

# Carrizozo News.

A Journal Devoted to the Interests of Lincoln County.

VOLUME 12.

CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, JUNE 30, 1911.

NUMBER 21

## Writs for Officers and Records.

The world is familiar with the attempt made last week to get the records and officials removed from Lincoln to Carrizozo. The idea that gained some credence that an order for the removal of the records was issued was exploded last week, when it was stated that the arrangement to move was merely an agreement between the board and the county officials at Lincoln, acting on an opinion from the district attorney. As was also stated last week, when the people of Lincoln prevented the removal of the records there was no authority, at that time, to compel their removal.

However, such failure did not disconcert those favoring removal and writs have been prepared and citations served that have all the authority of the court behind them, and if, at a hearing to be held July 6th, the complaints are sustained, no more trouble is anticipated in the removal of the records.

Two complaints have been filed -- one to have the records removed to Carrizozo, the other to remove certain county officials from office. The writs were granted Tuesday and were served by Deputy Sheriff Barnett Wednesday. The hearing is set for the 6th of July, before Judge Wright at Alamogordo. The following letter from District Attorney Llewellyn may throw more light on the disputed question.

Las Cruces, N. M.,  
June 24, 1911.

Carrizozo News, Carrizozo, N. M. - It may be of interest to the people of Lincoln county to know just how the question of the removal of the county officers from the town of Lincoln to the town of Carrizozo came to the front at this time, and I therefore have to say that at the May term of the district court held at Carrizozo, I found on the civil docket a cause entitled T. W. Watson versus the board of county commissioners of Lincoln county. In this suit the plaintiff sued the board aforesaid for the sum of ten dollars for expenses incurred in coming from Lincoln to Carrizozo to attend a meeting of the said board. The law imposes upon the district attorney among other duties that that of defending suits brought against the board and after an examination of the pleadings in the cause I answered that the board had no authority in law to pay the account in question, that the place for the plaintiff as county treasurer was at the county seat of Lincoln county (Carrizozo) and the court sustained my contention. Thus, aside from any opinion I may have given the treasurer and probate clerk on the question, we have the decision of the court as to where the coun-

ty seat of Lincoln is situated and it is the duty of the officials to be governed accordingly.

Very truly yours,  
W. H. H. Llewellyn,  
District Attorney 8th District  
of New Mexico.

## Teachers Pass Resolutions.

The Lincoln county teachers assembled, realizing the excellent work accomplished during the summer normal session closing June 29th, do submit the following resolutions:

Resolved, That the gratitude of the teachers is hereby extended to our conductor, Mrs. Geo. Dixon of El Rito, and to Miss Maude Hancock, instructor, of Santa Fe.

Resolved, That our appreciation be extended to county superintendent, Jno. A. Haley, for his careful attention to arrangements for the convenience of the teachers; furthermore be it

Resolved, That a vote of thanks be given to R. D. Asplund, editor of the New Mexico Journal of Education; to Dr. W. E. Garrison, president of the Agricultural college, and to Rev. B. W. Allen, of Carrizozo, for their interesting and instructive addresses.

SAM KELSEY,  
MAMIE E. HUMPHREY,  
JANE BROCKWAY,  
Committee.

## Married in El Paso.

Jesse E. Mundell and Miss Zora May Lain were married in El Paso last week. Mr. Mundell was a resident of this county for a number of years, making Captain his home. He attended the A. & M. College at Las Cruces, from which institution he graduated four years ago and has since that time been engaged as an instructor in the college. We have not the pleasure of an acquaintance with the bride, but nevertheless, we extend hearty congratulations to the couple and wish them happiness and long life.

## Play Ball.

An El Paso ball team, composed of the E. P. & S. W. shop boys, will come up Saturday night and cross bats with our boys on the local diamond Sunday. This game was not of our seeking, but inasmuch as the El Paso's think us worthy of their steel we have no desire to dodge the issue and will give them the best we have.

## Union Sunday School Picnic at Alto.

The Nogal and Alto Sunday schools will have a union picnic at Alto on July Fourth, and a fine time is anticipated. Rev. Allen, of Carrizozo, will deliver an address. Everybody cordially invited to attend.

Committee.

Hats, Stag Neckwear

and remember we carry a large line of

Wash Ties, Stocks, Soft Collars

and all other hot weather necessities.

"The House of Good Taste"

# ZIEGLER BROS.

**ROUNDABOUT WAY.**

Cook—My dog took first prize at the cat show.  
Hook—How was that?  
Cook—He took the cat.

**Who She Was.**

"Well," laughed Squiggles, "some men never know when they are snubbed! That lady you just spoke to was about as distant as they make 'em in her greeting."

"Well, why shouldn't she be?" retorted Jabbers. "She's a distant relative of mine."

"By marriage?"

"No—by divorce. She got rid of me at Sioux Falls back in 1898."—Harper's Weekly.

**Politician and Preacher.**

A politician in a western state, long suspected of crookedness and noted for his shifty ways, was finally indicted and tried. The jury was out a long time, but eventually acquitted him. After the verdict was in and the politician was leaving the courtroom, a minister who had been in part responsible for the indictment and trial, approached the politician and said: "Well, my friend, you have escaped; but you had a close shave. I trust this will be a warning to you to lead a better life and deal more fairly with your follow men."

"That may be," the politician replied. "That may be; but I ain't pledged to any one."—Saturday Evening Post.

**FEED YOU MONEY**

Feed Your Brain, and It Will Feed You Money and Fame.

"Ever since boyhood I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly.

"The result was that I found myself, a few years ago, afflicted with ailments of the stomach, and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet.

"I found that I was at once benefited by the change, that I was soon relieved from the heartburn and indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased.

"My nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and none the less surely, been restored to normal efficiency.

"Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I began to use Grape-Nuts food I can work till dinner time with all ease and comfort." Name given by Postum Co., Battle Creek, Mich.

"There's a reason."

Read the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**EASY TO MAKE CANDIED PEEL**

Delicious Confection Prepared at Home Far Better Than Can Be Bought.

Orange skins (generally considered useless) can be used in two ways that will give much pleasure. Any girl who wants to have something a little out of the common for a luncheon party, or who wants to make a very small gift, but one that shows some real work of her own, can accomplish either object by making candied orange peel. Not by buying it at the confectioner's, where plenty of it is sold, but by doing it herself. The candied orange peel made at home and used while fresh is so far superior to that one can buy that it seems like quite another thing.

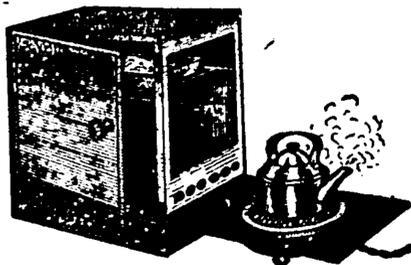

It can be made of the skin of an orange that has been peeled and used in any way, but rather a smooth skin should be chosen, and it must be used before it becomes at all hard and dry. The first thing to do is to scrape off with a knife as much as possible of the white inner skin. Keep on scraping until the skin is quite thin and the back shows the yellow. Then cut the pieces of skin into strips one quarter of an inch wide and from one and a half to two inches long.

Now comes the cooking, which is done in the following manner: In a small saucepan full of water dissolve three tablespoonfuls of sugar and put in your strips of peel. Boil them until the water boils away, leaving a thick syrup. During the latter part of this process it must be carefully watched and stirred to prevent burning. Next take the peel from the saucepan and roll it in powdered sugar; then put the pieces on plates to dry, not piled up, but in single layers. The orange peel is best on the first or second day after it is made, and it must be used within a week or it will grow too hard. A dainty box filled with this orange peel makes a very attractive gift, or, if one is sending some really handsome box (a silver one or an enamel or carved one), an added pleasure will be given by filling it with candied orange peel made by the giver.

**ELECTRICITY IN THE KITCHEN**

Combination Oven and Warming Plate That Surely is a Boon to the Housewife.

In using gas, it is usually difficult to obtain the heat other than in an upward direction, even though this may not always be the most desirable for the purpose at hand. Most of the

Oven Door Used as Warming Plate.

gas stoves used in kitchens show this limitation and the makers of electric heating devices have been delighted at being unhampered by this objectionable feature. With electric ovens or stoves the heating element can be placed in any position or location that may seem best suited for the cooking to be done by it and it may even be movable. An interesting illustration of this is found in a new electric oven offered by a Scotch firm which has the heating element fastened to one side of the oven. When the oven is not needed, this whole side of the oven can be swung outward to form a heating plate for use with teakettle, coffee pots, or the like. Such a change would be manifestly impossible with any gas heated device, yet it is but one of the wide range of new combinations which electricity is bringing to our kitchens.—Popular Mechanics.

**SURE SIGN.**

Mrs. Wiggins—Our daughter Mary's in love.

Mr. Wiggins—How do you know?

Mrs. Wiggins—She refers to twilight as the gloaming.

**CURED ITCHING AND BURNING**

"I was taken with the itch in April, 1904, and used most everything. I had a friend pay me a visit from Cumberland, and she advised me to use Cuticura Remedies which I did. The cure was certainly quick, and I use them to this day. I had it terribly under my knees. I only used one box of pills, but two boxes of Cuticura Ointment, and I use the Cuticura Soap all the time. I hope this will benefit others, as it has me, after Dr. — and others could do nothing for me." (Signed) Miss Lu Johnson, 1523 Ninth St., N. W., Washington, D. C., April 3, 1910.

In a later letter Miss Johnson adds: "The trouble began with an eruption under my knees, and extended upwards toward my waist, until I was not able to sit down. It kept a constant itching and burning all the time, night and day. I went to my doctor, but he could do me no good after I do not know how many medicines he gave me, and then told me I would be compelled to go to a skin specialist, which I positively refused to do. I cried all the time. Finally I made up my mind to try Cuticura Remedies, and tried Cuticura Pills, Ointment and Soap, and was entirely cured of the itching three days after I started using them. The healing took about eight days. I consider Cuticura Remedies marvelous, and would recommend them everywhere."

Cuticura Remedies are sold throughout the world. Send to Potter Drug & Chem. Corp., Boston, for free book on skin afflictions.

**SHE HAD NOTHING ON JIM**

Matrimonial Mixup in Which Linda Seemed to Come Out a Poor Second.

While I was being shaved the shop door opened gently and in walked a colored boy of fifteen, who looked around in an embarrassed way for a moment and then said to the barber: "Jim, you was ingaiged to my sister Linda."

"You mean I is engaged to her," was the pompous reply.

"But Linda has sent word."

"Oh, she has? Does she dun want the marriage hurried up?"

"No, sah; she dun wants you to know dat she married Bill Lee 'bout two hours ago."

"What? What's dat? Your sister dun married to dat nigger. Werry well, sah. Den you return to dat sister and big her my compliments and tell her dat I was dun married mo' dan fo' weeks ago and dat she hadn't dun fooled me worf shucks! Dat's all, sah, and please close de doah as you go out."—From Norman E. Mack's National Monthly.

Those with whom we can apparently become well acquainted in a few moments are generally the most difficult to rightly know and understand.

**Gaiety of Nations.**

Patience—That woman is a real benefactor.

Patrice—How so?

"Because she made two smiles come where one came before."

"How did she manage it?"

"She donned a harem skirt!"—Yonkers Statesman.

**Sir Charles Was Bored.**

Col. Sir Charles Hightsdale had his regiment out for a practice march on the road near Dublin. His command was the —shire Yeomanry, which had suffered several overwhelming routs in the Boar war. Meeting a drove of pigs on the way to Dublin market, Sir Charles considerably halter his regiment so as to let the pigs pass.

"Oh, come on, colonel; come on!" cried the pigmaster, respectfully saluting. "Come on, yer honor. Sure, there isn't a boar among them!"—Harper's Weekly.

**The Doctor's Twins.**

An Irish doctor, while enjoying a holiday in the country, took the opportunity along with a friend to go fishing. During operations the doctor's sinker came off and was lost. Here was a dilemma—no sinker, no more fishing that day. Haapy thought—he had a bottle in his pocket. The bottle was filled with water, carefully corked and send down on its mission.

After a few minutes' interval the doctor had a bite and pulled up his line at racing speed, finding a pair of fish, one on each hook. "Ha, doctor; twins this time!" exclaimed his companion.

"Yes," quoth the doctor, "and brought up on the bottle, too!"—Bel-fast Times.

**An "Anglo-American Number."**

The June "Century" is to be an "Anglo-American Number," with articles on "The Commercial Strength of Great Britain," "The Training of English Children," "The Flavor of Life at Oxford," "The Panama Canal and Sea Power in the Pacific," "The Mexican Rurales," and, by James Cardinal Gibbons, "An Anglo-American Pact of Peace."

"Hotels and Boarding Houses Located on the Line of the Rio Grande System" is the title of an attractive little booklet just issued by the passenger department of that line.

It contains a list of all hotels and boarding houses adjacent to the Denver & Rio Grande Railroad in Colorado, Utah and New Mexico, giving the number of guests each hotel will accommodate, average cost of board, together with the name of the proprietor. Tourists and traveling men will certainly find this publication of great value in making reservations for hotel accommodations in advance, or in selecting same after arrival at destination.

Many a girl has too many strings to her beau.

Don't be misled. Ask for Red Cross Bag Blue. Makes beautiful white clothes. At all good grocers.

Flattery is simply the nice things we say about other people.

The herb laxative, Garfield Tea, promptly overcomes constipation, biliousness, sick-headache and insures better health.

The man who has been married fifty years is willing to let his wife do the boasting about it.

If constipation is present, the liver sluggish, take Garfield Tea; it is mild in action and never loses its potency.

By the Harem Code.

"Do you think I am really your affinity?" Solomon's nine hundred and eighty-fifth wife asked, coquettishly.

"My dear," the Wisest Guy said, "you are one in a thousand."

"My dear," the Wisest Guy said, He got away with it too.

# SHE SUFFERED FIVE YEARS

Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Erie, Pa. — "I suffered for five years from female troubles and at last was almost helpless. I went to three doctors and they did me no good, so my sister advised me to try Lydia E. Pinkham's Vegetable Compound, and when I had taken only two bottles I could see a big change, so I took six bottles and I am now strong and well again. I don't know how to express my thanks for the good it has done me and I hope all suffering women will give Lydia E. Pinkham's Vegetable Compound a trial. It was worth its weight in gold."—Mrs. J. P. ENDLICH, R. F. D. No. 7, Erie, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

## Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right.

**CARTER'S LITTLE LIVER PILLS**

gently but firmly compel a lazy liver to do its duty.

## HAND-PAINTED CARDS CLOTH OR SERGE COSTUME

PRETTY REMEMBRANCES FOR THE NATAL DAY.

Nothing More Welcome Can Be Offered Friend Than Something That Is One's Own Work—Two Good Designs Here.

Perhaps you number among your friends or relations some one who has a birthday this month. If so, let me suggest that you send a handmade birthday card to the one who is growing old.

The simple drawings before you should be traced on cards or paper. With delicate colors they should be painted, and an appreciative verse written as your good wish.

Pale yellow and green can be used on the border of tulips. The little verse should be written at the top.

The side arrangement of ribbon and roses is another style. Blues and pinks and yellows can be used. Indeed, the real colors need not be adhered to strictly. Any delicate "blossomy" effect will do.

Then there is a card with the trees in bloom. Pale green, covered with pink blossoms, gives a lovely effect. This is a delightful little orchard to send to your friends.

The wreath and ribbon can be done in a favorite color. Yellow and pale green, pink flowers, white and green with colored ribbon are suggestions for coloring.

Here are some little verses to inscribe:

The daisies peep from every field,  
The violets sweet odor yield;  
The purple blossom paints the thorn,  
The stream reflects the blush of morn.

The newborn May,  
As cradled yet in April's lap she lay,  
Born in yon blaze of orient sky,  
Sweet May! Thy radiant form unfold,  
And wave thy shadowy locks of gold.

'Tis like the birthday of the world,  
When earth was born in bloom.  
The light is made of many dyes,  
The air is all perfume.

Here's here. May is here!  
The air is fresh and sunny;  
And the miser-bees are busy  
Hoarding golden honey.

Wreaths for the May: for happy spring  
Today shall all her dowry bring—

The love of kind, the joy, the grace,  
Hymen of element and race.

For thee, sweet month, the groves green  
Livened wear,  
If not the first, the fairest of the year.  
—Exchange.

In Either Material This Design Would Make Up Most Effectively, With Russian Coat.

Cloth or serge might be used for this costume, which is very smart style; it has the skirt cut narrow at foot, and trimmed with two pieces

of wide fancy braid taken round lower part as far as side of fronts, where other pieces are sewn.

The Russian coat has the left side of front quite plain, while the right side is trimmed with one wide rever edged with braid, which also edges neck, forms waistband and trims cuffs.

Hat of Tagal, to match, trimmed with a feather mount.

Materials required: 5 1/4 yards 36 inches wide, 6 yards braid, 5 1/2 yards silk for lining coat.

Silk and Satin Purses.

Some fascinating new shirred silk and satin purses have frames about as long as that of the ordinary bag and are hardly more than three inches deep. They are intended to carry in the hand and, small as they are, have compartments for various purposes. One style has two inner purses, each one of which takes up one-half the length of the whole purse, besides two outside pockets.

To Darn Linen.

When you are hemming new table linen save the strip you cut off, and later, when the linen must be darned, pull this strip into threads for the purpose.

## PLEDGE POLICIES FOR LOANS

Imprudent Act That Really Means Man Is Borrowing From His Widow.

Many men, pressed for money, go to the life insurance company, deposit their policy as security and borrow as much as the company is willing to lend. That the practice is common is proved by the fact that most companies have loaned from a fourth to a third of the aggregate face value of their policies in this way. "Very few of these loans," says the annual report of the Connecticut Mutual—and this company's experience is typical—"are ever repaid to the company. The money . . . are swallowed up in business enterprises, in speculation . . . and the total result means embarrassment and distress in a great many cases, and poverty in the place of competence, when the claims mature, and there is nothing left above the loans but a mere margin in cash on the policies for the protection of families or estates." Men who borrow on their policies are taking away protection from their families. It ought not to be done.—Collier's.

Anxiously Waiting.

"I do hope things will take a turn for the better soon. If stocks would only go up!"

"Why, have you been investing in stocks, my dear?"

"No, but father has promised that he would buy me a duke as soon as A. G. & W. touches 120."

At All Hours.

"Professor, what do you consider the most wonderful thing in the world?"

"The brain of a centipede; it is infinitesimally small, yet it has perfect control over the creature's entire system of legs and feet."

The softest powder puff in the world isn't as agreeable to the touch of an old maid's cheek as a two days' growth of beard.

Many a man succeeds because he's a good guesser.

## One Cook

May make a cake "fit for the Queen," while another only succeeds in making a "pretty good cake" from the same materials.

It's a matter of skill!

People appreciate, who have once tasted.

## Post Toasties

A delicious food made of White Corn—flaked and toasted to a delicate, crisp brown—to the "Queen's taste."

Post Toasties are served direct from the package with cream or milk, and sugar if desired—

A breakfast favorite!

"The Memory Lingers"

Six Months (by mail) \$1.00

JNO. A. HALEY, Editor

The Root amendment to the Canadian reciprocity agreement was so badly defeated in the senate that its supporters didn't even ask for a roll call. The passage of the measure is now predicted by a decisive majority, at an early date. This will be a long step in the right direction.

Whatever the clime, whatever the condition, wherever the American, July Fourth will be remembered and celebrated. 'Mid the ice floes of the arctic or under the burning sun of the equator, the joyous shouts of Americans will inform the world that July Fourth is distinctly a day to be remembered; the safety valve is removed and the Yankee celebrates the day without hindrance.

The Fourth of July to an American is the greatest day in the calendar, and notwithstanding next Tuesday will be the one hundred and thirty-fifth anniversary of the declaration of American freedom, the event will call forth as much enthusiasm, as much patriotic fervor, as much genuine joy that the declaration was for Americans, primarily, but has since become a beacon light for all the world as though the declaration had been issued yesterday. Principles are imperishable, and the declaration made by the continental congress one hundred and thirty-five years ago will live as long as people are liberty-loving.

Jefferson was a great president and will be remembered by his countrymen as long as the nation lives. But while a great president, he was still greater as the author of the Declaration of Independence, the principles of which are known and admired by the entire world, and will exist as long as man inhabits the earth; for "We hold these truths to be self-evident: that all men are created equal; that they are endowed by their creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed." Simple language, yes; but pure, strong and beautiful, and the sentiment expressed absolutely unassailable.

## Statehood Action May be Postponed.

Washington, June 28. — The Senate will not act this session on the admission of Arizona and New Mexico, and the matter will go over until next winter.

This has been practically settled, although no formal action has been taken.

Senator Smith, chairman of the territories committee had agreed on the bill already passed by the house with certain minor amendments and said he would report it to the senate in a few days.

"New Mexico republicans are telling the president that if admission does not come soon the people, in disgust, will throw the state to democrats. Arizona republicans are maneuvering to hold off admission. Curry says if there is delay the democrats will carry New Mexico at the first election."

The Washington Times carries the above today, and the friends of New Mexico are not inclined to believe that the Times has any information they do not have, and they say admission will have to be at this session.

## President A. & M. College Talks.

Dr. W. E. Garrison, president of the A. & M. College at Las Cruces, arrived here via auto, Tuesday, and remained until the following morning. During the day he visited the county institute and made an interesting talk, which, coming from an experienced instructor, was highly appreciated by the teachers. At night, pursuant to a hurried announcement, the doctor addressed a fair-sized audience in the Baptist church. The lecture was illustrated with views of the college, grounds and various departments of the institution. This justly celebrated institution has drawn on Lincoln county for a portion of its students and others will enter there the coming term.

## Notice of Sale.

TERRITORY OF NEW MEXICO,  
County of Lincoln.  
In the District Court—No. 1981.  
H. C. McDougal, Plaintiff,  
vs.  
Gallinas Mining and Smelting Co., Defendant.  
Notice is hereby given that the undersigned sheriff of Lincoln county, Territory of New Mexico, by virtue of a judgment and decree rendered on the 6th day of May, 1911, by the district court of the Sixth Judicial district of the Territory of New Mexico in the above entitled cause and execution to me directed from said Court in said case, will on Saturday, the 28th day of August, 1911, at the hour of two o'clock in the afternoon of said day, sell at public auction to the highest bidder for cash at the front door of the new court house in course of construction in the town of Carrizozo, County of Lincoln, Territory of New Mexico, the following described tracts, parcels and pieces of real estate as the property of the defendant, by me levied upon on this day by virtue of said execution to satisfy said judgment for three hundred twenty-eight and 35/100 dollars and costs taxed at nine and 20/100 dollars with interest thereon, at the rate of six per cent per annum from date of said judgment with costs herein to be taxed, to-wit: The Red Cloud Mining Claim and the Deadwood Mining Claim situated and located in the Gallinas mountains in Lincoln County and Territory of New Mexico, both being patented mining claims.

### It Wasn't Funny last Week.

At one stage in the county seat embroglio, last week, the situation was far from laughable, but for the present, at least, the war clouds are not in evidence, and let us hope they will not return. Therefore, with the dove of peace hovering over the people of Lincoln county, we can laugh with the Albuquerque Morning Journal when it perpetrates the following at our expense:

"We trust it will not be necessary to order out the Boy Scouts to make those stubborn and stiff-necked citizens of Lincoln be good. It would speak very badly for the the law-abiding character of the denizens of one of the best counties of New Mexico if, after mature deliberation, they stood pat against the authority of the courts and the executive. The Morning Journal is confident the mountaineers will think better of it."

### The Wires Crossed.

By reference to another column our readers will find a dispatch from Washington to the effect that statehood is dead at this session. A further reading of the dispatch, however, discloses the fact that it carries its own refutation. So it would appear that one statement was just as valuable as the other, and it further appears to be only an opinion of a reporter who probably had to produce some copy. We are still of the opinion that the Flood resolution will pass the senate, but we do not expect such a consummation until the grave and reverend senators have had an opportunity to exude a little hot air, which will likely be exhausted some time in August.

### Death from Diphtheria.

The infant of Mrs. Andrew Hale, who resides near Nogal, died Tuesday morning from an attack of diphtheria. Health officer Dr. Paden was immediately notified, and he visited the home at once in order to take the necessary steps to prevent the spread of the disease. He found that the neighborhood had, upon learning of the nature of the disease, refrained from visiting the stricken family, and the little one was interred with as little assistance as possible. The health officer very highly commended the action of the family and relatives, as well as friends, for their action in thus rendering such timely assistance to the health authorities, which, it is believed, may prevent the spread of the disease.

The Carrizozo ball team has arranged to play ball on the Bonito the Fourth. They expect to meet the Fort Stanton team on that occasion.

### Died Far from Home.

A young man by the name of Chester Hayes died Tuesday night, while traveling, by wagon, with his father. Father and son were from Oklahoma, and the young man was suffering from tuberculosis, which produced death. The local lodge of Odd Fellows, the father belonging to the order, buried the deceased, the interment taking place in the local cemetery yesterday afternoon.

Elbert T. Collier was down Tuesday from his ranch near Coyote. Mr. Collier is just completing a ground reservoir in which he intends to impound flood water. When completed and filled, the water will be used for irrigating a large body of land below the reservoir.

C. C. Belknap came up from Oscura last night to be present and to take the teachers' examination today and tomorrow. Mr. Belknap recently arrived from Arizona, where he had been attending a normal school in that territory.

The High Altitude Cook Book, sold at the Carrizozo Trading Co's and Rolland's drug store. Price fifty cents and two cents for mailing. 6-23-21

Dr. H. E. Pine returned this week from Albuquerque, where he had gone to attend a session of the sheep inspectors of the territory.

Harry F. Comrey was down a short time yesterday from the Comrey ranch near Ancho.

Fred Ferguson, who had spent a week here, returned to Capitan Wednesday morning.

W. R. White, chairman of the board of county commissioners, was in town Friday to Sunday.

Wanted to buy, some Angora nannie goats. For further information write box 35, Carrizozo, N. M. 6-23-2t

Mrs. Will Loughrey, accompanied by Miss Ruby Perry, went to Oscuro Monday to visit relatives this week.

Morgan Reily, Chas. McMasters and Will Loughrey went to the Ruidoso Monday night for a one week's outing and will return tomorrow night.

Mrs. Geo. Dixon and Miss Maude Hancock, conductor and instructor at the Lincoln county institute, will leave for their respective homes Sunday.

The High Altitude Cook Book, sold at the Carrizozo Trading Co's and Rolland's drug store. Price fifty cents and two cents for mailing. 6-23-2t

Ed. Harris, George Rustin and Lee Singleton brought up a herd of Bar W's from the lower end of the valley, and they will be pushed to the upper end of the range.

Local showers in the vicinity of Red Lake have partially filled that indentation on the face of nature, and the supply, without further renewal, will last through the summer.

A Happy Home and Loving Husband if you cook from the High Altitude Cook Book. Fifty cents and two cents for mailing. Carrizozo Trading Co. and at Rolland's drug store. 6-23-2t

Rev. B. W. Allen delivered a most interesting address at the close of the normal yesterday afternoon. The present institute has been fortunate in the fact that a number of splendid talks were made during its session.

Lute Jennings, the successful bear hunter of the White mountains, was down from Parsons Wednesday. He was not down with bear meat on this occasion, however, but was disposing of the products of the dairy.

Rev. B. I. Walker, of Alamo-gordo, will be here and preach at the Baptist church Sunday morning and at night. Everybody is extended a cordial invitation to be present at these regular services.

Light showers have fallen in this vicinity the past week, but not in sufficient quantity to ameliorate conditions. In other sections of the county heavier rains are reported, and conditions are most promising.

One of the children of Mr. and Mrs. S. R. Moss is just recovering from an attack of scarlet fever. The case was in a mild form but was promptly quarantined to prevent its possible spread. In addition to the serious character of this disease at times, for Mr. and Mrs. Moss it was particularly burdensome at this time because they were unable to attend the sessions of the institute. The little child is now able to be up.

W. L. Foxworth, a member of the Foxworth-Galbraith Lumber Company, was in town yesterday. He returned this morning on No. 1.

See our great line of hammocks before leaving on your fishing and camping trip.

## LOCAL NEWS

Lute Skinner, W. M. Ferguson and Monroe Howard were over Sunday from the Bonito and Mesa sections.

Lieutenant Collier and J. A. Street, territorial mounted policemen, were in Carrizozo a day or two the latter part of last week.

W. C. McDonald returned this week from Albuquerque, where he had been in attendance upon a meeting of the Cattle Sanitary Board.

The base ball dance at Real's hall Saturday night was a very delightful affair, and the club appreciates the results—socially and financially.

Rupert F. Asplund, chief clerk in the territorial superintendent's office at Santa Fe, was here last Friday and spent the day with the teachers at the institute.

Mr. and Mrs. Stanley Squeir returned this week from a fishing trip across the divide. They enjoyed their vacation and had some excellent sport.

O. S. Webb went to El Paso this week. He expects to return tomorrow, but will soon leave for Mexico where he will enter the employ of one of the railroads in that country.

O. W. Bamberger, the genial clerk at Zeigler Bros., is off on a month's vacation, and will visit his parents at Evansville, Indiana. It has been whispered around that Cupid has been cutting some curious capers at Mr. Bamberger's home town.

The board of county commissioners will meet in Carrizozo Monday, July 3. As the Fourth comes the following day and as there is some important litigation pending, the board will probably take a recess until the following Monday, July 11.

Major Campbell, Doc Tice and Charley Stinson returned Monday morning from Ruidoso, where they had spent a week angling for mountain trout. They report a catch sufficient to supply the camp, and that they spent a delightful week.

John Harris, a negro, while trying to board a freight train in the yards Sunday night, missed the ladder on a box car and fell with his right leg under the wheels. He was removed to the Paden hospital where the member was amputated below the knee. Harris stated he was on his way from San Francisco to Oklahoma City.

S. J. Woodland is framing up a ball team with which he hopes to defeat the Carrizozo team. Jim says he is going to make this effort, but if he fails to win he will lay down and acknowledge the supremacy of the local team. The date agreed upon is Saturday, July 15th, the test to take place on the local diamond. The locals do not feel that they are invincible, but they are proud of their victories just the same.

## Carrizozo Defeats Stanton.

The Fort Stanton ball team came over Saturday afternoon and met our boys on the local diamond the following day. A big crowd was present to witness the struggle and the receipts from seat sales were altogether satisfactory.

The score at the close of the game—10 innings—stood 5 to 4 in Carrizozo's favor. Of the five runs made by Carrizozo one was made in the second, three in the third and one in the tenth inning. Fort Stanton made one in the fifth, two in the eighth and one in the ninth. Although losing the game, the visitors were better off in earned runs than was the home team, but to acknowledge that is also to confess a weakness on the part of the visitors in the field. The first seven innings the home boys had such a comfortable lead that all local fans were jubilant—the game at this period standing 4 to 1. But in the eighth the visitors rallied. The pitcher for Carrizozo got a finger smashed and, while not entirely hors de combat, was seriously handicapped. Two runs in the eighth by the visitors made the score uncomfortably close, and another in the ninth tied the score. The local boys had been unable to get anyone round the diamond between the third and ninth innings, and six innings without a run began to have the appearance of a break down.

However, the locals' injured pitcher was relieved by Loughrey, and the stampede, that appeared imminent, was stopped just as the score was tied. A goose egg was given the visitors in the tenth and the locals had their half to play. One man went down, Willie Dingwall singled, Loughrey fanned, Morgan Reilly—the tiny player, about as tall as the bat he was using—sent a fly over first, which was not properly fielded by right, the juvenile went to first; and in the meantime Dingwall was circling the bases like an antelope and reached home safely while the ball was transmitted from the outfield to first base and from first on a bad throw home. Thus ended a hard-fought battle, full of excitement and interest throughout, and ended in adding another laurel to the circlet that crowned the locals with victory at every game this season.

The players and their positions, as lined-up, follows:

Carrizozo.	Fort Stanton.

CARRIZOZO - NEW MEXICO

## WHAT WORRY DOES.

Dr. Snow, of London, the distinguished opponent of vivisection, says that worry is the most frequent cause of cancer. In times past this affliction, which is becoming increasingly prevalent, has been attributed to the excessive consumption of meat, to fish and even eggs. If worry predisposes humanity to such a scourge at this, in addition to all the other ills for which it is held responsible, it is plain that the earth has few evils so great or so general, says the New York Herald. Where contagion and heredity slay their thousands, worry kills its hundreds of thousands. Worry leads straight to insanity. It prepares the way for consumption and kidney trouble. It shatters the nervous system and thus is the forerunner of a hundred complaints which lower vitality, produce suffering and result in untimely death. Progress in sanitary science, in surgery and in medical practice has lengthened the average span of life in spite of conditions which undeniably increase the sum of worry. In fact, worry is the price that many pay for the advantages which they now enjoy. If mankind could have had the full benefit of the wonderful discoveries of the past century or more, with none of the drawbacks of increasing worry, the average of life would be much greater than it is.

The statement of Professor Kenneth G. Smith that for the average man a trade is better than a profession is absolutely true, yet there is on the part of some very average people a disrespect for labor, and a loathing for honest grime. A numerous represented class of young men on leaving high school years for employment in which they can wear good clothes and not soil their hands. They would sooner by clerks than mechanics. If their relatives will supply them with the means of further schooling they will proceed to be doctors or lawyers, thought without any special calling in the direction of a profession. Often it happens that individuals who might have been of use in the world in a mechanical pursuit are failures through life because nambypambyism caused them to make a wrong start.

President David Starr Jordan of the Leland Stanford university has decided that no more baseball shall be played by the students at that institution. His decision came as the result of his attendance at a game, which he says was characterized by "systematic muckerism." That is a phrase which sounds as if it might stick.

A New York broker has been sued for \$100,000 by the husband of an actress because her affections were alienated. This should make it possible for the lady to dispense with the services of her press agent.

It has been decided by a Chicago judge that a woman is not bound, morally, legally or otherwise, to shave her husband's neck. This should have a tendency to clarify the situation.

One of the comforts of modern farming is a phonograph to call the cows home. Perhaps the farmer of the future will merely push electric buttons.

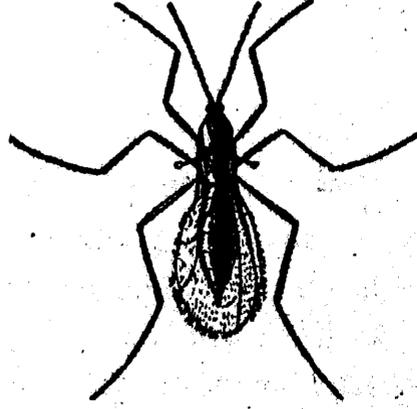

## HESSIAN FLY INJURES WHEAT

Pestiferous Little Insects Burrow Into Straw, Weakening It and Causing It to Fall Over.

In reply to a query as to the best method of ridding a field infested with the injurious little Hessian fly the Wallaces' Farmer makes the following reply:

The Hessian fly severely damaged much winter wheat late last fall, but the pest is not yet done with its evil work. These brown objects which our correspondent wrongfully calls eggs will turn into little black flies about one-tenth of an inch long, resembling small mosquitoes. They will lay more eggs on the wheat, and the maggots which come out of these eggs will, by burrowing into the straw, cause further damage. They weaken the straw and cause it to fall over.

What can we do with a field infested with Hessian fly? If the infestation is slight, and but few of the plants are killed, we would let the ground stay in wheat, trusting that the wheat will stool out sufficiently

Hessian Fly (Much Enlarged.)

to make a good stand, and that the weather and parasitic enemies will reduce the number of flies and maggots of the next brood. If the damage is heavy, however, and practically all the plants are infested and half or two-thirds of them are killed, we would probably plow up the crop and plant to oats or any crop other than wheat. Dry weather is unfavorable to the development of the little brown objects called flaxseeds, which later develop into flies. It may be, therefore, if the spring continues dry, there will not be much harm from the spring brood of maggots. In most cases of very heavy infestation of wheat by the fly, and where it is desired to get the ground down to clover, we would be inclined to disk at the earliest possible moment, and seed to oats and clover.

If our correspondent seeds to wheat again in the fall he would very likely be troubled again with Hessian fly unless he plowed the stubble under or burned it off immediately after taking off the present wheat crop. Even then he might be troubled with flies coming in from adjacent fields. To prevent Hessian fly damage, rotate crops. Hessian fly does not hurt any small grain to any extent except wheat. Late fall seeding also helps to prevent injury.

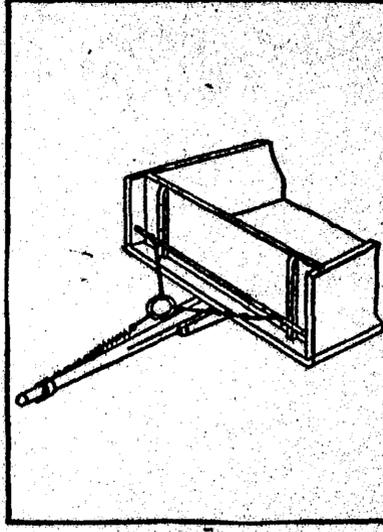

### Humus Wanted.

Two extra harrowings in each piece mowed or planted will increase the crop one-fourth. New York state farms are not too poor to produce good crops. What is necessary is for farmers to add humus to the soil.

## SUPPORT FOR WAGON TONGUE

Iron Rods Arranged to Strengthen Downward and Side Movements to Prevent Accidents.

Wagon tongues are often subjected to great strain and it is no uncommon thing for them to break under it. A Kansas genius has devised a means to support them in both downward and sideways movement and to a great extent guard against such accident. A rod is run through the front end of the wagon body and furnishes a grip for two hooks, each of which is connected to a ring by

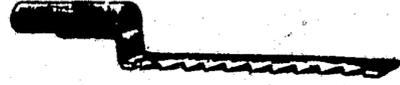

Iron Rods Share the Strain.

yielding rods. Running forward from this ring is a third and larger yielding rod which is connected to a clip which encircles the wagon tongue near the middle. The advantage of this attachment will be readily seen. Any strain on the wooden tongue is shared by the iron rods, which being made yieldable by spring parts in their centers give just enough leeway without allowing the tongue to snap in two.

## HOME-MADE GARDEN WEEDER

Handy Little Implement for Work About the Farm Can Be Made of Piece of Steel.

A home-made hand weeder for use about the garden is shown in the accompanying sketch. Grass and weeds can be quickly and easily cut or combed from about small plants by means of the sharp saw teeth. The end can be used as an individual weeder, trowel, or transplanter. It is

Saw Tooth Weeder.

made of a piece of steel of about the thickness of a garden trowel and one inch wide. Bend it and attach a handle, then file or grind in the sharp teeth as shown.

Plowing takes more time than any other farm operation.

Remember frequent salting of the cattle in the back pastures.

Give the late-sown grain a formaldehyde bath, and raise better bushels and more of them.

Clover seed is one of the most profitable crops the farmer can grow if his land is suitable for clover.

Potatoes should never be planted on low, moist land, as the potatoes are sure to be soggy when cooked.

If you want nice winter beets, plant early beet seed in July and the roots will mature before cold weather comes.

## SUGGEST IT.

Next time you're out with friends, and you're all wondering what you can drink to quench the thirst—something that you'll all enjoy—suggest COCA-COLA.

Everyone will thank you for an introduction to the most delicious, refreshing and thirst-quenching beverage that anyone could drink. It is cooling—relieves fatigue and just hits the dry spot. At soda-fountains or carbonated in bottles—5c everywhere.

As to its wholesomeness—write to the COCA-COLA CO., Atlanta, Ga., for a copy of their booklet, "The Truth About COCA-COLA"—compiled by authorities.

### Her Qualifications.

Pat and his little brown mare were familiar sights to the people of the town of Garry. The mare was lean, blind and lame, but by dint of much coaxing Pat kept her to the harness. One day while leading her to water he had to pass a corner where a crowd of would-be sports had congregated. Thinking to have some amusement at Pat's expense, one called out:

"Hullo, there, Pat. I'm looking for the real goods. How much is that mare of yours able to draw?"

"Begorra," said Pat, "I can't say exactly, but she seems to be able to draw the attentions of every fool in town."—The Housekeeper.

Gives fine results in all cooking

Tell your grocer to send Libby's Milk

### Swat the Fly.

From El Paso Herald.

If the question were asked, "What is the most dangerous animal in the world?" the answer would probably be "the lion" or "the rattlesnake." But it would be far from the truth. The really "most dangerous animal" comes upon its prey in a rambling, genial way, flying the flag of sociability. It is the house fly.

It takes 10 or 12 days for the fly's egg to develop into a fly, which means that a dozen generations can be born in a single season. If this increase were not disturbed by starvation, changes of temperature, and disease in their own ranks, there would be 195,000 bushels of flies—all "relatives"—with a few wagonloads thrown in for good measure, in a single season from one fly. There is a fortune awaiting the scientist who can devise a method which will exterminate the fly.

A fly with only a thousand germs may call itself clean. A recent experiment with 414 flies that had not been specially exposed showed them to be a germ carry-all of from 1,250,000 to 6,600,000 germs each. When a fly "washes its hands," it means that it is just shaking off some thousands of germs. An experiment was made to find out why it washed its hands. A fly no different from its fellows was caught in a sterilized net and immersed in a bottle of sterilized water. When the previously pure water was examined, it was found that the creature had left more than 5,000,000 germs in its bath water.

The house fly is born in offal—nowhere else. And his life is in keeping with his birth. He lives until the day of his death in filth. The manure pile, cuspidor, and the cesspool are his home. It is from these haunts that he comes to visit the kitchen, the dining room and the nursery. He drags his filthy feet across the bread, dips them in the butter, wipes them on the meat, and bathes them in the milk. He seeks out the sick room and sips the excretions of the consumptive, the typhoid fever patient, and the child with summer complaint. Then he flies to the kitchen and deposits the poison on the rim of the milk bottle, and to the nursery where he lights on the baby's lips.

Don't mind a rattlesnake or two about the house, but kill every house fly as you value your life and the lives of your children.

There can be no flies where there is no filth. Keep your kitchen, cellar and yard clean; let no refuse accumulate.

Twenty drops of carbolic acid put on a hot shovel or other hot iron creates a vapor that kills flies, making a simple and effective remedy. Another remedy which for all purposes probably has no equal is a solution of a teaspoonful of formaldehyde in sweetened water on an open dish about a room. Sticky fly paper, fly traps, and wire paddles help lessen the number of these pests.

The house fly is the most dangerous animal in the world and kills more human beings than all the beasts of prey and all the poisonous serpents together.

Monday  
June 26th.

## The Carrizozo Trading Company.

### Jicarilla Happenings.

The mill is running again, after a short interval of idleness. The ore is good and the outlook promising for better.

There is an echo of glad rumors floating around, which some enlightened friend attributes to the familiar music of "wedding bells."

H. W. Rowe, of Cripple Creek, arrived a few days ago, and is now assaying for the Littel company.

Mr. Price, of White Oaks, with his little son, came out Sunday to attend to business relating to his property here.

W. W. Fitzpatrick, erstwhile residenter of these hills, came in Sunday from the soldiers home of Los Angeles, Calif., will visit here all summer.

The "glorious Fourth" is nearing realization with the rapidity of a dream. And then on ahead

is the anticipation of another big picnic and barbecue to come off in the Jicks, just for the pleasure of making good the passing of "the good old summer time."

Houses are scarce here now. Every one is occupied, and there is a demand for more.

This is where some enterprising party could lay out his money with quick returns from rent. There are some very humble prospects doing duty for homes now.

Harry and John Gallacher passed through the foot hills enroute to the Aspers, where they will hold their sheep the rest of the summer on the rain water pools, filled by the recent rains.

Allen Hightower has gone to the red hot land of cactus pies and "self-praise" to remove his horses to the green plains of the Coyote range, while his good wife lately returned from that scorching clime to sojourn with her mother and father this sum-

mer. Their little child who was painfully hurt by a kick from a horse recently is reported doing nicely.

George English has acquired the ranch and water lately held by the Woods family, where he now holds his cattle. Did not learn if it was a sale or lease, but it is said to be a fine place for stock, and is in the Carrizo draw.

We were shocked to learn of the death of Mr. Handy, as word came just a little while ago of his improvement and hopeful anticipation of a return home soon, but the summons came instead, which none can gain-say or put off, and may he find rest on yon side of the Stygian river.

A Happy Home and Loving Husband if you cook from the High Altitude Cook Book. Fifty cents and two cents for mailing. Carrizozo Trading Co. and Roland's drug store. 6-23-21
