## A MOSES WITH MONEY WANTED.

The political situation in New Mexico has undergone a kaleidoscopic change. The positive declination of Hon. Solomon Luna to accept a nomination from the republicans has mixed things up. It was confidently believed that the profits from the wool crop of the Valencia county man would be on tap in the congressional contest. But the shrewdness that has brought prosperity to the Luna family led the sheep magnate to stay out of the contest in which he was expected to carry his party in a financial way. There is sadness in the counties where republican harpies were standing with itching palms. There is sighing in the sycophantic circles of Santa Fe and wailing in the streets of Albuquerque. A gloom hangs over the strikers of San Miguel. Woe, sad-eyed, sombre woe, darkens the face of New Mexico's republican plotters, and they know not whence to turn for a Moses with money.—El Paso Daily News.

Peculiar condition of affairs is the custom of a large district in southern Brazil, where Spaniards settling in the country held to the Spanish language through pride of race, and married Guarany women who continue to speak their own language. All business is transacted in Spanish while the household lingo is that of the native people.

### DEMOCRATIC TERRITORIAL CONVENTION AT SANTA FE.

Headquarters, Democratic Territorial Central Committee, Santa Fe, N. M., Aug. 18, 1900.

By direction of the Democratic Territorial Central Committee of New Mexico, a Democratic Territorial Delegate Convention is hereby called to be held in the city of Santa Fe, New Mexico, on Thursday, the 4th day of October, 1900, at 2 o'clock p. m. on said day, for the purpose of nominating a candidate for Delegate to the 57th Congress of the United States, and such other business as may come before the convention.

The following is the representation to which each county is entitled in said convention:

| | |
|---|---|
| Bernalillo | 21 |
| Chaves | 4 |
| Colfax | 12 |
| Dona Ana | 10 |
| Eddy | 3 |
| Grant | 12 |

| Lincoln | 6 |
| Moro | 11 |
| Otero | 6 |

| Santa Fe | 12 |
| Sierra | 5 |
| Socorro | 11 |
| Taos | 10 |
| Union | 5 |
| Valencia | 1 |

All Democratic, conservative reform forces, and all citizens of New Mexico who believe in the principles enunciated in the Democratic National Platform adopted by the Democratic National Convention held at Kansas City on July the 4th, 1900, are cordially invited to participate in the election of delegates to said Convention.

CHARLES F. EASLEY, Chairman.
A. B. RENEHAN, Secretary.

There are 400 medical officers in the Philipines on a salary of $1,800 a year.

## HOW MANY REPRESENTATIVES IN 1903

This is a question that must soon confront the voters of this country. The World is the first newspaper to call attention to what the ratio of representation is likely to be under the increase of population as shown by this year's census enumeration. In the course of an article on this question that paper says:

Shall the people of the United States increase the number of their representatives in the lower house of congress? Or shall they leave the number unchanged by increasing the number of inhabitants which each congressman shall represent? If the former method is adopted the census will increase the membership from the present 357 to about 430 on the present basis of one representative to every 174,000 inhabitants. If the latter method is adopted, then each member will represent about 210,000 people.

In opposition to the increase of the number of members it is urged that the present house is unwieldy being crowded, noisy and almost unmanageable by the speaker. In favor of the increase it is urged that objections as to crowding and noise are of little weight in comparison with the advantages of giving the people adequate representation, and that the chief feature of the unmanageability of a larger House would be the inability of the bosses and lobbyists to deal so successfully with a larger number; the more individuality, the more honesty, the closer scrutiny by the people, the greater difficulties in the way of machines both at Washington and in the districts.

We started in 1789 with one representative to every 30,000. This steadily increased until it had more than doubled in 1840 and had quadrupled by 1860. Now one congressman represents nearly six times the number of people that he did in 1789, and if the number of representatives is not increased he will represent in 1903 and for ten years thereafter seven times as many people as he did when the republic began.

Here is a table showing how the great powers that have more or less popular governments divide the representation among the people:

| | No. representatives | No. people to each representative |
|---|---|---|
| U. S. | 357 | 174,000 |
| Britain | 670 | 57,000 |
| France | 584 | 67,000 |
| Germany | 522 | 100,000 |
| Italy | 508 | 57,000 |

Thus we find that of the popular branches of the great legislative bodies of the world that of the United States is the least popular at the present time. If the basis of representation were increased to 210,000, a representative in the congress would speak and vote for nearly four times as many people as does a member of the house of commons or of the Italian chamber of deputies, three times as many people as does a member of France's chamber of deputies, twice as many as does a member of the reichstag.

In this change in the apportionment is one of the most important problems that will come before the congress that is to be elected on Nov. 6. Yet how little is being said about it! Here is another instance of great domestic problems swallowed up in excitements about foreign questions.

Arthur Sewell, Bryan's running mate in 1896, died at his home in Maine, the 5th inst.

### "THE LABORER IS WORTHY OF HIS HIRE."

Why should the man who eats at a well supplied table forget the man whose toil furnishes the food? Why should the man who warms himself by the fire forget the man whose labor in forest or in mine brings forth the fuel? Why should the man clad in the best products of the loom forget the man whose calloused hands make fine clothing possible?

Shall the rosebud, blooming in beauty and shedding its fragrance on the air, despise the roots of the bush because they come in actual contact with the soil? Destroy the bud and leave the roots and a second bud will appear, as beautiful and as fragrant as the first; but destroy the roots, and bud and bush will perish.—WILLIAM J. BRYAN.

Ex-Postmaster General Wilson, of the Cleveland cabinet, who supported the gold democratic candidates in 1896, has announced himself for the peerless leader of the democracy of this nation—W. J. Bryan. Cleveland has even admitted he, the Great Grover, is not the whole cheese, and that a great political crisis seems to be taking hold of this government. He fears the republican tendency to imperialism and militaryism and is about converted to the doctrine of the perpetuation of the republic, as represented by Bryan.

The results of the state election in Vermont show great democratic gains. About 75 members of the state legislature will be democrats, where only 17 were elected in 1896. The democratic gain is about 30 per cent. A gain of 15 per cent over the whole country will elect Bryan by a good safe majority, and if the old rock-ribbed republican state of Vermont can be taken as an index, his election is a fore-gone conclusion. The country seems to be tired of Mark Hanna's republicanism already.

Some of the greatest republican statesmen of this country are refuting the mad assertion made by partisans of their party that Bryan is a demagogue, and many of them who hold the public welfare of the nation above the dangerous exemplification of imperialism by the republican administration will vote the democratic ticket.

### TERRITORIAL POLITICS.

Three months ago the republicans of this territory had Simon pure and inexhaustible material for candidates for delegate to congress. But now a delima of nightmare has struck the belled wethers, and visions of defeat are hanging over the party like clouds hang over the wreck of a foundered vessel on a storm-ridden coast. The republicans are up against it this time so hard that even a sheep herder can see that republican wool commands no better prices, and that McKinley prosperity must be viewed through the glasses of a trust or corporation before its beneficent effects are even visible. What is a small advance in the price of wool as compared to the continual advance in the cost of every conceivable thing that it will purchase? The under dog is learning by experience what the politician has failed to teach him, and while there won't be any opening of the Red sea and walking through on dry land in the political magnitude of New Mexico politics this fall, there will be a parting of the ways, as it were, of the voter and the republican politician that will make the latter feel like he has been Robinson Crusoed by his own party.

The republican party in New Mexico is confronted by an abused constituency who demand the retro-relegation of the little crowd of politicians who have appropriated public office to their personal aggrandizement—Johnnie's coal oil job for example—or a change of venue will be taken at the November election and these little ringed-tailed representatives of nothing in general and of what they can get out of it in particular, will be tried on their merits and returned to the private walks of life, pending a political regeneration by faith and conviction in the justice to the people of rightfully representing their interests as a constituent element of a republican form of government. It is the implied conviction of the Otero crowd now tenants of the people's suffrage in this territory, that they are the territorial government themselves, and that the people whom they so faithfully misrepresent are only a dum dum set of so many polls, fit only to be used as a supplement to aid in the accomplishment of the extravagant personal designs they have so formidably drawn for the perpetuation of their own patronage at the public crib.

As stated above, the past two years of republican control has taught the conservative supporters of the republican party a lesson, and the push will be asked to get out. If they do not the only tangible way of divorcing them from their idols will be to vote with the democrats, which now seems the only way of escaping another term of the thunder of Gillie and his coal oil Johns who at present infest the territorial capital.

### DRIFT FENCES.

Hon. G. A. Richardson, of Roswell, received last week the following telegram from Washington; "The secretary of the interior, at my request, has directed the commissioner of the general land office to suspend all action looking to the removal of the drift fences, and to report fully his reasons for interfering with them. The secretary will decide all questions himself, after hearing us fully, the date of hearing to be fixed in the future, of which I will advise you.—Duane E. Fox.

The New Mexico mineral exhibit at the Paris exposition ranked third, Colorado and California leading. Third in the United States is pretty good for New Mexico when we consider that the mining industry has just begun actively in the territory during the last decade. Ten years more will place her alongside California and Colorado.

### OLNEY'S ARRAIGNMENT OF WILLIAM McKINLEY.

Mr. Olney accuses Mr. McKinley of being weak in the hands of those about him and bunches the features of "McKinleyism," saying the election of McKinley would mean:

"That the American people sanction a syndicated presidency—a presidency got for the republican party by the money of a combination of capitalists intent upon securing national legislation in aid of their particular interests.

"That the Americans approve the legislation thus obtained and justify such legislation as the Dingley tariff bill, with all its devices for taxing consnmers and wage-earners—that is, the great mass of people—in exoneration of accumulated wealth.

"That the American people uphold the policy of greed and contempt for alien peoples whose retributive consequences are seen in recent events in China; approve our joining the ranks of international land-grabbers and sanction the rapacity as well as folly by which, while pretending to buy, we, in fact, forcibly expelled Spain from her Philippine possessions, and, without excuse either in the demands of national honor, or in consideration of national interests, have saddled ourselves with the gravest responsibilities of some eight or ten millions of savage or at least half civilized brown people of the tropics.

"That the American people approve the tactless and brutal policy pursued since the aquisition of the Philippines was made, whereby what was pressed upon the country as a treaty of peace was in fact but the signal for another more costly, bloody and prolonged war."

In this vein Mr. Olney treats every feature of the Cuban, Porto Rican, Philippine and Chinese questions.

He strongly condemns Mr. McKinley's "wishy-washiness," and says his disregard for civil service reform is "a scandal as notorious as it is indefensible."

### THE CITY OF GALVESTON ANNIHILATED BY STORM.

A gulf storm occurred on the Texas coast last Saturday, which entirely submerged the Island of Galveston and hundreds and probably thousands of lives were lost in the wreckage and ruin of the Island City. The property loss is estimated to be ten millions of dollars.

A scene of desolation similar to the ruin and despair at Galveston also prevails at many inland Texas towns in the path of the same storm, and the deplorable condition of the people is almost beyond the bounds of human imagination.

Railroads, bridges, telegraph lines, etc. are swept away. Eight big steam ships in Galveston harbor are total wrecks heaped in masses of utter ruin.

Most of the streets of Galveston are under water, and the dead bodies of the drowned are strewn thickly among the floating debris, is the way a dispatch to El Paso Daily News depicts the horrifying condition of the ruined city after the storm.

Should the people of White Oaks who have always responded so promptly to every call of charity, desire to contribute to the relief fund for these destitute storm sufferers, contributions sent the El Paso Daily News will be forwarded immediately to these suffering and homeless thousands, or if preferred remittances may be handed to the Eagle and this paper will send same to the News the receipt of which will be promptly acknowledged by that publication.

Olney and Wilson have declared for Bryan; Grover is convicted and is expected to soon make public his contession of faith.

### TWELVE HUNDRED CONVERTS FOR BRYAN.

Jas. Creelman in the St. Louis Republic says:

"It is not alone distinguished republican leaders like Senator Wellington, former Governor Boutelle and General Henderson who have openly repudiated and denounced President McKinley for his weakness and false interpretation of the American spirit; not alone gold democrats like Carl Schurz and Bourke Cockran and members of Mr. Cleveland's cabinet like Richard Olney, Judge Harmon, Hoke Smith, Wilson S. Bissell and William L. Wilson who are now supporting Mr. Bryan in his patriotic effort to save the nation from the McKinley Hanna blight, but here in West Virginia, in Kanawa county, 1,200 persons who voted for McKinley in '96 have signed affidavits binding themselves jointly to vote for Bryan this year."

Since West Virginia republicans are stampeding for Bryan, is it any wonder that the Hon. Steve Elkins has declined to be a candidate for re-election to the senate from that hitherto republican state.

### A RICH GOLD STRIKE AT JACKS PEAK.

Frank I. Marsh is at Hotel Lesnet from Jack's Peak, where he is engaged in the development of a new gold discovery. Mr. Marsh has quite a body of rich gold ore in sight, and has returns from assays of ore, brought in with him, of something over $50 per ton. So far as opened, a well defined lead is visible and the indications are that the property will make a producing mine with development.

The Compromise strike last week and the Jack Peak find this week, are causing quite a stimulus, which will result in other properties being opened in this district.

A half dozen producing mines in operation, with the new finds, during the past two months, with the consequent prospecting stimulus, is putting money in circulation here and causing our business men to hustle into the eastern markets for merchandise to supply the trade necessities. White Oaks and her surrounding communities are enjoying a good healthy business improvement, and it is resulting from such conditions as insure its permanency.

I will do my whole duty if in the performance of that duty I find it necessary not only to oppose the re-election of President McKinley, but to emphasize that position by supporting his antagonist who in this election stands for free government according to the Constitution.—Senator Wellington.

Chas. F. Easley, of Santa Fe, who went to Detroit to attend the meeting of the supreme lodge of the Knights of Pythias as the representative of the grand lodge of New Mexico, was elected supreme grand prelate of the order.

The campaign in Wisconsin is wide open, and there are Bryan democrats up there, too.

The question as to where we are at in China is a mixed proposition.

Croker is betting heavily on the national democratic ticket.

## OF LOCAL INTEREST.

The foundation to Mrs. Grumbles's house is about completed.

A new barber shop will open this week in the Stewart building.

The White Oaks public schools open the 24th. A very large attendance is expected.

Ralph Galucia, son of a merchant at Nogal, died at that place Monday of typhoid fever.

A wreck on the E. P. & N. E. between Carrizozo and Capitan, delayed the mail yesterday.

Bishop Morrison, of Louisville, Ky., preached an able sermon at the Methodist church Sunday.

Rev. L. L. Gladney has been assigned to this charge of the Methodist church the coming year.

E. Hieniman has returned from Kansas City to find himself one of the owners of the richest prospect in this section of New Mexico.

T. A. Griffin, of Capitan, is here looking for a residence location for his family. He intends to send his children to the White Oaks public schools.

Oscura is getting to be a lively camp, and copper shipments are going to the El Paso smelters from there every week. The recent discoveries are running about $50 per ton in copper.

A Schinzing and Chas. Spence have traded residence properties this week. A number of real estate sales have taken place here recently, but this is the first house trade the EAGLE has witnessed.

Capitan is going to celebrate Mexican Independence day, on the 15th and 16th instants, with a program of elaborate ceremonies. D. H. Lueras has taken the initiative in the preparations for same.

Mr. Caldwell, who settled a ranch in the Patos country a short time ago, reports excellent grass in that vicinity, and he thinks that an abundance of water may be had at a reasonable depth. He is sinking a well on his residence site now.

Drs. Lane and Paden made a professional visit to Nogal Monday. They were called to see Ralph Galucia, who was found to be past medical aid on their arrival there. Galucia died of typhoid fever, which resulted from drinking water off giant powder.

John Owen has been engaged for two weeks putting the streets in good condition. White Oaks avenue looks like it had been turned over a dozen times, with additional improvement every turn. The sidewalks have been graded up and cinders laid to a depth of two or three inches over the soil.

The Methodist annual conference of a week's duration has just closed here. The conference has been a treat to the church-going people of White Oaks, as some of the ablest commentaries on the plan of salvation before listened to have been delivered here during the time by different able ministers.

Miss Daisie Nabours and her younger sisters will occupy the residence of Mrs. Clara Edney during the school term beginning Monday, the 24th instant. Miss Daisie has been employed in the primary department of the public school and her sisters will matriculate here instead of going to Las Cruces, where they have attended school during the past two years.

The Taliaferro Mercantile & Trading Co. has an immense stock of general merchandise en route here. The up-stairs of the Taliaferro building is being fitted up for the reception of the additional stock they intend to carry. This will, when in operation, be the largest mercantile house in southern New Mexico. White Oaks is coming to the front.

The school board received a telegram from Prof. E. S. Coombs yesterday stating that it will be impossible for him to arrive here before Sept. 24th, on which date the public school will open, instead of on the 17th.

Col. G. W. Stoneroad called at this office Tuesday, from Jicarilla, and reports that he has a quarry of excellent black marble which he intends to open as soon as the railroad gets nearer his property.

B. R. Robinson, of Bonito, is in the city with vegetables from his Bonito farm. He paid this office one of those frindly calls that resulted in the renewal of his subscription to the EAGLE for another year.

### JICARILLA PLACERS.

A dispatch from Jicarilla this morning from the EAGLE's regular correspondent states that W. M. Lane, in charge of the American Placer Co's. big well machine, has greatly increased the quantity of water in the company's well, which is now producing more than a thousand gallons per day.

### THE NEW YORK WORLD THRICE-A-WEEK EDITION.

**As good to You as a Daily and You Get It at the Price of a Weekly.**

It furnishes more at the price than any other newspaper published in America. Its news service covers all the globe and is equaled by that of few dailies. Its reports from the Boer war have not been excelled in thoroughness and promptness and with the presidential campaign now in progress it will be invaluable. Its political news is absolutely impartial. This fact makes it of especial value to you at this time.

If you want to watch every move of the great political campaign take the Thrice-a-Week World. If you want to keep your eye on the Trusts—and they need watching—take the Thrice-a-Week World. If you want to know all foreign developments, take the Thrice-a-Week World.

The Thrice-a-Week World's regular subscription price is only $1.00 per year.

We offer this unequaled newspaper and the WHITE OAKS EAGLE together one year for $2.00.

The regular subscription price the two papers is $2.50.

### The Great Presidential Campaign of 1900.

The wars of America have, heretofore, settled affairs of state. Great questions of policy, of national motives and national conclusions have been answered as soon as the battle smoke cleared away, and the victor realized his victory. The war with Spain is unlike its predecessors. It has not answered questions, but has created problems which may not be solved lightly. These problems are being formulated by the political parties, and before they can be definitely settled at the ballot box it is necessary that the people be informed in regard to the situation. The result of the campaign of 1900 will make a broad mark upon the page of history; it will doubtless establish the policy of the great Republic of America for a quarter of a century. It is vastly important, therefore, that every citizen shall study the situation through that best of mediums, a great newspaper. The Semi Weekly Republic which affords a comprehensive view of political situation in all its bearings. It publishes the new news. The Semi Weekly Republic is a Democratic paper, but it offers to its readers the news regarding all the political parties, and this without prejudice. It is a fair newspaper. Its telegraph and cable news service has been proved to be the very best employed by a modern paper. Its special features are unsurpassed. It is the newspaper for the reader who has not access to a daily paper.

News features, art, and literature combine to make the Republic's Sunday Magazine a specially attractive weekly magazine. The half-tone illustrations printed in this magazine surpass anything ever attempted by a newspaper. These products of photography are worth the price of the paper. Special articles by trained writers on the news and the subjects engaging the public attention are prepared for the Republic's Sunday Magazine. A distinctly useful and attractive feature of this magazine is the fashion department. Always reliable and up with the times, the ladies find the fashion page a delight. Indeed, The Republic's Sunday Magazine appeals to every member of the family.

The subscription price of the Semi-Weekly Republic is $1.00 per year. The Republic Sunday Magazine $1.25 per year. Both papers are now being offered at the very low price of $1.50 for one year. To secure this low rate both must be ordered and paid for at the same time.

Address all orders to THE REPUBLIC, St. Louis, Mo.
