CHILD KIDNAPPED AT LAS VEGAS

And Held by the Perpetrators of the Crime for \$12,000 Ransom.

Santa Fe, N. M., April 3.—“The three-year-old grandson of Judge H. L. Waldo was kidnapped at Las Vegas and ransomed for \$12,000.” Such were the sensational tidings that reached Santa Fe this morning. As soon as this news was posted on the bulletin boards, at an early hour, it spread over the city like wild fire and created widespread indignation that would have been ominous for the kidnapper had he been arrested here, for a crime of that kind is regarded as one against the whole community, and against which fathers and mothers are helpless to defend themselves.

The story reads like an episode out of a dime novel. Night before last two masked strangers entered the house of Attorney A. T. Rogers, Jr., at Las Vegas, the son-in-law of Judge H. L. Waldo. Mr. Rogers was away at Rafan attending the session of the district court. The intruders invaded the room of a brother, William Rogers, and compelled him to give up a revolver. They then forced their way into the apartment of Mrs. Rogers and demanded Waldo, her son. Mrs. Rogers was helpless. She pleaded and implored. She offered all her jewels, all her money, all her property, but one of the villains replied:

“To hell with your jewels, I want the kid!”

Despairing, Mrs. Rogers begged for permission to clothe the child warmly and comfortably. This was granted while the robber coolly waited. The mother hugged and kissed her darling in frantic farewell until the criminal tore the boy out of her arms, mounted a horse and was off in the dark, leaving a letter of instructions, in which a demand was made of \$12,000 in cash. Who can describe the agony of that mother? Her despair? Mr. Rogers was reached as soon as possible and he came home yesterday on the flyer. No time was lost in securing the money and setting in motion every agency possible to recover the child. The letter of instructions had directed:

“If you are ready to deliver the money, set a red light in a certain window at ten o'clock in the evening.” It then directed that the money should be taken to a certain spot in a road, eleven miles from Las Vegas that same night. These instructions were followed. Mr. Rogers in his automobile made the trip to the lonely spot and there met his man. He delivered the money, but the child was not there. “The child is in Kearney’s Gap,”

he was informed. Two horses were standing in the road and two men galloped away. Will Rogers speeded to Kearney’s Gap. There the child was found in the road. It was wrapped in a blanket.

“Is that you, Uncle Will?” the youngster chirped. “I am awful hungry. I had nothing to eat all day.” What a family reunion there was last night when the boy was returned to his mother’s arms.

Store Robbed at Hondo.

The News is in receipt of a communication from Hondo stating that the store of J. M. Torrez, in which the postoffice is located, was broken into last Thursday by robbers and \$30 in money and several checks stolen.

Nothing was taken from the postoffice, however, the robbers evidently being cautious about tampering with Uncle Sam’s property. There is no clue, but it is suspected the job was done by local talent, as professionals would not have spared the postoffice. This makes the fifth robbery committed in Lincoln county in the past three months.

Tin Can Irrigation.

“I aint much of a farmer,” said a newly arrived homesteader. “In fact,” he continued, “I aint no farmer at all; but I have a plan which I think will work out all right provided I can get enough tin cans to fill ‘em.” Here he hesitated as if he were reluctant to proceed.

“Got a scheme to beat dry farming all hollow, eh?” queried one of his auditors.

“You have guessed it. I just came to New Mexico to give the thing a trial. I only want good soil, that is, ground that will hold a seed and have a chance to sprout.”

“Plenty of that kind of earth in New Mexico,” he was assured. “I don’t say too much, but it might prove better than most places, only we lack moisture. But the outlook is good for this season. But I won’t interrupt again. Proceed.”

“Well, this thing can be worked without irrigation ditches. A good well and a garden hose—but a bucket would do, though slower. Having plowed the land—say I have put in a crop of vegetables. The seed or shoot in the ground between each planting or nearly so, I would put a tin can with a small hole in the bottom. I would fill the cans with water, or the rains might do that for me. If it did it would save much time.

“Can’t you see,” he said eagerly, “the water retained in the cans will only get out by slow—drop by drop.”

The idea seemed to appeal to his listeners and some said they would try it.

The BAKING POWDER

That Makes the Baking Better

Failures are almost impossible with Calumet.

We know that it will give you better results.

We know that the baking will be purer—more wholesome.

We know that it will be more evenly raised.

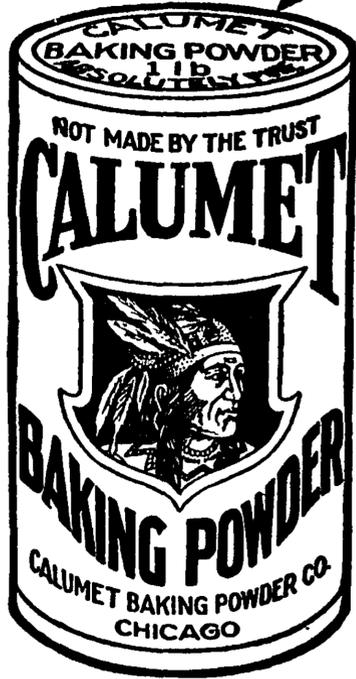

And we know that Calumet is more economical, both in its use and cost.

We know these things because we have put the quality into it—we have seen it tried out in every way. It is used now in millions of homes and its sales are growing daily. It is the modern baking powder.

Have you tried it?

Calumet is highest in quality—moderate in price.

SOME KITCHEN HINTS

WORTH BEING POSTED WHERE THEY CAN BE SEEN.

Some Directions That Are Household Words, and Some That Set Forth Ideas That Are New and Valuable.

Here are a few rules that it would be well to cut out and paste up in your kitchen. They are hints about affairs of that very important region of the home:

1. Wash a saucepan in plenty of hot water; but never wash cake tins or frying pans. Wipe them well with a piece of paper, which is afterward burned, and polish them with a dry cloth.

2. Stand saucepan, fish kettles, etc., in front of the fire for a few minutes after washing them so that they may be thoroughly dried inside. This makes them last longer and helps to keep them in good condition.

3. Pudding cloths, jelly bags and so on should be well washed, scalded and hung up to dry. It is not necessary to iron them, but they should be smoothed and folded before they are replaced in the drawer.

4. Add a little soda to the water in which you wash plates and dishes. The soda loosens the grease on them and gives the china a good shiny surface.

5. Never add soda to the water in which you wash silver. Use a wooden tub, with plenty of hot water and soap, and dry the articles with a soft cloth. If silver is carefully washed and dried, once a week will be found often enough to clean it with powder and a leather. Silver should be kept in a baize lined drawer or basket, for if it is laid on hardwood it is apt to be scratched.

6. Never put the handles of knives into hot water or they will split. If a knife has been used for cutting onions or any other strong-scented vegetable dig the blade of it once or twice into garden mold to remove the smell before it is washed.

7. If a pan is burned or blackened rub the inside of it with a hard crust of bread dipped in salt and afterward wash it with hot soda and water.

8. Be very careful to keep the lids of saucepans clean, for the flavor of one dish may cling to a lid which has not been washed and spoil a second dish which is prepared in the same pan.

9. After washing up wipe out the dish tub and allow it to stand by the fire till it is dry. The dishtub should be scrubbed with boiling water and soap at least once a week.

The Home

To keep butter sweet in warm weather pack the butter in a crock; make brine strong enough to bear up an egg, and pour over it.

To remove indelible ink: Take a small lump of cyanuret of potash, rub it on the ink stain, first dipping it in water, then rinse the cloth in cold water.

When baking cake, should the oven become too hot, set a basin of cold water in it.

For chapped hands: Wash your hands in sugar water; dry them with corn meal, night and morning.

Stops Pain in the Bladder, Kidneys
and Back.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a QUICK RECOVERY, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K-254 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.

PRAIRIE DOGS.

We usually write our own ads., but will let a user of "Rough on Rats" for extermination of Prairie Dogs write this one. Mr. H. B. Mosely, a ranchman, under date of Feb. 4th, 1911, writes as follows from Hill Top, Douglas Co., Colorado: He says: "I have read your advertisement of 'Rough on Rats'; it not only reads good but it is good. I have been troubled twenty years with Prairie Dogs; have used many so-called exterminators to no purpose. Not long since I used a poisoned wheat, prepared by an expert who had made it a study for years, but it did no good for me; they ate it, but chirped for more. The 'Dogs' were eating up a field of corn for me; I was at my wit's end what to do; I could only get the small 15c. size here of 'Rough on Rats.' I mixed it with corn and applied; many of them chirped no more; I then mixed it with corn meal and placed it on days not windy, near their holes. 'Rough on Rats' is by far the best thing I have tried, but I fancy I am using it unnecessarily strong, or you may suggest a better way than I know to mix or use it. I wish our druggists would keep the largest (75c.) size; could you send me the 75c. size? It clears them out in great shape; you should make it better known to Ranchmen."

The above are facts as stated by Mr. Mosely. "Rough on Rats" is equally Rough on Prairie Dogs, Squirrels, Chipmunks, Gophers, Rabbits, Mice, Rats—varmints of every and all kinds, Roaches, Flies, Ants, and Bed Bugs. Read the directions how to use it safely in outbuildings and for the different kinds of pests. For Prairie Dogs I would advise soaking coarse cracked corn in a mixture of, say one 25c. box of "Rough on Rats" to five gallons of water; let it stand a week, shaking frequently; you can use the same mixture over and over again for cracked corn; or mix "Rough on Rats" thoroughly and instantly, say, one part to twenty of hot corn meal mush; when it cools, divide in pieces and place about their holes. 15c., 25c. and 75c.; wooden boxes only. MANY WAYS OF COOKING HAM

More Tender if Baked Than if Fried—
Excellent Idea for a Lunch-
con Dish.

Sliced ham is more tender if it is baked than if fried. Cut a slice three-quarters of an inch thick, put it into a small enamel pan, turn three-quarters of a cupful of milk over it, cover and bake for an hour and a quarter, basting every 15 minutes with milk.

For luncheon grind the ends of a boiled ham and mix it with a button onion that has been chopped fine and a little minced parsley. Put the mixture into a pan with a little butter and moisten with hot water or cream. Simmer four or five minutes and then heap on slices of toast.

For curly bacon cut it very thin and half-cook it in boiling water, then curl it, fasten in shape with a toothpick and broil it over the fire.

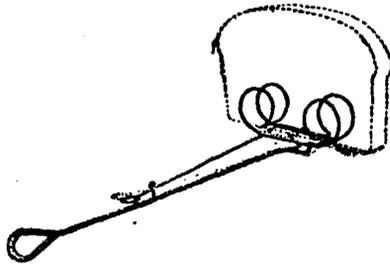

A little grated American cheese mixed with minced ham used in sandwiches is delicious if the sandwich is fried brown and served very hot.

Cold ham is tasty if it is shredded and cooked in currant jelly sauce. Put a cupful of the shredded ham into a saucepan with a level tablespoonful of butter and half a cupful of currant jelly. As soon as the jelly and butter begin to bubble add four tablespoonfuls of sherry and a seasoning of paprika. Simmer the mixture about five or six minutes and serve with toast.

IMPROVED FORM OF TOASTER

Holds Bread in a Vertical Position
While Being Prepared for
the Table.

The toaster which is illustrated in the accompanying sketch is arranged for use in toasting slices of bread in a vertical position. The holder is swiveled on the handle of the toaster,

and a rod is attached to one end of it, with which the holder may be turned on its pivot to bring the opposite side of the slice to the fire. The rod passes through an eye formed on the handle, and is provided with a notch, which engages the eye when the holder is at right angles to the handle.—Scientific American.

When Buying Vegetables.

In buying vegetables avoid carrots, beets and similar roots that have their green tops removed.

As withered or discolored tops would betray vegetable age, the dealer carefully cuts or trims them off. Roots with the earth clinging to them are usually fresh. Roots that are too free from earth and very clean looking are usually stale and old. They look clean because they have been freshened by soaking in cold water. Dealers have not time enough to clean fresh vegetables simply for the joy of doing it. When they do so you can be sure that it is to their advantage.

Spice Cake.

One-half cup chopped figs, one cup seeded raisins. Pour over these one cup boiling water in which one level teaspoon soda has been dissolved. Stir and let cool. Once cup granulated sugar, one-half cup butter, one and one-half cups flour, one level teaspoon baking powder, yolks four eggs, whites two eggs, one teaspoon cinnamon, one-quarter teaspoon allspice, one-quarter teaspoonful cloves, one and one-half teaspoonful nutmeg, one-half cup chopped nut meats. Mix together, except flour and fruit, which should be added last. Bake as solid or layer cake.

A Frequent Speaker.

A member for a northern constituency, who was one day reproached by a disappointed supporter for never opening his mouth in the house, repudiated the accusation with indignation. Not a day passed, he declared, but that he said something; and it was reported in the papers, too. In confirmation of his statement he produced the report of the last debate, and pointed triumphantly to the "Hear, hears," with which certain speeches were punctuated. "That's me," he said.—Tit-Bits.

Violation of Rules.

"They have expelled my favorite waiter from his brotherhood," said one hotel patron.

"Yes," replied the other, "he accidentally smiled and said 'Thank you, a dollar's worth for a 50-cent tip.'"

CHILDREN AFFECTED By Mother's Food and Drink.

Many babies have been launched into life with constitutions weakened by disease taken in with their mothers' milk. Mothers cannot be too careful as to the food they use while nursing their babes.

The experience of a Kansas City mother is a case in point:

"I was a great coffee drinker from a child, and thought I could not do without it. But I found at last it was doing me harm. For years I had been troubled with dizziness, spots before my eyes and pain in my heart, to which was added, two years later, a chronic sour stomach.

"The baby was born 7 months ago, and almost from the beginning, it, too, suffered from sour stomach. She was taking it from me!

"In my distress I consulted a friend of more experience and she told me to quit coffee, that coffee did not make good milk. I have since ascertained that it really dries up the milk.

"So, I quit coffee and tried tea and at last cocoa. But they did not agree with me. Then I turned to Postum with the happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of my milk.

"My husband then quit coffee and used Postum and quickly got well of the dyspepsia with which he had been troubled. I no longer suffer from the dizziness, blind spells, pain in my heart or sour stomach.

"Now we all drink Postum from my husband to my seven months' old baby. It has proved to be the best hot drink we have ever used. We would not give up Postum for the best coffee we ever drank." Name given by Postum Co., Battle Creek, Mich.

A Fortunate Error.

August Belmont, at a dinner in New York, laughed at the tales of a huge bribery fund to defeat the race track bill.

"There is about as much truth in all these tales," he said, "as there is in the virtues of the average hair grower—and you know what they amount to."

THE SIXTY-SECOND CONGRESS.

The sixty-second congress met in extra session Tuesday. It is a matter of conjecture what will be done at this session or when it will adjourn. The democrats took possession of the house and Champ Clark of Missouri was put in the speaker's chair. In his speech accepting the honor, he warned the democratic members that the eyes of the country were upon them; that the party was on trial and that it had an opportunity for the first time in sixteen years to prove its worthiness for a still higher expression of confidence.

The democrats have formulated an ambitious program, which includes the revision of the Payne-Aldrich tariff laws.

Republican leaders of the senate have announced there shall be no tariff legislation, hence a legislative deadlock is predicted.

One of the most important things the democratic house will likely do is to order an investigation of the departments and branches of the government service. The democrats claim that there has been no such investigation for twenty years and that it will be a great saving to the people.

Representative Clark in his speech accepting the speakership outlined the measures through which the democratic party hopes to enjoy the faith of the people.

Intelligent revision of the tariff, election of United States Senators by popular vote, changes in the house rules to permit proper consideration of public measures, economy in handling the purse strings of the country, the publication of campaign contributions and the early admission of New Mexico and Arizona to statehood were some of the things which Speaker Clark emphasized in the democratic program as measures which would be undertaken by the majority party in the house.

The political complexion of the sixty-second congress is as follows: Senate, republicans 50; democrats 41; vacancy 1. The House: Democrats 228; republicans 150; Socialists 1; vacancies 2.

Governor Harmon, of Ohio, and William Jennings Bryan met on the floor of the house just before the session opened amid a deafening demonstration. Both were in Washington on business.

The outlook for remedial legislation and democratic triumph was never brighter,

Up to this writing no trace has been discovered of the abductors of Attorney Rogers' child at Las Vegas, an account of which is published on the first page of the News. Several posses have been in the field searching every nook and corner, but have found no clue to the culprits. Pinkerton detectives in and around Las

Vegas, assisted by local officers, are making every effort possible to unravel what now seems to be a mystery in which local parties are implicated. It is thought that the kidnappers are not in hiding, but are somewhere in the country south of Las Vegas. It has been intimated by parties familiar with the circumstances that there is likelihood of the ransom money being returned and the matter hushed up. Later developments, however, will unravel the mystery, and it is hoped the criminals will be apprehended and given the limit of the law.

Statehood at hand, eastern capital coming to seek investment, abundant rains, a successful season assured to stockmen, phenomenally high prices for cattle, the mining industry flourishing—these are some of the things that promise to make the next twelve months a veritable year of jubilee for New Mexico. Come to Carrizozo.

The Santa Fe has just completed at the Santa Fe shops in Topeka, Kans., the largest engine in the world. It is a Mallet articulated compound and weighs 750,000 pounds, equipped with oil and coal and is 121 feet long and has a unique feature of having the tender ahead of the engine. This engine will be used on some of the mountain divisions of Arizona.

School Picnic.

Last Friday and Saturday the Carrizozo public school went to the country—a picnicking bent. Friday afternoon the primary grades, with their teachers, went to the cottonwood grove at the Bar W ranch and had a most delightful outing. The little fellows shined up the cottonwoods like squirrels, rolled in the sand like children and enjoyed the half holiday to the utmost. The following day the upper rooms, accompanied by the teachers, visited Water canyon, about twelve miles distant, took lunch, roamed hill and dale, and returned home just as the sun was sinking behind the western horizon. Both pupils and teachers enjoyed the outing and nothing happened to mar the pleasure of the occasion.

Boy Scouts.

A Boy Scout organization has been formed for all boys between the ages of ten and eighteen.

The object of this movement is not to make soldiers, but citizens. Self-reliance, manhood and good citizenship are the cardinal virtues of the order. Endurance, self-control and a spirit of helpfulness are scout objectives, supplementing the various educational agencies already existing. Among the interesting forms of work may be mentioned the following: Camping, Tracking, Signaling, Study of Wild Animals and Birds, Saving of Life, Study of Government and National History. The social side of the boy's life is developed by frequent meetings at which his girl friends may be present. Parents are earnestly requested to cooperate with the directors of the movement.

Regular weekly meetings will be held on Tuesday night at the school house.

For further particulars see any of the following gentlemen: Rev. B. W. Allen, Prof. Schreck or J. R. Humphry.

Onst Divorce Colony.

Reno, Nev., April 5.—Reno's divorce colony was the object of Theodore Roosevelt's fire during his principal address of the day, delivered to a crowd of several thousand grouped around the court house steps. "It is one colony of which you want to rid yourselves," he declared. "I don't care what you do with those of your own state who seek divorces, but keep citizens of other states who want divorces out of Nevada. Don't allow yourselves to be deceived by the argument that such a colony brings money to your city. You can't afford to have that kind of money brought here. Keep that colony out."

John J. McCourt, the Armour salesman, was up from El Paso Monday and made several of our county towns by auto.

Ira Greer met with a painful accident at the 7 X ranch this week. He was thrown from a horse, and to make the job a good one, the horse also kicked him.

Attorney L. R. Wade has written a friend that he will be in Carrizozo in a few days. He has been traveling for a publishing house since leaving here last fall.

Harry Keables and wife passed through Monday from Capitan to El Paso. Mr. Keables has been quite ill for some time, and goes to a lower altitude with the hope of relief.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by all druggists.

We understand the contract for the building of the Methodist church has been awarded to J. B. Fennis, of Polly. He was one of the contractors on the school building, recently completed.

The Lincoln County summer institute will begin at Carrizozo June 19th and close July 1st. Mrs. Geo. Dixon, of El Rito, has been selected as conductor and Miss Maud Hancock, of Santa Fe, as instructor. An official statement by the county superintendent will appear soon.

Elected Mayor for Fifth Time.

Chicago, April 5.—Carter H. Harrison, mayor of Chicago from 1897 until 1904, and son of Carter H. Harrison, Sr., who occupied the mayors' office from 1879 to 1887, and was assassinated during the world's fair year term, was elected for the fifth time. He defeated Charles E. Merriam, his republican opponent by 17,082 votes.

Lincoln Locals.

Twelve of the thirteen prisoners now confined in the county jail have been put to work fixing up the main street in Lincoln, which now presents a very attractive appearance.

J. E. Koonce has decided to postpone the expected operation for appendicitis as it did not appear an absolute necessity at this time. He will resume his position with the Colorado Nursery Co., in the very near future.

Clifford E. Hulbert and family have left for White Oaks to make their future home. Mr. Hulbert has accepted a lucrative position with a mining company.

Mr. and Mrs. J. B. Julien have quit the hotel business and have moved into the house opposite the postoffice, belonging to Dr. T. W. Watson.

Miss Iona Stevens, who has been the guest of Miss Cora Cole at San Patricio, returned home last Friday.

Dr. and Mrs. Winston, of Alamogordo, who have been visiting Dr. and Mrs. Laws for several weeks, returned to their home last Monday.

Sheriff Stevens left last Monday for Albuquerque to secure the custody of several prisoners accused of larceny of horses near Arabela, who are held at the Bernalillo jail pending his arrival.

Jess Roberts, of Angus, visited relatives here Sunday.

Get your Easter bonnets ready for Sunday, April 16th.

A. M. Cox, of Castilla, was a visitor in Carrizozo Monday.

Jim Neighbors was here from Three Rivers Tuesday on business.

J. L. Labrier and C. Phipps, of Trinidad, Colo., were here several days this week buying stock.

Mrs. W. M. Riley and Mrs. Hattie Pons went by auto to Capitan Tuesday to visit relatives and friends.

A. A. Caldwell, L. B. Chiles and C. M. Means, horse buyers from Allen, Okla., were in Carrizozo and vicinity several days this week.

J. E. Koonce, of Nogal, came in from Lincoln Monday where he spent about five weeks at the Ranch Sanitarium and was operated upon for appendicitis. He expects to remain here all week.

Wm. Bourne and wife, Geo. Dillard and family, Jas. Burrell and son Charley, departed Monday for Columbia, Arizona. They were met at Tularosa by Chas. Curry and Young Barrett, who accompanied them to their new home. The former are interested with other local parties in a gold prospect near Columbia and will immediately install an ore mill and start development work. The prospect is said to be rich.

Leo Oswald and Saturnino Baca went to Lincoln Monday returning Wednesday night.

John H. Canning returned Tuesday from El Paso, where he had gone the previous Saturday.

H. A. Purdy came up from Tularosa Sunday night, and went over to Capitan the following day.

W. J. Doering, A. H. Harvey, Joe Lopez and Clay Van Schoyck went to Lincoln Tuesday. They returned Wednesday afternoon.

Mrs. R. E. Stidham left for El Paso Sunday, where she will have an operation performed. Mr. Stidham accompanied her, but returned home early in the week.

Messrs. H. S. and Ed. Comrey came in from Ancho Sunday, the former for medical treatment. They will remain all week. H. S. is improving rapidly from a local ailment and expects to be around as usual in a few days.

J. T. Cramer, representing the Missouri Valley Bridge & Iron Co., of Leavenworth, Kansas, left last night for his home. He secured for his company the contract from the board of county commissioners to build a bridge across the Bonito, below Lincoln. The bridge has a 40-foot span, and aside from the flooring and approaches is to be an all steel affair. Other bidders were before the board and competition was lively, but Mr. Cramer, for his company, walked off with the contract, as the lowest bidder.

Court in School House.

District court has been called to convene at Carrizozo Monday, May 1. Until the meeting of the commissioners at Lincoln this week no definite building had been designated, but when the board was informed that Judge Wright desired it, in order to conform to the legal requirements, to designate the building, an official declaration was made by the board designating the school house as the building in which the May term should be held. The school will close before court convenes and the court can thus have the use of the large hall for a court room; another room in the same building for a grand jury room, still another for the petit jury room, and all the rooms for the various officials that will be required. Comfortable quarters are, therefore, assured.

R. B. Thomas returned home from Santa Fe Monday.

Frank W. Gurney returned Monday from his weekly visit to El Paso.

At the school election here Monday the following were elected members of the board for the ensuing term: S. W. Perry, Clarence Spence and P. G. Peters.

Miss Black, trained nurse from El Paso, arrived Sunday. She is at the Paden hospital in charge of George Murray, who has been sick for several weeks, and reports her patient improving.

Approval of Bond Delayed.

Last Saturday was the date fixed by the court for passing upon the \$15,000 indemnity bond in the county seat case. A committee of Carrizozo citizens visited Alamogordo in order to enter a protest against the approval of the bond, should the bond, in their opinion, fail to meet the requirements. The protest was made, the protestants setting up a number of reasons why the bond should not be approved. Judge Wright withheld his approval until tomorrow, April 8th, at which time the plaintiffs, Lincoln, have been cited to show cause why the bond should be approved.

In the meantime both sides have been busy securing information, one to refute the allegations in the protest and the other to substantiate the protest. The matter will, therefore, be presented to the court tomorrow, and the final decision of Judge Wright is expected. No one can forecast the result, and it would be the height of impropriety to do so, but this much can be said as a matter of fact: Should the bond be approved the injunction will remain in force; should it be rejected the injunction will be dissolved.

Judge Hewitt returned Saturday evening from Alamogordo, where he had gone to represent the interests of Carrizozo in the county seat matters. He went out to White Oaks the following morning.

CARRIZO NEWS

CARRIZO - NEW MEXICO

MACHINERY WANTED.

It is perhaps an example of the irony of fate that Russia, our most formidable competitor in some branches of agriculture, should be obliged to depend, to a considerable degree, on American machinery for her success in the competition, says the Manchester Union. It is a fact no less interesting, though not unnatural, that American manufacturers of agricultural machinery are getting themselves in readiness to send to Russia all the machinery she is willing to pay for, provided she will make the trade an object to them by way of duty concessions. The Russian National Organization of Traders in Agricultural Machinery and Implements has laid before its government resolutions advocating the continuance of agricultural machinery on the free list, and the removal of the present duty on locomobiles imported with threshing machines and steam plows. In these resolutions American manufacturers of agricultural machinery are naturally interested. They know that the Russian government earnestly desires the development of the southern part of its country into a corn-growing area, the fertility of the soil making this especially desirable; and they are quite reasonable in hoping and expecting that this consideration will be a factor in the Russian acceptance of the proposition to admit free of duty all utensils and machinery required in the cultivation of the product.

There are two sides to every question. Dean Bailey of the College of Agriculture at Cornell, presented the other side of a much-discussed matter when he talked to the fruit growers of the state at Sodus on the subject of abandoned farms. It is often declared that there is great loss of potential wealth in the abandoned farms. But Prof. Bailey says that much sentiment has been wasted on so-called abandoned farms; that farming has been suspended on some lands for good economic reasons, and that farming will not begin again upon them until conditions demand it. All this is true, of course. Buying an abandoned farm does not always open the road to prosperity for the buyer. The new owner may find conditions such that he cannot get along any better than the old owner who left the place. There is gold in sea water, but no profitable way has been found to extract it. There is land lying unused in abandoned farms—though the state agricultural department showed not long ago that there are fewer farms of this kind than the average person supposed.

A woman in St. Louis, according to revelations in a divorce suit, was going to take the most unique revenge on her husband on record. She intended to take a lot of brunette hair found in his valise and bake it into a pie for his delectation. Only the imagination of a woman scorned could have conceived such a retributory scheme.

Maine reports that 12,299 hunters killed 5,551 deer in the state during the hunting season just closed. Next year there will probably be enough of them to surround the game and choke it to death.

A TRIAL WILL CONVINC ANY-ONE--THE GREAT KIDNEY REM-EDY NEVER DISAPPOINTS

A few years ago I was troubled with a complication of kidney and stomach ailments, and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial and purchased a one dollar bottle of Mr. Alexander, the druggist. From the beginning I could notice a change for the better and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since.

Had I begun using Dr. Kilmer's Swamp-Root sooner I would have been a few hundred dollars to the good and saved myself a lot of suffering.

You may use my testimonial any time you wish.

Yours very truly,
CHARLES E. HARRIS,

Prove What Swamp-Root Will Do For You

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention this paper. For sale at all drug stores. Price fifty-cents and one-dollar.

Rattlesnakes Appear Early.

The unusually warm weather throughout central Wyoming the last few weeks has caused large numbers of rattlesnakes to leave their dens and many have been killed by ranchmen and others. Not in the recollection of the oldest inhabitants have rattlesnakes appeared so early in the year.—Casper correspondence Denver Republican.

COULD NOT STAND SUFFERING FROM SKIN ERUPTION

"I have been using Cuticura Soap and Cuticura Ointment for the past three months and I am glad to say that they cured me of a most annoying skin eruption. It began by my noticing red blotches appearing on my face and scalp. Although they were rather disfiguring, I did not think anything of them until they began to get scaly and dry and to itch and burn until I could not stand the suffering. Then I began to use a different soap, thinking that my old kind might be hurting me, but that didn't seem to do any good. I went to two different doctors but neither seemed to relieve me any. I lost many nights' sleep in continual scratching, sometimes scratching till I drew the blood on my face and head. Then I started in to use the Cuticura Remedies and in two months I was entirely relieved of that awful pest. I am so delighted over my cure by Cuticura Remedies that I shall be glad to tell anybody about it." (Signed) G. M. Macfarland, 221 West 115th St., New York City, Oct. 5, 1910.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. Send to Potter Drug & Chem. Corp., sole props., 135 Columbus Ave., Boston, for free book on skin and scalp diseases and their treatment.

A Religious Innovation.

A certain well-brought-up little girl yawned at the breakfast table last Sunday morning and ventured a polite proposition to her mother.

"I really don't feel at all like going to church this morning," she remarked. "Can't we just send cards?"

USE FOR OLD SHADES

NEED NOT BE THROWN AWAY WHEN WORN OUT.

Many Practical Ways in Which They May Be Utilized—Excellent for Cutting Out Dress Patterns.

Housewives are telling us that the roller shades of today are fragile and short lived compared to the substantial Holland shades we all bought a decade ago. The spring breaks too easily—a single snap or jar when set too tensely will rupture it—render the whole shade useless unless you care to bother with measurements and supply a new roller to suit. When the body of the curtain itself is a little worn and punctured it doesn't seem to pay. The shade is a discard and the wastefulness apparent.

But there are several practical uses for window shades that are past ordinary use—the cheap paper ones as well as those of standard material.

The latter is excellent for cutting out dress patterns that you wish to preserve against the ravages of time and constant handling.

Besides being strong and easily rolled, it yields readily to the pressure of hot flatirons, thus having the advantage over the flimsy delicate tissue paper in which most patterns are offered for sale. When smoothed or ironed out on dress goods for cutting, it "stays put" and requires less pinning and readjusting. Some dress patterns, entirely out of the province of fads, are good for years when cut out of something more durable than newspapers or the like. Foundation sleeve patterns, glove fitting waist, and princess patterns would easily fall into this class.

There are few abrupt changes in the styles of aprons, underwear, infants' clothes, and the like, and here again one pattern cut out of something stout and durable may save you much shopping.

Holland window shade material also makes excellent stencils for practical use as well as for preserving the pattern. And a little of this is generally on hand when the regular gelatin paper is not available.

One housewife has used old window shades in a more ingenious way. Being too narrow for any of the windows in her new home, she had one of them fastened under the pantry shelf, where it could be drawn down waste of time than turning the leaves cooking recipe came to hand that particularly appealed to her she would draw down this shade and paste it under the proper heading. It is far handier than a cookbook, for she can run her eye over the whole rapidly and spot the recipe required with less commodiously. Whenever a good new of a big cookbook entails.

Intact parts of this window shade material afford a good foundation for scrapbooks or more particularly books in which to keep your embroidery and crochet patterns. Cut the leaves of average book size, and punch several holes down the edge large enough for fish cord or baby ribbon to pass through. Lace back and forth across the back edge through opposite holes to get a fairly secure binding. It is better to sew your samples or patterns to the leaves than to keep them lying loose. Then you will always know just where to find them instead of going through the whole collection.

Crust to Remove Grease.

It may be news to some women to hear that a piece of bread burnt to a crust will remove grease on cloth if rubbed upon the spot, following the nap of the cloth.

It is also said that if the head of a match, after being lighted and then blown out, is applied to a stain from paint the spot will disappear.

To clean mud spots from velvet rub with a solution of equal parts of spirits of oxgall and water.

WHAT SHE THOUGHT.

Mrs. Gumm—And what d'yer think of that there Jones as is moved in next dore but one to you?

Mrs. Jawkins—Why, I don't like talking about my neighbors; but as to Mr. Jones, sometimes I think, and then again I don't know, but, after all, I rather guess he'll turn out to be a good deal such a sort of man as I take him to be.

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since I do all my own work, washing and everything, and never have the backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. ORRIN WOODALL, Morton's Gap, Kentucky.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

CLEANS KNIVES WITH EASE

Device of California Man One of the Best Ever Placed on the Market.

There are all varieties of knife-cleaners from the single stone on which the housewife rubs her cutlery to the elaborate device of multiple wheels used in the big hotels and restaurants. But one of the simplest and most effective of all would seem to

be that devised by a California man and shown here. This contrivance consists of a couple of cleaning stones held in juxtaposition in a resilient frame. The frame consists of two inverted V-shaped wires with springs connecting the three corners of each. This has the effect of keeping the stones closer together all the time, but allowing enough leeway for the admission of a knife blade or the tines of a fork, which can be cleaned by being rubbed up and down a few times. The springs will insure a sufficiently strong pressure to give good frictional action at all times.

VALUABLE IN THE HOUSEHOLD

Innumerable Uses to Which Sawdust May Be Put to Good Advantage.

Sawdust may be put to serve a number of purposes for the housewife. It is good for removing sediment in glass and earthenware. A handful thrown on a dying fire will help to revive it. Well dried and heated and sprinkled over grease spots in carpets, it is useful in removing these objectionable marks. It should be well rubbed in, left for a few hours, then treated again if necessary. Heat some sawdust on a piece of paper in the oven, and it is an excellent remedy for mildew and damp spots on metal or other polished goods. Rub some dry sawdust on articles that have been polished, and the polish will last longer. Slightly moisten sawdust sprinkled on outhouse floors, verandas or larder, etc., and brushed off with a hard broom will cleanse the floor without much trouble.

Useful Hints.

Milk will clean piano keys satisfactorily. It will take out ink spots of long standing. Used in starch it will give a fine gloss. It will remove discoloration from gilt mirrors and picture frames. Used with bluing for lace curtains it will make them look like new.

To cloud quickly the windows in a bath room, etc., apply with a brush a strong solution of epsom salts mixed in vinegar. This gives a beautiful frosted appearance and becomes permanent if varnished over with white varnish.

Mahogany or any other colored wood may be darkened by polishing with cold drawn linseed oil.

Splendid Cookies.

One sifter of flour, one teaspoonful soda, and pinch of salt; sift and then take lard and mix in, as for pie dough. Two cupfuls of brown sugar; flavor with maple and vanilla; roll out and sprinkle granulated sugar thickly on top; cut out with a large cookie cutter and press a raisin or nut in the center of each; just before putting in the oven take the tip of the finger and wet the top, and the cookies will be crinkly and crisp. If sweet milk or water is used two teaspoonfuls of baking powder in place of soda.

Denominational Puzzle.

The wife of a prominent Unitarian clergyman is still wondering what her cook meant. She was a new cook, and there was every reason to believe she was a good cook. At any rate, she had unquestionably served in good families, and she brought the best of references. Nevertheless, her new mistress did not hesitate to give her a few instructions.

"One thing I want you to remember, Nellie," said she, "is the way we like our oatmeal. Don't leave it watery. But we don't like it hard and dry, either."

"Trust me, mum," responded the cook, confidently. "I'll get it right, never fear. I've worked in Unitarian families before."

A WOMAN'S KIDNEYS.

Are Often Responsible for Untold Suffering.

Mrs. W. H. Kaiser, Whitney, Nebr., says: "Many times during the night I was obliged to arise because of too frequent passages of kidney secretions. Again they became scanty, were very thick and attended by burning and scalding. Soon a dropsical condition became manifest and I began to worry. My feet and ankles were bloated and I was in a bad way when I began with Doan's Kidney Pills. I used four boxes and was entirely cured."

Is Needed Now, and the Best Is Hood's Sarsaparilla

Which purifies, enriches and revitalizes the blood as no other does. 40,366 testimonials of cures, in two years. Get it in usual liquid form or tablets called Sarsatabs.

Impure Blood is common in the spring, because of the unhealthful modes of living during the winter, and it is the cause of the loss of appetite and that tired feeling as well as the sores and eruptions that occur at this time.

Be sure to take Hood's this spring.

Roots, Barks and Herbs—Hood's Sarsaparilla so combines the great curative principles of roots, barks and herbs as to raise them to their highest efficiency for the cure of all spring humors, all blood diseases, and run-down conditions.

There is no substitute for Hood's.

Housework Drudgery

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The real need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription.

It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weaknesses, heals inflammation and ulceration, and cures those weaknesses so peculiar to women. It tranquilizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let every one know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any unscrupulous druggist persuade you that his substitute of unknown composition is "just as good" in order that he may make a bigger profit. Just smile and shake your head! Dr. Pierce's Pleasant Pellets cures liver ills.

NOTICE OF CONTEST.

Department of the Interior.
United Land Office,
Roswell, N. M., March 8, 1911.

To William B. Nix, of Carrizozo, N. M., Contestee.

You are hereby notified that Paul R. McCourt, who gives Carrizozo, New Mexico, as his post office address, did on March 1, 1911, file in this office his duly corroborated application to contest and secure the cancellation of your homestead, Entry No., Serial No. 011382, made December 12, 1906, for S $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 24, and N $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 25, Township 7 S, Range 10 E, N.M.P. Meridian, and as grounds for his contest he alleges that William B. Nix has abandoned said homestead; that he has not resided or lived thereon for more than one year last passed; that said William B. Nix left said land about August 1909, and left the Territory of New Mexico, and has not lived or resided on said homestead since that time.

You are, therefore, further notified that the said allegations will be taken by this office as having been confessed by you, and your said entry will be cancelled thereunder without further right to be heard therein, either before this office or on appeal, if you fail to file in this office within Twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically meeting and responding to these allegations of contest, or if you fail within that time to file in this office due proof that you have served a copy of your answer on the said contestant either in person or by registered mail. If this service is made by the delivery of a copy of your answer to the contestant in person, proof such service must be either the said contestant's written acknowledgment of his receipt of the copy, showing the date of its receipt, or the affidavit of the person by whom the delivery was made stating when and where the copy was delivered; if made by registered mail, proof of such service must consist of the affidavit of the person by whom the copy was mailed stating when and the postoffice to which it was mailed, and this affidavit must be accompanied by the postmaster's receipt for the letter.

You should state in your answer the name of the postoffice to which you desire future notices to be sent to you.

A belated March simoon struck Carrizozo uncerimoniously last Sunday and great gobs o' sand sifted into the eyes of the just as well as the unjust. Monday the weather was fairly pleasant, but big banks of clouds during the day indicated something doing with the elements, and at night a nice precipitation of rain was thankfully received. Tuesday morning, however, another sand storm broke loose and kept up its relentless howling and sifting all day. While many of us are prone to abuse Mother Nature when the weather is not to our liking, it is well to remember that the ideal garden spot has never been located on this old earth, and every portion of it has some drawback. And what's the use of kicking, anyway?
