GENERAL NEWS ITEMS.

RAIL ROAD GOSSIP.

Double Barreled Speculation of El Paso Newspapers.

"If it is true" said a prominent rail road man yesterday, "that Mr. Haggerman is going to build the Pecos Valley road through to El Paso, then this city is going to have two more through air line connections with St. Louis and Chicago. I have good reasons to believe that next summer the Rock Island will make connetion with the El Paso & Northeastern.

"A few days ago when Morgan Jones went down into the Sierra Madre country and told an afternoon paper a cock and-bull story about going to look after coal. I noticed that the TIMES hit the bull's eye. Mr. Jones does not know anything about hunting coal or about mines or mining. But as the TIMES stated he is an expert rail road builder, and if he makes a favorable report on his return from a trip from Casas Grandes across the Sierra Madres to the coast, you will see work begin on the extension of the Rio Grande, Sierra Madre & Pacific road; and at the same time, in my opinion, you will see the Rock Island move to couple up with the El Paso & Northeastern.

"Now it is possible that General Dodge's road, the Fort Worth & Denver, is responsible for Mr. Jones' mission to Mexico. If so that is why we are hearing so much talk about the Pecos Valley road extending to El Paso. That line is already connected with the Fort Worth & Denver at Amarillo, Texas; and the fact that General Dodge brought Morgan Jones out here would indicate that his road is the one seeking a connection with and the extension of the Sierra Madre line. Of one thing I am positive and that is that either the Rock Island or the Fort Worth & Denver is negotiating a deal with the Sierra Madre line. And if it is the latter you can bank on it that the Rock Island will also come to El Paso unless it is dickering for the F. W. & D.

I heard a White Oaks man say recently that in a very short time the White Oaks would be sending passengers through from El Paso to Chicago twelve to fifteen hours quicker than the trip can be made over any other line.—El Paso Times.

JOHN DODSON INSANE.

Sheriff Demetrio Perea of Lincoln county arrived in Socorro this morning having in charge John Dodson, who is violently insane. The necessary examination was conducted before Judge Leland by Doctor Duncan, the patient was adjudged insane, and Sheriff Perea will at once take him to the asylum at Las Vegas. But little is known of Dodson, further than that he came to Lincoln from White Oaks about eight months ago. Sheriff Perea stated that the report of the recent finding of rich silver ore thirty miles north of Lincoln is perfectly true. The ore runs from $1,500 to $2,000 to the ton.—Chieftain.

AFTER THE TRUSTS

NEW TEXAS LAW

If the new law dealing with trusts that has just gone into effect in Texas is a success that state will not be a very profitable field for the operation of trusts and combines.

The new law absolutely debars any pool or trust from doing business, prevents their goods from being used in the state by clearly specifying that goods bought from any corporation which may prove to be a trust need not be paid for. It also further provides that no corporation can fix a price on its goods and force merchants to sell at such a price.

It provides further that pooling is strictly prohibited, and that any corporation giving away its goods with a view of crushing competition shall be adjudged a member of a trust and shall be debarred from doing busines in the state.—Dona Ana County Republican.

CO-OPERATION URGED

With the Census Office in Collecting Data Relating to Irrigation.

The Director of the Census desires to impress upon all engaged in agricultural pursuits in the arid and sub-humid regions of the United States, the importance of co-operating with the Census Office in the work of collecting data relating to Irrigation.

Without such co-operation, a full and accurate showing of the progress and development of these regions cannot be assured, and the sections wherein reports are incomplete, will suffer in comparison with those from which fuller information has been secured.

In thirteen states and territories, irrigation wholly or in part, is relied upon to produce crops. It is the application, in the strictest sense, of scientific methods in farming. Its continued development results in internal expansion of the public domain with which no individual or political party can find fault. It conquers the encroaching desert and reclaims millions of acres of waste lands. It means an increase in the productive area of our country great enough to feed and clothe another nation almost as populous as our own.

It is therefore apparent that an accurate Census of Irrigation is of great importance. The fact that its success depends in some degree upon the irrigators themselves should awaken their hearty interest in this work. Parties owning canals and ditches who have received no inquiries, are earnestly requested to write to L. G. Powers, Chief Statistician, In Charge of Agriculture, Census Office, Washington, D. C., and blanks will be mailed to them at once.

The Director asks that all to whom these inquiries may come will answer the same as fully and accurately as possiple, and promptly return them.

FOR THE BABIES.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by M. G. Paden Druggist.

The Oil Problem Solved.

It has finally come to light, but not from sources whence it should have emanated, that the people have not been amiss in their complaints against the coal oil inspector and the quality of the oil furnished consumers, two cars of an inferior quality having been shipped here from Whiting, Indiana, to supply a shortage. So long as the oil came from Florence, Colo., the usual source of supply for Las Vegas, the people had little, if any, complaint to make.

And now the question may be asked Have the people no rights that the coal oil johnnies are bound to respect? Could they not easily enough have informed the people why it was that their lamp chimneys blackened so quickly and eagerly, and why their eye-sight was growing dim from the ruinously poor light furnished by an inferior quality of coal oil? But, no! It is again "the public be d—d" with them. They may be Vanderbilts in pocket and independence of thought now, but there'll come a day of reckoning.—Optic.

An Editor's Life Saved by Bhamberlain's Cough Remedy.

During the early part of October, 1896, I contracted a bad cold which settled on my lungs and was neglected until I feard that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was imediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. Official Paper of Lincoln County

The Northeastern people have increased the wages of employees.

Buller has crossed and recrossed the Tugela three times, each time with considerable loss.

Kentucky has two legislatures in session and has had three governors within the last six weeks.

The El Paso and Northeastern Ry. has made a 25 per cent reduction in freight rates to take effect today.

The Boer forces are estimated at 64,000 fighting men, but it would be difficult to get the English to stop at this estimate.

Little "Bobs" has begun operations against the Boers with his mouth. The relief of Ladysmith will cost him more men than Candahar.

The Silver City Eagle, which has been supended for a time has been revived, and is now switched from a democratic weekly to an independent publication.

The situation in Kentucky is still a delicate one, and it will take considerable diplomacy on the part of both factions to keep down an armed clash.

The Philippine revolt is ended, but the daily report from there tells us that four or five Americans were killed and others wounded. It is difficult to realize a war over when the casualty lists continue to grow daily.

"El Capitan," a republican paper published at Capitan, has been received at this office. El Capitan is printed at Alamogordo and sent out to Capitan for distribution. The promoters are J. F. Manning of the Alamogordo News and Wm. Clute, of this county.

GENERAL OTIS TO COME HOME.

A Report That He Has Asked to Be Relieved.

A special to the Herald from Washington says: Maj. Gen. Otis will be detached from duty as governor general of the Philippines and commander of the department of the Pacific immediately after the arrival of the new Philippine commission and ordered to return to the United States. This action will be in compliance with the wishes of Otis, who informed the war department that he is in need of rest.—El Paso Herald.

Joe Keith Writes from San Miguel Philippine Islands—Says Filipinos Lack Courage.

San Miguel, P. I. Dec. 24, 1899.

John M. Keith,
White Oaks, N. M.

Dear Uncle:

But for lack of time you would have heard from me sooner, but we have been kept continually on the move.

It would require considerable time and a great deal of patience for me to tell you just what I think of this country and the war, or to even give you an idea of what little I have seen of both.

We landed in Manila October 31st last, and were marched straight to the front, which in this instance means the firing line. I was assigned to Dorrington's Scouts There were then 100 of us. We took the lead five days in advance of the regiment, and were marched 150 miles northwest of Manila to San Jose. It took 30 days to make the 150 miles, which is an average march of 5 miles a day. You may draw your own conclusions as to the character of the country through which we traveled. We had two light skirmishes enroute, in one of which we lost three men killed outright.

From San Jose we went to Pasirobio, 50 miles west of San Jose. Pasirobio is pretty well up into the mountains, and there is where we had some fun if hearing rifle bullets whistle around you may be considered sport. Thirty-four of our company were sent out on a reconnoitering expedition ten miles out of town. We encountered about 400 Insurgents in ambush, armed with remingtons and Mauser rifles, but fortunately they were not intrenched and we made them face about and cut for tall timber after about four hours hard fighting. Fifty of them were killed and wounded in the fight, not a man of us was touched—but one of their bullets went through my gun stock and tore it to pieces, that is close enough for me.

From Pasirobio we were ordered back to San Miguel, where we now are. There were reported to be about 2000 Insurgents here strongly intrenched. After making a five days march in three days, we arrived here just three hours too late to be in the melee Though it was no fight after all—I'll tell you these Filipinos won't fight. They lack the courage. One American can whip ten of them.

As to my opinion of the Islands, it is like the inhabitants- a little scattered. The country may be worth something to Uncle Sam some time, but how long that will be I don't know, but I am sure of one thing and that is that I for one, will go back to the U. S. as soon as I get a chance, and don't think that will be longer than six months.

I suppose you will have heard about the death of Gen. Lawton before this reaches you, as it takes a letter a long time to reach the United States. We were in General Lawton's Division. He was certainly the greatest fighter in our army, but I have been looking for him to get killed for some time. He was always in front of his command, and ready for more fight.

Dec. 27.—This is three days since beginning this letter. We are ten miles from San Miguel. Ordered here to thrash about 150 Insurgents who have been making a little trouble. There are twenty five of us. We jumped them yesterday, killed three, wounded several and captured five and will start back to San Miguel tomorrow. We had a hot time for about an hour, lost one man killed, one wounded, and one horse killed in the conflict. But we put them on the "Hike," burned the town, and destroyed several tons of rice—so don't think they will trouble us any more soon.

I would like to write you about a good many things that have happened—some of them under my observation—but I am Uncle Sam's boy now and can't talk out of school. I don't know how many inspectors will read this letter—but I can tell you one thing upon which I have arrived at a firm decision, namely: That I will not be so d—d foolish that I will join the army during the next Philippine insurrection. There were just 100 scouts left Manila a little over two months ago with this division and now there are only 58 of us left out of 100 strong men.

I haven't seen a white woman since I left Honolulu and I am getting mighty hungry for the sight of a pretty girl once more. I met Paul McCourt in Manila. He says he is tired of the country too. It is very unhealthy here, though I have not been sick a day since come over, but I take good care of myself when I can—at any rate, I let whiskey alone and that is what makes many of the soldiers sick. The dry season is now on, however, and the general health of the army will doubtless improve.

There is a call—must quit—Regards to Pearl, and all the White Oaks people, I remain as ever

SHERIFF'S SALE.

In the Supreme Court of the Territory of New Mexico.

Albert E. Lund, Defendant in Error,
and
The Apex Gold Mining Company, a Corporation Plantiff in Error,
Thos. C. Johns and D. W. Roberts Sureties.

Writ of Error from the District Court, in and for County of Lincoln, N. M.

Notice is hereby given, that by authority and command of the Writ of Our Supreme Court of the Territory of New Mexico, commanding me that of the Goods and Chattels, Lands and Tenements of the Apex Gold Mining Company, and Thomas C. Johns and D. W. Roberts, I do cause to be made the sum of six hundred, eighty three and 30/100 dollars, being the amount which said Supreme Court hath awarded to the said Albert E. Lund, together with the costs that may accrue, and interest thereon, I have levied upon the Goods and Chattels, Lands and Tenements heretofore taken into possession of the said Dist. Court, under Attachment herein, and other property of the said defendant, to wit: All the right, title and interest of the said Apex Gold Mining Company, and of the said Thos. C Johns in and to that certain tract of Land, known and described as the North Homestake Mine. OF LOCAL INTEREST.

John A. Haley and wife returned from Lincoln Saturday.

Col. G. W. Stoneroad was a Jicarilla visitor Tuesday.

Jones Taliaferro left Sunday for Lincoln on a business mission.

Frank Spence was in the city Monday from the Mesa del Gallo.

The Lincoln County Republican is no more-it is now El Capitan.

Ed. Harris and wife were in yesterday from the Anchor ranch.

Born to Mr. and Mrs. Chas. Smith an 8 pound baby girl, Monday, the 12th.

He "skipped by the light o' the moon," at the urgent request of a number of his fellow citzens—never to return.

Mr. and Mrs. Wm. Watson and A. E. Lund entertained friends at the Watson residence last Friday night, the 12th, inst.

Chas. and Henry Fritz were here yesterday from Fritz ranch below Lincoln with alfalfa which they sold to Taliaferro M. & T. Co.

A telephone line is being talked of between this place and Carrizozo station. A stock company will probably be organized for operating the line.

Messrs. Rice and Welles returned Saturday to the Salado and Bonito country. These gentlemen are mining men from Chicago, and are interested in mining in Lincoln county.

The distribution of funds last week gives the White Oaks district a sufficient amount of money to continue school for another four months—making an eight months term.

Mr. and Mrs. S. T. Gray and Bessie Lesnet left last week for Santa Rosalia, Mexico, where they hope to recuperate their health by bathing in the fountains of those famous life giving waters.

An enjoyable affair was the Valentine social at the residence of Mr. and Mrs. J. F. Carpenter last night. The guests numbered between sixty and seventy people, who were treated to an effusion of poetry and song interspersed with other interesting features of entertainment.

An influx of capital will make Lincoln county the banner mineral county of the territory; and many believe the time is near at hand. Capital has an eye on this section, and it is hoped many new ventures will be made that will have every promise of success.

S. T. Gray has closed out his real Estate to Eddy Bros., and the latter have a corps of engineers engaged laying out a town site and platting the new town, to be called "Capitan." The principal portion of Capitan will be laid out on what is known as the Stafford place, just across the Salado from Mr. Gray's residence, though a portion of the town will be on the north side of the Salado.

A Successful Operation.

Dr. M. G. Paden, assisted by Dr. Mains performed a very successful surgical operation on W. M. Wharton last Friday. The patient had been suffering from fever and abcess of the liver for about five weeks when it became necessary to perform the operation.

The abcess was located in the right lobe of the liver and when the knife was applied by Dr. Paden about a quart of puss flowed from the wound. The operation was quickly and successfully performed, and in consequence, Mr. Wharton is now on the way to recovery.

NEW ENTERPRISES FOR WHITE OAKS.

A New Stock Company Which Promises Much in the Way of Business Progress for White Oaks and the Surrounding Country.

A Stock company is being formed here for the purpose of operating telegraphs, telephones, electric lights and rail roads in Lincoln county. Considerable stock has already been sold and sealed bids for a telephone from White Oaks are now being received by John A. Brown to whom has been assigned the awarding of the contract for its construction. It is understood that the bids will be opened about the first of the month although the EAGLE has not learned the exact date the contract is to be awarded.

The second enterprise the company will undertake will be electric lights for the mines and the city. This move has been prompted by necessity, as electricity will be cheaper than the lighting system now furnished us by the Standard Oil Co., which is dished out to our population by means of a liquid the analysis of which would doubtless show a little of everything except petroleum.

When the Lady Godiva resumes operations, which will be some time during March, the necessary number of lights can be placed to insure the success of the enterprise, not to mention the Boston Boy, which in all probability will be ready to use a limited number which will be increased as the development progresses. The Godiva also contemplates the erection of a mill which when completed and in operation will help out.

The location of the generators for the plant willl probably be placed near the Old Abe coal mines, provided the necessary arrangements can be made with that company for fuel.

The electric light proposition so the EAGLE has been informed was at one time considered by the Old Abe Co. but was abandoned when the disaster which necessitated the sinking of a new shaft overtook that property.

The encouraging outlook for the mining industry of White Oaks and vicinity makes the successful operation of any or all of these enterprises a feasible certainty. White Oaks people are waking up to the business possibilities in reach and nothing will now apparently be left undone to keep the wheel rolling.

The building of a telephone to Carrizozo, will as soon as conditions warrant, be followed by the construction of lines to many other places in the county, and to Roswell in chaves county.

Decision Reversed.

An opinion has been handed down in the case of R. A. Casey, appellant, vs. The Territory of New Mexico, appellee, from Lincoln county. Casey is in the penitentiary serving a sentence for murder. Judge Crumpacker read the opinion, which reverses the the decision of the lower court and remands the case for a new trial. —Journal Democrat.

RATES REDUCED.

The White Oaks Makes a Reduction in Freight Rates of Twenty-Five Per Cent.

The new rate sheet, numbered 4, of the El Paso & Northeastern railroad has just been issued, and shows another evidence of the of the road's increasing business.

Beginning February 15, when the new sheet takes effect, there is to be a reduction of twenty-five per cent in all freight rates including points between Tularosa and Capitan. This includes shipments both in carload and less than car load lots.—El Paso Herald.

A Republican Newspaper to Be Started at Lincoln.

Private advices received yesterday are to the effect that two young men have bought the plant of the Lincoln News, discontinued several years ago, and that they will at once begin the publication of a Republican newspaper. No information was obtainable as to the names of the owners or whether the old name will be continued or a new one adopted. THE REGISTER extends best wishes to the young men for the success of their undertaking and congratulates the citizens of Lincoln upon the prospect of having a paper in their town, the county seat of Lincoln county. —Roswell Register.

A Favorable Mining Out Look.

S. C. Usher, a mining man, from Lawrence, Kansas, and L. G. Usher, of Hagerman, Chaves county are visitors here this week, looking after business interests.

Geo. E. Sligh and W. T. Henley have on exhibit specimens of very fine copper ore which they have uncovered in this vicinity.

R. C. Russell and Ed Homan are in from the Oscura copper districts. They report things humming over there and judging from the amount of supplies sent out to their camp it is evidently their intention to put the properties in shipping condition as soon as possible.

W. T. Henley has gone to the Oscuras to do assessment on a number of claims some of which it is said are showing up a quantity of high grade ore.

Your corespondent has just learned why Chas. Brown has been wearing a broad smile, which we now readily interpret as an unmistakable portrayal of paternal satisfaction. It is a boy—a dandy too. Both mother and son are doing nicely.

Hunter Watson, the hustling photographer is in the city, and is doing considerable business.

O. C. Davis and wife have sold out in Nogal, and will leave here tomorrow for southern California where they will reside in the future. Mr. and Mrs. Davis have many friends in Nogal and Lincoln county whose best wishes will follow them to their new home in the land of the sunset.

The public school is progressing nicely with a good attendance.

B. Wilson and Joe Cozhran have located new claims recently in this district.

Nogal people are in good spirits as a result of a prospective mining stimulus which is expected to manifest itself here this spring.—X.

COLD STEEL OR DEATH.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lame Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble, and yellow jaundice. He didn't count on the marvellous power of Electric Bitters to cure Stomach and liver troubles, but she heard of it, took seven bottles was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure Stomach, Liver and Kidney troubles and never disappoints. Price 50c at M. G. Paden's drug store.

A BUFFALO BILL

Introduced in Congress to Preserve the Bison in a Special Park in New Mexico.

The bill which has been introduced by Representative Baker, of Maryland, creating an American bison reserve, directs the secretary of the interior to set apart a portion of New Mexico for buffalo, beginning where the second parallel south of the New Mexico base line intersects the east line of that territory. The buffalo reserve embraces a huge territory in eastern New Mexico.

The bill provides that the secretary of the interior shall lease the tract to Charles J. Jones, of Topeka, who shall have control of it for twenty five years free of rent. It is provided that Jones must place on the tract within a year suitable inclosures and not less than 100 full blooded American bison.

According to the bill, the secretary of the interior may remove from the tract every five years during the continuance of the lease five pairs of bisons for use in the national parks or gardens. It is made unlawful for any person or persons to kill or dispose of any bison or to destroy any fence of inclosure within the boundary of this tract of land except by the consent of Jones. El Paso Herald.

The second standard parallel south in New Mexico passes through the center of the business portion of Roswell, forming the south line of second street, and running east goes through the Littlefield Cattle company's range between the Pecos river and the Texas line. It is not stated above whether the proposed park is to lie north or south of the second standard parallel. —Roswell Register.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c and $1.00. Trial bottles free at M. G. Paden's drug store.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The wars of America have, heretofore, settled affairs of state. Great questions of policy, of national motives and national conclusions have been answered as soon as the battle smoke cleared away, and the victor realized his victory. The war with Spain is unlike its predecessors. It has not answered questions, but has created problems which may not be solved lightly. These problems are being formulated by the political parties, and before they can be definitely settled at the ballot box it is necessary that the people be informed in regard to the situation. The result of the campaign of 1900 will make a broad mark upon the page of history; it will doubtless establish the policy of the great Republic of America for a quarter of a century. It is vastly important, therefore, that every citizen shall study the situation through that best of mediums, a great news paper. The Semi-Weekly Republic which affords a comprehensive view of political situation in all its bearings. It publishes the new news. The Semi-Weekly Rebublic is a Democratic paper, but it offers to its readers the news regarding all the political parties, and this without prejudice. It is a fair newspaper. Its telegraph and cable news service has been proved to be the very best employed by a modern paper. Its special features are unsurpassed. It is the newspaper for the reader who has not access to a daily paper.

News features, art, and literature combine to make The Republic's Sunday Magazine a specially attractive weekly magazine The half-tone illustrations printed in this magazine surpass anything ever attempted by a newspaper. These products of photography are worth the price of the paper. Special articles by trained writers on the news and the subjects engaging the public attention are prepared for The Republic's Sunday Magazine. A distinctly useful and attractive feature of this magazine is the fashion department. Always reliable and up with the times, the ladies find the fashion page a delight. Indeed, The Republic's Sunday Magazine appeals to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1 25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid for at the same time.

Address all orders to THE REPUBLIC, St. Louis, Mo.

STORY OF A SALVE.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich. tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by M. G. Paden, Druggist.
