NUMBER 38

The Democratic Rally.

The first big democratic rally of the campaign in Lincoln county was held in Carrizozo Tuesday evening. The Real hall was packed to the doors with an enthusiastic audience eager to hear such able speakers as H. B. Ferguson, of Albuquerque; Alvin N. White, of Silver City; and E. C. de Baca, of Las Vegas, nominee for Lieut. Governor. Thanks to Mrs. W. C. McDonald, wife of the democratic candidate for governor and a number of other patriotic ladies, the building was beautifully decorated with national bunting, the designs being artistically worked out. Geo. B. Bent, of Otero county, nominee for the senate, occupied a seat on the stage. The speakers were introduced by Dr. M. G. Padert in his usual happy style. Mr. Baca, a progressive republican, was the first speaker to address. He was followed by Mr. White, another progressive, who spoke for about forty minutes, very expressively giving his reasons for cutting loose from the old gang, and affiliating with the democratic party, dwelling on the details of the campaign, and impressing his hearers with the importance of voting the democratic ticket, giving the new state a clean administration, and forever doing away with gang rule. He was intently listened to, and loudly applauded for his logical argument.

When Harvey B. Ferguson was introduced the audience cheered to an echo. Mr. Ferguson has been heard on many occasions in this county, and always on the side of right against might. He prefaced his remarks by stating he was not a stranger in Lincoln county, having shared a cabin with his friend Dr. Paden 29 years ago in White Oaks, as prospectors. He spoke for more than an hour on the issues of the campaign, and dwelt on the ring methods of the "old guard" for the past twenty years, stating that he firmly believed that it had seen its last inning, and would go into history after Nov. 7. He stated thousands of republicans were deserting the old party and affiliating with the democratic party, not because it was the democratic party, but because it was an honest party—a party of the people and for the people. He briefly touched on the record of

Mr. Bursum, the republican nominee for governor—the man that burned the books—but when he mentioned the name of W. C. McDonald as the first governor of the state of New Mexico the applause was deafening. The blue ballot, he stated, called for the support of all, as it made the constitution easier of amendment. Mr. Ferguson was loudly applauded.

Killed in the Yards.

Last Saturday morning the body of a Mexican named Jose Tarivio was found near the coal chute badly mangled. He was a new hand, having lately come from Mexico, and is supposed to have fell between the cars, which passed over his body killing him instantly. Justice of the Peace Massie was notified and summoned a jury, who, after viewing the remains, returned the following verdict:

We the undersigned justice of the peace, and jury, who sat upon the inquest held over the body of Jose Terivie, found dead in Carrizozo, Lincoln County, New Mexico, and reported by Albert Farley, on the 14th day of October, 1911.

We find that the deceased came to his death by reason of his falling off a car in the coal chute approach, and the car passing over him, in the yards of the El Paso and South Western Railroad Co.

Death of Tom Sebree.

News reached this town this week of the death of poor old Tom Sebree, who for several years past was a citizen of Capitan, the end of a long and eventful life coming at Tacoma, Wash-ton, to which place he recently went. The deceased was an ex-railroad man, having the best years of his life in the railroad service in different capacities and at one was possessed of considerable property. Tom was a genial, good-humored soul, full of anecdote, who loved to talk about railroading when he was a young man, and invariably wound up an interesting story with a hearty

BEING A GOOD FELLOW.

Every now and then we hear of some one dying in bitter poverty after having spent a fortune in "being a good fellow." Of such a one it is commonly said while he is alive and spending that he has a "heart like an ox and a hand always deep in his pocket;" he is spoken of—frequently within his own hearing—as a "prince among men" or "one of nature's noblemen." It seems passing strange that a man with the power to attract to himself so many warm friends should not have any willing to pay his funeral expenses, says the New York Herald. Yet such is often the case. It is a fact frequently commented on by philosophers that these peerages of cafe creation die with the fortunes that produce them. A real "prince among men" or "nature's nobleman" loses his title when his money ceases to burn holes in his pocket, after which he should set aside a little money for his own obsequies. But those who argue from the forlorn and friendless passing of one of these "good fellows" that there are no real friends to be had in this world are wrong. Every one can make friends, and stanch ones, too, by the practice of unselfishness, but not by wasting money on the worthless in the vain hope of being considered a "good fellow," which is merely another name for a complete fool.

There's a new health-fad, blowing soap bubbles. A New Yorker who has just returned from a vacation trip to the Saranac lake region saw in one of the villages there a number of people, young, middle-aged and elderly, with clay pipes and glasses of suds, vying with one another in the childish pastime. Narrating his experience to a reporter, he exclaimed: "I inquired of one resident if the place had become a retreat for the mildly insane, and he told me that they were all people who had—or thought they had—weak lungs. A doctor from New York was up there last winter and introduced soap-bubble blowing as one of the aids in the cure of consumption. It makes the patients breathe deeply." It is plausible as many another therapeutic novelty, and certainly no harm can come of it.

A little while ago there was some amusement because two American women had married Frenchmen claiming to be able to give them the title of Duchess of Choiseul, and each questioned the right of the other to the title. Now there will be more amusement. Litigation has brought out the fact that it belongs to neither of them, though the husband of one of them, formerly Mrs. Paine, is the seventh Duke of Praslin.

The cable says of two Hungarian statesmen who engaged in a duel the other day that "both were wounded in the fifth bout." Usually they get scratched on their right arms.

COMBINE HAMES AND COLLAR

Nebraska Man Invents Device Which May Be Adjusted to Different Sized Necks of Horses.

Mr. Charles Slecker of Waco, Neb., has recently invented a device which provides a uniform combined collar and hames whereby to dispense with the usual collar and hames, which may be adjusted for different sized necks, and which when in use will

prevent soreness and chafing, equalize and fairly distribute the draft, and which may be easily placed and removed, says the Scientific American. The illustration shows the improvement in the position it will occupy when in use, and to remove it, it is only necessary to release the free end of a strap from a buckle. This free end may be now withdrawn from a loop and a ring, when the improvement may be moved from the horse's neck. No injurious strain is brought to bear in any part, the draft being equalized.

KANSAS HORSE IS KNOWING

Animal Will Open Gate to Pasture by Pulling Out the Wooden Pin With His Teeth.

Mr. Thomas Botkin, of Kansas, owns a horse which he declares has great reasoning powers. The barnyard is separated from the small pasture by a fence and gate. The gate is fastened by a wooden pin and auger hole in the gate post. When the

An Intelligent Animal.

horse wants to enter the pasture he reaches over the fence, pulls the pin out of the hole with his teeth, and then shoves the gate open by the weight of his body.

Balanced Food.

A balanced food is one that contains the food nutrients in the proper proportions for building muscle, for producing fat, and for keeping up the animal's heat. Corn has not enough of the flesh-building nutrients to properly nourish an animal if fed alone. Alfalfa and clover hay have too much of the flesh-making nutrients. Feeding the corn and alfalfa, or corn and clover, gives a balanced feed. Twelve pounds of alfalfa, eight pounds of ground corn, and whatever corn stover the animal wants, makes a good daily ration according to the North Dakota Agricultural college.

INFLUENCE OF A POOR SIRE

Improvement in Types of Horses Bred on Our Farms of Greatest Importance to Farmer.

The fact that the sire is concerned with so many more individual offspring in a given season than a single mare, makes it readily seen that his influence is much more extensive. To improve the horse stock of a given community through the female line, for instance, would require the use of fifty or more superior mares to accomplish the same results as might be secured by the use of a single stallion.

Purity of breeding insures prepotency and since, in the grading-up process the pure-bred parent is usually the sire, it is essential that he be of such a character that the impression which he stamps upon his offspring shall be only of the best.

Defects in structure cannot be offset by type or breeding of the highest degree of excellency. A horse may be a superior individual in a class by himself, but he must conform closely to the specified requirements of the type with which he should class.

The influence of well-bred sires in any community can readily be seen by observing the horses used in the fields, on the road and particularly in the horse markets of the cities.

Certain states that have paid attention to horse-breeding, now produce animals that can almost be told at a glance by dealers, without knowing in advance where they came from, so superior is their quality. Other states have exactly the reverse reputation and as soon as a lot is announced as coming from such a state, dealers will desert the sale ring.

Horses coming from such localities where farmers are averse to paying a decent service-fee, but prefer to use scrubs, are of poor type, vary widely

A "Grade" Shire Stallion.

in color, form, size, and weight, and possess few qualities which fit them for long and useful service.

Naturally such horses do not pay. They bring the lowest prices in the market, their life of usefulness is short, they are not pleasing to the eye, often vicious and untractable and most important of all is, it costs just as much to feed and care for one of these miserable scrubs as it does to feed and care for a pure-bred. So important has been the influence of scrub sires in some states, that the legislatures have been prevailed upon to pass laws to improve the situation.

To be profitable, sows must be sure breeders.

Don't let the nursing sows run down too much in condition.

HOW THE PEOPLE OF SUNNY LAND COOK CHICKEN.

Recipes for Italian Tripe, for a Risotto, and for a Delicious Fruit Dish Designed for Holiday Feasts.

Chicken Italian.—One large fricassee chicken, cut up in pieces as for fricassee. Take two good sized onions and chop fine and fry in olive oil until about done. While onions are frying add one-fourth teaspoon each of powdered cinnamon, nutmeg and allspice. Add chicken and let the pieces sear a little in the olive oil, then add some clear soup stock boiling hot, or hot water will do. Some Italian conserve, about tablespoon diluted in some of the stock, and a cup of dried Italian mushrooms previously soaked in hot water. Let all cook slowly about one hour, then add some parsley and garlic chopped fine and about two or three French carrots cut in fine strips. Cook slowly again until chicken and mushrooms are tender. Serve on deep platter. Do not have too much gravy. In using Italian conserve be careful about putting in salt, as the conserve is already salted.

Italian Tripe.—Take the tripe and cut into strips about two and a half inches long. Boil in salted water about one minute, drain and put on to boil in fresh water. Let come to boiling point, drain and once again put on in clean, fresh water. Take onions (as many as needed for the amount of tripe), chop fine and fry in olive oil to a golden brown. While onions are frying add half teaspoon each of powdered cinnamon and nutmeg, add to the tripe. Add a can of strained tomatoes and some clear soup stock, some garlic and parsley and the top green part of one stalk of celery chopped very fine. Take half tin of sardines and mash fine and add to the tripe. Let all cook slowly until tripe is tender. Salt and pepper to taste.

Italian Dish for the Holidays.—Take large ripe peaches and remove the stone without cutting the peach in two pieces, place them in bake pan with some melted butter in bottom. Take some macaroons and mash them up in good port wine into a thick paste. Take almonds, blanch them and chop very fine and add to macaroon paste. Fill up the peaches with this paste, put a good sized piece of butter on top and bake in medium oven until peaches are soft. Baste frequently with the melted butter. These are delicious. Serve hot.

An Italian Risotto.—Wash about half a dozen large potatoes and boil until done with their skins on. Remove skins and mash them, adding as much flour as the moisture of the potatoes will take up. Roll out on bake board about half an inch thick and cut in squares about inch square. With the thumb press in the center and roll toward edge; they will form into shapes like little shells. Let them dry for about fifteen minutes, then put on to boil by dropping them into boiling salted water. Boil for about three-quarters hour. Drain and put in large bowl, add a good sized slice of butter, some thick strained tomatoes and a cup of grated Parmesan cheese. Mix all together and serve at once.

Apples and Red Jelly.

Take six good-sized apples and core them. Put two cloves into each apple and as much granulated sugar as it will hold. Place them in a baking pan, without touching, and add a cup of water, or more, as you think fit. Look at them often and try to keep them whole. When done, take out carefully and place in dish. Strain the sirup they were cooked in and put in another saucepan, with a little gelatine (dissolved) and a few drops of red coloring. Boil till quite clear and then put around apples. Set away to cool till supper time.

Coachman Had to Earn Bequest.

A quaint paragraph appears in the will of Mrs. Jule Hall, of Brighton, England. At the reading of the will the other day it was found that she had bequeathed £100 to her coachman, provided he is in her service at her death, and "if I do not die through or from the effects of a carriage accident when he is the driver."

Never judge the strength of a man's character by the size of his muscle.

JNO. A. HALEY, Editor

Democrats Name County Ticket.

After a three-day and three-night session, the democratic county convention adjourned at Lincoln Friday evening at six o'clock. The convention, during its lengthy deliberations, was marked by more than one hard contest, but little bitterness was displayed at any time.

John M. Penfield, for treasurer, Watt Gilmore, for assessor, A. H. Norton, for probate judge, J. E. Koonce, for superintendent of schools, B. R. Robinson, for surveyor, and Modesto Chavez, for commissioner of the first district, were nominated by acclamation.

For sheriff, 40 ballots were taken, seven names being voted upon without result. During the balloting the men receiving the highest number of votes were John W. Owen and A. T. Roberts, though at times other candidates made good showing. Finally the names of all candidates were withdrawn, the name of Porfirio Chavez was presented and he was nominated.

For clerk, three names were presented, viz: W. E. Kimbrell, S. W. Perry and D. W. Roberts. First ballot resulted in no choice, neither did the 2d and 3d, Kimbrell having a plurality. The name of Mr. Perry was withdrawn and Capt. Roberts was nominated after two more ballots.

One ballot only was taken on commissioner in district 3, W. M. Ferguson having received a majority, by previous agreement the name of Ed C. Pfingsten was withdrawn and Mr. Ferguson was nominated. In the 2d district, the names of R. H. Taylor and Melvin Franks were presented and several ballots taken, Mr. Franks leading in the balloting. After 7th ballot Taylor withdrew and Franks was nominated.

Scipio Salazar received the nomination for representative over H. D. Murray, on 2d ballot.

DECLARATION OF PRINCIPLES.

We, the democrats of Lincoln County, New Mexico, in convention assembled, hereby reaffirm our faith in the principles of the democratic party, and heartily endorse the nominees of the democratic party at the state convention held at Santa Fe, October 3-5, 1911, and urge all citizens who desire a clean government, economically administered, to lend their unqualified support to the nominees of said convention.

We further recommend to all people in New Mexico, irrespective of party, that the amendment to the constitution, proposed by the Flood Resolution, and known as the "Blue Ballot," offers the only beneficent manner to amend our constitution in the interest of

the people, and we, therefore, urge all voters to support the proposition of an easier amendment by making a cross in the square opposite the words, "For the Constitutional Amendment."

The democratic party pledges the nominees of this convention to an honest, economical and just administration of local affairs, and pledges its best efforts to secure the triumph of democratic principles in county, state and nation.

Feeling that honest, clean government is the principal issue in this campaign, we invite a comparison of the nominees of the county, district and state tickets, and with the belief that our cause is just, and that on the 7th of November the people of New Mexico will accord the verdict aright, we submit our claims to the highest tribunal in a representative government — the people.

The Statehood Jubilee Opened at El Paso.

A large number of our people are taking in the Statehood Jubilee in El Paso this week.

With two governors already there O. B. Colquitt, of Texas and R. E. Sloan, of Arizona — and the others due to arrive, with the city covered with a mass of national and Mexican colors and and bands playing everywhere, the big Statehood Jubilee is in full force.

Truly, El Paso is keeping open house in honor of her next door neighbors, Arizona and New Mexico. The flags and decorations are all in place, the electric lights have been strung and the last detail of preparation for the big celebration completed.

The Statehood Jubilee is one big show that was ready on time. There was no incompleting tag ends showing. Thursday morning when the governors began arriving and everything which has been planned for the intertainment of the people of the two new states and the visitors from Texas, Mexico and the southwest is working out with the precision of a circus performance.

The crowds have been pouring into the union station since Monday morning and the streets have taken on a holiday appearance. The hotel lobbies are crowded with out of town visitors to the Statehood jubilee and the reservation for rooms has taken up all of the available rooms, and and cots are being placed in the hotels to accommodate the overflow. The registration booth at the chamber of commerce is now open and the rooms in the city are listed there. The registration of all visitors is progressing rapidly at the chamber of commerce.

As rapidly as the visitors register they are given distinctive badges and will be included in all the public exercises.

The Baranca Cadets.

A class of Baranca Cadets was organized at the home of Mrs C. I. Walker on Oct. 5, consisting of the following boys: E. Sisneros, Fred Brockway, Ebb Jones, Roy Textor, Russell Bythewood Roy Cofer, Dewey Heron, William Peters, Maurice Edminson, Morgan Riley and Ralph Jones. All boys from 14 years up are invited to Sunday School at the Baptist church every Sunday and join the Baranca Cadets.

You are not experimenting on yourself when you take Chamberlain's cough remedy for a cold, as that preparation has won its great reputation and extensive sale by its remarkable cures of colds, and can always be depended upon. It is equally valuable for adults and children and may be given to young children with implicit confidence as it contains no harmful drug. For sale by all dealers.

Vote the Blue Ballot for easier constitutional amendment.

Biliousness is due to a disordered condition of the stomach and bowels. Chamberlain's tablets are essentially a stomach medicine, intended especially to act on that organ; to cleanse, strengthen and invigorate it, to regulate the liver and to banish biliousness positively and effectually. For sale by all dealers.

McDonald Fires Some Hot Shots into the Ranks of the Opposition.

A Few Paragraphs Taken From His Albuquerque Speech.

Mr. McDonald lays no claim to being an orator, but he held the closest attention of his auditors while he spoke. Among the many terse and impressive statements made by him were:

They say I am unknown and untried. The more the bosses try me the better they will know me.

The issue in this campaign is honest government, and not machine rule. The boss is the one great issue.

I am going to make the fight now through to election day, and if elections this year are what they have been in the past the fight will not end Nov. 7th, whether I am elected or not. I am in politics to stay until the machine is broken and the corrupt powers are driven out of New Mexico.

If I am elected and have the ability there will be no machines in the democratic party for five years. I will represent the people.

I believe in publicity. The question of publicity is not new to me. I have always believed in it and have practiced it in my business and if I am elected, I shall let the people know what is going on, particularly in one department.

Talk about a big 'slush fund.' Who has it? If we had it I would turn it back. We will, however, have enough to make this campaign and to prosecute and convict those who steal elections. If attempted, somebody will regret it.

I believe in according to capital every protection and safeguard it is entitled to. Every corporation I have anything to do with is controlled by me. I am always willing to take advice and am hunting for information from all sources, all the time, then take my time to think about it and do as I please.

It has been said that I represent big cattlemen. This is a terrible thing. They never told you I had sheep. Why didn't they say something about that sheep man? Why they are afraid I might get in the running too soon. The reason my sheep did not get in the running is that they have not been taught to vote.

I defy any man to show I have ever had any difficulties with a settler. We have some land that anyone can have for one-third what we paid for it. The charge that the foreign cattle barons are interested in this campaign or my election, in any way, is absolutely false. You'll hear from me whether I am elected or not.

I'll be around. The fight is going to be pretty warm and that is where I want to be. Forget whether you are a democrat or a republican. If you have the welfare of the state at heart, cast your vote intelligently and honestly. If you elect me, I'll do the best I can, and if you defeat me I will come to Albuquerque smiling the same as ever.

Hon. John Y. Hewitt, democratic nominee for judge of the third judicial district, visited Torrance and Otero counties this week in the interest of his candidacy. He reports conditions all along the line better than good for electing a full democratic ticket, state, district and county.

John W. Terry, democratic candidate for the state senate, spent a few days here this week in the interest of his candidacy. Mr. Terry has lived in Socorro for thirty years. The district of which he is the nominee is composed of the counties of Socorro, Torrance, Lincoln and Otero, and is known as the "shoe string district." He believes the new state will go democratic by a sweeping majority, as republicans in all the counties he has visited are flocking to the standard of the progressives who are showing increasing strength. Even Socorro county, that hot bed of republicans, is showing signs of going into the democratic column.

DEATH BEFORE 100 YEARS IS SUICIDE

Prof. Munyon Says Ignorance of Laws of Health Explains Early End of Life.

NOTED SCIENTIST HAS ENCOURAGING WORD FOR DESPONDENT MEN AND WOMEN

"Death before 100 years of age has been reached is nothing more or less than slow suicide. A man (or woman) who dies at an earlier age is simply ignorant of the laws of health."

Such was the original and rather startling statement made by Professor James M. Munyon, the famous Philadelphia health authority, who is establishing health headquarters in all the large cities of the world for the purpose of getting in direct touch with his thousands of converts.

Professor Munyon is a living embodiment of the cheerful creed he preaches. Virile, well poised, active and energetic, he looks as though he would easily attain the century age limit which he declares is the normal one. He said:

"I want the people of the world to know my opinions on the subject of health, which are the fruit of a life-time devoted to healing the sick people of America. There isn't a building in this city big enough to house the people in this State alone who have found health through my methods. Before I get through there won't be a building big enough to house my cured patients in this city alone."

"I want, most of all, to talk to the sick people—the invalids, the discouraged ones, the victims of nerve-wearing, body-racking diseases and ailments—for these are the ones to whom the message of hope which I bear will bring the greatest blessing."

"I want to talk to the rheumatics, the sufferers from stomach trouble, the ones afflicted with that noxious disease, catarrh. I want to tell my story to the women who have become chronic invalids as a result of nervous troubles. I want to talk to the men who are 'all run down,' whose health has been broken by overwork, improper diet, late hours and other causes, and who feel the creeping clutch of serious, chronic illness."

"To these people I bring a story of hope. I can give them a promise of better things. I want to astonish them by showing the record of cures performed through my new system of treatment."

"I have taken the best of the ideas from all schools and embodied them in a new system of treatments individually adapted to each particular case. I have no 'cure alls,' but my present method of attacking disease is the very best thought of modern science. The success which I have had with these treatments in this city and all over America proves its efficacy. Old methods must give way to new medical science moves. I know what my remedies are doing for humanity everywhere. I know what they will do for the people of this city. Let me prove my statements—that's all I ask."

The continuous stream of callers and mail that comes to Professor James M. Munyon at his laboratories, Fifty-third and Jefferson streets, Philadelphia, Pa., keeps Dr. Munyon and his enormous corps of expert physicians busy.

Professor Munyon makes no charge for consultation or medical advice; not a penny to pay. Address Prof. J. M. Munyon, Munyon's Laboratories, Fifty-third and Jefferson streets, Philadelphia, Pa.

KITCHEN GRATER IS ROTARY

Implement Has Wheel That Revolves While Nutmeg or Onion Is Held Against It.

As it is usually women who manipulate graters it was only right that it should be one of that sex in Ohio who designed the rotary utensil of this type reproduced herewith. The old-fashioned method of grating to nutmeg, onion or whatever it might be, was to rub the article up and

down on a rough surface. This implement works differently. A wheel with a grating surface is mounted on an upright, which is clamped to the edge of the kitchen table. A holder is hinged to the center of the wheel and in it is placed the article to be grated. The wheel is turned with the object pressed close against it, and the grinding process accomplished very expeditiously. When enough has been grated off, the holder can be lifted and its contents allowed to drop into the dish below. When the article has been reduced to a size where the fingers are likely to be cut in pressing it against the wheel, some other object may be placed between.

HINTS FOR THE HOUSEWIFE

Various Suggestions That Will Enable Her to Save Considerable Money in Purchasing.

Few things can be bought in bulk to advantage. Soap improves with age and is cheaper bought by the box. Bacon is best purchased by the slab, and the dripping should always be saved in a little jar kept for the purpose. Except for baking, it is a good substitute for lard. Always reserve the tails of steaks for hash. This is a wholesome dish when made of fresh meat. All left overs should be saved and are better reserved in their original form than mixed with half a dozen ingredients. Lump sugar bought loose is cheaper than cut sugar in boxes, and granulated should be bought by 25 cents' worth. For laundry work, especially flat work, a mangle is indispensable, saving the material and lightening labor. You would not be without it, once tried. Washing sent out to laundries is more or less expensive, considering the awful wear on material. Dishcloths sprinkled with the following preparation—equal parts of coal oil, vinegar and sweet oil—will be rendered dustless; that is, no shaking will be necessary. All scraps of soap from bathroom and kitchen should be thrown in the boiler for wash days.

Melon in Winter. A genuine discovery was made at our house when we went down cellar a few days before Christmas to select a pumpkin for a pie, writes a Massachusetts contributor to Good Housekeeping. Among the pumpkins was a watermelon in prime condition, which became a part of our Yuletide feast. It was in a cool and dry cellar that this phenomenon occurred.

He who knows most grieves for wasted time.—Dante.

Don't buy water for bluing. Liquid blue is almost all water. Buy Red Cross Bag Blue, the blue that's all blue.

Megaphones in Oil. Robert Henri, the painter, was discussing in New York a very mediocre "old master" for which a Chicago promoter had paid an exorbitant sum. "The man is content with his bargain," said Mr. Henri. "I'm sure of that. To a millionaire of that type, you know, an 'old master' is merely a megaphone for his money to talk through."

A LADY LECTURER Feeds Nerves and Brains Scientifically.

A lady lecturer writes from Philadelphia concerning the use of right food and how she is enabled to withstand the strain and wear and tear of her arduous occupation. She says:

"Through improper food, imperfectly digested, my health was completely wrecked, and I attribute my recovery entirely to the regular use of Grape-Nuts food. It has, I assure you, proven an inestimable boon to me."

"Almost immediately after beginning the use of Grape-Nuts I found a gratifying change in my condition. The terrible weakness that formerly prostrated me after a few hours of work, was perceptibly lessened and is now only a memory—it never returns."

"Ten days after beginning on Grape-Nuts I experienced a wonderful increase in mental vigor and physical energy, and continued use has entirely freed me from the miserable insomnia and nervousness from which I used to suffer so much."

"I find Grape-Nuts very palatable and would not be without the crisp, delicious food for even a day on any consideration. Indeed, I always carry it with me on my lecture tours."

AFTER 7 YEARS SUFFERING

I Was Cured by Lydia E. Pinkham's Vegetable Compound

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to Mrs. Pinkham for advice. In a short time I had gained my average weight and am now strong and well."

—Mrs. SALLIE STEVENS, R. F. D., No. 8, Box 31, Waurika, Okla.

Another Grateful Woman. Huntington, Mass.—"I was in a nervous, run down condition and for three years could find no help."

"I owe my present good health to Lydia E. Pinkham's Vegetable Compound and Blood Purifier which I believe saved my life."

"My doctor knows what helped me and does not say one word against it." —Mrs. MARI JANETTE BATES, Box 184, Huntington, Mass.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, and nervous prostration.

SPENT HUNDREDS OF DOLLARS.

A Case of Terrible Kidney Trouble and How It Was Cured.

Charles E. Berg, 815 N. Sixth St., Walla Walla, Wash., says: "A sharp pain like the stab of a knife caught me while stooping and after that it was with me constantly. I became so bad I had to take to my bed. My face swelled and my kidneys were in terrible shape. I lost weight, and was bothered by dizzy spells. I spent hundreds of dollars without relief. Doan's Kidney Pills cured me permanently and I believe they saved my life."

His Future Expenditures.

Among the most frequent requests that go to the United States senate are those asking some prominent member to give money to charity organizations, hospitals and other philanthropic undertakings. One day a charity worker asked Senator Flint of California, who is not a wealthy man, to give a large sum of money for a free ward in one of the hospitals.

"I am sorry that I cannot comply with your request," said the senator gravely; "but, judging from the number of similar demands that have been made upon me in the past, I have decided that I can promote a greater charity. The vast amount of money spent on hospitals in this town convinces me that thousands of people are going to die and be buried without flowers. Hereafter, I shall devote my spare money exclusively to sending flowers to the dead."—The Sunday Magazine.

TRIO OF GOOD THINGS

GERMAN RECIPE FOR FRIED CABBAGE WITH APPLES.

How to Make Fried Pies That Are Delicious Hot or Cold—Russian Fudge Is Worth the Trouble.

Fried Cabbage With Apples.—Cut the cabbage as for slaw or ordinary frying and if not crisp let stand in cold water a while. Drain and place in frying pan. Now pare, core and slice apples over the top until there is a good thick layer, sprinkle with salt, pepper and a little sugar, dot generously with butter—or two-thirds butter, one-third lard may be used—partially cover with boiling water, cover tightly and set on stove to cook. As the water boils away and the cabbage and apples begin frying down and becoming tender, remove cover and toss frequently with knife to prevent burning. When browned slightly add several tablespoons of vinegar and olive oil, remove from stove at once and serve. This is an old German recipe.

Fried Pies.—Make a good pie dough, divide in small sections and roll out, not too thinly, in oblongs, as though for turnovers, about seven by five inches. Use any preserves, cooked fruits fairly well drained, or fresh fruits that require scant cooking. Place a spoonful or so on one end of the pie flat, sprinkle lightly with sugar, dot with butter, spices also for some fruits, cut a small slit in upper flap, lap over, roll edges securely and fry on both sides to a golden brown in a pan of piping hot lard. Place on platter, sprinkle lightly with powdered sugar. Delicious hot or cold packed in lunches.

Russian Fudge.—A fudge recipe not often heard of but worth the trouble. Two pounds of granulated sugar, one can condensed milk (not evaporated), butter size of small egg; one teaspoon vanilla. Melt butter in pan, add sugar and condensed milk and mix well; let come to a boil slowly, then boil 15 minutes, stirring constantly, as it scorches easily. Add a cup of broken nut meats if desired, flavoring, whip thoroughly and pour into shallow greased pans. Mark off into squares as it begins to harden.

CABBAGE COOKED WITH CARE

If These Instructions Are Followed It Will Be Free From Rank Flavor.

If cabbage is properly cooked it will be free from rank flavor. After quartering and slicing the head, rejecting, of course, the outside leaves and heart, cook for ten minutes in salted water. Then pour off the water, put the vegetable in a sieve and set it under the cold water faucet. The sieve should be set in a big earthen bowl and as the water fills up the bowl it should be poured off and fresh water run over the vegetable again, so that every part of it is thoroughly freshened. When well rinsed lift up the sieve, drain the cabbage and cut it into small pieces. Put it on the fire again in an enamel lined pot, cover with milk and let it cook slowly for three-quarters of an hour. Season with salt and pepper while cooking. About ten minutes before serving mix some soft butter and flour to a paste—enough to thicken the milk so that it forms a nice white sauce around it. A very young cabbage, straight from the garden, does not require such careful treatment.

Orange Pie.

The juice and grated rind of one orange, one small cup of sugar, yolks of two eggs, one tablespoon of corn-starch made smooth with milk, small piece of butter and one cup of milk. Bake in one crust, using white of eggs for frosting.

The Recall.

Tobacconist—You learned long ago how to pack a barrel of apples, didn't you, Uncle John?

Horticulturist—Sure thing, Billy; same as you packed that box of cigars I bought of you the other day—all the nice ones in the top row.

"WHY SHOULD I USE CUTICURA SOAP?"

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it is for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet soaps. It is also invaluable in keeping the hands soft and white, the hair live and glossy, and the scalp free from dandruff and irritation.

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. 23 L, Boston, for a liberal sample cake, together with a thirty-two page book on the skin and hair.

Sincerity is the saving merit now and always.—Carlyle.

Twice Convicted.

Another lawyer's story arrives. We are told that a man was charged with picking a pocket the other day and that when arraigned he pleaded "guilty." The case went to the jury, however, and the verdict was "not guilty." And the court spoke as follows:

"You don't leave this court without a stain on your character. By your own confession you are a thief. By the verdict of the jury, you are a liar."—Cleveland Plain Dealer.

Progress of Singletax Sentiment.

An editorial in the San Francisco Chronicle is one of many indications that a boom is setting in for the Singletax. The San Francisco Chronicle was more likely, perhaps, to be the last rather than the first of the leading newspapers of the far-western metropolis to declare that "the exemption of personal property which cannot possibly be located and equitably assessed and of structures which are constantly deteriorating and may burn before the tax is paid," was a "matter well worth considering, whatever the conclusion may be," that "land is in sight and cannot get away," that "its value is more easily determined than that of any other class of property;" that "the upward tendency of rentals" would be checked by the desire of owners of taxed land to derive revenue from it by the erection thereon of untaxed buildings;" that "it would discourage speculation in land and secure to the public more of the increment not 'unearned,' but earned by the public and not by any individual;" and that it might to that extent reduce taxation of those not owners of land not put to beneficial use." Editorial comment or any kind of notice by the press of Singletax progress has been remarkable for its absence.

The time is here however, when those newspapers which continue to ignore it will be considered as not up to date by readers who wish to be enlightened on what is doing. It is to be hoped that Singletaxers of California may have printed in large type copies of the leading points of this editorial for distribution.—Balance Wheel.
