VOLUME 9.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FEBRUARY 26, 1909.

NUMBER 52

## LINCOLN COUNTY A GOOD PLACE TO SETTLE IN.

During the past half dozen years, through the medium of the Rock Island Colonization Bureau, the cream of the homeseekers from the eastern and southeastern states, has been piloted into Quay county, with the result that nearly 200 square miles of land in that territory has been homesteaded, and what was previous to that time a barren sheep walk is today dotted with comfortable well-tilled farms. The tide of immigration continues, and will continue, towards the southwest. Almost all the land worth having in Quay county has been taken up, and immigration from now on will continue southward. This county has almost as much free land to offer homesteaders as Quay county had five years ago, and better land, with a finer climate and a greater surety for full crops. Within easy reach of the surface of the land—from 10 to 40 feet—an unlimited supply of good water may be tapped almost anywhere in the Carrizozo valley. Don't depend too much on dry-farming, although large crops have been successfully grown here under that system, but have a good well and windmill that will protect you against extreme dry seasons. The land is rich and fertile, and will produce almost any kind of crop. The solution of the dry-farming problem is—sink more wells, and have a windmill, or two would be better, and a crop failure would be next to impossible.

In Lincoln county there is plenty of timber, also considerable undeveloped coal deposits, and producing mines of gold, copper and other metals, and has it much greater inducements to offer the actual settler who elects to make his home here than either Quay or any of the other counties on the north or east.

Within a comparatively few years Tucumcari developed from a straggling settlement into an incorporated city—the busiest, perhaps, between El Paso and Great Bend, Kan. Lincoln county has been hiding its light under a bushel, but we expect to see a large immigration into this county during the next year or two, and then Carrizozo will move into the Tucumcari class.

## A BACHELOR TAX.

*A bachelor leads a merry life.  
Few married folk lead a better;  
It's all very well to have a good wife,  
The trouble is where will you get her.*

A bill to tax bachelor from \$10. to \$25 per annum (according to the length of time they have been running in the single column) has been introduced in the territorial legislature at Santa Fe. This certainly is the limit. It is even more ridiculous than the jackrabbit bill, and more drastic than the bill compelling a man who wants a "smile" to take out a license costing five dollars a year, and wear a tag. The bachelors of Carrizozo feel justly indignant, and are seriously contemplating sending a delegation from the Pastime Club to Santa Fe to protest against the infamous bill becoming a law, and in this they are backed by the girls, as \$25 would buy quite a number of ball tickets, candy, and other things for which the feminine soul yearns. Besides, the dear little things object to be forced into double column until they are ready and meet their affinities; in fact they have openly avowed that if the hen-pecked legislator who introduced the bill ever shows up in Carrizozo, they will tell him what they think about him and his bill.

## ATTEMPTED BURGLARY.

An attempt was made to break into Peoples' merchandise store about two o'clock Sunday morning, which resulted in the burglar getting an ounce of lead in his anatomy.

At about the hour named, C. Peoples, who sleeps in the store, was awakened by a strange noise at the rear window in the alley. It sounded as though some one was removing the wire screen, and trying to pry the window open. He arose, got his revolver and quietly awaited developments. While listening to the noise at the window, he states, that the gun went off "accidentally." There was a shuffling of feet, then a sound as if some one had tripped and fallen. This was followed by the moans of a man calling for a doctor. As his gun was pointed at the window, outside which the burglar was working, he concluded he must have hit him somewhere around the belt. He phoned the marshal, "Burglar in Peoples' store,"

and John Adams was at the scene in less than fifteen minutes, but the burglar had disappeared. An investigation revealed a "jimmy," commonly known as a "claw" and used for pulling nails, outside the window; also a small bottle of whiskey, and a little further away a small pool of blood where the man fell. A vigilant search that day, and the next failed to find a trace of the man. It is believed he had an accomplice who had taken his wounded pal to a place of safety. The officer searched every cabin and place where he would likely have taken refuge, and hunted the country for miles around but found no trace of him. He is believed, however to be badly wounded, as from the trajectory of the bullet through the window, it would have lodged in the brick wall of the Rollins drug store, if it had not lodged in the body of the burglar. Some seem to think there is considerable mystery about the whole affair.

## LARGER HOMESTEADS.

The bill providing that 320 acres can be taken as a homestead in certain states has passed Congress and is on its way to the president for his signature, according to a telegram received from Washington. The message says:

"The conference report on the enlarged homestead bill, allowing settlers to file on 320 acres in the following states and territories was passed today (the 18th) in both house, and given to the president for his signature: Colorado, California, Idaho, Montana, Wyoming, Nevada, Oregon, Utah, Washington and the territories of New Mexico and Arizona.

## A LARGE ORDER FOR THE SOUTHWESTERN PIPE LINE.

The E. P. & S. W. just closed a contract with a Michigan pipe company, for the largest single order of pipe ever given. It is to furnish the railroad company with 72 miles of wooden mains ranging from three to eleven inches inside diameter. And in order to fill the contract will run 24 hours per day for four months. The piping is to be used to supply water trains along the railroad line north of this place. The pipe will withstand 130

pounds pressure to the inch. One thousand tons of steel bands, and one thousands tons of asphaltum pitch will be used in connecting the pipe. The trench in which the pipe is to be laid has been completed as far as Duran—70 mile north of Carrizozo.

We still have a full line of Jack-Rabbit Corduroy pants that we are still selling at reduced prices, also a line of SINCERITY SUITS at actual cost. The Carrizozo Trading Co.

KELLEY & SONS are prepared to furnish extra parts for almost any stove made at reasonable prices.

Mr. A. ZIEGLER arrived from New York City, where he selected a most gorgeous line of

**"Swell Things"**  
for Spring and Summer

The Ladies are especially requested to come in and inspect the finest line of

**Skirts**

ever shown in Carrizozo.

CARRIZOZO NEW MEXICO

## College Men.

Neither in scholarship nor in fitness for the business of life does the product of the great colleges of the present day compare with the graduates turned out from the little colleges of a generation ago. Then, it is true, the boy with the diploma was often too stuffed with Latin and Greek and philosophy to be much of a practical man; now he knows a little about manners, more about clothes, something about "grinds," "peaches" and "profs," but the sumum bonum of his knowledge relates to drop kicks and line bucking. The old type was better, says the Washington Post, because, though impractical, he had a trained mind and was inured to discipline, whereas the new product has gotten most of his training in the ways of a good time. College life is, or should be, a period of training which prepares the youth for the business of a broader life. It will not do to cultivate exclusively the superficialities, which the atmosphere at most of the larger universities is doing. One of the reasons why men who come up from rude walks of life without the benefits of education frequently outstrip the college graduates is because such men have trained their powers through hard work, while the college man has vitiated his talents through overmuch play.

The bureau of engraving and printing at Washington has completed designs by Postmaster General Meyer for a new issue of United States postage stamps. It is expected that shipments to postmasters will commence some time in November. The new issue has been designed with the object of obtaining the greatest simplicity commensurate with artistic results. The profile has been taken in each instance, giving a bas-relief effect. All the stamps are of a similar design, containing a head in an ellipse, the only decoration being laurel leaves on either side of the ellipse. The lettering is in straight lines, at the top being "U. S. Postage" and at the bottom the words "Two Cents." The one-cent stamp contains the head of Franklin, while all the others will bear that of Washington, taken from busts by Houdon. The color are the reds and blues of the early stamps. Director Ralph of the bureau of engraving and printing regards the new stamp as the most artistic ever issued by the government.

David Lubin, formerly of California, has finally won complete success for his long-cherished plan to aid agriculture in a world-wide way. After appealing in vain to his own government to encourage agriculture by bounties on leading agricultural staples, instead of continuing a hopeless struggle he changed his base of operations in behalf of agricultural interests and appealed to the king of Italy with so much persuasiveness that his recommendations were adopted by that monarch much as he made them. The result is the endowment and permanent establishment at Rome of the International Institute of Agriculture. The test of its value is shortly to be made. Within a month delegates from 45 nations will meet at the first session of the general assembly of the institute, and working plans will be considered and probably adopted.

## BUSINESS FARMING.

Use System in the Work and It Will Pay.

I have been a farmer long enough to learn the cause of so many sons and daughters and well-meaning, rollable farm hands leaving the beautiful farm and country and going to the city. A lack of order and system on the farm and too long hours for a day is what is driving the best minds from the farm to the city and shop, declares a writer in Farmers' Review. What can we expect of a hand, or the farmer's wife and her posterity, in the way of intellectual development, when they get out of their beds at 3:30 in the morning and work from that time until 8 or 9 p. m.? And no attention paid to the sanitary conditions of the home, and necessary conveniences on the farm for doing the farm work with the least labor and time.

Give me the educated farmer as a boss and the educated farm hand as a hand. When I come in contact with a hand or farmer that studies his business I find him advancing, and it is a pleasure to work for such men.

The majority of the farmers are eight-hour men, that is, eight hours in the forenoon and eight in the afternoon. Eight or ten hours on the farm cannot well be adapted in all cases, but it need not be from 14 to 16 hours. If the family arise every morning at five o'clock and the wife and daughters attend to the household duties, and the farm hands and sons attend to the chores and go to the field at seven o'clock and work until 11 or 11:30, and go to the field again at one and keep at it until six o'clock, and go to the house and eat the supper and then do the evening chores, they have done a farm day's work. Regular hours for work and regular hours for sleep and regular hours for rest and recreation, with plenty of standard papers and books, including the best agricultural papers and books, and a full faith in God, and good grub is wanted.

The family should rise at five o'clock on Sunday morning as well as on week days, and do the necessary Sunday morning chores, and then go to church and show the business man in the city that Sunday on the farm does not consist in changing the stock from one field to another, or salting it, or unloading a load of hay that was brought in on Saturday evening.

Coming to the meals at the meal hour makes it easy on the wife so she can arrange her household duties in order, as can also the husband, his farm work.

Men of worth and standing in the shop and city tell me that if order and system were used on the farm they would go back to the farm. If the farmer wants to keep his sons and daughters on the farm he must not lengthen the hours for a day's work at both ends. Limit the hours of work on the farm to 12 or 13 with pay for overtime, and freedom to the hired man on Sunday.

## Bedding for the Cow.

Place plenty of dry bedding in the cows' stalls all through the winter. There is less evaporation in cold than in warm weather and floors become very damp. Bedding not only makes it comfortable and healthy for the animals but also absorbs the liquid manures. The man who keeps stock and masters the art of bedding is on the road to success in stock raising and also the building up of his land.

## Get a Gasoline Engine.

A gasoline engine on many farms will take the place of a hired man.

## FARM MACHINERY.

Have the Shed Where It is Stored Water Proof.

In what kind of a shed are your farm machinery and tools? Many farmers have a big machine shed with the sky for a roof. This is a roomy house, but it has the disadvantage of being leaky when it rains, and water is not the best thing for wood and iron.

So many complain that net profits of farming are small. No wonder when they are compelled to purchase a new binder or cultivator nearly every summer. These machines ought to and will last for many years, if properly cared for.

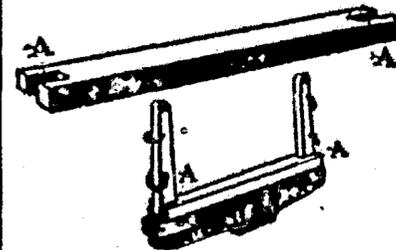

Now is the time, if it has not already been done, to get all tools and implements carefully stored away in a dry building. On rainy days or at odd times all the wood and iron work should be coated with oil or axle grease to prevent rust and decay. This will not only make them last longer, but will keep them bright and sound for immediate and satisfactory use when they are taken out next spring. Rusty wheels and bearings will not run smooth, and the rusty plow is a vexation when the new season opens for rush work. A cent's worth of oil and a minute's work now will save an hour's work of scouring and swearing next spring.

Men who get rich and have money to lend make it a point to prolong the life of their farm implements by sheltering them and keeping them well oiled and painted. Why not you?

## AID IN TURNING WAGON.

Bolster That Will Facilitate Handling of Wagon in Field.

The device shown in the accompanying sketch will save time and trouble in turning with a wagon in the field. It is a 2x4 piece with notches in each

Bolster for Raising Wagon Box, end as shown at AA and fitted on the bolster as indicated.

The standard is to fit in the notches to prevent slipping, explains Prairie Farmer. This will raise the front end of the bed. If this does not make it easier in turning around, another piece similarly fashioned can be added.

## UNNECESSARY DITCHES.

How They Can Be Eliminated and Made Productive Soil.

In many fields unnecessary ditches are allowed to form. A certain amount of drainage is necessary for every field, yet in many places ditches ten times too big are allowed to form. These both reduce the area for cultivation and are a hindrance to plowing, cultivating, and reaping. Where such ditches are not absolutely necessary for carrying off surplus water they should be filled with brush or straw and be made to catch soil wash and fill up. After they are filled so that they may be crossed with team and tools, and the tendency for washing is still strong, the area may be planted to grass. The grass will annually catch and hold new soil, tending to level the field, and the immediate ditch area will become very productive soil instead of a nuisance. It will be "made soil," similar to bottom land, and made soil, regardless of source, is good soil.

## Jobs the Hired Men Dislike.

Two jobs which the average hired man dislike most are milking cows and spreading manure by hand. The modern manure spreader has brought more joy to hired men than any recent device, and the milking machine is coming.

## ECZEMA NOW CURABLE

All Itching Skin Diseases Which Are Not Hereditary Instantly Relieved by Oil of Wintergreen.

Can Eczema be cured? Some physicians say "Yes." Some say "No."

The real question is, "What is meant by Eczema?" If you mean those scaly eruptions, those diseases which make their first appearance, not at birth, but years afterward, and perhaps not until middle age—then there can no longer be any question that these forms of Eczema are curable.

Simple vegetable oil of wintergreen, mixed with other vegetable ingredients, will kill the germs that infect the skin. Apply this prescription to the skin and instantly that awful itch is gone. Druggists everywhere carry in stock this oil of wintergreen properly compounded into D. D. D. Prescription and D. D. D. Soap.

## Sure Sign.

Mrs. Murphy—Arrah! 'Tis Saturday night an' th' facth'ry is closin' down an' Timmy don't know whether he'll git his pay or not.

Mrs. Flaherty—Here he comes home now.

Mrs. Murphy—Worra! This he ain't been paid.

Hon. Emil Kiang, Vienna, Aus., one of the world's greatest horsemen, has written to the manufacturer: "SPOHN'S DISTEMPER COMPOUND has become the standard remedy for distempers and throat diseases in the best stables of Europe. This medicine relieves horses of great suffering and saves much money for the owner." 50c and \$1 a bottle. All druggists. SPOHN MEDICAL CO., Goshen, Ind.

## Rather Remarkable Certainty.

The lawyer for the plaintiff had finished his argument, and counsel for the defense stopped forward to speak, when the new judge interrupted him. His eyes were wide open and filled with wonder and admiration for the plea of the plaintiff.

"Defendant need not speak," he said. "Plaintiff wins."

"But, your honor," said the attorney for the defendant, "at least let me present my case."

"Well, go ahead, then," said the judge, wearily.

The lawyer went ahead. When he had finished the judge gaped in even greater astonishment.

"Don't it beat all!" he exclaimed. "Now-defendant wins."—Green Bag.

## VAIN THREATS.

Jimmy Juggins—If you do not consent to my marriage with your daughter, I swear I'll kill myself.

Her Pa—Ha, that's good; you'll save me the trouble.

## ROSY AND PLUMP

Good Health from Right Food.

"It's not a new food to me," remarked a Va. man, in speaking of Grape-Nuts.

"About twelve months ago my wife was in very bad health, could not keep anything on her stomach. The Doctor recommended milk half water but it was not sufficiently nourishing.

"A friend of mine told me one day to try Grape-Nuts and cream. The result was really marvelous. My wife soon regained her usual strength and to-day is as rosy and plump as when a girl of sixteen.

"These are plain facts and nothing I could say in praise of Grape-Nuts would exaggerate in the least the value of this great food."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Never read the above letter? A card and sample from time to time. It's a good one, true, and full of interest.

# A NOVEL SUBMARINE

NEW TYPE OF UNDER WATER CRAFT INVENTED BY NEGRO.

Problem Solved if Principles Work Out as Well as in Trial—Boat Will Be of Great Service as Life Preserver.

Denver.—Robert Lincoln, a negro inventor of this city, has perfected an entirely new type of submarine craft, which is to be brought to the attention of the war department by a number of capitalists who have become interested in the invention. If Lincoln's principles work out as well in the trial boat as they do in the model, there is no doubt that he has solved the problem of under water naviga-

Model of New Submarine.

tion. He gives the following details concerning his unique craft:

"My invention will not only prove an improvement in submarine navigation, but will introduce a new mode of propulsion, which may be applied to all water craft, whether running on or beneath the surface of the water," the inventor says.

"It can be steered or controlled with as much ease and safety in rough as in calm seas. Observation can be taken as accurately while the boat is wholly submerged as when on the surface by a system of mirrors and refracted rays, only exposing an eight-inch pipe to view.

"The boat is agile, swift and durable. It will stand the pressure of the water at any depth. By the application of hydroplanes, keel, and turrets, we are able to do away with the propeller and its ponderous machinery, absolutely necessary to get speed from the style now in vogue.

"The revoluble hull is the greatest achievement of the invention. It has a spiral arranged blade encircling it from end to end, resembling a corkscrew. When this hull is set in motion upon its axis this blade coming in contact with a great surface of water, the forward movement of the boat is smooth.

"The inner boat, being carried by the outer boat, does not come in contact with the water, and can offer no resistance to its speed or momentum.

"The inner boat is similar in construction and size to the outer, and constitutes the living apartments and affording a place to carry all the necessary appliances according to the usage of the boat.

"At a suitable distance from each end of the inner boat two turrets are constructed that rise at right angles to the inner boat to a distance of a foot above the greatest diameter of the revoluble hull. So that when running awash only a very small portion of the boat is exposed to view, and no vital parts.

"The rear turrets constitute a pilot house and also afford an opening for ingress and egress to the inner boat, the pilot house being telescoped in the turret and closed with water-tight fastenings when boat is submerged.

"The lower ends of the turrets are made flat and thin, and extend downward to a point sufficient to hold a

solid iron keel, which allows the revoluble hull to turn between it and the inner boat. This keel steadies the boat latterly and adds stability to the inner boat, being rigidly connected at both ends.

"If in the rapid rotation of the outer shell the inner boat may have any inclination to deviate from a level, by working the hydroplanes of the one, side adverse to those of the other, their action on the water will easily and effectively arrest such deviations.

"From both ends of the inner boat there is a conical prow extending and coming to a point which makes a most formidable weapon and can effectively be used in ramming other vessels. In these prows and in front of the forward turret and rear of the rear turret are torpedo tubes, using compressed air force.

"While the boat has been recommended for war purposes, its greatest service to mankind will be as a life preserver.

"All parts and appliances of this boat are made and put together from the inside, so that the boat can be repaired at sea as well as in dry dock."

## NOVEL CLUB FOR GOOD BOYS.

Iowan Starts Bank Accounts and Helps Lads Making Pledges.

Des Moines, Ia.—To every boy in Iowa who will take a pledge to use neither tobacco nor liquor Samuel Saucerman, a wealthy Des Moines resident, will give \$1, a cent a day for three years and another dollar at the end of the three years. At the same time he urges the boys who accept his proposition to save the nickels and dimes they would otherwise have spent for tobacco and alcoholic drink and put them with their account. He has figured out that if the boys will do this none will arrive at the age of 21 years without having enough to take them through college or give them a good start in life.

Mr. Saucerman is reputed to be worth \$1,500,000. The new organiza-

SAMUEL SAUCERMAN

tion, he is perfecting to help boys is to be known as "The Trimmer Band." To demonstrate his earnestness he has deposited in the name of "The Trimmer Band" \$5,000, which is drawing interest.

The plan as outlined by Mr. Saucerman is to take boys from the age of nine to 16 and organize them into plants or companies of 50 or 100. He would have these boys hold monthly meetings at which time they would discuss and be taught economy, finance and how to earn money, clean living and everything in line with industry and morals. Each boy on joining the club will receive \$1. The boy must deposit with his dollar 50 cents, to show good faith. Starting his bank account with \$1.50, each boy will receive one penny per day for three years, and at the end of that period he will receive an additional \$1.

## BREAKS A COLD PROMPTLY

The following formula is a never failing remedy for colds:

One ounce of Compound Syrup of Sarsaparilla, one ounce Toris Compound and one-half pint of good whiskey, mix and shake thoroughly each time and use in doses of a table-spoonful every four hours.

This if followed up will cure an acute cold in 24 hours. The ingredients can be gotten at any drug store.

## A Toast.

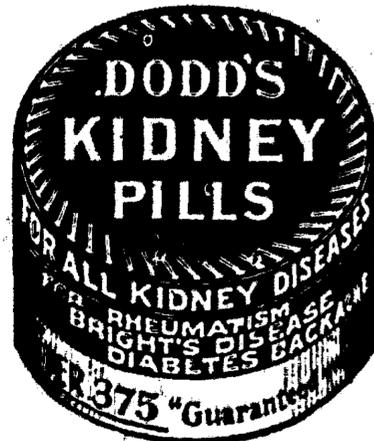

The latest thing in toasts comes from "up-state," and was responded to by the father of 13 daughters, who claims that he ought to know.

"To the Ladies—to their sweetness we give love; to their beauty admiration, and to their hats, the whole sidewalk.—New York Times.

## Rapid Transit.

Mrs. Blunder had just received a telegram from India.

"What an admirable invention the telegram is!" she exclaimed, "when you come to consider that this message has come a distance of thousands of miles and the gum on the envelope isn't dry yet."—Tit-Bits.

## GLOVER SEED

Absolutely Pure, No Weeds  
Ex. Gov. Heard of Wisconsin, from 20 acres sown to Salzer's 20th Century Alfalfa, harvested within 24 weeks after seeding \$2000.00 worth of magnificent hay, or at the rate of over 200 lbs per acre. His seed catalog free on card 100 in stamps for sample of this Alfalfa, also Billion Dollar Grass, Oats, Wheat, Barley, etc., easily worth \$10.00 of any man's money to get a start with. Send 10c and we add a sample farm seed novelty never seen before by you.  
SALZER SEED CO., Box W, La Crosse, Wis.

## PISO'S

AN UNSURPASSED REMEDY!

Piso's Cure is an unexcelled remedy for cough, cold, bronchitis, influenza, throat and chest ailments. It goes direct to the seat of the trouble and relieves the most stubborn cases. Mothers restore healthy children. Piso's Cure will give their children relief. Piso's Cure will give perfect confidence in its curative powers and freedom from cough, croup and all a century's ailments.

At all druggists, 25c.

A flavoring that is used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a more better than maple. Mapleine is sold by grocers. Send 25c stamp for sample and recipe book. Streeting, 100, 100, 100.

# THE CARRIZOZO NEWS

Published every Friday, at

CARRIZOZO - NEW MEXICO.

Entered as second class mail for June 17, 1908, at the postoffice at Carrizozo, New Mexico, under the Act of March 3, 1879.

### SUBSCRIPTION RATES:

One Year, . . . . . \$1.50  
Six Months, . . . . . \$1.00

W. A. HALEY, . . . . . Editor.

An extra session of Congress for the revision of the tariff has been announced for March 15.

The bill creating Curry county out of the northern portion of Roosevelt and the southern portion of Quay, and parts of Guadalupe and Chaves, with the county seat at Clovis, has passed both houses of the legislature, and now goes to the governor for his assent, which of course, it will get. There are several other bills for creating new counties before the legislature, but little hope is entertained for their passage.

The latest is that New Mexico is to have the biggest dam in the world. Territorial Engineer Sullivan reports that the Gila Farm Company, in Grant county, contemplates the construction of a monster dam, three times the height of the Elephant Butte project, and more than three times the size of the Assuan dam on the Nile, making it the largest reservoir in the world. Nothing small about that. As Capt. Fleming, of Silver City, says: "Grant county is the best county in New Mexico and Silver City the best city in Grant county."

The Arizona legislature passed a local option law last week. The state of Idaho followed suit. New Mexico has no less than three local option bills up for consideration, but no real action has yet been taken on the question, although Governor George Curry informed the legislature that local option, in his opinion, would be a good thing for New Mexico. Already ten states have gone "dry"—Maine, Kansas, Iowa, North Dakota, Georgia, Oklahoma, North Carolina, Mississippi, Alabama, and Tennessee; while as many more have passed laws regulating the sale of liquor.

Mrs. Mary E. Williams, aged 53, and her daughter, aged 16, recently rode on horseback from El Paso, Texas, to Fayetteville, Ark., a distance of 1500 miles, in 78 days in order that the daughter might attend college. This is a much greater feat than the Commander-in-Chief of the United States army requires of his

officers. We respectfully recommend Mrs. Wellman and daughter to the attention of our rough-riding President in the hope that he may send them commissions as honorary colonels. The ladies might not set much value on the rank, but they could use the salary attached to it to advantage.

A burglar never attempts to break into a printing-office, for the simple reason that he knows that the only article he could get there would be cold lead; but if he tries his graft on any other business house, he is liable to get a little hot lead in place of what he went after.

**NOTICE OF SALE OF MORTGAGED PROPERTY.**

**NOTICE IS HEREBY GIVEN,**  
 1. That about between Jan. 26 and Feb. 10, 1907, there was filed in the District Court of Lincoln county, New Mexico, a suit entitled *W. W. Gatewood and U. S. Bateman, plaintiffs, vs. Timoteo Analla et al., defendants*, No. 1109.  
 2. That the nature of said suit was and is to foreclose a certain mortgage executed by the defendants Timoteo Analla and his wife Amada M. de Analla to the plaintiffs, to secure the payment of an indebtedness from the defendant, Timoteo Analla, to said plaintiffs, said mortgage being dated September 14, 1904.  
 3. That judgment of foreclosure and order for the sale of the property described in said mortgage were had in said cause on August 14, 1907, and that said judgment was reformed by order of court, July 8, 1908, said judgment and order of reformation appearing on record in the office of the clerk of the district court of said Lincoln county, New Mexico.  
 4. That the amount of said judgment together with the interest thereon from the date of same to the date of sale hereinafter specified is \$1,100.00.  
 5. That the property foreclosed against as described in said decree and directed to be sold to satisfy said foreclosure judgment is situated in said Lincoln county, New Mexico, and is more particularly described as commencing at the corner to sections 12, 13, 14 and 15, township 11 south, range 17 east, N. M., P. M., corner No. 11 thence var. 12 degrees and 10 minutes E. 20 chains to corner No. 2, a limestone 1/2 inch in thickness set in the ground and marked on the north side 2-24 thence var. 12 deg. 20 min. N. 27 chains to middle of Rio Honda, 31 links south of which is a limestone 1 1/2 inch in thickness marked on the north W. C. 3-24 thence along the Rio Honda northwesterly to a point on the range line between ranges 17 and 18 east 20 links south of which is a limestone 1 1/2 inch in thickness marked W. U. 1-24 on the north side thence from the middle of the Rio Honda, var. 12 deg. and 20 min. E. 16 chains to corner No. 1, place of beginning, containing 14 1/2 acres more or less, and being all that portion, lot No. 4, section 7, township 11 south, range 17 east, N. M., P. M., which lies south of the Rio Honda.  
 Also all that portion of the south half of the southeast quarter of section 12, township 11 south of range 17 east, which is south of the Rio Honda.  
 Also a certain tract or parcel of land, the same being a portion of the south half of the southwest quarter of section 12, township 11, south of range 17 east, and more particularly described as beginning at the government quarter corner in the south line of said section 12; thence west along the south line of said section 12, 21 chains to the limestone 1 1/2 inch in thickness marked T on the north side and set 15 inches in the ground; thence north 12 1/2 chains to the south bank of the Rio Honda; thence down the Rio Honda along said south bank to a point due north of said quarter corner in the south line of section 12; thence south 2 1/2 chains to the place of beginning, containing 17 and 25-100 acres more or less.  
 Also the northwest quarter of the northeast quarter of section 12, township 11, south of range 17 east, N. M., P. M., containing 40 acres.  
 Also beginning at a cedar post set in the ground, thence to the corner of section 11, 12, 13 and 14, township 11 south range 17 east, N. M., P. M., var. 10 degrees and 45 minutes E. 20 chains. Thence var. 10 deg. 45 min. east 14 1/2 chains to corner No. 2, a stone marked and chained 2 T A P A on the west side; thence variation 12 degrees E. N. 20 chains to corner No. 3, a limestone 1 1/2 inch in thickness set in the ground chained 2 T A P A on the west side; thence var. 12 degrees E. W. 14 chains to quarter corner sections 11 and 12, township 11 south range 17 east; thence var. 11 degrees and 45 minutes east 23 chains to corner No. 1, place of beginning, containing 12 acres, except lot 3 (three) in block 2 (two) and lots 1 and 2 (one and two) in block 2 (two) of the Analla townsite, Lincoln county, N. M., being in section 11, township 11 south, range 17 east, N. M., P. M. Also the southeast quarter of the southeast quarter of section 10, township 11 south, range 17 east, N. M., P. M., containing 40 acres. Also the northeast quarter of the northeast quarter of section 14, township 11 south, range 17 east, N. M., P. M., containing 40 acres; the north half of the northeast quarter, section 12, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the northwest quarter of the northeast quarter of section 13, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the southeast quarter of the southwest quarter and the south half of the north east quarter of section 14, township 11 south of range 17 east, N. M., P. M., containing 120 acres.

6. That the property foreclosed against as described in said decree and directed to be sold to satisfy said foreclosure judgment is situated in said Lincoln county, New Mexico, and is more particularly described as commencing at the corner to sections 12, 13, 14 and 15, township 11 south, range 17 east, N. M., P. M., corner No. 11 thence var. 12 degrees and 10 minutes E. 20 chains to corner No. 2, a limestone 1/2 inch in thickness set in the ground and marked on the north side 2-24 thence var. 12 deg. 20 min. N. 27 chains to middle of Rio Honda, 31 links south of which is a limestone 1 1/2 inch in thickness marked on the north W. C. 3-24 thence along the Rio Honda northwesterly to a point on the range line between ranges 17 and 18 east 20 links south of which is a limestone 1 1/2 inch in thickness marked W. U. 1-24 on the north side thence from the middle of the Rio Honda, var. 12 deg. and 20 min. E. 16 chains to corner No. 1, place of beginning, containing 14 1/2 acres more or less, and being all that portion, lot No. 4, section 7, township 11 south, range 17 east, N. M., P. M., which lies south of the Rio Honda.  
 Also all that portion of the south half of the southeast quarter of section 12, township 11 south of range 17 east, which is south of the Rio Honda.  
 Also a certain tract or parcel of land, the same being a portion of the south half of the southwest quarter of section 12, township 11, south of range 17 east, and more particularly described as beginning at the government quarter corner in the south line of said section 12; thence west along the south line of said section 12, 21 chains to the limestone 1 1/2 inch in thickness marked T on the north side and set 15 inches in the ground; thence north 12 1/2 chains to the south bank of the Rio Honda; thence down the Rio Honda along said south bank to a point due north of said quarter corner in the south line of section 12; thence south 2 1/2 chains to the place of beginning, containing 17 and 25-100 acres more or less.  
 Also the northwest quarter of the northeast quarter of section 12, township 11, south of range 17 east, N. M., P. M., containing 40 acres.  
 Also beginning at a cedar post set in the ground, thence to the corner of section 11, 12, 13 and 14, township 11 south range 17 east, N. M., P. M., var. 10 degrees and 45 minutes E. 20 chains. Thence var. 10 deg. 45 min. east 14 1/2 chains to corner No. 2, a stone marked and chained 2 T A P A on the west side; thence variation 12 degrees E. N. 20 chains to corner No. 3, a limestone 1 1/2 inch in thickness set in the ground chained 2 T A P A on the west side; thence var. 12 degrees E. W. 14 chains to quarter corner sections 11 and 12, township 11 south range 17 east; thence var. 11 degrees and 45 minutes east 23 chains to corner No. 1, place of beginning, containing 12 acres, except lot 3 (three) in block 2 (two) and lots 1 and 2 (one and two) in block 2 (two) of the Analla townsite, Lincoln county, N. M., being in section 11, township 11 south, range 17 east, N. M., P. M. Also the southeast quarter of the southeast quarter of section 10, township 11 south, range 17 east, N. M., P. M., containing 40 acres. Also the northeast quarter of the northeast quarter of section 14, township 11 south, range 17 east, N. M., P. M., containing 40 acres; the north half of the northeast quarter, section 12, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the northwest quarter of the northeast quarter of section 13, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the southeast quarter of the southwest quarter and the south half of the north east quarter of section 14, township 11 south of range 17 east, N. M., P. M., containing 120 acres.

7. That the amount of said judgment together with the interest thereon from the date of same to the date of sale hereinafter specified is \$1,100.00.  
 8. That the property foreclosed against as described in said decree and directed to be sold to satisfy said foreclosure judgment is situated in said Lincoln county, New Mexico, and is more particularly described as commencing at the corner to sections 12, 13, 14 and 15, township 11 south, range 17 east, N. M., P. M., corner No. 11 thence var. 12 degrees and 10 minutes E. 20 chains to corner No. 2, a limestone 1/2 inch in thickness set in the ground and marked on the north side 2-24 thence var. 12 deg. 20 min. N. 27 chains to middle of Rio Honda, 31 links south of which is a limestone 1 1/2 inch in thickness marked on the north W. C. 3-24 thence along the Rio Honda northwesterly to a point on the range line between ranges 17 and 18 east 20 links south of which is a limestone 1 1/2 inch in thickness marked W. U. 1-24 on the north side thence from the middle of the Rio Honda, var. 12 deg. and 20 min. E. 16 chains to corner No. 1, place of beginning, containing 14 1/2 acres more or less, and being all that portion, lot No. 4, section 7, township 11 south, range 17 east, N. M., P. M., which lies south of the Rio Honda.  
 Also all that portion of the south half of the southeast quarter of section 12, township 11 south of range 17 east, which is south of the Rio Honda.  
 Also a certain tract or parcel of land, the same being a portion of the south half of the southwest quarter of section 12, township 11, south of range 17 east, and more particularly described as beginning at the government quarter corner in the south line of said section 12; thence west along the south line of said section 12, 21 chains to the limestone 1 1/2 inch in thickness marked T on the north side and set 15 inches in the ground; thence north 12 1/2 chains to the south bank of the Rio Honda; thence down the Rio Honda along said south bank to a point due north of said quarter corner in the south line of section 12; thence south 2 1/2 chains to the place of beginning, containing 17 and 25-100 acres more or less.  
 Also the northwest quarter of the northeast quarter of section 12, township 11, south of range 17 east, N. M., P. M., containing 40 acres.  
 Also beginning at a cedar post set in the ground, thence to the corner of section 11, 12, 13 and 14, township 11 south range 17 east, N. M., P. M., var. 10 degrees and 45 minutes E. 20 chains. Thence var. 10 deg. 45 min. east 14 1/2 chains to corner No. 2, a stone marked and chained 2 T A P A on the west side; thence variation 12 degrees E. N. 20 chains to corner No. 3, a limestone 1 1/2 inch in thickness set in the ground chained 2 T A P A on the west side; thence var. 12 degrees E. W. 14 chains to quarter corner sections 11 and 12, township 11 south range 17 east; thence var. 11 degrees and 45 minutes east 23 chains to corner No. 1, place of beginning, containing 12 acres, except lot 3 (three) in block 2 (two) and lots 1 and 2 (one and two) in block 2 (two) of the Analla townsite, Lincoln county, N. M., being in section 11, township 11 south, range 17 east, N. M., P. M. Also the southeast quarter of the southeast quarter of section 10, township 11 south, range 17 east, N. M., P. M., containing 40 acres. Also the northeast quarter of the northeast quarter of section 14, township 11 south, range 17 east, N. M., P. M., containing 40 acres; the north half of the northeast quarter, section 12, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the northwest quarter of the northeast quarter of section 13, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the southeast quarter of the southwest quarter and the south half of the north east quarter of section 14, township 11 south of range 17 east, N. M., P. M., containing 120 acres.

9. That the amount of said judgment together with the interest thereon from the date of same to the date of sale hereinafter specified is \$1,100.00.  
 10. That the property foreclosed against as described in said decree and directed to be sold to satisfy said foreclosure judgment is situated in said Lincoln county, New Mexico, and is more particularly described as commencing at the corner to sections 12, 13, 14 and 15, township 11 south, range 17 east, N. M., P. M., corner No. 11 thence var. 12 degrees and 10 minutes E. 20 chains to corner No. 2, a limestone 1/2 inch in thickness set in the ground and marked on the north side 2-24 thence var. 12 deg. 20 min. N. 27 chains to middle of Rio Honda, 31 links south of which is a limestone 1 1/2 inch in thickness marked on the north W. C. 3-24 thence along the Rio Honda northwesterly to a point on the range line between ranges 17 and 18 east 20 links south of which is a limestone 1 1/2 inch in thickness marked W. U. 1-24 on the north side thence from the middle of the Rio Honda, var. 12 deg. and 20 min. E. 16 chains to corner No. 1, place of beginning, containing 14 1/2 acres more or less, and being all that portion, lot No. 4, section 7, township 11 south, range 17 east, N. M., P. M., which lies south of the Rio Honda.  
 Also all that portion of the south half of the southeast quarter of section 12, township 11 south of range 17 east, which is south of the Rio Honda.  
 Also a certain tract or parcel of land, the same being a portion of the south half of the southwest quarter of section 12, township 11, south of range 17 east, and more particularly described as beginning at the government quarter corner in the south line of said section 12; thence west along the south line of said section 12, 21 chains to the limestone 1 1/2 inch in thickness marked T on the north side and set 15 inches in the ground; thence north 12 1/2 chains to the south bank of the Rio Honda; thence down the Rio Honda along said south bank to a point due north of said quarter corner in the south line of section 12; thence south 2 1/2 chains to the place of beginning, containing 17 and 25-100 acres more or less.

That the property foreclosed against as described in said decree and directed to be sold to satisfy said foreclosure judgment is situated in said Lincoln county, New Mexico, and is more particularly described as commencing at the corner to sections 12, 13, 14 and 15, township 11 south, range 17 east, N. M., P. M., corner No. 11 thence var. 12 degrees and 10 minutes E. 20 chains to corner No. 2, a limestone 1/2 inch in thickness set in the ground and marked on the north side 2-24 thence var. 12 deg. 20 min. N. 27 chains to middle of Rio Honda, 31 links south of which is a limestone 1 1/2 inch in thickness marked on the north W. C. 3-24 thence along the Rio Honda northwesterly to a point on the range line between ranges 17 and 18 east 20 links south of which is a limestone 1 1/2 inch in thickness marked W. U. 1-24 on the north side thence from the middle of the Rio Honda, var. 12 deg. and 20 min. E. 16 chains to corner No. 1, place of beginning, containing 14 1/2 acres more or less, and being all that portion, lot No. 4, section 7, township 11 south, range 17 east, N. M., P. M., which lies south of the Rio Honda.  
 Also all that portion of the south half of the southeast quarter of section 12, township 11 south of range 17 east, which is south of the Rio Honda.  
 Also a certain tract or parcel of land, the same being a portion of the south half of the southwest quarter of section 12, township 11, south of range 17 east, and more particularly described as beginning at the government quarter corner in the south line of said section 12; thence west along the south line of said section 12, 21 chains to the limestone 1 1/2 inch in thickness marked T on the north side and set 15 inches in the ground; thence north 12 1/2 chains to the south bank of the Rio Honda; thence down the Rio Honda along said south bank to a point due north of said quarter corner in the south line of section 12; thence south 2 1/2 chains to the place of beginning, containing 17 and 25-100 acres more or less.  
 Also the northwest quarter of the northeast quarter of section 12, township 11, south of range 17 east, N. M., P. M., containing 40 acres.  
 Also beginning at a cedar post set in the ground, thence to the corner of section 11, 12, 13 and 14, township 11 south range 17 east, N. M., P. M., var. 10 degrees and 45 minutes E. 20 chains. Thence var. 10 deg. 45 min. east 14 1/2 chains to corner No. 2, a stone marked and chained 2 T A P A on the west side; thence variation 12 degrees E. N. 20 chains to corner No. 3, a limestone 1 1/2 inch in thickness set in the ground chained 2 T A P A on the west side; thence var. 12 degrees E. W. 14 chains to quarter corner sections 11 and 12, township 11 south range 17 east; thence var. 11 degrees and 45 minutes east 23 chains to corner No. 1, place of beginning, containing 12 acres, except lot 3 (three) in block 2 (two) and lots 1 and 2 (one and two) in block 2 (two) of the Analla townsite, Lincoln county, N. M., being in section 11, township 11 south, range 17 east, N. M., P. M. Also the southeast quarter of the southeast quarter of section 10, township 11 south, range 17 east, N. M., P. M., containing 40 acres. Also the northeast quarter of the northeast quarter of section 14, township 11 south, range 17 east, N. M., P. M., containing 40 acres; the north half of the northeast quarter, section 12, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the northwest quarter of the northeast quarter of section 13, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the southeast quarter of the southwest quarter and the south half of the north east quarter of section 14, township 11 south of range 17 east, N. M., P. M., containing 120 acres.

15. That the amount of said judgment together with the interest thereon from the date of same to the date of sale hereinafter specified is \$1,100.00.  
 16. That the property foreclosed against as described in said decree and directed to be sold to satisfy said foreclosure judgment is situated in said Lincoln county, New Mexico, and is more particularly described as commencing at the corner to sections 12, 13, 14 and 15, township 11 south, range 17 east, N. M., P. M., corner No. 11 thence var. 12 degrees and 10 minutes E. 20 chains to corner No. 2, a limestone 1/2 inch in thickness set in the ground and marked on the north side 2-24 thence var. 12 deg. 20 min. N. 27 chains to middle of Rio Honda, 31 links south of which is a limestone 1 1/2 inch in thickness marked on the north W. C. 3-24 thence along the Rio Honda northwesterly to a point on the range line between ranges 17 and 18 east 20 links south of which is a limestone 1 1/2 inch in thickness marked W. U. 1-24 on the north side thence from the middle of the Rio Honda, var. 12 deg. and 20 min. E. 16 chains to corner No. 1, place of beginning, containing 14 1/2 acres more or less, and being all that portion, lot No. 4, section 7, township 11 south, range 17 east, N. M., P. M., which lies south of the Rio Honda.  
 Also all that portion of the south half of the southeast quarter of section 12, township 11 south of range 17 east, which is south of the Rio Honda.  
 Also a certain tract or parcel of land, the same being a portion of the south half of the southwest quarter of section 12, township 11, south of range 17 east, and more particularly described as beginning at the government quarter corner in the south line of said section 12; thence west along the south line of said section 12, 21 chains to the limestone 1 1/2 inch in thickness marked T on the north side and set 15 inches in the ground; thence north 12 1/2 chains to the south bank of the Rio Honda; thence down the Rio Honda along said south bank to a point due north of said quarter corner in the south line of section 12; thence south 2 1/2 chains to the place of beginning, containing 17 and 25-100 acres more or less.  
 Also the northwest quarter of the northeast quarter of section 12, township 11, south of range 17 east, N. M., P. M., containing 40 acres.  
 Also beginning at a cedar post set in the ground, thence to the corner of section 11, 12, 13 and 14, township 11 south range 17 east, N. M., P. M., var. 10 degrees and 45 minutes E. 20 chains. Thence var. 10 deg. 45 min. east 14 1/2 chains to corner No. 2, a stone marked and chained 2 T A P A on the west side; thence variation 12 degrees E. N. 20 chains to corner No. 3, a limestone 1 1/2 inch in thickness set in the ground chained 2 T A P A on the west side; thence var. 12 degrees E. W. 14 chains to quarter corner sections 11 and 12, township 11 south range 17 east; thence var. 11 degrees and 45 minutes east 23 chains to corner No. 1, place of beginning, containing 12 acres, except lot 3 (three) in block 2 (two) and lots 1 and 2 (one and two) in block 2 (two) of the Analla townsite, Lincoln county, N. M., being in section 11, township 11 south, range 17 east, N. M., P. M. Also the southeast quarter of the southeast quarter of section 10, township 11 south, range 17 east, N. M., P. M., containing 40 acres. Also the northeast quarter of the northeast quarter of section 14, township 11 south, range 17 east, N. M., P. M., containing 40 acres; the north half of the northeast quarter, section 12, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the northwest quarter of the northeast quarter of section 13, township 11 south of range 17 east, N. M., P. M., containing 40 acres; the southeast quarter of the southwest quarter and the south half of the north east quarter of section 14, township 11 south of range 17 east, N. M., P. M., containing 120 acres.

Dated at Lincoln, N. M., Feb. 8, 1909.  
 JOHN W. OWEN, Special Master.

**FOR SALE.**

I have for sale, cheap: 1 dresser, 1 iron bedstead, 2 spring mattresses, 1 extension table, 1 center table, 6 dining room chairs, 1 typewriter, mower and rake, 1 turning plow, shovels, hoes, pitchforks, etc.; 2 brood sows, and 3,250 redwood shingles.

**Forfeiture Notice.**

To John S. Lennox, Sierra Blanca, Texas, and assigns.  
 You are hereby notified that I, Jas. E. Hurt, your co-owner in the mining claims known as The Pittsburg Iron Place, Pittsburg Iron Lode, Pittsburg Iron Lode No. 1, Great Eastern Iron Lode, and Greenville Iron Lode, situated in the Capitan Mining District, Lincoln county, N. M., as appears in the records of Lincoln county, N. M., have expended during and for the years 1907 and 1908, the sum of one thousand (\$1,000) dollars in labor in order to hold said claims under the provisions of Sec. 2321 of the Revised Statutes of the United States.  
 Therefore, if, within ninety (90) days after the expiration of this publication, you fail or refuse to contribute your proportion of such expenditures, being three hundred and thirty-three dollars and thirty-three cents (\$333.33), together with the cost of this publication, your interest in the aforesaid claims become the property of the other party or parties.

**Better Not Get Dyspepsia**  
 If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.  
 A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.  
 Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.  
 When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dizziness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.  
 Ordinary peptic "dyspepsia tablets" physics, etc., are not likely to be of much benefit to you, in digestive ailments. Peppin is only a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.  
 Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.  
**Our Guarantee**  
 We to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to bottles in a family. The large bottle contains 2 1/2 times as much as the 50-cent bottle.  
 Kodol is prepared at the laboratories of H. C. DeWitt & Co., Chicago.  
 For Sale at Dr. Padon's Drug Store and Rolland Bros.

— CAPITAN. —

J. M. Rice, of the Eagle Mining Company was down from Parsons this week.

Uncle Tom Henley, of Nogal made this town his usual monthly visit this week.

Mr. J. R. Humphrey intends to leave next week on a visit to relatives in Pueblo, Colo.

Capt. Lee has been under the weather for the past week or so, but is getting along gradually.

Surveyor-general Marsh has appointed Harold W. Hall of this town a deputy United States surveyor.

Have you seen the new colors and shapes of men's hats that we are showing? The Carrizozo Trading Company.

W. A. Weikel, of Houston, Texas, and S. E. Foley of Sherman, are additions to the force in the railroad shops.

Hob Edwards, Sid Frantz and Lee Chase came down from Ocala to attend the Pastime ball Tuesday evening.

Jim Lee and family, of White Oaks, have rented a residence west of this office and will move in there next week. Jim will continue his business in White Oaks, but for reasons best known to himself has decided to try Carrizozo a while.

The Knights of Pithias of Capitán, celebrated the forty-fifth anniversary of the order on the 19th inst by a ball and oyster supper.

There has been a rush of railroad business the past week, and it is liable to continue for some time—fruit trains bound east is the cause.

A new stock of Hamilton Brown and Roberts, Johnson and Rand shoes just received. The Carrizozo Trading Company.

A man named Jerry Simpson while repairing a tank for the company had the second finger of his right hand badly pinched. He is now laying off.

The Ancho Cement Company have manufactured more cement during the past six months than during the previous eighteen and it has been disposed of. How is that for a local enterprise.

N. B. Taylor, who has been seriously ill for several weeks with erysipelas in the head, is reported much better, but it may be some weeks before he is able to attend to business.

The Pastime Club gave another of their popular dances Tuesday evening. Needless to say that it was well attended, and thoroughly appreciated by

the lovers of the "light-fantastic." Refreshments were served during the evening.

Two heavily-laden freight cars were derailed on the main track early Sunday morning, while being switched. It took the united efforts of the entire yard force until 8 o'clock a. m. to get them back on the rails and the track cleared.

L. R. Lamay was down from the mesa Saturday, arranging for an order of lumber and building material to complete his nine room brown stone front. It will be a story and a half, and when finished will be perhaps the most pretentious dwelling in the mesa.

A high wind of exceptional force and velocity passed over this portion of the territory Sunday. It was accompanied by a dust storm that almost obscured the sky. Having exhausted itself after a twelve hour blow, an inch or two of snow fell, barely sufficient to lay the dust.

W. McNew, of White Oaks, has been in town the past two weeks receiving medical treatment for a bone-felon. The hand and wrist is much swollen and very painful. He had a similar case several years ago, when a piece of the bone of his fingers had to be cut out.

It snowed Sunday night and the next day. The streets were covered with an inch and a half of the beautiful. It disappeared however before evening, except on the surrounding mountains. It did considerable good to the range and made the farmer's heart glad, but there was not quite enough of it.

The Washington anniversary held at the school house Monday evening was well attended and greatly enjoyed. A very nice program had been prepared, consisting of music, recitations, guessing contests, social games and amusement of many kinds. The proverbial little "cherry tree" was conspicuous by its absence, but then there was cherry pie galore. It was a very appropriate and pleasing entertainment.

Mrs. M. E. Anderson and Miss Lillie Mae Bytherwood returned Saturday from a visit to their mining property in the San Andres. This mining region is bound to come into prominence one of these days, as gold and copper are known to be there in inexhaustible quantities. All that is needed is capital to develop the mines and machinery to reduce the ores, both of which will come in good time.

## HOME-MADE CANDIES

CONFECTIONS THAT ARE PURE AND WHOLESOME.

Sea Foam Delicious and Cheap—Gingerbread Nuts—For Perfect Butterscotch—Chocolate Caramels.

Sea foam is one of the cheapest yet most delicious candies of the roster.

It is sometimes made with the addition of whites of eggs, and again without. Try both ways. For the first add to three cupfuls light brown sugar one cupful boiling water and place over the fire. Stir only until the sugar is dissolved, then cook without stirring until a little dropped from the tip of a spoon spins a thread. Take from the fire, and when the mixture stops boiling add to it gradually the stiffly whipped whites of two eggs. Continue to heat with a wire whip until the mass is soft and creamy, yet of a consistency to stand alone, without spreading. Flavor with vanilla when half beaten. When done, drop in pats on waxed paper. If preferred, a cupful of nut meats coarsely chipped can be added just before dropping on the paper. The surface of this sea foam is also made in this wise: Boil together until the sirup spins a thread one pound dark brown sugar and a cupful cold water. Take from the fire, add a half teaspoonful vanilla, and beat until soft and creamy. Drop in irregular pats on waxed paper.

**Gingerbread Nuts.**—Put one pound of brown sugar, one pound of honey and the grated rind of half a lemon into a saucypan and simmer them well together; all one-fourth pound of butter, one ounce of sugar, and, lastly, two pounds of flour. Roll out thin, cut into rounds, and bake about 20 minutes in a slow oven.

**Delicious Butterscotch.**—Two cupfuls granulated sugar, half cup water, half cup vinegar, one pound butter. Stir constantly while cooking, and cook until it forms a hard ball in cold water. Pour in greased tins, and when nearly cold mark in squares.

**Chocolate Caramels.**—Boil slowly together one pound of brown sugar, one-half cupful of grated chocolate, one-half of a cupful of cream and one tablespoonful of butter until it is like very thick molasses. Take from the fire, add one teaspoonful of vanilla, and pour into straight sided buttered pans, marking in squares when partly cold.

### Porterhouse Steak.

This is the first low cut of sirloin, and has the very heavy part of the tenderloin, and is the most costly of all steaks, as a general rule, while next in cost comes the fancy portion of the rump. Sirloin steak in years past used to sell for at least 20 cents per pound for any part, and now the prices are as low as 15 cents per pound for the tip, and 35 cents for the porterhouse, if you trade with the fashionable meat market. Recently I saw some of the best cuts of porterhouse sold for 20 cents per pound, but that is only about once in a life time, and was, of course, from light, and not strictly fancy, but really good beef.

### Jersey Apple Dumplings.

Pare and core ripe apples, filling each apple with a tablespoonful sugar. Make a rich pie crust and cut in circles or squares large enough to hold an apple. Set an apple in the center of each, put a bit of butter on top, and fold the pastry around the apple. Put in a granite dripping pan or earthen pudding dish, and cover the dumplings with cold water. Add for each dumpling a tablespoonful sugar, and simmer in water. Bake about two hours, keeping the pan covered the last hour. The sugar will be used

## ACCOMMODATING.

Doctor (to man who has fallen)—You need a strong punch of some kind. Mr. Flynn (an old enemy)—Let me give it to him, doc!

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sold by H. W. Sargent, Inc., 100 N. Broadway, N. Y. Take Hall's Family Pills for constipation.

### Unique Visiting Card.

Mme. Johanna Gardski has brought to this country a fad that has become quite the rage in Germany, where it was introduced by no less a personage than the crown princess herself. It is a new form of visiting card, containing not only an elaborately engraved border, but a silhouette of the person it represents. The custom calls for a design appropriate to the holder's station. Thus, in Mme. Gardski's case the prima donna's head is framed in a border of laurel, while a lyre forms the base of the design. The card is not only unique but exceedingly pretty and effective.

### The Tactful Husband.

"How did you cure your wife of chattering so much?"

"I told her that when her lips were closed they formed a perfect Cupid's bow."—Cleveland Leader.

# Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss.—"Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland—"Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation; but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## Mayer's

### Martha Washington Comfort Shoes

You will never know what genuine foot comfort is until you wear Martha Washington Comfort Shoes. They relieve tired and aching feet and make walking a pleasure. They fit like a glove and feel as easy as a stocking. No bother about buttons or laces—they just slip on and off at will. The elastic at the sides "gives" with every movement of the foot, insuring free action and a perfect fit. Absolute comfort guaranteed.

Beware of imitations. Only the genuine have the name Martha Washington and Mayer Trade Mark stamped on the sole. Refuse substitutes. Your dealer will supply you; if not, write to us.

FREE—If you will send us the name of a dealer who does not handle Martha Washington Comfort Shoes, we will send you free, postpaid, a beautiful picture of Martha Washington, also 10¢.

We also make Honor Roll Shoes, Ladies' Lady Shoes, Young Children's Shoes, and Special Mark School Shoes.

# Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

**Red Banks, Miss.**—"Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

**Hampstead, Maryland.**—"Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## Martha Washington Comfort Shoes

You will never know what genuine foot comfort is until you wear Martha Washington Comfort Shoes. They relieve tired and aching feet and make walking a pleasure. They fit like a glove and feel as easy as a stocking. No bother about buttons or laces—they just slip on and off at will. The elastic at the sides "gives" with every movement of the foot, insuring free action and a perfect fit. Absolute comfort guaranteed.

Beware of imitations. Only the genuine have the name Martha Washington and Mayer Trade Mark stamped on the sole. Refuse substitutes. Your dealer will supply you; if not, write to us.

FREE—If you will send us the name of a dealer who does not handle Martha Washington Comfort Shoes, we will send you free, postpaid, a beautiful picture of Martha Washington, size 11x14.

We also make Honorbill Shoes, Ladies' Lady Shoes, Yerran Cushion Shoes and Special Mark School Shoes.

**F. Mayer Boot & Shoe Co.**  
MILWAUKEE, WISCONSIN

## PUTNAM FADELESS DYES

Putnam's Dyes are the only ones that do not fade. They are made of the finest materials and are guaranteed to last for years. They are sold in all leading drug stores and are very cheap.

# HAS A PERFECT HEAD

CRANIUM OF DETROIT MAN  
EVENLY BALANCED.

A. H. Griffith, Director of Museum of Art, One of World's Rarities, According to Phrenological Expert.

Detroit, Mich.—Joshua J. Artell, a Detroit enthusiast on the subject of character delineations, who has measured the heads of most of the famous men who have visited Detroit during the past few years, has found a perfectly balanced head in Detroit, that of Armond H. Griffith, director of the Detroit Museum of Art. Here are Dr. Artell's observations:

"A perfect human head. It must be evenly balanced in its four regions—the anterior, posterior, superior and inferior.

"In the make-up of a harmonious character we need an equal develop-

A. H. GRIFFITH

ment of all these regions of the head, and out of more than 10,000 measurements taken during a period covering 15 years, Prof. A. H. Griffith is the first man to display exact conformity of brain centers.

It is well known among anthropological experts that Prof. John M. Tyler, professor of biology in Amherst College and son of America's famous Greek scholar, has a head every measurement of which comes as near being perfect as anything human can.

The delineator of character finds in the development of brain lobes the key to personality and power and is able to determine from measurements taken over given centers the exact ability of an individual in any given section. Thus we know of latent talents coming through heredity. And then, again, the effect of environment appears as changing the instructive tendencies, molding and shaping the brain along entirely new lines, widening or narrowing the individuality, or perhaps productive of entirely new conceptions and habits of life. Prof. A. H. Griffith is a man whose location and training have been such to produce the critic and the inequality calculated to demonstrate an ideal.

Delving among the anthropological records of past ages, studying the mysteries of human life and its products brought into play a marvelous number of faculties unknown to the average mind and this continued application and energetic accomplishment in the gathering of facts and their illustrating the development of art has produced a head

measuring 23 1/2 inches around the base, and so he wears a hat measuring 7 1/2 in. size, while the average man is satisfied with a 22-inch head and 6 3/4 hat.

"Over the forehead from ear to ear the searching perceptive group have pushed out 12 1/4 inches, showing that more than ordinary keenness mark his observations and 65 the average man with 11 1/4 inches is quite willing to accept his pictures as pointing out the best that is to be seen and discovered.

"Ear to ear over top of the head gives us 14 1/2 inches, equal to the average, and proving in comparison with the other large measurements how unselfish and devoted to an ideal the life and character are, for no commercial ideas or selfish propensities have enlarged the middle lobe to seek executive power or selfish benefits.

"Prof. Griffith will probably never live to the age of Gladstone, John Ruskin, Longfellow or Bryant, but for him I predict a growing recognition and love, for he is indeed a peerless educator, having climbed from out of the valley up the steep rugged mountainside of investigation, while others are yet sleeping."

## THE BIRD PHOTOGRAPHER.

German Druggist's Successful Experiment with Pigeon Camera.

New York.—The pigeon is the first bird to become a photographer. Dr. Jules Neubronner of Germany, a druggist, has invented a camera of light weight which can be carried by a pigeon and exposures made automatically by a unique form of rubber bulb. So successful has this camera proved that it has a value for military purposes. Among the photographs taken by a pigeon have been views of portions of the park of the imperial palace at Friedrichsbof not open to the Pigeon Photographer Ready for Work.

public. This demonstrated the value of the bird photographer for obtaining military data.

The inventor of the pigeon camera first became interested in carrier pigeons through his father's experiments with them. His father was also a druggist. As early as 1840 he made use of pigeons to deliver medicines, which were carefully attached to the neck of the bird. This method of distribution was of great value in cases in which the medicine was needed urgently. Before attaching a camera to the pigeon the inventor made a number of preliminary experiments in taking pictures from express trains while traveling at high speed in order to determine the speed of shutter required for taking pictures while the camera was in swift motion.

He then attached his invention to a bird. The results were surprisingly satisfactory, it is said, although the pictures were only one square centimeter in size. A new camera, by means of which pictures four square centimeters in area could be taken, was made. The camera was fitted to the breast of the pigeon by means of elastic braces passed across the back underneath the wings. Eight consecutive snapshots were made at regular intervals by the automatic exposing device.

As it has been established that the pigeon is able to carry a burden of more than two and one-half ounces for a distance of 150 kilometers, Dr. Neubronner intends to enlarge the capacity of his camera from eight to thirty films. Pictures can be taken while the bird is traveling at as high a rate of speed as 22 yards a second. At the invitation of the German secretary of war, Dr. Neubronner has exhibited the camera in service before the aerostatic battalion.

## A Messenger's Message.

"Sam," ask the first messenger boy, "got any novels to swap?"  
"I got 'Big Foot Bill's Revenge,'" replied the other.  
"Is it a long story?"  
"No. You can finish it easy in two measures."

## PATIENT SUFFERING.

Many Women Think They Are Doomed to Backache.

It is not right for women to be always ailing with backache, urinary ills, headache and other symptoms of kidney disease. There is a way to end these troubles quickly. Mrs. John H. Wright, 606 East First St., Mitchell, S. D., says: "I suffered ten years with kidney complaint and a doctor told me I would never get more than temporary relief. A dragging pain and lameness in my back almost disabled me. Dizzy spells came and went and the kidney secretions were irregular. Doan's Kidney Pills rid me of these troubles and I feel better than for years past."

Sold by all dealers. 50c a box. Foster-Milburn Co., Buffalo, N. Y.

## DOMESTIC REPARTEE.

Mr. Knagg—Before you met me you said you wouldn't marry the best man in the world.

Mrs. Knagg—And you are the only one who thinks that I broke my word.

## DREADFUL DANDRUFF.

Girl's Head Encrusted—Feared Loss of All Her Hair—Baby Had Milk-Crust—Missionary's Wife Made

## Two Perfect Cures by Cuticura.

"For several years my husband was a missionary in the Southwest. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair. After trying various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. They left the scalp beautifully clean and free from dandruff, and I am happy to say that the Cuticura Remedies were a complete success. I have also used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head. Cuticura is a blessing. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908."

Potter Drug & Chem. Corp., Sole Props., Boston.

## Mabel's Wish.

Small Mabel—Mamma, they sell cream at a creamery, don't they?  
Mamma—Yes, dear.

Small Mabel—If I were to buy some tan at a tannery, mamma, do you think they would throw in a few freckles?

## Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of *W. D. Mitchell* In Use For Over 30 Years. The Kind You Have Always Bought.

And the world would be just as well off if some stage-struck people were hit by automobiles.

ONLY ONE "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 2c.

Many a man thinks he is charitable because he gives advice.

Allen's Foot-Powder, a Powder for itching, sweating feet, it gives instant relief. The original powder for the feet. 25c at all Druggists.

Better one discreet enemy than two indiscreet friends.

## No Feeding There.

Bacon—I suppose it costs you more to keep your chickens in winter than in summer?

Egbert—Why, of course! There's nothing growing over in your yard in winter you know.—Yonkers Statesman.

## Denver Stock Show Rates.

The National Stock Show and Horse Fair at Denver, January 18th-23rd, will be one of the big events of the year. It will be held in the new National Amphitheater, just completed, and will continue every day and evening during the week. The new amphitheater is steam-heated, lighted and has seats for 6,000 people. The evening exhibitions in the large arena will be a most novel and attractive sight. The Colorado & Southern will make a rate of one fare for the round trip, good on all trains on January 17th, 18th, 20th and 21st; final limit, January 25th.

## Laid to the Automobile.

"What's making this scarcity of eggs?" asked the city man.

"Oh, I reckon the automobiles is killin' off all the chickens!" replied the farmer.—Yonkers Statesman.
