The Nogal Republican.

Vol. 1. No. 3. Nogal, Lincoln County, New Mexico. Thursday, May 1, 1902. $1.50 A Year, in Advance.

Mining and Prospecting.

THE AMERICAN MINE.

The first gold discovery in Lincoln county was made by Wm. Gill in 1861 on what is now the American mine. At that time, and up to the year '78, all of the Nogal and Bonito country was in an Apache Indian reservation but notwithstanding the warlike Apache, Gill managed to steal in and take out considerable gold before the reservation was opened to prospecting. From '78 to '88 Gill worked the mine with a pan and morter process and when he sold it in '88 to an eastern company, he had $16,000 to his credit in the bank, of money taken from the American mine in this way.

It was not until 1885 that the company who purchased the property from Gill worked the mine to any degree.

The year 1885 was a year of prosperity in mining in this section, but with this era of prosperity there came a lot of the worst mine robbers and unskilled managment that ever cursed a mining camp, and this not only applies to the American but to other rich mines of the district.

The first managment of the American was not only incompetent, but was dishonest with the owners. The mine was looted of its best specimens, many of which were worth hundreds of dollars. The mine was run on the most extravagant plan possible, with apparently no other object in view than to rob the mine and discourage the owners, force a closing down and a sale of the property. This seeming object proved successful and notwithstanding that the American had produced over a hundred thousand dollars in gold retorts at less than two hundred feet of depth.

With the closing down of the mine there began a general game of "freeze out" which only ended in the property passing into the hands of the present owners—The American Gold Mining Company. This company has necessary capital and push to place the American where it properly belongs—among the list of dividend paying mines.

As we have before stated, the American has been the victem of gross mismanagment in the past, and if the whole truth was told it would explain why this as well as other rich mines of the district have been idle so long. They have been robbed to swell the pockets of men, not the owners, who have grown rich out of their production. The story would read like that of the Spanish conquesquedores looting the temples of the Aztecs.

With the organization of the new American company a number of other valuable mines and prospects were purchased and added to the American group, among them being the Clipper, Rockford, Cashier and Ibex, which with development may prove to be as rich as the American.

The American has only been working two weeks under its new managment, but it already has proven the superiority of its new managment over the old, as well as retaining its high standard as a bonanza mine. A mill run on seventeen ton of this ore, made the past week, gave an average of more than fifty dollars per ton from the plates, and this average does not include several large nuggets, one which weighed over one pound, that were too large to pass through the screens.

The old [illegible] is being replaced with new and improved patents, [illegible] it, fifty new stamps and cyanide plant are to be put in at once, Burley drills have been put to work sinking the shaft to a depth of 500 feet before they stop to run any levels.

Here is an object lesson in practical mining. Under the old managment, a tunnel over three hundred feet in length abruptly left the lead and runs out into the baren "country rock" for its entire distance, leaving a "pay streak" of rich quartz behind that is over four feet wide.

The American Gold Mining Company is capitalized at five million of dollars, shares of the par value of one dollar each. Most of the stock is now owned by Chicago people and we understand it is ready sale at fifty cents a share, but we predict it will be selling for at least par in less than one year. Even the laborers at the mine realize this and some of them are investing a part of their earnings in American stock at the present selling price.

The Hellen Rae.

This week the El Paso Foundry and Machine Company shipped 600 feet of mining rails to the Helen Rae mines at Nogal, ordered by the Robertson Bros., of Scranton, Pa., owneres of the valuable Helen Rae group, which consists of 47 claims, 42 of which are held under U. S. patents. The Record understands that these gentlemen are very much encouraged over their property, upon which they intend to do considerable development work in the near future. With the American mine and the Helen Rae both in operation the Nogal district would attract the gratest attention from the mining fraternity everywhere, for they are properties that are likely to develop into immense dividend payers.—Industrial Record, El Paso, Texas.

The Record is correct as to the Hellen Rea being a valuable mine Only the other day the owners of the Hellen Rea were offered one hundred and twentyfive thousand dollars cash for the property but they value it at half a million. There has been a small force of men at work on the Hellen Rea for the past six months driving a tunnel which is now in nearly five hundred feet and in good ore.

Capt. J. H. Lloyd, a mining expert of world-wide reputation, who has experted mines for Cecil Rodes and others in South Africa and who has spent more than a quarter of a century in examing mines all over the world, is now at Parsons superintending the work of getting things in readiness for the largest mining enterprise ever undertaken in the southwest, and he will remain at Parsons for about one month or until after Mr. Rice's return from Chicago.

Very active mining operations are now in progress in the Nogal and Bonito districts. Several large mining companies are developing their properties now, while many other holders of claims are arranging to do the same. There are no deep mines in either district. It is the intention of these now operating to go deep and demonstrate to their satisfaction the class of ore thereunder, which it is believed are far superior to those nearer the surface.—Industrial Record.

For The Prospector.

An up-to-date prospector's outfit should and can easily carry a simple yet effective "kit" for gauging values of copper finds. Wood cases can be had for safe carriage of bottles and glass test tubes of which three at least should be carried which with a glass stoppered bottle of nitric acid and a rubber stoppered bottle of ammonia, will complete the "kit." A very small mortar would be handy, but is not absolutely essential.

Pulverize a small portion of the ore to be tested and put it in a test tube, about a half teaspoonful of powder, carefully add nitric acid, a few drops at a time to avoid contents being thrown out by the resultant chemical action. When ore powder has been covered by the acid, warm the tude dy holding it at the side of a candle's flame until metallic portion has been dissolved. The quartz will not enter into the solution. Dilute solution with water, filling tube three quarters full, and add ammonia drop by drop. The presnce of copper will be indicated by the gradual change of color to blue tint, the higher the percentage of copper the deeper will be the shade of blue

A few preparatory tests of this process on known ores, and depths of color and tints noted and compared with the assay, will teach the eye to judge values very closely.

Simple as the process is, it is true in results and will save much time and possible useless expense to the prospector.

Just the single prospect that New Mexico will soon become a state is inducing capital to come this way. Statehood will push the territory forward both financially and in the number of population.

No. 1. Vol. 1 of the Republican, published at Nogal is our latest exchange. It is a very creditable sheet and undoubtedly has a good field in that vicinity with its mining and other resources—Otero County Advertiser.

the mining industry of Lincoln county is having an era of prosperity never enjoyed before, and this to a lesser degree is true of New Mexico in general. and what is also quite evident, it is a substantial era of prosperity.—Otero County Advertiser.

There's a new paper in Lincoln county—the Nogal Republican. The salutatory says the Republican party needs an organ in the county, and it is ambitious to supply the need. The first number is newsy, well editet and of attractive appearance.—Albuquerque Daily Journal-Democrat.

The first number of the Nogal Republican has reached the exchange table of the Industrial Record. Nogal is to be congratulated on this acquisiton to its industrial field. The district of Nogal and that of Bonito, adjoining, have reached that degree of development and interest which justifies the need of a newspaper such as the Republican to advertise their resources to the outside world, and the paper can accomplish great good in this way by devoting the most of its space to these matters instead of politics, which the Republican claims it intends to do. Let business be looked after first and politics second. In this way the paper can succeed. The Record wishes the Republican a full measure of success—Industrial Record.

A Merry Party of Chicagoans

The party of Chicago capitalists, who have been here the past week examining the property of the American Gold Mining Company and the Eagle Mining and Development Company, left for home Saturday, all highly pleased with their visit.

Among the party were Peter DeTamble, Holden L. Risitter, R. C. Sturgen, O. T. Olson, D. I. Gelder and Capt. J. H. Lloyd. The party left over the Rock Island and arrived home Monday. Messrs Risitter, DeTamble and Capt. Lloyd passed through their New Mexico experience with but few mishaps but it was different with Sturgen, Olson and Gelder. Sturgen had a beautiful red nose which he says was due to sunshine but we surmise, from the number of Armitage, Mum's Extra Dry and Lemp's Extra Pale empty bottles laying around that this red nose was due principaly to other causes, and causes which he will not truthfully explain to the boys in Chicago. But then Bub is a good fellow and a hustler even if he does have a red nose. Olson had a "bare escape" while climbing a mountain. He came across a Civit cat and mistook it for a bear; and in trying to escape came very near falling into a prospect hole. Olie lost a few pounds of flesh in the run, which he could not very well spare. David I. Gelder is a wholesale diamond broker in Chicago and was the heavy weight of the party, but Dave went back home minus about twenty pounds of good solid flesh which it will take weeks to regain in the "Windy City" Some one told him of the New Mexico diamond fields" near Capitan and it is charged that he got up in his sleep one night and walked over there and found then only "paste diamonds." Dave "knows a good thing" when he sees it and says the gold is all right and will buy diamonds.

They were a jolly lot of good fellows as one would wish to meet who spice business with a little fun. May their shadows never grow less.

A Chicago gentleman, and a mining man of high standing, in conversation with the editor, a few days ago, in speaking of the Nogal and Booito country said that here was a second Cripple Creek and said he considered the Parsons mines the best mining propositi on in the southwest. And this is the opinion of many other well informed mining men.

Here is a letter from a Kansas school ma'am who knows that "a bird in hand is worth two in the bush," that, "you should never count chickens before they are hatched," and that men are proverbially fickle. The letter is written to the directors of the school where the young woman was teaching. It follows: "I would like to have the refusal of the school as long as you are willing to hold it for me, though I can't say positively that I will not teach, nor positively that I will. If I am married, as I think I will be, of course I will not want the school. But you know the old story about many a slip, and I would hate to be out of a job as well as the other." We hope the school board held the job for the young woman, at least until its members became satisfied she had the fellow safely hooked.

LUMBER IS GOING:
From May 1st to June 1st,

THE REPUBLICAN

C. H. BROWN, Pub.

NOGAL - - - - NEW MEXICO

It is stated that in New York "one cent will buy a square meal"—a soda cracker, probably.

A Philadelphia woman has had her husband arrested for not giving her an Easter bonnet. The worm will turn.

There will be no danger of a whisky famine as long as the supply of water and prussic acid does not run out.

The announcement that Missouri highwaymen looted a train shows that the spirit of Jesse James goes marching on.

As if he hadn't suffered enough already they have put a Mr. Nelson of St. Joseph, Mo., in jail for having thirteen wives.

The Massachusetts judges who decided that a Wall street margin is a wager would undoubtedly call a spade a spade.

The announcement of Gen. Otis that he doesn't mean to write a book will tend to endear him to the hearts of the people.

The czar of Russia is obliged to keep his subjects well scattered. His latest edict is that three men in a bunch constitute a mob.

Tennyson's original manuscript of "The Charge of the Light Brigade" sold for $440, which could hardly be called a light charge.

A Chicago man named Junk has secured a divorce in California. It is understood that the Junks have been much given to scraps.

A woman bookkeeper in Philadelphia has confessed to embezzling $15,000. There is no field woman cannot fill if given the chance.

The Kentuckian who shot at a man and crippled a blooded colt is entitled to great sympathy. His mistake will cost him some money.

Truly wonderful is the news that comes from Gotham. Policemen there who do their duty are not to be punished for being so reckless.

Cecil Rhodes intimates in his will that he regarded the muddled oaf as an important member of society. It's about up to Kipling to change his mind.

In the event of a separation it is probable that Queen Wilhelmina's husband will demand an amount of alimony that will wreck the bank of Holland.

A students' demonstration planned in St. Petersburg for April 1 was suppressed. The government did not want to take any chances of being April fooled.

"Jesse slammed a speedy one to the tall timbers for a trio of cushions and Rhody sent him over the last quarter with a daisy cutter through second." Sound familiar?

Mrs. Daisy A. Gentleman of Chicago, who is suing for a divorce, can hardly claim that her husband is no Gentleman, although she declares that he punched her in the face.

A German author has published a dictionary of cuss words. He has found 25,000 of them. If they are all German it will be pretty hard to keep that language from spreading.

The woman who steals from her husband to give to charity may consider it no more than fair to keep out a little with which to buy the prize when the club meets at her house.

The thief who returned the jewels stolen from a church may think that he has atoned for his acts, but we rather think that repentance based on fear does not count for much.

You can never discourage a woman about loving. If she can't love her husband she is content to love her children; if she hasn't any children she will manage to get along loving her pets.

The claim made for Aguinaldo that he provides liberally for his mother-in-law will win high praise for him until it is remembered that all of his provisions come from Uncle Sam's commissary.

A barber in Richmond, Va., shaved President Duke of the American Tobacco company on Sunday and received for his work a check for $1,000 to pay off a church debt. The fact that this money came from tobacco and was paid for work done on Sunday is not expected to result in the church's refusing it.

These young women of Hoboken who are praying for husbands, are to be commended for their great faith; but were they wise maidens, they would so contrive as to bring the young men to their knees instead of falling upon their own.

The Massachusetts supreme court has decided that people who lose their money in bucket-shops may sue it back. Anyone who succeeds in doing so ought to be able to make a fortune by exhibiting himself through the country.

A WISCONSIN PAPER ON WESTERN CANADA.

Saskatoon, Saskatchewan, One of the Favored Districts.

The following clipped from the correspondence columns of the Eau Claire (Wisconsin) Leader is but one of many letters of a similar character that might be published concerning Western Canada, the land of No. 1 hard wheat and the best cattle on the continent. It is a simple matter to reach the lands spoken of, the Canadian Government having agencies established at St. Paul and Duluth, Minnesota; Grafton, North Dakota; Watertown, South Dakota; Omaha, Nebraska; Kansas City, Missouri; Des Moines, Iowa; Wausau and Milwaukee, Wisconsin; Chicago, Illinois; Indianapolis, Indiana; Sault Ste. Marie and Detroit, Michigan; Toledo and Columbus, Ohio, and by writing to or calling upon any of these agents at these points full information can be secured. This is a great opportunity to secure a home free of cost or if you desire to purchase lands they can be bought now at prices much lower than will exist in a few months. But read what the correspondent referred to has to say of one particular district.

"To the Editor of the Leader—The rush of the land seekers will be to the prairie provinces of the Dominion of Canada. The allurements of a soil that yields 40 bushels of wheat to the acre are too great to be resisted and an immense migration from this country may be confidently predicted. People here laughed at first at the idea of any one leaving the United States for Canada, but the Dominion authorities knew they had a good thing and they stuck to it. Their officials evidently knew the value of printers' ink. They spared no expense in letting the people of this country know that these lands were there and that they were exactly as represented. They did more. They sent out specimens of the crops raised and samples of the grain. We have had them here at four consecutive street fairs, presided over by one of their ablest immigration officers. This gentleman spared no pains. He explained the value of the lands and the richness of the soil from morning to night to all comers.

"All this told in the long run. Several went up from here to spy out the land and like Caleb, the son of Jepunneh, and Joshua, the son of Nun, brought back a good report, and now some ten families will leave here in a few weeks for Saskatoon to settle upon farms there, and others are preparing to follow. Of course many will appear shocked at the idea of any one leaving the stars and stripes for the Union Jack, but patriotism is but a nomenclature after all, and our experience has been that in nine hundred and ninety-nine cases out of a thousand a man is the most patriotic where he can make the most money and do the most harm to those whom he hates."

McKinley's Pathetic Request.

Dr. Mathew D. Mann at the Manhattan Hotel, related this incident: On the first day of the visit to Buffalo of President McKinley, Dr. Herman Mynter walked up to the president and said: "Mr. President, I am a Dane by birth, but an American citizen. I am a warm supporter of your administration. I have no favor to ask." On the day of the shooting Dr. Mynter was one of the first physicians to reach the president. Mr. McKinley said to him: "Doctor, I remember you. Now I have a favor to ask. I want you to save my life."—New York Times.

Seeking American Motormen.

Manager Davis of the British Electric Traction Trust has sailed for America to secure motormen to work the English street cars. The trust recently secured control of the tram lines in the chief towns of Great Britain, but finds it is unable to operate the lines successfully because of the lack of skilled English workers. The Americans who will be introduced will instruct the Englishmen in American methods.

A Catch in His Back.

Palmer, Oregon, April 14th.—W. J. Uppendahl of this place has had a great deal of trouble recently with his back. Every time he went to do the least bit of lifting he used to have what he called "a catch" in his back. He says:

"It did not have to be very hard work to give me such a severe pain that I could not move.

"I suffered quite a long time before I heard of Dodd's Kidney Pills. I used four boxes and now I can work as hard as any one and my back is as stout and strong as it ever was.

"My wife used some of the pills too and she thinks there is nothing that beats them.

"I can positively recommend Dodd's Kidney Pills to anyone who has a pain in his back, for I know they will cure it."

First Rhine Steamer.

The first steamer on the Rhine—a Dutch one—was in 1822, fifteen years after Fulton had started a steamer service on the Hudson.

California's Industries.

The leading industries of California are in close rivalry as to annual product. Sugar and slaughtering each produces about $15,000,000, while lumber, flour and fruits each shows about $12,000,000.

All Honor Phillips Brooks.

The Phillips Brooks house of Cambridge, Mass., now has 150 [illegible], representing not only the United States, but England, France, Turkey, Japan, [illegible] a unique.

CONGRESSIONAL.

SENATOR ALLISON EXPLAINS.

Tells Why Philippines Are to Continue on Silver Basis for a Time.

WASHINGTON.—(Special.) The differences of opinion between the two houses of congress are so great that in advance of the opening of the debate in the senate Senator Allison was asked to explain the reasons for the senate financial system proposed for the Philippines. He recognized at once the necessity for such an explanation and said with great earnestness: "There is no more connection between the financial system of the United States and that now existing in the Philippines than there is between a cotton seed and a corn stalk.

"The Philippines have had for a long time an exclusive silver coinage. They scarcely know anything else. They need subsidary coinage more than anything else, and that is the first thing we propose to supply them with. In large sections of the islands there is no money at all, commerce being conducted in the way of barter. The islands are not even fairly pacified yet, and it would be a great mistake for this country to attempt to force upon the Filipinos an American coin at an arbitrary value.

"What we propose to do is merely to substitute for the old Mexican dollar a Philippine dollar. It will not be redeemed by the United States, and this country will assume no liability on account of it. It will circulate on its merits alone for what it is worth. The United States merely guarantees the quantity and quality of the silver in the coin. It would be a violent step, to say the least, to take away from the Philippines the standards to which they have been accustomed at this time.

"When they become thoroughly pacified and when they become adjusted to American control it may be wise to extend the gold standard to the islands, but it certainly would be highly injudicious to do so just now."

HITCHCOCK AGAINST TRADERS.

Opposes Bill to Enable Them to Collect Debts from Kiowas.

WASHINGTON.—(Special.) The secretary of the interior has sent to congress, with his indorsement, a letter of the commissioner of Indian affairs relative to a bill for the relief of McCarthy and Collins, late licensed Indian traders with the Kiowa Indians in Kansas, for supplies furnished, and to determine the amount due, and whether there is any fund belonging to these Indians that can be applied to the payment of their claim. The Kiowa Indians in Kansas have to their credit in the United States Treasury $229,643.37, drawing 5 per cent interest. The Kiowa Indians of Oklahoma, however, share equally in this fund, the division being made on the basis of 219 Indians in Kansas and ninety-two in Oklahoma.

The commissioner is opposed to the bill on the plea that an existing treaty provides that the debts of Indians contracted in their private dealings as individuals shall not be paid out of the general fund; that such action is contrary to the policy of the department, and that the office would be called upon to pass on all accounts. Besides, says the commissioner, every Indian trader is practically conversant with the law and the responsibilities he assumes in dealing with the Indians.

AFTER THE PACKERS.

Thorough Investigation of the Beef Combine.

Representative Newlands, of Nevada, introduced a bill to remove all duties on beef imported from foreign countries.

WASHINGTON. — (Special.) The statement by the Associated Press quoting a Kansas City paper that the department of justice has instructed District Attorney Warner to investigate whether there exists a so-called beef trust among packers at Kansas City and elsewhere, and to proceed under the law to prosecute violations of the anti-trust act, created a good deal of interest here. It is generally expected that congress will take up the question with a view to framing suitable legislation to cover any such violations, if further legislation should be required. Chairman Ray, of the house judiciary committee, stated today that an investigation of the so-called beef trust will be made and that all offenses under the existing law will be vigorously prosecuted.

At the department of justice the officials declined to enter into details, but it was tacitly conceded that the question has been taken up officially and it is expected that the attorney general's letter of instructions will be made public within a few days.

Preserve Art Treasures.

The pope recently received a petition to encourage the project of making a catalogue of all art treasures preserved in Italian churches and monasteries, to prevent their being secretly purchased and exported.

Lost His Rheumatism
By the use of a bottle of
St. Jacobs Oil.

Sergeant Jeremiah Maher, of Ardcath, Royal Irish Constabulary, says: "My friend, Mr. Thomas Hand, has been a great sufferer from rheumatism in the back and joints for the last four years, during which time he has employed many different methods of treatment, but obtained no relief whatever, and for the last two years has been unable to walk without a stick, and sometimes two sticks, and was in great pain constantly. I induced him to procure a bottle of St. Jacobs Oil, which he applied with the most astonishing and marvellous effects. Before he had finished using the contents of the first bottle he could walk readily without the aid of a stick, and after a few applications from the second bottle he was free from pain, and has been ever since; and although fifty years of age and a farmer, he can walk and work without experiencing any pain or difficulty whatever."

Vogeler's Curative Compound, the great remedy which makes people well; it is made from the formula of an eminent London physician. Send to St. Jacobs Oil, Ltd., Baltimore, Md., for a free sample bottle.

Yours for Health
Lydia E. Pinkham

How Truly the Great Fame of Lydia E. Pinkham's Vegetable Compound Justifies Her Original Signature.

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhœa than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors.

Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yields to it.

Womb troubles, causing pain, weight, and backache, instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water.

It quickly removes that Bearing-down Feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues," and backache. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures.

Kidney Complaints and Backache of either sex the Vegetable Compound always cures.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

Baco-Curo
DON'T STOP TOBACCO
Suddenly. It injures the nervous system to do so. Use BACO-CURO and it will tell you when to stop as it takes away the desire for tobacco. You have no right to ruin your health, spoil your digestion and poison your breath by using the filthy weed. A guarantee in each box. Price $1.00 per box, or three boxes for $2.50, with guarantee to cure or money refunded. At all good Druggists or direct from us. Write for free booklet.

Initials of No Account.

Dr. McGee of the bureau of American ethnology was named Washington Jefferson McGee, but when he grew up he thought the first two names were somewhat megaloquent. Then he began to sign himself W J McGee. "What do the initials stand for?" asked a friend. "For nothing; they are what they seem," said the scientist. "Then why do you put points after them?" Dr. McGee saw the inconsistency and now signs W J McGee.

A Nasty Practice.

A nasty practice is what the Chicago Inter Ocean calls the pasting of repeated layers of wall paper, one upon another, thus covering up the filth and germs of disease that may be propagated in the very absorbent and decaying mass of flour paste, paper, animal glue, colors, etc.

They give opinions of eminent health officers and sanitarians, urging that such practice should be stopped by legal enactment, and also take occasion to say that these sanitarians recommend Alabastine as a durable, pure and sanitary coating for walls.

The Inter Ocean says: "This is a very important question, and, as it costs nothing to avoid this danger, why take any chances?"

How much of the alarming spread of smallpox and other diseases may be due to unsanitary wall coverings?

Americans Are Encouraged.

The duke of Argyll has placed with a New York real estate firm the sole agency on this side of the ocean for the leasing of his castle at Inverary, in Argyllshire, Scotland, and for the sale of Tiree island, off the coast of Scotland, near the isles of Mull and Iona. Thus is the American invader invited and encouraged to go and take the best in Britain—palace, deer park, game and fishing.

IRRIGATION IN NEW MEXICO.

Hon. P. Bradford Perkins, the inventor of the Perkins water system, is now experimenting in New Mexico on behalf of the A. T. & St. F. R. R. to irrigate thousands of acres of land by his system. He writes: "A couple of years ago, while experimenting through the South, I found that by spending a part of my time in marshy neighborhoods filled with miasma, my entire system was being slowly poisoned. I had chills and fever, ached all over, lost appetite and sleep. After taking quinine without benefit a friend recommended Dr. Caldwell's (Laxative) Syrup Pepsin. I used it three days and was so much better that I sent for six bottles and used it while in camp. It drove the poison out of my system cleansed my blood, restored my appetite, and I am now in perfect health." Sold by all druggists and dealers in medicine. 50c and $1 bottles.

British Increase in Height.

No nation is increasing in height and weight so rapidly as the English, says a British statistician. The proof of this is shown in statistics recently collected of the height of 10,000 boys and men. At the age of 17 these averaged 5 feet 5 inches; at the age of 22, 5 feet 9 inches. In fifty years the average has gone up for the whole nation from 5 feet 7½ inches to 5 feet 8½ inches.

The Kansas City Southern railway has now inaugurated for the season its new through service from Kansas City to Hot Springs via Sallisaw and the St. L. I. M. & S. Ry. Through Pullman sleeping cars run direct between Kansas City and the great Health Resort via Little Rock.

This is the only company offering its patrons such service, and judging from the liberal patronage given last year, there is every reason to believe that this service is highly appreciated and what the public desires.

For rates and other information, write S. G. Warner, G. P. A., Kansas City Southern Railway, Kansas City, Mo.

It is easier for a camel to pass through the eye of a needle than for a man married to a rich wife to be the lord and master.

SHE IS VERY ILL

DUTCH PEOPLE ALARMED OVER THE CONDITION OF THEIR QUEEN.

CRISIS THOUGHT TO HAVE BEEN PASSED

Prince Henry Hardly Leaves Her Bedside—The Queen's Mother is Also in Constant Attendance—It is Reported That Her Majesty Caught Cold Recently While Sitting in a Park.

AMSTERDAM.—(Special.) All classes of the population are deeply grieved at the illness of Queen Wilhelmina. Prince Henry, of the Netherlands, the prince consort, is overwhelmed with anxiety and hardly leaves the queen's bedside. The queen mother is also in constant attendance upon the royal patient. Whenever her majesty enjoys peaceful sleep, Prince Henry busily occupies himself in replying personally to the numerous telegrams which are constantly arriving from European sovereigns and courts.

Dr. Roessings, one of the queen's attending physicians, is staying permanently at the palace. Her majesty's

QUEEN WILHELMINA.

temperature has reached the alarming height of 104 degrees, but the departure from the palace of Professor Rosenstein, the pathologist of Leyden university, who has been summoned in consultation, is considered a hopeful sign that the crisis is past.

It is reported that Queen Wilhelmina caught cold recently while sitting in the park. It is also said that living at Castle Loo does not seem to agree with her majesty.

The illness of Queen Wilhelmina is a universal topic throughout the country and the various public bodies have expressed sympathy for the queen and their hopes for her recovery.

The Official Journal of The Hague, contains a notification from the minister of the interior, Dr. Kuyper, to the effect that Prince Henry of the Netherlands, the prince consort, desires that all public festivities in celebration of his birthday be canceled in consequence of the queen's illness.

Prayers for the queen's recovery are being offered in the churches.

It is rumored that another specialist, Professor Nolan, has been summoned to attend her majesty.

The cause of Queen Wilhelmina's illness is a miscarriage.

IS ACCUSED OF FRAUD.

Joe Moore, of Guthrie, Oklahoma, is Accused of Mortgaging Imaginary Cattle.

SOUTH McALESTER, I. T.—(Special.) United States Marshal Hackett received a message from the sheriff at Big Springs, Texas, that Joe Moore, formerly of the firm of Moore, Givens & Co., at Guthrie, I. T., was under arrest there on a charge of securing money under false pretenses. Moore was arrested under a warrant issued by Commissioner Allen Wright last week and there was a reward of $500 for his capture. It is claimed that Moore mortgaged imaginary cattle and offered the mortgage secured from the bank of Guthrie, I. T., $4,214 in addition to the mortgage. The note had the names of J. A. Dillbeck, J. M. Leader, J. M. Burns and E. A. Gully as sureties. The bank got anxious about the note and called on the sureties for payment. They responded, having the mortgage assigned to them. They claim that investigation showed that Moore did not have any cattle at all.

Moore had used the firm name, but his partner denies all connection with the matter. Moore left for parts unknown ten days ago and it is claimed that he took with him nearly $1,000 which had been intrusted to him by farmers around Guthrie for safe keeping. The reward is offered by the sureties. Moore will have his preliminary hearing at Abilene, Texas, next week.

After Twelve Years.

DES MOINES, IA.—(Special.) John Wesley Elkins, who confessed to the murder of his father and stepmother when he was 11 years of age, is to be released from the state prison at Anamosa, after twelve years and three months of what is admitted to be illegal incarceration. It is now well understood that the imprisonment was without warrant of law, as the courts have held repeatedly that a child under 14 years of age is presumably incapable of crime.

ANOTHER DETROIT MURDER.

Edward Hawley, Shot and Instantly Killed by His Brother.

DETROIT, MICH.—(Special.) Edward Hawley, aged about 41 years, was shot and instantly killed by his brother James Hawley, who is about 60 years of age, in their saloon at River and Nineteenth streets. Edward, James and Luke Hawley are well known river men, owners of a tug line and other vessel property also the saloon in which the shooting occurred. The three brothers were engaged in an argument about a vessel just purchased by Edward and Luke and the latter was trying to induce James to take a share in the new boat. James accused his brothers of trying to "bluff" him into the deal. Edward then playfully brushed James' face with a bunch of shrubs which he had in his hands and James warned Edward not to do that again or he would shoot. Edward repeated the act and James shot him in the right breast. Edward died in a few minutes and James surrendered to the police.

At the station James said: "They forced me to do it."

MURDERED AND HOUSE ROBBED.

Three Robbers Call Farmer to Door and Kill Him, Then Secure Their Booty.

UNIONTOWN, PA.—(Special.) Alfred J. Jones, a wealthy farmer, and uncle of District Attorney Jones, was murdered and his house robbed near Gans by three burglars. A voice inquiring the way to the railroad, about 9 o'clock, attracted Jones to the door, and as he opened it he saw three men, who had quietly slipped up. While Jones was trying to push the door shut one of the burglars reached around the door with his revolver and fired at Jones. He fell to the floor at the first shot and the burglars had everything their own way.

Two sisters who lived with Jones were locked in the kitchen and guarded by one of the men, while two went to the room where Jones kept his chest. The heavy chest was broken open and everything of value taken. It was 4 o'clock before the women could summon courage to call for help and none came until 6:30. Their brother had been shot through the brain and died almost instantly. No trace of the murderers has as yet been found. Jones was eccentric and was supposed to keep a quantity of money in his chest.

ACCUSED OF SMUGGLING.

New York Man, Jewelry Laden, Arrested as He Crossed Mexican Line.

EL PASO, TEX.—(Special.) William Wiesenberger, of New York City, was arrested by United States custom officers as he stepped off the Mexican Central railroad direct from the City of Mexico with valuable jewels, watches, Mexican drawn work, and other valuables. Wiesenberger had seventeen valuable watches hidden in a belt around his waist. Jewelry was concealed about his person in every conceivable way and his trunk was full of valuables amounting to $6,000. Wiesenberger wired his brother in New York city to come to his aid at once and employed an attorney to fight his case. The preliminary trial was held and Wiesenberger was bound over under heavy bond on a charge of smuggling.

HE WAS SPAIN'S KING.

Don Francisco d'Azzize, of Eventful Career, Passes Away in Exile.

SEINE, FRANCE.—(Special.) Don Francisco D'Azzize, the former King of Spain, is dead. He was expelled from Spain in 1868.

Don Francisco d'Azzize, Duke of Cadiz, was born at Aranjuez, Spain, 1822, and October 10, 1846, was married at Madrid to his cousin, Queen Isabella II. of Spain, and was the same day proclaimed king of Spain. Queen Isabella and her husband were expelled from Spain as a result of the revolution of September 30, 1868. She formally abdicated the throne, in Paris June 25, 1870, in favor of her son, the late King Alfonso XII., father of the present king of Spain, Alfonso XIII. The latter, who was proclaimed king, under the regency of his mother, on the day of his birth, May 17, 1886, is to be crowned May 17, next.

Negro Shot to Pieces by a Mob.

NATCHITOCHES, LA.—(Special.) An unknown negro, who shot and killed Deputy Sheriff J. B. Thomas near Victoria, La., was captured by a mob of fifty men and shot to pieces. Deputy Thomas was killed while he was attempting to arrest the negro, who shot and wounded another negro.

BRIEF BITS OF NEWS.

Herr Ferenczy, the manager of the Central theater of Berlin, has gone to London to secure rights for the production of "Ben Hur" in Germany and Austria.

Governor Odell of New York has signed a bill appropriating $100,000 for a statue of the late President McKinley in Buffalo.

Telegrams from Birmingham, Eng., say the scarcity of American meat and the consequent increase in the price have obliged many retailers there to close their stores.

The London chamber of commerce has accepted the invitation of the New York chamber of commerce and will send a delegation to the opening of the latter's new headquarters.

A dispatch to the Iskra Volksblatt from Belgrade, declares that seventeen persons have been drowned by the capsizing of a ferryboat near Orsova, on the Danube.

Stamps Valued at Some Cash.

Henry J. Crocker, the San Francisco capitalist, has 100 rare stamps that are valued at $20,000. His rarest stamp is the 20-cent label issued in 1845 by the St. Louis post office, before there were any regular United States stamps.

A Much-Traveled Sailor.

Horatio McKay, the trans-Atlantic captain who recently retired from active duty on the Lucania, has crossed the ocean 250 times and traveled altogether by sea a distance of 2,550,000 miles.

Doing Away with Prairie Dogs.

The Kansas Agricultural College is sending out $1,300 worth of prairie dog poison a month, and is unable to supply the demand.

Spring lamb is one thing in the dictionary and quite another on the bill of fare.

THE BEST RESULTS IN STARCHING
can be obtained only by using Defiance Starch, besides getting 4 oz. more for same money—no cooking required.

The elevator man in calling out floors tells stories.

SENSIBLE HOUSEKEEPERS

will have Defiance Starch, not alone because they get one-third more for the same money, but also because of superior quality.

Experience is a school which gives no diplomas of excellency.

TRY ONE PACKAGE.

If "Defiance Starch" does not please you, return to your dealer. If it does, you get one-third more for the same money. It will give you satisfaction and will not stick to the iron.

No man has a moral right to disclose a cloven breath during the honeymoon.

ALL UP TO DATE HOUSEKEEPERS
use Defiance Cold Water Starch, because it is better and 4 oz. more of it for same money.

Though a man may be entitled to credit for his ability to avoid work, he is seldom able to obtain it at the corner grocery.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

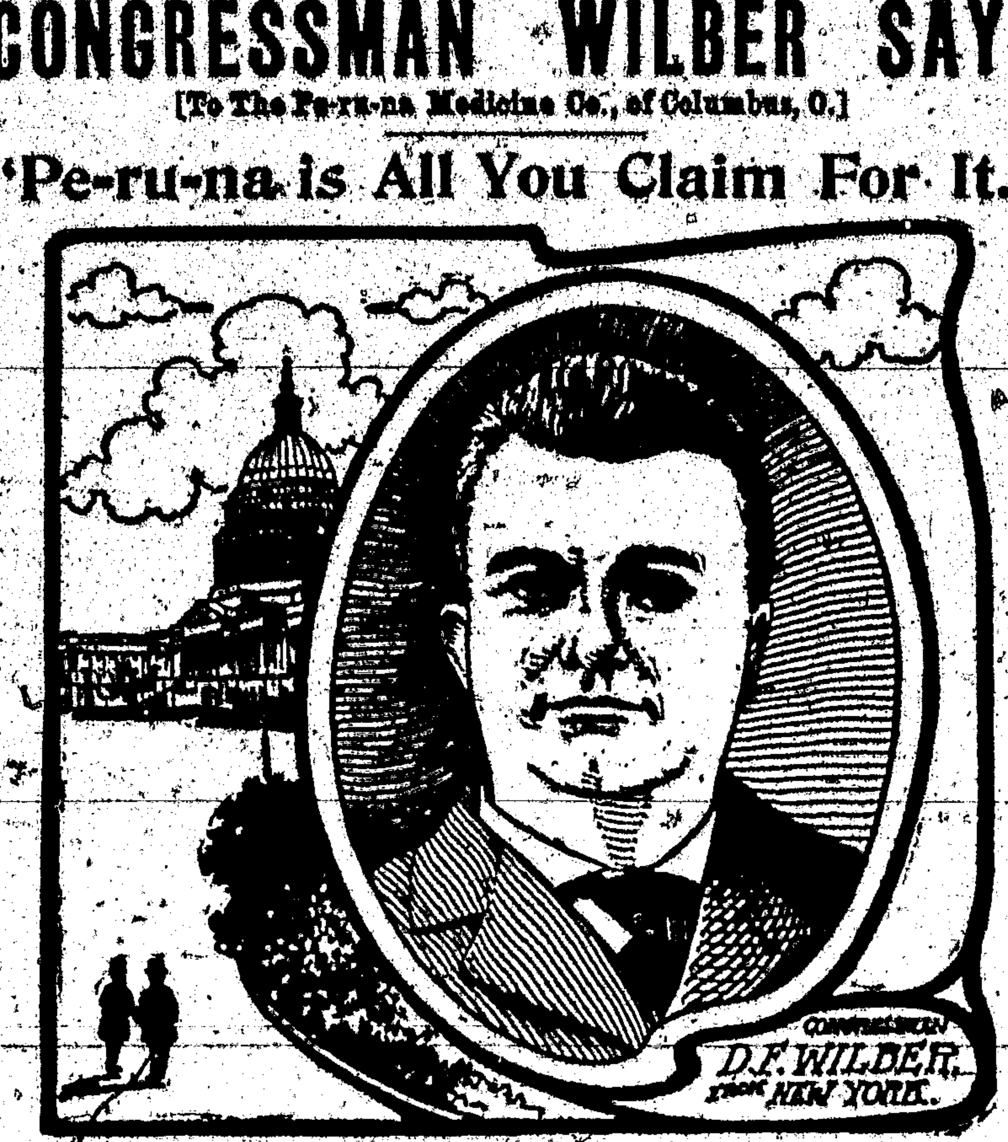
CONGRESSMAN WILBER SAYS

[To The Pe-ru-na Medicine Co., of Columbus, O.]

"Pe-ru-na is All You Claim For It."



Congressman D. F. Wilber, of Oneonta, N. Y., writes:

The Peruna Medicine Co., Columbus, O.:

Gentlemen—"Persuaded by a friend I have tried your remedy and I have almost fully recovered after the use of a few bottles. I am fully convinced that Peruna is all you claim for it, and I cheerfully recommend your medicine to all who are afflicted with catarrhal trouble."—DAVID F. WILBER.

Peruna a Preventive and Cure for Colds.

Mr. C. F. Given, Sussex, N. B., Vice President of "The Pastime Boating Club," writes:

"Whenever the cold weather sets in I have for years past been very sure to catch a severe cold which was hard to throw off, and which would leave aftereffects on my constitution the most of the winter.

"Last winter I was advised to try Peruna, and within five days the cold was broken up and in five days more I was a well man. I recommended it to several of my friends and all speak the highest praise for it. *There is nothing like Peruna for catarrhal afflictions. It is well nigh infallible as a cure, and I gladly endorse it.*—*C. F. Given.*

Gave New Life and Strength.

Mr. Edward Laws, Crown Point, Ind., writes the following:

"I must tell you what a grand help Peruna has been to me. For over two years I suffered with catarrh of the lungs and throat, and although I doctored for it, nothing brought me relief until I tried Peruna. One bottle helped me greatly, and three more effected a complete cure, while at the same time it gave such new life and strength to my whole body that I feel like a new man and ten years younger.

"I hope that my testimonial may induce others who are similarly afflicted to try Peruna."—Edward Laws.

A Prominent Singer Saved From Loss of Voice.

Mr. Julius Weisslitz, 176 Seneca street, Buffalo, N. Y., is corresponding secretary of The Saengerlust, of New York; is the leading second bass of the Saengerlust, the largest German singing society of New York, and also the oldest.

In 1899 The Saengerlust celebrated its fiftieth anniversary with a large celebration in New York City. The following is his testimony:

"About two years ago I caught a severe cold while traveling and which settled into catarrh of the bronchial tubes, and so affected my voice that I was obliged to cancel my engagements. In distress, I was advised to try Peruna, and although I had never used a patent medicine before, I sent for a bottle.

"Words but illy describe my surprise to find that within a few days I was greatly relieved, and within three weeks I was entirely recovered. I am never without it now, and take an occasional dose when I feel run down."—Julian Weisslitz.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

HEALTH AND ALL ITS BLESSINGS

Health will come with all its blessings to those who know the way, and it is mainly a question of right-living, with all the term implies, but the efforts which strengthen the system, the games which refresh and the foods which nourish are important, each in a way, while it is also advantageous to have knowledge of the best methods of promoting freedom from unsanitary conditions. To assist nature, when nature needs assistance, it is all important that the medicinal agents used should be of the best quality and of known value, and the one remedy which acts most beneficially and pleasantly, as a laxative, is—Syrup of Figs—manufactured by the California Fig Syrup Co.

With a proper understanding of the fact that many physical ills are of a transient character and yield promptly to the gentle action of Syrup of Figs, gladness and comfort come to the heart, and if one would remove the torpor and strain and congestion attendant upon a constipated condition of the system, take Syrup of Figs and enjoy freedom from the aches and pains, the colds and headaches and the depression due to inactivity of the bowels. In case of any organic trouble it is well to consult a competent physician, but when a laxative is required remember that the most permanently gratifying results will follow personal cooperation with the beneficial effects of Syrup of Figs. It is for sale by all reliable druggists. Price fifty cents per bottle.

The excellence of Syrup of Figs comes from the beneficial effects of the plants used in the combination and also from the method of manufacture which ensures that perfect purity and uniformity of product essential in a perfect family laxative. All the members of the family from the youngest to the most advanced in years may use it whenever a laxative is needed and share alike in its beneficial effects. We do not claim that Syrup of Figs is the only remedy of known value, but it possesses this great advantage over all other laxatives that it acts gently and pleasantly without disturbing natural functions, in any way, as it is free from every objectionable quality or substance. To get its beneficial effects it is always necessary to buy the genuine and the full name of the Co.—California Fig Syrup Co.—is printed on the front of every package.

C. H. BROWN, BUSINESS MANAGER.

LOCAL NEWS.

Mrs. John Riris and son were over from Bonito Friday.

We want the news. An editor doesn't know everything.

W. M. Riley and wife were over from Capitan Thursday.

Hunter Byrd left Thursday for Old Mexico to be gone some time.

There are now over fifty men on the payroll at the American mine.

Amy Gaylord is the mill man at the American, having charge of the stamps.

A. E. Williams and wife have gone to Las Cruces to be absent a few days.

S. T. Gray passed through town Friday on his way home from White Oaks.

Baxter Lodge, Knights of Pythias, of White Oaks gave a grand ball last Friday night.

Governor Otero last week reappointed Geo. E. Sligh a notary public for Lincoln county.

Uncle Jimmy Donovan was in town Saturday from his ranch on the head of Nogal canon.

Mrs. W. E. Dudley and little girl arrived from Texas Saturday and now the Professor is happy.

Reports from the orchards of the county say that the freeze of last week was not severe enough to do the young fruit any damage.

Robert Hinchey the efficient goat man in charge of C. H. Byfields herd, in the Three Rivers country, was a caller at our office Saturday.

Miss Alice Galucia, who has been teaching in Lincoln for several months past, is here the guest of Mrs. Lillie Moore. The school in Lincoln closed a few days ago for the term.

J. H. Perry, of Bonito, passed through town Saturday with a herd of sixteen hundred head of Angora goats which he was moving to his summer range on the Bonito.

Paul Meyer the White Oaks livery man was in Nogal Thursday and passed on south. Perhaps Paul could tell us what Eagle Creek girls say when the question of marriage is mentioned.

Forrest Smith returned from Kansas City last week where he had shipped four hundred head of Angora muttons. He tells us the market is good on this class of stock and that the Angora sells side by side with the sheep.

C. A. Fox, former manager for Southwestern Mercantile Co., at Capitan, but now traveling for Krakour, Zork & Moye, of El Paso, Tex., was here Saturday in the interests of his company. They are one of the large hardware firms of the Pass city.

It's a pity that the young people cannot have a sociable party without some young man creating a disturbance to mar the occasion. We are not going to mention any names this time but if it is repeated we shall do so. A young man who does not know how to behave in public and in the presence of young ladies should stay at home.

Miss Ula Gilmore was in Nogal Friday en route to White Oaks.

Mrs. George Dillard, Jr. returned home from Texas yesterday.

Miss Clara May is visiting with her sister, Mrs. Chas. Henley.

G. A. Dean, a practical blacksmith, has charge of the Nogal shop.

If you want some good cheap lumber, see advertisement, first page.

G. Dean and D. D. Kennon are here from Roswell looking after mining interests.

Miss Bessie Reed of Angus has been visiting with Mrs. C. H. Brown the past week.

A protracted meeting will begin at Nogal May 6, Rev. J. L. Sells of Las Cruces in charge.

The Nogal postoffice has been moved to the Moore residence, west of the REPUBLICAN office.

Mrs. Geo. E. Sligh is visiting with her parents, Mr. and Mrs. Doctor Lane, at White Oaks.

Fred Pfingsten, C. H. Brown, Henry Emmerson and Robert Bourne are in attendance at district court as jurymen.

Go to Welch & Titsworth, Capitan for Sheepshears, Marking Paint, Screen doors, Chicken Netting, etc. 3tf

This is the busy season of the year now with the goat and sheep men; harvesting their spring crop of lambs.

Kittie Buford an eighteen year old girl of White Oaks committed suicide last Saturday night by taking carabolic acid

J. M. Rice, general manager of the Eagle and American Mining Companies, is in Chicago and will return about May 10.

The people of the Angus district by unanimous vote last Saturday have decided to build a one thousand dollar school house.

Col. John S. Bishop left for Philadelphia, Pa., Saturday after a week's stay in Nogal. He was highly pleased with his mining property—the Nogal Queen.

C. R. Sigle is doing work on the Blucher claim adjoining the Nogal Queen mine in Nogal canon. The Nogal Queen is the property of Capt. J. S. Bishop, of Philadelphia, Pa.

A new boy weighing eleven pounds arrived at the home of County Commissioner Ed. C. Pfingsten last week and all are reported doing well except Ed, but he will recover.

Uncle Tom Henley has gone to the American mine to take charge of the store there which is a guarantee that the miners will have honest treatment. He has employed G. A. Dean, a practical blacksmith to look after the shop.

Last week we mentioned what Lincoln county girls say when the question of marriage is proposed, and in so doing we purposely left out the Eagle Creek girls not because we do not love them but for the reason that we had not heard of a proposition of marriage being made to one for lo these many moons. But Eagle Creek girls are pretty and smart, just the same and if we were hunting for a wife we would go to Eagle Creek to find one.
