, I began to look around for other means of restoring my health.

"I had often heard of Peruna as an excellent tonic, so I bought a bottle, to see what it would do for me, and it certainly took hold of my system and rejuvenated it, and in less than two months I was in perfect health, and now when I feel worn out or tired a dose or two of Peruna is all that I need."

MRS. J. E. FINN.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.



Constipated Old Age

Isn't it too bad that so many people, when they get old, get cranky and rickety and mean, and don't feel right toward themselves or anybody else; yet it need not be so.

"Cascarets make me feel so light-hearted and lively that though I have seen three score and three a few more scores I yet may see."—James S. Millar, Villa Park, Cal.

"For many years I have been troubled with constipation. I used one 25c and two 50c boxes of Cascarets and they have effected a permanent cure. Since my discharge from the army in 1865 I have never before found a lasting remedy."—H. J. McGwern, 949 Chapline Street, Wheeling, W. Va.

"I was troubled with something that baffled the skill of physicians for 35 years; I used five boxes of Cascarets and am in better health than ever before."—C. C. Redick, Chase City, Va.

"Six month's ago I took Cascarets for constipation contracted during the War of the Rebellion. The result is wonderful and I advise all old soldiers to try them."—Silas Putman, late Capt. Third Ill., Haney, Wis.

"I was feeling bad losing flesh, had dull headache, cold feet and couldn't sleep well; I took Cascarets and in four weeks gained 15 pounds. Am feeling fine now."—A. B. Story, Veteran Mexican and Civil Wars, Epworth, Ia.

"I have been using Cascarets for some time for constipation, and their greatest benefit has been to cure me of asthma. I am in my 80th year and had been suffering with asthma for years."—T. M. White, Bob Lee, Georgia.

All old people's muscles get weak and flabby, and it's the same with the muscular walls of their intestines as with the muscles of their arms. When the bowels grow weak, the old folks get constipated, bilious, sick, helpless, irritable, and that's the chief cause of their death. Old folks should take Cascarets Candy Cathartic bowel tonic, keep their liver lively, their bowels regular and strong, and live to be a hundred.

Cascarets

Best for the Bowels. All druggists, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C C C. Guaranteed to cure or your money back. Sample and booklet free. Address Sterling Remedy Co., Chicago or N. Y. 311

Cupid is a faster runner, but Midas has more staying power.

Hundreds of dealers say the extra quantity and superior quality of Defiance Starch is fast taking place of all other brands. Others say they cannot sell any other starch.

If a man want's to keep his good name he'd better not have it engraved on his umbrella.

C. H. BROWN, BUSINESS MANAGER.

LOCAL NEWS.

Wid Corn was over from the Bonito Saturday.

Mrs. B. F. Brown visited the ranch the past week.

Mr. and Mrs. J. T. Price were over from Capitan Saturday.

W. C. McDonald has leased the Coghlin ranch at Three Rivers.

Rev. Boyd preached at the Methodist church here last Saturday night and Sunday.

Sephus Brown is the blacksmith at the American mine. Sephus is a good smith.

Mrs. W. A. McIvers and Mrs. L. Mathews were visiting in White Oaks Monday.

We are prepared to do first class job printing. New presses new type and new colors of ink.

A. H. Weber, traveling correspondent of the El Paso Herald was visiting Nogal the past week.

C. H. Brown, Henry Emmerson and Robert Bourne go from Nogal as jurymen for this term of district court.

District court meets at Lincoln next Monday. The docket is a long one and there are several important criminal cases.

The train gointg west leaves Walnut at 6:30 o'clock in the evening and arrives from Carrizozo at 7:45 in the morning. Stage meets morning train.

A coal miner at Capitan was killed Monday by a cave in, about five ton of slate caving in on him breaking every bone in his body. The victem was a German who had lately came to Capitan.

Tom Gaffney is the foreman at the American mine. Tom is an experienced miner who worked a long time in the Cripple Creek district and he is a thorough mining man, an able assistant to Mr. Gaylord.

It now appears that the railroad company have discovered that they have an important station on their line, called Walnut, and will soon put in a depot and place an agent there. Walnut or Nogal station is next to Alamogordo, the most important freight station on the line between Santa Rosa and El Paso, but this whole country has been discriminated against for the benefit of fake boom towns.

Politics in Lincoln county are begining to boil. We hear of several candidates for office. Among the names mentioned for the democratic nomination for sheriff is that of John W. Owens, the White Oaks constable. We are not electioneering for any democrat, but if we must have one for sheriff give us John Owens. He is courageous, honest and makes a good officer. If the democrats nominate Owens, the Republican candidate, whoever he may be, must get up and hustle to defeat him. From a Republican point of view we would oppose Mr. Owens, but he is certainly the strongest man the democrats could nominate for sheriff.

The Nogal Mercantile Co., have just received a new stock of summer goods in all the newest fabrics, suitable for summer wear. Don't fail to call and see their spring line. No trouble to show goods.

A good thing—THE REPUBLICAN—help to push it along.

P. G. Peters, the Angus merchant, was in town Wednesday.

A timber fire has been raging in the Capitan mountains for several days.

J. M. Rice and Capt. J. H. Lloyd left last night for Lincoln on a business trip.

The Nogal Mercantile Company received a car load of hay this week from Oscura station.

Joe Cochran is superintending the work for the Free Gold people Joe is an experienced mining man and an all around good fellow.

A. T. Roberts, our enterprising butcher, is kept buisy these days delivering meat to the mines and to the people at Carrizozo.

Mrs. L. B. Moore, our efficient postmistress, will soon move the postoffice from the store to new quarters.

We are reliably informed that the Lincoln Trading Company has bought out the Southwestern Mercantile Company at Capitan.

The farmers have about all finished their crop planting and the outlook is very favorable for them.

FOR SALE—A good new set of heavy work harness. Inquire at this office.

William Furguson left for the Oscura mountains Sunday to look after his copper properties there.

Fred Smith shipped four hundred head of mutton Angora goats to the Kansas City market the past week.

The Bonito country must be a booming from the number of saloons located over there. There is one at Angus and two at Bonito City.

The V V cattle company are moving all their cattle to the Mescalero Indian reservation, which they have leased for grazing purposes.

C. H Bond has resigned his position as section foreman at Walnut and will move out on his ranch. He is succeded by a Mr. Isreal from Texas, who has arrived with his family.

A party of Nogal young people visited the American mine Sunday, among them being the Misses Jessie Jones, Alice Byfield, Lucy Henley and Clara May, accompanied by Geo. E. Sligh, Jr., and Earnest Henley.

Prof. Dudley received a message Saturday stating that his little girl was not expected to live. He started for home Sunday but upon reaching Carrizozo received another message stating the child was much better. He returned and opened school as usual Monday morning.

The Nogal Mercantile Co, have just unloaded a car of barbed wire, and are making close prices on quantities.

Have you seen the new stock of spring millinery that the Nogal Mercantile Co., are showing? It is all right, purchased by Mr. Sligh while east, and is by far the most stylish and up to date line ever shown in Nogal.
