Mining Interests in Mexico.

President Diaz, in his annual message to the congress of Mexico, says with reference to mining interests: "The progress of mining may be appreciated by the number of new mining properties that have been acquired under the law on the subject. From July, 1892, up to the present date, 10,099 titles, covering 86,426 "pertenencias" of one hectare have been issued. The constant increase in the exportation of metals and ores of all kinds also affords the measure of the increase. In the output during the last fiscal year the exportation of mineral products, metalic and non metalic, was valued at $95,273,000, showing an increase of $3,835,000 over the exportation of the previous year." The executive says of judicial charges: "The transfer of the district court of Sonora to Nogales and the concentration in this capital of the three circuit tribunals took place in pursuance of the respective legal enactments, and it is to be hoped that these measures will justify the powerful motives of public expediency which led to their being decided upon."

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequaled for sprains, bruises and rheumatism. For sale by M. G. Paden.

An exchange says that merchants who want newspaper men to roast grocery peddlers, Cheap John stores and the like would make newspaper men feel more like doing so if these same merchants would quit using free letter heads of fruit firms, and wholesale gargling oil envelopes, baking powder statements, sidewalk advertisements and rubber stamps and patronized home printing offices.

Why experiment on yourself with remedies of doubtful utility when you can get Chamberlain's Cough Remedy, which has stood the test of time? Twenty-five years' sale and use have proven that remedy to be a prompt and certain cure for colds. It will cure a cold in a day if taken as soon as the cold has been contracted and before it has settled in the system. Sold by M. G. Paden.

Official Paper of Lincoln County

It would be a greater disappointment to the democrats of the country than to the republicans should McKinley fail to secure the presidential nomination of his party. McKinley has been president long enough to demonstrate that he lacks a good deal of what Grover Cleveland was overburdened with. Cleveland was president of the United States in the strongest sense of the term. Nobody ever accused him of being an automaton through which executive orders were turned out as per dictation of its operators. Cleveland had a policy, so clearly defined that even the school boys of the country could easily understand it; he was, as president, endowed with that Americanism which caused him to stand by his convictions irrespective of consequences. McKinley has no policy, few convictions, is susceptible to flattery, and is a dummy in the hands of his managers and does not know it. His dream of conquest in the Philippines; his imperialistic tendencies; the '99 trusts; red ink in his very cringe; his lack of force of character; his floating like a buoy on any and every issue suggested by Mr. Hanna, though likely to gain him favor with the people, wishy washy is all against him, and will make him an easy victim of the democratic party in the race for the presidency next year. The greatest danger democrats have to fear is that McKinley will be sidetracked, and that a stronger candidate, one who has no political reputation, in fact a war hero (Dewey for example), will be substituted. Should the republicans be convinced, and it seems they are rapidly becoming so, that it is impossible to win with McKinley and republican party principles, a winning card will be drawn from some other source, no matter whether it is spades or clubs, the party will accept it. Political history has revealed two things that are as absolutely certain as the supremacy of American arms: The one is, that a war hero cannot be defeated for the presidency; and the other is, that that same hero is the least competent that possible could have been chosen. It would be a pity to sacrifice Dewey to the same influences that made Grant president and thus shadow the brilliant record that makes Dewey truly great as a sailor. Dewey probably understands what a change from the Olympia to the ship of state would mean, and the chances are that he will decide to remain on the Olympia.

Captain Coghlan, commander of the Raleigh in the campaign around the Philippine islands last year, and who was during that time in some very warm places, has been transferred to Sitka, Alaska, where, as superintendent of the government light houses, he will have a change of climate.

Senator Hoar says the reason England likes McKinley's policy is because the Monroe Doctrine is being buried. In this particular England does not differ from McKinley, that is exactly the reason he likes it.

District court is in session at Lincoln. The term will probably last three weeks, and it is thought the docket will be cleared at the end of the session.

Otis has at last managed to get on the firing line over in the Philippines. It was not Filipino bullets that sought his life either, but those of his own men.

There have been several lively engagements in the Philippines lately. The Filipino is always ready for another skirmish, however.

The E. P. and N. E trains are making three trips a week over the line from Alamogordo to the Salado—a try-weekly as it were.

It is now reported that a branch of the E. P. and N. E will build into the San Andres if any quantity of ore is discovered there.

The town of Gallop has a saloon for every 90 inhabitants.

THE RAILROAD COMPANY'S

SIDE OF THE COAL QUESTION AT THE SALADO

Given by President Eddy. The Thirty Discharged Miners the Instigators of a Mild Strike, for Which They Were Let Out by the Company.

The El Paso Herald of the 11th instant says:

An article appeared in a recent issue of the White Oaks EAGLE to the effect that the coal in a number of shafts at Salado had pinched out and the outlook was very discouraging.

In the EAGLE'S article the statement of the failure of the vein purported to come from some 30 discharged miners enroute to Corrillos. These men, as a matter of fact, were the instigators in a mild strike, and were discharged by the company. This information comes in a special to the Herald from Gray's City. It further says the main source of discontent was that the eating house was run by Chinamen.

Rumors, however, are so persistent that the vein is pinching out and a diamond drill is being used to relocate the lead, that a detailed statement of the company's side of the matter was obtained from President Eddy of the White Oaks.

"There is no pinching out of the Salado vein," said Mr. Eddy this morning.

"There is no trouble about the coal; it is there in abundance. All we need is time to fairly open a mine. As a matter of fact the term pinching applies only to mineral, and not to coal. Coal veins do not pinch out. It is true that what are known specifically as faults under the general term of 'troubles,' and which are, in effect a seemingly abrupt termination of the vein, exists in ours as in all other coal fields.

"As any mining man knows, strata of coal extend evenly in a vein of practically the same thickness over what was once the basin of a lake. At various times there have occurred upheavals, resulting from volcanic or other causes, and strips of this even vein of coal have been thrust upward above, or downward below, the level of the main body; and so, when the miner, following a lead, comes to one of these 'faults,' he seems to have reached an abrupt termination of the coal deposit. It is then necessary to use the diamond drill either upward or downward to locate the continuation of the vein.

"Now these 'faults' are just what we are looking for all over the field, and we are at present using, and will continue to use, a diamond drill, because we want to know our field thoroughly and locate these 'faults' and other 'troubles' that we may drive our headings accordingly. But so far as the opening at Gray's is concerned, there is no fault there, and we are not using a diamond drill, but are still driving a heading.

"As a matter of fact, we are not yet mining in a thorough sense of the word. It is necessary first to drive deep headings and to drive air chambers, and it will be thirty days before the headings are deep enough to turn rooms. Even as we go on, we are sending out some coal, loading with the tipple now in place; and by Monday we will be sending out five cars a day, but this product is merely incidental to the work of opening the mine for extensive operations. The work is in charge of Supt. T. S. Wells of Wilkesbarre, an experienced soft coal mining man. I hear from him every few hours, and know the progress being made. It is frequently the case that a year's time is necessary for the complete opening of a mine, but we expect, after only a few months' work, to have the first opening in shape at the end of thirty day to produce 1,000 tons of coal a day.

"This first opening is in excellent condition; there are no troubles encountered so far, and we anticipate none. The thirty men who were discharged were let out because of a misunderstanding with the superintendent, and their places have all been filled.

"The Salado deposit is all right; the coal is there; and we will have an output up to our most sanguine expectations when the headings are driven deep enough to permit regular mining. There is nothing in the report that the vein is pinching out and El Paso people who have counted on Salado coal need not be alarmed."

A STRINGENT FOOD LAW.

Prohibits the Use of Arsenic or Alum in all Articles of Diet.

The law enacted by the Missouri legislature, a copy of which was recently published in our columns, and which prohibits the manufacture or sale of any article intended for food or to be used in the preparation of food which contains alum, arsenic, ammonia, etc., place Missouri state in the lead in the matter of sanitary legislation.

Laws restricting ... bread have been ... Germany ... this ...

Gr... house has just been built at the mines, and arrangements are being made for putting up a new commissary.

M. Simon of El Paso, is having a cottage erected on his homestead, near the Salado.

Mr Yates, father of Will, Jim and Sam Yates, died on Wednesday, October 11, after a very long illness.

J. H. Brown and J. A. Jernigan, with their respective families, came in from the Indian Territory a few days ago, desiring to go into business here as soon possible. Mr. Brown was a well known merchant in his former home, and Mr. Jernigan has been a traveling salesman for some time. We welcome them to Gray and wish them success in their new venture.

Surely, the EAGLE must have been misinformed in regard to the condition of the Salado coal mines. We quote from the El Paso Herald of October 12, in which Mr. Eddy is reported as saying:

"The Salado deposit is all right; the coal is there and we will have an output up to our most sanguine expectations when the headings are driven deep enough to permit regular mining. There is nothing in the report that the vein is pinching out, and El Paso people who have counted on Salado coal need not be alarmed."

So, evidently, Mr. Eddy does not feel discouraged, and he is in a position to know the truth, if anyone can.

Bryan thinks this country has no right to criticise England's Transvaal policy until our own is improved in the Philippines.

Official Paper of Lincoln County

It would be a greater disappointment to the democrats of the country than to the republicans should McKinley fail to secure the presidential nomination of his party. McKinley has been president long enough to demonstrate that he lacks a good deal of what Grover Cleveland was overburdened with. Cleveland was president of the United States in the strongest sense of the term. Nobody ever accused him of being an automaton through which executive orders were turned out as per dictation of its operators. Cleveland had a policy, so clearly defined that even the school boys of the country could easily understand it; he was, as president, endowed with that Americanism which caused him to stand by his convictions irrespective of consequences. McKinley has no policy, few convictions, is susceptible to flattery, and is a dummy in the hands of his managers and doesn't know it. His dream of conquest in the Philippines; his imperialistic tendencies; the '99 trust record in his very charge; his lack of force of character; his floating like a buoy on any and every issue suggested by Mr. Hanna, thought likely to gain him favor with the people—wishy washy, is all against him, and will make him an easy victim of the democratic party in the race for the presidency next year. The greatest danger democrats have to fear is that McKinley will be sidetracked, and that a stronger candidate, one who has no political reputation, in fact a war hero (Dewey for example), will be substituted. Should the republicans be convinced, and it seems they are rapidly becoming so, that it is impossible to win with McKinley and republican party principles, a winning card will be drawn from some other source, no matter whether it is spades or clubs, the party will accept it. Political history has revealed two things that are as absolutely certain as the supremacy of American arms: The one is that a war hero cannot be defeated for the presidency; and the other is, that that same hero is the least competent that possible could have been chosen. It would be a pity to sacrifice Dewey to the same influences that made Grant president and thus shadow the brilliant record that makes Dewey truly great as a sailor. Dewey probably understands what a change from the Olympia to the ship of state would mean, and the chances are that he will decide to remain on the Olympia.

Captain Coghlan, commander of the Raleigh in the campaign around the Philippine islands last year, and who was during that time in some very warm places, has been transferred to Sitka, Alaska, where, as superintendent of the government light houses, he will have a change of climate.

Senator Hoar says the reason England likes McKinley's policy is because the Monroe Doctrine is being buried. In this particular England does not differ from McKinley, that is exactly the reason he likes it.

District court is in session at Lincoln. The term will probably last three weeks, and it is thought the docket will be cleared at the end of the session.

Otis has at last managed to get on the firing line over in the Philippines. It was not Filipino bullets that sought his life either, but those of his own men.

There have been several lively engagements in the Philippines lately. The Filipino is always ready for another skirmish, however.

The E. P. and N. E trains are making three trips a week over the line from Alamogordo to the Salado—a try-weakly as it were.

It is now reported that a branch of the E. P. and N. E will build into the San Andres if any quantity of ore is discovered there.

The town of Gallop has a saloon for every 90 inhabitants.

THE RAILROAD COMPANY'S

SIDE OF THE COAL QUESTION AT THE SALADO

Given by President Eddy. The Thirty Discharged Miners the Instigators of a Mild Strike, for Which They Were Let Out by the Company.

The El Paso Herald of the 11th instant says:

An article appeared in a recent issue of the White Oaks EAGLE to the effect that the coal in a number of shafts at Salado had pinched out and the outlook was very discouraging.

In the EAGLE'S article the statement of the failure of the vein purported to come from some 30 discharged miners enroute to Cerrillos. These men, now a matter of fact, were the instigators in a mild strike, and were discharged by the company. This information comes in a special to the Herald from Gray's City. It further says the main source of discontent was that the eating house was run by Chinamen.

Rumors, however, are so persistent that the vein is pinching out and a diamond drill is being used to relocate the lead, that a detailed statement of the company's side of the matter was obtained from President Eddy of the White Oaks.

"There is no pinching out of the Salado vein," said Mr. Eddy this morning.

"There is no trouble about the coal; it is there in abundance. All we need is time to fully open a mine. As a matter of fact the term pinching applies only to mineral, and not to coal. Coal veins do not pinch out. It is true that what are known specifically as faults under the general term of 'troubles' and which are, in effect a seemingly abrupt termination of the vein, exists in ours as in all other coal fields.

"As any mining man knows, strata of coal extend evenly in a vein of practically the same thickness over what was once the bottom of a lake. At various times there have occurred upheavals, resulting from volcanic or other causes, and strips of this even vein of coal have been thrust upward above, or downward below, the level of the main body; and so, when the miner, following a lead, comes to one of these 'faults,' he seems to have reached an abrupt termination of the coal deposit. It is then necessary to use the drill and drill either upward or downward to locate the continuation of the vein.

"Now these 'faults' are just what we are looking for all over the field, and we are at present using, and will continue to use, a diamond drill, because we want to know our field thoroughly and locate these 'faults' and other 'troubles' that we may drive our headings accordingly. But so far as the opening at Gray's is concerned, there is no fault there, and we are not using a diamond drill, but are still driving a heading.

"As a matter of fact, we are not yet mining in a thorough sense of the word. It is necessary first to drive deep headings and to drive air chambers, and it will be thirty days before the headings are deep enough to turn rooms. Even as we go on, we are sending out some coal, loading with the tipple now in place; and by Monday we will be sending out five cars a day, but this product is merely incidental to the work of opening the mine for extensive operations. The work is in charge of Sup. T. S. Wells of Wilkesbarre, an experienced soft coal mining man. I hear from him every few hours, and know the progress being made. It is frequently the case that a year's time is necessary for the complete opening of a mine, but we expect, after only a few months' work, to have the first opening in shape at the end of thirty day to produce 1,000 tons of coal a day.

"This first opening is in excellent condition; there are no troubles encountered so far, and we anticipate none. The thirty men who were discharged were let out because of a misunderstanding with the superintendent, and their places have all been filled.

"The Salado deposit is all right; the coal is there; and we will have an output up to our most sanguine expectations when the headings are driven deep enough to permit regular mining. There is nothing in the report that the vein is pinching out and El Paso people who have counted on Salado coal need not be alarmed."

A STRINGENT FOOD LAW.

Prohibits the Use of Arsenic or Alum in all Articles of Diet.

The law enacted by the Missouri legislature, a copy of which was recently published in our columns, and which prohibits the manufacture or sale of any article intended for food or to be used in the preparation of food which contains alum, arsenic, ammonia, etc., places that state in the lead in the matter of sanitary legislation.

Laws restricting the use of alum in bread have been in force in England, Germany and France for many years. In this country, in Minnesota, Wisconsin, Michigan, Ohio, Kentucky and several other states, direct legislation in reference to the sale of alum baking powders has also been effected. In several of these states their sale is prohibited unless they are branded to show that they contain alum, and in the District of Columbia, under the laws of congress, the sale of bread containing alum has been made illegal.

Following are the names of some of the brands sold in this vicinity which are shown by recent analysis to contain alum. Housekeepers an grocers should cut the list out and keep it for reference.

BAKING POWDERS CONTAINING ALUM:

K. C. Contain Alum.
Made by Jacques Mfg. Co., Chicago.
BON TON Contains Alum.
Made by Great Omaha Co., Chicago.
IRONE Contains Alum.
Made by Hanson Baking Powder Co., San Francisco.
PERFECT Contains Alum.
Made by Perfect Baking Powder Co., St. Louis.
CLOVER LEAF Contains Alum.
Made by Pacific Mfg. Co., Los Angeles.
CALUMET Contains Alum.
Made by Calumet Baking Powder Co., Chicago.

In addition to these, many grocers sell what they call their own private or special brands. These powders are put up for the grocer, and his name put upon the label, by manufacturers of alum powders. The manufacturers, it is said, find their efforts to market their goods in this way greatly aided by the ambition of the grocer to sell a powder with his own name upon the label, especially as he can make an abnormal profit upon it. Many grocers, doubtless, do not know that the powders they are thus pushing are alum powders, the sale of which would be a misdemeanor under the law referred to.

It is quite impossible to give the names of all the alum baking powders. They are constantly appearing in all sorts of disguises, under different names and at all kinds of prices, even as low as five and ten cents a pound. They can be avoided, however, by the housekeeper who will bear in mind that all baking powders sold at twenty five cents or less per pound are liable to contain alum, as pure cream of tartar powders can not be produced at anything like this price.

Gray Gleanings.

Gray, Oct. 17.—A two story boarding house has just been built at the mines, and arrangements are being made for putting up a new commissary.

M. Simon of El Paso, is having a cottage erected on his homestead, near the Salado.

Mr. Yates, father of Will, Jim and Sam Yates, died on Wednesday, October 11, after a very long illness.

J. H. Brown and J. A. Jernigan, with their respective families, came in from the Indian Territory a few days ago, desiring to go into business here as soon possible. Mr. Brown was a well known merchant in his former home, and Mr. Jernigan has been a traveling salesman for some time. We welcome them to Gray and wish them success in their new venture.

Surely, the EAGLE must have been misinformed in regard to the condition of the Salado coal mines. We quote from the El Paso Herald of October 12, in which Mr. Eddy is reported as saying:

"The Salado deposit is all right; the coal is there and we will have an output up to our most sanguine expectations when the headings are driven deep enough to permit regular mining. There is nothing in the report that the vein is pinching out, and El Paso people who have counted on Salado coal need not be alarmed."

So, evidently, Mr. Eddy does not feel discouraged, and he is in a position to know the truth, if anyone can.

Bryan thinks this country has no right to criticise England's Transvaal policy until our own is improved in the Philippines.

Territory of New Mexico, } ss.
County of Lincoln, }

To the delinquent taxpayers, known and unknown, in the foregoing tax list:

You are hereby notified that I will apply to the District Court of the Fifth Judicial District of New Mexico, held in and for the said County of Lincoln, on the 20th day of November, A. D. 1899, for judgment against all of the parties named in the foregoing delinquent tax list and against the lands, real estate and personal property mentioned and described therein for the amount of said delinquent taxes, together with the costs, penalties and interest due and unpaid thereon, and for an order to sell said property to satisfy such judgment, and will within thirty days after the rendition of such judgment against the property described in the foregoing list offer the same for sale at public auction at the front door of the Court House in Lincoln, Lincoln County, New Mexico, to the highest and best bidder for cash.

HENRY LUTZ,
Collector of Lincoln County, New Mexico.

El Paso is dependent more on mining than any industry for its permanent growth, and this industry should be fostered in all seriousness. It occupies the minds of the business men now to a far greater degree than all other industries in this section and bids fair to grow to a much larger extent. Every available locality is being prospected with an earnestness that is bound to be rewarded sooner or later, for it only requires diligent search on scientific plans to find the coveted treasures of gold, silver and copper. The mountains are full of these metals, and much of it will be uncovered and brought to light in the next few years by the industrious army of prospectors now seeking it. The Southwest is entering upon the greatest mining era in her history and grand things will result from it.—Ex.

The class was having lessons in natural history, and the teacher asked:

"Now, is there any boy here can tell me what a zebra is?"

Tommy—Yes, sir; I can.

Teacher—Well, Tommy, what is a zebra?

Tommy—Please, sir, a zebra is a donkey with a football suit on!—Tit-Bits.

DELINQUENT TAX LIST

Accused of Illegal Branding of Cattle.

Last Friday officer Jas. Brent arrested Lishla Leslie near Red Lake, on charge of larceny of cattle. Fifty or sixty head of cattle were found in his pasture; a number, it is claimed, belonged to Joe Vega, others belonging to the Block Cattle Co. and, —W Co., were identified. At Red Lake young Leslie got on his horse by permission, to ride into the lake to get a bucket of water, the water being cooler out in the lake than near the shore, was the excuse for getting on horse back. When mounted with bucket in hand, and with stake rope only on the horse, not having taken time to saddle or bridle the animal, Leslie started toward the lake, when the horse began plunging and pitching with the rider, who apparently was putting forth every effort to ride him, until a hundred and fifty or two hundred yards away, when he fell on the horse's neck sticking spurs into his sides, and as the boys say, "split the breeze" for parts unknown, with officers in pursuit but out of range. Robert Lislie, Lishla's father was also arrested here Monday on the same charge, and at a preliminary hearing before Justice [illegible] under a $250 [illegible] and will have [illegible] before Justice [illegible]

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c and $1.00. Trial bottles free at M. G. Paden's Drug Store; every bottle guaranteed.

The property qualification for jurymen is causing some delay at Lincoln. The jury commissioners selected a number who were not qualified under the act and yesterday the following named jurymen were summoned from here: Grand jury, Col. T. W. Heman, Chas. D. Mayer, L. H. Rudisille, W. C. McDonald. Petit jury, Chas Bull, J. A. Cooper. William Boone was summoned from Nogal.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recomend it to the public." For sale by M. G. Paden.

Dave Tinnen came in yesterday from Nogal, where he has been for two weeks doing assessment work on a number of mining properties under his control in the Nogal district. Dave and Lum Byfield crossed the mountains Monday night to the head of Eagle Creek and managed to kill 15 turkeys in a very short time, most of which number they distributed among friends here and at Nogal. The Editor considers himself very fortunate to be in the list, turkey or no turkey, but we have the turkey tambien.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by M. G. Paden.

DIED.—William Wallace Roller, 14 months old baby of Mr. and Mrs. Arthur Roller of Nogal, last Sunday afternoon. Little Wallace Roller had been sick for about ten days, but was not thought to be dangerously sick until last Sunday morning, when his parents started with him for White Oaks for medical assistance. The baby died before they could reach here, and was laid to rest in the White Oaks cemetery Monday afternoon. Mr. and Mrs. Roller are acquaintances of E. W. Parker and family, and the funeral took place from the Parker residence at half past 2 o'clock Monday afternoon.

Picacho Correspondence.

Picacho, Oct. 16.—During the past two weeks there has been little, if any, news of general interest in this section. The weather has continued exceptionally dry, and the stock that are not fed are beginning to show the effects of scant grazing.

R. P. Hopkins has just cut and housed his fourth crop of alfalfa this year, and two or three others have been equally fortunate. The apple crop, both of early and winter varieties, is very short in this neighborhood, 3 cents per pound being easily obtainable for fruit taken off the orchards.

The traffic both of passengers and freight appears to be on the increase, and few days pass without guests being entertained at Hopkins' Postoffice hotel enroute for Roswell, White Oaks or Nogal. Apparently few of those traveling in your direction have any desire to make Lincoln their objective point, unless court or some other imperative business demands their presence there.

Mr. and Mrs. Roberts have lately returned home from a protracted visit to Cap. and Mrs. Roberts of Nogal, and express themselves as well pleased with their trip.

Among others who have passed through here during the past few days, headed in your direction, I may mention an ambulance load of choice corn fed Kansas men and ladies, who rested over one night at Prof Hopkins' hotel. Of course the professor, who always has one eye open for simple stock of any kind, exercised his well known powers of persuasion, and accordingly the said Kansas ladies good naturedly taxed his Fairbanks' scales to their utmost, at least to the limits of their available weights. I do not like to run the risk of questionable veracity by giving the actual result of their combined weight, although the worthy landlord immediately after the weighing business was concluded, in answer to an urgent question put by Mr Roberts, his father in law, replied with a deep sigh of relief that the scales had apparently passed through the ordeal without permanent injury. I will only add that it was the unanimous opinion of those present that according to the aforesaid samples, Kansas could always enter the lists for this particular kind of stock, either as regards weight or quality. If any of the ladies of your vicinity are contemplating the ascension of the White mountains in the near future, your correspondent would seriously advise them to delay such an exhaustive feat until the Kansas party referred to have prepared the way. I am informed that they intend making Nogal their headquarters, and from there will commence their wonderful pedestrian performances.

The Picacho public school, which has been lately put in a thorough state of repair, opened its fall session on the 2nd inst, with Prof. T. F. Swanwick, late principal of Lincoln school, in charge; this is the professor's second engagement by the same board of directors, and the patrons of the school appear to be unanimous in their satisfaction at the selection of the same teacher for the present term. The daily attendance is very satisfactory, and the pupils include four or five from the Military Institute of Roswell, and the Lincoln public school.

NOTICE.

TO DIRECTORS OF THE VARIOUS SCHOOL DISTRICTS OF LINCOLN COUNTY.

When purchasing text books with the public school funds, accompany your warrant with the following statement:

Give names of pupils for whom books are to be purchased.

Give kind and number of books required.

State reasons for district furnishing said books.

The law does not contemplate the indiscriminate purchase of text books by a district, and only those who are known to be unable to furnish books for themselves are to receive benefits from this source.

Unless these requirements are complied with I shall refuse to endorse such warrants. JOHN A. HALEY, Supt. of Schools.

Territory of New Mexico, }
County of Lincoln, } ss.

To the delinquent taxpayers, known and unknown, in the foregoing tax list:

You are hereby notified that I will apply to the District Court of the Fifth Judicial District of New Mexico, held in and for the said County of Lincoln, on the 20th day of November, A. D. 1899, for judgment against all of the parties named in the foregoing delinquent tax list and against the lands, real estate and personal property mentioned and described therein for the amount of said delinquent taxes, together with the costs, penalties and interest due and unpaid thereon, and for an order to sell said property to satisfy such judgment, and will within thirty days after the rendition of such judgment against the property described in the foregoing list offer the same for sale at public auction at the front door of the Court House in Lincoln, Lincoln County, New Mexico, to the highest and best bidder for cash.

HENRY LUTZ,
Collector of Lincoln County, New Mexico.

El Paso is dependent more on mining than any industry for its permanent growth, and this industry should be fostered in all seriousness. It occupies the minds of the business men now to a far greater degree than all other industries in this section and bids fair to grow to a much larger extent. Every available locality is being prospected with an earnestness that is bound to be rewarded sooner or later, for it only requires diligent search on scientific plans to find the coveted treasures of gold, silver and copper. The mountains are full of these metals, and much of it will be uncovered and brought to light in the next few years by the industrious army of prospectors now seeking it. The Southwest is entering upon the greatest mining era in her history and grand things will result from it.—Ex.

The class was having lessons in natural history, and the teacher asked:

"Now, is there any boy here can tell me what a zebra is?"

Tommy—Yes, sir; I can.

Teacher—Well, Tommy, what is a zebra?

Tommy—Please, sir, a zebra is a donkey with a football suit out.—Tit-Bits.

DELINQUENT TAX LIST

Accused of Illegal Branding of Cattle.

Last Friday officer Jas. Brent arrested Lishla Leslie near Red Lake, on charge of larceny of cattle. Fifty or sixty head of cattle were found in his pasture; a number, it is claimed, belonged to Joe Vega, others belonging to the Block Cattle Co. and —W. Co., were identified. At Red Lake young Leslie got on his horse by permission, to ride into the lake to get a bucket of water, the water being cooler out in the lake than near the shore, was the excuse for getting on horse back. When mounted with bucket in hand, and with stake rope only on the horse, not having taken time to saddle or bridle the animal, Leslie started toward the lake, when the horse began plunging and pitching with the rider, who apparently was putting forth every effort to ride him, until a hundred and fifty or two hundred yards away, when he fell on the horse's neck sticking spurs into his sides, and as the boys say, "split the breeze" for parts unknown, with officers in pursuit but out of range. Robert Lislie, Lishla's father was also arrested here Monday on the same charge, and at a preliminary hearing before Justice Stewart was placed under a $250 appearance bond, and will have another hearing before Justice Stewart Monday.

Robbed the Grave

A startling incident, of which Mr John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters;' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed, at M. G. Paden's Drug Store.

M. H. Webb for Drugs and Books. Orders promptly filled. El Paso, Texas.

THREE TIMES A WEEK.

New Schedule Now in Effect.

Time table No. 3, making changes in time on the entire E. P. and N. E. road, is now in operation. The morning train out of El Paso will leave every day at 10:30 a. m., and arrive at Alamogordo at 2:30 p. m., Jarilla being reached at 12:55. Returning, the train leaves Alamogordo at 3:05 p. m., and is due to reach El Paso at 6:50 in the evening.

The "farthest north" on the new time table is Capitan, 163.2 miles from El Paso, and trains will run through to that point tri weekly hereafter, instead of but once a week, leaving Alamogordo at 3:15 o'clock p. m. on Mondays, Wednesdays and Fridays and arriving at Capitan at 7:30 o'clock p. m. Returning it will leave Capitan at 10 a. m. on Tuesdays, Thursdays and Saturdays, and arrive at Alamogordo at 1:45 o'clock.

Between Alamogordo and Capitan there are eight stations and sidings, viz: Tularosa, Temporal, Three Rivers, Malagra, Jake's Spur, Carrizozo, Walnut and Indian Divide. Of these, Tularosa, Carrizozo and Capitan have day telegraph offices.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c and $1 00. Trial bottles free at M. G. Paden's Drug Store; every bottle guaranteed.

The property qualification for jurymen is causing some delay at Lincoln. The jury commissioners selected a number who were not qualified under the act and yesterday the following named jurymen were summoned from here: Grand jury, Col. T. W. Heman, Chas. D. Mayer, L. H. Rudisille, W. C. McDonald. Petit jury, Chas Bull, J. A. Cooper. William Boone was summoned from Nogal.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recomend it to the public." For sale by M. G. Paden.

Gone to Court.

John Y. Hewitt, George L. Ulrick, E. T. Collier, S. M. Parker, R. D. Armstrong, Col. G. W. Prichard. Mrs. Prichard accompanied the Col.

Dave Tinnen came in yesterday from Nogal, where he has been for two weeks doing assessment work on a number of mining properties under his control in the Nogal district. Dave and Lum Byfield crossed the mountains Monday night to the head of Eagle Creek and managed to kill 15 turkeys in a very short time, most of which number they distributed among friends here and at Nogal. The Editor considers himself very fortunate to be in the list, turkey or no turkey, but we have the turkey tambien.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy, for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Texas. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by M. G. Paden.

DIED.—William Wallace Roller, 14 months old baby of Mr. and Mrs. Arthur Roller of Nogal, last Sunday afternoon. Little Wallace Roller had been sick for about ten days, but was not thought to be dangerously sick until last Sunday morning, when his parents started with him for White Oaks for medical assistance. The baby died before they could reach here, and was laid to rest in the White Oaks cemetery Monday afternoon. Mr. and Mrs. Roller are acquaintances of E. W. Parker and family, and the funeral took place from the Parker residence at half past 2 o'clock Monday afternoon.

Picacho Correspondence.

Picacho, Oct. 16.—During the past two weeks there has been little, if any, news of general interest in this section. The weather has continued exceptionally dry, and the stock that are not fed are beginning to show the effects of scant grazing.

R. P. Hopkins has just cut and housed his fourth crop of alfalfa this year, and two or three others have been equally fortunate. The apple crop, both of early and winter varieties, is very short in this neighborhood, 3 cents per pound being easily obtainable for fruit taken from the orchards.

The traffic both of passengers and freight appears to be on the increase, and few days pass without guests being entertained at Hopkins' Postoffice hotel enroute for Roswell, White Oaks or Nogal. Apparently few of those traveling in your direction have any desire to make Lincoln their objective point, unless court or some other imperative business demands their presence there.

Mr. and Mrs. Roberts have lately returned home from a protracted visit to Cap. and Mrs. Roberts of Nogal, and express themselves as well pleased with their trip.

Among others who have passed through here during the past few days, headed in your direction, I may mention an ambulance load of choice corn fed Kansas men and ladies, who rested over one night at Prof. Hopkins' hotel. Of course the professor, who always has one eye open for choice stock of any kind, exercised his well known powers of persuasion, and accordingly the said Kansas ladies good naturedly taxed his Fairbanks' scales to their utmost, at least to the limits of their available weights. I do not like to run the risk of questionable veracity by giving the actual result of their combined weight, although the worthy landlord immediately after the weighing business was concluded, in answer to an urgent question put by Mr Roberts, his father in law, replied with a deep sigh of relief that the scales had apparently passed through the ordeal without permanent injury. I will only add that it was the unanimous opinion of those present that according to the aforesaid samples, Kansas could always enter the lists for this particular kind of stock, either as regards weight or quality. If any of the ladies of your vicinity are contemplating the ascension of the White mountains in the near future, your correspondent would seriously advise them to delay such an exhaustive feat until the Kansas party referred to have prepared the way. I am informed that they intend making Nogal their headquarters, and from there will commence their wonderful pedestrian performances.

The Picacho public school, which has been lately put in a thorough state of repair, opened its fall session on the 2nd inst., with Prof. T. F. Swanwick, late principal of Lincoln school, in charge; this is the professor's second engagement by the same board of directors, and the patrons of the school appear to be unanimous in their satisfaction at the selection of the same teacher for the present term. The daily attendance is very satisfactory, and the pupils include four or five from the Military Institute of Roswell, and the Lincoln public school.

NOTICE.

TO DIRECTORS OF THE VARIOUS SCHOOL DISTRICTS OF LINCOLN COUNTY.

When purchasing text books with the public school funds, accompany your warrant with the following statement:

Give names of pupils for whom books are to be purchased.

Give kind and number of books required.

State reasons for district furnishing said books.

The law does not contemplate the indiscriminate purchase of text books by a district, and only those who are known to be unable to furnish books for themselves are to receive benefits from this source.

Unless these requirements are complied with I shall refuse to endorse such warrants. JOHN A. HALEY, Supt. of Schools.

No Criminal Libel Law in New Mexico.

Last Saturday, at Las Cruces, the case of Chas. E. Bull, formerly editor of the Independent Democrat, charged with criminally libeling Sheriff Pat Garrett, was called in the district court. Judge Fall, representing Bull, moved to quash the indictment on the ground that there is no criminal libel law in New Mexico. Judge Leland sustained the motion and Mr. Bull was discharged.—Citizen.

Kit Carson's Daughter Dead.

Stella Carson Woods, daughter of the noted scout, Kit Carson, and wife of F. E. Woods of La Junta, died at her home in La Junta Monday evening of heart trouble. She had been ill for some time. She was born in Taos, N. M., thirty-three years ago and has spent the most of her life in and near La Junta, but remembered nothing of her father, the great scout dying when she was three years of age. She was a religious lady and very popular in the community.—Springer Stockman.

Mrs. Woods was a resident of Las Vegas in the early 80's, residing with an elder sister. The deceased has two brothers living, Charles and Kit, the former a well to do cattleman in Colorado, the latter it is thought is engaged in mining. Two other children, daughters of the celebrated scout, are living, one a resident of Wagon Mound up to a year or two ago, and the other, the youngest of the family, born a few months after the death of the great pioneer, was only recently discharged from the insane asylum near this city.—Las Vegas Optic.

San Marcial Knocked Out.

The Santa Fe management has struck San Marcial a fatal blow. The railway shops, which employed a total of 120 men, are moved to Albuquerque and the division will go to Rincon. This takes the last vestage of support from the town. The Bee says:

"The work that has been carried on here will in future be done at the Albuquerque shops, and a few of the discharged men may find employment there; but no pledge of this character has been given, so that the eighty nine discharged men will have to spread out and seek new jobs.

This misfortune to San Marcial is bad enough in itself, but the sure thing story of what is to follow—the transfer of the divisional headquarters to Rincon—will give the finishing touches to the town as a commercial center of any importance.

Many of the hard working and industrious mechanics let out, own their homes in San Marcial, and a few of them have payments falling due thereon. These people will be the greatest sufferers by the change, for property will neither sell nor rent. The business men fully realize the position in which they find themselves and some have already countermanded large eastern orders for goods.

From any standpoint in which the situation is viewed, no bright lining can be observed in the dark cloud; but before the dawning of the new year, the situation will be fully understood by many and Kansas will be to bug the advantages of other towns, whose future does not entirely depend upon the fluctuating plans of railway corporations.

The value of newspaper advertising has received a number of striking illustrations in New York during the last half year. An observer notes the fact that three or four dry goods houses that went into liquidation in the winter were the only ones of the greater department stores that never advertised in the newspapers. On the other hand the great advertisers have all enjoyed great prosperity. One of these, which it was expected would fail, came out $600,000 ahead on the year's business. Only bold advertising carried it over the rocks which threatened.—Ex.

Warning

All persons are hereby cautioned against the discharging of firearms within three hundred yards of any inhabited house. The penalty for violation is a fine not exceeding one thousand dollars, or imprisonment not exceeding three years, or both.

Numerous complaints having been received relative to the discharge of firearms, violators of the law will be held to a strict accountability.
