CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, JULY 21, 1911.

NUMBER 24

THE JUDGE ORDERS THE CLERK TO CARRIZOZO.

A complaint was filed at Alamogordo Monday in the district court of this district, by Major Llewellyn, on behalf of the board of county commissioners. The complaint recited that Carrizozo was the county seat; that the law required the board of county commissioners to meet here; that the probate clerk had failed to appear with his records, and asked for a peremptory writ to compel the clerk to attend the meetings of the board with his records. The application was granted by Judge Wright, the writ issued, reached here Monday evening and was served on Probate Clerk Riggle, at Lincoln, the following day. The writ reads:

**In the District Court Sitting Within
and For the County of Lincoln,
Territory of New Mexico.**

Territory of New Mexico
ex rel Robert H. Taylor
and William R. White, as
members of the Board of
County Commissioners in
the Territory of New Mex-
ico, County of Lincoln
vs. No. 2036

James G. Riggle, Clerk of
the Probate Court of the
said County of Lincoln and
Ex-Officio Clerk of the
Board of County Commis-
sioners of said Lincoln
County.

ORDER FOR PEREMPTORY WRIT OF MANDAMUS.

Upon reading and filing the petition for a Writ of Mandamus herein, and after hearing W. H. H. Llewellyn, the District Attorney for the County of Lincoln, in the Territory of New Mexico, on behalf of the relators herein, and the Court being fully advised in the premises, doth find that the writ should issue as prayed; and it further appearing from said petition filed herein that the right of relators to require the performance of the acts by the said James G. Riggle, Clerk of the Probate Court of said Lincoln County, which he, the said James G. Riggle, is by said petition alleged to have refused to perform, and it being to the Court apparent that no valid excuse can be given by the said James G. Riggle for not performing such acts,

It is therefore **Considered, Ordered and Adjudged** that the said James G. Riggle, Clerk of the Probate Court and Ex-Officio

Clerk of the Board of County Commissioners of said Lincoln County, be by the peremptory writ of the District Court of Lincoln County commanded to attend personally or by deputy, the session of the Board of County Commissioners of Lincoln County, to be held at the court house at Carrizozo in the County of Lincoln, in the Territory of New Mexico, on Monday, July 17th, 1911, with all necessary books, papers, files and records in his custody pertaining to the duties of the said Board of County Commissioners and the seal of said Board, and remain personally or by deputy in attendance at said session until its regular adjournment, and further that he personally or by deputy attend any and all subsequent sessions of said Board of County Commissioners and perform any and all duties required by him to be performed as Probate Clerk and Ex-Officio Clerk of said Board of County Commissioners.

Drowned While Bathing.

News reached here Sunday morning, by phone from Capitan, that Harold Blanchard met his death, from drowning, the evening before at the ranch home of the Blanchard Bros., east of the Block ranch. The details of the young man's death are meager, but from the best information obtainable the sad affair occurred as follows:

The young man had left the house in the afternoon, stating that he was going to a pool of water some distance from the house to take a bath. After an absence of two or three hours, his elder brother Phil became uneasy and went in search of him. Arriving at the pool, the lifeless form of the brother was discovered, but whether the body was at the edge of the water or at the bottom of the pool we have been unable to learn.

The deceased was the son of Mr. and Mrs. W. F. Blanchard, and had spent most of his life in Lincoln county, the family, one of the oldest in the county, having settled here thirty years ago. The mother and brothers of the deceased are living at the ranch where the accident happened, but the father is in the Soldiers' Home at Leavenworth, Kansas.

PAN FOR CLEANING SILVER

Tableware is Quickly Brightened When Soaked in Solution—Labor Also Eliminated.

Every housekeeper knows how much work is entailed in keeping silver clean. Furthermore, that this work must be done frequently, as the ware tarnishes even when stored away. A device has been invented by which the cleaning can be done in a fraction of the time heretofore required and without any scouring with powders or pastes. A metal pan, with a grating just above the bottom, is partly filled with a solution of warm

water and a tablespoonful each of common salt and baking soda. The pan is made of a material which will not corrode from the action of these substances in the water, but this same action will remove the tarnish from silver in a few minutes. The tableware is placed on the grating in the pan and allowed to remain there for from one to two minutes, if warm water is used, and from five to ten minutes if the water is cold. It is then removed and wiped dry, leaving it as bright as new.

OLD NEW ENGLAND DELICACY

Apple Slump Healthful and Appetizing, Particularly During the Months of Summer.

Pare, core and quarter one dozen cooking apples, pour over them one cupful of boiling water and put where they will begin to cook. Five minutes later add to the apples one and a half cupfuls of molasses and cook for 15 minutes more, while you prepare a soft biscuit dough, using two cupfuls of flour, one heaping teaspoonful of sugar, two level teaspoonfuls of baking powder, and one teaspoonful of butter, rubbed finely into the flour, and milk to stir to a dough that is too soft to roll. Put this over the apples, which should be tender, but not broken, cover the saucepan closely and cook 30 minutes without lifting the cover. Serve with a hot sauce, made by heating to a cream half a cupful of butter and one cupful of sugar, stirring in just before using one cupful of boiling milk and a seasoning of grated nutmeg.

Cucumber Soap.

Buy two and one-half pounds of mutton fat in the leaf and try it out, and save the rest. I get the cucumber juice by running cucumbers through food chopper and straining: One can of potash, dissolved in one quart of water, let it get cold, one pint of cucumber juice, one-half cup of borax, ten cents' worth oil of sassafras, one tablespoon of sugar to make it lather, six pounds of grease, melt your-grease and when it is lukewarm turn the liquids (all together) in a thin stream into the grease, stirring all the time, until all is together, then stir 15 or 20 minutes until it is pretty thick. Pour it into a pan and let harden, cutting it in squares before it gets hard.—Exchange.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.
Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound. For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

FROCKS FOR THE GIRLS

AGREEABLE VARIETY FOUND IN WREATH OF THIN MATERIALS.

Prettiest of Fragile Weaves Can Be Had Cheaply—Beautiful Design for Costume for Dancing or Other Party Use.

The month of roses is heralded by more thin dress materials than one has seen this many a year, and, with laces appropriately delicate, these make the most attractive of dressy frocks for a young girl. The wash material, so called, among these filmy textiles is not necessarily a thing for the tub, for thin silks may be used upon them in some way or other and all the style of a costume suggest the careful touch of the dry cleaner rather than the rude one of the laundress. But the prettiest of the fragile weaves can be had cheaply, and suitable trimmings are correspondingly inexpensive; so if the gown is made at home there seems no great extravagance in discarding it after it is too soiled for use. In fact, with an occasional press-

ing, and scrupulous care, one of these airy gowns can be made to do for a whole season without washing, and persons who understand the art of dress prefer to manage in this way, for there is no doubt that even dry cleaning is hard on the prettiness of a dainty material.

Embroidered batiste is a texture with most rewarding possibilities for summery elegance, such textures showing a firmness equal to mar-

weave and worked dots on the white portion between. Lengths of six yards are sold for misses' gowns, the pattern costing six dollars, but as only the least bit of ribbon is needed for the belt and other little touches, and the gumpes and undersleeve edges can be made of a cheap brussels net, the frock is still cheap.

Our illustration displays a little frock designed for dancing or other party use, and the youthfulness of the style suggests the girlish wearer more than the matron, however youthful and slim she may be. Nevertheless, the latter would find the design appropriate for house gowns, for in one's own home one can wear garments that might seem foolish elsewhere.

The dress, as pictured, is an empire slip made of fine white handkerchief linen, with a trimming of lace, tucks and embroidery. The bodice shows a liberal use of the narrow insertion, this outlining the novel yoke, forming the belt and a good portion of the sleeves. The bottom of the skirt is elaborate with alternate rows of tucking and lace, two bands of insertion above this forming a deep scalloping that may head a wide flounce or only simulate one.

For a thin white muslin, swiss, or gandy or marquisette this model is ideal and there are many ways of varying the trimming. For instance, the whole upper portion of the bodice may be made of an all over lace and the scalloping of the belt and the insertion on the skirt might be replaced with straight bands.

With any thin material an underslip is required, and if good use and an elegant effect are wished it had better be of silk. Silkline will also give a pretty and graceful effect for the underslip.

DOLL WORKBAGS THE LATEST

Quaint Affairs Topped With Head of Doll Dressed in Same Material as Bag.

Quaint doll workbags are now popular. These have the ordinary round bottom of pasteboard, to which the bag is sewed in the usual way.

Fastened to one side of the top, so as not to interfere with the drawing string, is the head of a doll, dressed in a big bonnet and neckpiece made of the material of the bag.

When finished the bag looks like a maiden of Civil war times; sometimes narrow pinked ruffles are added to the outside of the bag to increase the resemblance.

Choose a dark old-fashioned silk or India print and make the bonnet in poke shape, with long, pointed lappets around the neck and falling half way down the bag.

A similar bag could be made from a gay bandanna handkerchief with turbaned head of the black 'oll. Put a kerchief around the neck; at one side of the bag might be a checked apron.

The Sailor Collar.

Despite the length of time it has been with on dresses, suits and wraps. It is shown not only in the square shape, but in the round and pointed effects, the latter being particularly noticeable. This collar extends sometimes only to the shoulder line, but in other cases it forms long revers, sometimes crossed over in surplice fashion and fastened at the side.

COUNTING THE COST.

Since the county seat fight has been prolonged over such a lengthy period, far beyond the expectations of any one, the people have begun to count the cost, and, naturally, opinion has been divided as to the responsibility. That this should be so was to be expected; for a matter as of such importance as has confronted the people of Lincoln county the past two years must have two sides. In the beginning it was a fight between the towns of Lincoln and Carrizozo as to which would have the county seat; or, in other words, whether the county seat should remain at Lincoln or be removed to Carrizozo.

A sufficient petition, praying for an election, was presented to the board of county commissioners, and in compliance with the law, an election was called. The campaign was contested vigorously, and every man who cast his vote in that election knew, or had a chance to know, the merits of each contestant. The result was that out of a total of 1,513 votes Carrizozo received a majority of 287. Such a magnificent majority so thoroughly indicated the desire of the people for a change that it was believed that all further difficulties of removal would vanish. At any rate, the fight had ceased to be a fight between the two towns; for the people had spoken, and it requires no stretch of the imagination to suppose that those who registered their votes for a change expected that wish to be fulfilled.

However, all our readers know the result. Court proceedings were instituted, and, notwithstanding repeated turndowns by the courts, five judicial decisions having been rendered upholding the action of the people, the matter has drifted along, and we still have a roofless court house, the courts held at Carrizozo, some of the county officials at Lincoln and all the records, and the expense continually piling up. But if the people had been regarded, if the matter had not been taken into the courts and if the board of county commissioners had been allowed to proceed as they had been directed, there would have been no cost attached to the removal of the county seat except that of the bonds, which has already been incurred, regardless

of the ultimate result in the case. The people of the east end of the county had a right to institute suit for the retention of the county seat at Lincoln: that no one denies; for every man is entitled to his day in court: but when bringing the suit the county, through its board of county commissioners, was made the defendant, there was nothing to do but to defend the position of removal—a position that had been thrust upon the county by the people themselves. To do less than defend the suit would be an acknowledgement by the county that the people had no rights and that the expressed will went for naught. Therefore there should be no confusion at this late hour as to the duty of the county in the matter, as any expense that has been incurred by the county has been forced upon it, and in incurring that expense the county has merely attempted to carry out the instructions given its representatives; and a failure on the part of the authorities of the county to carry out such instructions would have placed the governing authorities in the position of being misrepresentatives.

Whatever activities the people of the community of Carrizozo may have exerted in behalf of removal are not germane to the question—yet, naturally, they have done what they could to secure the county seat—but it is well to remember that the suit instituted against the removal of the county seat was initiated by those who were, and still are, opposed to removal and that it was brought against the board of county commissioners of Lincoln county, the only body within the county with authority to act for the county. It must, therefore, be plain to every thinking man where the responsibility for any costs resulting from such action had its origin and where it still rests. But for this suit no attorney fees would have been paid, the court house and jail would have been long since completed and occupied and a dual government, such as now exists in the county, would have been impossible.

Commissioners Proceedings.

The Honorable Board of County Commissioners for the County of Lincoln, Territory of New Mexico met in regular session, in the temporary court house in the Exchange Bank building, Monday morning, July 3, 1911. The session was called to order by Commissioner Robert Taylor at 9:00 a. m., Chairman White being absent.

The following were present:

Hon. Robert Taylor, Member.
Leo B. Chase, Deputy.
Wm. M. Barnett, Deputy Sheriff.

At 9 a. m. Commissioner Taylor adjourned the session to meet again at the same place in Carrizozo, N. M., on Monday, July 10th, 1911, at 9:00 o'clock a. m.

I certify that the above is a true transcript of the meeting July 3, 1911.

ADDITIONAL LOCAL.

John H. Canning drove up to Nogal Tuesday to attend to some matters of business.

Messrs. Phelprey and Sherry were up from Alamogordo Saturday, and played with the "Outlaws" against the Carrizozo ball team.

Bennett Dingwall and Gil Robertson went to Alamogordo last Sunday to play ball, and are happy over the fact that the Alamos were victorious over the El Pasos to the tune of 5 to 4.

Lute Jennings was down from Parsons Tuesday. The floods have changed the face of nature in the mountains, Lute says, but in no manner so much as in verdure—the finest grass in fifteen years is the verdict.

Mr. and Mrs. W. A. Stewart, parents of Mrs. W. E. Baskin, arrived last Friday and are visiting the Baskin family. They will go to Roswell soon to visit another daughter. Mr. and Mrs. Stewart live in Baskin, Louisiana.

Mrs. M. J. Hurt came over from Capitan Monday, on her way to her home in Taylor, county, Texas. She was accompanied by her son, Robert A., whom she had been visiting for the past month, and was accompanied by him as El Paso.

Wm. H. Barnett had a fall last week that has incapacitated him to an extent that he is unable to work, walk or ride. The injury affects him more than the average man, as his life has been very active, and enforced inactivity is quite irksome.

Governor Curry came through Sunday on his return from Washington and Santa Fe, but remained only during the train's stop. He was joined by W. M. Reily, and the two left for Phoenix, Arizona, near which place they have mining interests.

Cards are out announcing the marriage of Miss Cora Kelley to Mr. Lemuel A. McCall next Wednesday, July 26th. The ceremony is to take place at the home of the bride's parents, Mr. and Mrs. Mills B. Foreman. Mr. and Mrs. McCall will be at home at Carrizozo after August 1st.

A baby girl put in an appearance at the home of Mr. and Mrs. Frank A. English Wednesday.

Mother and babe reported getting along nicely, but Frank apparently has ceased to associate with his fellow-man, as he has not appeared on the streets since the event.

A game of ball is scheduled for Sunday on the local grounds, the contestants to be White Oaks and Carrizozo. A good game is anticipated, but we hope it will not be a fifteen-inning affair—it's too hard on the suspenders.

A washout Tuesday night just below Oscuro station delayed traffic on the line for about ten hours. A bridge and some of the road bed were carried away by the flood. Following several seasons of dry weather, it's a novelty to write of a flood washing out bridges and tracks.

Married: Near Capitan, on Wednesday of last week, Gregorio Pino and Miss Raymunda Silva, Father Grima, of Lincoln, performing the ceremony. The groom is the son of Mr. and Mrs. Preciliano Pino, of this place, while the bride is the daughter of Henry Silva, who lives in the Tison mountains. The newly wedded pair will make their home on a ranch near this place.

Chas. B. Lane came over from Alto Saturday and addressed an audience here that night, his subject being "Christianity as applied to Socialism." He left the following day for Willard, Torrance county, where he attended a territorial meeting of the socialists. Returning to this point Wednesday morning, he left the same afternoon for home, accompanied by his two girls, who had come this far with him.

To Vote August 7th.

About three hours after the News had gone to the postoffice last Friday, we received a telegram from Washington stating that the senate had agreed to vote on the statehood resolution August 7th. Since that the press has confirmed the report, with the additional information that the house resolution is to be amended. This may mean defeat, and certainly means delay; yet many profess to believe that the house will concur in almost any amendment the senate may choose to adopt. It may be true, but it rather appears more like a move to do nothing.

Carrizozo vs. Outlaws.

7 to 6.

The star game of the season was played on the local grounds last Saturday afternoon, the contestants being the Carrizozo ball team against a team picked by Jim Woodland, which bore the pseudonym of the "Outlaws." The "Outlaws" had some of the best players this county ever had, and they played ball, too. But while individual players were of the best, the team was handicapped by the fact that the team had never played together; but even then the "Outlaws" played remarkable ball, and at one time the game looked like it was lost to them.

They made an excellent start, coming first to the bat and scoring twice, and it took the local team a number of innings to overtake them, which was finally accomplished, however, and at the end of the seventh inning the score stood 3 to 2 against the "Outlaws." In seventh the "Outlaws" got in some safe hits and made an astonishing score of four runs, thus doubling that of the home team. Our boys failed to score in the seventh, also in the eighth, and while the "Outlaws" made no runs in the eighth nor the ninth, the game was beginning to look squally, and all fandom felt that the Browns had inevitably lost. Nevertheless, when the home team came to the bats for the last half of the ninth, they made a grand rally, sending three men around the base before the third man was counted out; and the score was tied, the excitement intense and the grand stand and the bleachers all yelling like mad.

Both teams now settled down to play ball in earnest, and if ever ball was played on a Lincoln county diamond it was witnessed for the next five innings. Not a man crossed home plate safely on either team during the five innings following the ninth, and all began to fear that the shades of night would fall before the tie could be untied. Again the "Outlaws" failed to score and the home team came to bats for another trial. The sun was hanging low and the players were tired, but the bleachers and the grand stand kept up an incessant roar, never for a moment failing to applaud a good play or to condemn a bad one. Two men of the home team had gone down but the third had singled and while the fourth man was at the bat stole second base. A single that went dinkily along the grass, rolling gently toward the shortstop, was improperly judged, the batter went to first and the runner on second came home, thus ending the game, the score standing 7 to 6 in favor of the home team.

A fifteen inning game had been played to decide the supremacy of the teams, the first, to our knowledge in Lincoln county, and there was never a dull moment during the entire time. The most remarkable feature of the game, in one sense, at least, was the pitching of both teams—Gallacher for the "Outlaws" and Robertson for the home team. No man relieved either of these pitch-

ers for the whole time, and both came out, contrary to the fondest hopes of the adherents of either team, in the best of condition, and were both pitching magnificent ball at the end. The catchers, too—Van Schoyck for the "Outlaws" and Townsend for the locals—stood the grueling given by their respective pitchers, and were each doing better at the close of the game than at the start. Numerous good plays were made by other individuals on each team, and all, with one accord, declared it the most interesting and exciting game ever played on the local diamond. Fandom was badly divided, the "Outlaws" probably having more rooters than the home team, and while the home team was hailed as victors there was no disposition to discount the playing of the "Outlaws;" because there was no dishonor in such a defeat.

The following was the line-up:

CARRIZOZO - NEW MEXICO

ENCOURAGING BRIGHT PUPILS.

Parents and educators everywhere will be interested in the experiment now being tried in the Cincinnati public schools of establishing a classroom for especially bright pupils, which would appear to be the logical accompaniment of the classroom for backward pupils. The proposition that it is as unfair to hold back the apt or clever child in the ranks of the mediocre as it is to speed the dull pupil to a pace he cannot maintain appeals as reasonable and common sense. It will be argued with much force that the system which makes provision for caring for the backward pupil cannot be justified without provision is made for accompanying the needs of those who can advance more rapidly than the average, says the St. Paul Pioneer Press. The proposition simply provides for the application to schooling of the plan, that is generally adopted and followed in the business world, where wage scales, chances of promotion and all the advantages are based on the ability of those employed to advance rapidly in one line or another. This has not been the rule in the school where the system has been adjusted to meet the requirements of the average pupil, with special provision made for those below the average. The net result of this system has been retardation, for which the pupils are not to blame. The Cincinnati educators have decided that the old system of trying to make all children fit the same educational pattern is unsatisfactory in general and particularly unfair to the bright pupils, who are to be given special attention under a more sensible and equitable method.

In putting its ban on the "common drinking cup," the New York Board of Health is doing a good thing. The public drinking cup is a carrier of infection and the habit of using an individual drinking vessel under all circumstances might be good to acquire. There are folding cups of metal, rubber and even of paper, which one can keep about the person without discomfort and can get at trifling expense. Scarlet fever, diphtheria, influenza and even tuberculosis are transmissible, and are frequently transmitted, through promiscuously used water glasses and teacups.

The famous auto expert who broke his neck in an effort to establish new speed records might have given his life in a better cause. A man, it is true, can easily find out if human manufacture can stand the terrific strain put upon it by these speed experiments, but if he finds to the contrary the knowledge is seldom of any use to him, nor does its acquisition serve even the minor purpose of being a warning to others. The need of the age is to learn more how to enjoy life, rather than faster ways of rushing through it.

England is worried over the \$75,000,000 annual destruction inflicted by rats. Most thinking people, are, and what worries most is that the measures for wiping out the pests are received by the rodents with cheerful indifference.

Let us not abolish the cat just yet. Doctor Young tells us that the rat is the original and busy conveyor of germs.

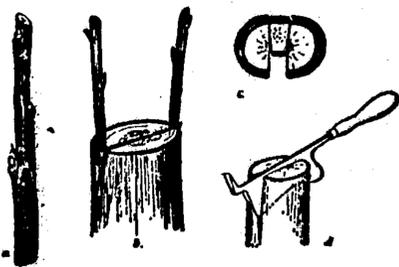

METHOD IN CLEFT GRAFTING

Scion Should Consist of a Portion of the Previous Season's Growth of the Tree.

To make a cleft graft select a branch one or one and one-half inches in diameter and sever it with a saw. Care should be taken that the bark be not loosened from any portion of the stub. Split the exposed end with a broad thin chisel or grafting tool. Then with a wedge or the wedge-shaped prong at the end of the grafting tool spread the cleft so that the scion may be inserted.

The scion should consist of a portion of the previous season's growth of the tree to be propagated and should be long enough to have two or three buds. The lower end of the scion, which is to be inserted into the cleft, should be cut into the shape of a wedge, having the outer edge thicker than the other. In general it is a good plan to cut the scion so that the lowest bud will come just at the top of this wedge in order that it will be near the top of the stock. The advantage of cutting the wedge thicker at one side is illustrated showing how the pressure of the stock is brought upon the outer growing parts of both scion and stock, whereas were the scion thicker on the inner side the conditions would be reversed and the death of the scion would follow.

The importance of having an intimate connection between the grow-

A. Scion. B. Scions inserted in cleft. C. Cross section of stock and scion. D. Grafting tool.

ing tissues of both scion and stock cannot be too strongly emphasized, for upon this alone the success of grafting depends. To make this contact of the growing portions doubly certain, the scion is often set at a slight angle with the stock into which it is inserted. In order to cause the growing portions of the two to cross.

After the scions have been set, the operation of cleft grafting is completed by covering all cut surfaces with a layer of grafting wax.

Cleft grafting is particularly adapted to top-working old trees, that is, changing them from undesirable to desirable varieties. Branches too large to be worked by other methods can be cleft grafted. Sometimes several varieties are grafted on a single tree. The best time for cleft grafting is in the spring just after growth has begun. Wood for scions is usually cut in the fall, tied in bundles, and buried in sand to protect them from extremes of heat and cold until they are to be used.

Caring for Cherry Tree.

If your favorite cherry tree is badly decayed, clean out everything in the cavity as carefully as your dentist would prepare a tooth for filling, then spray thoroughly with a two per cent. solution of formalin, fill the cavity solid with cement and paint over all.

HOW PRIMROSES ARE GROWN

Best Way is to Propagate From Seeds, Which Should Be Sown as Soon as Soil is Warm.

The best way to propagate primroses is from seeds, which should be sown as soon as the soil becomes thoroughly warm.

The seed are quite small, but are easily scattered by sowing in a box or bed. The soil must be sifted fine and of a moldy consistency, which will not bake or harden or become dry. Press the surface of the soil smooth and

Primrose is Cheerful.

level, sow the seed evenly and thinly, and cover lightly. It is a mistake to sow deeply.

The ground must be kept moist and covered, that is, protected from the rain, wind and hot sun, until the plants appear. It requires from three weeks to a month to bring the plants to the surface, then they must be carefully dusted with a little tobacco and sulphur mixed, to keep down the fungus and insects.

The primrose requires a moist, but not wet soil, and if the soil is allowed to dry out before the plants appear, propagation will be greatly retarded or entirely stopped.

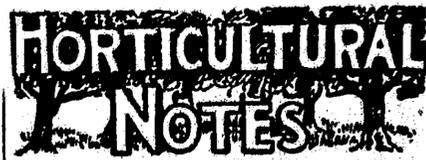

Used in borders or in pots, the little primrose is always a beautiful, cheerful plant.

Time to Spray Apple Trees.

Everyone who has apple trees should spray them just as the blossoms fall with a solution made of combining two pounds of arsenate of lead, one and one-quarter gallons of the concentrated lime sulphur solution to 50 gallons of water.

Cost of Spraying.

It costs about 10 cents per tree to spray an orchard three times, with 50 trees to the acre. This cost includes both spray material and labor, but does not cover the cost of the spray machine.

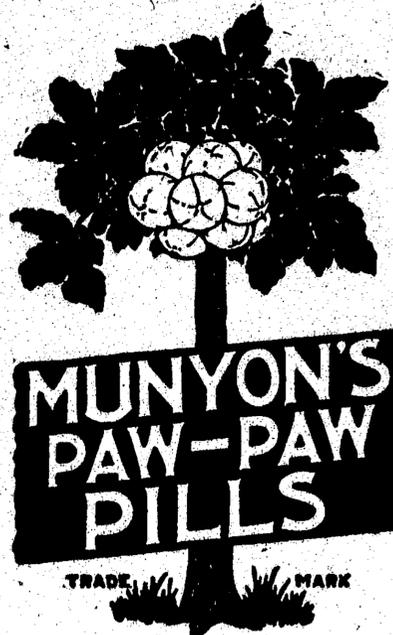

HORTICULTURAL NOTES

Sow wood ashes broadcast in the orchard. The best two methods of grafting is cleft and side grafting. Always buy clean, straight trees with short stems and ever then do not be afraid to prune before planting.

If you think of setting out an orchard and have had no experience, better hire a good man to show you how.

The flowers of many trees, like the oak, elm and hickory, are so inconspicuous that they are popularly supposed to be altogether lacking.

FREE

A trial package of Munyon's Paw Paw Pills will be sent free to anyone on request. Address Professor Munyon, 53d & Jefferson Sts., Philadelphia, Pa. If you are in need of medical advice, do not fail to write Professor Munyon. Your communication will be treated in strict confidence, and your case will be diagnosed as carefully as though you had a personal interview.

Munyon's Paw Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods. They do not scour, they do not gripe, they do not weaken, but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. In my opinion constipation is responsible for most ailments. There are 26 feet of human bowels, which is really a sewer pipe. When this pipe becomes clogged the whole system becomes poisoned, causing biliousness, indigestion, and impure blood, which often produce rheumatism and kidney ailments. No woman who suffers with constipation or any liver ailment can expect to have a clear complexion or enjoy good health. If I had my way I would prohibit the sale of nine-tenths of the cathartics that are now being sold for the reason that they soon destroy the lining of the stomach, setting up serious forms of indigestion, and so paralyze the bowels that they refuse to act unless forced by strong purgatives.

Munyon's Paw Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverish it; they enable the stomach to get all the nourishment from food that is put into it.

These pills contain no calomel, no dope; they are soothing, healing and stimulating. They school the bowels to act without physic.

Regular size bottle, containing 45 pills, 25 cents. Munyon's Laboratory, 53d & Jefferson Sts., Philadelphia.

COMES A TIME

When Coffee Shows What It Has Been Doing.

"Of late years coffee has disagreed with me," writes a matron from Rome, N. Y.

"Its lightest punishment being to make me 'logy' and dizzy, and it seemed to thicken up my blood.

"The heaviest was when it upset my stomach completely, destroying my appetite and making me nervous and irritable, and sent me to my bed. After one of these attacks, in which I nearly lost my life, I concluded to quit the coffee and try Postum.

"It went right to the spot! I found it not only a most palatable and refreshing beverage, but a food as well.

"All my ailments, the 'loginess' and dizziness, the unsatisfactory condition of my blood, my nervousness and irritability disappeared in short order and my sorely afflicted stomach began quickly to recover. I began to rebuild and have steadily continued until now. Have a good appetite and am rejoicing in sound health which I owe to the use of Postum." Name given by Postum Co., Battle Creek, Mich.

FOR LIGHT LUNCHEON

VARIETY OF SANDWICHES IS ALMOST ENDLESS.

Vegetarian and Meat Eater Alike Easy to Accommodate—Lettuce Perhaps One of the Daintiest in the Long List.

Lettuce—Select the smaller leaves of a head of lettuce, wash thoroughly and roll in damp napkin and place on ice. Make the following dressing. If made as directed it will be perfect: Yolks of two eggs, three-quarters of a pint of olive oil, one tablespoonful of lemon juice, saltspoonful of salt, saltspoonful of mustard, dry, dash of cayenne pepper. Have bowl, egg beater and oil as cold as possible. Break the yolks into the bowl, mix with salt, mustard, and cayenne pepper. Begin to beat with egg beater, adding the oil a little at first, then more rapidly until half is used. Then add the lemon juice, beat well, then the rest of the oil. When finished spread on the crisp lettuce leaves and place between thin slices of buttered bread.

Olive and Nut—A 10-cent bottle of olives stuffed with red peppers and a quarter of a pound of shelled walnuts. Chop both finely together, mix with a boiled salad dressing, and spread between thin slices of buttered bread.

Ham—Mix half a teaspoonful of dry mustard with a quarter of a teaspoonful of sugar, add two tablespoonfuls of cold water. Have a quarter of a pound of boiled ham finely chopped. Add this to the well mixed mustard, spread between thin slices of buttered bread.

Chicken—One cupful of finely chopped chicken, stewed preferred as more moist. Mix with a little gravy, if possible; if not, a little boiled salad dressing is good. To this add just a dash of celery salt. Spread between slices of buttered bread.

Sardine—French sardines are best. Buy a 25-cent box. Remove skin and backbone from the fish. Mash well and add a tablespoonful of lemon juice. This spread between little saltens is dainty.

Egg—Boll two eggs hard fifteen minutes. Place in cold water for a second to keep white from discoloring, remove shells, and place eggs in a bowl with a piece of butter the size of a walnut and chop. When chopped quite fine add a dash of pepper, a saltspoon of salt, and one-half a teaspoonful of onion juice. Spread between thin slices of buttered bread.

Peanut—Buy a pint of freshly roasted peanuts. Remove the shells and skins and chop finely. Add enough melted butter to make peanuts stick together. Spread between thin slices of butter bread.

Cucumber—Select rather a small cucumber. Slice thin and cover with the following dressing: Three tablespoonfuls of vinegar; five tablespoonfuls of salad oil; one saltspoonful of salt; one-half teaspoonful of onion juice; one-fourth teaspoonful black pepper; dash of cayenne pepper. Place cucumbers in dish small enough for dressing to cover, then place dish on ice to chill. Spread between thin slices of buttered bread.

Egg Salad.

Six strictly fresh eggs boiled hard; when they are cold peel off the shells and cut in quarters; arrange on a bed of crisp lettuce, with this dressing dropped on by the spoonful: Heat one cup of sweet milk; add two level tablespoonfuls of cornstarch moistened with a little water or cold milk; stir until it boils and thickens; have ready the beaten yolks of two eggs; mix a little of the thickened milk with them, then turn all back in the hot milk; add a rounded teaspoonful of butter, a little salt and pepper; cook a minute longer, then take from the fire and after it is cooked add two tablespoonfuls of vinegar; try it for supper some night and see if it isn't great.

POOR RETURN FOR CHIVALRY

Incident That Probably Has Forever Discouraged Kind-Hearted Mr. Jones.

Chivalrous Mr. Jones purposely dropped a fifty-cent piece at the foot of a poorly dressed woman who passed through the Subway turnstile loudly lamenting that the ticket agent had cheated her out of a half dollar, then he picked the money up and gave it to her.

"Excuse me, madame," said Mr. Jones, "I think you dropped this."

"Oh, no," she said, "It can't be mine. Perhaps you dropped it, yourself."

"Oh, no," said Mr. Jones. "It is yours, I am sure. I picked it up just as you passed."

She took the money, and hurried after another man who had passed at the time the money dropped.

"Excuse me sir," she said, "I think you lost this."

"Thanks," said the other man, and jumped aboard a train that was ready to start.

"—!" said chivalrous Mr. Jones.—New York Times.

DOCTOR PRESCRIBES CUTICURA REMEDIES

"I wish to let you know of a couple of recent cures which I have made by the use of the Cuticura Remedies. Last August, Mr. — of this city came to my office, troubled with a severe skin eruption. It was dermatitis in its worst form. It started with a slight eruption and would affect most parts of his body, thighs, elbows, chest, back and abdomen—and would terminate in little pustules. The itching and burning was dreadful and he would almost tear his skin apart, trying to get relief. I recommended all the various treatments I could think of and he spent about fifteen dollars on prescriptions, but nothing seemed to help him.

"In the meantime my wife, who was continually suffering with a slight skin trouble and who had been trying different prescriptions and methods with my assistance, told me she was going to get some of the Cuticura Remedies and give them a fair trial. But as I did not know much about Cuticura at that time I was doubtful whether it would help her. Her skin would thicken, break and bleed, especially on the fingers, wrists and arms. I could do nothing to relieve her permanently. When she first applied the warm baths of Cuticura Soap and applications of Cuticura Ointment she saw a decided improvement and in a few days she was completely cured.

"I lost no time in recommending the Cuticura Remedies to Mr. —, and this was two months ago. I told him to wash with warm baths of the Cuticura Soap and to apply the Cuticura Ointment generously. Believe me, from the very first day's use of the Cuticura Remedies he was greatly relieved and today he is completely cured through their use. I have great faith in the Cuticura Remedies and shall always have a good word for them now that I am convinced of their wonderful merits." (Signed) B. L. Whitehead, M. What Was She Wearing?

The new fireman was telling his wife about the fire.

"It broke out at midnight in the Von Biffers' house on the avenue," he said, "and just as we got there Miss Von Biffer came stumbling out of the flames and smoke carrying her little niece all wrapped up in her arms. It was the bravest act I ever saw."

"What was she wearing?" inquired the fireman's wife.

STONE IN BLADDER REMOVED IN REMARKABLE WAY

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as stone in the bladder and prescribed Lithia Water. I took Lithia Water and tablets for some time and received no relief from them. I stopped taking medicines for some time and having some Dr. Kilmer's Swamp-Root in the house, I decided to try it and felt much relieved; while taking the second bottle commenced to pass gravel in urine until I had passed in all at least a half a dozen or more and have not suffered the slightest since and in all have taken one bottle and a half and feel very grateful to Dr. Kilmer's Swamp-Root.

Yours very truly,
H. W. SPINKS.

Personally appeared before me this 16th of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that same is true in substance and in fact.

Kissing Breach of Peace.

The better half of a respected citizen of New Jersey recently had the temerity to hale her lord and master before the court on a charge of having kissed her against her will. For this heinous offense this shameless Jersey benedict was bonded over in \$100 bail to keep the peace, and, moreover, was warned by the judge never again to kiss his wife without first obtaining her consent in due form. If he is any kind of a man, probably he will never want to kiss her again.—Washington Herald.

JAMES BRAID SAYS:

No Athlete can do himself justice if his feet hurt. Many thousands are using daily, abroad and in this country, Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes. All the prominent Golfers and Tennis Players at Augusta, Pinchurst and Palm Beach got much satisfaction from its use this Spring. It gives a restfulness and a springy feeling that makes you forget you have feet. Allen's Foot-Ease is the greatest comfort discovery of the age and so easy to use. It prevents soreness, blisters or puffing and gives rest from tired, tender or swollen feet. Seventeen years before the public, over 30,000 testimonials. Commissioners to Meet.

Carrizozo, N. M.,
July 17, 1911.

To All Whom It May Concern:

Any and all persons having business before the Board of County Commissioners of Lincoln County, New Mexico, either as a Board of County Commissioners, or a County Board of Equalization, are hereby notified that the regular July, A. D. 1911, meeting of said Board of County Commissioners, sitting as a Board of County Commissioners, and, also as a County Board of Equalization, will be convened and held at Carrizozo, Lincoln County, New Mexico, on the 24th day of July, A. D. 1911, at 9 o'clock a. m.

Board of County Commissioners, Lincoln County, New Mex.
By W. R. WHITE,
Chairman.

The Methodist Church.

With the opening service next Sunday of the new Methodist chapel, we believe the dawn of a new era in Christian work in Carrizozo is at hand.

Not only is the building itself an attractive addition to the town, but with greater facilities and renewed interest, it is the aim of the pastor and the officers of the church to make this edifice a center for moral and religious uplift in the community.

Although hampered for the time by the temporary absence of many of our workers, we trust that as the cooler days of September draw near the return of these absent ones, and the incoming of new faces and forces, will find us in better shape than ever before to provide you with an attractive church home. The pastor now expects to be more fully at your service than has been possible heretofore. The various societies of the church, under new and improved conditions, will be more effective.

We, as officers of the church, most cordially invite you to join us in the work; to enjoy the new and attractive home; to profit by the better conditions under which we will labor, and to share as well in the greater opportunities and obligations which the change affords.
