EDITOR EAGLE.

The old Jicarilla camp is coming to the front at last, and natures store house of wealth, so long lying idle in the old hills will soon be opened and their treasures given to the worlds commerce. It is wonderful to contemplate the resources of this old camp. For half a century the Jrcarilla mountains have been paying dividends, in a small way, to the individual miner and prospector, who have worked its placer diggings, in the old primitive way: and in this way, it is estimated that hundreds of thousands of dollars in gold have been added to the world's wealth, and yet, the vast wealth of these mountains remain, barely touched. Millions of tons of gold bearing gravel remain awaiting the coming of capital and enterprise in the way of new and improved machinery with which to extract the values. For many years the dry wash game was inflicted on the district, and as each one in turn proved a failure, the name of Jicarilla became synonymous with the "dry wash game," and many were turned from the camp because of the many failures. But day after day, weak after week; month after month and year after year, came the steady small stream of gold pouring into the mints of our country from the efforts of the individual miner.

This little stream, however, finally had its effect, and the attention of capital was directed to its source. Note the result. In August last Geo. E. Sligh of Nogal induced eastern parties to investigate the gold fields of the Jicarilla district and immediately the Rico company was formed and three hundred and twenty acres of valuable placer ground purchased. In September following Mr. Sligh induced Geo. W. Harbin, President of the Free Gold Mining and Milling Company of Nogal to look over the ground with the result that Mr. Harbin secured one hundred and twenty acres of these valuable lands for the Free Gold Company. Immediately work was commenced by the Free Gold Company, Geo. E. Sligh was placed in charge of the work, and a heavy well drilling machine ordered and erected. Work was pushed all along the line and to-day the company has a fine well of water, which was the only thing lacking to guarantee the Free Gold Company a big success.

The Rico company have placed Mr. Sligh as Manager of their property and ordered work to commence at once. Mr. Sligh is now engaged in moving the big well drill from the Free Gold property over to the Rico property and will commence drilling as soon as the machine is set up. We predict another good well in the Jicarilla's and a big success for the Rico company.

Last week Mr. Sligh visited the placer property of Knight and Havlin, consisting of eleven claims, on Rico gulch, and report has it, that another sale was made. Terms not known, but forfeit money was put up on the property and the whole amount to be paid in thirty days. This insures another working company for the Jic's, and will help to push on our spring boom.

The American placer company which has a sixty thousand dollar machine on the ground, and the best well of water in the country, will commence work in the spring and add its quoto to the push.

Not only have the Jicarilla's the largest and richest placer grounds in the territory, but it has the source of this great wealth hidden in her peaks. The Hawkeye, which was sold in December, to Philetus Smith, of Chicago, for ten thousand dollars in cash, is one of the best mining propositions in the territory. A twenty foot vein of porphyrtic quartz has been developed, which shows an average value of twenty dollars per ton. Work was commenced this month on the Hawkeye, and will be continued, and a mill erected in the spring

Mr. E. H. Tolbert, also has some very valuable prospects and will commence active development this month.

Among the coming big mines of the camp, we woul I mention the "Prince Albert," owned by Wm. Merriman.

Mr. Merriman has owned this property for nearly twenty years and has done considerable development work on it, all of which has shown up paying ore in several places. Mr. Merriman was offered eight thousand dollars in cash for this property but refused the offer. There are other good prospects in the district too numerous to mention, but many of which will no doubt prove good investments when properly developed.

In addition to all this great mineral wealth the Jicarillas have an additional advantage in climatic conditions that can not be surpassed, permitting out door work all winter, and a summer climate not excelled anywhere. A wealth of timber abounds in the hills and valleys, and water in great abundance is found by drilling. The general coutour of this district is smooth and rolling, making good roads possible, and transportation to and from the camp easy and moderate in price. Ancho station, on the great Rock Island system, is eight miles distant, from which a splendid wagon road passes direct to the mining camp. Such unexcelled mineral wealth and facilities for developing must of a necessity make the Jicarilla mining district one of the foremost in the territory.

In gold mining there are two requisites that must be supplied by nature. First, the gold must be found in paying quantities, second, water must be supplied. Given these two and man can master all other defficulties and solve almost any gold mining proposition. The Free Gold Mining and Milling Company of Nogal have both of these requisites on their property in the Jicarilla mining district. They have one hundred and twenty acres of placer ground, a large part of which is covered with a gold bearing gravel averaging ten feet in depth, which, from numerous tests made shows a valuation of more than one dollar per cubic yard. The company have just finished drilling a well, which at a depth of 160 feet furnishes water sufficient to wash three hundred cubic yards of gravel per day. They are now engaged in cutting timber to put up a dredger or gravel washer that will handle the gravel at an expense not to exceed twenty-five cents per ton. Upon this basis we place the Free Gold Company upon our list as a simple business enterprise, past the experimental stage and as reasonably certain in its future dividends as any business enterprise can be. A recent visit of ten of the prominent stock holders from the east, resulted in hearty approval of the management of the company by its local officials, and an enthusiastic support of the work necessary to the completion of the plant

If a mining company secures a piece of ground and can demonstrate conclusively that by econamical management, a profit in gold can be secured from each ton of material handled and then by careful measurement, find they have one hundred thousand tons or one million tons of this material in sight, then their proposition ceases to be a speculative venture, but immediately becomes a simple business enterprise, to be worked out be business men on an economical business basis. The returns are more certain than those of the farmer, the merchant, the stock raiser or manufacturer, because the farmer must depend on the rains and also upon the price of his product on the market when he harvests his crop. The merchant must depend upon the prosperity of his customers and make his profit off them. And so all along the line until you come to the gold producer, doing business on the plan outlined above. He has his material in sight, knows the cost of production, his market is fixed, the demand is unlimited, and no competition. So why not engage in legitimate mining?

Land Scrip.

By the use of so called land scrip title can be obtained to Government land without cultivation or residence thereon. All you need to do is to give description and show the land to be of the proper kind; we do the rest. By reason of the exhaustion of a supply which has been quite limited the price is advancing. We have a small amount yet on hand to sell, that is fully guaranteed. We also deal in Real Estate, Loans and Investments.

Blizzard Kills Thousands of Cattle.

It is reported that the recent blizzard over the northwest killed thousands of head of cattle so many in fact that it is expected to cause a raise in the price in the spring markets. New Mexico losses have been insignificant. While the snow fall has been heavy over most of the territory, there has been no extreme cold weather.

Write Your Friends in the East.

LOCAL and PERSONAL NEWS.

Mrs. Charles Jessie is visiting relatives in Texas.

Anton Hogval of Nogal, was a guest of S. A. Neid.

Miss. Annie Lane has gone to El Paso, where she intends to follow the Millinery business.

John Crowl is at home in Ithica, New York. His mother is very sick and he is visitng home on that account.

Mrs. N. D. Fisher, Owensborough, Ky., came in Wednesday. Master James Owen Fisher, a grandson, is with her. Mrs Fisher is visiting her daughter, Mrs. Atwood Littell.

The Knights of Pythias entertainment Friday night was attended by about eighty people. The address delivered by John A. Haley was a story of Pythianism tersely told. The program of music was good.

Our mail service for thirty days past has been ——. The old raw hide line once in operation from San Antonio to White Oaks and Lincoln with its bronchos, broomtails and hold-ups, was a peach compared to a Mogul in a snow drift as has been the case on the Rock Island lately.

Col. G. W. Stoneroad, of Jicarrilla, had a paralytic stroke last Saturday evening while on the way home from White Oaks. It was very stormy, snowing and cold, and he was stricken only a few hundard yards distant from his house but laid in his wagon unconscious, with his horses wandering around through the storm the whole night. He was not found until eleven o'clock the following day. One arm and leg are badly frost-bitten and he is thought to be fatally sick.

Jicarilla News.

Regular Correspondence.

We are having plenty of snow and cold weather here and your correspondent is very much grieved to announce that one of our Old Timers was badly frozen in the storm of last Saturday night. Geo. W. Stoneroad was caught in last Saturday's blizzard while on his way home from White Oaks, lost his way and was found on the road side near his home about eleven o'clock Sunday, in a very precarious condition. It is doubtful if he can recover.

Edward Fox is recovering from an attack of grip.

E. H. Talbert is building a boarding house at Spilkeville. This will add very greatly to the comfort of the traveling public.

LATER: Just as the paper was about to go to press the death of Col. Stoneroad is announced by messenger sent by our Jicarilla correspondent.

The deceased was born in the state of Texas in eighteen hundred and thirty-nine, moved to California in eighteen hundred and sixty; came to New Mexico in eighteen hundred and seventy-six, bringing sheep overland with him from California. He became wealthy in New Mexico and prominent in territorial potitics He was at one time chairman of the territorial democratic central committee and later sergeant at arms in the House of the territorial Assembly. He was a Knight Templar Mason of California. He died of opoplexy the night of the 4th int. Our correspondent hadn't learned when the funeral would take place.

Relatives at Las Vegas have been wired and their answer or arrival is awaited.

Church Notice.

The subject of the morning discourse at the Methodist church, Sunday, will be:

"Heart troubles and their remedies."

The evening subject will be:

"Where to look for Salvation."

Copper has again gone to 13 cents. Looks good to the west. There's many good copper prospects even in this section which will be operated if another notch is reached.

Institute Meeting.

The regular meeting of the Lincoln county Teachers' Institute will be held in the town of Lincoln, on Friday night before the second Saturday in March.

All members are earnestly requested to be present on this occasion, as matters of importance will come up for consideration, particularly with reference to the coming summer normal.

Snow! Snow! And still snowing. A protracted snow has visited this section of country lasting for several days. There is however, little snow on the ground. This gives great hopes of good crops.

John H. Casey has returned from his trip north and reports a very fine country and plenty of good grass. He speaks of moving up there as the range room in this locality is becoming scarce, and the ranges where his stock are located in Texas are overstocked and not sffiuciently watered.

J. C. Wharton who is opening a new store in the Analla settlement gave an enjoyable dance in his new building before putting in his counters. The dance lasted all night, breaking up at half past five in the morning. The following were some of the ladies present: The Misses Coe from Ruidoso; Misses Payne from the Junction; Misses Hulbert from Lincoln; Miss Ella Stewart from Capitan; Miss Holcomb from Picacho. Every body had an enjoyable time.

Mrs. Hopkins is now able to be up.

The Analla settlement are organizing a base ball team.
