ROOSEVELT DAY.

It Will Be A Holiday For The People of New Mexico.

Gov. Otero Issues Proclamation Calling for a General Observance of the Event.

Gov. Otero has issued the following proclamation:

Whereas, The 24th day of June, A. D. 1899! will be the anniversary of the first engagement on land of the United States troops with those of Spain, which resulted in a glorious victory for our arms, and in which citizens of New Mexico bore a most honorable and distinguished part as members of the First United States volunteer cavalry, known as the "Rough Riders," and

Whereas, That regiment has selected and designated that day for a Reunion and celebration at the city of Las Vegas, in this Territory, at which the former colonel, Hon. Theodore Roosevelt, now governor of New York, will be present with other distinguished citizens from the east; and believing that it is fitting and proper that the people generally of the Territory should unite in the observance of this anniversary by showing their pride in the gallant organization in which the Territory bore so distinguished a part.

Now, therefore, I, Miguel A. Otero, governor of the Territory of New Mexico, do hereby designate Saturday, the 24th day of June, A. D. 1899, as a public holiday in this Territory, and recommend to the people that they observe the same in such manner as they may deem best in celebrating the achievements of their people on the field of battle, and in memory of those gallant ones who fell in defense of our common country.

Miguel A. Otero,
Governor of the Territory of New Mexico

The TOLEDO WEEKLY BLADE

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 postoffices in the country. It is edited with reference to a national circulation. It is a Republican paper, but people of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department, [best in the world]. Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau [which answers questions for subscribers], the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only $1 a year. If you wish to raise a club, write for terms.

NEW MEXICO STOCK.

W. C. McDonald, manager of the Carrizozo Cattle company, of Lincoln county, N. M., sized up the stock situation in New Mexico, at the meeting of the Live Stock Association, recently held at Denver, as follows:

Mr. McDonald said: Mr. President, Gentlemen of the Convention, Ladies and Gentlemen—New Mexico, as you all know, I presume, is of the few localities that is yet the open range. We are not much fenced or confined, but stampede very frequently. Besides this, we are still wards of the nation. We have very few rights, so to speak, that we are accorded, even in congress. Yet, down there we have a good many sheep and cattle; I would not like to tell how many, because I presume even the assessment rolls don't show accurately. (Laughter.) I could make a tolerably good guess on cattle, which I do not believe I had better do; but as to sheep, they are very timid, and do not like to tell, and I might miss it a million or two. It has been reported time and again that all the stock was being shipped out, especially the cattle; but this is not true. There are still large herds down there, and while New Mexico is not very extensively represented here, for two reasons, I presume: We have some non-progressive people, and then we have some who are so progressive that they have gotten into the Texas association, and there are fifteen or twenty delegates from Texas that belong in in New Mexico. That is the state of affairs, so far as association and organization are concerned.

As to conditions there, I can say that I think the past year has been the most prosperous for stock interests that I have ever seen in New Mexico, and I have been there nineteen years. There have been times when there was more stock, but there was not the prosperity. We did not realize what we had during the past year. The range has been exceedingly good; cattle have done well, and sheep also; prices have been good, and everybody has a little money. Now, then, we are able to stand the condition under which we are placed for some time longer, and we are willing to stand them and wait; if yearling steers keep around $20, and lambs about $2, we can wait for statehood a long time.

I don't know that I can say anything further. I presume it is information you want. I can say this, that there is a deal of stock in New Mexico for sale this year, conditionally. There are very few people who are not in position to hold; there is plenty of free grass to hold on, the country is not overstocked, and we are waiting to see what is going to happen—Optic.

If you have anything to sell advertise it in the "Eagle". Should you want to buy anything in this section of New Mexico place your ad in this paper and your wants will go before the public.

Would Not Suffer so Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I got down to work this morning I felt so weak I could hardly work. I went to Miller & Mccurdy's drug store and they recommended Chamberlains Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me alright. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home here after, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liveryman, Burgettstown, Washington Co., Pa. This remedy is for sale by M. G. Paden.

If you need a 14 inch paper cutter we can fix you; in good condition; we don't need it, and will sell it cheap for cash. Write the Eagle for prices.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the docter then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one half of a 50 cent bottle cured me entirely. I now recommend it to all my friends.—F. A. Babcock, Erie, Pa It is for sale by M. G. Paden.

Official Paper of Lincoln County

The Dona Anna County Republican informs us that Las Cruces is to have a Sanitarium for consumptives.

Ira P. Witmore, the real estateman at Roswell has been appointed deputy clerk of the fifth judicial district, at Roswell.

The foot racing of American soldiers and the Filipino insurgents still continues in the Philippines with the Filipinos in the lead.

Adjutant General Corbin makes the following estimate of the number of deaths in the army since the beginning of the war with Spain: In Cuba 1,399; Porto Rico, 287; Honolulu, 45; in the Philippines, 606; in the United States, 2,872; total, 6,289.

The Alamogordo News published by the Alamogordo Printing Co., is the property of the following incorporators: Max Frost, Jay F. Manning, James D. Hughes, of Santa Fe; Wilmer S. Sheperd, Geo. C. Brayn, Samuel Henry Southerland and Francis B. Stuart of Alamogordo.

Democracy has done nothing except to oppose republican policy. —Dona Anna County Republican.

Such is the duty of democracy when that policy is the fostering of trusts and contrary to the general welfare of the republic. The truth of the accusation we do not deny and the justice of our opposition the republicans can not dispute.

W. E. Halett of Alamogordo is reported to have made a rich find of copper ore in the Sacramento mountains. The Alamogordo News says the ore samples will run anywhere from 50 to 75 per cent copper and that it is the richest mineral in copper ever taken from the Sacramentos. On the surface the outcroppings show 400 feet of mineral and the owners intend to begin development work immediately.

Bob Fitzsimmons the Australian Kangaroo, was knocked over the ropes by Jim Jeffries, the San-Francisco boiler maker, at Coney Island, N. Y, last Friday night. Bob will probably return to his cocoanut orchard in the tropics, leaving the pugilist championship to America where it belongs.

We are in receipt of the Catalogue of the University of New Mexico. It shows an improvement over its predecessors and that Institution to be on a substantial basis. If New Mexico would give a little more patronage to some of her worthy institutions of learning instead of sending it into other sections of the country our territory would soon witness a revolution in the line of educational progress.

First and last Lincoln county has been a victim of a multiplicity of incompetents as officials. No particular official term has been composed of a majority of this kind of cattle, and few have been entirely free from the corroding touch of one or more. The great majority of officials now in office in this county are men whose characters are above reproach and whose splendid records of public service speak for themselves; yet, this as has been too frequently the case in the preceding terms, has on its hands a small minority that is giving it very serious concern, and is cognizant of the fact that there is a deep sentiment emanating from an abused constituency who have been treated as though an official oath was for no other purpose than a qualification to draw salary.

NOT GUILTY.

The jury which sat in the trial of Lee and Gilliland at Hillsboro was out only seven minutes until it returned with a verdict of not guilty. They were held on the charge of the murder of deputy sheriff Kearney, and it is not yet known whether the court will allow them bail or not. The attorneys of the defendants state that a bond for any reasonable amount can be made when demanded.

The most important developments brought out during the course of the trial were the absolute failure of the prosecution to produce even a shade of evidence that would warrant a conviction, while on the other hand there is much evidence that Lee and Gilliland have been victims of a political persecution.

Since the Democrats are so determined to down trusts, the Republicans are going to give them a chance in the next congress by introducing as strong a law as the Ohio Republicans have called for, and see if the Democratic members will help in the wrestling match or decline because they are not given the first hold.—New Mexican.

Don't worry gentlemen, there is not a Democrat, who will not be fighting trust combinations. Democracy is well aware that little good can be accomplished by Republicans in congress without their aid. Where did you find the democracy of the country when $50,000,000 were to be raised to prosecute the war against Spain? Where did you find it until the last vestige of Spanish treachery was driven from the western hemisphere? And after Spain's navy was put to the bottom of the ocean and the destruction of the Maine was avenged and the war for humanity ended; and on the other hand, a war of expansion and extermination was begun in the Philippines, where do you find democracy? Right, as she has always been; in armor and championing the constitution of our fathers, which guarantees to the people of this nation a republican form of government: likewise, when the question of trust government or democratic government is launched in the next congress a united and powerful democracy will be seen taking a firm stand—as she has ever done since the days of Jefferson—against everything that in her judgement is not calculated to bring the greatest possible degree of prosperity and happiness to the American people.

Master Geo. Sligh and Ed Homan went to the rail road with Wm. Lanethin morning. They are en route to Santa Rosalia, Mexico where they will take a course of treatment for rheumatism.

The laying of track on the rail road is progressing rapidly. The steel is now laid within two miles of Three Rivers and will cross just as soon as the bridge now being built is completed. They are moving the headquarter camp to Three Rivers, and are putting in the material yards there for the completion of rest of the road to the Salado.

Refused to Be Hobsonized.

A young man who had been converted at a North methodist camp-meeting declared that all pride and self conceit had been taken out of his heart. To prove it he said he would go down in the audience and kiss an old colored woman. As he went down the aisle the old negro rose to her feet and said: "Look aheah, man, you may not have no pride, but I is. I ain't agwine to let no man Hobsonize me heah befoh all dese white folks!"—Exchange.

Prof. Swanwick, late Principal of Lincoln Public school, arrived here at the end of last week, and is engaged in organizing special night classes in Spanish, Bookkeeping, and other commercial branches. Mr. Swanwick has had long experience in these branches of education, brings with him the highest testimonials of ability, and we are glad to learn that he is already meeting with satisfactory encouragement in his enterprise. The EAGLE bespeaks for him liberal support on the part of our citizens, many of whom appreciate the growing importance of practical commercial education.

LEVI STRAUSS & CO.

SAN FRANCISCO

"Misfortunes Never Come Singly."

It is said that ninety-five out of every hundred business men meet misfortune at some stage in their lives; some recover and some do not. If the remedy in business life were as easily found as in the ills that beset humanity, there would not be as much misfortune.

In the latter case, multitudes when attacked by rheumatism, scrofula and other diseases, flee for protection to Hood's Sarsaparilla, and they find there a sovereign and specific remedy for troubles of the kidneys, liver and bowels. *It never disappoints.*

Liver and Kidneys—"My mother was very sick with congestion of the liver and kidney trouble. Nothing helped her until we got Hood's Sarsaparilla, which showed its effects with first dose. She is well and hearty." MRS. D. A. STONE, Winthrop, Me.

Run Down—"I was weak, had no appetite, nervous and completely run down. Tried many remedies but nothing helped me until I used Hood's Sarsaparilla which cured me." MRS. WM. MARKS, 27 Henry St., Binghamton, N. Y.

Gastritis—"Nervousness caused by a fright made my wife suffer intensely from gastritis. Morphine was necessary to relieve the suffering. Hood's Sarsaparilla and Hood's Pills were tried after all else failed and in four days she improved and in 14 days she was cured." C. W. T. SCHMIDT, Cedar Falls, Iowa.

Dyspepsia—"I suffered for 20 years with dyspepsia. Dared not eat meat, new bread or vegetables. Went hungry for fear of distress. Felt despondent and distressed. Took Hood's Sarsaparilla and got relief immediately. Can eat most anything without discomfort." MRS. EMILY F. BUMP, Middleboro, Mass.

Dizzy Spells—"After the measles my daughter had dizzy spells, which we thought would pass off but they did not until we gave her Hood's Sarsaparilla. In five days they disappeared and in one month she regained her usual health." H. H. KAMPERMAN, 53 Graves Place, Holland, Mich.

The Dominion Company, 3rd Floor Caxton Bldg., Chicago. 5-25 No. 23.

The Lady Godiva is now running under full force day and night. The management is under the directions of B. H. Dye who is a competent mining man and the Godiva is expected to soon be a producing property.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by M. G. Paden, Druggist.

Hood,s Pills cure billiousness. Mailed for 25 cents by C. I. Hood & Co., Lowell, Mass.

J. E. Wharton and Dr. W. T. Bishop came in yerterday from Alamogordo. Mr. Wharton has been to Hillsboro to attend district court at that place and Dr. Bishop has been engaged in dental work during the past six weeks at San Marcial.

You know that tired feeling is exceedingly disagreeable. What is far better, you may know, by a fair trial, that Hood's Sarsaparilla entirely cures it.

Hood's Pills cure nausea, sick headache, biliousness, indigestion. Price 25 cents.

An examination of the Commissioners' proceedings in this issue of the EAGLE will convince the most obstinate that the affairs of Lincoln county are in the hands of men who are interested in the welfare of their country. This county has had several good boards of commissioners but we have never had a better one than the gentlemen who occupy that responsible position at present.

Miss Williams will visit here with her sister during the summer.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Trial bottles free at M. G. Paden's Drug Store. Regular size 50 cts. and $1.00. Guaranteed to cure or price refunded.

The new air shaft at the mines is a prominent feature of the landscape at Gray.

Ernest Halstead of Ocean Springs, Miss., and Mr. Peters of Detroit, Mich., now both stationed at Ft. Stanton, were visitors in this place recently.

A good wagon road from Ft. Stanton to Gray is soon to be made under the supervision of Dr. Bobb.

Mr. Mundell and brother from Texas, have taken up land near the Salado and are improving it for a home.

A Card of Thanks.

I wish to say that I feel under lasting obligations for what Chamberlain's Cough Remedy has done for our family. We have used it in so many cases of coughs, lung troubles and whooping cough, and it has always given the most perfect satisfaction, we feel greatly indebted to the manufacturers of this remedy and wish them to please accept our hearty thanks.—Respectfully, MRS. DOTY, Des Moines, Iowa. For sale by M. G. Paden.

Supt. Clute of Nogal, was in the city yesterday. Mr. Clute has been very diligently engaged in the interest of the Sacramento Chautauqua. His effort has been to bring about an agreement among teachers of the different counties of southern New Mexico to attend the Chautauqua. No doubt the success of his plans so far as the Sacramento School is concerned would be very acceptable to those people, but with reference to the teachers of his own county whose balance is on the wrong side of the leger in the majority of cases at least—it will probably be accepted with reluctance.

Mr Ross is putting a new bottom to his arastra, for the purpose of treating his ore from the recent strike which ore looks very good.

Price and Fitzpatrick are doing some development work on their claim which promises to be a valuable one.

Wm. Doren is also looking for the shining metal.

Geo. Weisher is still looking for copper and other metals which I hope he will find poco tiempo.

A. H. Norton is back in the camp trying his fortune again; he is doing some work on his Good Luck mine.

The camp looks very well at the present time and a good show for the future with the right kind of development it will prove a Bonanza.

Mrs. Ed. Orthofer presented her husband with a fine girl baby Tuesday, 13th inst.

Bill Merriman has recently struck some fine ore on the Prince Albert mine.

W. E. Whitmire has some promising looking rock on his claim on same ridge with Hawkeye but farther down.

Trueblood and Kingsberry left for Albuquerque Thursday the 8 inst. Their early return is hoped for.

Capt. Miller who has been quite ill for the past few weeks is so far improved as to be around but is still feeble.

Mr. E. H. Talbot has transferred his operations from Iron King group to the Lilly Geneva, from which he is taking some good appearing rock.

CLIMATE and CROP SERVICE.

U. S. Department of Agriculture N. M. Sec.

(Santa Fe, N. M., June 6, 1899.)

The weather for the week ending June 5 continued dry and windy with unusually cool nights which brought frosts in many localities of the higher altitudes. Some tender garden plants, as transplanted tomatoes and cabbage, were slightly nipped, but the injury was by no means extensive. Rains have threatened over the territory generally, but only a few stations report more than a trace. In the vicinity of Las Vegas, and to the eastward, the drouth seems to be more severe, as there is very little water in the rivers, and many report the ditches to be entirely dry. However, water seems to be still abundant in the lower Pecos and the San Juan country.

The cool nights and lack of rains have tended still further to put crops back, and with few exceptions reports indicate a very slow progress. Some farmers are still planting corn, but as a rule all planting is finished, or discontinued on account of dry weather. As far north as Albuquerque they are cutting the first crop of alfalfa: as a rule the crop is fair, although in some sections reported much below the average. Stock improve very slowly as range grass is pretty well dried up. Planters of the lower Penasco are busily engaged in putting their sugar beats, and with the increased acreage the prospects are most encouraging.

The following remarks are extracted from the reports of correspondents:

Gallinas Spring—Jas. E. Whitmore—Continued dry and windy, grass and water getting scarce for stock. Irrigation water also hardly sufficient Higher temperature, 90; lowest, 40; no rain.

Tularosa—Frank I. Otis—Crops growing well, although there has been no rain to date. Heavy wind storm on the 23rd blew much fruit from the trees. Nevertheless a good crop remains. Apricots are ripening; cherries and strawberries about gone. The first cutting of alfalfa is yielding well, although about two weeks late.

Gold Discovery.

A few weeks ago, a sheepman near Portales, the new village about 60 miles northeast of Roswell, in digging a well, discovered some shining yellow par cles in the sand, and later, in pumping the water his attention was attracted to the same material in the watering trough. He and others had assays made of these sands and contradictory reports are given out of the result. Later another man drove a pump down some 18 feet to the same strata of sand, and he too was able to pump out the shining particles. Everybody in that locality was soon wild with excitement and began staking off mining claims. Subsequent reports from the assays were favorable and the excitement grew accordingly. Up to yesterday there had been over 200 claims located. The men who are making the assays telegraphed Wednesday to Portales parties to locate claims for them and that they had a splendid prospect. The excitement still grows, and most of the inhabitants of that village are doing nothing, but talk gold, and dig gold(?)

It is pretty generally conceded that something good has been discovered or else a big fraud is being worked by someone.—Roswell Record.

The Deming Headlig is one of the Philippine insurgent sympathizers, and was cheered up when Aguinaldo telegraphed that falsehood to London that his army was attacking the Americans lines at Manila.—Albuquerque Citizen.

No, we are not in sympathy with the Philippine insurgents any more than the Citizen is. But we do not believe in making a public ass of ourself in order to throw cheap slobber over an administration that is fostering trusts and monopolies throughout the United States and is only fighting these Filipinos in order that some trusts and monopolies may have more room in the end for their schemes. Every fair-minded American well knows that we have no use for the Philippines.—Deming Headlight.

COPYRIGHT 1899 BY COSMOPOLITAN MAGAZINE

THE delights of an evening spent around a well-lighted reading table are not half understood. An illustrated magazine with its wealth of illustrations, its stories of adventure and love, its descriptions of travel which carry you to the remotest ends of the earth, and its instructive articles for young and old—these are the first requisites for your own enjoyment and the entertainment and proper education of your children.

To secure for you the best and most interesting of the great illustrated magazines at the lowest possible price has been the aim of the editor of this journal. That we have succeeded we leave our readers to judge. A special contract recently entered into with The Cosmopolitan, which seeks to become better known in this neighborhood, has enabled us to offer you a year's subscription to the greatest of the illustrated magazines together with a year's subscription to this journal,

Both Together One Year for Only $ 2.10

In this way you secure your own home paper and an illustrated magazine at a price that is only about a fourth of what some of the illustrated magazines sell for. For three years The Cosmopolitan has undisputedly claimed that it reached the largest clientele possessed by any periodical, daily, weekly or monthly, in the world. It was The Cosmopolitan which sent Julian Hawthorne to India to let the world know the real horrors of famine and plague. It was The Cosmopolitan which established at its own cost a great Free Correspondence University which now has over 20,000 students on its rolls. It was The Cosmopolitan which offered a prize of $3,000 for the best horseless carriage and prizes for best plans for public baths, and best arrangement of sewer and pipe systems for cities. It was The Cosmopolitan which set the presidents of great schools and universities seriously discussing the defects of existing educational systems. It is The Cosmopolitan whose enterprise is always in the lead in advancing the world's civilization.
