HOME ENTERPRISE

LIFE OF A TOWN.

The Las Vegas Optic hits the bulls-eye in the following article on the subject of public enterprise and the article is particularly applicable to present conditions in White Oaks. Public enterprise is almost entirely overlooked here in a headlong race for personal gain, and petty jelousies and minor differences are the rule rather than the exception from business circles to church government. A change must come over us, else we must be our own executioners. It is time to silence the croakers and export the knockers. Let every man, woman and child do or say something or better, both do and say something, for the good of the town and community this year instead of holding to the old narrow guage theory of how much is there in it for "Me". It is the opinion of the EAGLE that a good way to atone for our lack of public spirit in the past, would be to stand by and liberally aid and encourage financially and otherwise the local company now trying bring water into the city. All want water-works and recognize the good water would accomplish, and now the opportunity for every man to show just how much he is interested in the future of his own town is wide open.

The Optic as we said at the beginning, is alive to the necessity of home enterprize to the prosperity of a town and discourses as follows:

"Public enterprise is an essential requisite for any town that aspires to keep pace with the progress of the age. Public improvements become necessary to every town as it increases in size and importance. To secure the advantages it requires the united efforts of all liberal and lively citizens. There are always enough to oppose every enterprise that involves the expenditure of money. There is in every town a class of men who oppose every class of public improvement that is proposed. They accept the privileges which the efforts of others have already secured, but are unwilling to pay their own proportion to secure further progress. There are also a class of men who take to themselves the credit for all public improvements and imagine it would be a dull town without their effort, who really retard the progress of the town in which they are located.

A man who looks upon enterprise with sole reference to the direct benefit it will be to him, favoring it only when his profit therefrom will vastly exceed his task, displays his selfishness. The man who favors a project only when he can control it, or comes through a particular channel in which he moves, is too weak in the upper story to be of any benefit to the town outside of his own door yard. The man who gives the cold shoulder to the stranger, unless he belongs to his church, or identifies himself with the mutual admiration society which many narrow-minded men seek to build up around them, actually injures the growth of the place.

The true public spirited citizen favors every improvement that can be secured for any reasonable outlay of money. He never stops to figure out his individual profit on what is to be bought with the people's money. Whether he has children to educate or not, he is willing to help pay for good school buildings, and good schools. He is liberal in his views, respects differnces of opinion, and encourages every good work, let it come from source it may. He extends the right hand of fellowship to every new comer, aiding him by every means in his power, asking only that he become a good and useful citizen. He has no differences with men on account of their church, social or political relations, but unites heartily and earnestly with all in the effort to accomplish the greatest good to the greatest number. When genunine, liberal, public-spirited men are sustained as they deserve by the community, the growth and prosperity of a town is secured. If selfish, one-idea pretenders obtain a following, they thrive at the public expense."

OKLAHOMA LETTER.

The Boys From White Oaks Having a Lively experience.

When we left W. O. it was "Oklahoma or Bust", now it is "Oklahoma and Busted", but I believe I have enough stamps left to send this so here we are. We had a very pleasant journey until we left the "Santa Fe" at Higgins, Texas, and crossed the line into Day Co. O. T. There we struck some of the hardest water I ever heard of. We crossed the Canadian River below Grand, county seat of Day, and the river bed was perfectly dry.

We arrived at Texas, Day Co., Mar. 22, and went to Cheyenne for two days, then we came through the Cheyenne Agency at Hammond, to this place and went to work next day. This is a new town started by the "Choctaw Ry. Townsite Co., 47 miles west of Weatherford, O. T., and on the "Choctaw" extension to Amarillo, Texas. It is on the head of Elk Creek which creek runs through some very fine country in the Kiowa. The first lots were sold March 22 and it is now a town of about 500 inhabitants and they are still coming. It has a dozen stores of different kinds, a score of restaurants, two saloons, a large livery stable, a hotel and a bank will be here in two weeks. There are about 25 resident buildings going up at present, and the whole flat is covered with tents. The "Frisco" surveyors went through the other day on the old survey and there is talk of them building through here from Oklahoma city to connect with El Paso and Rock Island. They have contractors figuring on the work so it looks like business.

A very fine farming section surrounds this place, but wood is a scarce article, coal is $15, per ton, yet it is cheaper than wood. I have not seen the Kiowa country yet but there will be 9,000 quarter sections open to homestead entry after the Indians get their allotments, 480,000 acres are taken out for Indian pasture lands, the school land and 93 sections of unsurveyed, or mineral, lands are taken out. Most of the people here who are in for the fair thing, are in favor of the lottery plan of opening and since I have been here and seen the conditions I have become a convert to that plan myself.

I am going to try to go through the Kiowa in about a month and it may be I can tell you more about it.

A person will not be able to get a home in the Choctaw and Chickasha countries for over five years yet. They have more and harder winds in this country than they have in N. M. and the changes in temperture are frequent and rapid so a man who is not used to it always has a "frog in his throat." There has been one cyclone near here since I came and most of the buildings and tents were wrecked here last Friday. We saved the tent we were in by hard work.

I will close for this time. Give the boys my best. Excuse pencil for ink is as scarce as wood and I am sitting on a bed to write.

Yours truly,
ERNEST LANGSTON.

DR. SNYDER KILLED.

Dr G. W. Snyder who has made his home in our valley for the past two years was accidently killed last Saturday. He was accompanied by Miss Rice of Chicago, they left La Luz for Parsons and when they arrived about two miles south of Ruidoso Post office, the Dr. rolled out of the hack, they think he fell asleep, which caused him to fall. He took the lines with him and the excited team ran away and threw Miss Rice out of the buggy but without serious injury; the team did not run far, and nothing was broken. The accident occurred at noon and the Doctor died at 5:00 o'clock the same evening. He suffered considerable, but his mind was lucid most of the time; his business prospects were bright and he desired to live. His last words were "Amen for ever".

Doctor Snyder had enjoyed a friendly revenue from his practice, was an exceedingly bright man with an executive brain, and had engineered some very large deals.

He was a Methodist preacher, he had no theological dogmas in his mentality, but he believed in the fatherhood of God and the brotherhood of man.

Your correspondent's aquaintance with Dr. Snyder extended back twenty years. His place will never be filled in this community.

A few varieties of peaches, plums and pears, are just beginning to bloom, the other varieties will not bloom till a week later. In these sheltered valleys the temperature in extreme weather is ten degrees less severe both of heat and cold than in the other countries at lower levels. The late blooming is an advantage as the fruit is not so liable to be cut by belated continental storms. This gives us a shorter growing season which is rather a disadvantage for peaches and pears, which thrive in sections of long hot summers; but too much heat injures the apple. Limestone regions grow large apples, and tree, but the flavor is not to be compared with the fruit grown on the mineral soils of our mountains.

The McIvers Co. has a large force still at work, principally on road way, preliminary for a large plant—I hear of other mines that are about starting up, and it now looks as if the mining industries are going to be very active this summer in the valley.

THAT SANTA FE RING.

It is well known to men of all parties in New Mexico, that there is a certain element at Santa Fe that has no visible means of support except plundering the territorial treasury, and any official who attempts to place obstcales in the way of this "business", is an enemy, who must be put out of the way, no matter what means have to be employed.—Albuquerque Journal Democrat.

This statement from the Journal Democratic is as surprising as it is true. Certainly all parties have known the situation at Santa Fe, and the democratic press of the territory has been vigilant in its condemnation of the conniving tricksters of the ancient hole of iniquity, and the stench has now become so nauseating that the republican press can no longer tolerate it. Go it J.—D. the Capital has probably given you a pointer.

Col. J. Francisco Chavez, the Valencia county statesman, who was appointed Supt. of Public Instruction of the territory; would probably make a better governor than Otero, but knows as little about the necessities of the public schools of New Mexico as a burro does about constitutional law. This is only a fair example of Otero politics, and is a blow to statehood that will reach the home plate. There is not a decent public school in Col. Chaves' county, and the majority of the county's inhabitants neither read nor write the English language.

HOAR DENIES.

Senator Hoar denies making the statement comparing Aguinaldo to Weshington. In explanation of his position, he says:

I have likened him to Boliver and Garibaldi and to other famous lovers of liberty, and to Toussaint L'Overture and to Kossuth. I have never regretted that comparison, and I have never been more disposed to make it than now in the days of his adversity. But I believe, if I am not much mistaken, I have always refrained from comparing any living man with Washington."

The senator's letter concludes: "This whole business of the capture of Aguinaldo is miserable and pitiful."

FOUND IN THE DESERT.

A dispatch from Phoenix says it is almost certain that the body of a man found in the desert near Tonto Basin is that of Al Watkins, who left Gallup with a prospecting outfit a year ago.

Considerable improvments are to be made in the railroad shops at Alamogordo to increase their efficiency. An order was recently sent to Chicago for $15,000 worth of new machinery, including planes, lathes, which is expected to arrive in about six weeks.

OF LOCAL INTEREST.

HEAVY LOSSES BY FIRE.

Monday night about 1:00 o'clock fire broke out in the Little Casino saloon on White Oaks Avenue, and had such headway when discovered that all efforts of the citizens to overcome it were vain. The saloon with its entire contents was destroyed. The net loss above insurance is estimated to be $3,500. The only insurance held by Mr. A. Schinzing, the proprietor, was $1,250 on stock.

A business house and barber shop on joining lots to the saloon with their entire contents burned up, also a saddle and harness shop and a grain house on the same street, and a portion of a coral belonging to Mrs. Gallacher. The barber shop belonging to M. Whiteman had no insurance. P. Schofield barber, the occupant, had $200. insurance on his fixtures. The business house, property of Ulrick and McDonald, the saddle shop and grain house had no insurance. A small amount of grain, a scale and saddle, property of Ziegler Bros. was the contents of the granary.

Its thought that without question the fire was of incendiary origin, as there was not a vestige of fire in the building at 10:30 o'clock when the saloon was closed up. The entire loss to all parties will aggregate about $6,000.

THE GRIM MESSENGER.

Franklin S. Ridgway, son of Mr. and Mrs. Arnold Ridgway of this place, died Thursday morning at 1:00 o'clock, of congestion of the stomach and bowels. Frank was a very bright and congenial little boy of 10 years of age, and his death is a sad and sorrowful blow to the parents and relatives. The EAGLE with other friends joins in extending sympathy to the bereaved family in this time of extreme sorrow, which attends the hearts of a mother and father when called upon by God to surrender the bright light of a child's life from the household.

The funeral service will take place Friday afternoon at 2:00 from the Congregational church.

The funeral ceremonies will be coducted by Rev. Henery G. Miller, the congregational minester.

HOLLARS McDONALD MARRIAGE.

The EAGLE received a dispatch from John A. Hollars Tuesday morning, stating that the ceremony of his marriage to Miss Lula McDonald of Burnet, Texas, had just been celebrated at Austin, and that they intended leaving immediately for Denver, Colorado, their future home. The EAGLE joins with the many friends of both in White Oaks in wishing them a happy and successful future.

Correspondence.

The American Placer Co. has now all their pipe down, only waiting for a reducer for their 5 inch, to 3 inch pipe, then they will be ready to start the machine, which will be in about ten days. Everything is going nicely under the management of Mr. Hatfield, who has charge of the entire work.

E. L. Ozanne has struck more very good ore on "The Dark Cloud" claim which greatly enhances the value of same.

Professor Schwartz and S. C. Wiener visited the camp Sunday. The Prof. was very much pleased with the view of this and the surrounding country; also with the mineral outlook.

Geo. Wiesher has a four foot vein of ore which assays $14 in gold, and 2½ per cent copper, on the west end of the Knickerbocker claim.

Mat C. Price says he has ore that runs $50 in gold on the Southeast side of Jack Mountain.

F. I. Marsh is back among us again. and at work in Jack Mountain. Success awaits the man who keeps on trying.

The grip is on the eve of departure from this part of the country, and we will rejoice when it does go. Most every one has it, and wants to get rid of it. It comes without asking and goeth not on man's bidding.

C. B. Williams of Roswell, is looking over the camp with the view of investing in mining property. He is much pleased with the visible resources of the district.

OSCURA COPPER BOOM.

Something over 100,000 feet of lumber has been unloaded at Malagra this week for new buildings in process of erection in the Oscuras. Thirty dwelling houses are now going up and many other improvments under way. Prospectors are flocking there from the surrounding country.

The work of erecting the leaching plant is reported to have begun. E. R. Cline and Billie Duran are among the number of visitors to the distict from White Oaks this week. Jas. Lee and Allen Curtis were out a few days ago, also Jacob Ziegler, of the firm of Ziegler Bros. who reports the prospective future of the camp very bright.

W. P. Turner, of Turner and James, Territory agents for Laidlow Markill & Co's. celebrated Tobacco sheep dip, was in from Roswell Friday, in the interest of this dip. He expects to complete arrangements for a test near here soon. The dip is guaranteed, to kill scab, and not to injure the wool, in fact wool growers after using this dip pay a better price for it than for any other dip in use.

TAXES TO BE DEDUCTED.

Among the laws passed by the recent legislative assembly was one of general interest, being with reference to bills allowed by boards of county commissioners. It provides that hereafter when any bills are allowed and ordered paid by any board of county commissioners, the same shall have stamped or printed on the face thereof by the clerk of said board, the following words, "subject, however, to the payment of any taxes, penalties and cost thereon due from the payee or any assignee, as shown by the tax rolls of said county, which is to be deducted therefrom," and any warrant, order of certificate drawn for the payment of any such bill shall have stamped, written or printed on the face thereof, the above words in quotation which shall be so placed thereon by said clerk of said board.

Whenever said bill, warrant, order or certificate is presented to the treasurer of said county for payment, he shall first deduct therefrom the amount of taxes, penalties and costs thereon due by said payee or any assignee thereof, as shown by the tax rolls of said county, and pay over the balance, of any funds on hands out of which the same is ordered paid, and issue a receipt for the amount of taxes, penalties and costs so deducted and paid.

AN INCOME TAX.

The Well known republican congressman Grosvenor of Ohio, has declared himself in favor of an income tax, and affirms that there is no fairer or more equitable tax than that which is levied upon profits and gains from business and inheritances. He refers to the fact that the growth of the country causes a steady increase in our national expenses, and adds;

"The cheapening of production by the American manufacturer has opened the markets of the world to the products of American capital and industry. One of the necessary incidental results of this growth of trade abroad has been and will continue to be the diminution of our import trade and a consequent shrinkage of the receipts of the treasury from import duties. So we have the pectacle of a large growing increase of expenditure and a decrease of receipts from this source, and yet the money must be raised."

Killed Himself.

Paul Warren son of the late Judge Henry L. Warren, of Albuquerque committed suicide at San Francisco a few days ago. Young Warren was with Rosevelt's Rough Riders in Cuba, and after the Spanish war enlisted in the Philippine service. He was Mustered out only a short time ago. Despondency resulting from financial troubles is given as the cause of warren taking his life.

An Important Decision.

The case of the Brown & Manzanares Company vs. Francisco Chavez, which was decided in the supreme court of the United States this week, is an important one from a legal standpoint. The decision confirms the decision of the New Mexico supreme court that under the New Mexico statute a judgment can not be revived after seven years by scire facias or any other legal process. The opinion of the New Mexico supreme court had been written by Judge John R. McFie. The appeal was from the second judicial district. Hon. B. S. Rodey represented the defendant and Hon. W. B. Childers the plaintiff. The amount involved was about $15,000.—New Mexican.

Chas D. Pierce, official representative of the Boer government denies that President Kruger will come to the United States in May. Kruger may visit this country next fall is the statement of Mr. Pierce.

Delegate Rodey says the way New Mexico is filling up with people is astonishing. He judges by the number of applications which he receives asking for his assistance in securing new post-offices.

A FATAL CATTLE DISEASE.

The officials of the agricultural department at Washington are closely watching all reports from abroad regarding the extent of the foot and mouth disease,, a fatal maladay that is raging among live stock in almost every country throughout Europe. For the last three years the out break has been general in the European Continent and the reports constantly arriving from various points do not indicate any diminution in its extent. The government as it has done since the epidemic reached such alarming dimensions, is refusing to admit any cattle, sheep or swine, except from the British Isles. This is done not only to protect the vast live stock interests of this country, but also to protect our $30,000,000 or $40,000,000 annual export trade in cattle—Optic.
