IS IT RIGHT.

For An Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brebard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do no believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by M. G. Paden.

Official Paper of Lincoln County

We delayed our publication one day in order to get the Commissioners' proceedings in this issue. If you will take time to read the proceedings you will see just how much work these officials are compelled to do for the princely salary of $200. 00 a year. The most difficult work often receives the meanest compensation. Anything but our best qualified business men are unsatisfactory as County Commissioners, and as the work of our present board will show it takes gray matter to dispose of the knotty problems that are continually coming before them for solution. Commissioners should at least receive a reasonable compensation for their labors.

Secretary Alger has tendered his resignation to the President and Mr. McKinley has accepted it to take effect Aug. 1. Alger's resignation though evidently a necessity and certainly the desire of the nation, has been up to the time he made Pingree an ally, opposed by the President. He turned a deaf ear to entreaty, asking for the retiring of the Secretary from the war department and seemingly was not cognizant of Alger's gross incompetency to manage the affairs of his high office. That little word "Pull" is very explanative in the relations that have existed between these two great Americans. Alger without any thing behind him but craven cowardice in the Civil war and a miverly struggle for the "almighty dollar" raised himself to a cabinet position by a handsome contribution to the Republican campaign slush fund that elected McKinley in 1896. Nothing short of this great personal advancement would probably ever have induced the Secretary to part with his coin: and now since the purpose for which his services were required has been accomplished he is ousted with very little ceremony and less of remorse of conscience.

MINERS' EXCHANGE.

The New Mexico Bureau of Information and Miners' Exchange is to be opened at Albuquerque by Messrs. T. J. Curran and Geo. W. Stubbs. The new enterprise will be ready for business the first of August. The objects of the organization given by the Albuquerque Journal-Democrat are as follows:

"First—The establishment and maintainance of a bureau where complete records will be kept of the various mining districts of this territory and of indi idual mines.

"Second—The collection and maintainance of an exhibit of all ores to be found in this section, which will at times be open to inspection.

"Third—The listing of properties which are on the market and the bringing together of buyer and seller.

"Fourth—The monthly publication of a journal devoted exclusively to the advancement of the mining industry, in which will be regularly printed all news of interest concerning the progress of each camp; also latest quotations of the metal market."

That this enterprise will be of great value to the mining industry of New Mexico is hardly questionable; provided it shall be conducted on business principles. The difficulties heretofore experienced in conducting mining enterprises in New Mexico have been occasioned by misinformation or the absence of the means of securing reliable reports from the different mining sections of the territory. There are numerous mining localities that contain rich mineral deposits practically unknown outside of the immediate vicinities in which they have been discovered. These isolated sections and their resources will be brought prominently before the public through the columns of the w Mexico Miner" a journal to be published by this new enterprise. This territory has long needed a journal of this character and if it covers the field it will be no small factor in the successfull management of the Exchange.

Solution Of The Philippine Problem

Should the solution of the Philippine problem be turned over to the EAGLE we would immediately execute the following: Retire Granny Otis and Bill McKinley from command, and put Lamberton Lawton, McArthur, Wheaton or Funston; or even Miles in command with 500,000 men; or as many as is necessary, and form a solid front, begin at one end of Luzon and march straight across to the other, and either shoot, capture or stamp to death every negro in the island; or drive them headlong into the ocean. If this was found to be impracticable, and a more humane policy should be prosecuted we would embark our soldiers for the United States and give the Filipino a last long Good-by to the tune of Yankee Doodle.

A bloody feud is on in Clay county Kentucky between the Morrises and Griffins on one side, and the Philipots on the other. The opposing factions represent about two hundred armed men, and several have already been killed in a skirmish which took place a few days ago. The inhabitants of Clay county are leaving for fear of being drawn into the fight. These local wars in that state are a disgrace to the fair name of Kentucky, and to do justice to Clay county it should be placed under marshal law; if these fellows must fight send them to the Philippines where they can be of some service to the country.

Samuel Eldott has turned over the office of territorial treasurer to J. H. Vaughn. In this matter T. B. Catron is again turned down though he will as surely lob up again about the time New Mexico wants to elect a delegate or change governors.

The Star Stables.

My Undertaking Department contains a complete line of coffins and caskets, under the charge of an expert embalmer.

J. C. CALDWELL.

Hon. H. B. Fergusson has just returned from an attendance as a representative of New Mexico at the meeting of the Democratic central committee at Chicago. He states that it is his opinion that the Democratic platform will be free silver, anti-trust and anti-expansion and that W. J. Bryan will be the nominee of the Democratic party. The place for the national convention has not been decided upon.

Hon. Elihu Root, a distinguished member of the New York bar, has been appointed to succeed Secretary of State Russell A. Alger resigned. Mr. Root has accepted the war port folio, and though he has never had any experience in matters of war, if we are to judge from the illustrious record of his predecessor it will be all the better for the country.

Lahann-Spence Wedding.

On Wednesday, June 21st., Arcadia, Iowa, at the home of the bride's parents occurred the marriage of Miss Louise A. Lahann to Chas. Spence of the firm of Spence Bros. We have before us a copy of the Hopkinton Leader published at Hopkinton, Iowa, which gives a full account of the wedding Mrs. Spence is spoken of as having been one of the most estimable young ladies of the community in which she lived and no doubt will make a most worthy help-meet for the man she has chosen to honor. Mr. Sperce who is well known to the readers of the EAGLE is a man of sterling integrity, and as a member of the firm of Spence Bros. is one of Lincoln county's most prosperous stockmen. Mr. and Mrs. Spence are visiting a brother of Mr. Spence's, a successful attorney of Mt. Ayer, Iowa, and are expected to reach their New Mexico home in a few days.

INJURED BY A VICIOUS HORSE.

Dr. A. G. Lane and Mrs. Jos. Biggs while en route to Nogal yesterday where Dr. Lane had been called professionally, met with a serious accident, in which the doctor was badly bruised about the head and shoulders, and Mrs. Biggs had an arm broken. They were decending the hill into the Carrizozo when a hold strap on the harness was broken, the buggy turned over, with the above unfortunate results. The horse was thrown in the melee and it took the greatest effort on the part of the doctor to get him up; after which he was hitched to the buggy again, the harness being mended with the means at hand and Mrs. Biggs was brought to town as quickly as possible. Drs. Lane and Paden set the arm and the patient is resting as well as could be expected.

Comery Bros. have been digging a well near here for ranch purposes and at a depth of a little more than a hundred feet came in contact with a peculiar formation which shows prominent evidences of crude petroleum. Others have struck oil in sinking wells in this locality, but until recently nothing of importance has been thought of it. Wm. Lane was sinking a well north of town a few years ago and struck a considerable quantity of oil, nothing further was done as water for ranch purposes was the object sought, but now that other strikes have been made more elaborate investigations will follow.

WEEK TIPS.

July 12, 1899.

The deputy sheriff of Eddy Co., accompanied by Henry York, a deputy sheriff of Chaves county, visited this section recently and captured one of Otero county's citizens. On what charges he was arrested, the writer does not know.

J. D. Bunting is stocking up with new goods at the postoffice store on the north side of Agua Chiquita Avenue. T. F. Fleming is also receiving new goods at his store on the east side of Grand Plaza. John Green is now on the way to Roswell with his "prairie schooner" and eight mules for freight for Mr. Fleming.

Looking for Ranches.

King Perkins, John Cole, John Edgar and C. O. Hobbs all of Vauhorn, El Paso county, Texas, were here this week. These gentlemen are prominent stock men and are looking at this section of New Mexico with the view of locating or buying ranches. They express themselves as very much pleased with the White Oaks country and will move their cattle here if ranches can be secured.

Ed and Geo. Lee sons of our townsman John Lee, and their families arrived here yesterday from Lampasas Texas. They left here two years ago to try farming on the cotton plantations of Texas. The boys have had a great deal of agricultural experience but lack of funds forbade them indulging longer in cotton and mortgages and they are very much pleased to again reach White Oaks and say they will never leave a mining country and $3.00 a day again.

D. B. Merry of the Elizabethtown Mining Bureau returned here yesterday from a trip to the Pecos Valley. Mr. Merry and an associate, H. C. Crary came here two weeks ago from Elizabethtown to look after mining properties in which they are interested in this camp, H. C. Crary remaining here during Mr. Merry's trip to the Pecos Valley. These gentlemen will remain here a week or ten days with a probability of permanently locating. They consider that we have the greatest mining possibilities here as well as some of the best mines in New Mexico.

D. H. Bandy of Las Vegas, Gen'l Agent Southwestern Savings, Loan and Building Association of Las Vegas spent last Thursday and Friday here in the interest of that association. Mr. Bandy is making a canvass of the territory, organizing local branches and placing agencies for the association. He has met with success in every locality visited, and the unqualified success of this Las Vegas enterprise is already assured. Section 20 of chapter 72 of of the acts of the 33rd legislative assembly which places a license fee of $2.00 on each and every $1000 of assests owned or possessed by foreign associations, as well as several other very stringent sections of the same chapter, has driven outside companies from the territory, and has opened the field to a domestic enterprise, which was soon taken by the Las Vegas company. Although these conditions may be changed by future legislation, the two years the company will have, it will thoroughly organized and fortify itself against foreign competition. While this kind of legislation may be considered selfish by outsiders, it seems to have been about the only means of enabling a domestic enterprise of this character to exist. Thousands of dollars that have been leaving the territory for investment heretofore in building and loan stock will now be kept at home; and will unquestionably be of great general benefit to the people of New Mexico. John A. Haley and S. M. Wharton have secured the agency for Lincoln county.

Late advices from El Oro de Estado Mexico to friends of the late Frank R. Lloyd who was drowned in the shaft of a mine he was operating at that place state that Mrs. Lloyd now resides in Perth Amboy, New Jersey. The advices also convey the information that the hood of the cage in which Mr. Lloyd met his death was barely under water and that while there was a problematic carelessness on the part of the engineer at the hoist; yet, it is a reasonable theory that he was executing his orders and that neither he nor Lloyd knew the distance the water had risen since the day before.

USES OF THE TONGUE.

Rev. Jno. A. Rollars from the Congregational Pulpit Sunday, 16th.

Text, James 3: 7-8.

For every kind of beasts, and of birds, and of serpents, and of things in the sea, is tamed, and hath been tamed of mankind: But the tongue can no man tame: it is an unruly evil, full of deadly poison.

Evidently the writer of this text had some bitter experiences with the tongue. He says that no man can tame the tongue, and I believe that this statement is entirely true—if however we are consecrated to God. I believe that he can control our tongue.

A bitting tongue is a blasting thing, one unruly tongue can distroy the peace and happiness of a whole community, those who profess to be christians should manifest the spirit of Christ by their words, the most dangerous sin on earth is an unruled tongue.

Some people use the tongue for fault-finding, they seem to have an especial calling to find fault with everything earthly and unearthly—they never see anything beautiful in life, they live upon the husks—the slime and mud—while others enjoy the sunshine and flowers they wollow in the mud.

Doctor Talmage says that "there are in every community and every church watch dogs who feel called upon to keep their eyes on others and growl. They are full of suspicions. They wonder if this man is not dishonest, if that man is not unclean, if there is not something wrong about the other man. They are always the first to hear about anything wrong. Vultures are always the first to smell carrion. They are self appointed detectives. I lay this down as a rule without any exception, that those people who have the most faults themselves are most merciless in their watching of others. They look at their neighbors imperfections through a microscope and look at their own imperfections through a telescope upside down."

Those who speak nothing but bitter words, have a heart filled with Gall "Out of the abundance of the heart the mouth speaketh."

It is said that when Demosthenes talked, men gathered around him to hear the beautiful words that fell from his lips. His ability to speak beautiful thoughts seemed to charm people, when the heart is filled with love it springs to the lips, and the tongue speaks the message.

The tongue may be used to sing the most beautiful songs of praise to God, or to recite the sweetest poems.

Great companies of people are moved to laughter or to tears, by the legitimate use of words.

"Give ear O ye heavens; and I will speak: and hear, O earth, the words of my mouth. My doctrine shall drop as the rain, my speech shall distil as the dew. As the small rain upon the tender herb. And as the showers upon the grass. Because I will publish the name of the Lord: Ascribe ye greatness unto our God. He is the Rock. His work is perfect: For all his ways are judgement: A God of truth and without iniquity; just and right is He."
