CAPITAN, LINCOLN COUNTY, NEW MEXICO, SEPTEMBER 27, 1907.

NUMBER 30

DELINQUENT TAX LIST LINCOLN COUNTY, N. M.

Amounting to Not Less than \$25.

And notice of application to the District Court for judgment and sale for the year 1906, delinquent on June 1st, 1907, with penalties and costs.

Territory of New Mexico, }
County of Lincoln. } ss

In accordance with chapter 22 of the laws of the Territory of New Mexico, 33rd legislative assembly thereof, I, the undersigned treasurer and ex-officio collector of the county of Lincoln in the territory of New Mexico, do hereby make, certify and publish the following notice and delinquent taxes amounting to not less than \$25 with penalties and costs thereon, which became delinquent on the first day of June, 1907, the same being hereinafter set forth, and containing the names of all the owners of all the property on which taxes are delinquent, the description of property on which the same are due, the amount of taxes, penalties and costs due thereon and the amount of taxes due on personal property.

And notice is hereby given that I, the undersigned treasurer and ex-officio collector of said county of Lincoln, will apply to the district court, held in and for said county upon the next return day, to-wit: the 12th day of November, A. D., 1907, the same occurring not less than 30 days after the last publication hereof, for judgment against the lands, real estate and personal property described in the following list for amount of the taxes due thereon, together with the penalties and costs, and for an order to sell the same to satisfy said judgment.

And further notice is hereby given that within 30 days after the rendition of such judgment against such property, and after giving notice by a hand bill posted at the front door of the building in which the district court of the said county of Lincoln is held, to-wit: the courthouse of the said county of Lincoln, at least ten days prior to said sale, I, the undersigned treasurer and ex-officio collector of the said county of Lincoln, will offer for sale at public auction, in front of said building, the real and personal property described in said notice, against which judgment may be rendered for the amount of taxes, penalties and costs due thereon, continuing said sale from day to day, as provided by law, until the same shall be sold.

J. M. PENFIELD, Treas.
and ex-officio Collector,

And notice of sale for taxes, penalties and costs for 1906.

TERRITORY OF NEW MEXICO }
COUNTY OF LINCOLN. } ss

In pursuance of the laws of the Territory of New Mexico, I, the undersigned, Treasurer and Ex-Officio Collector of said Lincoln county, Territory of New Mexico, do hereby make, certify and publish the following list of delinquent taxes amounting to less than \$25.00, with penalties and costs thereon, which became delinquent on the 1st day of June, A. D. 1907, the same being hereinafter set forth and containing the names of all the owners of the property on which the said taxes are due; the amount of taxes, penalties and cost due thereon and the amount of taxes due on personal property.

And notice is hereby given that I, the undersigned Treasurer and Ex-Officio Collector of said Lincoln county, will offer for sale and sell to the highest and best bidder for cash, the several pieces of property hereinafter described, both real and personal, for taxes, penalties and

costs, due and delinquent, beginning on the 5th day of November, 1907, at the front door of the Court House in the town of Lincoln in said Lincoln county; that I will continue said sale from day to day, if necessary, until all the property described in the following list is sold or until the respective amount due shall be paid; that the said sale will be held between the hours of ten o'clock in the forenoon and four o'clock in the afternoon of each day of such sale; and that if a purchaser fails to pay the amount of his bid before ten o'clock of the day succeeding the sale of the property to him the property bid for by him will be re-offered for sale, he not being allowed to make further bid or bids on such property; and that I will issue and deliver to the purchaser or purchasers of property at said sale a certificate of purchase as provided by law.

FOR THE GARDENER

SOMETHING NEW IN FLOWERS AND PLANTS.

Germany Has Contributed a Rose in Bright Coral Pink—Rubber Plant with Fine Foliage—Proper Method of Grafting.

There is a new variety of the polyantha rose. It originated in Germany and is named the "Aennchen Muller." The color is a bright coral pink.

The novelty about this especial variety of polyantha rose is the fact that its petals curl back longitudinally in a very even and curious way, giving it its name of revoluta.

It grows only a foot and a half to two feet high, and so it is very desirable for bedding out in compact masses, also for forcing in pots. Abroad it is being grown successfully. It keeps in flower from June until late in the autumn.

A New York dealer is the agent for a new rose that originated in faraway Queensland, Australia, which is different from other tea roses. It is the first rose from that land to win a gold medal.

The fine blossoms are borne singly, with strong guard leaves, on the ends of good stalks. The color is crimson at the base, shading to white, with a crimson flush beneath the petals.

If a rubber plant is to be had for foliage, why not select the majestic kind known as *Ficus pandurata*? This has very different leaves from the common kind. No handsomer green, but in shape somewhat like an oak, or the liriiodendron, or tulip poplar.

The leaves are often ten inches wide by 15 inches long. It does not "sprangle," to use an expressive country expression, as the old kind is apt to do. It has a more tree-like effect. Of course the rubber plant which has grown awkwardly or has become too large can be made over into other trees. This is the way: You root the cuttings on the tree, which is an Irish bull. That is to say, instead of cutting the branches and then rooting them in the usual way in sand, another method has to be adopted for this milky juiced plant. A sponge or some sphagnum moss must be tied about the place that is to be severed later. This packing is to be kept wet. Little roots will start out, and when those are sufficiently developed then the branches may be severed and each will make a new tree.

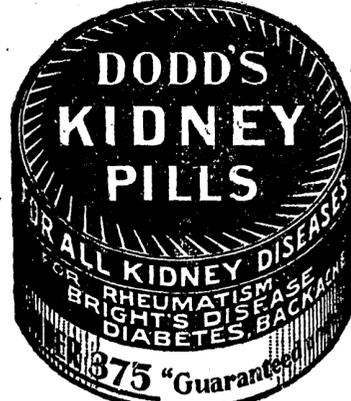

Plants will not grow without food and water. There generally is enough rain to supply their needs, as the roots will go down more deeply in dry weather to secure the needed moisture. If there is a necessity for water, which will be shown by the plant beginning to wilt, it ought to be soaked thoroughly. Mere sprinkling will have to be constant to do any good. Food is an important matter for plants as well as animals. Only three substances have any value as plant food. These are nitrogen, potash and phosphoric acid. If each plant was to get exactly of these what it required it would be an ideal way, but we have to strike a general average on this as on other matters. If thoroughly rotted manure can be had it is the best, but the usual supply is full of weed seeds, which give no end of trouble. Still, if the soil is stiff it should be used to lighten it up, or if sandy to give it substance. The artificial manures are free from seeds and can be had from any responsible dealer. It is much easier to use them, and the results are so favorable that they are meeting popular approval. It is hardly necessary to say that all weeds must be kept out. In dry weather they can be hoed out, and will die, but when the ground is wet it is better to pull them out. The earth ought not to be allowed to become hard, as air is needed for the roots, but when plants are set out it is necessary to firm the soil around them to prevent their being washed out in the first hard storm.

The biggest trap-shooting event of the year, known as the Grand American Handicap, held at Chicago in June last, resulted in an overwhelming victory for Winchester Shells. With these the Professional Championship was won by W. R. Crosby, of O'Fallon, Ill., and the Amateur Championship by Hugh M. Clark, of Urbana, Ill.

If he has a large family to support, a man can't afford to have any other extravagant habits.

16oz.—One-Third More Starch.

A FULL POUND

for 10c

No premiums, but one-third more starch than you get of other brands. Try it now, for hot or cold starching it has no equal and will not stick to the iron.

A GOOD BUSINESS TO ENTER

The Tailoring business, properly handled, is one of the most profitable a man can enter into, and he need know nothing whatever of making clothes nor of materials—and very little capital is required. Any man living in this town who has \$200.00 in cash, or backing to that extent, who will write us, we will show him how he can start in business for himself and make money from the start. We do not want one cent of money. Simply send us your name and address, mention the name of this paper, and we will send you full particulars absolutely free. Here is an opportunity that only comes to one man in a town. Address at once THE WHITNEY CO., Exclusive Merchant Tailors, 149 Franklin Street, Chicago, Ill.

W. N. U., DENVER, NO. 32, 1907.

DAISY FLY KILLER

For getting rid of and destroying flies, it leads everything. One lasts the entire season, is neat and clean and ornamental. Sold by all dealers or sent by mail postpaid for 20c. HAROLD BOWERS, 149 De Kalb Ave., BROOKLYN, N. Y.

Don't accept any substitute for Allen's Foot-Ease. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y. European Branch Office, Peterborough, England.

WARNING: Success brings imitations. Scores of worthless imitations are sometimes offered for sale. Insist upon having Allen's Foot-Ease. The Original powder for the feet. Twelve years before the public. Annual sales over two million packages. Do not accept spurious substitutes claimed to be "just as good." Imitations pay the dealer a larger profit otherwise you would never be offered a substitute for Allen's Foot-Ease. Ask for Allen's Foot-Ease, and insist upon having it.

Remember, Allen's Foot-Ease is sold only in 25 cent packages bearing yellow label with our trade mark and facsimile signature

Allen Olmsted

Does Allen's Foot-Ease Cool the Blood?

Some doctors have said so and many individuals have said, that this dainty, antiseptic powder, shaken daily into the Shoes is Cooling to the entire System. Scores of nerves center in the soles of the feet and Allen's Foot-Ease soothes and quiets these nerves. Use every means to keep cool and avoid Heat Prostration. Try this simple, popular remedy yourself and see if it is not instantly Cooling and Refreshing. Sold by all Druggists, 25c.

SPAIN FAR BEHIND NATIONS.

Illiteracy Prevails There to a Most Amazing Extent.

Of the 20,000,000 people inhabiting Spain, only about 35 per cent. can read and write; another two and one-half per cent. of the population can read without being able to write, but the remaining 62½ per cent. are absolute illiterates. In the south of Spain it is impossible to get a servant who can read and write, and many of the postmen are unable to tell to whom the letters they carry are addressed. They bring a bundle of letters to a house and the owner looks through them and takes those which are (or which he thinks are) addressed to him. The Spanish postmen are not paid by the state; the recipient of the letters have to remunerate them according to the amount of their correspondence, and each letter costs the addressee at least one cent. It is a joke among the easy-going Spaniards that he who treats the postmen best receives the most letters—whether they are intended for him or not.

Peace Dove Evidently Needed.

During the session of the house of representatives a dove, purple in color, flew gracefully into the hall and hovered high over the heads of the legislators. Naturally the question arose as to whether it was the dove of peace. Some of the members earnestly hoped that it was.—Hartford Times.

For Better or Worse.

A census-taker made his rounds in an isolated village. He gave one of his official papers to a woman that she might fill in the required answers. One of the questions, instead of reading "Married or single," had it "Condition as to marriage." The woman filled in the answer thus: "Awful hard up before. Wuss after."

District Densely Populated.

The District of Columbia has the greatest population a square mile of any section of this country. The figures are slightly more than 3,339. In Alaska there is only one person to ten square miles. Rhode Island is second to Washington, with 407 persons a square mile.

Brains are Built

from certain kinds of

FOOD

Try

Grape-Nuts

"America has become a land of nervous emotionalists, largely owing to our sins against the dietetic health laws of nature.

"Only outdoor exercise in a cold climate would enable vigorous individuals of our species to digest the viands forced upon alimentary organs enfeebled by sedentary occupations," wrote Dr. Felix Oswald.

Brain workers must have different food than laborers, because brain work uses up parts of the brain and nerve centers, while physical labor uses up other parts of the body.

Grape-Nuts, a food for brain workers, prepared by scientific food makers, is a pure, natural food made from selected parts of field grains known to contain the natural phosphate of potash and other elements required by the system in rebuilding and repairing the brain and nerve centers. This food is skillfully cooked at the factory and is ready to be served instantly with cream. At all first-class grocers and made by the Postum Co., at Battle Creek, Mich. Read the little health classic, "The Road to Wellville," in pkgs. "There's a Reason."

SHADE FOR THE CANDLE.

Pretty and Novel Affair by No Means Hard to Make.

So many persons find the light from a candle or lamp trying on the eyes that they always insist on shades of some sort.

A pretty and novel affair for a candle may be made of strong wire bent into a rectangular shape, six inches wide at the bottom, with the inner side 12 inches tall and the outer seven and one half. This will give a decided slope to each top.

Make two of these frames and cover them neatly with silk muslin of a very thin liberty silk.

This cover may then be painted or it can be studded in conventional design in sequins. Tie the backs together with bows of narrow ribbon for hinges, and around the top and two shorter sides sew a box-plating of narrow lace.

The candle is, of course, placed between the two leaves when they are opened wide. Extreme care must be taken to observe this precaution, as a fire might easily result from such inflammable materials in close proximity to flame.

KEEPING SHOES IN ORDER.

Ways by Which Best Results Can Be Obtained.

White buckskin should be cleaned with the best pipe clay, which must be dampened before using.

Patent leather shoes should first be wiped dry with a soft cloth before placing them on the shoe tree, then wiped with a soft cloth dipped in warm soapy water.

A little vaseline should be applied from time to time, especially after a wetting. The shine may be restored by rubbing with a piece of soft silk or black velvet.

Leather nowadays is rendered independent of the ill effect of dampness. Shoes can, therefore, generally be washed with tepid water when soiled, a piece of soft linen being dampened and applied all over the shoe.

Spanish Pigs' Feet.

Take eight clean, fresh "trotters;" cut each into four pieces; then boil until nearly done. Take the pigs' feet out and lay to one side. Boil in the liquid one pint of tomatoes and one pound of parboiled tripe, cut fine; one small garlic, mashed fine; six potatoes sliced diamond shape, half cupful of rice, half a cupful of Indian curry. When almost done put the pigs' feet back, taking care that they are well covered with the liquid, and let it all boil until the pigs' feet are done. Be sure not to let the pigs' feet fall apart or have the sauce too thin. This is a favorite Spanish recipe.

Beef Tenderloin and Bananas.

Cut beef tenderloin into pieces, two and one-half inches thick, broil and season. Have gravy ready made as follows: One tablespoonful of butter, two tablespoonfuls of flour, one cup of milk, one-half teaspoonful of salt, one-quarter teaspoonful of pepper, one heaping tablespoonful of horseradish; boil and strain. Fry in two table-spoons of olive oil two large firm bananas cut lengthwise; be careful not to break. Pour one-quarter of a cup of sherry in and baste over bananas. Place two halves over each piece of meat on platter and pour gravy around.

Rhubarb Jelly.

Wash and cook rhubarb until tender, adding enough water to keep from burning. Strain through cheese cloth; add one cup of sugar to every cup of juice; add the juice of one lemon to every quart; boil 20 minutes.

Sardine Sandwiches.

Take one can of sardines put up in oil, mix well with fork, adding enough catsup to make bright red. Mix thoroughly and spread on thin buttered slices of bread. The mixture provides enough for one loaf of bread.

The Australian coast is unbroken by any stream for nearly 1,000 miles.

The eyelids of the average man open and shut 4,000,000 times a year.

Education turns the wild sweetbriar into the queenly rose.—Success.

A vigorous initiative and strong self-faith make up the man of power.—Success.

What men get and do not earn is often a curse instead of a blessing.—Success.

Invitation to Franklin.

Several amusing incidents in the life of Benjamin Franklin have been handed down to us, many of which exhibit his rare wit and some few indicate the humor of his contemporaries.

During the course of an extended journey, Franklin was obliged to await an unusually long time for his stage. The day was very warm and sultry and not a little dusty, but all this did not ruffle his philosophical temper. The stage at last arrived, and as the door opened Franklin was much pleased to see an old friend, whom he cordially greeted, expressing his satisfaction at having secured a traveling companion. His friend, however, whose irritation was not decreased by the closely-crowded stage and the intolerable weather, together with Franklin's hesitation on noting the already overburdened coach, perhaps unconsciously exclaimed: "Come, Ben-jam-in. We are late now."—Judge's Library.

Six Months, \$1.00

It is said that Taft is to be received at Manila as heir to the throne. The president may overdo it for his friend Bill if he is not careful.

John D. Rockefeller's income from oil alone is said to be \$21.25 a minute, and he owns other large interests as well. Sleeping or waking, working or playing, \$29,600 every twenty-four hours should compensate a man even if he has to dodge process servers.

Prohibition, or local option, is sweeping over a large portion of the southern states. All of the southern states have "dry" portions, and a number of them are practically so throughout. In Georgia it is an indictable offense to serve wine at communion. Who ever thought the "Crackers" would come to that?

Two republican congressmen of Ohio are going to make the attempt to redeem as many cities in Ohio this fall. They are Theodore Burton, who will be pitted against Tom Johnson in Cleveland, and Son-in-Law Longworth, who will wrestle with Boss Cox's machine in Cincinnati. These two propositions are supposed to be administration moves in the interest of Taft's candidacy, in order to knock the props from under Senator Foraker.

Oklahoma voted on a constitution and at the same time elected officers, one day last week. The constitution was adopted by a decisive majority, and prohibition was incorporated in the constitution by an equally strong vote. The democrats elected all the state officials by majorities ranging from 30,000 to 40,000, and also elected a large majority of the state legislature, which insures the election of two United States senators of that faith. Of the five congressmen elected, four were democrats. It now remains for the president to issue a proclamation, declaring Oklahoma a sovereign among sovereigns.

The third term proposition has some opposition, even among republicans, and the following from Congressman Hayes, of California, is very much to the point,

and is worthy of reproduction. He said: "The reason at the bottom of the strong objection, among the people of the west, at least, to a third term, is the growing power of the president of the United States. The longer he remains in office the larger the number of his appointees and the men who feel under obligation to him, and I believe that I voice the sentiment, if not of a majority of the people of the United States, at least a very large minority. We, here in California, bordering on Mexico, have an object lesson directly in point of the present condition of Mexico. Although the forms of popular government are still maintained and adhered to, Mexico is today nothing but a despotism, and it is so chiefly by reason of the continuous service of President Diaz; and for one I shall resist with all the power that I have the breaking down in any way of the anti-third-term sentiment."

The contract for subdividing township 10 south, range 11 east, lying in the Bonito-Parsons district, was let to Corbet & Smyth, and they were expected here the early part of the month to begin the survey. It now transpires that this same firm has taken the contract to survey the Scenic Route between Santa Fe and Las Vegas, and are now engaged on that proposition; so the time for their coming to this county seems to be placed in the indefinite future. A number of farmers live in this unsurveyed township, a part of them for twenty years, and well-tilled fields and fine orchards abound. Naturally, the holders are anxious to see the survey proceed in order that they may secure a title to their homes.

ARTICLES OF INCORPORATION.

TERRITORY OF NEW MEXICO,
OFFICE OF THE SECRETARY.
CERTIFICATE OF COMPARISON.
I, Nathan Jaffa, Secretary of the Territory of New Mexico, do hereby certify that there was filed for record in this office at Nine o'clock A. M., on the 19th day of September, A. D. 1907, Articles of Incorporation of
WELCH AND TITSWORTH,
(No. 5142.);
and also, that I have compared the following copy of the same, with the original thereof now on file, and declare it to be a correct transcript therefrom and of the whole thereof.
Given under my hand and the Great Seal of the Territory of New Mexico, at the City of Santa Fe, the Capital, on this 19th day of September, A. D. 1907.
NATHAN JAFFA,
Secretary of New Mexico.
N. C. FLINT,
Assistant Secretary.

CERTIFICATE OF INCORPORATION OF
WELCH AND TITSWORTH,
WITNESSETH:
That we, Eugene B. Welch of El Paso, Texas, George A. Titworth of Capitan, New Mexico, and Will Titworth of Capitan, New Mexico, all citizens of the United States, desiring to form a corporation under the laws of the Territory of New Mexico, do hereby certify:
FIRST. The name of this corporation shall be WELCH AND TITSWORTH, and the principal place in which the business of said corporation is to be transacted is Capitan, Lincoln County, New Mexico, and George A. Titworth is designated as the agent on whom process may be served.
SECOND. The objects for which this corporation is formed are:
To make contracts; to conduct a general mercantile business and do all things incident thereto; to buy, sell and traffic in goods, wares and merchandise, including livestock of all kinds, lumber and coal; to purchase, lease, bond or otherwise acquire, own, exchange, sell or otherwise dispose of, pledge, mortgage, hypothecate and deal in real estate and any and all kinds of personal property, farms, ranches and coal lands; to operate coal mines, farms and stock ranches and to do all things incident thereto, and in general to do all things necessary to the proper conduct of the business of this corporation in the Territory of New Mexico and elsewhere, not inconsistent with the laws of the United States and the Territory of New Mexico.
THIRD. The amount of capital stock of this corporation shall be Thirty Thousand Dollars, divided into Thirty Thousand Shares of the par value of one dollar each—all subscribed for by the three incorporators, as follows, to-wit:
Eugene B. Welch, 12,500 shares, \$12,500.00
George A. Titworth, 14,970 shares, \$14,970.00
Will Titworth, 2,500 shares, \$2,500.00
FOURTH. This corporation shall exist for twenty-five years.

IN WITNESS WHEREOF we have hereunto set our hands and seals this 24th day of August, A. D. 1907.

I do a general practice in all territorial, state and federal courts, including the Supreme Court of the United States. Give prompt, personal attention to business.

Leslies Found Guilty.

Robert Leslie, Sr., and Robert Leslie, Jr., were found guilty last week in the district court at Alamo, on a charge of killing Block cattle, the offence having been committed more than two years ago. At the spring term of court held in this county in 1895, a change of venue was taken to Otero county. This was the third trial, at that place, growing out of the same charge, the first trial resulting in the conviction of the oldest son, two years ago. One year ago the father was tried, and resulted in a hung jury. At this last hearing the father and younger son were tried jointly, with the above result.

It has been reported—though unconfirmed, and at this time unconfirmable—that a sentence of 20 years each was passed by the judge; but this is not credited here, as the term named seems rather exorbitant, and beyond what is usually given in such cases. However, the maximum sentence that may be imposed is five years, and we understand that the joint charge contained seven counts, which would permit of a sentence as reported, and still be far from the limit.

Thomas J. Pridemore, formerly foreman of the Block company, by whom the defendants claimed they were given authority to kill these cattle, was extradited from Mexico, and testified at this last trial. Contrary to the claims of the defense and to many others, Mr. Pridemore, when put on the stand, swore he had never given such authority, and the defense was left without hope.

The jury brought in a recommendation for clemency, and this is another reason for disbelieving the report of a twenty-year sentence.

STEVENS DOUBLE BARREL SHOTGUN.

The supremacy of Stevens Rifles has asserted itself so frequently and so impressively for generations past, that it is now universally conceded that these arms are peerless in their unerring accuracy. They are known as the "Bull's-Eye Kinu."

Of late, Stevens Double Barrel Shotguns have been making rapid strides in popular favor, being moderate in price and excellent gun value in every particular. For trap and field purposes these guns are earning an enviable name for themselves, and their low prices place them within the reach of all shooters. The Stevens are manufactured in both hammer and hammerless styles—guaranteed to give service, satis-

faction, and prove a first-rate gun investment.

If you want a good, strong, inexpensive shooter this fall, ask your local hardware or sporting goods merchant to show you a Stevens Double Gun. Persist in insisting on this time-honored make. If you cannot obtain, write to the J. Stevens Arms & Tool Co., Chicopee Falls, Mass., and they will ship direct, express prepaid, upon receipt of catalog price.

A 160 page complete illustrated catalog will be mailed to any applicant by above mentioned company, upon receipt of five cents in stamps to cover postage.

Territorial Game Laws.

It is unlawful to kill, or in any way injure, any elk, mountain sheep, beaver or ptarmigan. The offense is punishable by a fine of \$100.

The 1905 session laws protect antelope, pheasant, bob-white quail and wild pigeon for a period of five years from the passage of the act.

Native or crested quail may be killed with gun only during the months of October, November December and January.

Deer with horns may be killed with gun only from October 15 to November 30. This is an act passed by the last legislature, and it willed that the deer season has been placed 30 days later than under the old law.

Turtle doves may be killed from July 15 to May 1, the closed season being two and one-half months.

Wild turkey, mountain grouse, or prairie chicken may be killed with gun only during the months of October, November and December of each year.

The minimum fine for violation of any of these provisions is fifty dollars.

SOME REAL ESTATE BARGAINS.

THE CAPITAN NEWS

CAPITAN, - - NEW MEXICO.

A young plant is 75 per cent. water and the remainder carbon, which it has taken from the air.

Admiral Yamamoto thinks we are nice people, but he is going home through Canada instead of by way of San Francisco.

In the population of New York city there are 789,000 persons of German parentage, 735,000 of Irish, 250,000 of Russian and 223,000 of Italian.

A Florida farmer is said to have cleared \$1,200 in one acre of cabbage this spring. Perhaps he sold it for clear Havana Key West goods.

Arnold Daly says that Bernard Shaw is "intoxicated with words and delirious with ink." We thought that Arnold Daly was one of Shaw's exponents.

It has been discovered that Noah Webster wrote the dictionary with almost no assistance, but undoubtedly he had helped his wife use many of the words.

"Matrimony as a profession" is not a bad idea. And the divorce lawyers should be broken of the habit of persuading people that it is for amateurs only.

A railroad president announces that his road is out of politics and done with lobbying. Well, really, when you come to think of it, there doesn't seem to be anything left to fight for.

The Washington preacher who says that heaven is in the star Alcyone now comes forward and says that it is built up with brick houses. Hell is probably made up of three-room flats.

Peter Cooper Hewett is going to take us from New York to London in 30 hours. When a boat of that sort runs into an iceberg the monster of the deep will know that something hit it.

The Maryland farmer who discovered that his hired man was the head of a large business concern in Philadelphia was not necessarily surprised. Hired men have such a way of knowing how the universe should be run that the average man who comes in contact with them often wonders if they are not captains of industry out for a quiet vacation.

In a railroad collision a congressman turned a double back somersault over two seats and escaped without serious injury. A little thing like a railroad smash-up is no embarrassment to many acrobats who are accustomed to adjusting themselves to the sudden and violent changes that are constantly occurring in congressional districts.

Charles Dudley Warner advised every one to be born "in a little red farm house with a stone wall around it." We are not particularly tenacious about the stone wall, and we enter a decided exception to the color of the house, but we indorse the sentiment. The records show that farmers' sons are those most likely to succeed in business and professional life. Health, vigor, self-reliance, ambition and the habit of work give them their advantages in the race for success.

Money orders to the enormous amount of 446,000,000 were issued by the New York post office last year. Three millions of this amount went abroad, mainly sent by immigrants to their families. As money orders are commonly for comparatively small sums as compared to traffic through banks, this total shows the wide dissemination of prosperity. It is not, after all, remarks the Indianapolis News, the few great fortunes of which we hear so much that form the wealth of the country.

THE NEW YORK LIFE'S PROGRAM.

Economy, Publicity and the Paramount Interest of Policyholders.

President Kingsley, of the New York Life Insurance Company, says, in an address to the policyholders, that his plan of administration involves these points:

"First: Strict economy; second, the widest, fairest and fullest publicity; third, the continuance of the New York Life as a world-wide institution; fourth, such an amount of new business under the law as we can secure while practicing intelligent economy, and enforcing the idea that the interest of the policy-holder is paramount."

Always in the Way.

Recently a country doctor in the north of Ireland, a bachelor, who was locally noted for his brusqueness and irascibility, was driving along a narrow lane, or "boreen," when his passage was effectually barred by an old woman, who was returning from the bog leading an ass whose panniers were filled with peats. The woman led the ass to the side of the lane as quickly as she could, but not quickly enough to please the short-tempered doctor. "Faugh!" he exclaimed, with a snort of disgust. "Women and asses are always in the way." "I'm glad ye have the manners to put yourself last," said the old woman, calmly. The doctor drove on without another word.

Long Time to Sweep.

Everything, even a magnificent church, must be regarded from the point of view of the beholder. A London paper says that two country girls, who acted as if they might be enjoying a holiday from domestic service, were observed walking down the aisles of St. Paul's Cathedral. Under the great dome one of them stood and gazed around her with an air of such wonder that a spectator might well suppose that she was awestruck by her solemn surroundings. But when she spoke, the idea was dissipated. "Oh, Sarah," she exclaimed, "wouldn't this place take a long time to sweep?"

SOAKED IN COFFEE

Until Too Stiff to Bend Over.

"When I drank coffee I often had sick headaches, nervousness and biliousness much of the time, but when I went to visit a friend I got in the habit of drinking Postum.

"I gave up coffee entirely and the result has been that I have been entirely relieved of all my stomach and nervous trouble.

"My mother was just the same way. We all drink Postum now, and without coffee in the house for 2 years, we are all well.

"A neighbor of mine, a great coffee drinker, was troubled with pains in her side for years and was an invalid. She was not able to do her work and could not even mend clothes or do anything at all where she would have to bend forward. If she tried to do a little hard work she would get such pains that she would have to lie down for the rest of the day.

"At last I persuaded her to stop drinking coffee and try Postum Food Coffee and she did so and has used Postum ever since; the result has been that she can now do her work, can sit for a whole day and mend and can sew on the machine and she never feels the least bit of pain in her side, in fact, she has got well and it shows coffee was the cause of the whole trouble.

"I could also tell you about several other neighbors who have been cured by quitting coffee and using Postum in its place." "There's a Reason." Look in pkg. for the famous little book, "The Road to Wellville."

PEOPLE TALKED ABOUT

ATHLETE IN CHARGE

George W. Woodruff, who has been named by President Roosevelt as acting secretary of the interior during the absence of Secretary Garfield, is one of the best-known authorities on outdoor games in the country, an all around athlete with a number of splendid records to his credit and developed the Pennsylvania university and Carlisle Indian football elevens.

His was the unusual record of having been for his entire four years a member of the football eleven, the track and field teams and the varsity crew. He captained the crew of 1889.

After finishing his classical course at Yale, Mr. Woodruff went to the University of Pennsylvania to study law, and it was here that he made his reputation as one of the foremost football

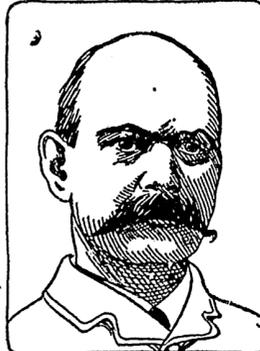

tacticians of his day.

When Mr. Woodruff left college a fighter was wanted in the forest service as law officer, and Mr. Woodruff got the appointment, becoming chief aid to Gifford Pinchot, the government forester. He did yeoman service in organizing the national forest reserve policy, and his industry and ability especially commended itself to the president, who soon discovered that the energetic, restless, planning, hustling attorney was a man of much his own mold.

The acting secretary of the interior is about the same age as Mr. Roosevelt and is not unlike the president in appearance. The shape of the faces, with the prominent teeth, the mustache and the expression of restless energy are not unlike.

Mr. Woodruff is one of five assistants to the attorney general, and is connected with the department of justice, though his assignment is to give advice to the department of the interior in matters where legal points are raised.

GOTHAM CITY CHAMBERLAIN

James J. Martin, the newly-appointed city chamberlain of New York, who is expected to join Mayor McClellan in his fight to oust Charles F. Murphy from the leadership of Tammany Hall, is one of the most powerful district leaders in the metropolis. He is pointed out as the "last of the old school of politicians," and he says he is proud of the distinction. The notion that the successful politician of the present day is the man who can shake hands, smile sweetly and promise without either fulfilling or offending is scorned by Mr. Martin.

"Politicians should stick more to the truth," says he. "I did it, and I know that it pays. Now and then it creates a little friction for a short time, but it disappears. You can never hold the

support of a man to whom you lie, nor can you keep as your friend a man to whom you make promises that you do not keep. My policy always was to tell a man straight off whether I could do a thing or not. If I said I would, I did, and I got along all right."

Mr. Martin was born in Ireland and came to this country a babe in arms. At the age of 11 years he went to work as an office boy for a lawyer. In 1862, in company with several other boys, he ran away from home and enlisted in the Ninth New York volunteers. He served on the field for a year and then was made head of the clerical force with Gen. Dix. He continued in this office until the end of the war.

JAPAN'S FOREMOST DIPLOMAT

Viscount Hayashi, minister of foreign affairs in the Japanese cabinet, who recently went to Seoul, the Korean capital, in the interests of his country, which is hopeful that the emperor will abdicate the throne as requested by the premier, is a man much feared by those who would have the present government continue. After the emperor had refused to relinquish his power Japan lost no time in sending Hayashi to the scene and the news of his arrival spread dismay about the palace.

The circumstances leading up to the selection of Hayashi for the important office he now holds are interesting. Marquis Satonji, the prime minister, in reorganizing his cabinet, gave the portfolio of foreign affairs to Takaaki Kato, formerly minister to England. After holding the office only a few days Mr. Kato suddenly resigned, it is said, for reasons never made public. Thereupon Ambassador Hayashi, then at the court of St. James, received an unexpected call to return to Japan and he was placed in the cabinet.

Viscount Hayashi is only 57 years of age, having been born in 1850 in Sakura, a little town near Tokio. His father was a prominent scholar and physician and the son was given a careful education in law and languages. His ability was early recognized and while yet very young he was sent to England to familiarize himself with Anglo-Saxon civilization. In 1891 he was appointed vice minister and began his diplomatic life. As soon as the war with China was over he was sent as minister to China and his success at this post was brilliant. His chief achievement was the commercial treaty between China and Japan which was negotiated and signed by him in 1896. It was he, too, who signed the final revision of the British alliance treaty. He was created viscount for bringing about this treaty.

HORTICULTURE

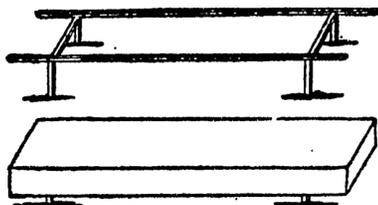

NEWLY SET PLANTS.

Convenient Frame for Their Protection From Sun.

Newly transplanted plants always demand more or less protection from the blighting effects of too much sun and wind. It is best achieved by making a shelter such as is shown in the cut.

Two ten-foot poles and two three-foot pieces of any convenient thickness for the crosspieces, with four 14-inch weatherstrips for the legs, constitute the frame. In the middle of it two hooks should be inserted on each side, and upon these the covering fastened, which can thus be adjusted very quickly. The covering may consist of burlaps or any kind of rough sacking.

Being so simple and economical to make, it is advisable to have enough frames to protect the number of tender plants that are set out in a garden at one time, says Farm and Home. They possess other advantages than sheltering the young things from the

Frames to Protect Small Plants.

direct rays of the sun. They allow slow evaporation, and so keep newly watered ground moist for hours, whereas if exposed to the sun and wind it would soon become dry and caked. On windy days it is necessary to let the sacking down on the windward side of the shelter. In case of frost the protection that they afford is of inestimable value.

CLEAN CREAMERIES.

There Are a Few of Them But Many Are Dirty.

Some time ago I had the pleasure of taking a trip to visit a number of creameries in the county in which I live. As a result of that visit I came to the conclusion that there are many very dirty creameries and also many very clean ones. I could but wish that the people that buy the butter and buttermilk from the two kinds of creameries knew the difference between them, says a writer in Farmers' Review. If they did I am sure that the dirty creameries would all shut their doors and go out of business, while the other creameries would have all the business. If we could get a publicity of that kind it would be a powerful lever for lifting up the quality of our butter and other dairy products.

The dirty creameries were, wide open to the flies and dust. Old milk and dirt were spattered all over the floor. The churns smelled strong, and some of the utensils smelled as if they had not been thoroughly washed out for a long time. The clean creameries had cement floors, and the doors and windows were all screened. The utensils all smelled as clean as if bran new. It is a pleasure to think of eating butter coming from such creameries.

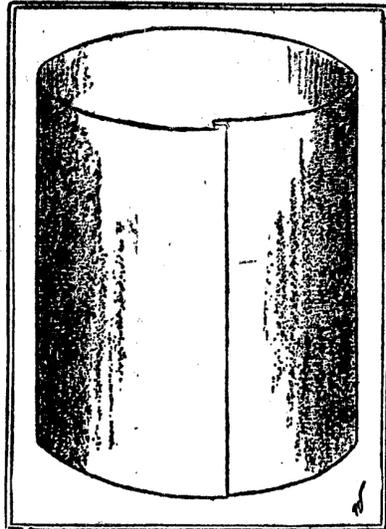

Improving.

It used to be thought that the cow which could give a pound of butter fat per day was an excellent animal. Last year, however, there were no less than 20 cows which averaged nearly two pounds of butter fat for every one of the 365 days.

A TRANSPLANTING DEVICE.

It Will Do the Work Rapidly and Well.

Bend a piece of tin or steel metal in form of a tube open along the side. A baking powder can, with bottom off and end seam unsoldered, will do for large plants. Thrust it into the soil, around the plant, press together to

The Tube.

hold the inclosed soil, and the plant and earth can be readily lifted and transferred to the pot or prepared hole in the garden. Loosen the pressure on the tube and it may be readily withdrawn, leaving plant and roots very slightly disturbed.

POINTS FOR FRUIT GROWERS.

The time put into the work of beautifying the country home is profitably spent.

Every shade tree properly placed on the farmstead adds to the value of the farm, and it adds to the beauty of the farm home.

If the horticulturist can find a way of keeping blight from pear trees, as they now appear likely to do, the markets will be filled with pears of high quality.

Water spouts on old trees should not always be removed. Often the tree needs some of them to help elaborate new material for wood building.

The soil of the orchard needs management just as surely as does the soil of the field in which vegetables are growing. It needs to be kept supplied with the elements of plant food.

Growth of Spruce Forests.

Some measurements made in the forests of Sweden showed that the trees were making a growth of a little less than two per cent a year. This is a good growth for a tree to make after it has attained a good size, but is rather small while the tree is small. It is evident that the young trees must make a much faster growth than this. The report summarized does not tell us how large the trees in the measured forests were at that time, which is a very important factor in the figuring of percentages.

Work the Soil.

Depth and fertility being obtained, there are several other things to be considered in gardening. The soil must be worked frequently, beginning as soon after the sowing of the seeds as the young plants can be seen and saved. The frequent working of the soil not only continues it in good condition for the growing crop, but keeps ahead of the weeds.

Grape Diseases.

Four principal diseases attack the grape. They are, the black rot, the downy mildew, and anthracnose. The remedy for all is the same—spraying every two weeks with Bordeaux mixture from the time the buds swell in the spring till the grapes begin to ripen.

TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order

it causes backache, headaches, dizziness languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S.A. Moore, proprietor of a restaurant at Water-ville, Mo., says: "Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

THE PARABLE HE LIKED.

Darky Would Have Had Trouble Picking It from Sacred Book.

An old darky, anxious to be a minister, went to be ordained. He was questioned thus: "Can you write?" "No, sah!" "Read?" "No, sah!" How do you know about the Bible?" "Ma niece reads it to me!" "Know about the Ten commandments?" "No, sah!" "The Twenty-third Psalm?" "Nebber heard of him, sah!" "Know the Beatitudes?" "No, sah!" "Well, what part of the Bible do you like best?" "Par'bles, sah!" "Can you give us one?" "'Deed, yes, sah!" "Let us have it, then." "Once w'en the queen of Sheba was gwine down to Jerusalem she fell among thieves. First they passed her by on de oddah side den dey come ovah an' dey say unto her, 'Fro down Jezebel!' but she wouldn't fro her down; and again dey say unto her, 'Fro down Jezebel!' but she wouldn't fro her down; and again dey say unto her for de fird and last time, for I ain't gwine to ax yo no mo', 'Fro down Jezebel!' and dey fro'd her down for 70 times and 7, till de remains were 'leven baskets; and I say unto yo', whose wife was she at de resurrection?"—Bystander.

FEARFUL BURNING SORES.

Boy in Misery 12 Years—Eczema in Rough Scales, Itching and Inflamed—Cured by Cuticura.

"Cuticura has put a stop to twelve years of misery I passed with my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. During the day it would get rough and form like scales. At night it would be cracked, inflamed and badly swollen, with terrible burning and itching. One doctor told me that my son's eczema was incurable, and gave it up. I decided to give Cuticura a trial. When I had used the first box of Cuticura Ointment there was a great improvement, and by the time I had used the second set of Cuticura Remedies my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

Of Course.

"What makes you so absent minded?"

"Well, I stopped to think one day—"

"Yes?"

"And my thoughts ran on and on—"

"Well?"

"And I haven't caught up with 'em yet."—Cleveland Leader.

Remember, young man, if you are not satisfied with your job, the chances are that the boss will not refuse to accept your resignation.

McKINLEY MONUMENT

To Be Dedicated in Buffalo Sept. 5. Former Residents Invited.

The beautiful white marble shaft erected by the state of New York in Niagara Square, Buffalo, N. Y., to the memory of President McKinley, is to be formally dedicated Thursday, Sept. 5, and the event will be the central feature of Buffalo's Old Home Week, Sept. 1 to 7. Former residents of Buffalo and the public at large are cordially invited to attend the dedication.

The McKinley monument was planned and executed under the direction of a commission of prominent men, at a cost of \$150,000. Gov. Charles E. Hughes, with his military staff, will take part in the ceremonies and President Roosevelt and former President Grover Cleveland have been invited to attend and speak. Military parades will be a feature of the occasion.

She Understood.

"What makes you think that Timmins is ideally married?"

"Because one day when he invited me to dinner and we were late she merely asked whether the home team won."

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of *Chas. H. Fletcher*
In Use For Over 30 Years.
The Kind You Have Always Bought.

If a man occasionally tells a woman how pretty she looks she will forgive most of the other lies he tells her.

WINCHESTER

Shotgun Shells

"Leader" and "Repeater" and Repeating Shotguns

make a killing combination for field, fowl or trap shooting. No smokeless powder shells enjoy such a reputation for uniformity of loading and strong shooting qualities as "Leader" and "Repeater" brands do, and no shotgun made shoots harder or better than the Winchester.

THEY ARE MADE FOR EACH OTHER
