WHITE OAKS EAGLE.

VOLUME IX.—NO. 17. WHITE OAKS, LINCOLN CO., NEW MEXICO, THURSDAY, APRIL 26, 1900. ONE DOLLAR AND FIFTY CTS. A YEAR.

THE COUNTRY NORTH OF US.

The RECORD feels equally as much interest in the country to the north of us, along the line of El Paso and Northeastern railway and beyond to the White Oaks country proper, as any other newspaper in El Paso or New Mexico, and prints probably more matter concerning the mining industry of that portion of New Mexico than any other paper in the Southwest. Yet this fact does not deter the editor of the Alamogordo News from willful and malicious misrepresentation of the RECORD every few weeks. In the last issue of the News Manning insists that the RECORD has always opposed everything in which the Eddys were interested, naming the Jarilla mining camp and the Capitan coal fields. The RECORD'S files are subject to the examination of any one interested, and until they are examined and the truth of Manning's assertions proven, the RECORD must insist on its former statement, that he has distorted facts, knowingly and maliciously.

The RECORD has many readers in that section and it is possible that Manning fears the business men of El Paso may conclude to stop patronizing his paper, as they can reach the same class of readers through the RECORD, except that class of readers, which is the bulk of the News' circulation, to whom the paper is sent by the rail road company, and consisting of people in the far east. Both the White Oaks Eagle and the Tularosa Democrat are said to have more subscribers among the actual residents of the Sacramento and Alamagordo country than the News has, and this stands to reason, as the News is only a "company" paper, being controlled body and soul by the railroad company, a kind of a paper that is never popular with the reading public, as its sole mission is to puff and boost everything the company tells it to, whether the subject is a meritorious one or not. These company papers are more given to lying than telling the truth, and placing a fictitious value on everything.

The railroad company has it in for the RECORD because the RECORD will not laud the Jarilla mining camp to the skies and place it among the best in the land, when the facts will not bear up such a claim. The Jarilla is a good camp and may develop into an excellent one. The RECORD has never said otherwise than that there was an abundance of good coal at Capitan. But it is also said that White Oaks had a good coal, and here is where the shoe pinched again. The company would have the public believe the only good coal in that part of New Mexico is that owned by the company. The trouble is that the railway company does not want other sections, equally resourceful, and some more so than around Alamogordo, given an equal showing by the newspapers. In other words, they want the newspapers to keep silent about the resources and advantages of the White Oaks country, and to boost those of the Alamogordo and Capitan country, in which the Eddy brothers are more interested. The object is obvious. They want investors and settlers in the section controlled and owned by them and do not want them to go to other sections and settle and invest. This is a short sighted and narrow policy, for the settlement of that entire section of New Mexico is bound to redound to the benefit of the railroad company; but perhaps not so greatly to the interests of the Eddy brothers.—Industrial Record.

Important to Location Holders.

It is now stated by authority that the recent requisition of the federal land office for a list of all applications for mining patents made prior to January 1, 1899, on which the claims have not been regularly prosecuted, is for the purpose of cancellation, says the Mining Reporter. This action of the department means a great deal. It will effect a radical change in the nature of property holding throughout all the mining regions of the entire country, for the purpose of the requisition is to nullify the ownership of such claims and clear the records of the cumbrous accumulation of dead matter.

Let this matter be fully understood by mining men. When the records shall be cleared of all applications for mining patents made prior to January 1, 1899, "on which the claims have not been regularly prosecuted, many thousands of mining claims will revert to the government and all of them will be subject to relocation! The effect of such action will no doubt damage the interests of many people, but beyond the exceptional instance of individual loss it will work a beneficial change to every established mining camp in the country which is not wedded to the "dog in-the-manger" policy so disastrous to the development of mining interests.

One of the greatest obstacles to the progress of the mining districts in this and many other states and territories in the Union have been the tenacity of the "patent applied for" locator of one or more claims in holding back from developing his property, waiting for some one else to do it for him on an abutting claim and who has by cunning devices been enabled to withstand the rights of others upon his domain of forbidden ground. Under the radical departure from the old order of things the new locator will no longer have reason to fear that after he has developed his claim into a paying proposition, he will be harrassed by a litigious claimant who bases his action upon a pending application for patent. Such documents in the future, instead of being a proof of prior rights, will be proof that the quondam owner has no right upon the ground which no one is bound to respect.—Western Mining World.

Dr. Simmons' Sarsaparilla effectually aids weak, impaired and debilitated organs of both sexes. Its action is quick and lasting. $1.00 and 130 doses.

The White Oaks Eagle in its last issue contained several columns or testimonials from responsible men who have used White Oaks coal, as to the quality of that coal. Without exception they all pronounce the coal of excellent quality. To those who have used this coal the testimonials will not offer anything new, but they should have a good effect on people who have not used it and also serve as a contradiction to the damaging statements made by certain parties in reference to this coal.—Industrial Record.

Caught a Dreadful Cold.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1658 Milwaukee Avenue, Chicago, says: During the late severe weather I cought a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by M. G. Paden.

The Best Remedy for Rheumatism

QUICK RELIEF FROM PAIN.

All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain wich it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggist of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by. M. G. Paden.

TO OUR PATRONS.

The EAGLE respectfully asks the indulgence of its readers for this and the following two or three issues, for the reason that a complete and entirely new outfit of new machinery and types are being put in, and everything that can possibly be done without at present has been disposed of, hence the mixed appearance of the paper this week. The change will be made as rapidly as possible however, and then it will be ready to serve you with one of the best equipped newspaper offices in southern New Mexico.

The splendid patronage and increased circulation the EAGLE has enjoyed the past year it being larger than at any period during almost 15 years of its publication makes it absolutely necessary that the improvements, long contemplated, should be made at once.

The loyal support that has been given the EAGLE by the people of White Oaks and elsewhere, who have stayed by it alike in adversity and prosperity and who have made it a permanent and successful enterprise in this locality, deserve and are hereby extended the sincere gratitude of this publication; and its improvement, which your hearty support has enabled it to make, will partially compensate for its past shortcomings and place it in a position to merit the continued support of its patrons.

The Pittsburg News very happily classes Dewey as "the automobile candidate." He has no pull and nobody is pushing him.

Governor Roosevelt has informed President McKinley that he absolutely will not accept the nomination for the vice presidency under any circumstances. Roosevelt is too big a man to play second to McKinley.

The past week the American army in the Philippines has suffered a loss of nine men killed and sixteen wounded, besides the hospital loss from fever and insanity. Yet our general, Granny Otis, ended the war some time since and is leaving the islands in peace and quietude!

It is apparent that Mark Hanna will need the whole of the colossal campaign fund of $30,000,000 the first assessment of $6,200,000 of which has already been levied on the trusts backing McKinleyism to organize and prosecute the McKinley campaign of 1900. It is extremely doubtful whether, even with the use of these millions, he can re-elect his man, the tool of the syndicates.

ON THE WANE.

J. P. Casey was the sole representative of the democracy who attended the Albuquerque convention so we are informed. The democratic county convention was held this week at some time some place, when and where half the democrats don't know. Truly the democracy in this county, that used to have every corral in town filled with voters on election days, is on the wane.

Las Cruces Republican.

Yes, Mr. Casey was the sole democrat at the territorial convention from Dona Ana, and having ten proxies in his pocket realized his responsible position at all times, and was ever found ready to do what was right and just. The democracy of Dona Ana could not have selected a better man to represent them in the convention, and it was an honor to Mr. Casey which he appreciated.—Deming Headlight.

The EAGLE does not claim to know anything about the condition of the democratic party in Dona Ana county, but has the pleasure of knowing John P. Casey, and should the county contain a few more such men there is no danger of that county's democracy ever waning, or of the republican party of that county having anything to celebrate over after the coming election.

The belief is growing that Admiral Dewey will accept the second place with Mr. Bryan on the Democratic ticket. It is well understood that he will go into the Kansas City convention with the backing of a number of influential eastern Democrats, who will ask for his nomination as President. But before they do so, or before the convention consents to even consider his name for the honor, it will be essential that he state his intention to support the platform and candidate selected by the convention. Unless he will do this, even he must realize that there is absolutely no hope for him, and that he might as well stay out from the first. In case of defeat for the nomination, which is a foregone conclusion, there is no reason why he should not accept second place, which would make a ticket strong that even republican boodle could not defeat it.

The present Republican Congress, which so exerted itself to please the trust in regard to Porto Rico and as well as on other subjects, will almost certainly go home without even formulating any plan for relieving the country of war taxes, which, according to the Secretary of the Treasury, will have yielded a surplus of over $50,000,000 by June, 1901. There is some difficulty in deciding which taxes to repeal, emphasized by the insistance of the people for relief from stamp taxes on the one hand and the claims of certain interest for favors on the other, and between the two, the Republicans prefer to do nothing.

A good many interesting reports of the attempts of army officers to track down and capture Aguinaldo are coming in from the Philippines. They all have only one result, and that is failure. The belief is, however, that Aguinaldo is not at Singapore, nor in Japan, nor anywhere else except in Luzon.

A twenty per cent advance in the price of wire and nails is the latest benevolent action of the mammoth trust organizations controlling those articles of commerce. Thus does republican prosperity continue to make trusts more prosperous by robbing the consumer.

WILL NOT VOTE FOR M'KINLEY.

Senator Wellington, Republican National Committeeman, Leaves Party.

Does Not Believe in the Administration's Attitude Toward the Philippines and Porto Rico.

The St. Louis Republic says:—Senator Wellington, the leading Republican of Maryland, has announced positively that he will not support President McKinley if he is renominated. The Senator states that he will oppose Mr. McKinley's renomination, and, failing in that, he will not vote for the Republican presidential candidate.

"The facts are," said Senator when asked concerning the attitude he will take in the coming campaign, "I have been opposed to the acquisition of the Philippines as a permanent colony. I was opposed to the 15 per cent duty on Porto Rico imports into this country. This being my position, I do not see my way clear to support the Philippine policy of the President and the policy of laying a duty on Porto Rico when they are embraced in a national platform.

"I do not intend to support a platform that is against my convictions in such important particulars. I do not intend to remain a member of the National Committee, nor do I intend to attend the Republican National Convention."

Mr. Wellington is a man of positive convictions and aggressive act on. In his opposition to imperialism he will not be content with failure to vote for the Republican dandidate. He will do all in his power to defeat the ticket nominated by his party, believing the time has come when he must put the safety of the Republic above party considerations.

There is a great deal of rot being indulged in by the republican press of this territory with reference to Bryan's visit to Albuquerque during the democratic convention held in that city. It is characteristic of a republican editor in New Mexico to indulge in sarcasm, ridicule, taunts, etc., when pitted against an argument which he is incapable of answering. The republican editor is short on ammunition when he attempts to meet Bryan's arguments against imperialism, trusts, single gold standard, Porto Rican tariff, etc., and his gouty taunts and leperite imbecilable anathemas are hurled at everything democratic, just because it is democratic, and every democrat is a demagogue just because he is not a republican.

Senator Hoar's excoriation of McKinley is the hottest shot that has struck the imperialists that has yet been delivered; notwithstanding the fact that Hoar was one of the founders of the republican party, and for almost fifty years one of its staunchest supporters. The "conscience" of the republican party couldn't stand Mac's policy of "benevolent assimilation," much less the worse one of "criminal aggression."

The post-office at La Luz in Otero county was robbed last Thursday. Mrs. Arabela Ostic, the postmistress, was at Las Cruces attending court. The office was entered by forcing a window. One hundred dollars was the amount taken.

LIME, MARBLE, SANDSTONE

For Building and Other Purposes in Lincoln County.

The city of El Paso so we are informed obtains its building material of stone from near Sierra Blanca, on the Tex. Pac. R. Rd. There are all kinds of stone, marble &c. in the markets of the world, most of the building now-a-days is done by contractors. Competition is rife and strong, hence a stone that will withstand the elements, bear the crushing, please the eye, and work the easiest, meets the approbation and patronage of the builders and contractors even at a higher first cost. The most beautiful stone with tangled cleavage and flinty composition not wanted as the cost of working and shaping is so great, that only exceptional conditions and figures, will enable its use in competition with material easily worked and shaped.

To the south of White Oaks and also east lies excellent sandstone, both yellow and gray hued, that can compete with any sandstone in meeting all demands of builders and contractors.

Immense lime and gypsum deposits lie just west and north of White Oaks, that for the manufacture of lime or Plaster Paris, can hardly be excelled and a No. 1 business in this line is now open to any qualified and experienced man.

As to marble, from 2 to 5 miles from the town of White Oaks lies immense quarries of both black, white, variegated, and mottled marble, that have been experimented with and tested thoroughly, and proven to take as fine polish as any marble known. For building purposes, ornamental work, monuments etc., few places produce superior stone, or advantages, for economical marketing.

The EAGLE is ready at any time to give any information at command to any and all inquiries concerning these industries.

SHERIFF'S SALE.

Public notice is hereby given that, under and by virtue of a Venditioni Exponas heretofore issued out of the District Court of the Fourth Judicial District of the Territory of New Mexico sitting within and for the County of San Miguel in certain cause in said Court then pending, said cause being No. 5174, wherein The San Miguel National Bank of Las Vegas was plaintiff and William H. Wood was defendant, whereby I am commanded to sell the property hereinafter mentioned and described, to satisfy a judgment rendered by said Court in favor of said plaintiff and against said defendant, William H. Wood on December 7, 1899; for the sum of ten thousand and ninety-eight ($10,098) dollars, with interest thereon at twelve per cent per annum from August 20th, 1899 to date of sale, and all costs of suit and expenses of execution and sale. I will, at 10 o'clock, a. m., on the 19th, day of May A. D., 1900, in front of the Post office in the town of White Oaks, Lincoln County, New Mexico, offer for sale and sell for cash to the highest and best bidder, all the following described lands and tenements, or sufficient thereof to make and realize the amount of said judgment, costs and expenses, as aforesaid; said lands and tenements being the same which were heretofore by me attached by virtue of a certain writ of attachment duly issued out of said Court, in said cause, and being better described as follows; to wit.

One undivided third interest in the N. W. quarter of Sec. (5), Township seven (7), S. R. 13 E; also Lot two (2), Block thirty-two (32); the East half of Lot three (3), Block forty-seven (47); lot four (4), Block forty-seven (47); lots one (1) and two (2), Block fifty-five (55); lots five (5) and six (6), in Block six (6); the West one half (½) of lot one (1), Block twenty-one (21); lot seven (7), Block two (2), of Kempton's First Addition to the Town of White Oaks. Lot twenty-one (21), Lincoln Avenue City Lots Addition to the Town of White Oaks. All in the town of White Oaks in said County and Territory.

OF LOCAL INTEREST.

Born to Mr. and Mrs. T. L. Adams last Tuesday, a girl baby.

Geo. L. Ulrick and Chas. D. Mayer, are at Socorro as U. S. Grand Jurymen.

About 15 wagon loads of freight came in from Carrizozo station yesterday.

Chas. Steven has sold his fine span of mares, wagon and harness to the Jicarilla Placer Co.

P. G. Peters, of Angus, has secured the contract to furnish poles for the telephone from White Oaks to Carrizozo.

With 5 or 6 car loads of freight a week coming into White Oaks it begins to look like a rail road would be a business proposition.

Miss Alice McMains returned home from school at Lockney Christian College, at Lockney, Texas, last Friday. Her mother, Mrs. Frank Crumb, and a cousin, Jos. Mahan, met her at Roswell.

J. H. Lightfoot is putting a democratic paper at Capitan. He will get out an issue next week. He has his machinery and supplies on the ground. The name of his paper will be Capitan Miner.

Ben Weiller, representing Gross, Blackwell Co., Albuquerque, was in White Oaks this week on one of his regular rounds.

The well drilling machinery for the Jicarillas reached White Oaks yesterday, and will be taken to the Jicarillas at once and put to work. It is a ponderous piece of machinery, and several men, eight or ten horses and two days were employed in getting it from Carrizozo Station to White Oaks.

Jno. A. Hollars, Congregational minister, returned yesterday from Albuquerque, where he attended the Congregational Association. Mr. Hollars reports a pleasant gathering and an interesting entertainment. This was the 17th annual meeting of the association.

BASE BALL.

Every body interested in base ball are requested to meet in the Stewart building Saturday afternoon at 3:30 o'clock for the purpose of organizing a club.

For the convenience of those who are working night shift at the mines a meeting will also be held at the same place at 7:30 at night.

CORNET BAND.

A meeting of the members of the White Oaks Cornet Band, and all others who are interested in maintaining it, are requested to meet in the Stewart building Saturday night at 8 o'clock The purpose of this meeting is reorganization, the selection of an instructor and a leader.

Forging Ahead.

Four gold mines are in operation here now; the Old Abe, South Homestake, Lady Godiva and the Boston Boy. The 30 or 40 men thrown out of employment by the stopping of coal shipments are now busy doing something else. More boilers have been started to feed the coal to, and clinkers, etc., are not hindering it from making steam for a good many White Oaks industries. As soon as the American Placer Co. get the machinery in place more of it will be used to feed their boilers in the Jicarillas.

The White Oaks district is forging ahead; nothing can stop it. Capital is already here and more is coming. The sweet singers who have been caroling down with White Oaks until we get ready to come in for a lion's share of the district's wealth, no longer have an audience, and nothing can stop the advance of the district's development.

Capital is favorably impressed because chances for handsome dividends on investment are great and labor is satisfied because wages are good, business men are happy because they get money for their goods—in fact this is a good country. If you don't believe it, investigate for yourself.

THAT'S WHAT HE SAYS.

J. A. Eddy Will Leave the White Oaks Road At An Early Day.

That General Manager Eddy of the El Paso & Northeastern is to leave the service of the company is now confirmed, says the El Paso Herald. In an interview today, Mr. Eddy said:

"Yes, the rumors relative to my leaving the White Oaks have a basis of fact, and as soon as I can attend to a few remaining details I will leave the company.

"I never contemplated remaining longer than to establish the proposition. I am not a railroad man. In fact, this was absolutely my first experience and I simply proceeded along the line that busines principles apply to all kinds of business. I prefer not to tie myself down to the details of operation. My resignation has been in the hands of the directors for nearly a year and I have recently requested that the same be accepted.

"It was my province to give to the railroads and towns their locations and establish them. I am exceedingly proud of my work and if there has been a mistake in any essential detail I have not yet discovered it. Incident to my work was the organization of the corps that now operate the business; their election devolved upon me personally, I considered it a remarkably fine organization of men for a new enterprise in a remote section of the country.

"My brother will remain at the head of the management and I will devote myself to Eddy Brothers' affairs and investigate some new enterprises that have been brought to our attention."

Jones Talinferro took a small crew of men to the Gallinas this week to further develop his copper properties at that point.

A TRIPPLE HAUL.

John W. Owen, deputy sheriff, returned Monday from Hereford, Texas, with Tom Bragg, who is charged with cattle stealing in this county.

Owen made a very successful haul of criminals this trip. Some time ago a stranger sold S. T. Gray a span of horses, and later stole the horses and left the country. On his way to Hereford after Bragg, Owen met this fellow in the road near Hereford, arrested him, chained him to a telegraph pole, rode into town and arrested Bragg, then returned for his first capture and brought them to Roswell.

At Roswell he met a sheriff from Texas who was looking for a man who had killed a number of calves, and sold them for money to defray his expenses to Capitan, and Owen had also met this fellow on his way down and had directed him how to go to Capitan. They came on to Capitan, captured this fellow, and now he is enroute to a Texas jail, while the man found in possession of Gray's horses is looking through the bars at Roswell, and Bragg is languishing in the bastile at Lincoln.

A C. Austin, of Bonito, was here on business Monday. Mr. Austin tells us that his locality is enjoying a healthy industrial growth, both in agricultural and mining activity. One property in that district is being developed by Messrs Rice & Wells, of Chicago, and a quantity of very fine ore has been shown up recently. Development is going ahead day and night. The miners are working three shifts of eight hours each. A number of sales have been made in the past 90 days, and the district is pressing ahead at a very satisfactory pace.

The New Mexico Baptist, a neat, newsy publication, edited by Rev. C. C Waller of Alamogordo, has reached our exchange table. The Rev. C. C. Waller's mission as well as that of his paper is to found a Baptist college somewhere in New Mexico. The EAGLE understands that Mr. Waller is very much pleased with White Oaks, and a very liberal proposition may be obtained from White Oaks should he decide to locate his institution. Everything necessary to the success of his school is here, and it is more than probable that immediate negotiations will be entered into for its establishment at this place.

Two car loads of machinery for the American Placer Co. has arrived. This will be quickly followed by several more carloads. There will be an immense amount of freight coming in here this summer. A rail road is needed and but for the EAGLE and its backers—so says the Alamogordo News—we would have it.

Frank I. Marsh, Clarence Moulton, and Francis King went to work for the Marsh Iron Co. Tuesday. They will begin operations near Jacks Peak in the Jicarilla district.

A. Ridgeway has been selected to take the place of F. I. Marsh as Supt. of the Old Abe Coal Mine. Mr. Marsh is in the employ of the Marsh Iron Co. in the Jicarilla district.

A Schinzing is getting in a carload of ice this week. He has secured Dr. M. G. Paden's ice house which is a convenient place for storage, and will be ready to supply the market here by the first of the week.

Miss Hall, of Richardson, was before the board of School examiners here Saturday for a teacher's certificate. She will teach the public school at Richardson this summer.

The cave in of the Raton tunnel on the Santa Fe last week delayed northern mails to this place for three days.

Mrs. John Woodland is visiting friends in El Paso. She will also visit relatives at San Pedro, Mexico before returning to White Oaks.

Rev. C. C. Waller, of Alamogordo, preached to the Baptist congregation here last Saturday and Sunday.

Here is an offer that should be accepted by every reader of the EAGLE. For $2 00 we will send the INTERNATIONAL INDUSTRIAL RECORD, of El Paso, Texas, and the EAGLE, 12 months. This offer is open to all new subscribers and all old ones who renew. To those who have recently paid dues to the EAGLE, the RECORD will be sent on receipt of 1.00. This is a saving of $1.50 by taking the two papers together. The RECORD is a 16 page paper, full of industrial matter, especially of mining and live stock news. All interested in either of those industries should take advantage of this liberal offer, which stands good for six months. March 8, 1900.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation.

With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

Mr. Jones Taliaferro, of White Oaks, made the RECORD office a pleasant visit this week. He had with him several samples of ore from his prospects and mines near White Oaks. One piece of the ore runs in silver 160 ounces, and another piece runs 45 per cent in copper. Mr Taliaferro thinks he has a good thing in this copper prospect and will fully develop it. There's no finer mineral district any where than around White Oaks and some big fortunes will be made there in the next few years —Industrial Record.

A Hundred Thousand Dollars, taken from the people of New Mexico each year and given to that great corporation, The Standard Oil Co. This is about the exact sum which that law defying corporation gets from the people of this Territory each year by reason of our coal oil inspection law re-enacted and amended last winter by a republican legislature and approved by a republican Governor. Our New Mexico republicans are of the true blue kind. They believe in making the rich richer and may the devil take the poor. That's republicanism straight through.

THE GREAT PRESIDENTIAL CAMPAIGN OF 1900.

The wars of America have, heretofore, settled affairs of state. Great questions of policy, of national motives and national conclusions have been answered as soon as the battle smoke cleared away, and the victor realized his victory. The war with Spain is unlike its predecessors. It has not answered questions, but has created problems which may not be solved lightly. These problems are being formulated by the political parties, and before they can be definitely settled at the ballot box it is necessary that the people be informed in regard to the situation. The result of the campaign of 1900 will make a broad mark upon the page of history; it will doubtless establish the policy of the great Republic of America for a quarter of a century. It is vastly important, therefore, that every citizen shall study the situation through that best of mediums, a great newspaper. The Semi Weekly Republic which affords a comprehensive view of political situation in all its bearings. It publishes the new news. The Semi Weekly Republic is a Democratic paper, but it offers to its readers the news regarding all the political parties, and this without prejudice. It is a fair newspaper. Its telegraph and cable news service has been proved to be the very best employed by a modern paper. Its special features are unsurpassed. It is the newspaper for the reader who has not access to a daily paper.

News features, art, and literature combine to make The Republic's Sunday Magazine a specially attractive weekly magazine The half tone illustrations printed in this magazine surpass anything ever attempted by a newspaper These products of photography are worth the price of the paper. Special articles by trained writers on the news and the subjects engaging the public attention are prepared for The Republic's Sunday Magazine. A distinctly useful and attractive feature of this magazine is the fashion department. Always reliable and up with the times, the ladies find the fashion page a delight. Indeed, The Republic's Sunday Magazine appeals to every member of the family.

The subscription price of the Semi Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1 25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid for at the same time.
