... ANNOUNCEMENT ...

GENERAL NEWS ITEMS.

Reily Baker, a late Texas ranger, a resident of Weed, Otero county, has been appointed sheriff, to succeed Capt. George Curry, who resigned to accept a lieutenancy in the Eleventh regiment of volunteers for the Philippine war. Before he came to New Mexico Mr. Baker lived at Ysleta, Texas. He is said to be a fearless officer and an excellent gentleman.

The building of a Union depot is being discussed by El Paso railroad officials.

Texas has another railroad building boom on. Well, Texas has plenty of room for several hundred miles more of profitable railway.

A Las Cruces correspondent to the El Paso Herald says A. W. Hilton of San Antonio, N. M., a prominent merchant and coal dealer, is down looking after coal interests with the mining companies. The correspondent also says Major Llewelling and his partner, Greenway Lane, located 80,000 acres of soda placer mines in the vicinity of the White Sands, near the line of Otero and Dona Ana counties, on the branch line of the Santa Fe railroad to be constructed from Las Cruces to Tularosa.

During the winter of 1897 Mr. James Reed, one of the leading citizens and merchants of Clay, Clay Co., W. Va., struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and painted him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Pain Balm is unequaled for sprains bruises and rheumatism. For sale by M. G. Paden.

The First Salado Coal.

Salado, N. M., Sept. 29.—The first car load of Salado coal for shipment was loaded here this evening in El Paso and Northeastern car No. 588. It will doubtless be shipped to El Paso.

For ten years El Paso has been dreaming of the coming of the Salado coal, and talking about the great industrial boom this city will experience when the White Oaks railroad should tap the Salado coal fields and give El Paso cheap coal.

The first car load of the Salado coal is coming, but whether it is cheaper than coal hauled a longer distance remains to be seen.—El Paso Times.

Why experiment on yourself with remedies of doubtful utility when you can get Chamberlain's Cough Remedy, which has stood the test of time? Twenty-five years' sale and use have proven that remedy to be a prompt and certain cure for colds. It will cure a cold in a day if taken as soon as the cold has been contracted and before it has settled in the system. Sold by M. G. Paden.

Official Paper of Lincoln County

DISAPPOINTMENT WILL COME

There is disappointment in store for the people of El Paso, says the Industrial Record, who think that when the coal mines at Salado are opened up El Paso will get cheaper fuel. Eddy brothers are enterprising and possessed of indomitable energy and push (when looking after their own interests), but no one has ever accused either of them of philanthropical motives at any time in their career. The Record is right, the Eddys never had any intention of reducing the price of coal in El Paso. They know it themselves, that in competition with the Santa Fe and Southern Pacific they would mean up about like El Paso county would in comparison with the Sahara Desert. These competitors could sell coal so cheap that the Eddys would have to use it themselves for the reason that it would be cheaper than they could mine theirs. All this talk about cheaper fuel in El Paso is windy and should be taken for what it is worth, and as the Record says, the people of El Paso might just as well make up their minds that coal will be held at the same prices as of yore.

Many important news items have been crowded out both last week and this, on account of the space taken up by the tax list, but it will not always be thus.

Should British India adopt the gold standard, and the yield of gold in South Africa be cut off at the same time by a war between England and the Transvaal, it will cause things to look just a little panicky, even over on this side of the duck pond.

The dogs of war seem to have gained the ascendency in the attempted settlement of the difficulties between England and the Transvaal. The final ultimatum of the English government has been absolutely ignored by the Boers and war now seems inevitable.

That the President has acute apprehensions as to the result of the comming gubernatorial election in Ohio is evidenced by the fact that he is going to stump the state in the interest of his party. If Mr. McKinley's Philippine policy is turning the heads of the voters of Ohio democratic ward what western state will be carried by the republicans in the race for president.

Mark Hanna is emphatic in his denial of the report that he contemplates resigning the chairmanship of the republican national committee. Without Hanna the republican party would be like a ship without a pilot, and the rotten old craft would certainly wreck on the trust reefs and imperialistic policy she has so tenderly nursed to tremendous proportions during the life of the present administration.

It is reported that the Organ mines are proving richer every day. The Torpedo is a wonderful new copper mine, so far it has been worked at a very low expense. The ore is silicate of copper resembling soft talc, and is mined without using powder. A single miner with pick and shovel mines about six tons of ore a day. The lessees of the Modoc mine have purchased a gasoline hoisting engine and employ a large force of miners. There are now four shipping mines in full blast in the Organs. Leadville experts and capitalists are slipping up there.—Times.

Coal Exhausted in Shaft No. 2 at the Salado.

Thirty six coal miners from the Salado stayed over night here Wednesday enroute to Cerrillos. These coal miners confirm the report that the coal in shaft or opening No. 2 at the Salado had played out entirely. They sank 75 feet through solid rock after working out the vein and struck no more coal, and the shaft was abandoned and they were discharged. The vein is pinching out also in No. 1, and the mine can at present barely furnish two car loads of coal per day, and it is the opinion of these men that the vein will soon fail entirely. Some of the men, who have worked in the coal mines of Pennsylvania for years, are of the opinion that the Salado country is so broken up that coal will never be found in very great quantities. This, however, the EAGLE hopes, at least, will prove untrue, as it would be a tremendous blow to the Northeastern enterprise should they fail to find immense quantities of coal, and should the company fail to get as much as thirty car loads a day the operation of the Salado railroad and coal mines will be a failure. There are only a few miners at work in shaft No. 1, and should this pinch out entirely, as these men seem to think it will, the company will have to bring the diamond drill in play and do some more prospecting, and then should they fail to find it, about the only suggestion the EAGLE can make is, should they want coal, they will have to come to White Oaks after it.

White Oaks Coal Will Go to El Paso.

A. H. Hilton of San Antonio, was here Monday looking after business interests. Mr. Hilton is opening a coal supply house in El Paso, and is going to deal in the very best coal available in New Mexico. He will ship from Cerrillos, Carthage and White Oaks. Mr. Hilton is negotiating with the Old Abe company for one car load a day, to be delivered aboard the cars at Carrizozo. Cerrillos coal is said to be the best for all around purposes in the territory. The Old Abe company's coal, which is now being used here at the mines, in the blacksmith shops and by almost every residence in town, is equally as good as that at Cerrillos. The mine is in the very best of condition, has a vein that will average three and a half feet without a break or roll, and is absolutely clear of bone or waste of any character. The main shaft of this property is down about three hundred feet. It has an incline of about 20 degrees and the mine has in total about one thousand feet of development work, which has been done by experienced coal miners, who have the property in excellent working condition. The supply of coal is apparently inexhaustible; and by increasing the force of men the company can very easily supply all the home trade and ship a car load a day to El Paso, and should there be a demand for more, which will surely result from its trial on the market, greater shipments will follow and other properties will be worked that are now idle.

Rich in Copper.

The Gaylord brothers of Nogal, have struck a very rich copper lead 2½ miles from Nogal. This property was located last January by Amos and Grant Gaylord. The assays are said to run very high in copper, gold and silver. The lead is 22 inches wide and broadening with depth as the work advances. Some very fine specimens of native copper from this property is on exhibition in this office.

ROSWELL.

Register.

The cattle sales closed in Roswell last Saturday, after delivery on contract, footed up $88,030.

Among the cattle sales closed here last week were a large bunch owned by J. M. Lusk, Jim Jeffers, R. H. Marsh and Jim Lewis.

Dr. W. T. Bishop of White Oaks arrived here last Friday with Noah Ellis, for a week's visit to the metropolis of the Pecos Valley.

Mr. C. P. Benson, of Graham, Texas, was here last Tuesday looking over the country with a veiw to locating. He, in company with David Whiteman, left for the White Oaks country on Wednesday.

J. F. Hinkle, manager for the Pecos Cattle company, will deliver not less than 3000 head of C.A. cattle to W. H. Godkin's agent at Hagerman tomorrow, being the second herd delivered on the recent sale.

Noah Ellis arrived here last Friday from his White Mountain ranch in Lincoln county, having gathered a herd of 780 cattle, 400 of which were steers and the remainder cows, which he was holding out far from town.

Victor Vincent, the sheep breeder, sold his wool crop of 11,000 pounds last week to W. R. Clements & Co. of this place, at Carlsbad at 5½ cents. He is running his lands about six miles below W. P. Chisum's ranch, W. T. Gibbons having charge of them.

W. P. Chisum sold four car loads about 1040 head of sheep about 30 days ago to J. E. Bradfield, of Kansas, and delivered them Monday. They were one and two year old wethers, and brought $2.50 per head. Mr. Bradfield shipped to Emporia.

Tom Prudencio, range boss for the El Capitan Land and Cattle company, was in town last Saturday, having come in from the round up camp near Salt Creek, where he was holding 800 old cows pending the result of an application made by the receiver, Samuel Huston, to Judge Leland for an order to sell them.

Mr. and Mrs. T. C. Tillotson, of Lower Penasco, arrived here Tuesday and are stopping at the Central Hotel. Mr. Tillotson is one of the many excellent citizens Chaves county gained by the annexation of territory from Lincoln county at the time Otero county was created and has many warm friends in Roswell who are always glad to see him and his estimable wife.

J. P. White, manager of the Littlefield Cattle company, returned Sunday from Kansas and Four Lakes, where he had been to arrange for the gathering of the 2000 heifers he sold to John T. Shy, to be delivered yesterday at the River Stock Yards. It is said by those who are good judges and have seen the cattle that they will be the finest bunch of two year old heifers ever rounded up in New Mexico, and all straight marks and brands.

G. W. Johnson, of Ruidoso was here yesterday circulating petition for the pardon of John Hightower, who was sentenced to 15 years in the penitentiary from this county two years ago for the killing of Jas Meggs, a miner, who lived near Hightower on Eagle Creek. Hightower went to the penitentiary and after two or three months escaped, and is still at large. The petition has about 15,000 signers.

On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recomend it to the public." For sale by M. G. Paden.

Mr. and Mrs. Jack Leighnor and Mr. and Mrs. Forker went to the Mal Pais Tuesday. The Mal Pais are a great curiosity to strangers who visit White Oaks. The crater proper, from which a lava flow 65 miles long, extending south down the Carrizozo valley, is about 17 miles from town, and can be easily reached from here in a few hours. This immense river of lava is from 2½ to 5 miles wide and is dotted over with a scrubby desert growth that has accumulated there in the small spots of earth lodged in the fissures of the lava by the spring winds, little by little, during an unknown number of years past. The surface of this extensive area of bad lands, as it is familiarly known among the natives, has a some what similar appearance to the surface of the moon as seen through a modern telescope, and is inhabited by a variety of tribes of the howling, prowling, hissing, rattling species, among which are the lobo, coyote, a western specie of the American panther, rattle snakes, horned toads, &c. The rough, knarled and sharp pointed peaks, sticking up promiscuously over the surface, make travel over it impossible except on foot, and that mode is very difficult as well as extremely destructive to shoe leather. The crater is often reached, however, and the hard trip to gain the spot, is universally proclaimed time well invested, to enable one to reach the original source of this dead river, with whose history antiquarians connect the destruction of people and cities.

Working Night And Day

The busiest and mightiest little thing that ever was made is Dr King's New Life Pills. Every pill is sugar coated globule of health, that changes weakness into strength, listlessness into energy, brain fag into mental power. They're wonderful in building up the health. Only 25c per box. Sold by M. G. Paden.

The White Oaks public school opened Monday morning, with Prof. E. S. Coombs of Carthage, Illinois, in charge as principal, and Miss Ula Gilmore, as assistant. The EAGLE has not learned the exact numbered enrolled but it is near one hundred, which is an excellent beginning; and the probabilities are that a third teacher will have to be employed. White Oaks has always had reasonably good public schools, and we have every reason to believe that Prof. Coombs, who comes recommended as one of the most successful educators of his state, will make this one of the best public schools in New Mexico. Good schools are a potent factor in building up a town or community, a reputable citizenship and an enterprising and business locality. The advantages of the public schools are now such that a practical education is in reach of every boy and girl who is ambitious enough to properly utilize the time ordinarily given them in the public school; and the academies and colleges all over the country, are every year filled up with preparatory classes, the members of which could in a majority of cases, have spent a year or two more, profitably in the home school.

For Blankets and Quilts we are Headquarters; largest and best selected stock in town just received.—Ziegler Bros.

NOTICE.

To Directors of the Various School Districts of Lincoln County

When purchasing text books with the public school funds, accompany your warrant with the following statement

Give names of pupils for whom books are to be purchased.

Give kind and number of books required.

State reasons for district furnishing said books.

The law does not contemplate the indiscriminate purchase of text books by a district, and only those who are known to be unable to furnish books for themselves are to receive benefits from this source.

Unless these requirements are complied with I shall refuse to endorse such warrants.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than any thing I could take. I can now eat any thing and have a new lease on life." Only 50c at M. G. Paden's Drug Store. Outlook in the Jicarillas.

E. H. Talbot of the Jicarillas, has gone to Cripple Creek, Colorado, on a business mission of a mining nature. Mr. Talbot has opened up two or three rich lead claims in the Jicarillas this summer and is now getting ready to work them extensively. He is interested with Colorado parties, two or three of whom have been here during the month of September, making thorough tests and examinations of his properties. They were thoroughly satisfied with the results. On these tests have depended largely the fate of the Jicarilla mining camp. It has been generally understood that no quartz leads of gold could be found there, but during the last two years, and particularly during this last summer, a number of well defind leads of quartz carrying gold in paying quantities have been reported, and when men who understood what they were after went there for the purpose of determining the truth of the matter, they have been wonderfully surprised to find rich gold quartz in solid formation in a district heretofore considered only placer ground. Mr. Talbot's properties, also that of William Ross and A. H. Norton, all contain rich veins of gold quartz, and if they were in Cripple Creek or other advertised districts they would create a Klondike excitement. It is only a question of a short time, however, until these properties will be producing and the Jicarillas will be filled up with miners engaged in developing these properties.

Millions Given Away

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on M. G. Paden, Druggist, and get a free trial bottle. Regular size 50c. and $1. Every bottle guaranteed, or price refunded.

Dewey on the Philippines.

In his interview with the score or more of newspaper men who visited him the morning after his arrival at New York, Admiral Dewey, in speaking of the Philippines, said:

"As to the Philippines, I am no talker; never was. I have often wished that I could talk, but I never made a speech, and I'm too old to learn those tricks. You know as much about the Philippines as I do. Any intelligent American citizen who has followed with the right interest what has happened there since we whipped the Spanish fleet knows as much of that problem as I or any man aboard ship.

"Ever since I left the islands I have read everything bearing upon the islands what has transpired there since we left that I could obtain.

"At the time I left I said that the insurgents were on their last legs. It's got to come; they can't stop it. They can't hold out against the army and navy. I believed then that they would be unable to secure arms and ammunition, without which they could not wage war, but I have learned through the newspapers since that they have received the necessary supplies. That must be stopped, and the insurgents will then be of little strength. They are good soldiers, splendid ones, and their powers of endurance are remarkable."

"Do you consider that the Filipinos are yet capable of self government at least, enough so as to allow of the withdrawal of American forces?" he was asked.

"No, they are not, but in time they will be. It is bound to come out right—bound to," replied Admiral Dewey, decisively.

"I will say this much, though, for the Filipinos," he added. "They are more capable of governing themselves than the Cubans are. Some of them, I doubt not, are now capable of administering affairs, but the great majority of them have the crudest ideas of an honest and efficient government.

"Their greatest fault is this: They don't know the meaning of the word 'honesty.' Of course, like all Malays who have had educational advantages, they are wonderfully capable of imitative construction and are admirable artisans when trained."

The Unit of Copper.

The following from the Denver Post, as to what constitutes the unit of copper, will be of interest to readers of the EAGLE:

"The unit of weight is 20 pounds avoirdupois. It is one per cent of copper in the ore; and one per cent of a ton is 20 pounds. Each per cent of copper contained in ore is equal to as many units of copper. Ore carrying 50 per cent of copper or 50 units, for example: copper is quoted at $4 per hundred, is worth 80 cents per unit and fifty times equals $40 a ton.

"For each decline or rise of 5 cents in the quotation a deduction or addition of 1 per cent should be made. If the quotation is $3.95, then 1 per cent from the price (50 cents) should be taken, and so on down to whatever the quotation may be. For example, if the price is quoted at $3.75, 5 cents from 80 leaves 75 cents per unit, and ore carrying 50 per cent of copper would amount to 50 times 75, equaling in value $37.50 per ton."

NEW GAME LAW.

The last session of the legislature changed the game law of the territory as follows: For Lincoln county the act makes it unlawful to kill, wound, snare or trap any quail, wild turkey and etc., or to kill, wound or in any way destroy any antelope, deer, elk or mountain sheep except that said birds or animals, the animals being with horns, may be killed with a gun during the months of October, November, and December. This state also applies to all the southern countries, but in the more northern countries the season opens one month earlier.

Warning

All persons are hereby cautioned against the discharging of fire arms within three hundred yards of any inhabited house. The penalty for violation is a fine not exceeding one thousand dollars, or imprisonment not exceeding three years, or both.

Numerous complaints having been received relative to the discharge of firearms, violators of the law will be held to a strict accountability.
