DELINQUENT TAXES.

The Teritorial Solicitor General's Construction of the New Law.

Optic.

Collector John L. Burnside, of Grant county, recently applied to Solicitor General Bartlett for a construction of the new law (C. B. No. 128) relating to the appointment of delinquent taxes, stating that there was nothing in the act in regard to the transfer of the Territorial proportion of taxes of 1895, and that it would seem it must have been the intention of the legislature to transfer to the general county and school fund the delinquent taxes of 1895, and 1896 instead of the taxes of 1896 and 1897, and asking an opinion as to his official duty as collector and treasurer with reference to these funds. General Bartlett has replied as follows:

That section 19, Chapter 60, Laws of 1897, complied as Section 4184, C. L 1896, provided that "all delinquent taxes due the Territory on the 1st day of July, A. D. 1895, are hereby declared to be the property of the respective counties, and when collected to be paid to the general county fund."

Section 2 of Council Bill 128, approved March 16, 1899, is as follws: That all delinquent taxes for the years 1896 and 1897 be distributed as follows: One half thereof to be paid into general Co. fund, and one half thereof to be paid into the general school fund of the respective counties in which they are collected."

The taxes of 1895 were not delinquent until January 1, 1896, therefore, the act of 1897 did not apply to that year, and the territorial part of the tax for the year 1895 must be paid over to the Territorial treasurer for the different funds as levied for that year. While all taxes delinquent prior to the 1st of July, 1895 must be paid into the general county fund.

Section 2 of Council Bill 128, approved March 16, 1899, is as follows: "That all delinquent taxes for the years 1896 and 1897 be distributed as follows: One-half thereof to be paid into the general county fund, and one half thereof to be paid into the general school fund of the respective counties in which they are collected."

The taxes of 1895 were not delinquent until January 1, 1896, therefore, the act of 1897 did not apply to that year, and the Territorial part of the tax of the year 1895 must be paid over to the Territorial treasurer for the different funds as levied for that year. While all taxes delinquent prior to the 1st of July, 1895, must be paid into the general county fund.

Under the act of 1899 the Territorial taxes delinquent for the years 1896 and 1897 are to go equally to the general county and school fund; while the taxes delinquent in 1896, to the Territory, are to be paid over to the Territorial treasurer in the same manner as those delinquent for the year 1895.

Whatever the intention of the legislature may have been with reference to Territorial taxes delinquent for 1895, it certainly failed to express it so that the tax could be diverted from the original purposes for which it was levied.

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read your advertisements in our own and other papers we purchased a bottle to see if it would effect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by M. G. Paden.

TRAITS OF TEXANS.

REPUBLIC SPECIAL.

Washington, March 26.—"Texas always seemed to me to have an ill-deserved reputation for containing a violent and bloodthirsty population," said S. L. Seymour of St. Louis, this evening: "I go to Texas five or six times a year and have traversed the state from end to end 20 times in the last 15 years. I want to say that the population is as peaceable, gentle, considerate and courteous as any in this country. There is any amount of sympathy and kindness displayed there that has scarcely a counterpart in the Union. As a sample, I will tell you of a little incident I witnessed in Galveston recently.

A motorman on an electric car stopped his car to avoid running over a couple of puddle ducks, and when the ducks failed to move off the track he got down, walked around in front and 'shooed' them off. No woman or child ever got on or a off street car in Texas without being assisted by the conductor.

"It was in a Texas town, too, that I saw a small negro boy on a street car who wanted to get off but forgot where he lived. All he could tell was that his home was close to a grocery store. The conductor stopped at the first corner grocery store and put him off, but the child looked around and said that wasn't the place, whereupon he was taken aboard again. This was repeated three times before the juvenile darky recognized his corner, I don't think this could happen anywhere outside of Texas: the electric car was the New South, but the humane and patient conductor and the helpless little negro were the Old South."

Pneumonia is one of the most dangerous and fatal diseases. It always results from a cold, Chamberlain's Cough Remedy will quickly cure a cold and perhaps prevent an attack of pneumonia. It is in fact made especially for that ailment and has become famous for its cures over a large part of the civilized world. It counteracts any tendency of a cold toward pneumonia. Can you afford to neglect your cold when so reliable a remedy can be had for a trifle? For sale by M. G. Paden.

Aguinaldo has again taken the capitol of his country under his arm and moved it into the jungle to avoid its being captured by the American armies.

AN IMPORTANT LAW.

Passed by Last Legislature, Relating to Trial of Civil Suits.

The one thing in which attorneys of New Mexico as well as litigants are more particularly interested than any other at the present time, says the Albuquerque Citizen, is the law passed by the legislative assembly and known as bill 121, introduced by Hon. J. E. Wharton on March 3, with the declared purpose of facilitating business in the district courts of New Mexico and to provide funds for the payment of juries in the trial of civil cases.

The act provides that in all cases, the presiding judge shall, at the commencement of any term, call the docket of all cases ready for trial, when the plaintiff shall be required to demand or waive a jury in such trial, and when a jury is waived by both parties, the cause shall be set down to be tried by the court after the dismissal of the jury panel.

Provided, That in case the attorney of either party shall not be present on the first day of the term, the case shall not be set down for trial or his client called on to decide whether he desires a jury trial until a notice in writing has been served upon him by mail or otherwise, that the other party has consented to waive the jury, and he shall be given time enough to prepare the necessary affidavit or papers on behalf of his client or to be heard as to whether his client will wave the jury, such time to be fixed by the judge in his discretion.

Sec. 2.—In all civil cases the fees of the jury actually engaged in the trial of the cause, except as otherwise herein provided, shall be taxed as a part of the costs in the case against the party losing the same, and whenever either party shall, upon the calling of the docket, demand a jury for the trial of any civil case, the party so demanding the same, shall be required to deposit the sum of $24 with the clerk of the court to cover the fees of the jury employed in the trial of such cause, on the day before same is set for trial, and $24 additional, for each subsequent day such jury shall be engaged in the trial of said cause, shall be deposited upon the commencement of court upon the morning of each day of such trial; provided, however, that when there are sufficent funds on hand for the payment of the jury panel for the term of court at which such cause is set down for trial to pay all costs of the jury during the term of such court, that it shall not be necessary for the parties to civil actions to deposit funds for that purpose as provided in section 2, of this act, but, in such event, the jury in the trial of all such causes, civil as well as criminal, shall be paid out of such court fund; and the court shall, in its discretion, decide whether or not the court funds are sufficent for the trial of all causes during the term and whether or not parties demanding juries shall deposit funds to pay expenses of same in such trials.

Sec. 3.—Whenever the jury fees are advanced in the trial of a cause, as in section 2 of this act provided, the amount so advanced shall be paid to the jury trying the cause and shall be deducted from the amount per diem that the jury would otherwise receive; and the party, having advanced such costs or fees, shall receive from the clerk a receipt for for the same, and judgment shall be given against the unsuccessful party except when such party has paid such costs, for the amount so advanced, and the same shall be collected as other costs in the case.

Sec. 4. Whenever a party demanding a jury in the trial of any civil action in any of the district courts of the territory of New Mexico shall fail upon being so ordered by the court, to advance the jury fees required by this act, or any part thereof, such party shall be deemed to have waived a jury in the trial of such cause and the case shall then be set down to be tried by the court as other cases wherein a jury has been waived.

Sec 5. When either party to a civil action in any of the district courts of New Mexico, shall after the same is at issue, demand a jury in the trial of such case and pay to the clerk of such court the jury fees required by this act, such party shall have the right to a speedy trial of such cause, in the order of such cases, at the time set down for trial upon the dockets of said courts. Provided, that the provisions of this act shall not apply to either the plaintiff or defendant in any civil suit, who will make and affidavit and file the same in the cause that he is by reason of poverty unable to deposit the amount of money herein required to be deposited for the purpose of obtaining a jury trial, and such persons shall be entitled to the free process and free jury trial in such cause of the district courts as now provided by law.

Official Paper of Lincoln County

From returns received it is impossible to say just how the city elections have gone in many places, but that the democrats have made substantial gains, is indicated by the returns. In New Mexico, Albuquerque has gone democratic and Las Vegas seems sure to defeat a large part of the republican ticket, if not all of it. Many cities in Ohio are democratic and Cleveland by a tremendous majority. McKinley's home town, Canton, went republican by only thirteen votes for major. Chicago democratic, out of sight republicans make no claims.

THE PHILIPPINE COMMISSION PROCLAMATION

The proclamation of the United States Philippine Commission under date of April 4th. assures the people of the cordial good will and fraternal feeling of the president of the United States and the American people, and asserts that the object of the United States government apart from the fulfillment of a solemn pledge that it assumed towards the family of nations by acceptance of the soverignty over the islands, is the well-being, prosperity and happiness of the Philippine people, and their elevation and advancement to a position among the most civilized peoples of the world.

Of course if Aguinaldo and his followers, now termed rebels by this government; but, who twelve months ago in Cuba, where the same conditions existed—except that the Spanish government was the aggressor—would have been called worthy patriots, do not clearly see independence with self government in the conditions of this proclamation, they will be speedily licked into a state of understanding by their unsolicited benefactors. There seems to be little of that spirit which animated the breast of the colonial rebel in the anatomy of our worthy executive.

J. H. Lightfoot, Editor of the Sacramento Chief, at Alamogordo, has sold out to Santa Fe parties, presumably the Santa Fe New Mexican who are erecting a building preparatory to putting in a new line of machinery for a new and elaborate news paper plant.

One defeat after another is weighing heavily on the followers of Aguinaldo. They have despaired gaining a victory over the American troops, and it is thought that the Asiatic Napoleon will soon seek the most favorable treaty of peace possible with this government.

INSPECTION OF CATTLE.

The law controlling the shipment and inspection of cattle, and which repeals section 211 and 221 of the Complied laws of 1897, passed by the 33rd legislative assembly, and approved by the governor on March 16, read as follows:

Section 1.—That hereafter it shall be unlawful for any person, firm or corporation to offer, and for any railroad company or other common carrier to receive for the purpose of shipment and transportation from points within to others within or beyond the limits of the Territory, any herd, band or consignment of cattle, unless the same shall have been duly inspected by a duly authorized inspector and a certificate of such inspection issued by such inspector, as required by the laws of this Territory.

Sec 2.—That there shall be a fee or charge for the inspector of cattle hereafter inspected under the provisions of this act of three cents per head, and such fee or charge shall be a lien upon the cattle inspected under the provisions of this act until the same shall be paid; each inspector of cattle shall keep a complete record in a proper book of all cattle inspected by him, giving all brands and marks and the name or names of the shipper or shippers of the same, and a copy of said record shall be filed with and be preserved by the cattle sanitary board of the territory.

Sec. 3.—That any person, firm, corporation, common carrier, railroad company or agent thereof violating any of the provisions of this act, or refusing to permit the inspection of any cattle as by this act provided, shall, upon conviction thereof, be deemed guilty of misdemeanor, and shall be fined in any sum not exceeding $1,000 for each violation of the provisions of this act.

Sec. 4.—That sections 211 and 221 of the Complied Laws of New Mexico of 1897 be and the same are hereby repealed; and this act shall take effect and be in full force from and after its passage.

ON TO KANSAS.

White Oaks Railway Will Not End This Side of Liberal.

The El Paso and and Northeastern extension will be completed to the Salado coal fields and trains will be running sometime in August.

The line does not end there, however.

The company is to go right ahead with the road building as soon as this extension is complete and push the constructing until the road crosses the Kansas line. It will probably end at Liberal to connect with the Rock Island or meet a Rock Island extension from Liberal in this direction.

While the present short line is agreed to be of incalculable benefit to El Paso, for the reason that no other city is accessable to the rich territory being developed by the road, yet with a through line the country above would develop so much faster that El Paso, as the nearest city, could still count on getting a large share of its trade and the chances are that the benefit to this city would be even greater.—El Paso Herald.

SHERIFF'S SALE.

In the District Court in and for the County of Chaves and Territory of New Mexico.

Joyce Fruit and Co., Plaintiff, vs. Thomas G. Boone, Defendant. } No. 206, Civil Action, Attachment.

Notice is hereby given that by authority and command of a Writ of Venditioni Exponas issued out of the said Court, in the above entitled cause, and to me directed, commanding me that of the Lands and tenements, goods and chattles of the said defendant, theretofore levied upon, attached and taken into my possession under that certain writ of attachment issued out of said court herein, as appears by the records of said Court, I do cause to be made to satisfy the said plaintiff his judgment herein adjudged to him and his costs and interest etc., as set forth in the said Writ, to wit: the sum of $[illegible] damages, $18.00 costs of his said suit together with interest thereon from the 28th day of March A. D. 1899 [$1.00] and the further costs incident to the taking, keeping, advertising, selling etc., the said property now estimated at $100.15 making in all $[illegible].

And whereas the said defendant has not paid and satisfied said sums or any of them, now therefore, I will, on Friday the 28th day of April A. ADDITIONAL LOCAL

The sheriff of Grant county informed officers here last week that a number of horses had been stolen in eastern Arizona and western N. Mex. and had been driven this way. Officers at once started to Three Rivers, which point they were supposed to be making for. On reaching there a herd was found in possession of a guard, who said he had been employed by Noah Barefoot and his associates to hold them until called for, which afterwards proved correct. Search was begun for Barefoot and party. They were reported to have been seen only a few hours before, riding south in the direction of Tularoso. The posse started in pursuit and overhauled two of them, Noah Barefoot and a young man by the name of Hunter, on Upper Penasco. After their arrest Barefoot escaped, having several shots fired after him, none of which took effect. Hunter was brought to Nogal and turned over to the sheriff of Grant county. Officers are still in pursuit of Barefoot.

El Paso Herald.

H. S. Comrey arrived last Friday from the White Oaks country and reports that mining operations are very active in that section. He states a survey is now being made from the Capitan mountains to the Jicarillas for the purpose of constructing an eight inch pipe line to be used for hydraulic mining. The pipe is to be laid at once and an extensive placer mining plant to be put in. Col. Prichard is making the survey, and Mr. Comrey says the enterprise is backed by plenty of capital. He says the Jicarillas are full of promising gold properties, and that some of them will prove heavy producers. Mr. Comrey has a gold prospect in that district in which he has great faith, and has accepted temporary employment with the Dos Cabesas Mining company in Mexico until he can arrange for the development of his claim.

El Paso Herald.

M. Gaylord, superintendent of the Dos Cabezas mine in Mexico, upon his return from his visit to Nogal, New Mexico, reported that the ore recently discovered by the graders on the extension of the E. P. & N. E. road, gives returns of seventeen ounces of gold to the ton, and also a fair per cent of copper. The graders were making a deep cut through a foothill of the Tucson mountains when they uncovered the vein. Mr. Gaylord states that from all he could learn a very rich strike had been made, and that the probabilities are that the new mine will prove one of the most valuable in that district.

Tularosa has a paper now. Mr. Frank C. Matteson is editor. We have not yet received a copy, but judging from the politics of Attorney Matteson, the periodical will be a hummer of the democratic persuasion.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutly cured. Her name is Mrs. Luther Lutz. "Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at M. G. Paden's Drug Store. Regular size 50c. and $1.00. Every bottle guaranteed.

Hood's Pills

Miss Ula Gilmore, Miss Austin's efficient assistant in the public schools went home last Saturday.

One of the most deligtful entertainments enjoyed by White Oaks society this season was given at the residence of Mr. and Mrs. L. W. Stewart last Friday night, the 31st ult. About forty couples were present. The order of entertainment consisted in music, dancing, songs etc., winding up with a very amusing tableau, entitled, "April fool."

In almost every neighborhood there is some one whose life has been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who has been cured of chronic diarrhoea by the use of that medicine. Such persons make a point of telling it whenever opportunity offers, hoping that it may be the means of saving other lives. For sale by M. G. Paden.

Our Mexican mail contractor (sub), was arraigned before justice Stewart's court last Monday on a charge of cruelty to animals. He managed to effect a compromise, the conditions of which are that he agrees to put more teams on the line and see that his drivers are more humane in their treatment of horses under their care.

Remarkable Cure of Rheumatism.

KENNA, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. B. PARSONS. For sale by M. G. Paden.

We have noticed in several New Mexican papers an account of a very rich find of gold ore in the big cut, now being made by the Northeastern at the head of Indian Canyon; and while we are much in hopes the report is true, we have had no information to that effect here, and there has been almost daily passing from White Oaks to the place of the reported find.

Our Public Schools.

The White Oaks public school closed last Friday, the 31st ult. The work of Misses Austin and Gilmore is universally praised by the patrons. The names and grades of the following pupils show the roll of honor for regular attendance, deportment and scholarship for the term.

GRAY GLEANINGS.

Gray, N. M.
April 3, 1893.

Correspondence.

The people of Gray feel like ringing bells, and firing guns, and hoisting flags, and lighting bonfires, for their long, patient waiting is at an end, and a new era has dawned on the Salado. Supt. Wells and his assistant, Mr. Shoemaker, together with a force of workers of various kinds, are encamped in tents on the hillside near the Coal mines, in which latter, work began this morning, and from this time forward business will be carried on in earnest.

Two large loads of lumber arrived today for the building of a commisary, etc., for the Mining Co.

J. A. Eddy, general manager, and H. A. Sumner, chief engineer of the Northeastern, made a business visit to this place last week.

Mr. Cobden, a hardware drummer from St. Louis, was here Saturday night.

Robt. Lacy from Texas Park, came to Gray a short time ago to attend the public school, but was taken sick and obliged to return home in a few days.

Mr. Cowden and helpers were here last week surveying the lines for the switch tracks.

W. M. Clute, Supt. of schools stopped over in Gray Sunday night on his way to Lincoln to attend the commissioners court.

Mr. John Haley and wife of White Oaks were visitors in Gray to day.

People are coming in all the time to see about obtaining work from Mr. S. T. Gray, in cutting and hauling ties for the new road.

Mrs. Noah Ellis of the 1-X ranch was in Gray to-day on business.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from Yellow Jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take a great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky."

WHAT THE PRESS IS SAYING ABOUT THE PHILIPPINE WAR.

Denver Republican.

Every true American feels a thrill of pride when contemplating the patriotism and valor of the American soldier and sailor. The defenders of our flag have demonstrated that on every battlefield they are heroes, on every sea the bravest of the brave.

That they are now made to bring shame on their country is no fault of theirs. The war they enlisted to fight is over, and has been for months. The work they undertook was performed in a manner that won for them imperishable renown. The purpose of their enlistment being achieved, they should have been returned to their homes and friends.

Why has not this been done? For the simple reason that the administration, having destroyed the power of Spain in Cuba and the Philippines, with an army and navy going forth with banners on which was inscribed, "Liberty and the right to self government for the people of these islands," is now seeking to compel submission on the part of those people to a government directed from Washington. Why are Aguinaldo and his followers, who were a few months ago called allies, now called rebels? What are they rebelling against, if not the attempt of this government to govern them?

The Colorado soldiers now in the Philippines went there with the distinct understanding that it was to end Spanish oppression, and give freedom to 19 millions of people. They did not enlist to make those people subjects of the United States.

The policy of the administration is an outrage upon the Philipinos, and an outrage upon the men who offered their lives to the government to execute a holy purpose. Having nobly performed the task committed to their hands, they and their families demand that they be returned to their homes. If it was the purpose of the administration to end the tyranny of Spain in these islands, that those peoples might be made slaves to new masters, the young men of Colorado and other states were lured into the army under false pretenses. The people are becoming restless, and they have a right to protest against the useless sacrifice of the lives of American young men.

THAT CROKER DINNER.

Speaking of the great spread to be made in the Metropolitan Theatre, New York city, in honor of Thomas Jefferson's birthday, under the direction of Richard Croker, the Tammany chieftain, the Denver Republican says:

The banquet will cost $16,000. In fact it will represent a much greater outlay of money. There will be sixteen hundred guests, each one of these will represent a much greater outlay of money. There will be sixteen hundred guests, each one of these will pay $10 for a ticket, but other expenses will be unavoidable. A majority of the guests may find their way to the banquet hall on foot, or by the street cars, but they will require a carriage to take them home. It is conservative to say that the average outlay of each guest will be $5 in addition to the price of the ticket. This will make the total cost $24,000, and the banquet will take rank as the most expensive ever held in the United States.

Some idea of what is required to provide such a feast can be gained from the fact that it will take 250 spring lambs 10 express car loads of strawberries, asparagus and other green edibles from the South. More than 50 barrels of oysters, at least 1,000 pounds of the finest cuts of beef, three barrels of coffee, 75 turtles 2,500 crabs, 600 terrapins, 2,400 lobsters, 1,000 canvasback ducks, with same number each of pigeons, turkeys and pheasants. To dilute these tons of solids, 5,000 bottles of champagne have been ordered and a corresponding amount of Burgundies, sherries, Angelicas, vermouths and Rhine wines. It will require 10,000 cigars and two tons of ice cream and other ices.

This is but a partial list of the things that will be served to satisfy these representatives of a party that has always boasted of the virtues of "hog and hominy."

Mataafa's reign in the Samoan Islands has been declared at an end by the tripple protectorate of United States, Great Britain and Germany.

MINING ACTIVITY.

The Sacramento chief is responsible for the following: There is a genuine mining excitement in Dry canyon, eight miles east of Alamogordo and seven miles southeast of La Luz. A number of valuable prospects have been located and are being developed. The formation is a granite and limestone contact, intersected by porphyry dykes and veins of quartz and spar. The leads are all well developed and can be easily followed.

J. C. Tucker, Wm. Varner and Joseph Smith have located a copper claim which at a depth of thirty-five feet gives a value of from $120 to $180 per ton. Chas. E Woodman, Chas Bensley, N. Olson, John Chaplin and Samuel Dowell have located the Flagstaff, which gives a promising value in silver and gold. The Commodore is a prospect of more than passing importance, owned by Wm. Varner and Joseph Smith. Two prospectors from Leadville, Colo., are in the district sinking a shaft on what they believe to be a valuable property, as it gives an assay of $9 in gold and $3 in silver at the grass roots. Experienced prospectors say that the entire western slope of the Sacramento mountains is well mineralized and predict that some valuable mines will be opened up here in the near future.

Territory of New Mexico, County of Lincoln, } ss.

You are hereby notified that I will apply to the District Court of the Fifth Judicial District of New Mexico, held in and for the said County of Lincoln, on the 20th day of November, A. D. 1899, for judgment against all of the parties named in the foregoing delinquent tax list and against the lands, real estate and personal property mentioned and described therein for the amount of said delinquent taxes, together with the costs, penalties and interest due and unpaid thereon, and for an order to sell said property to satisfy such judgment, and will within thirty days after the rendition of such judgment against the property described in the foregoing list offer the same for sale at public auction at the front door of the Court House in Lincoln, Lincoln County, New Mexico, to the highest and best bidder for cash.

HENRY LUTZ,
Collector of Lincoln County, New Mexico.

GENERAL OTIS CONDEMNED BY REGULARS.

San Francisco, Sept. 26.—Regulars who arrived on the transport City of Para criticize the management of the campaign in the Phillipines by Gen. Otis with even greater severity than did the volunteers. These interviews indicate their feelings:

Edwin C. Bagshaw of Company A, Eighteenth infantry—Common decency will not permit of full expression in regard to Gen. Otis. The conflict with Filipinos might have been speedily ended had we been permitted to do our duty.

Edward Hacket, Battery K, Third artillery—Gen. Otis claims to have the situation well in hand, but he knows that the situation is grave. He is afraid to stir out of his walled in cage. He never smelled powder, and never will during the conflict of arms.

E. Nelson Langston, Company K, Twenty-third infantry—Otis never gave us a chance to do what we could. Those competent to accomplish something were held back or transferred.

Ora Shumate, Company L, Eighteenth infantry—Gen. Otis may know how to govern a city, but when it comes to planning and executing a war campaign he has missed his vocation.

E. A. Thomann, corporal of Company K, Fourteenth infantry—Gen. Otis cannot be recalled too soon. The situation needs a soldier. No soldier ever saw him on the lines.
