VOLUME 2 WHITE OAKS NEW MEXICO. THURSDAY. AUGUST, 9, 1906. NUMBER 49

LOCAL ROUNDUPS.

Miss Della Littell returned to El Paso Monday after a two weeks visit with relatives and friends here.

The Del Curtos were in town from their ranch the fore part of the week laying in supplies.

Jack Leighner has been reporting to the doctors tent at the quinine call for the past week.

James Simms has accepted a position with the El Paso and Southwestern railroad at Carrizozo and is now duly installed in the water elevator plant.

Joe Spencer arrived here from Tucumcari Monday last and is preparing to move his family and other household appurtenances to that place in a few days.

Ed and Harry Comrey were down from their Ancho ranch this week drilling a hole through the crust of the town just for the fun there was in it.

W. S. Prager, formerly a prominent merchant of Lincoln, but now of Roswell, well known to almost every citizen of this county, was here Monday looking after his mining interests hereabouts.

J. S. Penfield, the reliable and efficient manager of the Lincoln Trading company's store, looked in on his friends here for a few hours the fore part of the week.

Albert Ziegler dropped down from Trinidad, Colorado, Tuesday morning to revisit his many old-time friends here and do a little business as well. He reports all the Zieglers doing well and well contented with their new location.

Allen Lane, Ed Queen and D. L. Jackson returned from El Paso Tuesday evening where they had been on business connected with their lease on the South Homestake mine, it is surmised.

Our citizens are not investing in town property at Carrizozo to any alarming extent as yet. Generally they feel like remaining true to their—"Heart's Desire", and still have faith that its yet undeveloped resources, its beautiful location and its many other attractions and advantages will keep it well to the front.

Harry Jacobs who has been attending the Las Vegas Normal University for the past year returned Saturday for his summer vacation at home. If Harry has grown in knowledge as he has in stature and personal makeup during the brief time that he has been away he bids fair to soon become an intellectual giant. His is the kind of robust young manhood that any community can be proud of.

John J. Mc Court and family drove up from Carrizozo ranch Tuesday to see if the bad odor clinging to the canned beef product still clings, or whether it has worn off sufficiently to allow him to resume business with the trade here. John has been with a party angling along the cool, rippling, rollicking, riproaring streams of the White Mountains for several weeks past, and is feeling like a high-flyer on the top limb.

It is reported the Capitan News will peregrinate to Carrizozo.

CARRIZOZO CULLINGS.

The family of A. L. Olson Road master for eastern division of the E. P. & S. W. returned the latter part of last week from a summer's outing at Los Angeles, Cal. and report an enjoyable time.

Capt. Lee, of White Oaks, was in town the latter part of last week on business.

The Roslington family celebrated a birthday dinner in honor of W. C. Mc Donald at Carrizozo ranch two weeks ago.

Anton De Vega left for Alamogordo last Wednesday on a visit.

M. L. Goodin has been surveying homesteads around Carrizozo for a week past.

P. E. Lacey spent Sunday in White Oaks with the family.

George Killon, an old timer in this county came over from Bonito Wednesday.

Al Roberts has sold his interest in the Carrizozo livery stable to Geo. Roslington.

Lum Byfield and Link, Sheely have moved their butcher shop from Nogal to this place.

John A. Haley was over from Capitan Sunday and Monday looking up a new location.

Clement Hightower spent Sunday and Monday in the city.

B. F. Goff and Guss Wingfield, James Lee and Doc Lacy, went to White Oaks Saturday night and spent Sunday getting acquainted with their families. Ask Gus if he can tell a soap weed from a jack rabbit. Frank is a crack shot at sign boards.

The heaviest rain of the season fell Sunday evening.

J. H. Canning returned Monday from a trip to White Oaks.

Geo. Roslington and wife went to Capitan Monday to meet the J. J. Mc Court family who are coming to this place to stay a few days before returning to El Paso.

The new round house is under construction. Henry Brown is in charge of the force.

The grading outfit of Coples Powers and Oleson has finished the work at Carrizozo and gone to Pintado to finish widening the track on the railroad.

W. A. Mc Ivers came in Monday from his White mountain mines.

H. W. Mc Millan, who runs the pump for the railroad company, with his family, has gone to Abeline, Tex. for a month's visit.

The rain was so heavy Sunday night that it washed all of Al Roberts' fine wood away. His woodpile consisted of two pine boards and an axe.

The railroad company is having considerable trouble with washouts and wrecks. Two bridges are gone on Capitan branch, one near Walnut and one at No. 11 milepost. Trains 44 and 30 were late Sunday night on account of a wreck near El Paso and a washout at Newman N. M. no one was injured in the wreck.

Chas. Mayer was here Monday putting in a new telephone. The old one was burnt out by lightning Sunday evening.

O. Sea.

Charles Spence returned the first of the week from his sheep ranch where he acted as presiding elder at a protracted sheep dippping camp meeting.

If the boomers of the new boom town of Carrizozo keep on booming at the present rate they will soon have the lines of the corporation crowding this place clean off the map. When this is about to come to pass there seems no valid reason why we should not then reach out and gobble it in as a part of the greater White Oaks. It would beat moving to the new metropolis.

It was the intention of this paper to say some very nice things about our neighboring town of Carrizozo in this week's issue, but our correspondent from that thriving place has forestalled this and there really doesn't seem to be room for any thing more, and we can only express heartiest good wishes for its unbounded success and prosperity.

WEATHER ITEM.

The late rains have put this section of the country well up with the most favored localities of the territory. Everything growable appears to be springing into life with wonderful rapidity, whether it be weeds or the late hatch of ducks. From present indications the only shortage this season will be in the biennial crop of candidates. Only one or two green sprouts have yet appeared above the surface of this political half acre, and even they seem to be timidly looking forward to a November frost.

GIVE HER ANOTHER YANK.

It is rumored that the Forest Reserve blanket is to be stretched some more so that it will cover the Jicarillas and the region north of White Oaks, including the fine grazing lands between here and the Gallinas mountains.

There are some fine ranches in the region to be covered on which Mr. Pinchot wishes to lay a prohibitive embargo in order to obtain a larger income for the purpose of propagating his kind of missionary work.

Some of the territorial papers in the counties which thus far have been deprived of these Kindergarten industries, seem to think them a good thing, and tell us of the immense advantages that ten per cent of the money collected will be to the school fund of the territory. Perhaps the five or ten cents going annually to each child of school age will be a rich bonus to the youthful seekers after knowledge, for it will fall equally on the just and the unjust—the people outside as well as inside of the Reserves. But woe unto the localities where the blight and the shadow rests! Already in Lincoln county one school district has been depopulated and the abandonment of another is being seriously considered. And there may be others. This paper is reliably informed that the stock men living along the Bonito, the Ruidoso and the Hondo, are driving their stock over into Chaves county, which is outside of the reservation lines, rather than pay the price of a "permit" and then be forever under the suspicion and espionage of a man on horseback.

In the meantime the large owners who have ranches inside or near the Reserve get a permit to graze a certain amount of stock and then turn everything loose to range at will, without question or count.

S. C. Wiener has gone to Chicago to lay in his fall stock of goods. See his ad. this week.

The Fight Against Consumption.

Great comfort is to be derived from the census figures relative to the mortality rates for the last five years. It appears from these statistics that the ravages of tuberculosis is causing a gradually smaller percentage of deaths in proportion than formerly, indicating a certain degree of success in the fight against the "great white plague," which is now waged in a great many cities. The particular cause [illegible] one of the leaders and [illegible] to the lack of compulsory systems of reporting all cases in some parts of the United States. These states are Connecticut, Indiana, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, Rhode Island and Vermont, and these together with a few others which have a compulsory system, contain a population of 20,000,000 out of a total of 76,000,000 in the United States. [illegible] from these states the annual death rate of more than [illegible] was [illegible] the rate was [illegible] Where [illegible] progress [illegible] the future for most of the [illegible] education [illegible] has been [illegible] and in [illegible] The good results of a law [illegible] that [illegible] through [illegible] certain extent [illegible] The warfare against [illegible] a proceeding along two lines, [illegible] and cure. The former is waged by both private [illegible] and in an educational way. The latter is strictly [illegible] are less [illegible] because they are observable [illegible] the centers of the medical profession. The real problem of to-day [illegible] the people who [illegible] consumption is coming [illegible] at the communication [illegible] by the observance of certain simple rules of hygiene and clean living.

Dyed Wool and Clothing

While [illegible] one of coal tar chemicals in our food is being gradually supplanted, they are paying a more considerable [illegible] to the manufacture of our clothing. It was toward the end of the last decade that the Germans began to make the artificial indigo which has almost driven the natural product from the market. A more recent discovery is that of red indigo, made by Prof. Friedlander in Vienna. Chemically this new substance is almost identical with blue indigo, the firm that manufactures it has given it the name of thioindigoscarlet (thejon being the Greek name for sulphur, one of the ingredients). The most interesting fact relating to it is that it has been found to be identical with the Tyrian purple of the ancients, which, according to Pliny, the Phoenicians made out of a sea shell. This was so expensive that it cost $200 in modern money to color one kilogram of wool. To-day, the garments once monopolized by Roman emperors are worn by Austrian cavalrymen, and the German army is preparing to make use of thelondigoret in order to deepen the color of certain uniforms. Women, also, are already benefiting by the rediscovery of "Tyrian purple." The red indigo is made in various shades, from deep pomegranate to the most delicate colors to garments of diverse material, including even calico.

Proof Against Burglars.

Ninety three million years is the time given to unlock a safe which is fastened with the wonderful new lock invented in Jamaica. The combination consists of four sets of 24 letters of the alphabet which can be set to a sentence in most modern languages. When one letter is used in one alphabet and another in a second set and so on, it becomes a most complicated matter. Then there is the initial problem of which language it has been keyed in, to be solved by the man that attempts to open the safe. Furthermore, instead of letters the inventor, one Neuman Tobias, has employed four sets of numerals. Assuming that the lock has been set to a figure in the number of 3,030,303,030,303,030, it would take anyone who undertook to unlock the safe 96,000,278 years, 269 days, 30 minutes and 10 seconds working at the rate of 60 numbers a minute to arrive at the proper combination. During this time he would have no time for food or sleep.

Some people are making a great to-do over the vandalism of a Pennsylvania farmer who blew up with dynamite an ancient stone altar erected by the Indians before the white man came to this section of the country. But, exclaims the New York Observer, these same people view with comparative equanimity the vandalism at Niagara falls and along the palisades of the Hudson.

The "limitation of fortunes" would not trouble most of us.

NEWS OF THE WEEK

Most Important Happenings of the Past Seven Days.

Interesting Items Gathered from All Parts of the World Condensed Into Small Space for the Benefit of Our Readers.

Personal.

H. H. Weakley, publisher of the Evening Herald and one of the well known newspaper men of Ohio, died at his home in Dayton, aged 69 years.

Gen. Oku has been appointed chief of the general staff of the Japanese army in succession to Gen. Baron Kodama, who died July 22.

John D. Rockefeller has returned from his European trip.

Capt. J. Wesley Conner, who for nearly 60 years was a steamboat captain on the Mississippi and other rivers, died at his home in New Albany, Ind.

Bernard L. Levinthal, who for 15 years has been chief rabbi of the orthodox Jews of Philadelphia, has been elected chief rabbi of the entire body of orthodox Jews in the United States.

Hill P. Wilson, for eight years assistant secretary of state for Kansas, has resigned to devote his attention to his mining interests.

Congressman De Armond has been renominated by the democrats of the Sixth congressional district of Missouri making the ninth consecutive time he has received the nomination without opposition.

The body of Russell Sage, the New York financier, was laid to rest at Troy, N. Y., with simple ceremonies.

Don Pedro Montt has been elected president of Chile for a term of five years.

H. C. Brockmeyer, former lieutenant governor of Missouri and acting governor in 1896-97, is dead in a St. Louis hospital after a lingering illness. He was a cousin of Prince Bismarck and a native of Minden, Prussia.

Charles H. Whitaker, Sr., editor of the Clinton, Mo., Democrat, died recently at his home in Clinton aged 70 years. He had been in the newspaper business in Illinois and Missouri 51 years.

President Palma, of Cuba, has pardoned Millie Brown and other Americans arrested on the Isle of Pines for maintaining a private telegraph line.

Miscellaneous.

The mayor of Havana, Cuba, and all the aldermen have resigned in anticipation of a request for their resignations by President Palma.

The month of July witnessed a series of heavy rains on the isthmus of Panama and the conditions at Colon are worse than ever before.

The encampment of regulars and national guard at Chickamauga National park has been formally opened.

The Pacific express on the New York Central railroad was wrecked at Chelsea, N. Y., the engine and express car going into the river and the balance of the train was piled up in a bad wreck, several persons being killed and a large number injured.

The bank of Rush Springs, I. T., has closed its doors and a receiver has been appointed. The liabilities are supposed to be about $15,000 more than the assets.

Two bombs were dropped from an elevated train in New York recently into a crowd of 200 members of the plumbers' union, who were standing in the street below. Eight men were painfully injured.

Twenty-five passengers were injured two probably fatally, by the derailment recently at Springfield, Mo., of a St. Louis & San Francisco passenger train.

At a conference in Chicago in which every road interested was represented, it was decided to end the grain rate war from Missouri river points to Chicago on August 10.

The will of the late Russell Sage has been filed for probate. After bequeathing $650,000 to blood relations, the document gives the residue of the estate, about $70,000,000, to the widow, who will distribute it in charity.

Judge Landis, of the United States district court at Chicago, has handed down a decision declaring that John Alexander Dowie is not the owner of Zion City and its industries, the court deciding that the money given to Dowie was a trust. A receiver was appointed and an election for a general overseer ordered to be held on the third Tuesday of September.

Secretary of Agriculture Wilson has made public the regulations governing the inspection of meat products for interstate and foreign trade under the new law. They are very stringent throughout and are in line with the best authorities on the subject.

The Standard Oil company has reduced the price of the higher grades of crude petroleum three cents and other grades two cents.

The threatened strike of the United Brotherhood of Paper Makers has been averted by the employers granting their demands.

A special federal grand jury has been called to meet in Chicago to investigate the Standard Oil company's methods of transporting its products. It is said by officials that new and important evidence has recently been discovered against the company.

The federal grand jury at New York has returned three indictments against the American Sugar Refining company charging rebating.

A large band of Pulajanes in the island of Leyte, P. I., recently attacked a column of troops and constabulary and were badly defeated.

Joseph McGinn, the servant who fell at the Salt Lake Palace owing to the failure of a parachute to work, has since died. His home was near Des Moines, Ia.

Two new four mills have just been completed at Kansas City with a capacity of 4,500 barrels per day which gives the mills of that city a total capacity of 14,000 barrels of flour per day.

The French embassy at Washington has been instructed to express the deep regrets of the French government at the killing of Lieut. Clarence England, on board the cruiser Chattanooga, by the crew of a French cruiser while at target practice.

John C. Handy, receiver for the Zion City industries has issued an appeal to the moneyed believers in the Dowie doctrines to contribute for the relief of the destitute of the community, stating that many are undefed and insufficiently clothed.

The cruiser Washington, built at the yards of the New York Shipbuilding company in Camden, N. J., has been formally turned over to the government.

A fire at Pittsburg, Mo., completely destroyed four brick buildings and four stocks of merchandise. The loss aggregates $40,000, covered by insurance.

Traffic over the Mount Cenis railroad, interrupted by the recent cloudburst, has been entirely reestablished.

The Hill trunk company's plant at Nashville, Tenn., has been gutted by fire.

Mrs. Corey has been granted a divorce from her husband, the president of the United States Steel company, in the courts at Reno, Nev., on the grounds of desertion. The question of alimony was not brought up, as it was stated at the trial that a satisfactory financial settlement had been arrived at between the parties.

Lieut. Clarence England, navigating officer of the United States cruiser Chattanooga, was killed on the bridge of his vessel while just outside the harbor at Chefoo, China, by a bullet fired from a French cruiser engaged in target practice.

Suits have been filed by the government in the federal court at Salt Lake City, Utah, to recover 20,000 acres of valuable coal land alleged to have been acquired from the United States by gross frauds.

Insurance Commissioner Wolf, of San Francisco, is preparing a report showing in detail the losses of each insurance company and the report is expected to show an aggregate insurance loss of more than $250,000,000.

The Kansas state board of health has issued an order to the county health officers to see that every school house in their jurisdictions is properly fumigated before the school term begins.

While a party of young ministers attending the State Baptist association at Pertle Springs, Mo., were bathing in the lake, Rev. S. E. Rozers, pastor of the De Kalb and Nelson, Mo., churches, attempted to swim across the lake and was drowned.

Suit has been filed in the federal court at Muskogee, I. T., to restrain Tams Bixby, commissioner of the five civilized tribes, from re-opening the roll for the addition of the names of infants born since the regular enrollment.

A warrant has been issued for Charles H. Everly, formerly teller of the St. Louis Union Trust company, who disappeared recently leaving a shortage in his accounts of $5,000. He had been considered an exemplary citizen and was prominent in church circles.

Mayor Tom L. Johnson, of Cleveland, O., recently took drastic action against the Cleveland Electric Railway company. While tearing up the company's tracks he was served with an injunction by the court which he ignored until the work was finished. He was cited for contempt.

Political discontent in Persia is again assuming an acute phase.

Dr. Mary Michael Flack, a Kansas physician, has sued the Wells-Fargo Express company for $25,000 for the loss of 1,000 pages of manuscript said to contain the story of her life.

A severe wind and electric storm recently swept over St. Louis destroying several frame houses. One man, a negro, was killed. A loaded excursion steamer was blown across the river at Alton, Ill., but the passengers were rescued.

Plans are under way for merging the brick plants in Findlay, O., Kansas City, Kan., Chanute, Kan., West Superior, Wis., Zanesville, O., Rochester, N. Y., Kansas City, Mo., Philadelphia, Washington, Cleveland, Minneapolis and Omaha, into one company to be known as the Hydraulic Pressed Brick company of St. Louis. The new organization will have a capital of $10,000,000 and a capacity of 500,000,000 bricks a year.

The Missouri republican state judicial convention at Jefferson City nominated Assistant Attorney General John Kennish and Judge James T. Neville, of Springfield, as justices of the supreme court for the long and short terms respectively.

The biennial conclave of the Kappa Sigma fraternity was recently held on Lookout Mountain, Tenn. Several hundred delegates were in attendance from all sections of the United States.

At the request of King Edward, William J. Bryan was received recently at Buckingham Palace in private audience.

The arrival of Secretary Root at Rio de Janeiro was made the occasion for an enthusiastic reception by the assembled delegates to the Pan American congress and the Brazilian officials.

NEW MEXICO NEWS SUMMARY

New Plants for New Mexico.

Through the agents of the Department of Agriculture numerous cereals, forage plants, shrubs, vines, fruit and forest trees are being imported from foreign countries from time to time. Many of these importations are for the special benefit of the semi-arid West and hence of more than usual interest to New Mexico. Among the many cereals and forage plants that have come to us from abroad, from countries where the climatic conditions are somewhat similar to those of New Mexico, may be mentioned the following: Spelt, emmer, club or square head wheat, poulard and durum wheat; the Siberian and Tartar oats; several varieties of rye and the following varieties or variations of sorghum: Kafir corn, African millet, Indian millet, durra, milo maize, Jerusalem corn, Oaxaca corn and Egyptian rice corn; also several varieties of pure sorghum (that used in syrup making); Turkestan alfalfa, and two or possibly more varieties of barley that might be mentioned.

A comparison of the greater portion of European Russia, and of central and western Asia will disclose that those regions are far lower in monthly seasonal and annual precipitation than our territory. This is especially true of those parts of our territory that are coming before the people as dry farming regions, namely the Estancia valley, the Sacramento valley, the eastern plains and the foothill regions. Much of the country indicated abroad has been successfully farmed for ages and it would therefore seem that success should crown the efforts of our farmers if the proper cultural methods and the proper cereals and forage plants are selected to meet the existing climatic conditions. One thing that especially favors our territory is the excellent distribution of rainfall, for it is well known that next in importance to the amount received is its proper distribution. In this regard it will be found that from seventy to ninety per cent of the annual rainfall comes in the months from March to September, inclusive, with July, August, June and September averaging the largest amounts in the order named.

Santa Fe Land Office Work.

At the land office in Santa Fe 125 entries were made during the first twenty-one days of July, over twice as many as during the month of June. Homeseekers are selecting tracts in all parts of the district. Entries have been made in every county. Owing to the large number of homeseekers now pouring into the Estancia valley, Torrance county is still at the head of the list. Forty-nine claims have been filed there up to July 21st. In detail:

Homestead entries, 125; acres, 19,832; final homestead entries, 8; acres, 962; desert land entries, 5; acres, 850.

The homestead entries were divided among the counties of the district as follows: Bernalillo, 4; Colfax, 2; Guadalupe, 9; McKinley, 11; Mora, 16; Rio Arriba, 2; Sandoval, 3; San Miguel, 11; San Juan, 10; Santa Fe, 2; Socorro, 2; Taos, 2; Torrance, 49; Valencia, 2.

The final homestead entries were: Bernalillo, 2; Colfax, 1; Mora, 2; Rio Arriba, 1; San Miguel, 1; San Juan, 1.

The desert land entries were: San Juan, 4; Torrance, 1.

The total number of homestead entries made since January 1st, is 1,030; acres entered, 145,706. Total number of final homestead entries, 109; acres entered, 16,545. Total number of desert land entries, 131; acres entered, 16,704. The total number of entries of all kinds since the first of January, 1906, is 1,217; acres entered, 176,981.

French Priests at Santa Fe.

Three French priests who have been assigned to the archdiocese of Santa Fe arrived in that city Saturday evening direct from France, says the New Mexican, and until they are given charges as assistant pastors, will assist in the services at the cathedral. They are Rev. Father Eugene Bertrom, Rev. Father Joseph Pugens and Rev. Father Joseph Pajot. Not one of the three priests can speak Spanish and they are able to speak English only brokenly. They do not anticipate having much trouble in mastering the two languages, however, as they are all young, "well educated" and anxious to learn.

Very Rev. Father Antonio Fourchegu, the venerable vicar-general, was in a similar plight himself when he came to Santa Fe in 1867. At that time there were, comparatively speaking, few English speaking people in this part of the country and he naturally learned to talk Spanish first. He did not have any difficulty in learning to speak the Castilian fluently, but it was some time before he mastered the English sufficiently to carry on an ordinary conversation. The young priests just arrived will probably not be assigned to duties until some time next month, or until after the annual ecclesiastical retreat. They landed in New York a week ago yesterday and were met there by Archbishop Peter Bourgade.

Joseph Dewitt Warner of the forestry service has completed a survey of the burnt merchantable timber on the Pecos forest reserve and found that 40,000 acres have been burned over and that the partly charred timber can be converted into 304,000 cords of firewood, 1,000,000 railroad ties, for which it is especially adapted, and 200,000 telegraph poles.

A Trinidad, Colorado, dispatch says: The Colorado & Southern railroad is preparing to rebuild part of the Catskill branch, which was torn up a few years ago when the timber in that district was exhausted. It will also extend the line fifty miles further west into Ponil valley and Vermejo park, where there are probably the most extensive pine forests in New Mexico. At first the road will be used only for hauling lumber. Several sawmills have been started in that region recently. A daily passenger train will probably be put on later. Twelve surveyors left this morning for Martinsen, the present terminal of the branch, to start surveying for the new extension.

The Citizens' National Bank of Alamogordo, New Mexico, has been authorized to begin business with $50,000 capital. Alfred Hunter is president; Jacob Snorer and Charles E. Mitchell, vice presidents, and H. P. Seamans, cashier.

Judge John R. McFie has granted the owners of the Conilla Land grant, bordering on Colorado, an injunction against the squatters on the grant, restraining all persons from trespassing on the property. The owners at Santa Fe brought suit for damages against thirty alleged trespassers for $10,000.

I. A. Dye of Albuquerque has been awarded the 40,000,000 feet of matured timber in the Jemez forest reserve at $2.50 per 1,000 feet by the Department of Agriculture and will at once build a wagon road into the timber and erect a sawmill. One-tenth of the proceeds $10,000, will go to the public school fund of Sandoval county in which the timber to be cut is located.

Postoffices have been established as follows: At Carter, Roosevelt county, to be served from Portales, sixteen miles to the northwest. Samuel F. Anderson has been appointed postmaster. At Elmendorf, Socorro county, to be served from San Antonio, seven miles to the north, and San Marcial, ten miles to the south. C. H. Elmendorf has been appointed postmaster.

Lewis Meyers, a striking engineer on the Santa Fe system, arrested at Las Vegas by Captain Fred Fornoff of the mounted territorial police on the charge of placing steel filings and emery in the oil cups of Santa Fe engines, pleaded not guilty before Judge McFie and was held in $3,000 for trial August 4th. Meyers is said to be a companion of another engineer now serving three years in the penitentiary for a similar offense.

A Roswell dispatch of July 31st says: The wool market has been very active here for the past two days and many small growers have disposed of their clip at good prices. To-day Eliz White sold his clip of 160,000 pounds to A. J. Hill for $20,000. Frank Garcia sold his clip of 50,000 pounds for $11,200. R. Degraftenreid is in from the Yeso and has 76,000 pounds on the market. The White clip is the third largest in this section of New Mexico.

A Santa Fe dispatch of July 31st says: Territorial Mounted Policeman Richard C. Huber to-day lodged in the pen Felipo Perea, who escaped a year ago. Huber tracked Perea to his home in San Miguel county and after lying in wait for three days walked in upon Perea while the latter was asleep. Word was also received that Lieutenant Baca and privates B. G. Putnam and Robert Burch have captured a gang of horse thieves with their horses in the Sacramento mountains, Otero county, and are now on the way to Santa Fe with their captives.

G. W. Mosher, extradited from Colorado City on the charge of fleecing Albuquerque business men on worthless checks, was placed on trial July 30th. He acted as his own lawyer and surprised the court attaches with the smoothness of his defense and knowledge of the law covering his particular case. He maintained the case was a misdemeanor instead of a felony and the justice, swayed by the plea of the defendant, refused to take jurisdiction, referring the case to the District Court. Mosher was placed under $500 bond, which has not yet been given.

Secretary R. H. Hanna, of the New Mexico Bar Association, has issued a circular of the annual meeting of that body, to be held at Cloudcroft, Otero county, on August 15th. Free transportation for all members of the association and their families from and to Cloudcroft, from points on the Santa Fe Central railway and the El Paso & Southwestern railroad, has been secured and low rates will be made by the Santa Fe. Cloudcroft is a beautiful summer resort in the Sacramento mountains, about twenty-five miles east of Alamogordo, the county seat of Otero county, and the railroad connecting the two points goes through a most picturesque country, presenting much magnificent scenery. The association consists of about eighty members in good standing and President Hawkins and Secretary Hanna hope that every member will find it convenient to attend.

The following named companies have filed incorporation papers with the territorial secretary at Santa Fe, July 31st: Oro Grande Water Company, Capital $50,000; incorporators and directors, Perry Hutchinson, A. H. Brubaker of Marysville, Kansas; G. D. White, E. H. Moore, P. J. Eychaner of Oketo, Kansas; J. E. Andrews of Harden, Kansas, and F. W. Beach of Oro Grande, Otero county. The Roswell Drug and Jewelry Company, capital, $50,000; incorporators and directors, R. E. Baughman, E. D. Kinsinger and G. D. Briegor of Roswell. The Artesia College, capital, $25,000; incorporators and directors, J. K. Walling and R. W. Yeargin of Dayton, and J. C. Gage, E. B. Kemp, R. M. Love, E. A. Norfleet, W. E. Baskin, J. Shrook, S. P. Henry, G. Talbot and M. Mellhaney. The Cohn Bros.' Mercantile Company of Raton; capital, $50,000; incorporators and directors, Simon Cohn, Solomon Cohn and David Cohn.

The scenic highway east of Santa Fe is to be pushed as rapidly as possible to completion, and an extra squad of convicts is to be put to work at once. This was announced by Governor Hagerman, says the New Mexican, following a conference with Superintendent Arthur Trelford of the territorial prison and Captain Fred Fornoff of the mounted police. About thirty-five men are at work in the canon at present and fifteen or twenty more will be added to the present force at once. There remains about five miles of the road to be built to the western line of the Pecos forest reserve. As soon as this road is finished, the convicts will be sent at once to Las Vegas to complete the highway there. Owing to the condition of affairs at present and also to the law upon the question, no work can be done at Raton on the highway which is to lead to the Colorado line, until after the completion of the two roads mentioned.

HIS ONE WEAK SPOT.

Prominent Minnesota Merchant Could Stay Cured by Doan's Kidney Pills.

O. C. Hayden, of O. C. Hayden & Co., dry goods merchants, of Albert Lea, Minn., says: "I was so lame that I could hardly walk. There was an unaccountable weakness of the back, and constant pain and aching. I could find no rest and was very uncomfortable at night. As my health was good in every other way, I could not understand this trouble. It was just as if all the strength had gone from my back. After suffering for some time I began using Doan's Kidney Pills. The remedy acted at once upon the kidneys, and when normal action was restored, the trouble with my back disappeared. I have not had any return of it."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

THE CAMERA FIEND.

Man Was Not Satisfied with Ordinary Amusement Like Taking Pictures.

A well-known criminal lawyer one day sauntered into a police court just as a case was called. It appeared that the defendant had no attorney, and the judge glanced about the room to see whom he might assign to the case.

"I'll take it, judge," the late comer said, wishing to pass away the time.

"By the way, what is the man charged with?" the attorney presently asked.

"He's a camera fiend of the worst sort, Mr. Brown," the judge said with a slight smile. "I expect to send him to the workhouse for about three months."

"What!" the lawyer shouted, indignantly. "Your honor must be joking. Send a man to the rock pile for three months for a little harmless amusement like taking pictures?"

"Well," the judge said, mildly, "he don't take pictures much—it's the cameras he takes."

FOUR YEARS OF AGONY.

Whole Foot Nothing But Proud Flesh —Had to Use Crutches—"Cuticura Remedies the Best on Earth."

"In the year 1899 the side of my right foot was cut off from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. At last my whole foot and way up above my calf was nothing but proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day, and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present day after five years of suffering. The cost of Cuticura Ointment and Soap was only $6, but the doctors' bills were more like $600. John M. Lloyd, 718 S. Arch Ave., Alliance, Ohio, June 27, 1905."

Sunday Rest in Italy.

The question of Sunday rest is being agitated to a large extent in Italy, and a commission was named some time ago which recommended that as far as possible an uninterrupted rest of from 32 to 36 hours should be insured to all the working classes, and that in case of public services, the men who worked on Sundays should have one day off in the week by turns, domestic servants being entitled to a half holiday a week. The law does not apply to fishermen.

Avoid Government Service.

The students from the Italian universities and government school are no longer content to seek poorly paid government employment or to enter into the ranks of the overcrowded professions, but are seeking technical instruction so that they may join in the new movement and make an adequate future for themselves.

By following the directions, which are plainly printed on each package of Defiance Starch, Men's Collars and Cuffs can be made just as stiff as desired, with either gloss or domestic finish. Try it, 16 oz. for 10c, sold by all good grocers.

Judge Lebbeus R. Wilfley, attorney general of the Philippine islands, has been appointed to the judgeship of the United States court in China, which is to replace in a large measure the present consular court. Judge Wilfley is from St. Louis.

The greatest cause of worry on ironing day can be removed by using Defiance Starch, which will not stick to the iron. Sold everywhere, 16 oz for 10c.

Two Profitable Postal Systems.

Next to Great Britain, Russia has the most profitable postal system, which nets over $20,000,000 a year.

Rich Oil Fields of Africa.

The oil fields near Delagoa bay, in Africa, are expected to prove among the most productive in the world.

Only the illiterate and the social elect can afford to treat the language recklessly. — Eleanor Hoyt Brainerd.

Nothing Succeeds Like "EGG-O-SEE."

The man who preaches the best sermon; the man who tells the funniest stories; the man who keeps the best store; or the man who makes the best goods soon finds that people come to him. Merit is the best advertisement in the world. People speak well of things they know are good. They pass the good word along.

The best breakfast food is EGG-O-SEE, for it contains all the life-giving properties of nature's best food, which is wheat.

EGG-O-SEE is deeply in debt to the thousands of wives and mothers who use it in their homes, for these good women tell their neighbors about this great food.

Children and aged persons alike are friends of EGG-O-SEE.

Merit and common sense are the things that advertise EGG-O-SEE most. EGG-O-SEE is cheap. A 10-cent package contains ten liberal breakfasts. EGG-O-SEE is sold everywhere. Grocers must keep it if they want to keep their good customers, for good customers insist on buying EGG-O-SEE.

The fact that no preparation, no cooking is required, makes EGG-O-SEE very popular. Open the package; put as much as you like in a dish; pour on milk or cream and eat. It is delicious. It is wholesome. It makes you strong.

A lot of interesting facts about EGG-O-SEE have been published in book form entitled, "Back to Nature." This book also has a course of physical culture—fully illustrated. Anyone wishing this book will receive it free by addressing EGG-O-SEE Company, 10 First St., Quincy, Ill.

No One Wanted Box 13.

In no other western European country is superstition so prevalent as in Austria-Hungary. Quite recently the chamberlain's office changed the number of box 13 in the Imperial opera house and the Imperial Court theater to 12a, because the public objected to sitting in a box bearing this unlucky number. None of the rich subscribers who takes a box for the year wanted No. 13, and for single performances it was just as hard to dispose of.

This superstition reaches its height in medicine. Speaking at the health exhibition, Dr. Heinrich Grun declared that in many instances superstition, and especially local superstition, was an absolute menace to public health.

In the Austrian hospitals one finds no block or pavilion 13, no ward 13, no staircase 13. Very few patients will consent to be operated upon on the thirteenth day of the month, and in this respect Friday, too, is considered just as unlucky. At Carlsbad, Marienbad, Gastein and other famous Austrian cure resorts nobody wants to begin his cure on a Friday.

DO YOU REMEMBER—

An anticipated calamity that actually came?

A sycophant who turned out to be a real friend?

A bad man who was really as bad as he was reputed?

An actor that wasn't thoroughly delighted with himself

An absconding cashier who wasn't "a trusted employe?"

A man who went wrong who wasn't "a highly-respected citizen?"

A woman criminal who was not "beautiful and apparently refined?"

A horse that could trot as fast as the man who sold him to you said he could?

Anybody who achieved sinlessness before starting a fusillade of stones at others?

A successful man who used up nine-tenths of his time telling what he was going to do next

A prize fighter that went through the throes of the championship without becoming demoralized?

DIDN'T BELIEVE

That Coffee Was the Real Trouble.

Some people flounder around and take everything that's recommended but finally find that coffee is the real cause of their troubles. An Oregon man says:

"For 25 years I was troubled with my stomach. I was a steady coffee drinker, but didn't suspect that as the cause. I took almost anything which someone else had been cured with but to no good. I was very bad last summer and could not work at times.

"On Dec. 2, 1902, I was taken so bad the doctor said I could not live over 24 hours at the most, and I made all preparations to die. I could hardly eat anything, everything distressed me, and I was weak and sick all over. When in that condition coffee was abandoned and I was put on Postum, the change in my feelings came quickly after the drink that was poisoning me was removed.

"The pain and sickness fell away from me and I began to get well day by day, so I stuck to it until now I am well and strong again, can eat heartily, with no headache, heart trouble or the awful sickness of the old coffee days. I drink all I wish of Postum without any harm and enjoy it immensely.

"This seems like a strong story, but I would refer you to the First Nat'l Bank, the Trust Banking Company, or any merchant of Grant's Pass, Ore., in regard to my standing, and I will send a sworn statement of this if you wish. You can also use my name." Name given by Postum Co., Battle Creek, Mich.

Still there are many who persistently fool themselves by saying "Coffee don't hurt me." A ten days' trial of Postum in its place will tell the truth and many times save life. "There's a reason."

Look for the little book, "The Road to Wellville," in pkgs.

JURY FREES HER

MRS. HUTCHINSON ACQUITTED O.. INSANITY PLEA.

RETURNS TO HER HUSBAND

Dramatic Ending of Famous Buena Vista Murder Trial.—Jury Finds That Defendant Was Temporarily Insane When She Shot the Woman Whom She Believed to Be Her Husband's Paramour.

Buena Vista.—The jury in the now famous Hutchinson murder case returned a verdict of not guilty at 7:25 o'clock Thursday evening, and Mrs. Grace Hutchinson, who shot and killed Mrs. Mary Bode in Salida on the morning of June 18th last, is now a free woman.

Never in the history of this city has there been so much pent-up excitement as was exhibited when the verdict was made public.

When it was announced in court Mrs. Hutchinson fell forward without a word and was supported by the sheriff and her attorney down the stairs to the residence of the sheriff, where she was met by her mother, sister, her husband's mother and other relatives of herself and husband. Her condition amounts almost to collapse but it is thought she will recover.

She has forgiven her husband and they will resume marital relations.

When the verdict of the twelve men was read by the clerk of the court, Harold Hutchinson, her husband, occupied a chair in the back of the court room. He cowered down as if expecting a blow as the documents were handed by the foreman of the jury to the clerk.

When the reading was ended he sprang to his feet and cried "acquitted!" He did not meet his wife, however, until later in the parlor of the sheriff's house, and the meeting was pathetic.

What passed between them is not known, but he took the frail creature in his arms and both wept. He soon left her with her relatives and in company with an older brother returned to their hotel. He stated a few minutes later that a full reconciliation had been effected between himself and his wife, and that they would immediately return to the ranch home of his mother near Salida until they could decide what to do and where to go in the future.

Everywhere the streets are thronged with people who talk of nothing but the trial. The majority approve the verdict of the jury. Those who oppose it are few but are bitter in their denunciation of the jury and say a license or premium has been placed on murder, citing the Schmidlap case in Denver as a parallel.

The morning session of the court lasted but one hour and fifteen minute. Hutchinson resumed his testimony, and the cross-examination by the prosecution failed to shake the story of yesterday.

Two mental specialists, Dr. J. H. Turner of Salida and Dr. S. D. Hopkins of Denver, gave it as their opinion that Mrs. Hutchinson was perfectly sane at the time the shot was fired. Dr. Turner happened to be in the law office of Somerville & Williams at Salida when she was brought in immediately following the shooting and had an opportunity to observe her closely under stress of excitement.

Other unimportant witnesses were examined, while some of the evidence the defense intended using was ruled out. Following the convening of court after the noon recess, at 2 o'clock, the court's instructions were read to the jury by Judge Bailey. They were quite voluminous, requiring thirty minutes in the reading, and briefly, after describing the different degrees of murder and divesting the instructions of all legal terms, summed up the case as hinging entirely upon the one question as to whether the defendant was sane or insane at the time the shot was fired.

The argument of Attorney George D. Williams in answer to the opening argument by James Locke, prosecuting attorney, as well as the closing argument by George K. Hartenstein of this city, who was retained by the prosecution, were masterful gems of oratory.

IRRIGATION CONGRESS.

Reclamation Engineers Will Report Progress at Boise.

Boise, Idaho.—At the fourteenth National Irrigation Congress, which meets here September 3d to 8th, the district engineers in charge of the various projects being carried on by the reclamation service of the government, will report progress on the work under their direction. The combined statistics will prove interesting and instructive to the delegates.

Senators LaFollette of Wisconsin and Bailey of Texas have notified the executive committee of the congress that they expect to be present, accompanying the delegations from Wisconsin and Texas.

Dr. W. M. Hays, assistant secretary of agriculture, will be one of the prominent public men taking part in the proceedings.

Farmers and orchardists throughout the sixteen states comprising the irrigated area are making great preparations for the exposition of irrigated products, to be held here during the session. Exhibitors to the number of 200 have engaged space for their exhibits, and a spirited contest will be engaged in for the valuable prizes to be awarded.

Can Protect His Fruit.

Greeley.—The case against J. W. Dillon, a fruit grower, for alleged killing of song birds that were eating his berries, was dismissed Thursday, the court holding that the defendant had a right to protect his property. This was a test case to determine the validity of the present state law, which provides a fine and imprisonment for the killing of song birds. It was bitterly contested on both sides.

Harriman Resents Overcharge.

E. H. Harriman sent his $10,000 automobile to a repair shop in New York city in January, and when he got a bill for $1,797, refused to pay it. The owner of the repair shop refused to surrender the vehicle and Mr. Harriman proceeded to recover it by a writ of replevin. The men who are trying to collect this large sum will now have to sue for their money. Mr. Harriman evidently believes that the charge was made in accordance with his supposed ability to pay.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

Scotch Welcome Automobilists.

Motor car reliability trials were held in Scotland recently, and the drivers were astounded at their reception along the route. In every town and village the women and children lined the roadside and shouted enthusiastic welcomes. Sprays of lilac and other flowers were thrown into the cars as they passed, and invitations to stop were given.

International Cyclopedia.

The medical faculty of the Paris university plans an international technological encyclopedia. It is to be issued in ten languages, including "Esperanto," the world language.

Rapid Increase in Population.

In eight years the population of Osaka, Japan, has increased from 811,800 to over 1,026,000. The number of factories has increased by 991.

A friend in need usually needs all he can squeeze out of you.

English Language in Antwerp.

Nearly one-half of the shipping traffic to and from Antwerp is carried on under the British and American flags, and this has made Antwerp almost an English-speaking port. Free night schools for exclusive classes in English, organized by the city authorities, are attended by thousands of pupils, while special attention is paid to the study of English in all the grades of the day schools, public as well as private. This desire to popularize the English language is not confined to Belgium, but has extended to Germany as well, where schools of instruction have already been established at Munich and Nuremberg by the German government.

Visits European Military Schools.

Col. Charles P. Echols, of West Point, who has been on the continent visiting military schools, is now in England on the same mission.

The people who believe most strongly in luck are those who never have any.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

Boys will be boys, especially the gay old ones who have passed 60.

If not paid within 6 months.. 1.50

TO THE VOTERS OF LINCOLN COUNTY.

The undersigned respectfully announces that he will be a candidate before the Republican County Convention, for the nomination as Sheriff of Lincoln County New Mexico.

Clement Hightower.

It is rather refreshing to hear such papers as the New Mexican, the Raton Range, the Socorro Chieftain, and others who formerly opposed conglomerhood, now using about the same arguments employed by Beveridge and his crowd in describing the seductiveness of the mix up.

The main argument of those who are trying to force New Mexico and Arizona into an unwilling alliance is, that when Arizona rejects the measure New Mexico will stand a much better show to be admitted alone. The fallacy of this can be readily seen when we consider that the world admires courage and stability of purpose. Who can doubt for a moment that Arizona will meet with much more consideration at the hands of the next congress for her firmness and consistency than New Mexico for her weakness and vascillation.

An Iowa corn expert estimates that there will be an increase of over 5,000,000 bushels in the corn crop of that state this year. Part of this large surplus will be owing to an exceptionally favorable season, part to the growing custom of wearing tight shoes, but far the larger portion can be credited to that expert's imagination. This fabrication is discounted however by the Tucumcari man who says he will this year have 800 bushels of corn off eight acres of ground but the News of that place fails to state the amount he will have on it. This is not so bad for a locality that claims the water found there is so soft they have to put salt, or some kind of dryer in to harden it before using.

The Albuquerque Citizen is publishing special dispatches purporting to come from different parts of Arizona representing that a great reaction has taken place in that territory in favor of conglomerhood. The wording of these "specials" so plainly shows the ear marks of that paper that no one but a novice can be deceived thereby. The same old song and dance business is used, about the president's threat to keep us in perpetual vassalage provided we do not accept the terms offered us by an eastern combine, while at the same time complaining that the mining operater's combine is trying to defeat the measure. But one new idea seems to have flattened itself out while trying to penetrate the fertile brain of the Citizen's special dispatch editor and that is, that the people of Arizona would all rush to the polls and take their conglomerhood dope with relish provided New Mexico would consent to give them an equal division of the offices and let them have the governorship half the time. They would even be willing to concede us the capital, provided no lean, and lank, and hungry New Mexico official, after gulping down his own forage, be allowed to slip around on the Arizona side of the public crib and pilfage off their provender. It is interesting as well as unique to have something original from that crowd on this important matter.

NOTICE of FORECLOSURE SALE.

IN THE DISTRICT COURT OF THE SIXTH JUDICIAL DISTRICT OF THE TERRITORY OF NEW MEXICO, WITHIN AND FOR THE COUNTY OF LINCOLN.

THE F. M. DAVIS IRON WORKS COMPANY, PLAINTIFF, vs. THE NEW MEXICO HOMESTAKE REDUCTION COMPANY, ET. AL. DEFENDANTS.	} 1600

WHEREAS, on the 25th day of April, 1906, in a certain cause then pending in the Sixth Judicial District Court of the Territory of New Mexico in and for the county of Lincoln, wherein the F. M. Davis Iron Works Company was plaintiff, and the New Mexico Homestake Reduction Company, Edward D. Rasmissen Guy H. Herbert and Williamson, doing business under the style and firm name of Herbert & Williamson, Henry Silva, M. Silva, Frank Purcella, Abel Pino and Demetrio Peren were the defendants, a certain judgment and decree was rendered and made against the said defendant, wherein and whereby, amongst other things, it was considered, ordered, adjudged and decreed that the said plaintiff do have and recover from the said defendant, the New Mexico Homestake Reduction Company, the sum of Twenty-three Thousand, Eight Hundred and sixteen and sixty-seven one-hundredths dollars $ (23816.67), with interest thereon at six (6) per cent. per annum from the date of said judgment and decree; that the said defendant, the New Mexico Homestake Reduction Company, within ninety (90) days from the date of said decree pay to the said plaintiff the said last mentioned sum, with interest at the rate of six[6] per cent. per anum, and costs of suit to be taxed; that in default of payment of said sum within said time, upon application of the plaintiff, all and singular, the mortgaged premises mentioned in said decree and hereafter described, be sold at public auction by J. F. Bonham, special Master in Chancery; that the said Special Master sell said premises in said decree and hereinafter described as a whole, and not in separate lots or parcels; that the said defendants and all persons claiming or to claim from or under them, or any or either of them, be forever barred and foreclosed of and from all equity of redemption and claim of in and to said mortgaged premises, and every part and parcel thereof, from and after the sale of said mortgaged premises, by virtue of said judgment and decree; that the purchaser or purchasers of said mortgaged premises at such sale, be let into possession thereof, and that the plaintiff or its assigns may become a purchaser at such sale, and that the lands and premises decreed and directed to be sold by said judgment and decree are situate, lying and being in the county of Lincoln and territory of New Mexico, and more particularly described as follows, to wit:

"The Vera Cruz mill site being Mineral Entry No. 170, and designated as Lot No. 420, the Receiver's Receipt for which was issued on May 31st, 1884, said mill site being in Township 8, South Range 18 East of New Mexico meridian: the "Golden Eagle" mill site, being Mineral Entry No. 202, and designated as Lot No. 479; the Vera Cruz, Golden Eagle, Bustamente and Washoe Lode mining claims the United States Patent to which is General Land Office No. 15,271, and mineral certificate No. 91, and designated by the Surveyor General as Lots Nos. 141, 157, 271 and 272 respectively, also the Vivian Lode claim and the Vera Cruz Placer location, all of the above lode claims and mill sites being in Nogal Mining district, in the county of Lincoln and territory of New Mexico, with all improvements; it being declared that all machinery placed on any of said properties shall be fixtures and belong to the real estate; together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any wise appertaining.

AND WHEREAS, default has been made in the payment of said sum of Twenty-three Thousand, Eight Hundred and Sixteen and sixty-seven one hundredths dollars, and the interest thereon, from the date of said decree, no part of the same having been paid; and whereas the time limited by said decree for the payment of said principal sum and cost has elapsed, and the said plaintiff has applied to said special master to make the sale of said premises as ordered and directed in said decree.

NOW, THEREFORE,

NOTICE IS HEREBY GIVEN that I, J. F. Bonham, special Master in Chancery, in pursuance of said decree on the 3nd day of September, A. D. 1906, at 2 P. M. of said last day, at the said Vera Cruz mill-site, will sell at public auction to the highest and best bidder for cash in hand, the said described premises and lands, together with all improvements thereon, as well as all machinery on said premises, or any portion or part thereof, together with all and singular, the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and that I will sell said premises above described as a whole, and not in separate lots or parcels.

J. F. Bonham.
Special Master in Chancery.
Dated August 2nd 1906.

Byron Sherry,
Attorney for Plaintiff.

MINERAL APPLICTION NO. 16.

United States Land Office.
Roswell, New Mexico, June 18 1906

Notice is hereby given that Absalom N. Price whose postoffice address is White Oaks, Lincoln County, New Mexico has this day filed, on his own behalf and on behalf of the heirs of William S. Peters, an amended application for patent for fourteen hundred and thirty five linear feet on the Zulu Lode, mine or vein, bearing gold and other metals, with surface ground five hundred and ninetynine feet in width, situated in Jicarilla Mining District, Lincoln County, Territory of New Mexico and described by the field notes and plat on file in this office as Amended Survey No. 1145 in Township 5 S. Range 12 E, unsurveyed—said Amended Survey No. 1145 being described as follows to wit:

Beginning at Corner No. 1, whence the ¼ Corner on the S. side of Section 34 Township 5 S. R 12 E bears S. 3° 34' W. 9223.8 ft. distant. Thence N. 29° 59' W.—Var. 12° 10' E.—1485 ft. to Cor. No. 2, thence N. 51° 17' E.—Var. 12° 10' E.—592.6 ft. to Cor. No. 3. Thence S. 30° 11' E.—Var. 13° E. 1485 ft. to Cor. No. 4. Thence S. 51° 17' W.—Var. 13° 30' E.—592 ft. to Cor. No. 1, place of beginning. Area 19.405 acres.

Adjoining claims, so far as known, are, on the north and south, Ancho Placer, Sur. No. 1135, Pelobard and Paden, claimants; on the west, Sailor Jack Lode, R. A. Murphy, claimant.

Any and all persons claiming adversely the mining ground, lode, premises or any portion thereof so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law, and the regulations thereunder, within the time prescribed by law, with the Register of the U. S. Land Office at Roswell, in the Territory of New Mexico, they will be barred, in virtue of the provisions of said statute.
