THE GOVERNOR CRITICISED.

Governor Otero has been weighed in the balance of public opinion, and he has been found wanting. Found wanting in every qualification which goes to make up a good and faithful executive! Found wanting in political honesty and integrity? Found wanting in competency and executive ability? Found wanting in sympathy with the wants and requirements of the people? Found wanting in harmonizing and uniting his party in the territory? A brawler, disturber and meddler in local politics; a disorganizer and bolter in convention, and a consorter with the worst element of the republican party he has compelled the best and most respectable members of it to stand aloof from the ring practices, and support only honest men and party measures. Their sense of honor and of pure republicanism has been shocked at the manner in which the ring under Governor Otero, has carried out their schemes and wrongful designs.

In the appointments of officials he has selected for the most important offices, men of unscrupulous characters and bad records to aid him in his high handed work of obtaining political supremacy and power. The public treasury has been used illegally and lavishly to raise his own revenues, and the salaries and contingent expenses of his officials to strengthen their positions and his political influence. The late legislature was used as a political machine, and a large portion of the members of both houses were appointed to office as rewards for their servile support to his measures.

Heavy burdens of taxations have been imposed upon the taxpayers without any corresponding benefits to the people, that the perquisites of his appointees might be increased. The territory is loaded down with expensive commissions that new offices might be created to furnish new appointees to increase his patronage. As an instance in the St. Louis exposition commission, at his own request the commission originally named of three members was increased to seven that he might appoint figure heads of influence to help him politically. To have a henchmen at every polling place in the territory he planned and signed the bill giving the power to sheriffs to appoint an unlimited number of deputies, for no other purpose than to intimidate voters who would dare to oppose his policy, and to aid certain favored corporations to put down laboring men who dared to assert their rights to strike for reforms in their labor or wages. These corporations are now we understand his strongest supporters for re-appointment.

The act passed last winter by the legislature giving him the power to fill vacancies in county offices, was but another politieal scheme to intimidate and hold the rod of power over elective officials as against the will of the people.

In school matters he has utterly failed to protect the public school funds by not compelling his officials to prosecute those indebted to it for thousands of dollars and by permitting it to be raided for the benefit of officials of his appointment.

For these and many other reasons of equal weight and importance we opposed his re-appointment, and have presented our solemn protest to the President, and the Hon. Secretary of the Interior, and we feel confident the prayer will be heard. The Capital.

DESTRUCTIVE HAIL STORM.

The hail storm southeast of Raton last Friday was the heaviest and most destructive that has visited Colfax county in many years. The greatest damage was done in the Una de Gato country, where about three hundred lambs belonging to the Troy Bros. were killed and the orchard embracing 300 or 400 trees on the ranch of John McCowan was greatly damaged and the trees totally denuded of fruit and foliage.

It is reported that hail lay on the ground in places to a depth of 12 to 18 inches on level. In the immediate vicinity of Raton no damage was done. Raton Range.

CERRILLOS RAILROAD SOLD.

The property of the Cerrillos Coal Railroad Co., operating a branch of the Santa Fe railroad, and coal mines at Cerillos has been sold at Masters Sale under foreclosure of a Mortgage $800,000, for $460,000, to the Cherokee and Pittsburg Coal and Mining Co.

WORKS LIKE A CHARM.

The eight hour system went into effect in Montana May 1. Most mining companies had made themselves ready for the change when it came and there was no friction or bother about it in any way. The law also applies to coal mines who although paid by the ton came under the law governing underground mining.

MINING INDUSTRY PROMISIMG.

The records of the secretary of the territory show that many new industrial companies are being organized and many organized else where are filing certified articles of incorporation to do business here. Companies organized for mining purposes take the lead. This proves that the mining industry of the territory is taking rapid strides forward. Among the counties most in demand when it comes to mines seems to be the county of Grant. This county, although it recently lost some territory, is one of the richest and best counties in the territory. New Mexican.

SUB-OCEAN DANGER SIGNAL.

Prof. Elisha Gray of Boston sat on a river bank one day idly watching some boys who were swiming, when an idea occurred to him, and it was this: By striking a sumerged bell the sound may be heard and understood at a distance of 12 miles at sea. The importance of this mere statement is not at once realized, but the discovery is really one of the most vital of the new century. The loudest of steam sirens that are used to warn vessels of danger in foggy weather, and which are supposed to sound their warnings audibly for 15 miles, at times can not be heard a ship's length, says the Ledger Monthly. This is due to atmospheric disturbances, and neither the Americans nor the English, after years of effort, have been able to overcome it. But there are no water disturbances of the same kind. In other words, there is nothing under the water to interfere with the transmission, of sound. To send the sound therefore, is easy; but to receive it automatically is another thing, and it is the receiver that is the most important part of Prof. Gray's invention. Two ears, one on either side of the bow of a vessel, communicate with an apparatus in the wheelhouse, and the vibrations of sound coming through the water are transmitted to a bell in the wheelhouse, which rings in sympathy with the one that is far away; striking stroke for stroke and performing the work instantaneously. Thus, literarelly, the ship is made to hear for its own safety. It can readily be seen how an infinite arrangement of numbers may be devised by which ships may always be informed of their exact location or of the exact location of another vessel that is approaching. There is another point, also, which renders the invention an important one: it goes far to overcome the terrors imbued by the creation of the submarine torpedo boat. A warship supplied with Prof. Gray's invention that is, with the receiving apparatus could detect instantly the approach of a torpedo boat while it was many miles distant, and could therefore easily avoid it, for the receiver both sees and hears in the sense that it locates exactly the position of the sound that it records. Chicago Journal.

CONFEDERATE VETERANS.

Memphis, Tenn., May 30. Marching once more beneath their battle flags, their hearts aflame with memories of forty years ago, their advance and halt once more regulated by the battle blasts, their steps again timed by the tap of the drums, 4,000 ex-confederate soldiers marched through the streets of Memphis today. As their columns passed along the crowded streets, cheers that came to them from the throngs that lined the thoroughfares, fervent applause that floated down from balconies, windows and house tops caused the old eyes to brighten, the old shoulders to spring backward and the marching ranks to close. A detail of mounted police led the way and cleared the streets for clattering squads of horsemen acting as escort for General Gordon, who, preceded by the band of First Ohio infantry from Cincinati, rode slowly along. His right hand was in almost ceaseless motion as he raised his hat to acknowledge the cheers that came to him from all sides.

In the parade were Generals Fitzhugh Lee and Joseph Wheeler and Judge Reagan, the only surviving member of the cabinet of Jefferson Davis.

THURSDAY JUNE 6, 1901.

We publish a long article from the Capital criticising Gov. Otero. We do not do this because we dislike Gov. Otero, or because we are in sympathy with the Capital, as the light of that paper we are led to believe is more mercenary than because of any interest in the general welfare of the people of New Mexico. But, we do oppose the appointment, or the election of men to high offices, who, as does the Governor, put selfish interests above the public good. Gov. Otero is recklessly extravagant and has permitted the treasury of the territory and even the public school fund, to be looted in the interest of himself and his friends. This alone causes us to oppose the Governor. No man is fit to occupy that office who does not favor economy in public expenditures, and instead of doing this Gov. Otero has encouraged extravagance wholy unjust and unwarranted. By doing this he has strengthened himself with a certain element of the party in the Territory, that portion of the party that have received the benefits of his favoritism. If proof is demanded of his unfitness for the office, we refer to the coal oil inspection which gave all the fees to the inspector and thus took from the public school fund about ten thousand dollars during the last two years, which law was passed by the 33rd Legislative Assembly and signed by Gov. Otero. Again, a prominent republican politician which had held the office of coal oil inspector, under the original act which required him to turn over to the public school fund all the fees except $2,000, did not turn in a dollar, and was notwithstanding his embezzlement of several thousand dollars of the public school fund, again appointed by Gov. Otero to a responsible position. We do not speak from actual personal knowledge of the facts as to this last case, but from charges made at the time, and since repeatedly made by the Capital, and never denied, so far as we have heard. Suits were instituted against the defaulting coal oil inspectors, but never pushed for trial and finally dropped as is currently reported. We know whereof we speak as to the coal oil inspection act giving all the fees to the inspector, and if the other charges are not true, then this act of the Governor's alone, brands him as unworthy of the high office he now holds. We hope to see a conservative and honest man appointed in his stead.

Ocasionally we see some statement in the New Mexican as to what is being done by the Immigration Bureau, However, we have never heard from any other source that this same bureau has ever accomplished any thing beneficial to New Mexico, and we know that during all the years of its existence, it has never done one particle of good for this section of the Territory. We have never heard a man in Lincoln County, receiving an inquiry as to any of the resources of this section, by reason of any information which had come to outsiders through this same bureau of Immigration, and know of no one who come here as a result of information furnished by the Bureau of Immigration. Again, while this part of New Mexico has almost unlimited resources, if this Bureau has ever sent a representive here, or in anyway broiught same to the attention of outsiders, we have never heard any thing of it. In other words the Bureau of Immigration is a fraud as now operated and controled and ought long since to have been abolished. It is simply kept in existence for the benefit of Max Frost who in turn "whoop her up" for the republican party.

A Mine recently located on Cave Creek near Tucson, Ariz., yields ore assaying $1000 per ton. It has caused a rush to the Cave Creek country. A find of copper in the Guadalupe Mountains south of the Sacramentos, yields 50 per cent copper. The owners are preparing to ship the ore to El Paso. This is the first find of paying ore, so far as we have heard in the Guadalupe range.

Four thousand veterans marched in line at the Confederate Reunion at Memphis, Tennessee. Generals Gordon, Fitzhugh Lee, Joe Wheeler and other officers of the Lost cause, marched at the head of the procession. The next reunion will be held at Dallas, Texas.

The El Paso Carnival Committee has decided to hold another carnival at that city next January. This is right and that El Paso Chamber of Commerce is doing good work for the city.

A movement has been inaugurated for a union depot at El Paso. Hope it may succeed as the time has arrived when such a depot will greatly benefit the public.

During the past year 130,126 head of cattle were shipped and driven out of the Territory and 4865 head of stock cattle shipped in. The cattle sent out were mostly steers.

The storm of May 31 did great damage to crops throughout North Texas, in many places destroying every thing in the fields and orchards. Hail stones as large as turkey eggs fell and completely covered the ground.

Geo. Mulligan, of Liberal, Kansas, who is connected with a mining company in Alaska, was robbed of $17,000 at Seattle. Some men know how to make money, but don't know how to take care of it. He carried his money while visiting the slums and was held up in a dark alley.

A California company has asked for a franchise for water works at El Paso. This company offers to pipe the artisian water from near Fort Bliss to El Paso. This water is the best obtainable, being pronounced better than Deming water which is now hauled to El Paso by the Southern Pacific railroad and sold to consummers.

Cloudcroft hotel was opened to the public June 1. Excursion trains will run regularly during the summer months to this resort which has become quite well known throughtout the south west.

SHERIFF'S SALE.

Notice is hereby given, that by virtue of an execution issued out of the District Court within and for the County of Bernalillo, Territory of New Mexico, on the 23rd day of February, A. D. 1901, addressed to the Sheriff of Lincoln County, in cause No. 5776, wherein Mandell Bros. & Co. are plaintiffs and A. Henley & Son and M. D. Gaylord and Thomas W. Henley and William J. Henley are defendants, I have levied upon the following described property, to wit:

All the right, title and interest of Thomas W. Henley and William J. Henley as heirs at law of Allen Henley deceased in and to the following described real estate situated in the County of Lincoln, and Territory of New Mexico, to wit: The west half of the north west quarter of Sec. 13, Tp. 10, S. of Range 13 East; The west half of the north east quarter of Sec 14, Tp. 10. S. of Range 13 East; The west half of the south east quarter and lots 6 and 7 of Sec. 5, Tp. 9. S. of Range 13, East, lots 8, 9 and 12 of block 56; lot 10 of block 58; lots 7, 8, 9, 10 and 12 of block 60; lots 1, 3, 4, 5, 6, 10 and 12 of block 61; lots 2, 3, 6, 7, 10 and 11 of block 81; the west half of lot 5 and all of lots 1 and 4 of block 82, all of blocks 63, 65, 78 and 80, all said lots and blocks being in the town of Nogal.

I also levied upon lot 1 in block 58 and lot 3 in block 60 in the town of Nogal as the property of the said William J. Henley.

I also levied upon lots 8 and 9 in block 20 in the town of Nogal and also that sub division of the south east quarter of the north west quarter of Sec. 32 in Tp 8, S. of Range 13 East known as lot No. 3 and described as follows: Beginning at the north west corner of lot No 2 for the south west corner of this lot, whence the south west corner of said south east quarter of north west quarter of Sec. 32 bears south 330 feet, thence east along the line of lot 3; 1320 feet to the south east corner, thence north 165 feet to the north east corner, thence west 1320 feet to the north west corner, thence south 165 feet to the place of beginning, containing five acres, as the property of Thomas W. Henley, all of said above described property being in the County of Lincoln and Territory of New Mexico.

Notice is hereby given that by virtue of a writ of Venditioni Exponas to me directed, on Monday, the 8th day of July, A. D. 1901, at the hour of ten o'clock a. m., at the front door of the Court House in the Town of Lincoln, Lincoln County aforesaid, I will offer the above described property for sale at public vendue to the highest and best bidder for cash, to satisfy the judgment in said cause, amounting, with interest and costs to the day of sale, not including accruing costs, to the sum of $2,056.16.

OF LOCAL INTEREST.

The foundation of the Little Casino is about complete and the work of laying adobes will proceed at once.

We see many strangers in town these days, most of them from points on the extension of the El Paso & North Eastern rail road.

Editor S. M. Wharton and family and Will Smith and family left Sunday for a ten days outing on the head waters of the Bonito.

Percy Schofield, who has been here the past nine months engaged in the barber business, left for Roswell this morning to take up his trade there.

Kearney Post, G. A. R. and the Knights of Pythias observed Decoration Day by appropriate exercises at their halls and at the cemetery. The people generally turned out and all graves were decorated by relatives and friends.

The White Oaks Water Works Co. has a small force of men at work developing more water in Carizo Mountain. A large supply has already been developed and is now flowing down the canon quite a distance before it sinks.

The Oil excitement has not struck here as yet, though oil indications are known to exist in a number of places near us; with our vast coal area, oil is almost sure to be found when drills are put down to a depth necessary to show what the earth contains.

The report is current that Governor Otero has commuted the sentence of Jose Maria Rivera to life imprisonment. Rivera was sentenced at the recent term of District Court in this county for the murder of Jose de La Luz Leal, the tragedy having taken place in this place last June.

We have had good rains during May and the ranges are fine. Stock went through the winter well and cattle and horses are now in fine shape. Lincoln county is undoubtedly the best stock country in the Territory, a fact which should be heeded by these wanting to engage in any kind of stock raising, as we have lots of range not occupied where plenty of water can be had for stock.

NOTICE TO THE PUBLIC.

In retiring from the management of the Hotel Ozanne, the undersigned wish to tender their cordial thanks to their friends and the traveling public for the many favors shown them and for their kind patronage.

Our success or Mr. Fletcher Lund and his wife are too well known to the people of White Oaks, and Lincoln County to require an introduction; we bespeak for them the same liberal patronage that has been extended to us and trust their success will be abundant and continuous.

The Eagle must have lost a pinion or so from his wings as he did not arrive at our office till monday, some of us think he arrived at Capitan Friday evening, but was held a captive in the mail car till after 6:30 A. M. when the mail carrier leaves; this would detain him at Capitan three nights.

We had heavy rains Friday and Saturday. One of our citizens who has lived here 33 years says that the past month was the coolest and wettest May that he remembers of. We had a little soft hail which did no damage to vegetation. June is regarded as the dry month of the growing season. The ground is wet down below plow depth, as in excellent tilth for small grain.

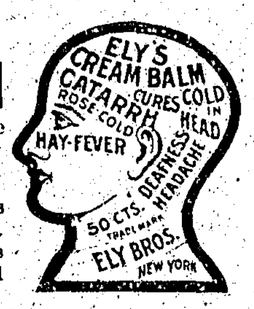
Nasal CATARRH



In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents by mail.

ELY BROTHERS, 56 Warren Street, New York.

MARLIN

INTEREST is being displayed in the use of smokeless powders and jacketed bullets in large calibre rifles. A .45 calibre bullet weighing 500 grains gives a shock to large game that the smaller bores can not always be depended on for. Marlin Model 1895 Repeaters have "Special Smokeless Steel" barrels. For up-to-date information see our catalog. Mailed for 3 stamps.

SANITARIUM FOR CAPITAN.

We take the following article from the El Paso Herald and hope the facts stated are true. No better place for a Sanitarium can be found in New Mexico, or anywhere for that matter, than Capitan.

E. Krause, the architect, and Harry Layton left this morning for Capitan to select a site for a $100,000 sanitarium which is to be built there by eastern capitalists, whom Mr. Layton and S. T. Gray, of Capitan, represent. Mr. Gray went up with them, he having been here on business with Mr. Layton in regard to the enterprise.

Mr. Layton said this morning that the sanitarium would be located on a tract belonging to him and Mr. Gray and would be built of stone, taken from the same land. They think the location a good one for the institution as it will be easily reached from the north and east over the Rock Island when the connection of that road with the E. P. & N. E. is completed.

THREE RIVERS NEWS.

Correspondence.

Three Rivers, N. M. 03-1901.

A. M. Hill of Roswell, was here and bought all the wool in this section, paying 9 cts.

M. A. Wharton & Co., have just received a carload of flour and grain, which they sell at the lowest market prices. The Three Rivers store fills the bill as they have every thing and sell as low as any.

We have had a good rain and as it had been very dry, it was greatly appreciated. The farmers are cutting the first crop of alfalfa and the yield is good. The second crop will also be heavy.

We have had no cattle buyers with us as yet, and if one will come amongst us and buy the steer yearlings, Three Rivers will be all right. Our cattle are in fair condition though the spring has been a dry one till a few days since.

JICARILLA ITEMS.

Correspondence.

Geo. Weisher has suspended work temporarily awaiting to hear from his partner in the east.

School opened here last Monday May 29, 1901 with 10 children in attendance with the addition of 8 more during the week.

The Election for school Trustees went off very quiet. McBrayer, Jose Montoya and Joe Ross were elected for 1, 2 & 3 years.

Thomas Howell of Colo. springs is here helping Mr. E. D. Talbert to do some work on his claims. Mr. Talbert is now working a force of men on the E. H. & Devide claim.

Oil locations have recently been made at Gallup, Cook's Peak, Carlsbad and Roswell and now both Capitan and White Oaks are excited over the grease question.

BIG COAL DEAL.

Mention was made in the RANGE some time ago of the sale of 22,000 acres of coal land by J. B. Dawson to the Rock Island railroad company, but the deal was really not closed until last week, when the deed was filed for record. The number of acres given were correct but the transfer was made to the New Mexico Railroad and Coal Co. Range.

EATING HORSE MEAT

It is said that the horse abattoir at Linnton, which was shut down last fall, has started up again. As conditions are more favorable for its successful operation, it is likely to be kept running indefinitely. About 800 cayuse ponies have been sent in from the ranges and it is probable that 10,000 will be slaughtered this year. It is estimated that there are more than 500,000 cayuse ponies ranging over the country tributary to this market. Stockmen are very anxious that these horses should be driven away, to preserve the ranges, to cattle and sheep. Horse meat has found favor in Sweden and Norway, and several orders have been received from there.—Chicago Journal.

DIED IN HER BRIDAL DRESS.

The wedding garments of Miss Anna Corrick of East Las Vegas will be used as her burial robes. She was to have been married at six o'clock Saturday evening.

Many of the guests had arrived. The groom-to-be, J. P. Ryan, who lived next door, had called to see her in her bridal dress, and while pleasantly talking to him she fell forward and he caught her in his arms. In less than one minute she was dead. A physician was at once summoned and he gave the cause of her death as heart failure. The young man is almost distracted.

Mr. Ryan has been a resident of East Las Vegas for about one year, having come there from Pueblo, Colo., for his health. He is a son of wealthy parents and is well known in Colorado.

Miss Corrick was a society favorite and well known. She was about 22 years of age. The funeral took place today, and she was buried in her bridal clothes.

BOERS MAKE DESPERATE FIGHT.

British Loss 174 Killed and Wounded.

London May 31. On the anniversary of Lord Roberts' entry into Johannesburg, the country has been startled by desperate fighting and heavy British losses within forty miles of the Gold Reef city. The battle at Vladfontein on the Durban-Johannesburg railroad, reported by Lord Kitchener to-day, is the most serious engagement since General Clements' reverse at Magaliesburg. It shows that Delarey is no way daunted by the capture of eleven of his guns by General Cabington six weeks ago.

Kitchener reports as follows: "General Dickson's force at Vladfontein was attacked yesterday by Delarey's forces and there was severe fighting. The enemy was eventually driven off with heavy loss, leaving thirty-five dead. I regret that our casualties were also severe. The killed and wounded number one hundred and seventy-four. Four officers were killed."

F. B. Stewart of Alamogordo is one of the promoters of a Union Stock Yard for El Paso which the El Paso Herald states will be put in there in a short time, the plans all being completed. The company will be known as the El Paso Union Stock Yards company and will do a general live stock business. Large buildings will be erected at once on the grounds which are on the T. & P. and G. H. roads.—Advertiser.

Seven farmers living on the Rudoso in Lincoln county report the receipt of $7347.47 last year from their apple orchards, according to the Roswell Record. The aggregate acreage of the whole lot was only 30½ acres, or a little over 4½ acres each. The orchards reported upon include the following: Joseph Storms, Gonzales orchard, John Newcomb, Frank Coe, F. N. Coe, G. W. Coe and the Lower Hale orchard.

A Silver City dispatch says: Jose Sanches and Andres Calles, who will be hanged on June 7 unless Gov. Otero interferes, still maintain a stolid indifference to their fate. Calles reads his prayer book a good deal, but hopes strongly for executive clemency, which Gov. Otero will be asked to extend to him on account of his youth. Sanches says he has no hopes of escaping from the gallows, but treats the matter with seeming indifference. Sheriff Goodell received a few days ago from St. Louis the rope purchased for the execution. It is about half an inch in thickness and fixed as is usually done for this gruesome work.

One of the largest land deals made in the Southwest for years was closed in the purchase by Capt. G. W. Littlefield, president of the Littlefield Cattle company and of the American National bank of Austin, Texas, of about 284,000 acres of land from the Capital Syndicate company. The land lies in the Texas Panhandle adjoining the eastern boundry of New Mexico and is as fine a body of grazing land as there is in the country, and belongs to what is known as the Yellow House division of the immense holdings of that company. The price paid was $2 per acre and foots up $568-000. Capt. Littlefield also bought of the same company 5,000 cows from 3 to 8 years old, each cow to have a calf by her side.

A BUSY TOWN.

The bank of Alamogordo is young but useful, as its deposit account shows it is holding $146,000 for the people. Where mills are going night and day and a growing railway has its headquarters there is bound to be money belonging to the workers. Alamogordo is the busiest town in the lower half of New Mexico.

COMMUTATION OF SENTENCE.

Jose Maria Rivera Sentenced to Hang, Receives Executive Clemency.

On yesterday morning Governor Otero carefully examined the papers before him in a executive clemency in the case of Jose Maria Rivera, convicted on the murder of Jose de la Luz Leal, in the town of White Oaks, in August last during a fracas and quarrel at a dance. The petition for executive clemency was signed by many leading citizens of Lincoln county and endorsed by the presiding judge who tried the case, viz: Judge D. H. McMillan. In the petition it was stated that Rivera was of a very low order of intelligence, partly of Yaqui Indian descent; also that he was rather unevenly balanced and did not possess great nerve. Under the law another sentence could have been pronounced that the death penalty, but the circumstances surrounding the case, and the opinion and belief that the murder was not with malice, prepense or premeditated, brought about the application for executive clemency. The judge recommended the petition and gave quite a lengthy history of the case, and in closing states that from his knowledge of the case and of the man and circumstances under which the crime was committed, he considers it a proper case for executive clemency.

The sentence was to have been carried into effect at White Oaks on the 12th of June next. After due and careful examination Governor Otero made an executive order commuting the sentence from death to imprisonment for life in the penitentiary at Santa Fe. The prisoner, who is now in jail at White Oaks, in Lincoln county, will be taken to Santa Fe at an early date to serve out the sentence under the commutation.—Citizen.

Las W. Wilson and Dr. W. M. Walker, two gentlemen of wide experience in irrigating enterprises, have incorporated the Western Ranch and Irrigation company with a capital stock of $1,000,000. They make Aztec, San Juan county, New Mexico, their headquarters. They intend to build two ditches, one from Las Animas river at a point called Cedar Hill to irrigate the mesa land between the Las Animas and the La Plata, and the other from the San Juan river at some point near Aztec to irrigate the Bloomfield and Crouch mesas. The mesa land, now a barren waste, will soon bloom into a green expanse under their careful management.—Las Vegas Review.

NEGRO BEMOANS THE CHANGES.

This new view of the race problem as applied to modern distribution, comes from Athens. An old negro of that town said recently: "Dis heah kentry is no mo' my home. Its attracshums hab all faded an' I jes can't stay roun' heah when the 'possums all am gone. You see, dis heah shuttle fac'ry am eatin' up all de 'simmon trees an' de 'possums am all emigratin' to udder lan's. If de white folks want de nigger ter stay wid 'em an' wuk' fer 'em, dey mus' proteck de 'possum crap, an' de great slaughter ob 'simmon trees mus' stop. Nigger an' 'possum am one an' inseparable now now an' forever.
