EL PASO ROCK ISLAND CONSTRUCTION HAS BEGUN.

The much talked of El Paso and Rock Island extension has at last actually begun. Surveys on the Rock Island end have been completed and contractors have been throwing dirt for a week past. Work is now under way at the yards at Carrizozo, and grade stakes are being set on the main line and the work vigorously pushed in every department.

Chief Engineer Sumner says that the road will be built as fast as money, men and materials can do it, and that the entire work should be completed in less than a year.

White Oaks while not right on the main line will be greatly benefitted by the extension, and will have a freight and passenger depot on the line of extension at some point near Manchester, which will put us in about 5 miles or possibly within 3½ miles of the road. We will also be the first mining camp on the line from Liberal, Kansas, and will be in position to command the attention of capital, looking for mining investment. Six to ten hours will put passengers in here from Liberal and Kansas City and give us quick communication with the northeast.

Our mining interests are continually looking up and more capital is being expended here now than at any time during the camp's history. The South Homestake company is getting stamp mill in shape to begin milling its ores, and all arrangements have been completed by the Lady Godiva people to build a mill for that property; also the Compromise company is making tests of ore to determine what kind of machinery is to be used in its treatment.

All these new enterprises, with the Old Abe which still leads in gold production any other property in the territory, insures a prosperous year for White Oaks, and will as certainly result in the launching of other enterprises, during the year. A demand is going to come for our coal, building stone, marble, iron, fire clay, and the owners of copper in the Lone Mountain district will be in easy reach of transportation.

The Gallina and Jicarilla districts will also be scenes of much mining activity because of their newly acquired rail road advantages, and shipments will begin from both places as soon as the road is ready to receive their business.

Cut this out and take it to Dr. Paden's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

The deputy P. M. is kept busy answering questions, such as "No mail yet, eh?"

Blanchard says he wants to know something about pyrites of indications. He never saw any mineral like it before. There is a chance for some learned geologist.

Lieut. D. H. Clark, quartermaster, and Will Dowlin, post-trader at Fort Stanton, stopped in town last Thursday night. Come again, gentlemen; we are always glad to see you.

J. A. LaRue, of Lincoln, and M. Brunswick, of Las Vegas, owners in the Homestake, and Richard Dunn, of Las Vegas, were in town on a visit to the Homestake this week.

Feb. 17, 1881.

Mud!

The town is full of strangers.

Joseph Biggs, brother-in-law of Dr. A. G. Lane, and family arrived last Sunday.

Ex-Sheriff Kimbrell, Lawyer Clements and Judge Wilson were over from Lincoln last wee...

Baxter mountain on the new White Oaks map looks like the northwest end of a small sized centipede.

Wilson's South Homestake sold to St. Louis parties for $300,000, while other folks sell for thirty-five dollars.

A. N. Harp has the finest well of water it has been our good fortune to drink of since we came to New Mexico.

Jack Winters has bonded his 400 feet in the Homestake for four months to the Homestake Gold Mining Co., of St. Louis and White Oaks, for $100,000.

The South Homestake was sold recently for the snug little sum of $300,000, and yet Newman's 34 has the cheek to say that White Oaks is liable to play out.

Gen. Geo. P. Buell, Post Commander at Fort Stanton, arrived yesterday in company with Messrs. J. A. LaRue and J. J. Dolan, of Lincoln. The General is a genial gentleman, and comes over to see White Oaks, the metropolis of Lincoln county and future county seat. The General informs us that the telegraph line from Fort Craig to Stanton will be put through just as soon as the poles can be had; everything else is now ready.

The proprietors of the Homestake cleaned up last week $927 out of 5,000 pounds of rock run through the arastra, an average of over $200 per ton. How high up vas dat?

A large party of prospectors went out on Monday to the Oscura or dark mountains on another "ignus fatuus" chase like Colonel Sellers. They think they see "millions in it."

Judge F. Gonzales called at our sanctum yesterday and paid for one year. The Judge is a genial gentleman, of the genuine Spanish type.

A little dusty.

John Phillips, the Badger Boy, came in from the mountains Monday.

Prof. Robertson said he couldn't dance on account of his obesity.

Jim Redman is a first-class caller. He ought to be regularly employed by the Hop association.

M. Whiteman, W. P. McClure, E. W. Parker and J. A. Sweet have gone east on business.

Our old friend Jim Allen has returned from Las Vegas. Jim looks as if it wouldn't do for him to go to Las Vegas very often.

Dr. Lane as an Indian fighter is a success. He had a narrow escape in the Oscuras; but then Doctor is always getting into romantic escapades.

Professor J. E. Sligh has sold a half interest in the Oro Fino, on Baxter Mountain, to Prof. John Robertson, of Las Vegas, for six hundred dollars.

BUSY WINTER MINING in NORTH NEW MEXICO.

Elizabethtown, N. M., Jan. 7.—The Blue Bandana at Elizabethtown is pumping water day and night with its new pump. The water in this property is the hardest thing to contend with, and with its present pumping facilities the Blue Bandana will soon be running its usual force on development work.

The Yellow Bandana mine, located in Touch-Me-Not canon, Baldy Mountain district, is a promising mine. The Wooster (O.) Gold Mining company is the owner, and this company is now placing a large lot of machinery in position preparatory to extensive development work.

The Black Copper is owned and operated by the Taos Gold Mining and Milling company, and is one of the greatest properties in Elizabethtown district. It is fully equipped with modern hoisting apparatus, has lately put in the finest obtainable air drills, and is equipped with large pumps. This company has lately decided to put in additional machinery for the purpose of treating the output of the mine on the ground. In accordance, it has ordered a mill. The contract for placing this machinery on the ground has been let to H. H. Hankins, of Springer. The mill building will be erected at once. This company is working a large force of men on development work, and proposes to make this property one of the leading mines of New Mexico in point of a producer and shipper. R. Cline, an old-time mining man of Aspen, Colo., is the local manager. H. W. Huntley, of Elizabethtown, is secretary-treasurer of the company.

AN OLD PRODUCER.

The Montezuma, on Baldy mountain, is being worked under lease by Harry Finch. This mine has already produced over $400,000 worth of gold ore, and is considered by mining men to be a great property. A force of ten men is now employed on this property and will spend the winter in doing development work, preparatory to making regular shipments when spring opens up.

Another property which promises to return to its once famous record is the Black Horse. The ore in this mine runs, according to smelter returns from Pueblo, from $10 to $18 per ton, with rich streaks which run as high as $100. The present manager and leaser is P. H. Van Zuylen. Some 1700 feet of development work has been done on this property already.

The Rebel Chief, Mountain Queen, Aztec, Paragon, Smuggler, French Henry, Black Joe, Mystic and McGinnity, all on Blady mountain, are classed among the valuable mines and as development proceeds they are justifying the belief that they will be heavy producers next spring. Good ore and lots of it is being blocked out.

The Denver at Elizabethtown is the property of the Ohio Gold Mining company, and is a very promising proposition. The company is making preparations to erect a mill in the spring and much other machinery. Already some three hundred feet of development work has been done with very satisfactory results, and a force of 100 men will be kept busy this winter pushing further work along this line.

The Legal Tender, in Willow gulch, has a force of ten men at work. This property has a fine concentrator, with a cyanide plant, and is treating its ore "at home."

The Senate-Bobtail, Grouse gulch, has ordered a new mill, which will arrive in the spring. The men are working in good ore on this property, and a new mill is a necessity. A force of ten men is employed.

AT RED RIVER.

The Memphis, Red River, is opening up a fine body of ore, and as the development work progressess the ore becomes better and more abundant.

A rich strike has recently been made in one of the June Bug properties, up Bitter creek, in the Red River district, which shows up some very fine ore and it is said that it is of a good grade. The June Bug people have some splendid properties in this district.

A new Dixon hand-power drill has been put on the Jumping Jack mine, in the Red River country, on Flag mountain. S. M. Mallette, the manager, is very much pleased with the new machinery.

In the Amizett district many good properties are going on steadily with development work, and will be heard from in a substantial way in the spring.

A group of ten properties has been sold in the Amizette mining district to eastern capitalists lately, and this means machinery, employment and production soon. The sale has excited considerable interest.

Manager Logan, of the Golden Treasure, is pushing development work on that property, and is very much pleased with the outlook. This property is one of the promising mines of the Red River district, and is in the hands of a capable manager, who will make a producer of it in a short time.

The Red River district is cer-

The Chinese authorities have at last agreed to sign the note submitted by the powers.

Next Wednesday, the 23rd, will be the date of the first issue of the Commoner, W. J. Bryan's paper.

President McKinley has been confined to his room for a week with an attack of La Grippe. He is now able to sit up, and it is thought that he will be strong enough to attend to official duties soon.

Johnny Bull is now considering the Hay-Pauncefote treaty as amended by the Senate. The amendments are not at all agreeable to our British cousins, but they failed to work the rabbit's-foot on the Senate that they did on Hay, and they must take their medicine.

Havemeyer, the Sugar King, and Arbuckle Bros., the coffee magnates, have declared a truce, the former to handle sugar only and the latter to deal only in coffee. This fight has been in the interest of the consumer, but it is now the trusts' inning and the people will be squeezed.

A great many new members-elect of the Territorial Legislature, which convenes at Santa Fe, 21st. inst., have been heard from, and most all have plans in their heads for placing new laws on the statute books, which will necessarily call on the taxpayer to go deeper down in his pockets. Each session of the legislature adds new burdens to the taxpayer.

Some territorial papers are suggesting means for bettering the financial conditions of various counties. It is suggested that boards of commissioners be given authority to levy a larger current expense fund, and others suggest that county officials' salaries be reduced. To the first proposition the EAGLE willingly assents, but here and now announces its opposition to a reduction in salaries. Salaries of county officials are now so low that it is difficult to secure efficient officers, and to cut them still lower would be but a bid to put incompetents in office. Raise the county levy, decrease the exhorbitant territorial.

A Samuel J. Tilden club has been organized in New York City, and Grover Cleveland, David B. Hill, Daniel S. Lamont, William F. Sheehan, William C. Whitney and other prominent democrats have and will become members. The object of the promoters of the club are to adopt Cleveland's suggestions regarding the "reorganization of the democracy and to promulgate true democratic principles throughout the United States," and notice is served on those disiring to become members that none but "Simon pure" democrats defending "old fashioned" democratic principles need apply. The organizers of this movement seem to have forgotten what "Simon pure" democracy is; for, while professing to be Jacksonian democrats, they have abandoned the principles that ruled the democracy in 1834, at which time the coinage ratio of metals was adjusted, and has since been ably defended by Bryan.

THE CAUSE OF THE REBELLION.

F. Hopkinson Smith, the author, in an address before a Boston club on the 10th inst. paid his respects to "Uncle Tom's Cabin" in language more forcible than eloquent. While, no doubt, the story was largely instrumental in bringing on the war of secession, and placed the south in an unenviable position with the people of the north, Mr. Smith might have expressed the matter just as strongly but in better form.

However, this is the way he expressed it:

"Uncle Tom's Cabin is the most vicious book that ever appeared.

"It compares with Kennan's first book on Russia. I could go into the prisons of the north today and write a similar book.

"The book precipitated the war and made the north believe nothing but the very worst of the South.

"We are not an inhuman people; we are all alike; we are Americans.

"It was an outrage to raise the North against the South.

"The book was an appalling, awful and criminal mistake.

"Mrs. Stowe went into the South with the avowed intention of finding the conditions which she described in her book. She stayed there only three months, and she told her story as if it was all there was to tell.

"It was an outrage to draw a line across the country and say that people on one side were kind-hearted and that the people on the other side were cruel.

"I have tried to tell about this because I know the conditions. I lived in the South as a boy, was brought up among the slaves, loved my 'old mammy' and hugged and kissed her as if she were white; knew that she loved me as much or more than she did her own children and would do so as long as she lived."

STILL AFTER THE GOVERNOR.

The Santa Fe Capital continues to prod Gov. Otero under the fifth rib, and, incidentally, subs the fur the wrong way on the Santa Fe New Mexican. The Capital first gives the Albuquerque Citizen a dig over inconsistency, saying:

"The Citizen is very prolific in condemning the superintendent of public instruction, for his action in ignoring the meetings of the Educational Convention recently held at Santa Fe, (in which we heartily concur) but it appears to us to be inconsistent, "The Citizen" should criticise his chief, the Executive of the territory, who though officially at the head of the Educational system in the Territory did not even deign to inquire after its welfare, in addition to his non-visitation of its sessions."

The New Mexican and its support of Gov. Otero is next taken up in the following language:

"The mill of The New Mexican Printing Company is still grinding out half tone cuts, and patent Editorials to furnish to the subsidized press of the territory. It is now catering to the democratic press of the territory, and furnishing some of the subsidized press of that persuasion with the Lydia Pinkham literature in favor of Gov. Otero's re-appointment.

A Negro assaulted a woman in Leavenworth, Kansas, Jan. 12, and was shortly afterward captured and taken to the police station. An angry mob of 1,000 men surrounded the station burst open the doors, but the negro had been spirited away, and landed in the state penitentiary. The same spirit animates the human breast, be it in Kansas or Georgia.

The La Grippe has been no respector of persons; it has attacked the palace as well as the hovel. Out of 86 U. S. Senators only 17 answered to the roll call on the 11th, on account of the prevailing epidemic.

Try the EAGLE in 1901.

SPEAKING WITH THE STARS.

New York, January 12.—William A. Eddy, of Bayonne, N.Y., says that since 1892 he has drawn from his kite wire hundreds of electric signals, both regular and irregular, which may have come from some planet, and the signals have been usually in groups of three, regularly timed like a Morse sounder. When the ends of the kite, sustained by steel wires are separated by silk strands, sparks jump at twelve seconds intervals. Then there are mysterious disappearances of all electric action for several minutes. These electric sparks come from a high point in the air, and currents of trolley and live wires. Eddy is about to begin a careful series of measurements of these spark lengths. Eddy says that these spark signals may come from an outer planet, because electricity travels at the rate of 190,000 miles per second. Eddy has been trying to decipher these signals since 1892. It is also to be noted that the Tesla signals come from Pike's Peak and at a high point in the air.

As one of the pleasant results of Judge McMillan's visit, the Chieftain is authorized to announce that District Clerk John E. Griffith will be retained in his present position. This will doubtless be a welcome announcement to a vast majority of those interested. It is understood that there were other applicants who would perhaps have proved to be just as efficient, but Mr. Griffith was known by actual experience to be a capable, attentive and courteous clerk. In fact, he is reputed to be the best district clerk in the territory, and everybody will feel, whatever his preferences may have been, that the reappointment of Mr. Griffith is a fitting recognition of service faithfully rendered.—Socorro Chieftain.

BEAT OUT OF AN INCREASE OF HIS PENSION.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequaled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by M. G. Paden.

HERE WE Are AGAIN.

After a hard week's work of stock-taking, La Grippe, etc. we come up Leading again with a few more of those "HIGH PRICE" disturbers THAT have set PEOPLE wondering the past two Weeks.

DAVID N. TINNON DEAD.

Tuesday morning the many friends of David N. Tinnon were shocked at the announcement of his death, which occurred at 8:10 o'clock that morning.

Deceased had been confined to his room for about two weeks, having first been attacked by La Grippe, which later developed into pneumonia, and, while all feared the result, it was thought Sunday that he was much better and that his chances for recovery good. But the rigid disease had taken a severe hold on his system, and all that loving hands could do and the best medical attention that could be given his life ebbed away and his spirit joined the great majority at the hour mentioned.

The funeral services were conducted at the Congregational Church Wednesday at 2:30 P. M., Rev. L. L. Gladney officiating. The casket was opened and the immense throng filed past the silent form, which, in life, had wronged no man but had befriended many, and gazed for the last time on the lineaments of all that was mortal of David Tinnon, when the funeral cortege proceeded to the cemetery, followed by a large concourse of relatives and friends, where the remains were given their last resting place.

Mr. Tinnon came to this place about twenty years ago, but did not permanently locate here until two or three years afterwards. Every since coming to White Oaks Mr. Tinnon had been engaged in mining, and at the time of his death was foreman of the South Homestake mine.

His business transactions were honorable and his intimate connection with any institution inspired faith, for his name was synonymous with honesty and integrity, and his word, once given, was all that was ever required by those who knew him.

He was known as a careful business man and had accumulated a small property, owning a ranch below town, also possessing some town property.

About fourteen years ago he was married to a daughter of Mr. and Mrs. T. LaLone, who, with six little children, are left to mourn his death.

In the death of David N. Tinnon the community loses one of its stanchest and most upright citizens and the widowed wife and little orphaned children a kind and loving husband and father.

The EAGLE joins friends of the family in extending sincere condolences in this hour of saddest bereavement and sorest trial.

Messrs. Heiniman and Crary have put a small force of men at work on the Dazzler mining claim, north of the Boston Boy.

S. C. Wiener is in receipt of a communication from Lincoln stating that small-pox is prevalent in the county seat. The law is somewhat ineffective in providing for the care of small-pox patients, but the citizens should take the matter in hand and stamp out the disease and institute measures to prevent its spread.

W. M. Clute, W. S. Shephard and Paul Quinlevin arrived in White Oaks Sunday evening. They left Monday morning for the Gallina mountains, where they will make an inspection of the timber resources of those mountains. The E. P. & N. E. Ry. will secure a great many ties for the construction of the Liberal extension from the Gallina forests.

George Cooper, son of Mr. and Mrs. Jas. A. Cooper, has about recovered from an attack of pneumonia.

Phil Flint, who has been a victim of La Grippe, is again able to be on duty at the Taliaferro M. & T. Co.

S. M. Wharton will be away several days and during his absence Jno. A. Haley will have charge of the EAGLE.

J.J. Chittenden has purchased a lot on Livingston Avenue, and has begun the erection of a substantial building which will be used as a carpenter shop.

E. H. B. Chew, who returned to Ft. Stanton after the holidays to resume his position as electrician at the Fort, has been confined to the hospital since his return.

A great deal of interest is being manifested in mining and prospecting in this camp. The town has taken on a new lease of life, and it is thought quite an amount of capital will be invested in this immediate vicinity this year.

FRANK CRUMB BADLY INJURED.

Frank Crumb was seriously injured Monday evening by being thrown from a wagon and the wagon running over his body. He was riding on a load of wood and the team became frightened throwing him off and under the wagon and the entire weight passed over his body.

One rib was broken, the left hip fractured and an ugly deep cut of several inches made in the abdomen. Dr. Paden was instantly called and the injured parts dressed, but the hip fracture and possibly internal injuries may bring about complications that, while now very painful, may prove serious. The patient is resting as well as could be expected under the circumstances and up until yesterday morning no fever had occurred, which somewhat allays fears entertained by friends.

OFF FOR THE CARNIVAL.

White Oaks started her quota of Carnival visitors for El Paso Tuesday morning. Those who boarded the train at Carrizozo Tuesday, were T. F. Chapman, Dr. J. F. Mains, S. M. Wharton, Jno. Y. Hewitt, Jones Taliaferro, wife and Jones Jr., Miss Ella Young, Jacob Ziegler, Elbert T. Collier, Eugene L. Stewart, Wallace L. Gumm, Mrs. C. D. Mayer and children, Paul and Bertha.

Yesterday morning another crowd started for El Paso to see sights, take in the carnival and mingle with the multitude of visitors. They were Miss Pearl Keith, Paul Mayer, A. Schinzing and wife, Atwood Littel and Frank Lesnet. This makes twenty-one Carnivalites from the town of White Oaks alone, and yet more would have gone but were detained on account of the prevailing epidemic of La Grippe. Add one more: S. C. Wiener left this morning.

John W. Owen left Friday morning for Ft. Worth, Texas. Two fugitives from justice have been located by him there; hence the trip.

Miss Ella Young, who has been stopping with her uncle and aunt, Mr. and Mrs. Jones Taliaferro, the past two winters, left Tuesday morning for Fairhaven, Wash. where she will meet her mother, and later both will go to Alaska to join the husband and father, G. R. Young.

A PROMINENT CHICAGO WOMAN SPEAKS.

Prof. Roxa Tyler, of Chicago, Vice-President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by M. G. Paden.

M. G. Wolfe for Drugs and Books. Orders promptly filled. El Paso Texas.

BUSY WINTER MINING IN NORTH NEW MEXICO.

[*Continued from First Page.*]

tainly one of the most promising mining camps in New Mexico, and if intelligent development work is done there it will prove to be a great ore producing camp.

Mr. Abbott brought with him to the city beautiful samples of 30 per cent copper ore taken from the new strike in the Copper King and also exhibits a couple of cap boxes full of placer gold, the largest nugget being worth $4.25 taken from 120 acres of gravel beds in Placer gulch, a fork of the Red River, which he and others have worked most successfully the past summer. These are called the Iron placers, and with a ditch 1½ miles long from Goose creek and a hydraulic plant they extract $1 per cubic yard.

LOOKING TO THE D. & R. G.

"Our great need at this time," said Mr. Abbott, "is railway communication with the outside world, and this we propose to have shortly—it simply must come. We have hitherto looked toward Trinidad for relief, but now we have taken a new and fresh tack. We find by examination of the contour of the country that we can reach the Denver & Rio Grande at Volcano station in just thirty miles over an excellent grade, down hill all the way. We held a citizens' meeting the other night at Red River City and propose to take up the subject in a business-like way with the D. & R. G. people and push it. We have the mineral wealth, the tonnage and are prepared to meet the railway people more than half way."

THE WOOL TRADE.

The wool and cotton Reporter in its issue of last week, says:

The year 1900 will pass into history as one of the quietest and most unsatisfactory periods ever experienced in the wool trade. Depression has characterized the situation abroad and at home.

The Reporter gives the stocks of wool in the country, exclusive of manufacturers' holdings, as 352,247,389 pounds, as compared with 157,398,879 pounds a year ago. The stocks in the three principal markets of the United States—Boston, New York and Philadelphia—amount to 185,900,389 pounds, as compared with 113,295,579 pounds last year. The stocks of wool in Boston are 130,019,084 pounds, as compared with 66,113,743 pounds last year. This large increase in stocks on hand is accounted for by the comparatively limited demand for wool this year, increased importation of foreign wools, and the fact that only a very small percentage of this year's clip has as yet been disposed of to manufacturers. Wools have been held back to an unusually large extent this year in the country. This is especially true of the fleece wool sections east of the Mississippi river.

Teresita G. de Padilla, Plaintiff,
Julian Padilla, Defendn't } No. 1259.

To Julian Padilla, defendant in said action, greeting:

You are hereby notified that you have been sued in said court by Teresita G. de Padilla, plaintiff in said action, the object of which action is to dissolve the bonds of matrimony now existing between you and said plaintiff, on the grounds of abandonment and failure to support and unless you enter your appearance in said cause on or before the 4th day of February, A. D. 1901, a decree will be entered granting to the said plaintiff an absolute divorce and for such other relief as may be equitable.

Plaintiff's attorney is E. W. Hulbert, whose post office address is Lincoln, New Mexico.

JOHN E. GRIFFITH,
Clerk of the District Court.

THE MOTHER'S FAVORITE.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by M. G. Paden.

THE PECOS VALLEY EXCURSION RATES.

If tickets enough are sold to justify, the Pecos System will run the sleeping car "El Capitan" to Salt Lake City and return to accommodate those attending the annual convention of the National Live Stock Association January 15-18, 1901. The car is a first-class sleeper equipped with eight sections and eight reclining chairs. A conductor and porter will attend the car, and a full line of newspapers and periodicals will be provided. The car will be open at Salt Lake City, so that passengers can sleep there during the convention.

The rate from Roswell, N. M., to Salt Lake City and return will be $59.30 for a lower berth and $54.30 for an upper berth. If berth is occupied by two persons, the rate for each will be $49.30 for lower and $46.80 for upper berth.

No free transportation will be honored in this car. This contemplates a nine days trip, and is a rare opportunity to witness the beautiful scenery of Colorado and Utah. The rate is very low for the service performed, and no pleasanter way to attend the convention will be available. Space is limited, and tickets should be purchased and space reserved at once.
