Official Paper of Lincoln County

The Board of Equalization is in session at Santa Fe.

Read the tax roll on the fourth page of this issue. See the relative valuation of agricultural, stock and and mining interests of Lincoln County. Cut it out and paste it in your scrap book and notice how much improvement the county will make with in the next year.

There seems to be very little interest manifested either in the anti or pro forest reserve factions in this county. All favor protecting the timber and water supply and the only opposition heard of is to the amount of territory to be embraced in the proposed reservation. The probable conclusion of the matter is that a timber reservation taking in the White and Capitan ranges, of sufficient magnitude to protect the water supply will be granted.

The Jirilla placers are causing considerable comment from time to time in El Paso journalism. It is claimed that a good number of dry washers are in operation there and are taking out considerable profits. We do not doubt that the Jirillas are rich in minerals, gold, copper, etc, but if a dry washer can be operated with profit in that district, it will pay the mining public to investigate the means by which such is possible, as no other place on earth has ever been able to demonstrate the practicability of the dry washer process.

ABOUT THE TIMBER RESERVE

Gouchy's White Oaks Letter to the Albuquerque Democrat of the 17th Inst. Turns an X-Ray on a Scheme to Defeat the Purpose of the Government in Protecting Timber in Lincoln County.

ONE HUNDRED AND SIXTY

Tie Cutters in the Mountains, Chiefly Denizens of the Cactus Flag, Who Sign a Protest to the Government, are Represented as a Mass Meeting of Lincoln County People.

GOV. OTERO'S COMMISSIONER

W. M. Clute, Who Pulls El Paso Editors on Like a Boot, Also Has Fallen Under Gouchy's Observation Through an Interview He by Some Means Secured With the El Paso Papers.

At the present time an uncertain number of our fellow citizens and some half dozen outside railroad men are all broken up over the proposition to protect the better portions of our county from utter annihilation by establishing a forest reserve, which would take within its boundaries a sufficient amount of the original growth for mining and domestic purposes. It so happens in doing this that a few sections or patches of arid or untimbered land has been included. Several remonstrances, some of them grossly misrepresenting the facts, have been circulated, and numerously signed by people who were entirely misinformed in regard to the real scope and purposes of the proposed reservation. These petitions have all been forwarded with due dispatch to the secretary of the interior. Your correspondent has been reliably informed that at least one of these documents, seemingly plausible, was signed by the cutters and other employees of the railroad, who are not even citizens of the county, so intent are the members of this timber snatching syndicate in accomplishing their aim.

Of course the people of Lincoln county do not know what is best for themselves and must go outside for advice and take it too without kick or subsidy just as they do crackerjack or embalmed beef. About one week ago a certain daily newspaper published at the territorial capital, contained an article in reference to this proposed reservation in which, by strong reference at least, it took W. H. Burtain, superintendent of forest reserves, for New Mexico, to task for his action in this case in seeking to protect the interests of our people from vandalism and rapacious greed, just as he had in other portions of the commonwealth. A few days later the same paper published a statement from one W. M. Clute of Nogal, this county, running in about the same rut. In order to add weight to this opinion, no doubt, that sheet prefaces its remarks by saying that said Clute is one of the county commissioners of Lincoln county, but does not say that just prior to his appointment to that office by Gov. Otero he had been forcibly persuaded to resign the office of county school superintendent by the board of county commissioners as then constituted, because his periods of habitual soberness were not sufficiently protracted to allow him to perform the duties of that office (see records of that board for July). According to this Nogalic oracle, or the paper which is giving it vent, the El Paso and Northeastern railroad, the vast Carizozo flat and all the fine farming land from the Mal Pais on the western line of Lincoln county to the Texas border, is to be forcibly torn out like a fly leaf to a porus plaster—wantonly segregated from the public domain—and set aside to be gazed at and enjoyed only for its primitive beauty and the climate it contains. He, it or the oracle says, "the idea of calling it a forest reserve is ridiculous, as there is not a stick of timber on the greater part of it, nothing but grass for the cattle that range there. That the few trees on this vast tract are scattered around here and there, in small patches, and will never pay for any company to work them. That about all the timber found in any body is on the top of the White mountains and that is too high to be worked out."

To a man outside of the proposed reservation it looks as if this oracle might be oracling through his hat a little bit. In the first place if he will take the pains to post himself he will find that the lines of the proposed reservation do not take in either the railroad track or the Carizozo flats west of the White mountains. He will also find that about all the fine farming section he speaks of as capable of such great development, is situated in this barren, treeless country without possible chance of irrigation, except by wells, which as yet are rather an uncertain an expensive quantity. Then much the larger portion of this reservation is embraced by the El Capitan, Nogal and White mountain ranges and their outlying foothills, and these ranges are all fairly well covered with timber of a commercial value and needed in the county where it grows for domestic purposes. To further show that his oracular machine is out of repair, the firm of Briggs & McPherson, sawmill men who for several years operated a sawmill in Tortolito canon, close to the town of Nogal, where it is stated the trees are scattered around in small patches and will not pay to work them, are ready to verify the statement that that canon alone has produced over a million feet of lumber and has all been absorbed by the local trade. The truth of the matter is the land in this section, as in all other portions of the southwest, can only be successfully farmed by irrigation, as it is situated along the running streams and is now about all occupied. By wholesale destruction of the timber on the mountain ranges the waters will go down with a rush, the streams become dry, the farms and orchards thereby ruined, and thus the whole country, instead of advancing to its best stages of development, will be given over to prairie dogs and coyotes and thereafter classed as arid lands. The people who are seeking to have this reservation established are not making any fight against the railroad, they are seeking only the greatest good to the greatest number; to develop what resources there are in the country, rather than to throw anything in the way of its progress. In doing this they can not see how the total destruction of the timber required for domestic uses and its shipments to points outside the territory can result in other than their own undoing, especially after witnessing the destruction being wrought in the magnificent forests of the Sacramento mountains, where even the undergrowth of timber is cut and shipped as cord wood to El Paso.

From any such baldheaded proposition as this, good Lord or good government deliver us, for which the most reliable citizen of Lincoln county will always pray—that is, those of them who know how.

Should the influence of power or the greed of wealth succeed in defeating this righteous endeavor; should this proposed forest reserve not become a reservation, in fact, should the water courses become more rivulets, our pure mountain air become heavy with the malaria of decaying tree tops, then the general government, which has established a dry land hospital for marines at old Fort Stanton, on account of its ideal sunshine and pure air, might as well pack up its doctors, its traps and its tuberculosis and follow the troops and the ozone out of the country for all the benefits they will ever derive from the climate. Any of the sunbaked, wind swept mesas of the southwest would be as fair a site.

READ HIS EDITORIAL.

From the Times, Hillstille, Va.

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been brought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man to day and feel as well as I ever did in my life. Mining At Long Range.

W. M Clute of Nogal, N. M., expects in the course of a few days to begin shipping ore from his lead and silver carbonate mine in the Capitan mountains, New Mexico. He has put a force of men to work and is pushing the development of the property. Since the price of lead has advanced many lead prospects in the Capitan mountains are being worked.—El Paso Times.

Lincoln County is full of such industrial promoters as the above. It is a long range enterprise operated by wind from the Lindell hotel in El Paso to the Capitan mountains in New Mexico. If there is any quantity of lead or silver carbonate in the Capitan mountains men who have been mining here for years and surveyors who have been over the ground many times have failed to find it, and if the above statements are true there are men visiting White Oaks, Nogal and this whole mining region every day who are looking for just such a proposition, and who have money to invest when it is shown them. Parties are going from White Oaks to the Capitans every few days and if there are any mining operations going on there except it be a prospector now and there, they have not been discovered. The Capitan mountains contain great quantities of iron, and El Paso smeltermen have been here recently to examine it, and have pronounced it to be very a fine quality of ore so far as can be ascertained from surface examinations, no development of any consequence having been done.

AN IMPORTANT FOOD LAW.

Heavy Penalties for Selling Articles of Food Containing Unhealthy Ingredients.

The following law was passed at the last session of the Missouri legislature, taking effect August 20, 1899:

Section 1. That it shall be unlawful for any person or corporation doing business in this state to manufacture, sell or offer to sell any article, compound or preparation for the purpose of being used or which is intended to be used in the preparation of food, in which article, compound or preparation there is any arsenic, calomel, bismuth, ammonia or alum.

Sec. 2. Any person or corporation violating the provisions of this act shall be deemed guilty of a misdemeanor and shall, upon conviction, be fined not less than one hundred dollars, which shall be paid into and become a part of the road fund of the county in which such fine is collected.

The operation of this law will be mainly against alum baking powders. But the manufacture or sale of any article of food or article intended to be used in food which contains any of the substances classed by the law as unhealthful—from arsenic to alum—is absolutely prohibited.

Go to S. A. Neid for Lime, Cement and all kinds of Stone work.

Uncle Dick Bacon, who has been a prospector in this mining district for several years, died at Nogal, last week of old age. He has been helpless for some time and has been tenderly cared for by Nogal people. He was laid to rest in the Nogal cemetery last Thursday at 3 o'clock.

Why is It?

White Oaks, and in fact all of Lincoln county, has had the meanest mail service on record for more than two years. The service from El Paso and all the southern portion of the territory is miserable. Letters are some times on the road a week from El Paso here and sixteen or seventeen days reaching us from the Sacramento country. This system can certainly be improved.

The El Paso and Northeastern railway is now within ten or twelve miles of us, and the service from El Paso should come over this line instead of by stage over the Sacramento mountains. Somebody, anybody, give us a change.

Await Our Future Announcements.

We are busy receiving new goods and we ask the public to inspect our immense purchases of all lines of desirable Fall and Winter goods. We have put such prices on all lines as will command your patronage.—S. M. Wiener & Son.

News reached here yesterday of the death of Will Gray, son of S. T. Gray, at the Salado. Young Gray was a son-in-law of Mrs. Lesnet of Lincoln, and brother in-law of John A. Haley of this place. Gray was taken with inflammatory rheumatism about ten days ago, which developed into paralysis, terminating in death at 3 o'clock Tuesday morning. The EAGLE extends sympathy to the bereaved relatives.

Struck it Rich

Jones Taliaferro has taken out some of the richest copper ore ever exhibited in this section of New Mexico. The strike is on one of his Gallina properties. The ore will run from 50 to 60 per cent copper and is rich in silver and galena. The vein is 3 feet wide and is improving with depth. Mr. Taliaferro has been hanging on to the Gallina country for several years, and has spent considerable money on different prospects in that locality. The claim on which this immense strike has been made was located in 1880 and has had several hundred feet of work done in sinking shaft and drifting. The owners were G. R. Young, who is now in the gold fields of Alaska, having gone there when his term as register of the U. S. land office at Roswell expired two years ago, M. S. Taliaferro and Jones Taliaferro. Young abandoned his interest some six years ago and M. S. Taliaferro gave his interest to Jones two years ago when he returned to his old home in Illinois to live. Jones Taliaferro has kept on hoping and working until he has opened up a well-defined lead of the richest ore ever seen in this country, and will now realize on the time and money expended on the property since its location in '80. Taliaferro is feeling good, and everybody who knows him will be pleased to hear of this strike.

We have not learned the name of the receiver, who is already in charge.

Two Mogollon Mines.

Two mines at Mogollon, Socorro county, have continued milling steadily for a long time. The Confidence recently shipped five bars of bullion. The mine is being thoroughly developed. No. 2 shaft has been sunk to a depth of 450 feet below the adit level, making a total depth of 700 feet from the surface. At this level a station has been cut and drifts started upon the vein. Sinking will be continued to a depth of 900 or 1,000 feet from the surface, with levels at intervals of 100 feet. This will give 400 feet of back stopes, insuring ore reserves to keep the company's thirty-stamp mill running several years.

The Last Chance mine and mill knows no rest day nor night. The company has had a survey made for the new tunnel, which will be run in on a level with the mill, so they can dump the ore out of the mine car into the mill chutes, thereby lessening expense. The tunnel will really be a cross-cut, tapping the vein after cross-cutting 733 feet, 300 feet deeper than the present working level, and where the cross-cut tunnel will cut the vein close to the west end center, it will practically give to the apex of the vein 650 feet of stoping ground, all of which is milling ore.—New Mexican.

ZACCHAEUS.

By Rev. Jno. A. Hollars.

Text:—Luke, 19:3-5

And he sought to see Jesus who he was; and could not for the crowd, because he was little of stature. And he ran on before and climbed up into a sycamore tree to see him: for he was to pass that way. And when Jesus came to that place, he looked up, and said unto him, Zacchaeus make hast and come down; for to day I must abide at thy house.

Zacchaeus had been a busy man all of his life, because it is said that he was a rich man, and we know that idlers do not become rich. He had heard of Christ and he wanted to see him, I do not know that curiosity prompted him to see Jesus, but I do know that he wanted to see him, and he was willing to over come all the difficulties in order to meet the master; when a man is willing to lay aside all malice and all prejudice, and seek the master earnestly and honestly he is sure to find him. It is said that we always find what we seek, and how true is the saying. If we look for imperfect christians we are sure to find them, if we look for hypocrits we are sure to find them, if we look for the small and the mean, we are sure to find them; but I have never known any one to go to heaven on other peoples faults.

This man went out to look for Jesus, and he found him. We do not know that Zacchaeus was a good man; I am rather inclined to believe that he was bad, perhaps he felt that he needed to change his way of living; he was tired of the old way—when we are tired of the old way we can change to the new, When we are sick of sin we can turn to God.

If we start out to do right, all of the anticipated difficulties will fade away like the mist before the sun. This man had much courage to turn from his old ways. He had lived among those people for a long time, and he was not favorably known; I have no doubt that the people hated him, because he was rich and he was a tax collector; perhaps they had no confidence in him. They would say: "What, this man become a christian?" Why, he is one of the biggest rascals in this community, but he became a christian; if we wish to do right we must not be influenced too much by what our neighbors will say or think. Every man must act for himself in religious matters.

Zacchaeus immediatly responded to the call of christ, there was something so friendly in the voice of the master; perhaps the kindly look of christ inspired confidence. We sometimes meet with people whom we feel that we can trust, the very expression of their face invites confidence; when we meet such people, something within us seems to say "you can trust them, do not be afraid." How pleasant it is to meet with those whom we can trust—it is such a relief when we are in trouble or sorrow, we want a trustworthy friend. Jesus said to this man; Zacchaeus make hast and come down, for this day I must abide at thy house. Perhaps those were the first kind wards that this man had heard for many years.

It is an easy matter to be friendly and kind, however, the world does not seem to be that way. Zacchaeus was so pleased to meet with the master that he exclaimed; Behold Lord the half of my goods I will give to the poor, and if I have wrongfully exacted ought of any man, I will restore four fold.

We believe in a religion that makes a man willing to settle up; we believe in a religion that makes a man do right by his neighbor.

A SENSATIONAL CONVERTION TO METHODISM

The Methodists in what is known as the White Oaks country have been having a camp meeting on the Rio Bonito for some two weeks. The attendance has been quite large and a number of persons were converted and a number became sanctified or received what is called the second blessing. The meeting has been conducted by the Rev. T. L. Adams, of White Oaks, well known in this city and has been the talk of that section.

Rev. Mr. Skinner was the pastor of the local Baptist church and always had been opposed to the doctrine of sanctification as taught by Rev. Adams and the methodists although his wife was an ardent member of that church. They had been living separate for some time past.

About 2 o'clock one morning last week Rev. Mr. Skinner suddenly awoke to find that he had become sanctified himself and a firm believer in the belief. In his excitement he wanted to tell some one all about it, so he hastily arose and dressing himself he mounted his horse and rode several miles to find Rev. Adams and tell him how it happened.

The Rev Adams was of course greatly pleased at the accession to his ranks of one of such standing and the Rev. Skinner became straightwith one of the leading spirits of the meeting. The Baptists now find themselves without a pastor and the affair has created quite a sensation in those parts Times.

A Night Of Terror

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die of Pneumonia, but she begged for Dr. King's New Discovery, saying that it had more than once saved her life, and had cured her of Consumption. After she had taken three small doses she slept easily all night, and its further use completely cured her". This marvelous medicine is guaranteed to cure all Throat, Chest, and Lung Diseases. Only 50c and $1.00. Trial bottles free at M. G. Paden's Drug Store.

NEW GAME LAW.

The last session of the legislature changed the game law of the territory as follows: For Lincoln county the act makes it unlawful to kill, wound, snare or trap any quail, wild turkey and etc., or to kill, wound or in any way destroy any antelope, deer, elk or mountain sheep except that said birds or animals, the animals being with horns, may be killed with a gun during the months of October, November, and December. This date also applies to all the southern counties, but in the more northern counties the season opens one month earlier.
