

## The Meeting Was a Winner

**I**N RESPONSE to the call circulated last week, and which was published in the last issue of *The News*, there was a large attendance at the public meeting Monday evening to discuss plans for establishing a local experiment tract, and for taking steps looking toward an organized and systematic campaign of publicity of the county's resources and opportunities. Practically every business interest of Carrizozo was represented and many were present from other sections of the county.

John A. Haley called the meeting to order and stated in a very comprehensive manner the objects of the gathering, also setting forth some of the benefits to be hoped for from a vigorous movement along the proposed lines. After Mr. Haley's talk Frank J. Sager, cashier of the Exchange Bank was made chairman of the meeting, and Lee B. Chase of the Outlook and John A. Haley of *The News* were nominated for secretaries. It was announced that Mr. Chase was not present on account of illness and T. O. Luster, foreman of The Outlook, was substituted, and Messrs. Haley and Luster were made secretaries.

Chairman Sager supplemented Mr. Haley's remarks by giving his hearty endorsement to the purposes of the meeting, and urged the citizens present to express their views. Among those called on were Messrs. Ziegler, Gurney, Evans, Bell and Bentley. Some of the speakers presented very attractive pictures of what had been accomplished in other sections of the south and west, under conditions practically similar to those existing here, and through methods very much the same as those proposed to be carried out here.

In every case where the movement for development was begun, there had existed the old belief that agricultural development was an impossibility, and there were numerous failures to record, but in the end success was achieved and wonderful results had followed. It was a matter of faith and right methods. Mr. Bentley gave some of his personal experiences as a local dry farmer and cited many isolated cases of successful crops.

Mr. Gurney seemed to touch the keynote of the whole situation by announcing it as his firm conviction that it was not a matter of anything being wrong with natural conditions—simply a lack of nerve. "When we get our nerve and tackle the job," said he, "we will get results—of that, I feel sure. We have been hanging back while other communities with nothing better to offer—some of them not as good—have united their forces and are really doing big things. It is time we got down to business."

Mr. Bell strongly favored the proposed movement and after citing the result of his wide observations as leading him to faith in the possibilities of this section, pledged himself to aid the movement to the best of his ability.

Thomas Keohn of Oacuro, who recently came to Lincoln County from Colorado, and a practical farmer of over thirty years experience, who, with his sons is preparing to do some real farming, was called on and gave an interesting recital of his experience, stating unhesitatingly his belief that there is ample water underground in the valley to meet all irrigation demands for small tracts, basing his faith on the seven or eight wells he has already drilled. He also believed dry farming could be made a success here.

He was followed by J. D. Wilson, who mentioned more or less in detail the success achieved in various localities, emphasizing the entire practicability of the small tract of five or ten acres being made to yield an independence for the average family, and outlined plans for a small experimental farm with the necessary equipment and cost.

Mr. Gurney then presented the following resolution which was unanimously passed:

"Whereas, It is the sense of this meeting that the establishment of a practicable experimental tract to demonstrate the possibilities of our soil, water and climate for growing various crops would aid materially in the advancement of the community, therefore, be it

Resolved, That the chairman appoint a committee of three citizens to investigate fully the cost of such a demonstration farm, and report detailed plans for the same to an adjourned meeting of the citizens to be called by the chairman and secretaries of this meeting when said committee is prepared to submit its report."

Chairman Sager appointed the committee authorized under the resolution as follows: Messrs. F. W. Gurney, C. A. Stevens and J. D. Wilson. The committee will at once proceed with the work of investigating location, equipment and details for a practical experiment tract. It is understood that this feature of the proposed movement is to be financed and carried on by the business men and citizens of Carrizozo, with what aid may be secured from the State Agricultural College and the Agricultural Department of the El Paso & Southwestern road. No other section of the county will be expected to contribute in any way to the expense, although it is believed the benefits to be secured from such an experiment farm will be general.

Regarding the movement for publicity of a general character for the resources and opportunities of the county, it was the consensus of opinion that an organization for this purpose should be county-wide and every community in the county heartily invited to participate in it. There should be back of such a proposed campaign the united effort of every part of the county as a whole.

As expressing this view of the meeting A. J. Rolland presented the following resolution:

"Whereas, It is the sense of this meeting that a united

## Call for Public Meetings

CARRIZOZO, N. M., Nov. 14, 1912.

The committee on publicity and organization appointed at the public meeting, Monday evening, Nov. 11, 1912, hereby extend a cordial and earnest invitation to the citizens of every community of Lincoln County to join in the good work of up-building every section of the county, and to hold local meetings and elect delegates to attend a general meeting at Carrizozo on

MONDAY EVENING, 8 O'CLOCK, NOV. 25, 1912, at which it is hoped to effect a county organization.

The Chairman and Secretaries of this committee have written a number of citizens of each place asking them to take the matter up. Where possible members of this committee and other citizens will attend any of these local meetings held during the coming week and explain more fully the purpose of the organization.

It is, therefore, important that the meetings in the various communities of the county, suggested in the foregoing, be called at a sufficiently early date during the coming week in order that their communities may have proper representation at the county-wide organization meeting to be held at Carrizozo in accordance with this call.

The committee would be especially pleased to have notification of these meetings and if its presence is desired it will be glad to meet with the people on such stated occasions and discuss the advantages of the co-operation of the people of all parts of the county in a county-wide publicity campaign.

Any information in possession of the committee concerning this movement and its purposes will be gladly furnished upon request of any citizen of the county.

FRANK J. SAGER, Chairman,  
LEE B. CHASE, AND JNO. A. HALEY, Secretaries,

### Civic League Meeting

**T**HE Civic League has called a special meeting for next Tuesday afternoon at 3 o'clock, in the basement of the Bank building. Important matters will be brought before the meeting, and every member is urgently requested to be present. The ladies of this organization have already accomplished a great work for Carrizozo, in the way of cleaning the streets and lighting the town. More remains to be done—the League is meeting its problems—all push the matter along.

### The News' Weekly Lay Sermon

**B**E not annoyed or dismayed or despondent, if thou art not able to do all things in accord with the rules of right conduct. When thou hast not succeeded, renew thy efforts, and be serene if, in most things, thy conduct is such as becomes a man. Love and pursue the philosophic life. Seek Philosophy, not as thy taskmaster but to find a medicine for all thy ills, as thou wouldst seek balm for their eyes, a bandage for a sprain, a lotion for a fever. —Marcus Aurelius Antoninus, Book V.

effort by the citizens of the various communities of Lincoln County, for the purpose of advertising the resources and opportunities of the county would result in securing desirable settlers and the more rapid development of the county, be it

Resolved, That the chairman of this meeting appoint a committee of seven citizens, including the chairman and secretaries, who shall formulate a plan of county-wide organization—to undertake a thorough and systematic campaign of advertising the resources of the county; said committee to have authority to secure delegates from the various sections of the county to a future meeting at which its report shall be made, such meeting to be called by the chairman and secretaries of this meeting, when the said committee is ready to make its report. I move the adoption of the resolution."

This resolution also received the unanimous support of the meeting, and Chairman Sager named the following committee to undertake the work, viz: Messrs. A. J. Rolland, H. S. Campbell, A. Ziegler, N. B. Taylor, who with Chairman Sager and Secretaries Haley and Chase make the seven members.

The meeting then adjourned subject to the call of the chairman and secretaries. The committee on organization will promptly undertake the work laid out for them, and discussing the matter with several of the members revealed much enthusiasm over the proposed movement and a determination to push it and begin a thorough publicity campaign at as early a date as possible. It will take probably two weeks to visit and secure delegations from other communities in the county, as well as for the experiment farm committee to secure the necessary data for a complete report. It is hoped to be able to call a second meeting at which there will be a full representation of the county not later than the 25th or 26th inst.

Now that this movement has been so auspiciously inaugurated *The News* hopes that an honest effort will be made to carry it out on practical business lines to a satisfactory finish. As we have pointed out before in these columns, it is not a new or untried proposition. The way to results has been pointed out by hundreds of thriving, growing, prosperous communities all through the west and

[To Page 6]

## One Day, Ten Acres, \$1,300.00

**W**HEN Carrizozo gets the notion that what she needs is an Experiment Farm she holds a meeting Monday night, appoints the necessary committees and by Wednesday night of the same week she gets it—that is, not the farm, but the land to put it on and most of the funds to get it in shape and maintain it a year.

Which is going some. And is undoubtedly the New Mexico record—for a town of her class. And then again and also, it has considerable bearing on the governor's recent remarks about enthusiasm.

Here it is:  
Ten acres of the best located land in the valley, adjoining the townsite, good average soil, right along the railroad main line right-of-way, where every passenger who comes in from the east can see every green thing in the patch—when we get the green things a-growin'—and donated in fee simple for the Experiment Farm by Mr. A. C. Wingfield—and he did it early in the morning last Wednesday—without any fuss or feathers—quite quietly and simply as a matter of decent public spirit and the duty of a citizen who wants to see the community in which he lives make progress.

And this is not throwing bouquets at Mr. Wingfield. It is the simple record of a big fact, pregnant with wonderful possibilities for the future of the town and county which has the honor to claim such men as its citizens.

The committee on Experiment Farm took an automobile Wednesday morning and circulated the town and came to the conclusion that the land owned by Mr. Wingfield was about ideal for the proposed station. Then they went to the City Meat Market of Lee & Wingfield and told the latter they wanted ten acres.

"All right," said he, "pick it out where you want it and I'll give you a deed to it."

That was all.

Comparisons are said to be odious: Can't help it—need one right here. Mr. Andy Carnegie—of New York, we believe—gives \$10,000.00 or \$15,000.00 out of his pile of several—what is it?—billions? for a public library. Maybe that would mean as much in proportion to his whole as the cost of putting half the gum on the back of a one-cent postage stamp, to the cost of the Panama Canal. And he expects and gets from \$25,000.00 to \$50,000.00 in perfectly good advertising as a philanthropist for his benefaction, and the snug little "laird" is all right in his way.

Only his way is different from that of a plain United States-New Mexico-Carrizozo citizen who hands over any where from a tenth to a fifth of his total as a mere matter of decent public spirit and good citizenship!

And then the rest of the story—

With a little subscription paper that "beto noir" of the average citizen of the average town—the Carrizozo Committee on Experiment Farm, F. W. Gurney, C. A. Stevens and J. D. Wilson, went to and fro for about four hours.

And the result was

**\$1,308.00**

And of course there wasn't time to see 'em all. The amount the plans for the Experiment Farm call for was estimated at \$1,500.00. Of course more could be used to advantage. Here is the

All-around, it was a splendid response. It illustrates what we have all known all the while—that there is as much public spirit here in Carrizozo as any community needs—and that it can get things and do things when it goes after the job.

The committee are now at work on securing data for the details of the proposed farm, and hope to be able to report, as that a meeting can be called for Monday evening, the 25th. It is at least assured that the work will be pushed with as much speed as possible and that Carrizozo will have her Experiment Farm in full running order the coming spring.

The Committee want to hear from any of the farmers in the Valley who would be willing to contribute a day's team work in preparing the ground, or some fence posts toward constructing the fence. They are desirous of making the money go as far as possible, and any of our public spirited farmers who want to help along the plans by work or material are requested to report to any member of the committee—F. W. Gurney, at the Gurney House; C. A. Stevens at the Carrizozo Stables, or J. D. Wilson at *The News* office.

**Clement Hightower**  
 Boosts the Capitan District

WHEN Mr. Clement Hightower of Capitan was in town during court week recently he found time to call at The News office and voice his approval of the paper's efforts to advertise the resources of Lincoln County.

"I honestly believe we have one of the best, if not the best county in the whole southwest," said he, "so far as extent and variety of natural resources are concerned. We not only have wonderful mineral deposits, a large area of fertile lands suitable for agricultural purposes, a splendid range country, undeveloped waterpower, magnificent mountain and valley scenery, but we have a climate especially adapted to raising fruits—and this includes not only apples, peaches, plums, etc., but small fruits and berries. I believe we have everything in soil, water and climate for the highest quality of fruit production.

"Of course I am partial to the section of the county adjacent to Capitan. There are some wonderful valleys in our section, covering a total of probably more than ten thousand acres. The basis of our soil is decomposed granite and other rocks, covered with rich alluvial deposits and a mixture of clays and loams, and there is practically no limit to its productiveness when properly handled. Our foothills are covered with the richest growth of the grama grasses and they have not been so badly overgrazed as in most sections.

"Timber is easily accessible and ample for all the requirements of local development. We have the best of coal in almost unlimited quantities. We have some of the finest quarries of building stone in the southwest, much of it closely resembling marble, as well as an excellent quality of sandstone.

"There are very extensive deposits of rich iron ore, and with coal convenient and well adapted for smelting purposes it is only a question of time when it will be largely utilized.

"There is ample water from the watersheds leading to the valleys for all purposes of irrigation. Wells are secured at depths ranging from 40 to 120 feet for stock and domestic purposes. In all probability artesian water will be easily obtained. Only about a mile and a half west of Capitan there is now a good flowing well.

"Our elevation is about 6,000 feet, and we have one of the most healthful and agreeable climates of the entire temperate zone. It is considered ideal for all pulmonary complaints, and the establishment of the big government sanatorium for tuberculosis treatment at Fort Stanton was

decided on only after a thorough investigation of our advantages in this direction.

"Lying between lofty and picturesque mountain ranges we can boast some of the finest and most attractive scenery on the continent. All we need is people. Capitan is in a large sense the commercial center and distributing point for a wide radius of rich agricultural, grazing, mining and fruit raising country, pregnant with wonderful possibilities of development. As I have said, all we need is the right class of settlers, and the only way to get them is to go after them. I am heartily in favor of a county-wide publicity movement, and there is no doubt about Capitan people doing their full share to make it effective.

"The News is certainly on the right track in advocating such a movement, and should have the heartiest support."

**Carrizozo Sketches**

**"Dad" Scared One!**

"DAD" KAHLER sometimes gets down from the "water wagon" (literally) and takes a bit of rest, while the black mules stand in the shade and think it over.

It was one day just a bit before election and may be it was in Campbell's—and may be it was some place else. Anyway, "Dad" was talking politics. And "Dad" talks politics—or did—just like he runs water into your water barrel through the big hose on the back end of the water wagon—mighty vigorously. Judged by "Dad's" years the party who was opposing him in the discussion was a youngster. The talk got a little heated on both sides.

Finally "Dad" turned on his opponent with this one:

"Know what you remind me of? Well, up in an Illinois town there was a one-legged wheat buyer—and he was a good one, gettin' rich at it. A big Chicago firm sent a smart youngster to the town, also to buy wheat. He was pretty slip—something like you. One day he met the old buyer and made some smart comment about the old man's being lame. The old chap just looked him over a little and then he says, 'Yes, son, it is pretty bad bein' lame this way; but, bless your heart, I'd a heap sooner be lame in the legs than to be lame in the brains!'"

The Carrizozo band boys are devoting themselves faithfully to practice three times a week and Leader Nickles reports very satisfactory progress. They are receiving recruits, two new instrument having been sent for the past week, and feel confident of having one of the crack bands of New Mexico when they get settled down to business.

**Notice of Foreclosure.**

To the Stockholders of the Commercial Metals Co., a corporation.  
 Each of you is hereby notified that the undersigned Co-stockholder has expended the sum of not less than one hundred dollars in cash, for labor and improvement on each of the following mining claims situated in the West Mesa District, Lincoln County, New Mexico, to-wit: H. & F. No. 1 and H. & F. No. 2, for the year 1911. You and each of you are further hereby notified that if you or either of you should fail or refuse to contribute your proportion of such expenditures within ninety days from the date of the last publication of this notice, as required by Section 224 of the Revised Statutes of the United States, your respective interests in and to said mining claims and each and every one of them will become the property of the undersigned Co-stockholder.

## The Meeting Was a Winner

**I**N RESPONSE to the call circulated last week, and which was published in the last issue of *The News*, there was a large attendance at the public meeting Monday evening to discuss plans for establishing a local experiment tract, and for taking steps looking toward an organized and systematic campaign of publicity of the county's resources and opportunities. Practically every business interest of Carrizozo was represented and many were present from other sections of the county.

John A. Haley called the meeting to order and stated in a very comprehensive manner the objects of the gathering, also setting forth some of the benefits to be hoped for from a vigorous movement along the proposed lines. After Mr. Haley's talk Frank J. Sager, cashier of the Exchange Bank was made chairman of the meeting, and Lee B. Chase of the Outlook and John A. Haley of *The News* were nominated for secretaries. It was announced that Mr. Chase was not present on account of illness and T. O. Luster, foreman of *The Outlook*, was substituted, and Messrs. Haley and Luster were made secretaries.

Chairman Sager supplemented Mr. Haley's remarks by giving his hearty endorsement to the purposes of the meeting, and urged the citizens present to express their views. Among those called on were Messrs. Ziegler, Gurney, Evans, Bell and Bentley. Some of the speakers presented very attractive pictures of what had been accomplished in other sections of the south and west, under conditions practically similar to those existing here, and through methods very much the same as those proposed to be carried out here.

In every case where the movement for development was begun, there had existed the old belief that agricultural development was an impossibility; and there were numerous failures to record, but in the end success was achieved and wonderful results had followed. It was a matter of faith and right methods. Mr. Bentley gave some of his personal experiences as a local dry farmer and cited many isolated cases of successful crops.

Mr. Gurney seemed to touch the keynote of the whole situation by announcing it as his firm conviction that it was not a matter of anything being wrong with natural conditions—simply a lack of nerve. "When we get our nerve and tackle the job," said he, "we will get results—of that, I feel sure. We have been hanging back while other communities with nothing better to offer—some of them not as good—have united their forces and are really doing big things. It is time we got down to business."

Mr. Bell strongly favored the proposed movement and after citing the result of his wide observations as leading him to faith in the possibilities of this section, pledged himself to aid the movement to the best of his ability.

Thomas Kephu of Ocuero, who recently came to Lincoln County from Colorado, and a practical farmer of over thirty years experience, who, with his sons is preparing to do some real farming, was called on and gave an interesting recital of his experience, stating unhesitatingly his belief that there is ample water underground in the valley to meet all irrigation demands for small tracts, basing his faith on the seven or eight wells he has already drilled. He also believed dry farming could be made a success here.

He was followed by J. D. Wilson, who mentioned more or less in detail the success achieved in various localities, emphasizing the entire practicability of the small tract of five or ten acres being made to yield an independence for the average family, and outlined plans for a small experimental farm with the necessary equipment and cost.

Mr. Gurney then presented the following resolution which was unanimously passed:

"Whereas, It is the sense of this meeting that the establishment of a practicable experimental tract to demonstrate the possibilities of our soil, water and climate for growing various crops would aid materially in the advancement of the community, therefore, be it

Resolved, That the chairman appoint a committee of three citizens to investigate fully the cost of such a demonstration farm, and report detailed plans for the same to an adjourned meeting of the citizens to be called by the chairman and secretaries of this meeting when said committee is prepared to submit its report."

Chairman Sager appointed the committee authorized under the resolution as follows: Messrs. F. W. Gurney, C. A. Stevens and J. D. Wilson. The committee will at once proceed with the work of investigating location, equipment and details for a practical experiment tract. It is understood that this feature of the proposed movement is to be financed and carried on by the business men and citizens of Carrizozo, with what aid may be secured from the State Agricultural College and the Agricultural Department of the El Paso & Southwestern road. No other section of the county will be expected to contribute in any way to the expense, although it is believed the benefits to be secured from such an experiment farm will be general.

Regarding the movement for publicity of a general character for the resources and opportunities of the county, it was the consensus of opinion that an organization for this purpose should be county-wide and every community in the county heartily invited to participate in it. There should be back of such a proposed campaign the united effort of every part of the county as a whole.

As expressing this view of the meeting A. J. Rolland presented the following resolution:

"Whereas, It is the sense of this meeting that a united

## Call for Public Meetings

CARRIZOZO, N. M., Nov. 14, 1912.  
The committee on publicity and organization appointed at the public meeting, Monday evening, Nov. 11, 1912, hereby extend a cordial and earnest invitation to the citizens of every community of Lincoln County to join in the good work of up-building every section of the county, and to hold local meetings and elect delegates to attend a general meeting at Carrizozo on

MONDAY EVENING, 8 O'CLOCK, NOV. 25, 1912, at which it is hoped to effect a county organization.

The Chairman and Secretaries of this committee have written a number of citizens of each place asking them to take the matter up. Where possible members of this committee and other citizens will attend any of these local meetings held during the coming week and explain more fully the purpose of the organization.

It is, therefore, important that the meetings in the various communities of the county, suggested in the foregoing, be called at a sufficiently early date during the coming week in order that their communities may have proper representation at the county-wide organization meeting to be held at Carrizozo in accordance with this call.

The committee would be especially pleased to have notification of these meetings and if its presence is desired it will be glad to meet with the people on such stated occasions and discuss the advantages of the co-operation of the people of all parts of the county in a county-wide publicity campaign.

Any information in possession of the committee concerning this movement and its purposes will be gladly furnished upon request of any citizen of the county.

FRANK J. SAGER, Chairman,  
LEE B. CHASE, AND JNO. A. HALEY, Secretaries.

### Civic League Meeting

**T**HE Civic League has called a special meeting for next Tuesday afternoon at 3 o'clock, in the basement of the Bank building. Important matters will be brought before the meeting, and every member is urgently requested to be present. The ladies of this organization have already accomplished a great work for Carrizozo, in the way of cleaning the streets and lighting the town. More remains to be done—the League is meeting its problems—all push the matter along.

### The News' Weekly Lay Sermon

**B**E not annoyed or dismayed or despondent, if thou art not able to do all things in accord with the rules of right conduct. When thou hast not succeeded, renew thy efforts, and be serene if, in most things, thy conduct is such as becomes a man. Love and pursue the philosophic life. Seek Philosophy, not as thy taskmaster but to find a medicine for all thy ills, as thou wouldst seek balm for their eyes, a bandage for a sprain, a lotion for a fever. —Marcus Aurelius Antoninus, Book V.

effort by the citizens of the various communities of Lincoln County, for the purpose of advertising the resources and opportunities of the county would result in securing desirable settlers and the more rapid development of the county, be it

Resolved, That the chairman of this meeting appoint a committee of seven citizens, including the chairman and secretaries, who shall formulate a plan of county-wide organization to undertake a thorough and systematic campaign of advertising the resources of the county; said committee to have authority to secure delegates from the various sections of the county to a future meeting at which its report shall be made, such meeting to be called by the chairman and secretaries of this meeting, when the said committee is ready to make its report. I move the adoption of the resolution."

This resolution also received the unanimous support of the meeting, and Chairman Sager named the following committee to undertake the work, viz: Messrs. A. J. Rolland, H. S. Campbell, A. Ziegler, N. B. Taylor, who with Chairman Sager and Secretaries Haley and Chase make the seven members.

The meeting then adjourned subject to the call of the chairman and secretaries. The committee on organization will promptly undertake the work laid out for them, and discussing the matter with several of the members revealed much enthusiasm over the proposed movement and a determination to push it and begin a thorough publicity campaign at as early a date as possible. It will take probably two weeks to visit and secure delegations from other communities in the county, as well as for the experiment farm committee to secure the necessary data for a complete report. It is hoped to be able to call a second meeting at which there will be a full representation of the county not later than the 25th or 26th inst.

Now that this movement has been so auspiciously inaugurated *The News* hopes that an honest effort will be made to carry it out on practical business lines to a satisfactory finish. As we have pointed out before in these columns, it is not a new or untried proposition. The way to results has been pointed out by hundreds of thriving, growing, prosperous communities all through the west and

**W**HEN Carrizozo gets the notion that what she needs is an Experiment Farm she holds a meeting Monday night, appoints the necessary committees and by Wednesday night of the same week she gets it—that is, not the farm, but the land to put it on and most of the funds to get it in shape and maintain it a year.

Which is going some. And is undoubtedly the New Mexico record—for a town of her class. And then again and also, it has considerable bearing on the governor's recent remarks about enthusiasm.

Here it is:

Ten acres of the best located land in the valley, adjoining the townsite, good average soil, right along the railroad main line right-of-way, where every passenger who comes in from the east can see every green thing in the patch—when we get the green things a-growin'—and donated in fee simple for the Experiment Farm by Mr. A. C. Wingfield—and he did it early in the morning last Wednesday—without any fuss or feathers—quite quietly and simply as a matter of decent public spirit and the duty of a citizen who wants to see the community in which he lives make progress.

And this is not throwing bouquets at Mr. Wingfield. It is the simple record of a big fact, pregnant with wonderful possibilities for the future of the town and county which has the honor to claim such men as its citizens.

The committee on Experiment Farm took an automobile Wednesday morning and circulated the town and come to the conclusion that the land owned by Mr. Wingfield was about ideal for the proposed station. Then they went to the City Meat Market of Lee & Wingfield and told the latter they wanted ten acres.

"All right," said he, "pick it out where you want it and I'll give you a deed to it."

That was all.

Comparisons are said to be odious. Can't help it—need one right here. Mr. Andy Carnegie—of New York, we believe—gives \$10,000.00 or \$15,000.00 out of his pile of several—what is it?—billions? for a public library. Maybe that would mean as much in proportion to his whole as the cost of putting half the gum on the back of a one-cent postage stamp, to the cost of the Panama Canal. And he expects and gets from \$25,000.00 to \$50,000.00 in perfectly good advertising as a philanthropist for his benefaction, and the snug little "laird" is all right in his way.

Only his way is different from that of a plain United States-New Mexico-Carrizozo citizen who hands over any where from a tenth to a fifth of his total as a mere matter of decent public spirit and good citizenship!

And then the rest of the story—

With a little subscription paper—that "bete noir" of the average citizen of the average town—the Carrizozo Committee on Experiment Farm, F. W. Gurney, C. A. Stevens and J. D. Wilson, went to and fro for about four hours.

And the result was—

**\$1,308.00**

And of course there wasn't time to see 'em all. The amount the plans for the Experiment Farm call for was estimated at \$1,500.00. Of course more could be used to advantage. Here is the

All around, it was a splendid response. It illustrates what we have all known all the while—that there is as much public spirit here in Carrizozo as any community needs—and that it can get things and do things when it goes after the job.

The committee are now at work on securing data for the details of the proposed farm, and hope to be able to report so that a meeting can be called for Monday evening, the 25th. It is at least assured that the work will be pushed with as much speed as possible and that Carrizozo will have her Experiment Farm in full running order the coming spring.

The Committee want to hear from any of the farmers in the Valley who would be willing to contribute a day's team work in preparing the ground, or some fence posts toward constructing the fence. They are desirous of making the money go as far as possible, and any of our public spirited farmers who want to help along the plans by work or material are requested to report to any member of the committee—F. W. Gurney, at the Gurney House; C. A. Stevens at the Carrizozo Stables; or J. D. Wilson at *The News* office.

CARRIZOZO NEWS

CARRIZOZO NEW MEXICO

Now it's the cold storage cure for hay fever.

Almost any candidate is a promising candidate.

The air continues to be a poor place in which to do fancy work.

Our idea of nothing to feel sad about is losing a job as aviator.

The excursion girl now sweetly changes into the matinee maid.

It will be Thanksgiving day for Italy if she finally saw a limb off Turkey.

Tight-skirted women hobbling to catch a car are as funny as a sack race.

The slaughter of an aviator now and then has almost ceased to be a matter of news.

Soon the lover of lake sports will wish to exchange his bathing suit for a pair of skates.

Bohemia has a woman member of parliament. Showing the true Bohemian spirit, as it were.

Do you suppose the government will get any nearer the telephone trust than a long-distance call?

Canada sold 50,000,000 lobsters last winter. New York will have to hustle to live up to its reputation.

The girl with the coat of scaphora can now look sympathetically at her pale-faced, stay-at-home sisters.

A python in the New York zoo eats but one meal a year. This reduces housekeeping costs to a minimum.

If it were not for the old warships what would the young warships have to shoot at in target practice?

Lemons are becoming more expensive, but it is probable that many of them will still be handed around.

Antiquarians have discovered another Venus, doubtless without first getting the consent of their wives.

Tobacco is now grown in Kansas, and several new brands of Havana cigars will soon be put on the market.

London telegraph company is hiring girls to replace messenger boys. Leave it to a girl to carry messages.

Baltimore policemen must not play dominoes on Sunday. Probably it is the one game that they don't play at all.

A New York man is reported to have borrowed \$3,500 from his laundress. If she had it it is quite possible.

Any movement to restrain the activities of the genius who designs freak shoes for men will deserve public approbation.

Among all the adjectives that have been applied to the costumes that the girls are wearing now we haven't noticed "modest."

An artist who painted \$10 bills has been arrested. Painting \$10 bills does not seem to be any more profitable than gilding liars.

In Philadelphia all women under thirty are "girls." Philadelphia, the chivalrous and altruistic, is proving itself the City of Brotherly Love to the town sisters.

An English actor who wore a corset has died as the result of tight lacing. Evidently the manager declined to give him a fat part.

While a Kansas woman was trying to kiss a bulldog the animal bit her lip. It seems difficult for some Kansas bulldogs to acquire good manners.

Playing cards has been traced back to the year 800 A. D. It is safe to presume that the police of those days gathered in their graft just as merrily as now.

A Kansas City man who went to bed one night, leaving \$1,700 in his trousers pocket, has registered a vow that he will not be so careless again. He is trying to accumulate another \$1,700.

Fluffy skirts saved a woman from drowning in the Chicago river. The moral is that women who feel that they must wear tight skirts should avoid falling into that historic stream.

There were fourteen billion telephone calls in the United States last year. Do you wonder that the lines were sometimes busy?

Sound proof doors in apartment buildings are a grand invention, but until the sound proof baby is invented somebody is sure to be lonely.

Now it appears that the English beauty who planned to see the United States in two days is an actress. There's another point for the alert press agent.

Richest in Healing Qualities FOR BACKACHE, RHEUMATISM, KIDNEY AND BLADDER FOLEY KIDNEY PILLS

PISO'S REMEDY Best Cough Syrup, Tastes Good, Use in Time. Sold by Druggists. FOR COUGHS AND COLDS

The Reason. "Poor Hamlet had a dog's life." "Well, wasn't he a Great Dane?"

Red Cross Bag Blue makes the laundress happy, makes clothes whiter than snow. All good grocers. Adv.

Of Course. "Her husband is a self-made man." "She's sure to insist on alterations."

Rural Fate. "Sims never made a big hit. He just ploughed his way along." "What a harrowing life!"

Significant. "He proposed to her in a canoe." "Did she accept him?" "I presume so. The canoe cap-sized."

Wrong Guess. "Nan—I've seen your new young man, and I should call him a diamond in the rough." "Fan—Well, he's susceptible to some polish, I'll admit, but you haven't classified him correctly; he's a Jasper."

Joke on His Clerical Brother. Two brothers named Chalmers, one a minister and the other a physician, lived together in a western town. One day a man called at the house and asked for Mr. Chalmers. The physician, who answered the door, replied: "I am he."

"You've changed considerably since I last heard you preach," said the man, who appeared greatly astonished.

"Oh, it's my brother you want to see; he preaches and I practice."

Vegetable Fiber for Shoes. A Haverhill (Mass.) shoeman has obtained patents giving him the right to make vamp and tops of vegetable fiber which he has invented and perfected to be used in the manufacture of shoes. A few cases of shoes have been made of this material, which appears to be a good substitute for leather. The fiber is said to be particularly adaptable for warm weather wear because, being of a woven material, air can penetrate the vamp and top. The inventor also claims that a shoe made of this material is water proof.

Getting Along Fine at School. Now that school has been "going" several weeks parents are beginning to inquire of their young hopefuls as to their progress. The other day a mother out on Harrison boulevard, while eating luncheon with her six-year-old, asked:

"And how are you getting along in school, Dorothy?"

"Oh," replied Dorothy between mouthfuls of bread and milk, "just fine! I and Frances Smith are the smartest and best dressed girls in the school."—Kansas City Star.

He Knew. "Where there's a will there's a way," avers Taylor Holmes, appearing in The Million. "This way, however, varies, as in the case of a certain pickpocket, who was convicted and promptly fined."

"The lawyer of the pickpocket took the fine imposed upon his client very much to heart."

"Twenty-five dollars!" he expostulated. "Your honor, where is this poor, unfortunate man to get \$25?"

"His honor did not know, or if he did he refrained from saying so, but the prisoner was less discreet."

"Just let me out of here for ten or fifteen minutes," he said, "and I'll show you!"—Young's Magazine.

IT'S THE FOOD. The True Way to Correct Nervous Troubles.

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago I was fat and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head."

"At times I would have no appetite. For days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts to see if I could eat that. I tried it without telling the doctor, and lo! it made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food."

"I hadn't drunk any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating and my nervousness was all gone. It's a pleasure to be well again."

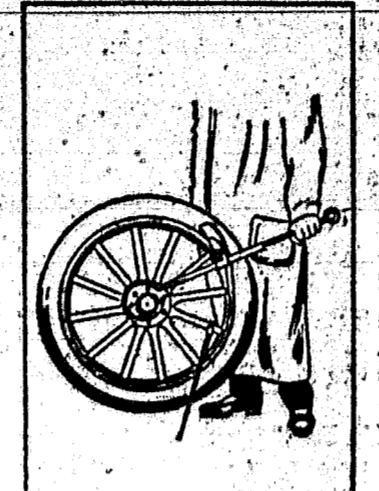

Name given by Postum Co., Battle Creek, Mich. Read the book, "The Road to Wellville," in page "There's a Reason."

SCIENCE and INVENTION

NEW WAY TO REMOVE TIRES Device Slides Around in Film and Quickly Loosens Shoes—Punctures Less Their Terrors.

For the speedy removal of automobile tires the device patented by a New York man should appeal. Instead of a motorist standing in the middle of a road on a hot day and laboriously pulling the tire off a wheel, insert the tool shown here and loosen

Way to Remove Tires.

the shoe in a twinkling. This tool consists of a long bar with a circular hook on one end to encircle the hub of the wheel. At about the middle of this bar is a plate that fits over the rim of the wheel and has a downward projection that reaches in between the wheel and tire and pries the latter loose as the whole implement is revolved around the hub. With this to simplify the removal of a tire, punctures will lose some of their terror to motorists.

INSECTS HAVE ACUTE SENSES

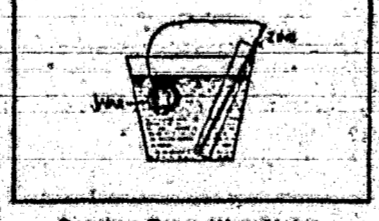

Possess Intelligence That, Though of a High Order, is Not Easy for Us to Understand.

The mental processes of the horse and the dog are those of man in much lower degree, in the view of Prof. A. N. Harvey of Michigan, but the intelligence of insects must be of very different kind. The double nerve cord and position from the brain and spinal cord of man. Insect eyes are immovable and compound, and perceive motion and color, but not form. Ants, bees, wasps and other insects have no hearing. Taste and smell cannot be identical with those senses in man, and feeling is a perception through touch-hairs instead of the skin. But insects have very acute senses that we do not possess. A cicely moth can perceive a female a mile or more away, although a man could not detect it under the same conditions at a distance of more than six inches, and ants, bees and wasps seem to have other senses located, like this, in the antennae. Differing from man in general structure, with shorter lives and different living, the insects have intelligence that, though of a high order, is not easy for us to understand.

COPIES OF WAX IMPRESSIONS

Done by Pouring Melted Beeswax on Article Washed to Reproduce and Then Removing.

Fine copies of wax impressions can be made in the following manner: Procure an ordinary tumbler and fill it with a strong solution of sulphate of copper, which is made by dissolving two cents' worth of blue vitriol in one-half pint of water, writes Edward M. Teasdale in the Popular Electricity. After this is done make a porous cell by rolling a piece of brown paper around a stick and fastening the ends with sealing wax; also, fix a bottom to the cell in the same way. Make a solution of the part of oil vitriol and 5 parts of water and pour this mixture into the porous cell. Wash the end of a copper wire around the end of a piece of zinc and place the zinc in the porous cell. Attach the other end of the wire to the wax impression.

Copying From Wax Molds.

The wax impression is made by pouring melted beeswax on the article you wish to reproduce and removing after the wax sets cold. The wax mold then should be coated with black lead and polished. This is done with a camel's hair brush. A fine copy can be made on the wax impression after the battery has been running about twelve hours.

Many Tires Invented. In twenty years there have been more than 4,000 inventions of tires, not including mechanical devices, to take the place of tires.

RADIUM CAUSE OF CHANGES

Mineral Has Revolutionized Geologists' World—An Account of Its Intensity of Heat.

Radium has revolutionized the geologist's world. Before its discovery the supplies of heat furnished by chemical changes in the earth were considered insignificant. And nothing was thought to replace the heat which flows from the hot interior of the earth to the colder crust.

Now when the earth first solidified it only possessed a certain amount of capital in the form of heat, and if it is continually spending this capital and not gaining any fresh heat, it is evident that the process cannot have been going on for more than a certain number of years or the earth would be colder than it is; less than a hundred million, as estimated by Lord Kelvin. Though the quantity of radium in the earth is thought to be only about five grams in a cube whose side is 100 miles, yet the amount of heat given out by this small quantity of radium is so great that it is more than enough to replace the heat which flows from the inside to the outside of the earth.

The radium gives out so much heat that we do not quite know what to do with it, for if there were as much radium throughout the interior of the earth as there is in its crust the temperature would increase much more rapidly than it does as we descend below the earth's surface. If radium behaves in the interior of the earth as it does at the surface, rocks similar to those in the earth's crust cannot extend to a depth of more than 45 miles below the surface.

WAY TO PREVENT BAD HABIT

Ball Arranged With Straps and Harness Between Shoulders Will Effectively Stop Snoring.

Snoring is undoubtedly a bad habit. Unfortunately, it is almost impossible for the person afflicted with this objectionable habit to know when he is emitting noisy nasal tones. It is well known that if the sufferer from this habit can be prevented from resting on his back while sleeping he will not snore. A Chicago man has devised a very ingenious but harmless contri-

Anti-Snoring Device.

vance that he claims will effect a speedy cure. It is shown in the accompanying illustration, consisting of a ball, which is fitted with straps and harness, so that it will be just between the shoulder blades. Should the wearer roll over on his back he will be immediately awakened.

To prevent mice entering planes there has been invented a simple sliding plate to be mounted on a pedal so that it covers its opening.

The average weight of a man's brain is three pounds and eight ounces, while that of a woman is two pounds and eleven ounces.

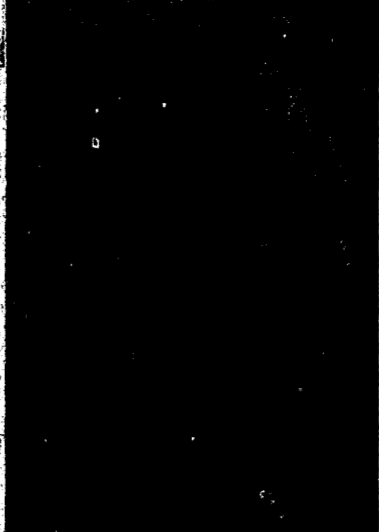

Oxygen constitutes one-tenth of the solid earth, nine-tenths of water and one-fifth of the atmosphere, and is the most abundant of all substances.

An Ohio man has invented a simple variation of the motion picture machine to project advertisements upon sidewalks and other public places.

A new "laviable airship" is made of aluminum, an alloy which takes on a high polish and the theory is that its laviability will be accomplished by the reflecting qualities of the metal.

A method for stopping a leak in a vessel with compressed air at the same time preventing injury to other parts of the vessel, has been successfully tested in the United States navy.

Constipation and Catarrh

S. B. HARTMAN, M. D.

You are constipated. You have taken laxatives a great many years. You have tried to select a diet that would keep your bowels regular. In this you have failed and were obliged to go back to your laxatives again. This, I say, has been going on many years.

LASTING ALMANAC

The Agent—I'd like to sell you a farmer's almanac.

The Ruhe—Land's sake, mister, I bought one in 1903 that ain't wore out yet.

A CLERGYMAN'S TESTIMONY

The Rev. Edmund Heslop of Winton, Pa., suffered from Dropsy for a year. His limbs and feet were swollen and puffed. He had heart failure, was dizzy and exhausted at the least exertion. Hands and feet were cold and he had such a dragging sensation across the joints that it was difficult to move.

After using 5 boxes of Dods's Kidney Pills the swelling disappeared and he felt himself again. He says he has been benefited and blessed by the use of Dods's Kidney Pills. Several months later he wrote: I have not changed my faith in your remedy since the above statement was authorized. Correspond with Rev. E. Heslop about this wonderful remedy.

Dods's Kidney Pills, 50c per box at your dealer or Dods's Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All sent free. Adv.

Business for Father. The small daughter of a practicing physician, who evidently has an eye to business, told her mother, in no uncertain terms, that she must call at once on their new neighbor.

"And why must I call on her?" asked the mother, gazed at the child's positiveness.

"Well, in the first place," explained the little lady, "they've got three of the scrawniest kids, and the mother herself don't look very strong."

Sunked. Griggs—How about that piece of land you bought down on the cape? Anything come up on it?

Briggs—Yes, the tide.

The faith that inspires is the trust which comes from our time-trusted friends.—W. E. Hoyston.

For many years I have been wrestling with the problem of furnishing the public an internal catarrh remedy. Peruna has been the remedy that I have devised and it has certainly relieved many thousand people, yes hundreds of thousands of people, of chronic catarrh.

Constipation was my chief difficulty in treating these cases. I often felt that it would be better if a laxative element were added to Peruna. I feared to do so, however, first because of the number of catarrhal patients who needed no laxative, and second I was afraid of making such a radical change in a remedy that was already doing so well. Thus it was that I continued to prescribe with the Peruna a bottle of Manalin to those who needed a laxative. At last, under circumstances explained in my booklet, I was constrained to add the laxative element to Peruna. This constitutes what is now known as the revised Peruna.

Now those who take Peruna will first find themselves promptly relieved of their constipation. Second, the catarrh will gradually disappear. And once the catarrh is cured the constipation leaves permanently. Then if you follow the advice given in my booklet you will never have to take pills any more. Cathartics and laxatives you can ignore. You will be permanently relieved of both your catarrh and the constipation.

Peruna, Manalin and La-cupa manufactured by the Peruna Company, Columbus, Ohio. Sold at all drug stores.

SPECIAL NOTICE—Many persons inquire for the Old-time Peruna. They want the Peruna that their fathers and mothers used to take. The old Peruna is now called Kastano. If your druggist or dealer does not keep it for sale write the Kastano Company, Columbus, Ohio, and they will tell you all about it.

More Schoolboy Howlers. "The Halo law is that you must take everything with a grain of salt."

"Julius Caesar was renowned for his great strength; He threw a bridge across the Rhine."

"The zodiac is the soo of the sky, where lions, goats and other animals go after they are dead."

"The Pharisees were people who liked to show off their goodness by praying to synonyms."

"An abstract noun is something you can't see when you are looking at it."

"Algebraical symbols are used when you do not know what you are talking about."—Westminster Gazette.

New China Currency. The new Chinese dollars of the Chinese republic are objects of much curiosity among the natives. They carry English on the obverse side and Chinese on the reverse, with the picture of Dr. Sun Yat Sen, founder of

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of J. C. Watson. In Use For Over 30 Years. Children Cry for Fletcher's Castoria

Enough to Kill It. "Oh, papa!" exclaimed the young girl, "that pretty plant I had setting on the piano is dead."

"Well, I don't wonder," was all the father said.

Complimentary. "What would you call it in a man to steal all my ideas?"

"Petty larceny."

Mixed Metaphors. "You didn't really show that you were bored?"

"No; I hope I am too well drilled."

## Carrizozo Trading Company

"Everything to Eat and Wear!"

### LOCAL AND PERSONAL

L. R. Lamay was in Saturday from his home on the Mesa.

Mr. and Mrs. J. F. Kimbell spent a day or two in El Paso this week.

Jas. P. Walker, of the Headlight, is nursing a sprained ankle. He has to wear crutches.

Mr. and Mrs. Frank J. Sager have been on a brief outing in the Carrizozo mountain district.

S. M. Crockett, farmer and stockman of the Nogal Mesa, was down Tuesday on business.

Mesdames J. E. Farley and H. S. Campbell entertain at whist this afternoon at the Campbell home.

The non-arrival of steel to be used to re-inforce the concrete has retarded operations on the club house building.

Dutch Real got down right on the general result, even if he did miss the mark slightly during the preliminaries.

FOR RENT—Several houses with from two to seven rooms each. See W. W. Stadman, office in the Roselle jewelry store.

Allan Johnson, one of Captain's enterprising business men, was a Carrizozo visitor Tuesday. The News acknowledges a visit.

Tom McDonald was over Tuesday from his ranch near Salinas Peak, San Andres. Tom says the range is excellent and cattle fat and fine.

Father C. C. Frend, the Catholic priest recently appointed to the Fort Stanton parish, came in Wednesday from Washington, D. C., on his way to take up his duties.

Judge G. B. Greer was down Wednesday from his Bonito home. The Judge has bought a bunch of goats, and has been looking after them and his farm—he has a big contract.

Mrs. Martha Channel, son and daughter, A. T. and Miss Kate, returned Monday from a two-months visit to their old home at Parson, West Virginia.

Deputy A. T. Roberts and W. M. Barnett returned last night from Las Vegas, to which point they accompanied Mrs. Henry Lutz who entered the State Asylum there.

J. L. Poole, one of the growers of Ruidoso's fine apples, was in yesterday with two loads of Lincoln County's pride. He left a box of White Winter Pearmain at this office, which will go to fill an aching void.

Jas. H. Kinney, supervisor of the Lincoln forest, with headquarters at Capitan, who has been on a two-weeks' visit at his old home in southeastern Kansas, returned Wednesday and went to Capitan on Thursday's train.

Dona Klugel, special representative of the El Paso Herald was in town yesterday and today. Miss Klugel has just returned from a campaign for her pushing journal, through the Pecos Valley, and will return to El Paso today.

The experiment committee has not allowed the grass to grow under its feet—as may be seen by reference in another column of this issue. Push, combined with intelligent operation, will make the project an unbounded success.

John J. McCourt, well-known throughout this county, and for the past ten years a representative of the Armour Packing Co., at El Paso, but now engaged in the brokerage business in the Pass City, was here a couple of days this week. Johnnie is a hustler and his old-time friends here wish him well in his new venture.

Push forward—don't pull back. Dan Tiffany has reported for duty on his regular run.

H. S. Fairbanks, trainmaster, has returned from a business trip to El Paso.

Keep up the good work—don't stop talking—have faith in your own proposition.

E. S. Demier, one of the train boys, is taking a lay-off, spending his vacation in El Paso.

Ira O. Wetmore was in two or three days this week from his home at Deming. Mr. Wetmore still holds some valuable property interests in Carrizozo, and naturally, is interested in the town's prosperity.

Dr. J. W. Laws and Miss Jones, trained nurse at the Laws Lincoln Sanatorium, were in town Wednesday evening in the doctor's auto, on their way home from a trip to White Oaks where the doctor had been called to perform an operation.

Elbert T. Collier, one of the successful farmers of the Coyote district, was in town Tuesday and made The News a pleasant call. Mr. Collier raised several tons of broomcorn the past season, and is a strong believer in that crop's adaptability to this section.

S. W. Perry, manager of the Foxworth-Galbraith Lumber Co., left last Saturday for a week's visit at his old home Plainview, Texas, where Mrs. Perry is stopping for the winter. Their daughters are attending school there. W. W. Stadman is attending to the lumber yard in his absence.

Mrs. Wallace L. Gumm, county superintendent of schools, and the Carrizozo corps of teachers, returned Saturday from Albuquerque, where they went to attend the State Educational Association. They report a larger attendance of teachers than ever before, and a greater interest in educational affairs.

Push the county-wide organization for the development of Lincoln county's resources.

The Kelley hunting party, mention of which was made last week, returned Monday from the Mogallous, laden with trophies of the chase. The deer, turkey, ducks, etc., they brought back not only proved their skill as nimrods but justified the assertion that they were sports—they having made a 400 mile drive to the hunting grounds and return.

John Doering claims to be a democrat, but his actions on Tuesday, the 5th, puts him in the class with the soulless corporations—one in which he is president, treasurer and secretary and the directorate as well; for he elbowed his fellow democrats to one side and coppered all bets, placing the proceeds in his capacious pockets. Just like a trust.

Hon. A. H. Hudspeth, chairman of the Democratic State Committee, returned Saturday from Santa Fe, where he had spent the greater part of his time during the campaign just closed. Naturally, he wore a smile that would not rub off, and his many friends here congratulated him on the successful campaign that was waged in the State under his direction, in behalf of the Democratic party.

Thomas Keehn and sons, W. H. and Frank Keehn, of Oscura, were up Monday to attend the Experiment Farm meeting. The Keehns are doing something themselves in the way of experimental farming, owning some 2,900 acres of good Lincoln county dirt. They will start in the coming spring with forty acres of crops which will be irrigated by pumping from wells. They already have the wells drilled, with every prospect of an abundant supply of water. They also run a well drill and have contracts for drilling a number of wells.

### Capt. Paris Dies at Fort Stanton

NEWS was received of the death, at 1:30 p. m. Wednesday, of Captain Joseph C. Paris at the Marine Hospital, Fort Stanton. Mrs. Paris was called to his bedside some weeks since and his demise was not unexpected. The captain was about 50 years-old. He was for many years a pilot in the government service on the Ohio and Mississippi rivers and held other important positions. He had been at the Sanatorium for about seven years, his malady being consumption. During his stay he made many warm friends through the county. He was a man of strong character and decided ability. The sincere sympathy of the community is extended to his wife. Interment will take place Sunday afternoon in the Carrizozo cemetery.

### Baptist Church

(H. Hayward, Pastor.)  
Sunday services Nov. 17, 1912.  
Sunday school at 10:00. Prof. Chas. Schreck, superintendent.  
Preaching services at 11 a. m. and 7:30 p. m. Echoes from the State Convention and special music.

Junior B. Y. P. U. at 8. Miss Spellman leader. Seniors at 6:30, led by Brother Roselle.  
Midweek service at 7:30 p. m. Wednesday.

Woman's Missionary Union meets with Mrs. Pine Saturday, 23rd inst., at 2:30, and will be followed by a social hour.

We cordially invite the public to all of our gatherings; strangers especially are welcome.

The local railroad boys are expecting an increase in railway business soon.

Thomas W. Henley was down today from Nogal. He gave a hearty endorsement to the publicity movement for the entire county, and added that he would be present at the meeting here Monday night, November 25, if possible.

### ANCHO

Did someone say it can't rain in this country? Well, what about last Monday? Ancho and surrounding country most certainly had a heavy rain, but it came in the form of a dry dust powder, and made Tuesday a day of house cleaning for every housekeeper. It was a sight to see the "tumble" weeds rolling across the country. It reminded one of a huge herd of brown sheep stampeding.

Sam Fambrough shipped some two hundred head of cattle from Ancho this week. He loaded them on the cars during the sand storm Monday.

On last Tuesday the Warden Bros. shipped several car loads of sheep from this place.

Well, we wonder how it really was any way? Miss Edith says she threw the stirrup over and it flew back hitting her in the mouth and breaking her tooth. Cecil says he threw the saddle on the horse and the stirrup hit Miss Edith in the mouth, breaking her tooth. Now, the truth of the whole matter is, there was no eye witness in the case, and we can not tell if the tooth was really broken by being hit with a stirrup or not. All we do know for certain is that Dr. Blaney has a job of crowning a tooth.

Some of the Ancho people are going to attend a dance at Jicarilla on next Saturday night.

Mrs. Wilson and daughter, Miss Gladys, were entertained at dinner on last Sunday by Mrs. Burnett.

Mr. and Mrs. McMillan have moved into town.

Mrs. Burruss, who has been quite sick for some time, is now convalescent.

Mrs. Flippen went to Carrizozo yesterday, returning today. She secured a house while there and will move in a few days. Her many friends will be sorry to see her leave Ancho.

Keeping everlastingly at it is the only sure thing.

Ten acres and thirteen hundred dollars isn't a bad record for one day.

It was only a case of waking up. The enthusiasm was there, Governor.

Carrizozo hit the up-grade this week with plenty of steam and every wheel on the rails.

It will take time to work it all out—but it is worth waiting for. It is a splendid start. Just keep at it.

Some of the up-state politicians are taking a mighty deep interest in the state of Gov. McDonald's health.

Public spirit is the best investment any community ever made—and Carrizozo put a big hunk in the bank this week. Watch the interest grow!

Cabinet makers throughout the country are busy constructing President-elect Wilson's cabinet. We are under the impression, however, that Governor Wilson will have considerable to say on that subject himself when the time comes.

The State highway bond issue carried by something over 6,000. Twenty counties of the State gave a majority for the bonds, while six gave an adverse vote. The six counties voting against the road bond issue were Curry, Quay, Rio Arriba, Roosevelt, San Miguel and Torrance.

With a new brass band, a ten-acre experiment farm, a county-wide publicity association, a new \$16,000 club-house and bumper crops all around, Carrizozo and Lincoln County are coming on pretty well, thank you! May be Roswell and Deming will move over a row and give us a place on the map of New Mexico. We are going to have it, anyhow.

The amendment to the constitution was ratified by more than 9,000 majority. Fourteen counties gave majorities for the amendment, while twelve went against it. However, the majorities in the fourteen counties voting favorable to the amendment were so much larger in each than in the twelve counties giving an adverse vote that the difference in the vote was much greater proportionately than the difference in the number of counties.

Greece, Montenegro, Bulgaria and Serbia are each gunning for Thanksgiving turkeys. They already have a number in cold storage.

California was first credited to Roosevelt, then to Wilson, and each day since has wobbled from one to the other, as if at a loss where to land.

Late returns from Idaho, give that state's electoral vote to Wilson. Should California finally remain in the Wilson column, the electoral college will stand as follows: Wilson, 446; Roosevelt, 77; Taft, 8.

President Taft has named Thursday, November 27, as a day of general Thanksgiving. The bounteous returns of Nature the past year and the bright prospects for the future should cause true gratitude to the Giver of all good things.

## CORONA

We had a heavy wind storm on the 11th, which blew lots of dirt into our home, but Tuesday was pleasant.

Our teachers returned from the N. M. E. A. at Albuquerque; reporting a very pleasant and profitable teachers meeting with more than 700 teachers in attendance.

Nine car loads of sheep were shipped to the East a market by Messrs. Baker, Dimmock and Burtinier the past week.

Emma's Davidson, spent part of last week in Denver on business and pleasure.

W. H. Lovelace and family were in town about the past week.

The finest team that Joe Holman, Merced, Cal., has ever had, is on hand soon.

Leon Jenkins is out of town this week on business.

Miss Simpson returned to Texas to teach after visiting her sister, Mrs. Cox for a few days.

Three new pupils entered school the 11th, and more are expected soon.

Green-Kelly & Co. are remodeling their store on the main street. These people kept up to date in all business lines, having recently employed Mr. Sloan to assist in the selling department.

## JICARILLA

The "Wilson Day" meeting of the admirers of President Wilson, was well attended by representatives from each of the four most prominent parties in the field. Democrats came to get "enthusiasm" with election day fever, others out of sheer curiosity.

R. E. Davenport was "doing" the Jicks one day last week.

The woods are full of Camps of the plow pickers. The bon-fire reminds one of the old

If you want the news and all the news while it is news, take The News.

time giving camp of long ago. Nicholas Maes lost a fine calf with black-leg last week. Sam Fambrough is gathering steers for an early shipment from Ancho. Theo Tompkins returned just in time to cast a vote for Taft. He has been visiting in El Paso. T. W. Stonerod is freighting the latter part of the week from Captain, for one of the local stores. Mrs. Davenport is visiting the Bruce family near Carrizozo for a few days. Election day passed off quietly here. This was a "dry" election, not a drop of anything but water to quench a voter's thirst, and it was the best day of the whole year to the Democrats. Romaldo Martinez and family made a business trip to White Oaks last Saturday. A. H. Norton went to White Oaks the last of the past week for supplies. Mrs. Mary Campbell, who was quite sick last week is up and around again, apparently well as usual. It is reported that Senor Carabjal has purchased the well of water owned by Gallador, brothers. Leo Davenport was in Camps for a few hours Sunday, on business. Ed. E. Wilson and family came in from the Jacks Sunday, his family will visit here several days.

## The Rebekah Lodge Elects Officers

THE local Rebekah Lodge, at its regular meeting held last night, initiated three new members and elected officers for the ensuing term. The officers elected are: Mrs. Joe R. Adams, N. G.; Mrs. J. F. Morse, V. G.; Mrs. A. E. Long, Secretary. The society decided to arrange a supper and reception for Thanksgiving, to which each member will invite a friend.
