THE EAGLE'S CLUBBING RATES.

To subscribers paying one year in advance for the EAGLE the following clubbing rates are offered:

EAGLE and Thrice a-Week World	$2.00
" " St. Louis Republic	$2.00
" " Industrial Record	$2.25
" " Mines and Minerals	$2.50
" " Daily Mining Record	$4.00
" " Cosmopolitan	$2.10

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and any one desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one should take advantage of this liberal offer.

DISSOLUTION NOTICE.

Know all men by these presents that the firm of Tabet Brothers doing business in town of Lincoln, New Mexico, has this day been dissolved by mutual consent; all accounts against said firm will be paid by Tanous Tabet, and all accounts due said firm will be collected by said Tanous Tabet.

TANOUS TABET, (SEAL.)
CHARLES TABET, (SEAL.)
ABRAHAM TABET. (SEAL.)
Witness, Geo. Sena.

Lincoln, New Mexico, January 2, 1901.

Cut this out and take it to Dr. Paden's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

WHITE OAKS' BIG EXHIBIT.

CREATES INQUIRY ABOUT THAT MINING REGION.

The White Oaks mineral exhibit in the Chamber of Commerce has elicited many inquiries from strangers as to the town. For these the following is reprinted:

White Oaks, twelve miles of Carrizozo, is a thriving camp of 2500 population and is the center of an exceedingly rich mining country—quartz and placer gold, silver, coal, that has no superior, copper and lead. The Old Abe, near the town, has been a fabulous producer; the South Homestake is also a bonanza, and close by is the Compromise, in which, a month ago, a lead was struck, part of which carries a value of $10,000 per ton. Samples of this ore are now on exhibition in the Chamber of Commerce. The American Placer company is installing a $100,000 plant in the Jicarilla valley north of White Oaks.

The natural resources opened and brought within the markets of the country by the railroad, as enumerated in the foregoing chapter, may be epitomized as follows: Live stock, cattle, sheep, goats, fruit growing, farming and gardening; mining, coal, iron, copper, quartz and placer gold, silver and lead, iron ore; lumber, and the most perfect health-giving climate in the United States Such a combination of resources not only gives employment to thousands of people required in their operation and development but the raw material, such as coal, lime, sand, wood, etc., is here inviting the establishment of glass works, iron and steel plants, coke ovens, foundries, planing mills and a variety of other industrial enterprises.

Carrizozo is now the shipping point for the town of White Oaks, twelve miles north. Five miles northeast is Walnut, from which you go to the great Nogal mining district three miles distant, where gold, silver, lead and copper abound.—El Paso News.

TWICE-A-WEEK REPUBLIC.

Every Monday and Thursday a newspaper as good as a magazine—and better, for it contains the latest by telegraph as well as interesting stories—is sent to the subscriber of the Twice-a-Week Republic which is only $1 a year.

The man who reads this paper knows all about affairs political, domestic and foreign events; is posted about the markets and commercial matters generally.

The woman who reads the Republic gathers a bit of information about household affairs and late fashions and recreation in the stories that come under both the headings of fact and fiction. There is gossip about new books and a dozen other topics of especial interest to the wide-a-wake man or woman.

Kitchener has promulgated a brutal order, so latest telegraphic dispatches state, that will cause the captured Boers to be treated as were the Madhists—assassinated.

LETTER LIST.

Letters remaining in the post office at White Oaks, N. M., uncalled for Dec. 31st, 1900.

HENRY BARNES, VICTORIA CRAWFORD, DANIEL DIEHL, WALTER EVANS, OSCAR GERN, DAN GREENWALT, CHAS. P. LEMONS, FRANK MAURY, REYÉZ SAMZ, MRS. C. E. SMITH, MRS. CHAS. UMFLEET, MRS. A. K. WELLS and MRS. J. E. SMITH.

Respectfully,
JOHN A. BROWN,
Postmaster.

LEGISLATURE IN SESSION.

The territorial legislature is again in session. J. Francisco Chavez is president of the Council and Benjamin Read of Santa Fe county speaker of the House. As was to be expected a number of new bills have been introduced most of which if enacted will add heavily to New Mexico's exhorbitant rate of taxation. Council bill No. 1, introduced by Mr. Springer, would as a law result in more or less good to the pupils of our public schools. The title of the bill is "An act for the protection of minors and pupils of schools" is the title of the first bill offered. It aims to prevent the use of intoxicants and tobacco, including the deadly cigarette, and prohibit indulgence in all gambling devices by all minor persons and school children. Dealers who sell these forbidden articles to such persons or pupils or permit them to engage in gambling shall forfeit their license, and besides shall be subject to a fine and penalty by imprisonment in extreme cases. This act also makes it obligatory for all dealers in liquors and tobaccos, and those conducting games of chance, to keep posted in a conspicuous place a copy of this act, printed in both English and Spanish.

Council bill No. 2, introduced by Mr. Harrison, seeks to exempt from double taxation the stock and securities of all building and loan and saving associations doing business in the territory. Council bill No. 5, by Mr. Cruikshank, prohibits the killing, ensnaring or maiming of any song bird, such as the mocking bird, red bird, oriole, nighthawk, linnet etc., "whose economic value in protecting orchards and fields from insect pests is not fully understood or appreciated."

NEW INSTITUTIONS.

Council bill No. 2, introduced by Mr. Burns, provides for the establishment and maintenance of three new territorial institutions—an institute for the education of the blind, at some suitable point in Rio Arriba county; a miners' hospital at Gallup, and a reform school at Taos. The sites are to be selected by three commissioners appointed by the governor; the lands shall be donated and shall be deeded to the territory within six months. Fifty acres are required for the institute for the blind; two acres within one mile of the railway station at Gallup for the miners' hospital, and 100 acres for the reform school at Taos. Persons under the age of 20 years who may be convicted of any offense less than felony, and youth of idle, vicious and vagrant habits are to be sentenced to the reform school for a period not to exceed one year, and may there be employed in some remunerative labor. The act calls for a levy of one mill on all taxable property in the territory for the support of these institutions, each to receive one-third of the revenue thus raised. It also formally accepts the donation by congress of 50,000 acres of public lands to be devoted to each of said institutions, and provides all the necessary official machinery for their management by boards of trustees, to be named by the governor, similar to the present method of controlling other territorial institutions.

Councilman Navarro is the author of a bill to build a reform school with the site at Springer.

HOUSE BILLS.

A number of House bills have been reported; among them is an act to establish the reform school at Taos by Mr. Abbott, corresponding with Mr. Burns' council bill, but those of most importance were by Mr. Gutierrez of Bernalillo, house bill No. 9, an act to prevent penitentiary-made brick being sold in competition with free labor, and house bill No. 7, an act to repeal the coal oil inspection law. The latter precipitated much discussion. After its first and second reading Mr. Gutierrez moved that it be considered as translated and printed, and that the rules be suspended that it might be read a third time and passed. The house declined to suspend the rules by a vote of 18 to 4, Messrs. Bowie, Chavez Gutierrez and J. Sanches. In explanation of their vote—opposing the suspension of the rules, Mr. Sanches of Mora, Mr. Sanches of Valencia, Mr. Slaughter and several other members, deprecated the haste with which so important a matter was pressed, saying the house needed time to examine carefully into such a measure before passing it. The bill was ordered translated and printed, and referred to the committee on territorial affairs, of which Mr. C. Sanches is chairman. The other bills were referred to appropriate committees.

So began the work of New Mexico's 34th legislature, and it is safe to surmise from the proceeding thus far that the legislation enacted by this body will add considerably to the rate of taxation. It seems the sole object of every member of a New Mexico legislature to be the author of some new law, and no thought or consideration is given remedial legislation, and never any attempt made to reduce the rate of taxation which is now burdensome to that degree that capital is frightened away from investments that would be made under an equitable rate.

SKILL AND ABILITY IN MINING.

Senator William A. Clark, of Montana, who began life as the driver of a mule team, is today considered the richest mining man in the western hemisphere, if not in the world. In answer to a question on the subject of the luck versus skill, he said:

"Chance may be a factor in the acquisition of a good mining property, but there its operations cease. The development and the operations which follow depend largely on technical knowledge in the treatment of ores, as well as on competent business ability and good judgment. The chances of success in the mining industry are equally good, if not better, than the chances in any other legitimate business, provided it is managed on business principles. I have known many instances where persons acquired very valuable mining property and their incompetency resulted in absolute failure."

Senator Clark, by the way, is the principal stockholder in the United Verde Copper mine, at Jerome, Ariz., one of the most valuable mines in the world. This mine was discovered by one of the swarm of prospectors that succeeded General Howard's captive Indians at Camp Verde. It was worked unprofitably for years. Senator Clark secured control of it for about $60,000. He built a railroad and a smelter, and applied improved methods to the development of the property. Today it is paying at the rate of $12,000,000 a year.

Former Senator R. C. Chambers, of Utah, also a wealthy mine owner, gives it as his opinion that not one in two thousand prospectors "strikes it rich" through luck: "Mining," he adds, "is business, and in it most money is made by men of means who invest carefully.—Mining and Metallurgy.

THURSDAY JAN. 31. 1901.

Geo. S. Good & Co. have the contract for the building of the extension from Carrizozo, of El Paso & Northeastern railroad, and are to begin work at once. The dirt will be flying next week.

The Chinese situation is more serious than for some time. In fact, peace negotiations are at an end. The powers have asked impossible things of the Emperor, and there the matter must end unless demands are modified. Germany has asked that the General of the largest and most powerful army in China shall be beheaded, This General has the Chinese Emperor in custody. So, how can the Emperor comply? This means more war and final dissolution of the Chinese Empire.

The legislature at Santa Fe starts off as usual, each member trying to get some beneficial legislation for his home town, and without any regard whatever for the interests of the people of the territory at large. Notwithsinding the territory is going in debt every year at the rate of fifty or sixty thousand dollars, and many of the counties have now reached the point where they must repudiate, or refuse to pay, for they cannot pay, the legislature seems wholly oblivious to the situation, and goes on adding to the burden of taxation which is now, in some of the counties, almost to the point of confiscation. Better pay more attention to the interests of the people, gentlemen, and less to interests which are wholly selfish. A few thousand dollars for one town means many more thousands for other towns, and thus taxes are increased till good people turn from New Mexico and go where taxes are lower and opportunities just as good.

Hanna's ship subsidy bill is having a hard time in congress. This is a bill to enable the Ohio Senator, Hanna, and his associates to make a few millions at the expense of the government, simply by building ships and engaging in the transportation business, which others find profitable without any subsidy. If other people can build ships and operate lines of transporsation, for what they can make out of it, in competition with all comers, and without government aid, then why can not Hanna and Morgan? But Hanna is not built that way. He is not running the republican party altogether for his health, and he is not averse to doing something for himself and friends when the opportunity offers.

If we are to pay men for building and operating their own ships, why not pay everybody else for engaging in any and all kinds of business? One is just as the other. If a bounty is paid to one, why not to all? Pay the merchant a bounty on all he sells and the farmer on all he produces. If we are going to help some of the people, why not help all of the people, why does not the republican party carry its paternalism to its logical conclusion? Legislate everybody rich and settle the whole business. Then we should have no more of this fighting in congress and out, over favoritism in legislation but rather the millennium instead.

HAZING AT WEST POINT,

West Point Military Academy is educating a lot of cowardly "Ruffians" who think it proper to cruelly punish new students, even causing the death of the same, and call it hazing. Such have not the instincts of gentlemen and ought rather to be in the penitentiary. If congress will do its duty, hazing will stop, or the school will cease to exist; for if it is impossible to procure young men of gentlemanly instincts to educate for the army, then the government should certainly not educate cowards and "Ruffians."

Hon. Jas. F. Hidkle has introduced a bill in the council to issue bonds to the amount of $25,000 to add another building to those they already have, at at the Military Institute at Roswell. The bill provides for the sale of school lands to pay the bonds. Better sell the bonds first, and then build the house. The fact is these lands will be sacrificed, as were timbered lands in the Sacramento Mountains, if this bill passes, as they will then have to be sold at any price to redeem the bonds. The Sacramento timber lands worth from ten to fifty dollars an acre, were sold for three dollars an acre, the minimum price, by our land commissioners. These lands if sold at all should have been sold to the highest bidder; but the legislature has empowered a commission to sell and they fix the price, at anything they see fit above; thus, if this business goes on, will all these lands be sacrificed, and gobbled up by corporations, and thousands of settlers will be kept out of New Mexico, as desirable citizens are not going to become tenants on land owned by corporations.

The republican papers carry the picture of Governor Otero as their choice for Governor. We don't object to this, but if in doing so, they represent the sentiments of the republican party of the Territory, then we pity the republican party. Do the people know, and do some of these editors know, that Governor Otero supported the coal oil bill that passed the last legislature, and that took ten or twelve thousand dollars from the public school fund, and gave as a present, in effect, to the chairman of the Territorial Republican Central Committee? Or do they think that the poor children of this Territory whose parents are not able to send them to school and pay, have no rights that republican officials should respect? Is this your position gentlemen? Either you are ignorant of the facts, or you hold the latter view. In either case, you are not to be envied. Your candidate for Governor is also a member of the land board which sold the lands in the Sacramento Mountain for three dollars an acre, when they could have been sold for much more. Your candidate also favored and approved all the extravagance of the 33rd Legislative Assembly including the fee and salary bill. If Governor Otero represents the ideas of the republican party respecting legislation, then may God have mercy on the republican party.

A FEMALE COLLEGE AT ROSWELL,

Prominent citizens of Roswell have taken steps towards the building of a female college at that place. This is as it should be. Roswell has the right sort of people, and her business men are in the front when it comes to looking after the interests of the town.

The Boers are still fighting in South Africa and the end of the war is no nearer than when it began, so far as appearances go. It seems England will have to adopt Uncle Sam's plan, and send them to St. Helena. Of course, it will take time to catch all of them, but it could be done finally—at any rate during the present century, and that is about as soon as we shall get the Filipino insurgents all sent to Guam.

A bill is pending in the legislature to locate the miners' hospital at Gallup. The act of Congress donating lands for school purposes, also provides for a miners' hospital. Now, as Gallup is on the Santa Fe railroad and close to Albuquerque, where the company has hospitals, we fail to see the justice of giving them this hospital. There are no mines in the vicinity of Gallup except coal mines, and if the hospital is located there, it would be solely for their benefit. Now, in southeastern New Mexico, we have a mining section one hundred miles long and nearly as wide, that is now full of miners and no hospital of any sort in this whole district, except the one at Capitan which is sustained by assessments on the coal miners. Again southwestern New Mexico, has the benefit of hospitals at Silver City which receive support from the Territory. The northern and central portions of the Territory have hospitals and other institutions which receive aid from the Territory, but here we are completely ignored. The Santa Fe railroad company owns the coal mines at Gallup and locating the hospital there, is simply in aid of this company and its employees. The employees of the Santa Fe company are as deserving as any; but they now have hospitals and can get accommodations when needed. Not so, the miners in all this country. If they get sick they must wear out the disease, or be worn out by it in their cabins where they can not have the care necessary in such cases. White Oaks is the place for this hospital, and if the legislature will do its duty by the miners in this part of the Territory, we will get it.

PERIOD OF MOURNING FOR THE QUEEN,

London, Jan. 28.—A supplement of the Gazette this afternoon announces that it is not desired that the public wear deep mourning after March 6, but that half mourning should be worn until April 17.

There has been a strong outcry from manufacturers and merchants at the prolonged period of mourning. The dealers regarded the first edict with dismay and a widespread injury to colored goods. In many cases actual ruin was anticipated. Following the precedent of 1768, when the city merchants petitioned George III to curtail the period of mourning, the trade circles in the United Kingdom have already started a petition to King Edward VII, begging him to limit the period of national mourning. On previous occasions the king, as Prince of Wales, used his influence in this direction, and now, as king, it is asserted by his well known opposition to observance of long periods of official mourning that the prayer of the petitioners will be granted.

President Ripley and General Manager, Mudge of the Santa Fe, were in Roswell, and here is what the Register says:

Mr. Ripley and Mr. Mudge were both very guarded in the replies to questions asked about the proposed extension from Roswell to El Paso and the closing of the gap between Pecos and San Angelo, and would give no definite answers. The REGISTER has been reliably informed, however, in the last twenty-four hours, from a reliable source abroad, that the purchase of the Pecos Valley & Northeastern railway by the Santa Fe company will in the not distant future, result in the following: First: The building of a road from a point near Roswell to El Paso on the line of the Hagerman survey, giving the Santa Fe a shorter, easier and cheaper line from El Paso to Kansas City and Chicago than the Rock Island will have. Second: The building of a line from a point near Roswell to Albuquerque, giving the Santa Fe a shorter line with far easier grades than its present line over the Glorieta hill and Raton pass, to and from California. Third: The building from Pecos, Texas, or from some point between Carlsbad and Pecos, to San Angelo, Texas, giving the Santa Fe a short and easy line from Galveston to California, via San Angelo, Carlsbad, Roswell, Albuquerque, and the Santa Fe's present line west of Albuquerque.

OTERO VS. DONA ANA.

The boards of commissioners of the counties of Otero and Dona Ana are having some little difficulty in settling the indebtedness of the former.

The pro rata of the indebtedness of Otero to Dona Ana, by virtue of the territory taken from Dona Ana to form a portion of Otero, is $14,900. The Commissioners of Dona Ana, backed up by two or three local capitalists, want to take Otero County's bonds at par and cancel the indebtedness, but the commissioners of Otero County want to dispose of the bonds themselves, which under the law they have a perfect right to do, pay Dona Ana county the cash, and reserve the premium for which the bonds would sell.

The fact that the bonds would sell at a premium in the open market induced the speculative gentlemen behind the Dona Ana commissioners to demand the bonds. W. H. H. Llewellyn has pledged himself, so report hath it, that if he is permitted to break into the legislature, that he will introduce and push a bill whereby Otero may make over her bonds to Dona Ana.

This would be a nice thing for the Dona Ana board to take the bonds at par, sell them at par to some local political favorites, when the bonds would really demand a fair premium.

LEST YOU FORGET,

We again will mention a few of our many Low Priced Articles which we are offering, not for THIS WEEK OR FOR ANY SPECIAL SALE, BUT FOR KEEPS!

OUR SPACE will permit US to QUOTE PRICES,

And we will quote them even though others reluctantly Follow.

OF LOCAL INTEREST.

A light snow fell Tuesday evening.

The storm is over and sunshine gladdens the earth.

A dark-eyed oriental came in on the train last night.

The Mexican population of the city had a baile at Bonnell Hall last night.

Mr. and Mrs. Silas will move into the Will Littell building as soon as their household goods arrive.

Business interests are picking up and good times are in store for the denizens in this neck o' the woods.

The South Homestake people are busy preparing their water line and stamp mill for operation on the mine's product.

A. C. Wingfield had a tussle with La Grippe, but came off victorious and will soon resume work for the Old Abe Co.

Sidney M. Parker, clerk of the school board, is around collecting poll-tax. Pay up cheerfully, boys, the school fund needs it.

The Congregational church will soon have their pulpit filled by a minister from New York. The church has been without a pastor the past twelve months.

The great Hewett and Lady Zetta are here and will give their first performance at Bonnell Hall tonight. They will give a second performance tomorrow night.

A mild anti-saloon crusade has been instituted in White Oaks, but so far has not assumed the bleeding-Kansas--Carrie--Nations proportions, nor has it resulted in smashing anything but a bashful bartender.

It is reported that a station on the extension of the E. P. & N. E. will be established near Manchester, and will not be over six miles from White Oaks. This will add greatly to our transportation facilities, lessening the distance we at present have to travel by at least half.

Harry Comrey has succeeded in striking water in the well he has been boring out north of the Jicarillas. This makes the twenty-sixth well Comery Bros. have sunk in the last twenty years, and is the first in which they have secured water. Mr. Comrey will put in a pump at once to test the strength of the flow.

J. T. Keogh, a traveling man, registered at Hotel Ozanne from 1903. At first we did not understand the situation and think many of our readers will have to study a moment before solving the riddle, and after seeing the point it seems so simple. Host Ozanne mentioned St. Louis, and and then we got through our cranium that those enigmatical figures referred to the Centennial Celebration of the Louisiana Purchase, which the St. Louisans are preparing to celebrate in grand style.

FOUND DEAD.

An old man by the name of Bruning was found dead a few days ago in the mountains beyond Nogal, having, evidently, lost his way and was frozen.

Mr. Bruning's mind had not been altogether right for some time, and it is thought that he wandered away, losing himself in the mountains. Nogal parties searched the surrounding country for several days, but no trace of the wanderer could be found and a little boy accidentally discovered the body, life, apparently, having been extinct about two weeks. The body was very well preserved, not having been disturbed, save the hands, which had been slightly mutilated by skunks.

The deceased came to Nogal in 1897 from San Angelo, Texas, and was a partner in the mercantile business with M. Whiteman. So far as known deceased had no relatives in this part of the country.

PERSONAL MENTION.

Lum Bifield, of Nogal, was over Saturday.

W. A. McIvers was over from Schelerville Saturday.

Chas. Campbell was up from the Carrizozo ranch yesterday.

Jas. R. Brent returned yesterday evening from the lower country.

B. H. Moeller and Rumaldo Montano were in the city last Friday.

A. C. Austin was over yesterday with some fruit grown on his Bonito farm.

Geo. E. Sligh, of the Nogal Mercantile Company, was over Saturday and Sunday.

Dr. R. P. Behrendt, of the El Paso Optical House, was in the city the first of the week.

S. J. Woodland is holding down the Hightower ranch, which was recently purchased by the Carrizozo Company.

J. E. McDougal, of Kansas City, is stopping for a few days in the city. Mr. McDougal's father is a large stockholder in the Gallinas Mining and Smelting Company, and the famous Deadwood and Red Cloud mines in the Gallinas form part of this company's interests.

C. W. Allen, business manager of the Las Vegas Daily Optic, came in on Tuesday evening's train. Mr. Allen is just taking a lay-off, and thought while he was out he would run over to our camp. He was very favorably impressed with our varied resources and the industrial and commercial possibilities of White Oaks and the county generally. Mr. A. left on this morning's south bound train.

MINER'S HOSPITAL.

A meeting of the citizens of White Oaks and vicinity will be held at the office of Lee H. Rudisille, on Saturday evening at 7:30 to take action in regard to the location of the Miner's Hospital. All invited.

BEAT OUT OF AN INCREASE OF HIS PENSION.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico in '47 and '48, I contracted Mexican diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequaled as a quick cure for diarrhoea and is pleasant and safe to take. For sale by M. G. Paden.

Some will offer you Cheap Goods. We offer Goods Cheap. Note the difference.—Collier.

If you need a good carpet call at the postoffice store and see samples and get prices.—Jno. A. Brown.

A TALL BEAR STORY.

Vice President-elect Roosevelt, among many other good bear stories, tells this one:

"George Hightower, who used to be one of the old Hightower family who moved in on the Eagle Creek country of Lincoln county, New Mexico, twenty years ago, used to kill a great many bears—grizzlies, cinamon, and silver tips, which are all the same species for that matter—and it was a favorite trick of his to run alongside the bear and put his hand on it as it ran. He had his rifle with him, it is true, but he made no attempt to use it at the time. A good, fat bear, after a chase of a few miles over rough country, is having troubles of his own, and is largely concerned in getting his next breath of air. Hightower's feat was not so much one of courage as it was of superb mountaineering, for few men could keep in sight of him when the chase was on, and no one could keep near the bear in the first few miles of its run."

If all of Roosevelt's bear stories are like this one—well, we are not going to take any stock in them. We know Hightower and while he is a quiet, good citizen and something of bear hunter, he has not caught any bear with his hands. Come off, Teddy!

A PROMINENT CHICAGO WOMAN SPEAKS.

Prof. Roxa Tyler, of Chicago, Vice-President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by M. G. Paden.

DIED:—On Saturday, January 26, J. C. Lacey died at his home in the Park, from pneumonia. Deceased was a native of Illinois, but his parents moved to Texas when he was three years old. Reaching man's estate, the civil war coming on, he and another brother believing in the justness of the Union cause, made their way to the Union lines and joined the army of the north, while three other brothers cast their fortunes with the south. After the war was closed Mr. Lacey returned to his old Texas home, living there until about sixteen years ago when he moved to this county, and has since been one of our most substantial and upright citizens. The remains were interred in the private burying ground near the home of deceased. The EAGLE extends sympathy to the bereaved family.

MEASURES PROPOSED IN THE TERRITORIAL ASSEMBLY.

Under this head will be found a number of measures that have been introduced in the territorial assembly that the EAGLE sees fit to place under three sub-heads, as follows: "Good, Bad and Indifferent." However, the few that are given do not constitute all in either class, but they will do for a starter. Taking them up in their regular order the first for consideration is the

GOOD.

House bill No. 16 provides for abolishing the office of county school superintendents and conferring upon probate judges the powers of that office.

Council bill No. 6 provides for the listing and assessment of live stock in counties where they graze.

Council bill No. 20 provides for the repeal of all existing acts relating to the inspection of coal oil and to abolish the office of coal oil inspector.

BAD.

House bill No. 17, establishing a normal school at Punta de Agua, Valencia county.

Council bill No. 9, introduced by Councilman Hinkle, provides for the erection of additional buildings for the New Mexico Military Institute at Roswell, and authorizes an issue of $25,000 of territorial bonds therefor to be known as the New Mexico Military Institute bonds, to bear 5 per cent interest.

House bill No. 18, an act entitled an act to establish a hospital for disabled miners, and to provide for the maintainance and government thereof.

INDIFFERENT.

Council Joint Resolution No. 4, authorizing and instructing chief clerks of the 34th legislative assembly to send printed bills in English and Spanish to each paper published in the territory.

Council bill No. 7, requiring officials to give preference to union labor on public improvements, the contract price of which is over $100.

Council bill No. 11, an act to protect elk, deer, and antelope.

THE NEW YORK WORLD THRICE-A-WEEK EDITION.

As good to You as a Daily and You Get it at the Price of a Weekly.

The presidential campaign is over but the world goes on just the same and it is full of news. To learn this news, just as it is—promptly and impartially—all that you have to do is to look into the columns of the Thrice-a-Week Edition of The New York Wolrd which comes to the subscriber 156 times a year.

The Thrice-a-Week World's regular subscription price is $1. per year. We offer you World and the EAGLE one year for $2. cash in advance. The regular subscription price of the two papers together is $2.50.

PEACE NOT YET IN SIGHT.

New York, January 25. - A dispatch to the Herald from Pekin says: Germany put the screws on England, with the result that the negotiations have retrograded to where they were three months ago. The demand for the death penalty will be preferred against all leaders mentioned in the decree, in addition to the posthumous degradation of such anti-foreign leaders as committed suicide. Mr. Conger stated that he could not support the demand if made in writing, but verbally he would do so with heart and soul. Tung Fi Siang, whose head is asked for, possesses, as the ministers well know at this moment, more real power and controls more troops than any man in China. Moreover, the emperor is at present in his custody; yet he is expected, with his scribes and eunuchs, to overpower the Kansu army and behead its general. Peace and tranquillity in the country are further away than ever.

INFORMATION TO MINERS.

White Oaks, Jan. 24, 1901.
Editor EAGLE:
Dear Sir:

So many accidents are reported caused by warming explosives containing Nitro Glycerine I want to reccommend a method I have used for years.

Heat sand or fine earth over a forge, stove or open fire in any kind of pan or dish until it feels warm to the hand, then pour into a box about an inch in depth lay on a number of catridges about ½ inch apart then another layer of dirt with more powder until all you need for the day. It will soon be ready for use and will keep warm all day without danger of accident. Nitro Glycerine gives off a sensitive gas when heated above 200 degrees and a sudden raising of temperature to that heat is dangerous. Any heat in which you can bear to hold your hand is safe; so keep within that limit.

H. C. CRARY.

THE MOTHER'S FAVORITE.

Chamberlain's Cough Remedy is the mother's favorite. It is pleasant and safe for children to take and always cures. It is intended especially for coughs, colds, croup and whooping cough, and is the best medicine made for these diseases. There is not the least danger in giving it to children for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by M. G. Paden.

COPPER IN THE ORGANS.

F. T. Anderson, of the Anderson Investment company, received from his father, R. Y. Anderson, this morning a letter which confirms the report in The Herald several days ago that a rich strike had been made in the Torpedo mine in the Organ district.

The strike was made Friday and was made in a drift which was being run eastward from their main shaft at a depth of 200 feet. The ore is iron heavily charged with native copper and is something entirely different from anything ever found in the Torpedo.

Heretofore there has been nothing but low grade ore encountered and it was the belief of the operators that something better would be found at the water level, which was the case. The vein of this new find has been cross-cut seven feet and the extent horizontally has not yet been determined.

No assays of the ore have yet been made but it is not necessary to be an assayer to see that it is a high grade copper ore and that it will probably assay at least 50 per cent copper. This is the estimated value of the top of the newly discovered vein and it is reasonable to believe that it will be like nearly all others and get richer with depth.—El Paso Herald.

BEWARE OF FAKIRS.

In Las Vegas, many people are confined to their beds on account of having received treatment from a fake doctor some time ago who used Polynese oil and needles. The parts treated, usually the arms, are in bad shape. In some cases the skin has fallen off the arms from the shoulder to the hand. An effort was made to have the grand jury, which was in session about the time the man was there, to indict the man but it failed to do so and many feel that the grand jury was remiss in the discharge of its duties.

THE TEMPERANCE CRUSADE IN KANSAS.

ENTERPRISE, Kan., Jan. 24.—A street fight between women, led on one side by Mrs. Carrie Nation, saloon wrecker, with a following of the W. C. T. U., and on the other by Mrs. John Schilling, wife of the manager of a saloon wrecked yesterday, backed by a dozen women, who championed the saloons, occurred here today. Mrs. Nation was struck repeatedly with a horsewhip. She swore out warrants against Mrs. Schilling and her husband, charging her with disturbing the peace. All were arrested, and released on bonds.

NOTICE OF SUIT.

In Justice Court, Precinct No. 8, Lincoln County, N. M.

The Taliaferro Mercantile & Trading Company, a Corporation, plaintiff,
vs.
E. H. Preswick, et al, and The Boston Boy Mining Company, a Copartnership, defendants.

To The Boston Boy Mining Company:

You are hereby notified that suit has been brought in above named court by the Taliaferro Mercantile and Trading Company a corporation, against you on an open book account, for Fifty One and Seventy One-Hundredth Dollars and costs of suit, and that a writ has been issued and your property attached to satisfy said indebtedness. That unless you enter your appearance in said cause on or before the 9th day February, 1901, at 10 o'clock a. m., judgment by default will be rendered against you, and your property ordered sold to satisfy said judgment.

Plaintiff's Attorney is J. E. Wharton, White Oaks, N. M.

JOHN W. OWEN,
Constable.

This Dec. 24, 1900.

BELGIAN HARES.

In order to supply the greatly increased demand for Belgian hares of all grades, I have secured an agency from one of the leading breeders of Los Angeles, and am prepared to fill orders from here promptly for any number or grade at the following prices:

With pedigrees, from $5 to $35 each.

Without pedigrees, from $2.50 to $10 each.

When in El Paso call and inspect my stock at the Natatorium, north side of the Plaza.

For further particulars address,
WEST TEXAS BELGIAN HARE CO.,
Box 856, El Paso, Tex.

OPPOSSED TO THE LEASE LAW.

At the recent meeting of the Live Stock Association in Salt Lake City the question of a National Lease Law was brought before the body. The delegations from New Mexico, Arizona, Utah, Idaho and Texas voted solidly against the measure, and with the aid of parts of delegations from other states the defeat of the proposition was effected. A fund of $1,000 was raised to send a committee to Washington to fight the measure when it comes up in congress.
