THE CRIMSON STORY TOLD BY CZOLGOSZ.

Previously Planned, Says The Assassin: Cold, Bloodedly Executed.

Chicago, Sept. 8.—A special to the Daily News from Buffalo says:

The statement that Leon Czolgosz, made to the police, transcribed and signed by the prisoner, is as follows:

"I was born in Detroit nearly twenty-nine years ago. My parents were Russian Poles. They came here forty-two years ago. I got my education in the public schools of Detroit and then went to Cleveland, where I got work. In Cleveland I read books on socialism and met a great many Socialists. I was pretty well known as a Socialist in the West. After being in Cleveland for several years I went to Chicago, where I remained seven months, after which I went to Newburg, on the outskirts of Cleveland, and went to work in the Newburg wire mills.

"During the last five years I have had as friends anarchists in Chicago, Cleveland, Detroit and other western cities, and I suppose I became more or less bitter. Yes, I know I was bitter. I never had much luck at anything, and this preyed upon me. It made me morose and envious, but what started the craze to kill was a lecture I heard some little time ago by Emma Goldman. She was in Cleveland and I and other anarchists went to hear her. She set me on fire.

"Her doctrine that all rulers should be exterminated was what set me to thinking so that my head nearly split with the pain. Miss Goldman's words went right through me and when I left the lecture I had made up my mind that I would have to do something heroic for the cause I loved.

"Eight days ago, while I was in Chicago, I read in a Chicago newspaper of President McKinley's visit to the Pan-American Exposition at Buffalo. That day I bought a ticket for Buffalo and got here with the determination to do something, but I did not know just what. I thought of shooting the President, but I had not formed a plan.

"I went to live at 1078 Broadway, which is a saloon and hotel. John Nowak, a Pole, a sort of politician who has led his people here, owns it. I told Nowak that I came to see the fair. He knew nothing about what was setting be crazy. I went to the exposition grounds a couple of times a day.

"Not until Tuesday morning did the resolution to shoot the President take hold of me. It was in my heart; there was no escape. I could not have conquered it had my life been at stake. There were thousands of people in town on Tuesday. I heard it was President's Day. All these people seemed bowing to the great ruler. I made up my mind to kill that ruler. I bought a 32-caliber revolver.

"On Tuesday night I went to the fair grounds and was near the railroad gate when the presidential party arrived. I tried to get near him, but the police forced me back. They forced everybody back so that the great ruler could pass. I was close to the President when he got into the grounds, but was afraid to attempt the assassination because there were so many men in the bodyguard that watched him. I was not afraid of them or that I should get hurt, but afraid I might be seized and that my chance would be gone forever.

"Well, he went away that time and I went home. On Wednesday I went to the grounds and stood right near the President, right under him near the the stand from which he spoke.

"I thought half a dozen times of shooting while he was speaking, but I could not get close enough. I was afraid I might miss and then the great crowd was always justling and I was afraid lest my aim fail. I waited Wednesday and the President got into his carriage again and a lot of men were about him and formed a cordon that I could not get through. I was tossed about by the crowd and my spirits were getting pretty low. I was almost hopeless that night as I went home.

"Yesterday morning I went again to the exposition grounds. Emma Goldman's speech was still burning me up. I waited near the central entrance for the President, who was to board his special train from that gate, but the police allowed nobody but the President's party to pass where the train waited, so I stayed at the grounds all day waiting.

"During yesterday I first thought of hiding my pistol under my handkerchief. I was afraid if I had to draw it from my pocket I would be seen and seized by the guards.

"I got to the Temple of Music the first one and waited at the spot where the reception was to be held.

"Then he came, the President—the ruler—and I got in line and trembled until I got right up to him and then I shot him twice through my white handkerchief. I would have fired more, but I was stunned by a blow in the face—a frightful blow that knocked me down—and then everybody jumped on me. I thought I would be killed and was surprised the way they treated me."

Czolgosz ended his story in utter exhaustion. When he had about concluded he was asked:

"Did you really mean to kill the President?"

"I did," was the cold-blooded reply.

WASHINGTON LETTER.

Washington, D. C., Sept. 5.—One by one the tourists at Government expense are returning to their desks. It is remarkable what necessary duties a diligent and patriotic official discovers at some remote point when the July sun makes Washington unendurable. Prof. Hitchcock of the Agricultural Department, for instance, found it necessary to inspect the harbors of Alaska. Prof. Moore of the Weather Bureau is establishing a station in the Yosemite Valley and scores of other officials are absent on tours of inspection. This annual hegira, with the usual absentees on vacation, makes Washington extremely dull during July and Aug. and the city begins to awaken again only with the September days. One of the prominent daily papers estimates its decrease in circulation during this two months at 33 per cent and presumably every other line of business is similarly affected. What these junketing tours cost the Government cannot be estimated. —Alamogordo News.

The many friends of Governor and Mrs. Otero throughout the territory are greatly gratified to learn of the rapid recovery of their bright little son, Manuel, from the effects of a dog bite inflicted a few weeks ago. His parents have returned home with the boy from the Pasteur Institute at Chicago, where he was taken immediately after the accident, and he is reported as entirely well.—Index.

BIG SALE OF LAND.

Montana Wil Auction Off Three Million Acres.

Helena, Mont.—The state of Montana will shortly have a land sale that will eclipse the recent government affairs in Oklahoma, where about 2,000,000 acres were disposed of to homeseekers. In other words about three million acres, distributed throughout every county in the state, will be auctioned off by Land Register Long. This course was decided at a meeting of the state board of land commissioners yesterday afternoon.

On the admission of Montana to statehood the government donated large tracts of land for the benefit of several state institutions, such as the deaf and dumb; normal, blind, insane and school of mines. The trustees of this institutions, in several instances, issued bonds, secured by land grants. In one case the revenue secured fram leasing the land failed to pay the interest on the bonds and because of this deficit and in other cases, where the principal was not being materially reduced, and the further fact that the settlers are not swamping the land office in their endeavors to lease or buy lands, the board has decided to emulate the government's plan and establish a huge real estate auction in the hope that settlers must thus be attracted, and, incidentally liquidate the debts of the various educational institutions.

A state law prohibits the sale of any lands at less than $10 an acre. Thus where register Long fails to receive bids of at least that amount, he will only lease lands to the highest bidder.

GRAVEYARD STARTED.

Sheriff Cleofas Romero returned last evening from the Rock Island camps, where he made the arrest of two cattle thieves who gave bonds and were released from coming to this city. Mr. Romero says he was treated like a king by the contractors and foremen of the various camps as they said he was the first officer that had made them a visit and that officers were badly needed at times, in particular in one of the camps, which took pride in showing the sheriff a graveyard that they had started, where lay a number of men who had met violent death from a bullet or club.—Las Vegas Optic.

PRESIDENT McKINLEY DEAD.

President McKinley died last Friday morning as a result of wounds inflicted by Leon Czolgosz, a Polish anarchist. We have always been satisfied that Guiteau who shot President Garfield was insane, and while Czolgosz was a member of an anarchist society, there is no doubt but that he too was insane when the fatal shot was fired at President McKinley. However, his insanity may not be such as that he should escape execution, as the distinction between the various degrees of insanity are very fine and difficult to determine. He says he acted alone and his story seems plausible, as he says the desire to murder the President was like a fire in his brain. His weak mental condition and Emma Goldman's inflammatory speeches may have had something to do with directing his murderous purpose to President McKinley, the fact remains, however, that he is crazy, or unbalanced mentally.

Of course some other and saner person might have been chosen to do the deed from some anarchist circle here, or in some other country, as such things have happened before. Stringent laws for the suppression of anarchists should be enacted, yet no law will render the chief executive absolutely safe, as some crazy crank like Guiteau is likely at any time to attempt to take the life of the President. That he should at all times be carefully guarded goes without saying. Of course, the murder of President McKinley casts a gloom over the whole country, but when coolly considered, we find that the great love and esteem of the people for him as a man, have much more to do with this matter, than the fact, that the chief executive officer of the government, has been assassinated by a crazy anarchist.

Czolgosz, like Guiteau had made a failure of life and no doubt blamed the government for his misfortunes when in fact he had not the mental capacity to succeed in any sort of business where he had to compete with others of more ability. In this state of dispair and hoplessness, he was ready to belive the fiery utterances of Emma Goldman and other inflamatory speakers of her class, and thus the determination to kill President McKinley was but a natural sequence. The nation mourns the loss of a great and a good man, and in this matter no party lines are thought of, and yet we cannot avoid the conclusion that had greater precautions been taken for the safety of President McKinley, this great calamity might have been avoided.

THE ALBUQUERQUE FAIR.

We are assured that the fair to be held at Albuquerque from the 15 to the 19 of October is to surpass all previous efforts. The time is better than at an earlier date as we can then have a display of agricultural and horticultural products which could not be obtained earlier in the season. This is a feature which has been neglected too much at previous fairs, and this time we are assured this feature will receive the prominence it deserves. All who attend this fall will no doubt be amply repaid for so doing.

Col. Berger of the Capital newspaper at Santa Fe has been indicted by the grand jury of Santa Fe county for criminal libel by reason of articles appearing in his paper reflecting on Gov. Otero and his administration. Under our present jury system it is easy to indict where those desiring to do so control the selection of the jury. If the commissioners appointed to select the jury can be influenced to select only the persons wanted, the indictment is easy. We don't know anything of the facts in Col. Berger's case, but we suspect that a jury may have been selected with the view of obtaining these indictments. Col. Berger says he is ready for trial and will prove the truth of all he said. If newspapers are not allowed to criticise the acts of officials in New Mexico, then the sooner we know it, the better it will be. This fact being once established, would no doubt be another argument in favor of statehood for New Mexico.

Hon. Pedro Sanches, census supervisor for New Mexico, and his clerk, Mariano Sena, have been indicted at Santa Fe for forging false certificates to census returns, and also for embezzlement of census funds. Pedro Sanches is one of the pets of the administration, and has been a member of the Legislative assembly for a number of terms from Taos county. Perhaps he thought he was entitled to everything in sight.

The public school opened Monday, the second week, with an enrollment of 135 pupils.

Memorial services were conducted at the Congregational church Sunday morning by Rev. H. G. Miller, assisted by the choir. The discourse was solemn and impressive, the music sad and beatiful and the congregation, with tearful eyes, listened to the words pronounced by the preacher which for the third time in American history called the people to mourn for a murdered president.

Hon. H. B. Fergusson, of Albuquerque, and T. S. Austin, of El Paso, came to White Oaks last week and left immediately for the Gran Quivira region to examine some mineral in that section. They returned Tuesday evening with a lot of samples, which Mr. Austin will test when he reaches El Paso. Both gentlemen left for their respective homes this morning.

WATER IN THE OLD ABE.

The past two years there has been a constant drip of water in the lower levels of the Old Abe, but it did not intefere with the workings of the mine; as the source of supply was small, evidently a surface drain. But on September 9 a larger flow was encountered on the lowest level 13—which, for a time threatened to stop operations. A bucket was rigged up, however, and in about three shifts the water was all but exhausted, and the work of drifting on the lead for the ore continued, and the same body of sulphide ore was cut on 13 as that on 12 and 12½. Sunday night another body or reservoir of water was opened and this filled the 13 level to about 3 feet in depth. The bailing bucket was again brought into requisition and this last volume is now under control.

John Y. Hewitt, president of the company, in a conversation with the reporter said that all indications were that a crevice, into which the surface water had drained and which had no outlet, had been opened, and thought that as soon as the supply in that crevice had been drained off the trouble would end. This seems to be the general impression; for, if the supply was permanent, it would not be so easily controlled and would not, as now, cease to flow. Except for an interruption to hoisting the ore the work on the mine has been pushed right along, and the stamps will soon begin to drop on ore.

REGISTERED GOATS.

L. W. Stewart and Jesse Vandervoort, returned last week from Lake Valley, New Mexico, where they purchaseed a number of fine goats for Eugene L. Stewart, who recently bought several hundred fine Mohairs from W. A. Hyde. The goats purchased by these parties from D. C. Taylor & Son, of Lake Valley, are very finely graded animals. They all being registered in "America Angora Goat Breeders Association," Kansas City. Those acquainted w..h the stock interests of the county will remember that last spring Taylor & Son sold the fine Moh. ir buck, Lazarus for $700.00 at the age of 15 months. Moses, the sire of this animal was purchased by Geo. L. Ulrick, and also three half brothers of Lazarus. Eugene L. Stewart bought the famous El Cid, a half brother of Moses; he also bought Argus, a half brother of Lazarus, and 7 head of doe yearlings, all registered stock. Moses and El Cid were valued at $250.00 each and each of the other bucks at $150.00 per head.

These goats are the very best blooded animals to be had in the southwest, and will soon grade the already fine stock of Mohairs these people have up to valuable animals. Lincoln county is hereby adding much to her stock industry and should soon rank first above all in the territory in the production of fine stock. The long horned steer is now almost a thing of the past, and the Angora goat and a better grade of sheep are being introduced as fast as it is possible to do so.

WHITE OAKS LECTURE COURSE.

Next Tuesday night at 8 o'clock Dr. Miller will deliver the second of his historical lectures. "The Architectural and Mechanical Arts and Customs of Ancient Civilization." Those who heard his lecture on 'Daniel Webster', will all be at Plymouth church on Tuesday night. This lecture throws back the curtain, so that you may have a glimpse of the world over 3000 years ago.

CARD OF THANKS.

Last Saturday night, I was quite surprised by the gathering of a number of people of White Oaks, in my home. At first I did not comprehend its purpose, but I soon discovered that it was to be a social gathering of a number of the old and young people to make the evening pleasant for me. A delightful part of the surprise was, the good women brought with them for the occasion refreshments of various kinds which were enjoyed by all. Every one expressed themselves as having had a happy evening. And as I watched them enjoying themselves, it made me happy to find myself in so delightful a company. I want to express my thanks to all who arranged and participated in this delightful evening for my enjoyment.

Respectfully,
JOHN T. POPE.

The Harvest Home Festival entertainment, given by the Congregational church Sunday evening was greatly appreciated by the audience which filled the church to over-flowing. The recitations were pleasing and appropriate and the music delightful.

At Plymouth church, Sunday Sept. 22, Dr. Miller will preach in the morning on: "It is not good for man to live alone." At night, "An ambitious young dreamer, his experiences and success."

The Baptist will hold their Harvest Home Festival in their Hall Sunday evening, September 29. Everybody cordially invited.

Col. S. L. Bean, has returned from an eastern trip, and with several of our mining people made a trip to Jicarilla Friday. It is understood here that the Ameri-Placer Co. will start up the dredge right away.

COUNTY OF LINCOLN. } SS.

In accordance with and in pursuance of the laws of the Territory of New Mexico, I, the undersigned, Treasurer and Ex-officio Collector of the County of Lincoln, in the Territory of New Mexico, do hereby make, certify and publish the following notice and list of delinquent taxes amounting to less than twenty-five dollars, with penalties and costs thereon, payable in said county and delinquent on the second day of July, 1901, the same being herein below set forth in precincts, and containing first the names of the owners of all property becoming delinquent; the amount of taxes, penalties and costs due; the description of the property whereon the same are due, and the amount of taxes due on personal property.

And notice is hereby given that I, the undersigned, Treasurer and Ex-officio Collector of said county of Lincoln, will offer for sale and sell to the highest and best bidder for cash the several pieces of property hereinbelow described, both real and personal, for the taxes, penalties and costs due and delinquent against the several properties hereinbelow mentioned and described (the several amounts so due and delinquent being specified in the following list and set opposite the respective properties against which they are due and delinquent) on the first Monday of November 1901, the same being the fourth day of November, 1901, at the front door of the county court house of said county of Lincoln, the same being the building in which the district court in and for said county is held; that I will continue the sale from day to day until all the property described in the following list be sold, or until the respective amounts due shall be paid or realized; that the said sale will be held between the hours of ten o,clock in the forenoon and four in the afternoon of each day of such sale; and that if a purchaser fails to pay the amount of his bid before ten o'clock of the day succeeding the sale of the property bid for by him will be re-offered for sale, and he will not be allowed to make any further bid or bids on such property; and that I, the undersigned, will issue and deliver to the purchaser or purchasers of property at the said sale a certificate of purchase of the kind and character provided by law.

HENRY LUTZ,
Treasurer and Ex-Officio Collector,
Lincoln County, New Mexico.

This offer applies to old subscribers renewing their subscription to the EAGLE and paying one year in advance; also to new subscribers paying one year in advance.

The regular subscription to these papers is largely in excess of the clubbing rate given above, and any one desiring to secure two papers (the EAGLE and any one of the others named) for a little more than the price of one should take advantage of this liberal offer.

"The Best Is The Cheapest."

Not how cheap, but how good, is the question.

The TWICE-A-WEEK REPUBLIC is not as cheap as are some so-called newspapers. But it is as cheap as it is possible to sell a first-class newspaper. It prints all the news that is worth printing. If you read it all the year round, you are posted on all the important and interesting affairs of the world. It is the best and most reliable newspaper that money and brains can produce and those should be the distinguishing traits of the newspaper that is designed to be read by all members of the family.

Subscription price, $1 a year. Any newsdealer, newspaper or postmaster will receive your subscription, or you may mail it direct to THE REPUBLIC,

Correspondence.

Work is progressing rapidly on the court house.

Wm. Prager came up from Roswell to recuperate.

Mr. Cummings and wife visited Lincoln yesterday.

We are having a spell of the finest weather imaginable and obtainable.

Hon. Scipio Salazar is shearing his large herd of sheep at his ranch near Capitan.

Mrs. Wm. Lumbley of Picacho was in town Saturday, laying n a supply of winter goods.

Wm. Ellis and family and Dr. Watson and wife returned from an outing up the Bonito.

Capt. P. L. Krause is here on important business in connection with his mining interests.

Citizens of Lincoln held a meeting to pass resolutions on death of our President Mr. McKinley.

Quite a number of Lincolnites were at Capitan Monday taking in the celebration of "Mexico's Independence Day."

We are sorry to report death of two of our citizens. Juan Garcia killed in mine at Capitan, and Antonio Lopez killed by accidental discharge of a gun.

The farmers are now cutting and shocking their corn which has turned out to be about as good a crop as we ever have had. The early sown oats have done well but the late oats have made a poor growth.

Have noticed the EAGLE is not much given to personalities in journalism. The gentleman who lives at the elbow of our road to Capitan it appears took exception to my describing the route as passing his place, and called names, while none of his acts were questioned. The cognomen he applied will stick if they fit the subject.

Yes! your correspondent does believe in an impending crisis; when one man has securities enough that are listed on the stock board of the New York Exchange that represent double the amount of gold coin in circulation, it is time for us to look a little out. We have too little absolute money, credit money that requires a redeemer and bank credits—necessary adjuncts to commerce—are not the real thing when people lack confidence and become frightened as they do every decade or so.

PERSONAL MENTION.

Wm. Henley and Jerry Hocradle were over from Nogal Saturday.

Mrs. D. W. Glenn returned this week from a visit to her old home in Virginia.

Atty. J. E. Wharton left yesterday for the upper line of rail road to attend to some legal matters.

John Owen, T. F. Chapman and M. H. Bellomy returned Tuesday from the Gallo country.

S. M. Wharton left Saturday for Las Vegas, where he went as a representative of the local lodge K. of P. to attend the Grand Lodge.

Mr. and Mrs. E. L. Ozanne, of Jicarilla, are the proud possessors of a brand new baby girl.

Born to Mr. and Mrs. Wm. Kennedy Sunday a big, fine girl. Mother and child doing well, and Will is correspondingly happy.

John Owen after sinking 320 feet for water in the Gallo country, decided that mother earth was deficient in moisture at that particular point, and moved his machine a few miles and began sinking a new well.

R. H. Midaugh, a Colorado prospector, is looking for copper on the east side of Lone Mountain. He has already opened up some good ore, running 11 per cent copper with pretty good gold and silver values.

The work of sinking for oil was interrupted, after a depth of 15 or 20 feet had been attained, by leaky flues, but the operators are about ready to renew the work, having received and put an entirely new set of flues in their boiler.

T. S. Goddard who is running the drill for Brown & Chapman, in their search for oil, had the misfortune to break his leg Saturday. While unhitching his team from the wagon the horses became frightened and started to run and before Mr. Goddard could get out of the way the wagon caught one of his legs, passing over it, and broke one bone in it.

EXCELLENT CATTLE CONDITIONS.

Rains Have Made Excellent Ranges In New Mexico.

L. and J. C. Baldwin, father and son, came down this morning from Engle, N. M., near which place they have extensive cattle ranges. They are probably the largest handlers of cattle in New Mexico. J. C. Baldwin stated to a News man that in ten years he had never seen cattle and the ranges in better condition in New Mexico than they are just now. Cattle are fat and the ranges are crowded with grass, while the number of cattle is unusually large for this time of year. El Paso News.

"WAR IS HELL."

On the 14th day of November a terrific storm wrecked twenty-one vessels in Balaclava Bay bearing for Britain's men ammunition and warm clothing and other necessaries for the winter, which settled in with unusual severity. Through unpardonable oversight the land transport broke down altogether, although it was but ten miles from Balaclava to the front. Cholera, the germs of which had been brought from Varna, raged in the British lines, and those who escaped it fell victims to scurvy, dysentery, or fever. With only tents for shelter and rags for clothing, with insufficient food, and no medical comforts, the poor fellows starved and died, and rotted. Between the beginning of November and the end of February 8,689 British troops perished in hospital. On the last of these dates 13,608 men were still in hospital.

EL PASO ROCK ISLAND.

The News has repeatedly stated that Rock Island trains would be running through Alamogordo by the first of January 1902. The latest authentic information confirms our statements. Yesterday President Eddy of the El Paso-Northeastern gave orders to all contractors that the road must be completed by December 15th, and instructed them to put on a force of laborers sufficient to finish the construction at that time. It is a big undertaking but the Eddys have never been known to fail in whatever they undertake. Alamogordo News.

Otero county has no reason to feel slighted in the selection of teachers from New Mexico for educational work in the Philippines. On Tuesday Prof. W. F. Smith received notice from Washington of his appointment to the position of teacher in the Philippines with the information that he would probably be expected to sail from San Francisco between the 1st and 15th of October. The appointment came as surprise to Prof. Smith as he had about given up receiving a favorable reply to his application.

This is the third appointment of this nature that has been made from Otero county. Advertiser.

HOSPITAL CASES.

Joe Hoffman, the man who done the shooting in the affray up on the extension a couple of weeks ago, and was so seriously stabbed that his life was dispaired of, was brought to the hospital Tuesday. On examination Dr. Bryan found that an abcess had formed between the man's stomach and diaphram and is discharging through the wound. He is improving and in a fair way to recover. Two of the Mexicans concerned in the affair were discharged from the hospital this week and returned to the front. The one whose legs were broken and the one shot through the arm are still in the hospital. Advertiser.

Speaking of Santa Rosa, a correspondent says: The population of the town and adjacent camps is thoroughly cosmopolitan. Greeks, Russians, Italians and Austrians from Europe, three Celestial Chinese, an uncount number of men and women from Mexico, about as many native New Mexicans with a full count of Americans from the states, some Scotch and quite a few with the English accents of Erin. All this population is transient, yes, very migratory. Of all who today walk the hot road or rest 'neath the cedars of Santa Rosa probably not a dozen will see the Santa Rosa of next August.

EL PASO MID-WINTER CARNIVAL.

El Paso is preparing for another great Mid-winter Carnival to to be given January 14,15,16,17, and 18, 1902. This will be the second annual event, and will be the greatest entertainment ever given in the southwest.

The "sunshine in January" that so delighted the thousands of visitors in El Paso last year will take thousands more there and the coming event is expected to surpass anything ever given in the southwest, you can get a glimpse of Mexico at El Paso and this, with the Mexican bull fights, is something that other cities can not afford. To see the ancient city of Juarez Mexico is worth the expense of the trip and since the railroads have promised a very low rate from everywhere thousands will attend, there will be a miners' convention, medical and teachers' conventions, the largest cattle exhibition ever given in Texas, besides the regular program.

El Paso is a famous town and has become famous as an entertainer and at the coming Mid-Winte-Carnival the border Metropolis promises the most extravagant free show, fiesta and general jubilee ever seen between New Orleans and Los Angeles. The Carnival association is now wreparing the program, which will be published soon.
