VOLUME I. WHITE OAKS, NEW MEXIO, THURSDAY FEBRUARY 23. 1905. NUMBER 25

A MUD SLINGER.

Some of the territorial newspapers are disposed to criticize Senator Doliver, of Iowa, for his statement that "there never can be any civilization without rain, and that mud and civilization go together."

The Senator is right, from his standpoint. He was raised in Iowa, where for one half of the year mud is unfathomable, and in that part of the state, it is said a man began to dig a well one day, and went down thirteen feet. The next morning when he went to resume his work he found just fifteen feet of water in it.

Besides, now that he is in the United States Senate, he has imbibed some of the characteristic civilization which runs largely to mud slinging, especially since the statehood bill has been up for passage, and how could they sling civilized mud without sufficient water to make mud to sling?

"Pernicious activity" would appropriately characterize the proceedings of our present territorial legislature.

BY ANOTHER NAME.

Over in Germany, little Billee would call it "Lese Majeste." Here in New Mexico, the little Governor calls it "Libel."

As many of our stunning statesmen at Santa Fe have been on a trip of observation and hobnobbing with the heads of the different territorial "Institutions" for the past week, the people of the territory have had time to catch their breath. But the agony isn't over yet by any means. These visiting members have been fuddled and fed all the way round, and have now about all got back and are prepared to make the ante anywhere from twenty-five to fifty thousand dollars.

If Senator Doliver, of Iowa, could have seen the array of mud-covered overshoes on the front veranda of the Koch residence last Thursday afternoon his heart would have been filled with hope for the civilization of New Mexico. It was indeed a group of merry cheer-mongers who partook of the hospitality extended by the hostess, Mrs. Koch, on that occasion. About twenty matrons were present and after two hours of fun and recreation including a listing of twenty proverbs and all old sayings which the hostess had symbolized by groups of objects, drawings etc., they were in fine tone to enjoy the elegant refreshments served. The club meets to day with Mrs. Wm. Watson.

Our neighboring town of Alamogordo is putting on airs. It is now reaching out across the Malpais and over into Socorro county and purposes to gobble up Esty City, the reduction plant located there together with the whole shooting match, and move it bodily over a 70 mile stretch of sand and sage brush and set it down somewhere within its own corporate limits and utilize the machinery in converting the White Sands, combined with certain quantities of glucose and New Orleans "nigger heel" into a first grade, No. A quality granulated sugar. This reduction plant is the result of one of those mining schemes hatched in the East to catch the unwary—those mushroom capitalists who have made a few thousands by some fortunate turn in business, or in some sudden rise in real estate, and have dreams of hobnobbing with millionares through some lucky investment in, they know not what. Schemes which are the nightmare and the curse of all legitimate mining enterprises.

This plant, costing well up to a hundred thousand dollars, was erected with a mere phantom of an ore body and without a ghost of a show for water, and failed, just as any one with a thimble full of business sense would have known it would do.

If those Alamogordo people can utilize the concern to any purpose, of course there will be no kick coming, and every one will be glad to see them win.

A. H. Hudspeth took a flying business trip to Alamogordo Tuesday.

A. Bidgeway has located for the present at Bisbee, Arizona, but does not know yet whether or not he will remain there permanently.

The young people of the town contemplate organizing a new dramatic and social club. This would be a good thing at this time as White Oaks is a little underdone in the amusement line.

The Old Abe force is again at work after a short lay off on account of a bursted throttle. To their credit it can be truthfully said, they did not follow the example of this fixture and go on a bust too.

Albert Ziegler is still with his family at Trinidad, Col., where he was called by the illness of Mrs. Ziegler's mother about ten days ago. Jake says he is doing the work of two men these days, and has to look after his own family affairs besides.

The entertainment given by the young people at Bonnell hall last Saturday evening passed off very pleasantly, as everybody anticipated. Some of the numbers were very fine indeed. After the main programme was rendered a light lunch was served and the performance wound up in a social way.

Edd Tompkins came up from Alamogordo last Friday for a short visit with his home people here. He is still running on the Santa Rosa division of the El Paso and Northeastern and reports that there has been but little delay in running trains over this section of the road on account of the snow and cold weather.

Spence, Van Schoyck, Wilson and Dunn have lately completed a shipment of 4,000 weathers from their ranches in Lincoln county, to Sylvester brothers, of Monte Vista, Colorado. The price per head was not learned, but it must have been very satisfactory from the twinkle in Charlie's eye while he talks about the time they had gathering and shipping during the snow storm.

The Capitan News says "C. C. Jewell has been elected to a responsible position with the Free Gold Mining & Milling Co. and will remove to White Oaks in a few days to assume the duties assigned him by that company." Send him along. There is use for mining men in this section of the country, if they are hustlers. The company mentioned by the News is working placer ground out in the Jicarillas.

Although the snows and cloudy weather have been almost beyond precedent for the past two weeks or more, stock men in this part of the country report that their losses will not reach more than one or two per cent. from cold and exposure. This is truly remarkable considering the length of time the country has been under its mantle of snow. Sheltered ranges count after all.

A teacher in one of our public schools wrote the phrase, "the bitter end." on the blackboard the other day, and asked the class of little people to form a sentence using the words just as they appeared. One little boy promptly wrote: "The Russian and Japanese armies are fighting to the bitter end". A girl wrote, "I have chawed my stick of licorice down to the bitter end", but the smallest boy in the class wrote: "Our dog and cat fought until there wasn't any hair left, and then the dog chased the cat under a chair and bitter end.

General Lew Wallace died at his home in Crawfordville, Indiana, on the 17th of this month. He undoubtedly was one of the most highly honored citizens of this great country, even if his friends did have the bad taste to decorate his breast after death with the badge of an order bestowed on him by the Sultan of Turkey.

Location notices and proof of labor blanks can always be had at the OUTLOOK office.

Committing suicide with a girl's picture in your hand is indisputably mean treatment of the girl.

There are 8,000 living authors in this country, but you wouldn't know it from the number of live books.

The suggestion that the growth of New York's 400 to 800 is due to natural increase will be scouted as absurd.

The various baseball teams have begun winning next season's pennant with all their old-time ease and confidence.

At last we have discovered what fruit it was that Mother Eve ate with such disastrous results. It was a cocktail cherry.

A Brooklyn judge says a man who dyed his hair is weak-minded. Probably because he does away with the gray matter.

Field Marshal Oyama says "Providence is with us." He must be trying to make Pobiedonostseff go crazy and bite himself.

When it is said that "the typewriter girl is thirty years old," mind you reference is made to the typewriter girl as an institution.

According to Lieut Peary Arctic cold cures baldness. And where there are no baldheads we note that chorus girls are never found.

When ten men own the United States the people will at least know where to place the responsibility if things are not satisfactory.

A man in Arkansas has an alligator farm, and hatches out the young 'gators in an incubator. Some new way of making a living turns up every day.

Monkeys will pick prunes in California. Why can't they be utilized to gather the chestnuts that are scattered by after dinner speakers in Illinois?

If music as a curative agent comes into general use, will the effects of an overdose of classical strains be modified by the careful exhibition of ragtime?

People who object to the use of that convenient word "Hello!" as used over the telephone, apparently haven't stopped to consider how easily it is reversed.

A comedian in one of the new theatrical productions broke his arm while endeavoring to make his part mirth-provoking. Stage humor is no longer subtle.

England estimates that she has coal enough in the national bin to last for 450 years. And by that time the great majority of the present generation will not need coal.

Prince Fushimi is home again much impressed with American hospitality. His secretary is to buy, however, that the prince will not write a book about the United States.

An Atlantic City policeman has been married thirteen years, and this week his thirteenth child was born. He says he isn't a bit superstitious, but he wants an increase of pay.

Whenever the foreign correspondents can't think of anything else to write about they report that Germany and England "almost came to a declaration of war last week."

Some people are eternally considerate. "Fat, isn't she?" said the thoughtless one, referring to a woman on the street. "Well," said the considerate one gently, "she certainly is plump."

A Kentucky chambermaid who found $4,000 under a pillow received a reward of $1 when she returned the money to its owner. Pretty good sum for a man who will put $4,000 under a pillow.

Don't laugh at the New York Women's Society for Political Study, for after all it only has done it is woman who must solve the "race suicide" problem—providing there is such a problem.

The editorial writer of the Century Magazine starts the question, Can a nation be a gentleman? Considering that it is always spoken of as either neuter or feminine, we should say it (or she) cannot.

The New York show girl who pawned her automobile to keep her through the winter, because she was so very destitute, must have been sorely pained and shocked next day when she saw her picture in the paper.

There is such a thing as being too cautious, hence we cannot blame the New York man who is suing for divorce because his wife insisted on wearing her shoes to bed so that she might be prepared for instant flight in case of fire.

The oldest inhabitant of Lynn, Mass., now 102 years old, attributes her long life in large part to her resolute abstention from gossip about her neighbors. Kind nature has provided that the liveliest gossip shall not live long.

City shows an [illegible] Ally. for Family.

NEW MEXICO NEWS SUMMARY

Mounted Police Bill.

Following, in part, are the provisions of the mounted police bill introduced by W. H. Greer and passed by the Assembly:

Section 1. That the governor of this territory is hereby authorized to raise and muster into service of this territory, for the protection of the frontier of this territory, and for the preservation of the peace and the capture of persons charged with crime, one company of New Mexico mounted police, to be raised as hereinafter prescribed, and to consist of one captain, one lieutenant, one sergeant and not more than eight privates, each entitled to pay as follows: Captain to receive two thousand ($2,000) dollars per annum, lieutenant to receive fifteen hundred ($1,500) dollars per annum, sergeant to receive twelve hundred ($1,200) dollars per annum and privates to receive nine hundred ($900) dollars each per annum, and the pay herein provided shall be full compensation in lieu, including clothing and all other expenses for officers and men.

Sec. 2. That the governor is authorized and empowered, within sixty days after the passage of this act, to appoint competent persons as captain, lieutenant and sergeant, and to enroll, as set forth in this act, the requisite number of men for the company; the captain shall return to the governor the muster roll and the report of the condition of the company, and the governor shall thereupon commission the officers of the said company, supply said company, as under the provisions of this act he may deem proper and necessary, and order them upon duty in accordance with the provisions of this act.

Sec. 3. Said men shall be furnished by the territory with the most effective and approved breech-loading rifles, and for this purpose the governor is hereby authorized to contract in behalf of the territory for eleven stands of arms, together with a full supply of ammunition, the same to be all of the same make and caliber, and each member of the company to be furnished with the arms to be used by him at the price the same shall cost the territory, which sum shall be retained out of the first money due him.

Sec. 4. Each member of said company shall be required to furnish himself with a suitable horse, six-shooting pistol (army size) and all necessary accoutrements and camp equipage, the same to be passed upon and approved by the enrolling officer before enlisted; and should any member fail to keep himself furnished as above required, then the officer in command shall be authorized and required to purchase the articles of which he may be deficient and charge the cost of the same to the person for whom the same shall be provided: provided, That all horses killed in action shall be replaced by the territory, and the cost of horses so killed in action shall be determined by the captain.

Sec. 5. The men shall be enrolled for twelve months, unless sooner discharged and at the expiration of their term of service they shall be again enrolled, or others shall be enrolled to supply their places.

Sec. 9. That the troops raised under and by virtue of this act shall be governed by the rules and regulations of the army of the United States, as far as the same may be applicable, but shall always be and remain subject to the authority of the territory of New Mexico for frontier service.

Sec. 10. The captain of such company shall have authority to concentrate all of such company, or divide it into squads for the purpose of following and capturing any outlaws, law breakers, marauding Indians or bands of hostile Indians or for the purpose of carrying out any measure that may contribute to the better security of the frontier; but the entire force raised under the provisions of this act shall be at all times during their employment, as aforesaid, under and subject to the orders of the governor.

Calls Down Senator Burroughs.

A message was sent to United States Senator Julius Caesar Burroughs of Michigan by Solicitor General George W. Prichard at Santa Fe, in which he challenges Burroughs to prove the statement made by him in the Senate that polygamy exists in New Mexico, and this territory is threatened with Mormonism. Prichard offers to give $1,000 to any charity that Burroughs may designate if ten men can be found in the territory having plural wives. Solicitor Prichard's message reads as follows:

"The Congressional Record of the 7th inst. contains these words, uttered on the floor of the Senate by you:

"'To day polygamy exists in New Mexico. It has been declared that it is a breeding ground of polygamy. If this territory is not admitted these violators of law will be brought to justice.'

"I challenge the truth of the above utterance and will put up $1,000 to be turned over to any charitable organization you may name if you furnish the names of ten men in this territory out of a population of 300,000 here who have plural wives in New Mexico. You said in your speech that you had the information. Let me hear from you."

There are 904 Mormon men, women and children in New Mexico out of a population of 300,000, and not one of these Mormons has ever been indicted under the Edmunds act, although the United States attorneys have been paying especial attention to prosecutions under that act.

A Las Vegas dispatch to the Denver Republican says: Such jubilation as is felt in Las Vegas and northern New Mexico over the news that the Senate had voted to admit New Mexico as a separate state never has been manifested before. While this city would have given a majority for joint statehood rather than remain a territory longer, the whole people are a unit, the prominent leaders say, on the separate statehood question, and New Mexico, if the amended bill is adopted in the House, will vote to adopt a constitution, with scarcely a dissenting vote.

Colorado-New Mexico Highway.

Among the guests at the Albany hotel, says the Denver Republican, is C. J. Gavin, who has been in charge of the headquarters of the National Live Stock Association since the annual meeting. Mr. Gavin lives at Raton, New Mexico, when at home, but in late years he has had to do much traveling, as he is becoming quite a figure in national life. He has the most remarkable voice for depth and quality possessed by any public speaker in the West. He has been the reading clerk of the New Mexico Senate several times and twice has acted in that capacity for the Democratic national convention.

Mr. Gavin gained fame in Colorado about fourteen years ago by conducting the famous sale of school land at Creede. The townsite at that mining camp was largely on school land, and it was immediately squatted upon. Governor Routt decided that the land should be plotted and sold in town lots, but the squatters were a bad lot—or pretended they were—and threatened to kill anyone who attempted to carry out the sale. Gavin was selected as the man, and when in March, 1892, he mounted a rostrum in a tent packed with people at the wild and wooly camp and sold those lots, it was expected that he would be killed by some infuriated squatter, but he came through all right.

Mr. Gavin wants the people of Colorado to join with New Mexico in building a great state road and to do it with prison labor. The project has already been started in New Mexico, where they have forty-eight miles constructed between Las Vegas and Santa Fe. They propose to build this road along the territory in line with the present settlement, and right up to Raton at the Colorado line. If Colorado will fall in and build to Trinidad, Pueblo, and eventually to Denver, it would be a great blessing to the people of the state and territory, says Mr. Gavin.

Mr. Gavin says that this will not conflict with any other labor because it could not and would not be done otherwise. The plan is feasible because they have tried it in New Mexico. In Colorado 400 prisoners could be put to work right away, he thinks, and they would welcome the chance to work.

Senator Barela has a bill in the Colorado Senate which deals with the subject.

Memorial to Congress.

The Legislative Assembly on the 8th inst addressed the following memorial to the House of Representatives at Washington:

"Your memorialist most respectfully represents that the Hamilton bill, as amended and passed by the Senate on Tuesday, February 7, 1905, embodies the hopes, aspirations and rights of the people of New Mexico, who are well fitted to assume the form of government provided for in said bill as it has passed the Senate:

"That the people of New Mexico have an inherent right to admission into the sisterhood of states because of treaty stipulations of our government by which it solemnly pledged the people of the ceded territory that it would be incorporated into the Union and the people thereof admitted to the enjoyment of all the rights of American citizens;

"That the action of the Senate of the United States in passing the Hamilton bill in its amended form is a most righteous recognition of the rights of a people that have been so long denied the privileges of full American citizenship.

"We therefore most respectfully and urgently petition your honorable body to concur in the amendments of the Senate of the United States to the Hamilton bill at the earliest date possible, which may be consistent with the rights and courtesies due to each member of your honorable body."

National Guard Inspection.

Governor Otero has issued the following order:

Pursuant to instruction from the headquarters of the Southwestern division, United States army, Capt. William S. Valentine, Fifth United States cavalry, will make the annual inspection of the national guard of New Mexico on the dates as set forty below:

Company F, First infantry, Santa Fe, April 3, 1905, 7:30 p. m.

First Cavalry Band, Santa Fe, April 3, 1905, 7:30 p. m.

Headquarters First squadron of cavalry, Las Vegas, April 4, 1905, 7:30 p. m.

Troop A, First squadron of cavalry, Las Vegas, April 4, 1905, 7:30 p. m.

Headquarters First regiment of infantry, Albuquerque, April 5, 1905, 8 p. m.

Band, First regiment of infantry, Albuquerque, April 5, 1905, 8 p. m.

Company E, First regiment of infantry, Albuquerque, April 5, 1905, 8 p. m.

Company G, First regiment of infantry, Albuquerque, April 5, 1905, 8 p. m.

Company D, First regiment of infantry, Silver City, April 6, 1905, 7:30 p. m.

Company A, First regiment of infantry, Las Cruces, April 8, 1905, 7:30 p. m.

Company B, First regiment of infantry, Roswell, April 10, 1905, 7:30 p. m.

Albuquerque for Statehood.

At a mass meeting held in Albuquerque February 8th, the following telegram was drawn up by unanimous vote and forwarded to Speaker Cannon of the National House:

"To the Hon. Joseph G. Cannon, Speaker of the House of Representatives, Washington:—More than 1,000 citizens of Albuquerque, and most of them born in the states of the Union, in mass meeting assembled, ask you to lay before the honorable House of Representatives their appeal that the Senate amendments to the Hamilton bill be concurred in and that thus the right of self government be given to the people of New Mexico. You appreciate this right; so do we. Give us self government by agreeing with the Senate. MAYOR FRANK McKEE,
(Signed) "Chairman Mass Meeting."

road company filed incorporation papers, with the territorial secretary February 10th, the incorporators being Frank E. Jennison of New York and Charles N. Bayne, Alva L. Hobbs, John Morrow and Frederick Pelouze of Raton. The capitalization is $300,000, the most of the stock being held by Frank E. Jennison of New York. The western terminus of the road is to be Raton and the eastern terminus the Marie A. Clark ranch, ten miles distant.

Incorporation papers of the Raton Ice Company were filed by Frederick Pelouze, Alva L. Hobbs, John Morrow and Charles M. Bayne of Raton; capitalization, $300,000, and headquarters at Raton.

The Soda Lake Mining & Oil Company filed papers, the incorporators being Louis Nathan Heil, John William Eubank, James Clyde Critchel, Frank Eckley Hunter, George Edwin Smith and Marion Robertson of El Paso, Texas. The capitalization is $300,000 and the headquarters are at Alamogordo, Otero county. The directors are Louis Nathan Heil, Marion Robertson and George Edwin Smith of El Paso and Eugene Baird and Bailey Mustain of Alamogordo.

Judge Lea Dies at Roswell.

A Roswell dispatch of February 10th says: Judge Frank H. Lea, aged sixty-five, United States commissioner and one of the oldest citizens of the Pecos valley, died this morning after an illness of several weeks. He was a veteran of the Civil War on the Confederate side and the original settler of the town of White Oaks.

Judge Lea came to the site of Roswell in 1881 and built one of the first houses here. He owned much property in New Mexico and was one of the best known citizens of the territory. He was a brother of the late Captain Lea, the first mayor of Roswell, and the man who "blazed the way" in the Pecos valley.

The deceased is survived by six daughters of this city and one son, Joseph Lea, a newspaper man of Chihuahua, Mexico. The funeral will be held Sunday and will be conducted by the Masonic fraternity. Six members of the Confederate army, whose names are known, will act as pall bearers.

The numbers of bills introduced in the Council, compared with previous sessions, is rather small. There are, however, several weeks yet in which to make up.

On the 13th inst. the House passed a bill for the regulation of estates of deceased persons and killed two others, one to license pawnbrokers and the other relating to titles of real estate. A memorial was passed asking that another federal land office be established in the territory.

The property of Mrs. Ferguson, deceased, sold at Albuquerque by J. C. Bairidge, executor, brought about $2,300. After court costs are taken from the gross receipts the Non-Sectarian Benevolent Society at Albuquerque will receive two-thirds of the balance as a gift from the deceased.

The store of Antonio Jolleph, former delegate to Congress, at Ojo Caliente was broken into and the safe robbed of $500 in paper money on the night of the 10th inst. There was considerable jewelry in the safe, but the burglar took only the paper money, leaving $60 in silver and one $20 gold piece. The postoffice is in the store, but no letters were taken.

A Santa Fe dispatch to the Denver News February 13th says: Casimero Barela of Colorado today came here to plead for the commutation of the sentence of Euphasio Vigil of Raton, sentenced to death for murder. Barela will remain here several days, and while he denied that he was a candidate for governor of New Mexico, he was in conference all day long with Republican leaders and cultivated their acquaintance assiduously.

The Albuquerque papers have asserted that President John S. Clark of the Legislative Council is to be appointed coal oil inspector under the provisions of the Lynch coal oil bill, which was passed by the Assembly on Thursday last. There is no foundation whatsoever for this assertion. In the first place, President Clark is not a candidate for the position and in the second place, under the organic act, he could not be such a candidate, that act prohibiting the appointment of a member of the Legislative Assembly to any office created by the Assembly of which he is such member for one year thereafter.—Santa Fe New Mexican.

The pupils of the High School paid a visit to the Legislature which they enjoyed so much that they organized themselves into a Legislature Friday afternoon in lieu of the regular literary exercise. Joint Council bill No. 1, introduced by Henry Dendahl, providing for the admission of New Mexico as a state within its present geographical boundaries, was confused somewhat by the woman's suffrage amendment offered by the girls. The amendment carried. An amendment making the ability to read and write a qualification of voters and office holders five years hence, carried. An amendment to include Arizona brought about an endless debate and the joint session adjourned without a vote on the last amendment or the main question.—Santa Fe New Mexican.

A Santa Fe dispatch of February 13th says: In the teeth of a terrific norther, former Sheriff James Brent and Constable Columbus Byfield yesterday captured two cattle rustlers who have been committing depredations on the range of Lincoln county. The officers rode to the ranch of Robert Leslie, near Capitan, and there found the carcasses of nine freshly butchered cows, which had brands on their hides of the Carizozo Cattle Company and other cattle companies. Four fat cows in the stable had similar brands. The ranch was deserted, except by Leslie's 17-year-old son, who tried to hide, but on the way to Capitan with him, Elisha Leslie, an older brother, was captured. Elisha was indicted two years ago for cattle rustling, but escaped to Arizona, and returned only two weeks ago. The father, Robert Leslie, will be arrested in a few days, as posses are scouring the country.

The Montana House of Representatives killed a bill to license gambling.

A fire in the Battle house, Mobile, on the 12th inst., occasioned a loss of $400,000.

There are said to be signs of another revolution against President Castro in Venezuela.

Italy has experienced extreme cold weather, Mount Vesuvius being covered with snow.

Japan has placed an urgent order with a Glasgow manufacturer for fifty powerful locomotives.

J. Pierpont Morgan has arranged to make another cruise in foreign waters in his steam yacht, the Corsair.

The Montana House of Representatives defeated the woman suffrage bill by a vote of 30 for to 38 against.

Lady Curzon, wife of the viceroy of India, and her three children sailed from London for India, February 10th.

It is estimated that there are 45,000,000 eggs in cold storage in Chicago, while the price is 35 cents a dozen.

The bill giving women the right to vote for presidential electors was killed by the Kansas Senate by a vote of 6 to 29.

The trial of Mrs. Cassie L. Chadwick in the United States District Court at Cleveland, has been set for March 6th before Judge R. W. Taylor.

At the bench show of the Westminster Kennel Club in Madison Square Garden, New York, there were 2,700 dogs on exhibition.

Anderw Carnegie has announced that he will go to Cleveland to testify against Mrs. Cassie L. Chadwick, whose trial begins March 6th.

At Havana, Cuba, on the 14th inst., H. W. Fletcher lowered the world's automobile one-mile record one second by driving the eighty-horse power machine of O. F. Thomas that distance in forty-five seconds.

According to Minneapolis elevator men who operate stringe of elevators throughout the Dakotas, over 2,000,000 bushels of oats have just been bought up by agents of the Japanese government.

Before the National Promotion of Health Club, Mrs. E. Cornelia Claflin has anounced that the club has been offered 100 acres of land in the Ozark mountains as a place of recreation for sick shop girls.

Two photographs of Hoch the "Chicago Bluebeard" sent to Germany by the police officials have been returned with the information that they are pictures of Jacob Semidt, who formerly lived at Bingen, Germany.

The management of the Chicago & Northwestern railway has practically decided to electrify all of the suburban divisions at Chicago with a view to competing with the trolley lines. The work may be spread over five years.

Three Russian captains and ten lieutenants who surrendered at Port Arthur and who gave their parole to the Japanese, arrived at Honolulu on the 13th inst. on the steamer Siberia en route to San Francisco, from whence they will go to Russia via New York.

The indictment charging Manager Will G. Davis of the Iroquois theater in Chicago, with manslaughter on account of loss of life in the theater fire has been quashed on the ground that the document fails to show any omission of duty on the part of Davis.

Socialists held twenty-one monster meetings in Berlin and its suburbs on the night of the 9th inst., to express "flaming indignation at the butcheries and massacres which the Russian government has perpetrated on defenseless men, women and children in St. Petersburg."

Emperor William has given his suppers [illegible] officers [illegible] toasts in water or non-alcoholic beverages. A recent order reads: "No compulsion exists to partake of toasts in alcoholic drinks, and it may be left to the movement now in progress to advance this idea in all circles."

General Stoessel, seen on the steamship Arabian on his way to Russia, said Port Arthur could only have held out eight days longer at the utmost. He said there were 30,000 men, 18,000 of whom were in the hospital, and 4,000 non-combatants. The remaining 8,000 nearly all had scurvy.

A French officer is credited with the statement that two fast English yachts were engaged as scouts for the Russian squadron passing through the Mediterranean and Red seas, keeping a lookout for Japanese vessels supposed to be cruising in those waters. The yachts kept in communication with the flagships.

The date of the visit to American waters of the squadron of British warships commanded by Rear Admiral Prince Louis of Battenberg has been definitely fixed for October. It will comprise a short stay at Newport, New York and Annapolis. The prince's visit to Washington will, it is said, be of an official character. President Roosevelt will be notified through the British ambassador and Prince Louis will convey to the President King Edward's greeting in a special message.

Sick She Could Not Sleep or Eat. Cured by Doan's Kidney Pills.

Marion Knight, of 33 N. Ashland avenue, Chicago, orator of the West Side Wednesday Club, says: "This winter when I started to use Doan's Kidney Pills I ached in every bone and had intense pains in the kidneys and pelvic organs. The urine was thick and cloudy, and I could barely eat enough to live. I felt a change for the better within a week. The second week I began eating heartily, I began to improve generally, and before seven weeks had passed I was well. I had spent hundreds of dollars for medicine that did not help me, but $6 worth of Doan's Kidney Pills restored me to perfect health."

A TRIAL FREE.—Address Foster-Milburn Co., Buffalo, N. Y. For sale by all dealers. Price, 50 cts.

A hair-raising story delights the heart of a bald-headed man.

TEA

We don't know, in this country, how good tea is—the most of us—some of us do.

It isn't the tea's fault.

When men congregate in front of a bar the swallows homeward fly.

WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. Chas. F. Brown

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular menstruation, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. Chas. F. Brown, Vice-President Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham:—

"For nine years I dragged through a miserable existence, suffering with inflammation and falling of the womb, and worn out with pain and weariness. I one day noticed a statement by a woman suffering as I was, but who had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was a different woman. Every one remarked about it, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured the womb trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION

RHEUMATISM IN TWO SEVERE CASES MASTERED IN FEW WEEKS.

The Remedy Used by Mr. Schroeppel and by Captain Balfour in Great Demand in Vicinity of Their Homes.

In the winter of 1902-3 Mr. Schroeppel was confined to his bed by a severe attack of rheumatism. His doctor's treatment proved unsuccessful, but he subsequently regained his health by means which he describes with great enthusiasm.

"After five or six weeks of helplessness and pain," said he, "during which I was receiving regular visits from the doctor, I felt as bad as ever. Just then my mother, a woman eighty years of age, paid me a visit. She had received great benefit from Dr. Williams' Pink Pills, and she was confident they would help me. At her solicitation I gave up the doctor's treatment and took the pills in its place."

"And were you cured as the result of taking her advice?"

"Yes, quickly and thoroughly. Before the second box was finished I felt very manifest improvement, and within two weeks I was able to leave my bed and take up my neglected farm work. I continued to use the pills, however, until eight boxes had been taken, although long before that I felt that every vestige of the disease had been eradicated:

"Are there no traces left?"

"Absolutely none. For a year and three months there has never been the slightest return of the old trouble. For this happy result I and my family freely praise Dr. Williams' Pink Pills."

Within the bounds of China township, St. Clair county, Mich., there is no better known farmer than Mr. Henry Schroeppel. His care has therefore naturally attracted a great deal of attention. One of Mr. Schroeppel's neighbors, Captain George Balfour, after hearing of the salutary results in Mr. Schroeppel's case, decided to try Dr. Williams' Pink Pills for an attack of rheumatism from which he was himself suffering. He took eight or ten boxes and now declares himself free from the painful ailment."

It is little wonder that Dr. Williams' Pink Pills are much in favor in the community where Mr. Schroeppel and Captain Balfour are so well and favorably known. They are sold by all druggists and are equally successful in curing neuralgia, sciatica and partial paralysis.

"I married my husband for love alone." "Did you? I've often wondered what the cause was."

TEA

How can Schilling's Best be better than other good tea?

Same as with everything else. Men differ; men's things differ.

Your grocer returns your money if you don't like it

It looks as if the czar were due to get his crown nicely Japanned.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. Thos. Rommins, Maple Street, Norwich, N. Y., Feb. 17, 1900.

Adversity sometimes brings out a man's good points by the roots.

Every housekeeper should know that if they will buy Defiance Cold Water Starch for laundry use they will save not only time, because it never sticks to the iron, but because each package contains 16 oz.—one full pound—while all other Cold Water Starches are put up in ¾-pound packages, and the price is the same, 10 cents. Then again because Defiance Starch is free from all injurious chemicals. If your grocer tries to sell you a 12-oz. package it is because he has a stock on hand which he wishes to dispose of before he puts in Defiance. He knows that Defiance Starch has printed on every package in large letters and figures "16 ozs." Demand Defiance and save much time and money and the annoyance of the iron sticking. Defiance never sticks.

Dry bread of your own is better than a roast from your friends.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

TEA

The best "cheap" tea is hot water; don't spoil good water with trash tea.

Your grocer returns your money if you don't like Schilling's Best.

Many a man who is willing to do good is unable to make good.

Make Patient Speak.

This story is told of a recent act of a well-known London surgeon, whose heart is said to be as gentle as his manner is rough. He went from his warm bed at 4 o'clock one bitter morning to attend a tiny boy, who was in a perilous plight from diphtheria. He hastily performed the operation of tracheotomy and to his joy saw the child revive. During the next few days everything passed off beautifully, but the doctor wanted to hear his small friend speak. This so far the patient had not done. "I am sorry he can't speak to me, nurse, because I'm going up to London to-day and sha'n't know whether to bring him a horse or a gun." It was the doctor speaking at the little one. A tiny finger stole up to a wounded throat and the ghost of a baby's voice whispered: "Please, doctor, bwing me a lickle gun." He got the "lickle gun" and the doctor knew that the child's voice was safe.

VALUE OF ONE ACRE.

Small Piece of Ground Can Be Made to Yield Good Results.

It may be unusual to estimate the amount of pork that can be produced from an acre of certain crops, but the problem has been solved in a very interesting way. It is claimed that an acre of land in clover will produce 800 pounds of pork; peas, 375 pounds; corn, 650 pounds; oats, 320 pounds; barley, 420 pounds, and wheat, 225 pounds. The value of each crop on one acre when converted into pork is as follows: Clover, $32; oats, $22.40; peas, $15; barley, $16.80; oats, $13.20, and wheat, $9, estimating the pork at four cents per pound. Of course something depends on the prices ruling for the crops. The amount of produce per acre required to give the pork mentioned on an acre is 900 pounds of wheat, 1,680 pounds of barley, 1,320 pounds of oats, 2,240 pounds of corn, 15,000 pounds of peas, and 12,000 pounds of green clover.

Garden "Yeast."

And as wonders never cease, says a writer in The Garden Magazine, the scientists have now captured the bacteria that attract or urge the plants to draw the nitrogen from the air through the leaf and stalk into the root system, and thus supply fertilizer that one would otherwise have to pay highly for to make the garden vegetables grow. The bacteria trainer cultivates, tames or grows these small creatures, dries them in small, hard cakes, gives them to us to inoculate or vaccinate the seed or land, so that these plants will draw more nitrogent into the soil than they normally do. The government Agricultural department gives us "yeast cakes," as we call them, so there is no outgo but a postage stamp's value and the returns are great indeed.

Keeping One's Temper.

One of the most difficult things to do in the world sometimes is to keep one's temper. A calm serenity of temper and a self-control which keeps a person unruffled amid the petty annoyances and ills of everyday life indicate the possession of perfect mental health. Nowadays people are very fond of saying so-and-so was "just mad," meaning very angry; but it would be well if temper were more often seriously regarded as madness. It may be preventable madness, but madness it is while it lasts, and there is seldom any one who is made more unhappy by it than the person who gives way to it. In our treatment of the ill-tempered the cultivation of the art of not hearing will be very helpful. It is a useful art all through life

From a Self-Made Philosopher.

Go in, son, and do yoh bes',
An' keep yoh pride up mo' or less;
Be ambitious an' wide awake,
But you wants to look out foh one great mistake—
Don't get haughty.

Remember in layin' out yoh plan
What happened to dat Excelsior man.
He wouldn't notice his friends nor kin
An' a freeze was de bes' dat he could win.
He got haughty.

Don't git haughty about yoh wealth;
Don't git haughty about yoh health;
De brokers may git you befo' you's through
An' de microbes is allus a-layin' foh you.
Don't git haughty.

Enjoy de sun an' keep out de rain;
Laugh at de pleasure and bear de pain;
Do your share in de toil an' strife
An' git as much as you kin from life.
But don't git haughty.

—Washington Star.

Ferocious Bravery.

In the naval battle between the English and the French off Dominica in April, 1782, an English gunner was standing by his gun when the ship sheered abreast of the French flagship. The gun was all ready and just going to fire when a shot came in at the port and took his leg off at the knee. As quick as thought the man pulled off his neckcloth and tied his leg above the stump. The next instant he seized his shot-off limb and thrust it into the muzzle of the gun, which went off two seconds later. "My foot," shouted the man, exultantly, "is the first to board the Ville de Paris!"

Beauty and Matrimony.

Judging from the homely married couples we see every day, no. A man may rave over beauty and grace and all that, but when he meets the real girl, one that has a sense of restfulness about her—one that understands him and that he understands—he's not going to hesitate long on account of her appearance, be she ever so homely. Nor will she hesitate to whisper "yes," though he is positively ugly. Though we may love beauty—most of us do—there are many other things we love equally well.—Era Magazine.

Snake River, in Wyoming, says he never saw the jackrabbits as numerous since '76. Pascoe, on January 12th, was surprised at the appearance of five large eagles near his ranch house, and upon going to the corral in the meadow where there was a stack of hay, he found that the big birds were attracted by the presence there of hundreds of the rabbits.

The rabbits had come to the corral for food and shelter because of the snow and were huddled in the corners of the fences trying to escape the eagles, which were constantly swooping down and picking up a victim, often only to let it drop to the ground, where several coyotes, also attracted by the want of food, would seize it.

The Prevailing Religion.

Christianity is now the prevailing religion of the world. Its adherents, according to Dr. Roberts, amount to 477,090,158. The next religious faith in point of number is Confucianism, with 250,000,000 adherents. Hindooism is third with 190,000,000 and Mohammedanism fourth with 176,834,372. Buddhism is given 147,900,000. The various smaller heathen faiths count up only 118,129,470. This is on the basis of a population of the globe of 1,430,000,000. In other words, the adherents of Christianity comprise just about one-third of the world's population.

IT'S THE TERROR OF ALL WOMEN.

Backache Quickly Cured by Dodd's Kidney Pills. Mrs. W. H. Ambrose tells how her pains vanished never to return when she used the Great American Kidney Remedy.

Dover, Ky., Feb. 13th.—(Special)—So long has Backache been the terror of the women of America that the numerous reports of the complete and permanent cures of this ailment now being made by Dodd's Kidney Pills are causing wide satisfaction and not the least remarkable of these cures is that of Mrs. W. H. Ambrose of this place. Mrs. Ambrose says:

"I had such pains in my back at times I could hardly move and other symptoms showed that my kidneys were affected. One box of Dodd's Kidney Pills drove away all the pains and I have never been troubled since."

Backache is the kidneys' first notice that they are out of order and need help. If they get that help in the form of Dodd's Kidney Pills all will be well. If they are neglected the disease may develop into Diabetes, Bright's Disease or Rheumatism.

It is claimed that laughing will cure dyspepsia, but the remedy will never be used, as every dyspeptic insists that there is nothing to laugh at.

RAW ITCHING ECZEMA

Blotches on Hands, Ears, and Ankles For Three Years—Instant Relief and Speedy Cure by Cuticura.

"Thanks to Cuticura I am now rid of that fearful pest, weeping eczema, for the first time in three years. It first appeared on my hand, a little pimple, growing into several blotches, and then on my ears and ankles. They were exceedingly painful, itching, and always raw. After the first day's treatment with Cuticura Soap, Ointment, and Pills, there was very little of the burning and itching, and the cure now seems to be complete. (signed) S. B. Hege, Passenger Agent B. & O. R. R., Washington, D. C."

Mrs. Hoyle—Does your husband lie in bed mornings? Mrs. Doyle—Yes; and after he gets up.

Salzer's Home Builder Corn.

So named because 50 acres produced so heavily, that its proceeds built a lovely home. See Salzer's catalog. Yielded in Ind. 157 bu., Ohio 160 bu., Tenn. 198 bu., and in Mich. 220 bu. per acre. You can beat this record in 1905.

WHAT DO YOU THINK OF THESE YIELDS?
120 bu. Beardless Barley per acre.
310 bu. Salzer's New National Oats per A.
80 bu. Salzer Speltz and Macaroni Wheat.
1,000 bu. Pedigree Potatoes per acre.
14 tons of rich Billion Dollar Grass Hay.
60,000 lbs. Victoria Rape for sheep—per A.
160,000 lbs. Teosinte, the fodder wonder.
54,000 lbs. Salzer's Superior Fodder Corn—rich, juicy fodder, per A.

Now such yields you can have in 1905, if you will plant my seeds.

JUST SEND THIS NOTICE AND 10c in stamps to John A. Salzer Seed Co., La Crosse, Wis., and receive their great catalog and lots of farm seed samples. [W.N.U.]

Some fellows regard every other man as an opportunity to be made the most of.

To the housewife who has not yet become acquainted with the new things of everyday use in the market and who is reasonably satisfied with the old, we would suggest that a trial of Defiance Cold Water Starch be made at once. Not alone because it is guaranteed by the manufacturers to be superior to any other brand, but because each 10c package contains 16 ozs., while all the other kinds contain but 12 ozs. It is safe to say that the lady who once uses Defiance Starch will use no other. Quality and quantity must win.

A man may be a regular fire-eater and still take water.

FITS permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE $2.00 trial bottle and treatise. Dr. R. H. Kline, Ltd., 931 Arch Street, Philadelphia, Pa.

A good boarding-house steak is almost as rare as it is scarce.

TEA

Don't touch it at less than 60c lb; it isn't worth while. We know the market.

Your grocer returns your money if you don't like Schilling's Best.

Dispute As to Which Kills Wyoming Grasshoppers.

A Cheyenne dispatch says that the dispute which has been in progress in Wyoming for several weeks as to whether sage chickens eat grasshoppers, has brought out a rather surprising statement on the part of Sid Winship of Sundance, Wyoming, as to the reason for the increase of grasshoppers in certain sections of the state.

Winship says that the killing of sage chickens has had nothing to do with the increase of grasshoppers, but that the killing of coyotes has been responsible for the phenomenon. He states that coyotes eat an enormous number of grasshoppers during the warm months, and that the placing of a bounty on coyotes is equivalent to the placing of a premium on grasshoppers. Frequently he has opened the stomachs of coyotes and found them filled with thousands of grasshoppers which the sly beasts had stalked and devoured.

The "Do Sage Chickens Eat Grasshoppers" dispute was started by a bill introduced in the Legislature to protect sage chickens for a period of years, the author of the bill maintaining that the killing of sage chickens in some sections had resulted in such an enormous increase in grasshoppers that the range was being destroyed. Sportsmen objected to entirely doing away with the open season on chickens, and since the bill was introduced the dispute has extended from one end of the state to the other, many prominent men going on record one one side of the question or the other.

President Roosevelt's Forethought.

President Roosevelt went to Attorney General Moody's cabinet dinner at the New Willard last night, says a Washington paragraph. The President has a new team of horses, and when he arrived at the White House after the dinner, instead of going into the White House at once, stopped to look over the horses. He examined them carefully, keeping up a running fire of talk with the coachman. Then he looked at the harness critically.

"Isn't that just like the President?" said a man who was standing near by. "He is telling his coachman how to take care of that harness."

"Nothing ever escapes either the President or Mrs. Roosevelt," said another. "Every morning after a fall of snow Mrs. Roosevelt sends a servant out in the white lot with a basket of bread and nuts for the squirrels."

TEA

promotes light thinking and light conversation. Tea time is the time for light thought and talk.

Wise is the man who first ascertains what kind of advice his friends want—and then gives it to them.

When Your Grocer Says

he does not have Defiance Starch, you may be sure he is afraid to keep it until his stock of 12 oz. packages are sold. Defiance Starch is not only better than any other Cold Water Starch, but contains 16 oz. to the package and sells for same money as 12 oz. brands.

The boy who saves his pennies will be in a position to blow in dollars later.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher.

In Use For Over 30 Years.
The Kind You Have Always Bought.

Some men wake up and find themselves famous, but the majority oversleep.

TEA

How has so dainty a drink as tea gone over the world so far, and made friends so many?

DANGERS AVOIDED IN PERIODITY

Intense Cold Breeds Catarrh.

Sudden Changes Breed Catarrh.

Severe Weather.

February is a month of severe storms and intense cold.

Even in the South where the prevailing temperature is much above wintry latitudes, February brings sudden changes of temperature.

Mercury sometimes drops 20 degrees in a single night.

Therefore, the following health hints are applicable to the whole of North America:

Ventilation.

The sleeping rooms should be well ventilated, but so as to avoid direct currents of air.

Bathing.

Those in vigorous health should take a cold water towel bath every morning before breakfast. Those in feeble health should take a brisk dry-towel rub every morning.

Diet.

The diet should be a generous one, including meat, and occasionally fresh vegetables.

Sunshine.

The nights being long and the days short, as much sunshine as possible should be let into the house during the day.

Clothing.

The head should be kept cool at all times. The feet should be kept warm and dry, day and night.

Peruna.

When unavoidably exposed to cold or wet, a few doses of Peruna will avert bad consequences.

Precaution.

When seized with a chill, or even slight chilliness, a dose of Peruna should be taken at once.

Rest.

As much sleep as possible should be obtained in the forepart of the night.

Catarrh of Head.

Mr. Frank Cobb, 175 Summit Street, Deering, Me., writes:

"I was troubled with catarrh in my head. I wrote to Dr. Hartman for advice and he prescribed Peruna.

"I took it and am happy to say it helped me at once. I feel better than I have for years."

Bronchial Trouble.

Mr. J. Ed. O'Brien, Pres. American Pilot Ass'n, Pensacola, Fla., writes:

"I heartily give my endorsement to Peruna as an effective cure for catarrh and bronchial trouble."

Throat and Lungs.

Frank Battle, Jr., 111 N. Market St., Nashville, Tenn., writes:

"Peruna has cured me of chronic bronchitis.

"It is the grandest discovery of the age for the throat and lungs."

Pneumonia.

Mr. A. C. Danforth, St. Joseph, Mich., writes:

"I contracted a severe cold which settled on my lungs. I was threatened with pneumonia.

"Peruna gave me relief within a couple of days. Three bottles saved me a large doctor bill and a great deal of suffering."

Thousands of Testimonials.

We have on file thousands of testimonials like the above. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving.

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, O.

Why not abolish that very questionable luxury, the Territorial Board of Immigration? The way our legislature is piling up taxes it will be impossible to induce people to settle here or capitalists to invest their money in our mining enterprises. It is time for the Bureau to go out of business.

The spectacular performances of that territorial menagerie at Santa Fe when presented to Congress, to be passed upon by that National body, as they surely will be for annulment, it will be found that they have done more to discredit and besmirch the fair name of New Mexico than all the libelous statements and slanders of all her detractors combined.

The Santa Fe New Mexican, which is the lash, as well as the ungent, and the apologist of the present territorial legislature, has contrived a little scheme of its own whereby a temporary reduction of taxes may be brought about, even in the face of the enormous burdens laid on the shoulders of the people by reckless, unwise and extravagant legislation. This is to issue bonds covering all the appropriations made and to be made at this session, so that only the interest will have to be paid by the present generation. But what will the future tax payers of New Mexico say when they are up against this kind of inheritance? It is that same old mess of pottage deal over again.

Col. Geo. W. Prichard has taken Senator Burrows, of Michigan to task pretty sharply for his statement, in the course of a speech delivered in the United States Senate recently, that "New Mexico is a breeding ground for polygamy." Col. Prichard, in a letter addressed to the Senator says: "I challenge the truth of the above utterance and will put up one thousand dollars to be turned over to any charitable organization you may name if you furnish the names of ten men in this territory out of a population of 300,000 here, who have plural wives in New Mexico. You said in your speech that you had the information. Let me hear from you." It now looks as if Mr. Burrows ought to put up or shut up.

The Outlook wishes to remind its subscribers, who seem to have forgotten that raw material and printer's ink coats something, that the first six months of its existence has about expired. Their attention is called to the standing advertisement at the head of this editorial page. To these friends the following easy methods are suggested: Take a silver dollar, let it drop on the table and you will notice a ring. Wear the ring or give it to a friend, and send the dollar to us and we will apply it on your subscription. Another nice experiment consists in taking a new dollar bill and folding it several times and then unfolding it. You will notice it in creases. Use the creases for your Sunday trousers and then send us the original bill. It [illegible]

HIS PRODIGAL SUPERFLUITY.

The people of New Mexico no doubt will be overjoyed to learn that the salary of the game warden, now held by Page B. Otero, brother of the governor, has been increased from $1,800 to $2,500 by the present legislature.

One can imagine all the fowls of the air, and the animals that make night hideous, the timid deer that slakes its thirst in the secluded brook, and the fierce mountain lion that devours the meek-eyed yearling heifer, the big toads and little fishes meeting together in fraternal caucus to send perfunctory congratulations.

The hearts of the sportsmen of the upper Pecos—the region especially presided over by this august dignitary—will dilate with joy when they learn of this munificence bestowed in recognition of the eminent services of their distinguished head.

The sporting fraternity of other states, and those congressmen who all along have been making game of us, will make annual pilgrimages to our cool mountain resorts and umbrageous forest reserves where only high priced keepers of the game are tolerated.

Even the gamins on the streets of the pent up cities of the embargoed East, will point to New Mexico with pride, as the only section in the broad land that can sport such a High and Mighty Superfluity as a $2,500 Game Warden.

Down here, however, it is whispered sub voce, sub rosa, or some other kind of posey way, that suckers will be caught and game slaughtered in season and out of season around the White Mountains and other sequestered portions of Lincoln county, the same as when the salary was $1,800.

Now let them pass the statehood bill and send our legislature home loaded with honors and followed by something far more drastic and emphatic.

If that libel law, lately passed by the territorial legislature, had been promulgated by Nicholas Romanoff, Czar of Russia, it would have been more in keeping with that kind of government rather than that of an up to date American commonwealth seeking admission to the Union of States founded by the father of the Republic and under the Stars and Stripes.

Notice for Publication.

Mineral application, No. 22.

APPLICATION FOR PATENT.

U. S. Land office, Roswell N. M. Jan. 25th 1905.

Notice is hereby given that the Rock Island Cement and Plaster Company, a corporation organized under the laws of the Territory of New Mexico, with its principal office and post office at Ancho, Lincoln County, New Mexico, has made application for a United States patent for the Rock Island group of placer mining claims situated in the Jicarilla Mining District, County of Lincoln, Territory of New Mexico, said Rock Island group containing 639.96 acres, of surface ground and comprising Ancho No. 1 placer claim containing 160 acres, Ancho No. 2 placer claim, containing 160 acres Keystone placer claim, containing 159.96 acres and Chicago placer claim, containing 160 acres, bearing gypsum rock, natural cement or gypsite, clay and other valuable minerals. Said Rock Island Group being designated as mineral survey No. 1191 and described in the Field Notes and plat of the official survey on file in this office, with magnetic variation at 12 degrees East as follows:

ANCHO NO. 1.

Beginning at corner No. 1; identical with a corner of the location, also Corner No. 4 Keystone placer, also corner No. 4 Chicago placer, both of this survey. In the south line of the El Paso & North Eastern Railway right-of-way A cedar post 4 inches square, 4 feet long, set 2 feet in the ground, with a mound of stones 18 inches high, 2 feet base around it, scribed 1—1191 4—1191 4—1191 on sides facing claims with a nail driven at point for corner. From which the section corner, common to sections 24 and 25, R. 11 E., and sections 19 and 30, R. 12 E. T. 4 S. N. M. P. B. and M., a limestone 4x6x6 inches set in a mound of stones, chiseled four notches on the N., and 2 notches on the S. faces; from which a cedar tree, 8 inches dia. bears N. 65 deg. E. 74 ft dist. Pine tree 8 ins. dia. bears S. 8 deg. W. 33 ft. dist. both trees blazed; no scribing seen, bears N. 61 deg. 49' E. 2207.5 feet dist. A cedar tree 8 ins. dia. bears S. 42 deg. W. 75 ft dist. blazed and scribed X B T 1—1191 4—1191 4—1191. Pinon tree 10 inches in dia. bears S. 40 degrees 30' E. 72 ft distant blazed and scribed 1 X 1—1191 4—1191 4—1191.

Thence S. 66 degrees 37' W. along the S. line of the right of way of the E. P. & N. E. Ry. 1840 feet cross stockyard fence; 1987 feet cross stock yard fence; 2040 feet Corner No. 2.

A cedar post 4 inches square, four feet long set 2 feet in the ground. Mound of stones 18 ins high 2 feet base around it scribed 2—1191 on side facing claim with nail driven at point for corner. From which a corner of the location, a cedar post 4 ins square, four feet above the ground set in a mound of stones, bears S. 66 degrees 37' E. 15 feet dist. The 107 mile post bears N. 74 degrees W. 125 feet dist. A cedar tree 8 ins in dia. bears N. 64 degrees E. 128 feet dist. blazed and scribed X B T 2—1191. Thence S. 24 degrees 30' E. 500 feet ascend; 2640 feet cor No. 3, cedar post 4 ins square 4 feet long, set 2 feet in the ground, a mound of stones 18 ins high 2 ft base round it, scribed 3—1191 on the side facing claim, with a nail driven at point for corner. From which a corner of the location a cedar post 4 ins square, 4½ ft long in a mound of stones, marked South Corner Ancho No. 1 bears S. 12 degrees W. 47 ft dist. A pine tree 8 ins in dia. bears S. 45 deg 40' W. 10 feet dist. blazed and scribed X B T 3—1191. A cedar tree 10 ins dia bears S. 70 deg 10' W. 14 ft dist. blazed scribed X B T 3—1191. A pine tree 8 ins in dia. bears N 1 deg E. 21 ft dist. blazed and scribed X B T 3—1191. Thence N 66 deg 37' E. 2640 feet cross wagon road, course NW. 2640 ft corner sq. 4. Identical with corner no. 3 of Keystone placer of this survey. A cedar post 4 ins square 4 feet long set 2 feet in the ground with a mound of stones 18 ins high 2 ft base around it, scribed 4—1191 3—1191 on sides facing the claims, with a nail driven at point for corner. From which a corner of the location, a cedar post 4 ft long, set in a mound of stones, bears S 23 deg 37' E. 9 ft dist. A cedar tree 8 ins dia. bears N 63 deg. E. 11 ft dist. blazed and scribed X B T 4—1191 3—1191. A pinon tree 8 ins dia. bears N. 53 deg W. 21 ft. dist. blazed and scribed X B T 4—1191 3—1191. A cedar tree 18 ins dia. bears S. 37 deg. E. 60 ft dist. blazed and scribed X B T 4—1191 3—1191; thence N. 23 deg 23' W. 1450 ft station; 1815 feet cross irregular cut, 1855 leave irregular cut, 2125 ft cross pipe line, course, S 67 deg 30' W. 2640 feet to corner No. 1, the place of beginning. Total net area of the Ancho No. 1 Placer 160 acres.

This claim is located in T. 4 S. R. 11 E unsurveyed.

On the North, no adjoining claims. South, a placer claim, unsurveyed. East by the Keystone placer of this survey. West, no claims known. No conflicting claims known.

ANCHO NO. 2 PLACER.

Beginning at corner No. 1, identical with a corner of the location in the north line of the E P & N E Ry. right of way; also in line 3-4, Chicago Placer of this survey, 40.23 deg 23' W 200 feet dist. from corner long previously described.

A square post 5 ins in dia. 4 feet long, set 2 feet in the ground, with a mound of stones, 18 ins high, 2 feet base around it, scribed 1-1191 on side facing claim with nail driven at point for corner; from which the SE Cor. of sec. 24 T. 4 S. R. 11 E. previously described, bears N 70 deg 01' E 2210.3 feet dist. A cedar tree, 18 ins dia. bears N 44 deg W. 25 feet dist blazed and scribed X B T 1-1191. A cedar tree 14 ins dia. bears N 83 deg. 30' E. 50 feet dist blazed and scribed X B T 1-1191. Telegraph pole bears S 50 deg E 57 ft. dist blazed and scribed X 1-1191 Thence S 63 deg 23' W. 975 feet station; 1105 feet station, 2040 feet corner No. 2. Cedar post 4x4 ins square, 4 feet long set 2 feet in the ground, with a mound of stones 18 ins high, 2 ft base around it scribed 2-1191 on side facing claim, with a nail driven at point for Cor. From which a Cor of the location, a cedar post, 4x4 ins, 5 feet long, set in a mound of stones 19 inches high, 2 foot base, bears S 60 deg 37' W 25 feet dist. A cedar tree 8 ins in dia bears N 49 deg W 40 feet dist blazed nail scribed X B T 2-1191 A cedar tree 10 ins dia bears N. 80 deg W 25 feet dist blazed and scribed X B T 2-1191. A cedar tree 6 ins dia bears S 43 deg E. 24 ft dist. blazed and scribed X B T X 2—1191. Thence N. 23 deg 23' W. 1840 ft wagon road, course S 80 deg E. 2640 ft wagon road, course S 80 deg E. 2640 ft Cor. No. 3, identical with a corner of the location. A cedar post, 4 ins square 4 feet long, set 2 feet in the ground, with a mound of earth 18 ins high 2 ft base around it scribed 3-1191 no bearings available, with nail driven at point for corner. Thence N 66 deg 37' E. 2640 feet wagon road, Course SE. 2640 feet cor No. 4. Cedar post 4 ins sq 4 feet long, set 2 ft in the ground, with a mound of earth 18 ins high 2 ft base around it scribed 4—1191 on side facing claim with nail driven at point for corner. From which a cor. of the location, a cedar post 4 ins sq. 5 ft long set in the ground, with a mound of earth around it, bears N 23 deg 23' W. 60 ft dist. A cedar tree 18 ins in dia bears N 74 deg W. 13 ft dist scribed X B T 4-1191. A pinon tree, 12 ins. dia. bears N. 30½ deg E. 96 ft dist. scribed B T X 4-1191. A cedar tree, 8 ins dia. bears S. 42 deg E. 60 feet dist. scribed B T X 4-1191. Thence S. 23 deg 23' E. 200 feet to corner No. 3, Chicago placer of this survey, previously described. 2640 feet wagon road, course NW. 2640 feet to Cor. No. 1, place of beginning.

Total net area of the Ancho No. 2 Placer, 160 acres.

This claim is located in T. 4 S. R. 11 E. unsurveyed.

North, no claims known. South, adjoining claims. East by Chicago placer of this survey. West, no claims known. No conflicting claims known.

CHICAGO PLACER.

Beginning at corner No. 1 identical with a corner of the location. A cedar post, 4 ins. square, 4 ft. long, set two feet in the ground, with a mound of earth 18 ins. high 2 ft. base around it, at 2640 ft in line 4-1, Keystone placer of this survey scribed, 1-1191 on side facing claim, a nail driven at point for corner, from which the SE.
