El Paso, Texas.

GENERAL NEWS ITEMS.

Lincoln County Mining Notes.

[Clipped from the Industrial Record.]

The Orphan Boy, just above the Mogul, on the Bonito, Nogal district, is owned by Capt. W. B. Brack of El Paso. It assays lead, silver and gold, and is a good mining proposition. It has a tunnel and a winze on vein 20 feet.

Mayflower is a claim located on the Tankark canon, adjoining, owned by Emerson and has a 40 foot shaft on good clear vein, the ore assays 10 in copper and

Lucky and Fire King, two claims on Bonito, owned by parties assay well in gold, silver. There are about 100 tons on the dump. One shaft 100 feet and a tunnel

Nogal, a lead silver gold camp on the Bonito, Nogal discovered by Alfred Corn and Emerson from Gaylord, Nogal. Lowest concentrating value that part of the camp is a 13 foot vein between granite walls. The claim for $4000 and extends for a period of two years. There are finest mill sites, in abundance of water and timber, on the ground.

Emerson, a mining engineer of Washington, D. C., was in the city this week. He left Wednesday morning with S. I. Bean, of Kansas City, to examine a mine in the Jicarilla district near White Oaks, with a view to purchasing and the establishment there of one of their patented gold-saving machines on a large scale. Since the building of the El Paso & Northeastern the attention of the capitalist has been directed to the wonderful advantages of all that mining territory tributary to the line. This has only begun, however, as people of the east are just beginning to learn of the many opportunities up there for profitable investment in mines and other industries. Before a great while they will be flocking there in great numbers. It shall be one of the objects of the Record to direct attention to this rich tributary to El Paso, and keep its readers well informed on all matters through competent correspondents.

Mr. Gaylord, of Nogal, N. M., is in the city this week. It is rumored that he is here on a big mining deal, which seems creditable as a prominent capitalist of El Paso left the city via the Northeastern Wednesday morning for Nogal to examine a rich property there, which has been lying idle for some time. El Pasoans are daily becoming more interested in mining from the fact that some of the companies here have been doing excellently well with their investment in this industry, the returns far exceeding their anticipations.

WHAT THE INDUSTRIAL RECORD

Is Doing for the Mining Industry of this Community.

Otis Turner, a representative of the Industrial Record of El Paso, was here last week looking at the mineral resources of this vicinity. He visited the Old Abe gold and coal mines with John Y. Hewitt, and expressed himself very much surprised at the immense resources of each. He was told all along the line of the Northeastern, and at Capitan in particular, that there was nothing at White Oaks; that the coal was no good, none of it and such stuff, until he was prepared for almost anything when he came here. When he went away, however, he said that he would tell the public about what he saw in unmistakable terms. The facts in the case are these: White Oaks has more coal than any other locality in Southern New Mexico, and the Old Abe gold mine is in the best ore yet found, at 1150 feet of depth and has from $250,000 to $300,000 worth of ore blocked out, which is practically in sight, with the very best equipped machinery for operating the property to be found in New Mexico. If White Oaks had a railroad, coal, and good coal, could be shipped not from two or three openings but from as many as two railroads could haul. No diamond drill is necessary to find it, and a merchantable article can be shipped from within a few feet of the surface. These statements are not all paper and wind and there are men here ready to show up these conditions as they exist—and as to coal we have it, and are ready to prove it, when there is some body who has the money to buy it.—W. O. Eagle.

Mr. Turner has returned from his trip and is busily engaged in putting his views and impressions of that section of New Mexico on paper for use in the forthcoming New Year Edition of the Industrial Record. He has ample data to indite an amazing article well calculated to open the eyes of outsiders to the wonderful resources of the vast territory to the north of us, adjacent to El Paso. The people of El Paso, or at least ninetenths of them are ignorant of conditions in that section and it will be one of the objects of the Record to fully acquaint them with the advantages lying dormant, to a certain extent, in that portion of New Mexico, and to likewise inform people in the east and south of the admirable opportunities there for the acquisition of wealth in a short time, by the proper expenditure of a little cash, small infinitesimally in comparison with the returns they will get on the investment.—Record.

The Silver Cliff and Miner's Cabin are two gold properties adjoining the Old Abe at White Oaks. They are owned by the Wilson heirs, one of whom is Mrs. Dr. Ball of El Paso. It is reported that these properties will be on market an early day.

Prospectors are flocking to the Oscuras, near White Oaks. That is a promising field—none better in the Southwest. Those mountains contain millions of tons of high grade copper and gold ore.

Blanks! Blanks!! Blanks!!!

He Only Repeats What Has Been Said Around The World.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by M. G. Paden Druggist.

Having a Great Run on Chamberlain's Cough Remedy.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by M. G. Paden, Druggist.

Territory of New Mexico, } ss.
County of Lincoln, }

To the delinquent taxpayers, known and unknown, in the foregoing tax list:

You are hereby notified that I will apply to the District Court of the Fifth Judicial District of New Mexico, held in and for the said County of Lincoln, on the 20th day of November, A. D. 1899, for judgment against all of the parties named in the foregoing delinquent tax list and against the lands, real estate and personal property mentioned and described therein for the amount of said delinquent taxes, together with the costs, penalties and interest due and unpaid thereon, and for an order to sell said property to satisfy such judgment, and will within thirty days after the rendition of such judgment against the property described in the foregoing list offer the same for sale at public auction at the front door of the Court House in Lincoln, Lincoln County, New Mexico, to the highest and best bidder for cash.

HENRY LUTZ,
Collector of Lincoln County, New Mexico.

Recent Mining Decision.

A notice posted by the locator of the claim that he claims 1,500 feet on a lode, will be construed to limit his claim to 750 feet along the lode on either side of the point of discovery.—Bramlett et al. vs. Flick et al., 57 Pac. Rep. (Mont.), 869.

A notice of location of a mining claim, which, by reference to natural objects and monuments erected by the locator, contains directions which, taken in connection with such objects, would enable a person of ordinary intelligence to find the claim and trace its boundaries, is sufficient.—Bramlett et al. vs. Flick et al., 57 Pac. Rep. (Mont.), 869.

During the past year 290 miles of new railroad have been built in New Mexico. The El Paso and Northwestern has constructed 152 miles of this, the Pecos Valley and Northeastern 100 miles, the Alamogordo and Sacramento Mountain railroad 20 miles, and the Atchison, Topeka and Santa Fe branch 18 miles to Hanover, Grant county. A number of new lines have been projected and it is estimated that fully 500 miles of new line will be built during the coming twelve months.

DELINQUENT TAX LIST

(Amounting to Less than $25.00.)

The delinquent tax list of known and unknown owners of real estate and personal property of Lincoln County, New Mexico, as levied and assessed against said property for the years 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897 and 1898, now due thereon and delinquent and amounting in the aggregate in each case to less than $25.00.

GENERAL NEWS ITEMS.

Lincoln County Mining Notes.

[Clipped from the Industrial Record.]

The Orphan Boy, just above the Mogul, on the Bonito, Nogal district, is owned by Capt. W. B. Brack of El Paso. It assays lead, silver and gold, and is a good concentrating proposition. It has 110 feet of tunnel and a winze sunk on the vein 20 feet.

The Big Four is a claim located at the head of the Tankark canon, Nogal district, owned by Emerson May. It has a 40 foot shaft showing a good clear vein, the ore assaying 11.10 in copper and silver.

The Cricket and Fire King, two claims in the Bonito, owned by P. G. Peters, assay well in gold, lead and silver. There are about 40 tons of ore on the dump. One shaft is sunk 100 feet and a tunnel of 12[illegible] feet.

The Mogul, a lead silver gold proposition on the Bonito, Nogal district, bonded by Alfred Corn and Mrs. Anderson from Gaylord, is one of the biggest concentrating propositions in that part of the country. It is a 13 foot vein lying between granite walls. The bond reads for $4000 and extends over a period of two years. There is one of the finest mill sites, including an abundance of water and the finest timber, on the ground.

E. M. Johnson, a mining engineer from Washington, D. C., was in the city this week. He left El Paso Wednesday morning accompanied by S. I. Bean, of New York City, to examine a placer ground in the Jicarilla mountains, near White Oaks, with view to purchasing and the establishment there of one of their new patented gold-saving machines on a large scale. Since the building of the El Paso & Northeastern road the attention of the capitalist has been directed to the wonderful advantages of all that mining territory tributary to the line. This has only begun, however, as people of the east are just beginning to learn of the many opportunities up there for profitable investment in mines and other industries. Before a great while they will be flocking there in great numbers. It shall be one of the objects of the Record to direct attention to this rich tributary to El Paso, and keep its readers well informed on all matters through competent correspondents.

Mr. Gaylord, of Nogal, N. M., is in the city this week. It is rumored that he is here on a big mining deal, which seems creditable as a prominent capitalist of El Paso left the city via the Northeastern Wednesday morning for Nogal to examine a rich property there, which has been lying idle for some time. El Pasoans are daily becoming more interested in mining from the fact that some of the companies here have been doing excellently well with their investment in this industry, the returns far exceeding their anticipations.

WHAT THE INDUSTRIAL RECORD

Is Doing for the Mining Industry of this Community.

Otis Turner, a representative of the Industrial Record of El Paso, was here last week looking at the mineral resources of this vicinity. He visited the Old Abe gold and coal mines with John Y. Hewitt, and expressed himself very much surprised at the immense resources of each. He was told all along the line of the Northeastern, and at Capitan in particular, that there was nothing at White Oaks; that the coal was no good, none of it and such stuff, until he was prepared for almost anything when he came here. When he went away, however, he said that he would tell the public about what he saw in unmistakable terms. The facts in the case are these: White Oaks has more coal than any other locality in Southern New Mexico, and the Old Abe gold mine is in the best ore yet found, at 1150 feet of depth and has from $250,000 to $300,000 worth of ore blocked out, which is practically in sight, with the very best equipped machinery for operating the property to be found in New Mexico. If White Oaks had a railroad, coal, and good coal, could be shipped not from two or three openings but from as many as two railroads could haul. No diamond drill is necessary to find it, and a merchantable article can be shipped from within a few feet of the surface. These statements are not all paper and wind and there are men here ready to show up these conditions as they exist—and as to coal we have it, and are ready to prove it, when there is some body who has the money to buy it.—W. O. Eagle.

Mr. Turner has returned from his trip and is busily engaged in putting his views and impressions of that section of New Mexico on paper for use in the forthcoming New Year Edition of the Industrial Record. He has ample data to indite an amazing article well calculated to open the eyes of outsiders to the wonderful resources of the vast territory to the north of us, adjacent to El Paso. The people of El Paso, or at least ninetenths of them are ignorant of conditions in that section and it will be one of the objects of the Record to fully acquaint them with the advantages lying dormant, to a certain extent, in that portion of New Mexico, and to likewise inform people in the east and south of the admirable opportunities there for the acquisition of wealth in a short time, by the proper expenditure of a little cash, small infinitesimally in comparison with the returns they will get on the investment.—Record.

The Silver Cliff and Miner's Cabin are two gold properties adjoining the Old Abe at White Oaks. They are owned by the Wilson heirs, one of whom is Mrs. Dr. Ball of El Paso. It is reported that these properties will be on market an early day.

Prospectors are flocking to the Oscuras, near White Oaks. That is a promising field—none better in the Southwest. Those mountains contain millions of tons of high grade copper and gold ore.

He Only Repeats What Has Been Said Around The World.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by M. G. Paden Druggist.

Having a Great Run on Chamberlain's Cough Remedy.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by M. G. Paden, Druggist.

...UARY 4. 1900

...coln County

... came out ...n article from the ...ny Star advocating the ...ing of paper on the free list. Of course the Register is a good orthodox republican paper, and the same argument that would place the paper on the free list would also place several hundred other articles there besides it, in the manufacture and sale of which the trusts are now robbing the people by means of the tariffs. But then it makes a great difference "whose bull is being gored." Come, Brother Hamilton, we know you are out lots of good dollars by reason of the tariff and its child, the paper trust, but then be consistent. Take your medicine like the little man. "It's all for the good of the poor laboring man," you know. Roswell Record.

Here in White Oaks we are required to pay from 25 per cent. to two or three times as much for supplies for carrying on mining operations as would be charged were the markets of the world open to us. Not a dollar more gold can be extracted from our mines than with cheaper supplies and not a cent is returned in any way to the operators on account of the extra tax for so-called protection. It is solely and alone a forced contribution by our people to build up and enrich eastern monopolies. In other words it is a species of legalized robbery, for which no one can find a valid excuse. And yet we find men here who are being thus robbed voting to perpetuate the fraud on their own business: Such men are of the more ignorant class, however.

E. G. Siggers, Patent Lawyer, Washington, D. C., reports the following patents granted to Inventors in the Territories, December 19, 1899: C. M. Husted, Prescott, Ariz., Dispensing can for liquids; O. J. Beauvais, Phœnix, Ariz., Violin key. He will mail copy of specification and drawings of any patent for 10 cents in stamps.

El Paso street railways are to be sold under the hammer, which evidently means that electricity will relieve the mule in that city.

FITTED FOR STATEHOOD.

We read in the papers of a Senate Committee touring through New Mexico and Arizona, charged with the duty of ascertaining whether or not these territories are fitted for statehood. In sending out this committee the United States Senate, evidently, desired reliable information on this important subject and was not willing to entrust the collection of the facts to any but members of its own body. This committee was accompanied by the distinguished Governors of the two territories and was met at the gateway to New Mexico, Raton, by a large delegation of other territorial officers and politicians and escorted through New Mexico, receiving ovations at several towns along the railroad. These banquets with brass-band accompaniments are all the gentlemen of the committee were able to see relative to the conditions existing here and they must return to Washington with as little knowledge of the real status of our people in respect to the responsibilites and burdens of a state government as when they left the capital.

But will the Senate accept the report of this junketing tour through the territory and only along a single railway route, as evidence of the desirability of our admission to statehood? We shall see.

AFTER TWO CORPORATIONS.

Solicitor General E. L. Bartlett Intends to Make them Comply with the Law.

Solicitor General E. L. Bartlett this forenoon brought quo warranto proceedings in the district court for Santa Fe county against the Colorado Supply Company, and also against the Colorado Fuel and Iron Company. The suit is entitled "The Territory of New Mexico ex rel. Solicitor General vs. The Colorado Fuel and Iron Company." The bill of complaint alleges that both concerns are doing business illegally in the territory, for neither has filed papers or charters of incorporation, nor notices of the appointment of a local agent in the office of the territorial secretary, as the statute requires. Both companies operate in the southern part of this county, the supply company conducting a general merchandise business at Madrid, and the fuel and iron company conducting coal mining operations near Cerrillos and Madrid. Orders were served on the companies today to appear before Judge McFie January 10 at 10 o'clock in the forenoon to show cause why writs of ouster should not be issued against them to prohibit them from doing business in the territory. It is also alleged that the Colorado Supply Company is merely a branch of the Colorado Fuel and Iron Company, and is conducting a company store on basis prohibited by the statutes of the territory. The case is one of great importance, and will excite much interest both in Colorado and this territory, as both corporations involved are very wealthy and have great influence.

It is clearly evident that the Eddys made a suicidal mistake when they failed to build straight to White Oaks and afterward build a branch to the Salado. The point in the case seems to be the realization of a revenue out of the Salado before opening up this locality in order not to have too much competition. There was nothing available for these gentlemen at White Oaks unless they had cash to put up for it. They are well aware, and so also, is the general public finding it out, that White Oaks has coal enough to cover up El Paso and when it is opened up it will have little if any competition in that city.

It is confidently expected that this date 12 months will show this little city to be on a through line of railway from Liberal Kansas to El Paso, and one of the busiest towns in New Mexico.

There seems to be great prospects in store for White Oaks in 1900. Besides a general mining activity a rail road and incidental improvements are expected.

WASHINGTON LETTER.

Special to the EAGLE.

As soon as Congress reassembles, Congressman Champ Clark of Missouri will introduce a bill proposing to place all kinds of paper used in printing, and wood pulp from which paper is made, on the free list.

Mr. Clark for years has been connected with printing enterprises, and takes hold of this proposition with a knowledge of all facts concerning the question of the trust as applied to publishers.

Speaking of his bill Mr. Clark said this morning: "As it is impossible to secure a general low tariff bill, I have determined to try the only feasible way of reaching certain iniquitous monopolies that now are aided by the government, namely, by special acts taking off the duties on their products. I have strong hopes of breaking the ice with this bill, because all the newspaper publishers of the land, regardless of politics, are directly interested in securing this reduction. With united effort they can secure such force of public sentiment as to demand action and without delay. The editors, in my experience, are not mealy mouthed about expressing themselves where their own interests are concerned, as they are in this important matter. If they will make their views clearly known to all their Congressmen and Senators, as many of them already are doing, we can get the Ways and Means Committee to report a bill early in this session. There ought to be no serious difficulty in this, and will not be, if the papers large and small express their views and bring reasonable pressure upon their lawmakers. Perhaps the Paper Trust is not worse than some others; but if we can first get the government aids to it stopped, it will be an excellent precedent, for working in other directions where relief is needed quite as badly."

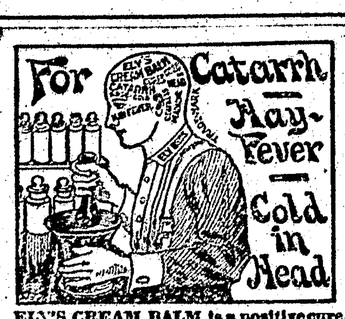
The Republican leaders here are looking with concern upon the development of a fight in their ranks in New York, which may grow to a dangerous stage before the convention meets in Philadelphia.

The administration has given the tip that it desires Secretary Root for running mate with Mr. McKinley next year. Mr. Root was, before his appointment as Secretary or War, known to New Yorkers mainly as an exclusive and hightoned lawyer of republican leanings, whose party activity was confined to the dignified surroundings of the Union League Club, of which he was president. He was a gentleman who might be thought of for Ambassador to Great Britain, but scarcely would be selected for attracting votes of Americans, either in or out of his state. Several times in the past he has been suggested for the Senate, but always his candidacy proved icy and was dropped by the managers. The republican machine in the state at present is controlled very strongly by Lieut. Governor Woodruff, a man who works among "the boys," and in the usual "practical" methods of his party. Woodruff himself, it appears, wants to be nominated with McKinley, and the two senators from New York are committed to his ambition. The fight grew decidedly warm before the meeting of the National Committee here a few days ago, and it adjourned with the important question of the vice presidency suspended, so far as that committee being actually decided was concerned. The fight now is progressing in New York, and seeing the positive opposition to Root, the administration suggests Bliss, who formerly was a Cabinet officer. This does not meet with cordial response from the Woodruff men. They insist that it must be Woodruff or Roosevelt. They will have neither Root nor Bliss; and say candidly that the administration has more than is due when it gets the renomination of McKinley. There are members of the National Committee who assert now that the result of this situation is that the vice presidency will not go to the East. Senator Fairbanks, of Indiana, is a strong possibility; and whoever may be nominated, it is apparent that there is as yet no cut and dried ticket ready to be put through at Philadelphia by acclamation.

Congressman Crumpacker of Indiana asserts that the House will, this session, act upon his bill providing for a reappointment of congressmen. This is a very ancient scheme of republicans, and contemplates the reduction of the representation of the southern states in the house of representatives. Crumpacker says his idea is to furnish congress with the number of male inhabitants that have been disfranchised, in order that, under the Constitution, the representation of the state wherein this occurs may be reduced. He asserts that "in some states not over 12 per cent of the male adults take part in elections; this is due to malfeasance of election officers."

If Crumpacker really imagines that Congress is ready to act upon this proposition, there ought to be concern among his friends for the state of his mind. It is safe to state that this scheme is practically the very last which is apt to be seriously considered by the Senate, even if the House, under gag rule, passed such a bill.

With the republican leaders compelled to eliminate from their councils the negro delegates of the south, they do not stand in a good light for striking at southern states which have to restrict morally at least the same character of influences.



ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

FROM SAN MIGUEL TO THE PEN

Nineteen of the Inhabitants of San Miguel County Sentenced to the Territorial Penitentiary from the District Court at Las Vegas.

Taos Cresset.—San Miguel county shows no falling off in this year's excellent record of the Territorial courts in the punishment of crime. Nineteen sinners were sentenced in the district court at Las Vegas, Saturday. Sentences ranging from one to twenty years were imposed upon the unfortunates, whom the missionary man of the Optic mournfully mention as those "who, not having the love of God and the fear of the law in their hearts, will now be withdrawn from circulation to the 'shades of private life.'"

At last the English are the victors in an engagement with Boers at Colesburg. They did not damage the enemy materially, but managed this time to hold their own, only losing 3 men and not having to retreat.

The TOLEDO WEEKLY BLADE

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 postoffices in the country. It is edited with reference to a national circulation. It is a Republican paper, but people of all politics take it, because of its honesty and fairness in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department, [best in the world]. Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau [which answers questions for subscribers], the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only $1 a year. If you wish to raise a club, write for terms.

OF LOCAL INTEREST.

Prarie hay is legal tender at $15 a ton now.

Dr. Mains went to the Jicarillas this morning.

It begins to look like that telephone line will be built.

Fine stock of fresh groceries just received at Ziegler Bros.

Frank Crumb went to the Salado Tuesday.

All the new Pack 99 can goods now in Stock at Ziegler Bros.

Jos. Gumm went to Lincoln yesterday.

Fresh Butter, Eggs and Cranberries.—Collier.

Margie McCourt was in from the Carrizzo ranch Tuesday.

M. W. Hoyle was off yesterday with a very severe cold.

Chas. and Frank Spence were in from the ranch this week.

J. C. Smith was over from Nogal Sunday.

It is a 9 pound girl this time, and a dandy too—and that is what's the matter with ye Editor, Sabe?

Miss Grace Austin is here from Bonito visiting her sister, Mrs. Wallace Gumm.

Bert Timoney and Thos. Long went to Capitan last Saturday and returned Monday.

Is It So.

It is rumored that the S. P. people have sold their coal interests here to the Stock holders of the E. P. & N. E.

George E. Sligh, a merchant of Nogal, N. M., was in the city this week. Mr. Sligh is also largely interested in some valuable mining prospects in the Nogal district.—Industrial Record.

Mr. Noah Ellis returned last week from Mexico where he has been under treatment for rheumatism. He received much benefit from the baths at Santa Rosalia. Mr. Ellis came to town Tuesday.

At the Methodist Church.

Rev. E. F. Goodson, Presiding Elder of the El Paso, District is expected on the Friday evening train and will D. V. preach the first sermon of a series of meetings on saturday night at the Methodist church. Every body invited to attend the services. Christians pray for a revival.

T. L. Adams, Pastor.

E. I. Jones, arrived here Sunday from Colorado Springs. Mr. Jones was among the first settlers of Red River. He is looking for a ranch location here and will probably settle some where in this locality.

C. Stewart, is in the city. Mr. Stewart is always a welcome visitor in White Oaks. He is the representative of Browne Manzan & Co. of El Paso, and does a very extensive business in this county.

Grateful to Patronage.

I thank the people of White Oaks and vicinity for the liberal patronage given me during the year now past, hoping that our business relations have been satisfactory, and soliciting your favors in the future I remain,

Elbert T. Collier.

Jim Clute, of Las Cruces, was buying for some hand grenades with which to put out a fire when it collided with a man running to the fire. Mr. Clute is now nursing a black eye and mourning the loss of several teeth.—Industrial Advertiser.

A Frightful Blunder

will often cause a horrible Burn, Scald, Cut or Bruise. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures Old Sores, Ulcers, Boils, Felons, Corns, all Skin Eruptions. Best Pile cure on earth, Only 25 cts. a box. Cure guaranteed. Sold by M. G. Paden Druggist.

R. E. Lund Esq. went to Lincoln the first of the week where he had business before the Probate court. Mr. Lund will go from Lincoln direct to Santa Fe to look after important business pending in the Supreme court and also to represent the people of this county relating to the selection of a Commissioner to succeed the late Col. Cronin.

Eugene Stewart returned last Friday from a six weeks' visit to St. Louis, Cincinnati and Chicago. Mr. and Mrs. Stewart had prepared a reception for him and when he reached the parental hearth he found not only home folks but many friends of the family to welcome him.

Thos. Long has been offered a position of Weighmaster at coal mines at Capitan. Mr. Wells, the superintendent, knew Mr. Long at Wilkes Barre, Pennsylvania, when Thos. was a boy in his teens.

Mrs. Jones Taliaferro was summoned to Salt Lake City last week in haste to see her father who was fatally injured in a rail road wreck near there. Mr. Taliaferro has received word that his wife did not reach Salt Lake in time to see her father alive.

The White Oaks Eagle wants to know "how about that El Paso chamber of commerce." Well, friend, it is on deck and will soon make itself felt. It will also look after El Paso's interests in the White Oaks country.—Industrial Record.

John Pankey, representing some mining capitalists of Denver, Colorado, passed through here Wednesday on his way to the White Oaks country where he has gone to inspect some mining properties.—Times.

Oscura Copper District.

The Oscuras mining district, in New Mexico, is now coming to the front as a great copper section, and has attracted the attention of Denver capitalists, who are negotiating for five adjoining claims that show a vein nearly three feet in width and the ore from which runs all the way from 20 to 50 per cent.—Times.

A Monster Devil Fish

Destroying its victim, is a type of Constipation. The power of this marvelous malady is felt on organs and nerves and muscles and brain. There's no health till it's overcome. But Dr. King's New Life Pills are a sure and certain cure. Best in the world for stomach, Liver, Kidneys and Bowels. Only 25cents at M. G. Paden's Drug Store.

Luck in Turquoise.

The turquoise stones are said to give good luck to their possessor. It is said that Oom Paul Kruger, of the Transvaal republic, has the largest turquoise stone in the world. Perhaps he relies on it to safely carry his little country through the war with Great Britain.

An Unfortunate Ride.

Pearl Keith, daughter of John M. Keith, had a serious accident befall her on last Monday morning. Pearl, and Florence Wharton were out riding, when Pearl's horse became unmanagable and ran with her for some distance, when turning a corner near Sam Neid's residence, the horse ran into a fence post, striking Pearl's leg, breaking it, between the knee and ankle. Pearl was soon picked up and carried home as quickly as possible and Doctors Paden, Mains and Lane summoned to set the broken limb. The bone was found to be protruding through the flesh, making the operation an extremely painful one, Pearl is bearing up under her misfortune like a soldier and is getting along nicely.

Paden Druggist.

Wreck on Mountain

Engine Gets Away On the Alamogordo Lumber Company's Line.

There was a wreck on the line of the Alamogordo Lumber company on Sunday in which, happily, no one was injured, but which resulted in the smashing up of three log cars, while an engine was rendered hors de combat.

The grades there are very steep, and now and then, as in this instance, the cog slips; in this case it slipped while they were switching and the whole outfit started down the mountain. The cars left the track and made a total wreck. This is not on the White Oaks road properly, but on the line of the Lumber company.

This is the second engine disabled in a small wreck on that company's line in the last two months.—Herald.

Cold Steel or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure Stomach and Liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50c at M. G. Paden's drug store.

STATEMENT

Of the condition of the Exchange Bank, White Oaks, New Mexico, at the close of business, December 30th., 1899.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.

To accommodate those who are partial to the use of atomizers in applying Liquids into the nasal passages for *catarrhal troubles*, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

Our Public Schools.

The Eagle is indebted to Prof. E. S. Coombs for the following information concerning our public schools:

"The attendance during the month ending December 22nd., 1899, was 135. The much crowded condition of the primary grades under Miss Ula Gilmore has been relieved by the employment of a third teacher, Miss Daisie Nabours, who will assist Miss Gilmore in the primary department."

Miss Nabours is one of Lincoln county's most successful young teachers, and the Eagle is pleased to learn that her services have been procured in this school.

"During the holiday vacation the rooms were comfortably arranged, so that all pupils are now prepared for the best results to be obtained from study."

It is the desire of Prof. Coombs, and in fact of all the teachers, that parents lend their aid to the general progress of the school by requiring children to be punctual, and it is expected that every body interested, visit the school and observe the work, being done.

A Night Of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life. It cured her of Cosumption and three small doses she slept all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and $1.00. Trial bottles free at M. G. Paden's drug store.

Letter List.

KILLING CATTLE FOR THEIR HIDES.

Operations of Thieves in Western Socorro County.

A prominent stock owner of the western part of the county writes the Socorro Chieftain that a number of cattle have been found on the range, apparently having been killed for their hides, as the animals were skinned and the carcases left intact. In each case the animals had been shot. One gentle cow came home recently with a bullet hole through the ear. It wase at first thought the work might have been that of calf thieves, but as some of the cattle killed were young stock, that theory is exploded. It is now thought by some to be the malicious doing of sheep herders, who have drifted into that vicinity from [illegible] and Valencia [illegible], as there are a numb[illegible] flocks in that section [illegible] country, and the herders are well armed and supplied [illegible] ammunition, and all of them s[illegible] to have an abundance of raw hide[illegible] using it for lash ropes and rigging about their packs, and for moccasin soles. It is to be hoped that the sheep herders are not the guilty parties, [illegible] if they should so prove to be, the result would prove disastrous to them, for it is well known that the stock men who own ranches and pay taxes on so many acres of land that is of little value, except for the water right which attaches thereto, have no love for the sheepmen of other counties whose flocks are veritable tramps, that as soon as there is snow enough in the mountains to water the sheep on, invade the western part of our county, to the great annoyance and detriment of resident stock owners.

No difference who the guilty parties are they are treading on very dangerous ground and if caught in the act they will probably have little time for regrets.—Socorro Chieftain.

[illegible] OF A CENTURY.

The ordinarily constituted human being, half unconsciously in some cases, attaches a strange significance to the end of a century. To this may be attributed in a measure the marked anxiety to ascertain definitely whether the Nineteenth Century ends December 31, 1899, or December 31, 1900.

Max Nordau, when he wrote his "Degeneration," was possessed of this tendency to attach a significance to the century's end. He it was who made familiar to English ears the French phrase "fin de siecle," as a synonym for decadent, degenerate, neuropathic, when it meant originally no more than the English "end of the century."

The feeling which shows itself at present had a much more marked exhibition at the end of the Tenth Century in the year 1000. There was one impression in the world that the end of the world would come with the end of the thousandth year.

The year 1000 was one of apprehension and panic. No new enterprises were undertaken, no journeys begun, efforts at discovery and invention were abandoned, persons lived from hand to mouth preparing for the end of the world, which they felt sure would come with the end of the Tenth Century. It was only when the last day of the century, December 31, 1000, had ended and January 1, 1001 dawned clear and bright without any cataclysm or disturbing event that the people recovered their equilibrium and began to live again.

It would seem incredible that persons could have attached such importance to the end of a purely arbitrary period of time, were there not a similar tendency at present which shows itself in the writings of men like Nordau, scientific and erudite in all but their [illegible] lesion. It seems remarkable that [illegible] that would place millennial disturbance [illegible] the free list writing thought occurred [illegible] hundred that the year was simply besides it, if revolution of the earth [illegible] sale of w the sun, that the month was simply the time of revolution of the moon around the earth and that the two periods had no exact relation to each other, a day having to be inserted every four years to fill in and one left out every hundred years because this filling in left a surplus.

These persons ignorantly regarded the human calendar—the weak method devised by man for measuring the lapse of the few years of life allotted to him—as possessing a paramount influence on man himself and on cosmic phenomena.—Republic.

DEPUTY SHERIFF WOUNDED.

Albuquerque, Dec. 26.—News reached here to day of the fatal wounding of Deputy Sheriff William Rainbolt of Chavez county by two desperadoes, he and a posse had been trying to capture. Rainbolt with others had been in pursuit of the outlaws for several days while riding across an open prairie, Rainbolt and a man named Allen overtook the fugitives, when a fight ensued, the officer being shot twice and the desperadoes escaping. Allen brought the wounded deputy to Palomas.—Journal Democrat.

Howard Leland, Register.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The policies of the great political parties are now being formed and the candidates discussed. The voice of the people as recorded by ballot at the approaching Presidential election will probably decide the policy of the nation for the next decade. Every citizen must study the great questions that are to come before the people. This can only be done through the medium of a great newspaper. Now is the time, therefore, for every voter to subscribe for the best and most reliable newspaper obtainable. The Semi-Weekly Republic covers the whole field of political news. While it is Democratic, it publishes the news in regard to all political parties without prejudice. Its telegraphic and cable news service is superior to that of any other paper. Its special features are the best. In fact, it is the paper for that large class of readers who cannot afford or do not have access to the daily papers.

Attention is also called to the Republic's Sunday Magazine. Its half tone illustrations are alone worth the subscription price. It is made up of special articles by the best literary talent, embracing a variety of subjects of current interest. News features of absorbing interest are illustrated and enlarged upon. For the benefit of the ladies the latest fashions are handsomely illustrated. The Republic Sunday Magazine is always interesting to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1 25 per year. Both papers are now being offered at the very low price of $1 50 for one year. To secure this low rate both must be ordered and paid at the same time.

Address all orders to THE REPUBLIC, St. Louis, Mo.

CONTEST NOTICE.

Department of the Interior.

United States Land Office, Roswell, N. M., November 28, 1899.

A sufficient contest affidavit having been filed in this office by Kirk Elmer Jacobs, contestant, against homestead entry No. 850, made January 17th, 1893, for the S½ of the NE¼ and the SE¼ NW¼ of Section 22, Township 7 S., Range 14 E., by Frank E. Conger Contestee, in which it is alleged that: the said Frank E. Conger has wholly abandoned said tract, and changed his residence therefrom for more than six months since making said entry, and next prior to the date of said affidavit; that said abandonment was not due to the entryman's employment in the military, or naval service of the United States in time of war, and that said tract is not settled upon and cultivated by said party as required by law. The present residence, of the said Frank E. Conger, is Cripple Creek, Colorado said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m., on February 10, 1900, before D. J. M. A. Jewett, Notary Public, at Gray, Lincoln County, N. M., (and that final hearing will be held at 10 o'clock a. m on February 17th, 1900, before) the Register and Receiver at the United States Land Office in Roswell, New Mexico.

The said contestant having in a proper affidavit, filed December 9, 1899, set forth facts which show that after due diligence, personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

THE NEW YORK WORLD

THRICE-A-WEEK EDITION.

The Best Paper at the Lowest Price

156 Papers.

A Year FOR ONE DOLLAR.

As good as a daily at the price of a weekly.

During the Spanish-American war THE THRICE-A-WEEK WORLD proved its great value by the promptness thoroughness and accuracy of its reports from all the scenes of important events. It was as useful as a daily to the reader, and it will be of equal value in reporting the great and complicated questions which are now before the American people.

It prints all the news of the world, having especial correspondence from all important news points on the globe. It has brilliant illustrations, stories by great authors, a capital humor page, complete markets, departments for the household and women's work and other special departments of unusual interest.

We offer this unequalled newspaper and WHITE OAKS EAGLE together on year for $2 00.

The regular subscription price of the two papers is $2.50

COPYRIGHT, 1898 BY COSMOPOLITAN MAGAZINE

THE delights of an evening spent around a well-lighted reading table are not half understood. An illustrated magazine with its wealth of illustrations, its stories of adventure and love, its descriptions of travel which carry you to the remotest ends of the earth, and its instructive articles for young and old—these are the first requisites for your own enjoyment and the entertainment and proper education of your children.

To secure for you the best and most interesting of the great illustrated magazines at the lowest possible price has been the aim of the editor of this journal. That we have succeeded we leave our readers to judge. A special contract recently entered into with The Cosmopolitan, which seeks to become better known in this neighborhood, has enabled us to offer you a year's subscription to the greatest of the illustrated magazines together with a year's subscription to this journal,

Both Together One Year for Only $2.10

In this way you secure your own home paper and an illustrated magazine at a price that is only about a fourth of what some of the illustrated magazines sell for. For three years The Cosmopolitan has undisputedly claimed that it reached the largest clientele possessed by any periodical, daily, weekly or monthly, in the world. It was The Cosmopolitan which sent Julian Hawthorne to India to let the world know the real horrors of famine and plague. It was The Cosmopolitan which established at its own cost a great Free Correspondence University which now has over 20,000 students on its rolls. It was The Cosmopolitan which offered a prize of $3,000 for the best horseless carriage and prizes for best plans for public baths, and best arrangement of sewer and pipe systems for cities. It was The Cosmopolitan which set the presidents of great schools and universities seriously discussing the defects of existing educational systems. It is The Cosmopolitan whose enterprise is always in the lead in advancing the world's civilization.
