GENERAL NEWS ITEMS.

THANKSGIVING PROCLAMATION.

Governor Otero Advises Observance of the National Holiday.

Executive Office,
Santa Fe, N. M., Nov. 7, 1899.

Whereas, the president of the United States, in accordance with a time honored costum, has by proclamation of recent date, set apart and named Thursday, the 30th day of November, A. D. 1899, as a day of general thanksgiving and prayer to Almighty God for the blessings he has vouchsafed to us and has therein earnestly exhorted all our people, wheresoever they may be, to assemble in their several places of worship on that day, and render devout thanks to the Most High for His Countless individual blessings, and His signal favors to us as a nation during the year: and frequently to implore a continuance of His favor and divine guidance for the nation.

Now, therefore, I, Miguel A. Otero, governor of the territory of New Mexico, do hereby call and commend said proclamation to the special attention of the people of this territory; and in accordance with established precedent, do likewise here designate and name the said 30th day of November, A. D. 1899, as a day of general thanksgiving for the people of the territory of New Mexico, recommending and advising that it be in all things observed by them in the very appropriate manner suggested and advised by the president in his said proclamation.

Let us all, as citizens of New Mexico, upon that day, express our gratitude to Almighty God, for the profound peace and harmony existing throughout our territory; for the spirit of loyalty and patriotism existing among our people; for the safe return of so many of our valiant soldiers, and, seek His care of those still absent defending the honor of our nation in the onward march of civilization, liberty and law: for the general prosperity existing in all branches of business and the advancement and success of our educational and charitable institutions as well as for the growing spiritual, moral and charitable sentiment prevailing among our people.

It is further recommended that said day be treated as a legal holiday by the people of the territory, and make the occasion for family reunions; the renewal of friendships; the reconciliation of personal animosities, and for ministering to the needy and distressed.

Done at the executive office this, the 7th day of November, in the year of our Lord One Thousand Eight Hundred and Ninety-nine. In witness whereof I have hereunto set my hand and caused the great seal of the territory of New Mexico to be affixed.

Miguel A. Otero,

By the Governor:
Geo. H. Wallace,
Secretary,
Territory of New Mexico.

STATEHOOD.

A Washington special to the Denver News says:

"Delegate Pedro Perea, of New Mexico, Mrs. Perea and his son are at Willards.' He says:

"My chief ambition is to see New Mexico admitted to statehood during my service as a delegate. Our fitness for admission is recognized. The status of a territory, however great its natural wealth and resources, is always unsatisfactory. Capital seems to shun territorial investments, but the moment congressional action authorizes statehood people begin pouring in, and the work of development receives a decided impetus. This has been the story of all our former territories, and that is why it is so desirable that New Mexico should get into the family of American states."

"It is more than an even bet that Mr. Perea will never get his admission bill out of the committee pigeon-hole."

Delegate Perea may not know it, but the men who made him delegate know that there is no intention of admitting New Mexico now or any time in the future so long as the republican party is in power. The admission of New Mexico would add two silver senators and the republicans will never allow it.—Raton Gazette.

STAGGARS HUMANITY.

(New York Herald.)

The known losses to the British army in Natal foot up 916, excluding those in the battle of Monday week which will probably add 1,200.

A careful calculation of the British losses in all the engagements since the outbreak of hostilities—excluding Monday's disaster at Ladysmith, which are thus far known here—gives a total of 916, to which probably 1,200 will need to be added when details regarding the Lady mith reverse are received. This total is made up as follows:

Officers, 133—Killed, 19; wounded 61; captured, 53.

Men, 783—Killed, 137; wounded 152; captured 154.

For comparison may be given the total casualties in th United States army during the whole of the Spanish war last year in Cuba, Puerto Rico and the Philippines.

Officers, 136—Killed, 23; wounded, 113; captured, 0.

Men, 1,721—Killed, 257; wounded, 1,464; captured, 0.

STOCKMEN LIKE IT.

The Roswell record says the cattle syndicate which Geo. B. Loving is now forming in New York is spoken of with great favor by stockmen in this part of the country and in north-west Texas. From what can be learned of the proposed enterprise many of the herds incorporated in the syndicate, possibly the majority, will be those located in the Panhandle and western Texas including very possibly a number in this territory.

CERRILLOS MINING DISTRICT

Lead and Zinc Mines Can Be Worked Profitably.

The New Mexican of the 9, says: There is more activity in the Cerrillos mining district than for the last 15 years. The district is so exceedingly rich in the class of silver lead ores which are most wanted for fluxing, that if it were now first discovered, hundreds of miners would flock there immediately, but being an old camp people are slow to realize the importance which changed conditions have brought to it. That which caused it to be a failure years ago was that the price of lead was very low, and it seemed impossible to separate the zinc and lead which were found together below the water level. Now lead is high in value; and the needed separation is a perfectly easy matter by new appliances.

A friend in need is a friend indeed. That is exactly what Chamberlain's Cough Remedy is. It is the mother's help when she is suddenly awakened in the night by the ominous husky cough, and labored breathing, of her babe. It is the safe resort of the youth or adult when he has "caught cold" and there is coughing and irritation of the mucous membrane of the throat. It allays the irritation and cures the cold. For sale by M. G. Paden.

SUSPECTED MURDERERS OF GONZALES.

The two men captured by sheriff Baca of Gaudalupe county near Puerto de Luna are strongly suspected of being the murderers of Gonzales at Carezon some weeks ago. They had in their possession when captured five stolen horses and three rifles. One of the rifles it is claimed was the property of the murdered man. Both of these parties are Mexicans and are unknown in this vicinity. It is said that they are residents of Lincoln county.—Optic.

Used by British Soldiers in Africa.

Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my and in every case it proved beneficial." For sale by M. G. Paden, druggist.

THURSDAY, NOVEMBER 16, 1899

Official Paper of Lincoln County

Democrats all over the country are singing "Maryland, My Maryland!"

Republicans have met the enemy in Maryland and they are their'n.

A chamber of commerce is the latest progressive undertaking by the people of El Paso.

That Ladysmith affair seems to be Boering her majesty's government considerably don't yer know?

The Boers evidently believe in expansion and the indications are, that they intend to annex extensive proportions of British territory.

The Las Vegas Optic says: A Mr. Lowry of Elizabethtown, who has been working some placer grounds there for many years is now taking out $1,000 to $2,000 a month. This is presumably by the old style rocker process.

Carnegie is hot about the Boer and Philippine war. Speaking of the Boer war, Mr. Carnegie, who just arrived from England a few days ago became greatly wrought up: "That war," he said, "is an infamous piece of business; and it is England's lust for domain, which is on a par with our attack on the Filipinos. Both are a burning disgrace to our race."

Have you considered that public well proposition yet? Have you noted down in your memorandum just the exact state of public enterprise that exists in this community? How much have you spent to make this a better town during the last twelve months? Do you talk for the good of the community or do you curse both your town and your neighbor? Nobody will take much interest in a town unless the inhabitants manifest some public spirit themselves. To do a big business there must be people to do business with. Some of our business men would profit in the long run to take a little more interest in the public enterprise of the community, for the reason that with the general prosperity of the town there would be more people to make business, whereas now, a few must secure all the trade in order to be successful. The chief of several requisites to make a good town is for the people, the business men in particular, to be agreed in well regulated plans, to build up the community, so that it will offer inducements for a desirable people to settle in it, and make it an enterprising locality.

LAST WEEK'S ELECTIONS

Resulted about as follows: Nash, republican, elected governor of Ohio over McClean, democrat, and Jones, independent by a plurality of at least 30,000. William Murry Crane, republican, elected governor of Massachusetts with a 25 per cent reduced republican majority over 1897. Shaw is elected governor of Iowa by over Fred T. White, fusion, by a majority of about 60,000. Nebraska elected a fusion ticket, estimated majority 15,000. Kentucky elects Taylor, by about 7,000 majority, yet Goeble's friends claim a majority for him, 1,000 to 1,500. Prodigal Maryland has covered herself all over with democratic glory by electing John Walter Smith governor, with tremendous democratic majorities in both houses of the state legislature. Democrats have made big gains in the large cities of New York state. New York city gives a democratic majority of 50,000. Virginia is democratic as well as Mississippi with tremendous majorities. Pennsylvania is republican without opposition. New Jersey is republican. South Dakota elected a republican ticket. Everything is democratic in the city elections of Colorado.

In Ohio there was a three cornered fight in which as usual the democrats got the worst of it. Jones drew heavily from the democratic ranks while he did little injury to the republican candidate. Jones and his following will be for Bryan next year. Jones said before the election returns were in, "If I have contributed to the election of John R. McClean and to rebuke the infamous Philippine policy my race has not been in vain."

The contest in Kentucky was a spirited one. The democrats were divided on state issues and had two candidates for governor, else the results would have been 30 to 40 thousand majority for Goeble over Taylor.

Reports from other states holding elections indicate greatly reduced republican majorities. Kentucky, Ohio and Maryland are considered safe for Bryan in the coming presidential election.

NOT SO AT WHITE OAKS.

The El Paso Times of the 10, says:

The White Oaks and Salado coal fields should have been developed for one year or even two before the railroad reached them. As it is the output is insufficient to meet the demand for fuel in El Paso alone. Not a single mine there has the machinery it requires for the capacity of the output. Therefore coal is really scarce where coal is plenty, because what coal is under the ground does not exist for the purpose of consumption.

This statement is not correct as regards White Oaks. There is plenty of coal here ready for the markets. Transportation facilities is the only thing that keeps this coal out of the markets, and a haul of 15 miles would not keep it out, if a reasonable rate of transportation could be secured from Carrizozo station to El Paso. The Old Abe mine is now ready to put in new and powerful hoisting machinery provided freight rates can be secured that will enable them to ship in quantities. Secure the rates, and White Oaks will do the rest.

OTERO'S MISTAKES.

The time is fast approaching when Gov. Otero will come to a realization of some of his errors in the appointment of county and territorial officers.—Socorro Chieftain.

The above is emminently correct as regards Lincoln county and our people will not soon forget the record.

Republicans had heavy losses in every county in Maryland.

FOR SALE.

A complete photographer's outfit. New and the latest pattern. Inquire at this office.

DEWEY POSITIVELY DECLINES

The World publishes the following from its Washington correspondent:

"I would not under any circumstances consent to be a candidate for the presidency, and I should consider it an act of friendship if the press would treat this decision as sincere and final. I wish they would now drop the matter. I feel that any further booming of my name for the presidency tends to make me ridiculous."

This is Admiral Dewey's statement, made to your representative this morning. It was a well-considered announcement.

The admiral has been represented in numerous papers as saying that he did not desire the presidency, was not a condidate for it, and so forth, but not one of these previous statements of his position has been authentic. They have been mostly loose guesses, derived at second-hand from casual remarks made by Admiral Dewey in private conversations. Of these alleged interviews and sentiments of his attitude toward the presidency, Admiral Dewey says: "I never gave or authorized any of them."

The above announcement is the first authentic definition, straight from Admiral Dewey's own lips, of his absolute and fixed resolution not to accept a presidential nomination under any circumstances whatever.

Admiral Dewey's reasons for making this unique utterance are most interesting. He is perfectly frank in stating them, as he has done to several friends here.

"I am now 62 years of age," Admiral Dewey says, "and I feel that I have reached all the honors and rewards due to a man in one life time. I have no training for a political career, and I should certainly make a great mistake to enter the race for the presidency. There was Grant, who made a grand career as a soldier, but it is a very doubtful and disputed question whether he added anything to his laurels by going into politics. My old friend Hancock is an example and warning to the same effect.

Admiral Dewey's recent marriage is plainly not to be interpreted in any way as an indication of political ambition. To a friend, who suggested this view of it, Admiral Dewey said:

"Not at all. I have no political ambition whatever, and won't allow my name to be used as a candidate, under any possible circumstance."

"Not even to save the country?" suggested his friend.

"Not even on the pretense of saving the country," said Dewey, "because the saving of the country does not depend on any one man. If this country gets so poor in presidential material as that it will be in a very bad way."

NEW METHOD OF DETECTING GOLD.

A new method of detecting the presence of a small quantity of gold has been recently discovered by Dr. Ohler. By this method the presence of quantities as low as 77 centigrammes per ton may be established. The operation is as follows: A quantity of finely powdered ore, say 120 grammes, is introduced into a flask. To this an equal volume of tincture of iodine is added, and the mixture well agitated. It is then left for an hour, agitating from time to time, and is finally allowed to stand. When the solution has separated, a band of filter paper is saturated with this, and the paper allowed to dry. This operation is repeated five or six times in succession, in order to completely saturate the paper. It is afterward calcined, and it will be observed that the ash, when gold is present, offers a purple color. This color should disappear quickly if the ash is moistened with bromine water. The test may be modified in the following manner. A quantity of the powder, 120 grammes, is covered with bromine water, and after agitating during the course of an hour, the solution is filtered. Upon adding protochloride of tin to the solution, it takes a purple color, in the presence of gold, giving the reaction known as "Purple of Cassius." In the case of sulphides the ore should be previously roasted, and when the mineral contains a considerable portion of carbonate of lime, it should be calcined in the presence of ammonium carbonate.—Scientific American.

CHRIST WITH THE MULTITUDE.

By Jno. A. Hellars.

Text—Jno. 6: 60-61.

Many therefore of his disciples, when they heard this, said, this is a hard saying: Who can hear it? But Jesus knowing in himself that his disciples murmured at this, said unto them; Doth this cause you to stumble?

The above words fell from the lips of the master shortly after he had fed the five thousand. There was a great multitude of people following Jesus at this time, and they appeared to be his friends—some men are friends as long as they can use you, long as they can get something from you. These people were friendly as long as the loaves and fishes lasted, but as soon these things gave out they said, He is hard to understand, and they began to murmure.

These people seem to think that Jesus had come to earth to supply them with bread and meat, they failed to recognize his true mission; when he taught them spiritual truth, they said, we do not understand this, therefore, we can not go any farther with this man.

Then again: they did not understand the true character of christ, they did not comprehend the deep meaning of his words, they were supperficial hearers, and poor observers, they would judge a man as they would judge a tree—by appearances—they did not know the difference between truth and trash, they could understand a loaf of bread or a fish, but they could not understand a spiritual truth. Then again; a great many people who followed Jesus at that time were not to be taken seriously, their words were chaff, their compliments were like strychnine to the heart, they changed their minds every few days, and they needed a new god every time they changed their minds. They did not recognize christ as the living God, and when we do not know the living God, we need a number of gods, because each new god will furnish us with some new toy—something to make us feel at ease. They were governed by their five senses, therefore, they could not discern a spiritual truth. They were not following christ because they wished to put something into the christian life, but because they thought they would receive much from Jesus. So it is with a great many people, they expect to get a great deal out of life, without any investment on their part—a kind of put-in-a dime, and get out a dollar. Christ was very indignant because of their lack of sincerity. He turned to the twelve and said, will ye go away also? Simon Peter answered him, Lord, to whom shall we go, thou hast the words of eternal life? Peter understood the Master better than the multitude did, he seem to recognize the true character of Jesus. When Peter called Jesus Lord he acknowledged him king of of the whole man. Christ enthroned in the heart makes a complete man—a symetrical man—The christian church has flourished for hundreds of years upon Peter's confession—Jesus as Lord and king enthroned in the hearts of men—we naturally turn to christ in time of difficulty.

The rich, the poor, the illiterate and learned, can all turn to christ in their deepest distress, and say, Lord to whom shall we go, for thou hast the words of eternal life? Christ never fails to hear the cry of a broken heart, He listens with an attentive ear for the softest whisper, to those who call upon him.

Lamps, and Lamp fixtures.—Collier.

Nick Bastion and Harry Allen were here from the Ruidoso yesterday.

For good Quality winter Gloves or Mittens go to Zeigler Bros.

The weekly prayer meeting of the Baptist Church will be held in the Baptist Hall Tuesday evening.

Apples, Sweet Potatoes, Cabbage, Irish Potatoes, Onions.— Collier.

Dr. Paden informs us that Mrs. Oscar Hyde presented her husband with a fine baby boy last week.

John Y. Hewitt left Tuesday morning to attend the District and United States courts now in session at Socorro.

Fine line of new styles Stetson Hats just received at Ziegler Bros.

Rev. J. B. Jones who has been here for some time in the interest of the Christian Church, left Monday to return to his home in Sparta, Texas.

Finest stock of fresh Candies at Ziegler's.

R. C. Snow and family arrived here this week from Toas, Toas county, this territory. Mr. Snow is a barber by trade and has opened a shop in the building next door to Ah Nue's laundry.

Mackerel and White Fish at Ziegler Bros.

Mrs. Will Littell and children went to El Paso to day. Mr. L has been employed in El Paso for the past year and is now moving his family there to reside for the winter if not permanently.

Carpets, Mattings, Linoleum Rugs, window Shades, largest assortment in town.—Ziegler Bros.

Mr. and Mrs. Moore, of Nogal N. Mex., will sing in the Congregational Church next Sunday morning. They are sweet singers, everybody cordially invited to hear them.

Full line of Arctics, Rubbers, and Rubber Boots just received—all sizes at Ziegler's.

Rev. J. B. Jones's lecture on sanctification at the Congregational Church last Friday night was listened to by a crowded house. The lecture showed that his argument was the result of a deliberate investigation. The subject was well presented.

New Tapioca, Pearl Barley, Sago, fresh Mince Meat, new Nuts seeded Raisins, Currants, Citron, Oranges, Dates, Cranberries, etc., etc., in fact all the Delicacies of the season at Ziegler Bros.

Rev. Bruce Kinney of Albuquerque, pastor of the Baptist Church of that place will assist Rev. Pope in a series of meetings at the Baptist Church here, commencing about the 24th. of this month. The Rev. Pope is said to be an able man, and no doubt the people of White Oaks will be pleased to hear him.

The following new Breakfast foods just received at Ziegler Bros. Granulated Hominy Gritz Wheat Farina, Pettijohns Breakfast food Self raising and old fashioned Buckwheat, Pillsburys Wheat Wood Celebrated Friends Oats etc., etc.,

Arthur H. Roller has been here during the past week testing the iron ores of Lone Mountain for the El Paso & Northeastern people. The results are not known, but revious tests have shown this to run 62 to 65 per cent.

That Thanksgiving turkey is wondering why he is receiving so much attention as well as so many good things to eat lately. This will be perfectly clear to this holiday bird about the 29th., when like the loaves and fishes, he will be set apart for a special feast for the multitude and will be sanctified to the particular office of making that proclamated dinner a success.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by M. G. Paden.

Some thirty school children held a watch party at the residence of Mr. and Mrs. B. F. Gamm Tuesday night. They kept up the watch until 1 o'clock awaiting the arrival of that meteoric shower scheduled to appear at some time during the first half of that night. Finally they came to the conclusion that possibly Uncle Sam had met with reverses in the Philippines and that the proposed celebration had for the present, been postponed.

RICH IN GOLD.

The Old Abe company has just opened a lead of the richest ore they have had since sinking the new shaft. This lead was struck on the 1150 foot level, and the drifts at this depth are showing up immensely rich ore in tremendous quantities. The lead is widening out and the ore getting more refractory, but can all be saved by Cyaniding.

The Old Abe has rich ore in the new workings from near the grass roots to the very bottom of the shaft, which is now down nearly 1200 feet. The excellent condition of the mine, after two years or more of continual development work speaks well for the practical judgement of the superintendent of its operations during that time, as well as for the splendid skill of White Oaks miners.

Should somebody buy the North and South Homestake properties for the purpose of making them producers instead as is the case at present, for speculation, they, with the Old Abe and the Lady Godiva, both of which are valuable producers, would make White Oaks a city in a very short time.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat Chest and Lungs are surely cured by it. Call on M. G. Paden Druggist, and get free trial bottles Regular size 50c. and $1. Every bottle guranteed or price refounded.

Is It Our Charley.

Special to the News.

PHOENIX Ariz., Nov. 11.— Word was received here to-day of a terrible explosion in the Copper Queen mine yesterday, in which Charles Ashutz, a miner, lost his life. Ashutz had left his shift partner and went into the drift where the powder box was kept. A terrific explosion ocurred, which shook the whole workings. The miners rushed to the scene of the disaster and saw the walls bespattered with blood and fragments of flesh about.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women, and all feel the result in loss of appetite, poisons in the blood, backache, nervousness headache and tired listless run down feeling. But there's no need to feel like that. Listen to J W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at M. G.Paden's Drug Store. Every bottle guranteed.

Richardson News.

On Monday, November 6th, D. G. Waggoner, employed on the Block ranch, ran amuck and held up five men on the public road a few miles east of Richardson. He first tried it on Estolano Sanches and Matias Sedillo, who were returning from Roswell, but Estolano, though unarmed, jumped out of his wagon, grappled with Waggoner for the possession of his pistol, and getting it away from him, turned it over to Wilson McFarland, a by stander. Waggoner then continued down the road and meeting a wagon with five men bound from Roswell to Nogal, "threw down" on all of them, got them in a line and went through their pockets, taking all the money they had. He then ordered them to unharness their best horse and put his saddle on; he exchanging horses with them. He secured about twenty seven dollars. The names of the men held up are Purviance, Samson, Huston, Barnes and Gilbert. Officers are on the lookout for the highwayman.

Edward McTeigue is summoned to United States court.

J. H. Steele has gone to Roswell to contract for feeding a large bunch of lambs.

Chamberlain's Pain Balm Cures Others Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.—ADOLPH L. MILLETT, Manchester, N. H. For sale by M. G. Paden.

NOGAL CORRESPONDENCE.

Although anxious and willing to comply with the request of the EAGLE, I fear that this weekly effort, will indeed prove a very weakly one, both as regards quantity and quality; at least from the stand point of interesting news; however, as a taylor cannot be expected to manufacture a full suit, out of cloth that is not sufficient to make an ordinary vest, the lack of material must bear the responsibility. We can at any rate boast of mild, warm weather which, during the last few days, would have done credit to advanced spring. Actual business is quiet, as might be expected at this season of the year; notwithstanding which there are few if any idle men in town; as nearly all are either working for others, or developing claims of their own and prospecting in the surrounding country. In fact to a stranger, or tender-foot, such as your scribe the whole country in this section appears to show evidences of mineral wealth in the form of silver, gold and copper; especially the latter, many of the specimens of which show exceptional richness.

Among other work going on at present, mention may be made of the following: Geo. Underwood, Abe May and others, are opening a fine silver prospect on Tortolita canyon, near Nogal, the ore taken out so far looking very like business. In addition to the above named operations, it is learned that T. E. Peters of El Paso is commencing work again on the Christmas mine on the Bonito, and has been hiring men for that purpose at this point.

Mr. Cox has opened a fine copper lead mine near the Tortolita canyon about a mile and a half from here. S. E. Bailie is also working on a copper prospect south of Joe. Vega's ranch; this property is reported as showing up well, and the specimens shown by Mr. Bailie indicate good grounds for his expectations.

By way of relieving the usual monotonous quiet of our evenings and nights, our well known and illustrious fello weitizen Mr. Skeeter Henley has lately introduced in our midst his well trained vocal bear hounds, among the pack is a prima donna, a tenor, and a basso profundo, who with a full Chorus help to make things wery lively, and need I say entertaining also, to those who otherwise would court the embraces of Morpheus between the hours of eight and twelve p.m. Mr. Henley aforsaid is also the happy possessor of some diminutive, trained pigs, which appear to be on excellent terms with the musical hounds, and occasionally accompany them and their owner in their afternoon constitutionals previous to the night performances given in the corral amphitheater adjoining the dormitorial quarters of yours truly. I know that the citizens of White Oaks are musically inclined. I shall try to persuade Prof. Henley to move his full company up to your appreciative town on a visit, in order that your cultivated citizens may have an opportunity once more to enjoy choice selections from El Diablo, Lucretia, and Traviata, to say nothing of The tune the old cow died of" and other familiar and time honored morceaux.

The Nogal Public school opened its fall session here last Monday with Prof. T. F. Swanwick late of Lincoln and Picacho, as principal. The school is filling up rapidly and several families are moving into town from the surrounding country in order to share in the educational advantages now offered. It is understood that the Professor contemplates the inauguration of special night classes in Spanish, Stenography, and commercial branches for the benefit of those whose daily duties prevent their attending at an earlier hour.

Drying preparations simply development dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size, Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Red Hot From the Gun.

was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible Ulcers that no treatment helped for 20 years. Then Bucklens Arnica Salve cured him. Cures Cuts, Bruises, Burns, Boils, Felons, Corns Skin Eruptions. Best Pile cure on Earth 25 cts. a box. Cure guaranteed Sold by M. G. Paden, Druggist.

NEW YORK WORLD

THRICE-A-WEEK EDITION.

The Best Paper at the Lowest Price

156 Papers.

FOR ONE DOLLAR.

As good as a daily at the price of a weekly.

During the Spanish-American war THE THRICE-A-WEEK WORLD proved its great value by the promptness thoroughness and accuracy of its reports from all the scenes of important events. It was as useful as a daily to the reader, and it will be of equal value in reporting the great and complicated questions which are now before the American people.

It prints all the news of the world, having especial correspondence from all important news points on the globe. It has brilliant illustrations, stories by great authors, a capital humor page, complete markets, departments for the household and women's work and other special departments of unusual interest.

We offer this unequalled newspaper and WHITE OAKS EAGLE together on year for $2.00.

The regular subscription price of the two papers is $2.50

The TOLEDO WEEKLY BLADE

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 post offices in the country. It is edited with reference to a national circulation. It is a Republican paper, but people of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department, [best in the world]. Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau [which answers questions for subscribers], the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only $1 a year. If you wish to raise a club, write for terms.

Address THE BLADE, Toledo Ohio.

WHAT MAKES TRADE.

The true pioneer of commerce is the "drummer," not the drum. Trade follows the price and quality of the goods, rather than the flag under which they were made.

These truths were emphasized in the address of George H. Daniels, General Passenger Agent of the New York Central Railroad, before the International Commercial Congress at Philadelphia. Mr. Daniels referred to the facts that--

American manufacturers now were furnishing locomotives to railways not only in England but in every country on the globe; that the Trans-Siberian Railway would be laid with steel rails from Pennsylvania upon cross-ties from the forest of Oregon, and that the use of American tools and machinery would result in the construction of this road at least two years in advance of expectation.

There are now in Japan, according to Mr. Daniels, more than one hundred locomotives built in the United States, and in Russia more than one thousand American locomotives. These sales, he said, are due to the superiority of our machinery and to the fact that the general passenger agents of the American railways, through their advertising, have made the marvellous results accomplished by our locomotives household words in every country on the globe."

Such facts and testimony as these disprove not only the claim of the military expansionists that "trade follows the flag," but likewise the outgrown contention of the advocates of a trust fostering tariff that our workingmen and manufactures need 50 per cent protection against the rivals whom we are underselling and outselling in the most distant markets of the world.--World.

SODA BED LANDS.

Sixty-Eight Thousand Acres in Dona Ana and Socorro Counties.

Las Cruces, N. M., Nov. 7, 1899.--Messrs. Llewellen & Wade, attorneys of Las Cruces, have located 68,640 acres of soda bed lands, in Dona Ana and Socorro counties, mostly in Dona Ana, all contiguous east of San Andres mountains and west of the White Sands containing in large quantity, carbonate, soda and sulphate soda, for a wealthy syndicate of Pittsburgh capitalists, who are considering the feasibility of building a railroad to the beds, either from El Paso along the east base of the Organ mountains, or from some point on the White Oaks. The locators retain a good interest in the property for themselves, and are naturally doing all they can to make the enterprise a great success, and nothing will be left undone to make it so.

GOLD KING.

New Mexico's Northern Neighbor Passed California in the Race for Greatest Gold Production.

The St. Louis Republic of the 8th, inst, says:

California's prestige as the banner gold bearing state of the union has been taken away. Its scepter as the queen of auriferous production has passed into the hands of a rival commonwealth.

The contest between California and Colorado has been officially decided by the figures of the Director of the Mint. These credit the Centennial State with one-third of the entire gold output of the United States and 50 per cent more than California turned out in the last twelve months.

In 1898 the gold product of Colorado was $23,195,300, while that of California was but $15,637,900. The respective yields of the two states in 1897 were $19,104,200 for Colorado and only $13,618,300 for California.

In the early days California yielded enormously from placer mining, but invention intensified and developed the methods of extracting mineral wealth of late years, and she fell behind. Although many California mines are steadily maintaining their output, nearly all the new strikes have been made in Colorado. From the newer mines are extracted vast quantities of low grade ores, and these ores are being extracted in greater abundance in Colorado than on the Pacific coast.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The policies of the great political parties are now being formed and the candidates discussed. The voice of the people as recorded by ballot at the approaching Presidential election will probably decide the policy of the nation for the next decade. Every citizen must study the great questions that are to come before the people. This can only be done through the medium of a great newspaper. Now is the time, therefore, for every voter to subscribe for the best and most reliable newspaper obtainable. The Semi-Weekly Republic covers the whole field of political news. While it is Democratic, it publishes the news in regard to all political parties without prejudice. Its telegraphic and cable news service is superior to that of any other paper. Its special features are the best. In fact, it is the paper for that large class of readers who cannot afford or do not have access to the daily papers.

Attention is also called to the Republic's Sunday Magazine. Its half tone illustrations are alone worth the subscription price. It is made up of special articles by the best literary talent, embracing a variety of subjects of current interest. News features of absorbing interest are illustrated and enlarged upon. For the benefit of the ladies the latest fashions are handsomely illustrated. The Republic Sunday Magazine is always interesting to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1.25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid at the same time.

Address all orders to THE REPUBLIC, St. Louis, Mo.
