### Christmastide and The News Contest

Mid pushing and boosting and mall routes and things.  
And Thanksgiving turkey, with white meat and wings.  
Remember that Christmas comes 'round once a year—  
Provide for the kiddies the very best cheer!

**T**HE Christmastide! What joyous memories of the old home, of fireside gatherings, of mother's happy smile and father's approving nod, the very words conjure up? One can see that glorified tree with the blinking candles and sparkling spangles of brightest gold and silver, and all the gaudy toys and mysterious packages, and above all the bright-eyed youngsters, eager, expectant, happy! The great world holiday has no deeper significance, no more wonderful message than this—the happiness of a little child!

The News feels that the world needs all the optimism, all the happiness, all the joy and all the glad things men can crowd into it. Above all it believes the happiness of the child is the biggest thing on earth. It wants to do its share.

Therefore, it proposes to run a "Christmas Contest." It proposes to give two suitable Christmas presents—one to the boy and one to the girl pupil of any school in the county who sends in to the paper the best answers to two Christmastide questions. Here they are:

"What Does Christmas Mean?" and "What Would You Like for Christmas?"

The answers should be brief and as concise as possible, limited to twelve words, or less, each. We have sent to every school in the county the printed blanks containing the questions, with requests to the teachers of the various schools to hand the slips to the pupils. All the answers, when properly filled out and containing the name and address of the pupil, will be printed in THE NEWS, if received at this office before Tuesday, December 17. The contest closes with the issue of Friday, December 20. December 19 a committee of five citizens of the county will carefully go over these answers and award the presents. In judging the merits of the answers the beauty and appropriateness of the Christmas sentiment expressed, the construction of the sentence, its grammar, the neatness of the writing, will all be considered. The awards will be announced in the Friday, December 20, issue of THE NEWS.

The original slips will be given to the committee with the names of the writers clipped off and every effort will be made toward securing an impartial award of the presents.

And now it is up to the bright little folks of the Lincoln county schools to get on their thinking caps and send in their replies. Principal Schreck, of the Carrizozo schools, and his excellent corps of teachers have given the contest their hearty endorsement, not only because the plan introduces an excellent language lesson and stimulates each pupil to his or her best effort, but because it encourages real thought about the world's greatest holiday and its meaning.

The contest is absolutely free and open to every pupil in the schools of the county. Teachers who have not received sufficient blanks to go around will be supplied with more upon request.

The blanks were distributed to the Carrizozo school Monday of this week and the following answers indicate the interest the pupils are taking in the contest.

The very first blank to be returned to the office came in Tuesday noon. Bright-eyed, 8-year-old Harold Fish brought it and said he was looking "for the man who printed the newspaper." "I forgot to hand this to the teacher," he said. "I am not too late, am I? I wrote it all myself," and when told that he was the first in the look of relief that came into his eyes was as good as a Christmas tree.

Remember, the questions are—"What Does Christmas Mean?" and "What Do You Want for Christmas?"

### The Answers

- Harold Fish says Christmas means "To think of your friends," and wants "A little baby sister."
- Wayne Richard—Christmas is the holiday kept in memory of the birth of Christ. I want a drum, a horn, air rifle, candy and nuts.
- Ina Jones—Christmas is our Saviour's birthday. We should obey Him. I would like a bank.

- Nora Morse—For everybody to be merry and try to make everybody happy. A nice box of candy.

### Epitome of the Week Locally

ERHAPS no week in Carrizozo's brief history has held so much of really important news as has been crowded into the past seven days.

Saturday afternoon came two gentlemen from Roswell, Postmaster A. H. Rockefeller and F. M. Farnsworth, having come across from the Pecos Valley metropolis to stir up interest in the matter of the proposed daily automobile route between the two towns, now being advertised for by the Postoffice Department. A meeting of business men was held in the evening at which practically every interest of the village was represented. It developed that the new route—103 miles in length—is also to be made a link in the great 'cross-continent "Borderland Route." Speeches were made nearly by all present and enthusiasm ran high. The plan means daily mail facilities of the best for over 20,000 people. It means putting Carrizozo on the most popular 'cross country route from east to west over which it is anticipated there will be many thousand autos pass to and from the big Panama Canal celebrations at San Diego and San Francisco, and the town would be, from its location between Roswell and El Paso, necessarily a stopping point for over night, for repairs, etc. It should mean the leaving of thousands of dollars here from these sources, as well as advertising for the Valley and the county that would be invaluable. The new mail route would bring us in closer touch with many parts of the county, stimulate business and be a great convenience to the patrons of some sixteen postoffices along the line. Lincoln, Capitan and all the east and south-county points are wide awake and pulling for it. Another point is that the route will connect us up with one of the best bunches of live wires in the southwest—the Roswell bunch, who have been doing the very things we are starting out to do. It is a big move—looks as if it would win—and Carrizozo stood up to the job in fine shape.

MONDAY evening the big booster meeting was held. The Lincoln County Development Association was organized at what was pronounced as decidedly the best attended and most enthusiastic meeting of the sort ever held in the town. Frank J. Sager, cashier of the Exchange Bank, was made president, and acted as if he liked it—says he's right in line to keep pulling until results come, and then some. First Vice President John B. Bell, Carrizozo's well-known groceryman; Second Vice President Eugene F. Jones, a successful farmer of Oscuro, and Third Vice President J. M. Holloway, a prominent business man of Holloway, are all in line for a strong pull. Everybody knows Arthur J. Rolland of Rolland Bros., as secretary will take his place at the wheel—and keep it. Frank W. Gurney, already known as a persistent and efficient booster, was made treasurer. Hon. James V. Tully of Glencoe, member of the Legislature, good roads booster and generally wide-awake citizen, and Dr. Guido Ranniger of Oscuro, who has already done some notable developing all by his lonesome and has proved his title to a seat in the live-wire class, are, with the officers named, the executive committee. The scope of the work will be matters of county-wide interest. Carrizozo at the same meeting organized a live local development association, officered by A. J. Rolland, president; Lee B. Chase of The Outlook, and Jno. A. Haley of THE NEWS, vice presidents; W. J. Dering, secretary and Albert Ziegler, treasurer. Oscuro delegates present were Dr. Ranniger, E. F. Jones and Dr. R. E. Blaney and they promised a strong local association from their section. A number were present unofficially from other sections of the county, and all expressed a desire to get in the game. The plan is for the central organization to take care of strictly county-wide matters and each community may send delegates and contribute what funds it feels disposed to—no section of the county will be shut out from the benefits of this work. The local associations will look after matters of strictly local interest,

### THANKSGIVING

**Y**esterday was generally observed in Carrizozo, in the real spirit of what is fast becoming one of the most important holidays of the nation. Practically every business house was closed, there was no school, union services were held at the Baptist church, only a few men were kept at the E. P. & S. W. shops and as a rule there was a plump turkey on every table and a general reign of quiet rest and thankfulness for the good things of the past year and the better things to come.

each taking care of its own affairs and raising its own funds and spending them. The idea is local autonomy and a pull all together in larger affairs.

FOR instance, Carrizozo has started in on an Experiment Station proposition as the best method of demonstrating the real agricultural resources of this section—and the plan is to carry the entire expense locally, so far as the county is concerned. She is expecting and will get outside help, but is not going to ask any funds from other communities in the county. She argues that while it will benefit all sections, in return the growth of any section of the county means something for Carrizozo, and she is willing to pay her own freight. That she really means it is evident from the fact that her citizens have actually raised \$1,656.00 in cash and have about \$350.00 promised, according to the report of the Committee, Messrs. F. W. Gurney, C. A. Stevens and J. D. Wilson. Besides this A. C. Wingfield has donated ten acres of typical valley land adjoining the townsite. The State Agricultural College faculty have kindly tendered all necessary expert assistance in getting the farm started and keeping it steered along right lines, and informally the committee has been assured of real help from the railroad. It looks mighty bright for success.

ELECTRIC GUN IN WARFARE

Pittsburg Man Has Discovered Method of Hurling Shell with Greater Power Than by Powder.

There is no other sphere of achievement in which scientific invention and discovery keeps up its quick pace of progress more assuredly than in the arts and methods of warfare. There is not one of the half-dozen leading nations of the earth that is not interested in the problem of air navigation mainly because of the understanding that aeroplanes and steerable balloons will be mighty convenient for purposes of devastation and destruction. More than a hundred chemical experiments, probably more than a thousand, have during the past ten or fifteen years been endeavoring to find some yet more diabolical explosive than any before known, and some of them have succeeded.

Now a Pittsburg man comes forward with the bland suggestion that he has discovered a method of hurling by electric power a shell "with greater velocity than it can be driven by powder." Not only so, but he claims that a single motor will furnish electric force to operate a whole line of guns or a whole battleship aggregation of guns. He proposes shortly to make a test with a field piece, and if his invention does what he thinks it will do, the science of war will have made one more long stride in the direction of quick annihilation.

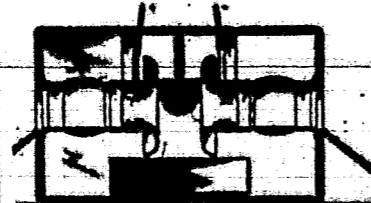

A solid missile hurled by electricity does not suggest a havoc quite so fearful as some of the prophets have forecast as a probable method of destructiveness to which artificially generated lightning will some day be applied. There is illustration every summer of how naturally generator electricity can blast and destroy. It only remains for some genius to work out the problem of the artificial and dirigible thunder-storm. Let us hope that before he succeeds the universal peace agreement will have been signed.

Telephone plants represent a total investment of \$1,723,990,000, and the number of yearly phone connections is estimated at 22,000,000,000.

TO ELIMINATE ALL DRUGGERY

Chicago Housewives Form Club and Buy Electric Cleaners, Washing Machine, Flatirons and Fan.

A women's club has been formed in Chicago which might well be called the "Women's Anti-Druggery club."

The club is not incorporated, has no officers or clubrooms, and consists of only six members. But the club has a purpose and this purpose is the eliminating of druggery in the respective households of the members.

The club is the possessor of an electric vacuum cleaner, one electric washing machine, two electric irons and a fan for drying the washing. The only dues are those required for the upkeep of these labor-savers, and this amount has been estimated to be about three cents a week. The "infant" fee consists of the price of the apparatus divided into six equal parts.

The members have the use of any or all of the apparatus one day a week. For instance, Mrs. Brown may do her cleaning on Monday and her washing on Wednesday. She will have the vacuum cleaner on Monday and the washing machine, iron and fan on Wednesday.

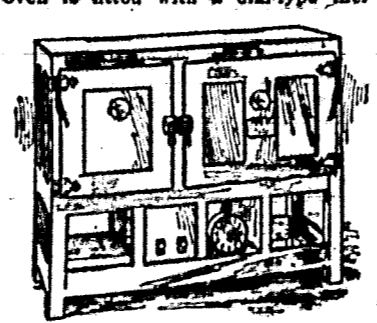

The scheme works out to everybody's satisfaction, it is reported. A small boy has been hired to take the apparatus to the different houses, which are all in one neighborhood.

HANDY ELECTRIC COOK STOVE

Wireless Principle is Employed in Operation of Cooker—Heat is Automatically Controlled.

A new automatically operated electric cook stove, manufactured by a Michigan concern, employs the wireless principle of operation, the heating elements of which are inclosed in thermally insulated compartments, and cut off automatically when the stove has reached the predetermined temperatures for the cooking operations required.

The installation comprises two separate cooker ovens, one for boiling and the other for baking and roasting, says the Popular Mechanic. Each oven is fitted with a dial-type ther-

Electric Wireless Cooker.

mometer, the pointer of which, upon making contact with an adjustable hand, momentarily closes an auxiliary circuit, tripping out the heater switch. The temperature at which the heating element is thus disconnected can be set at any desired point by means of the thumb-controlled contact pointer. For the boiler the cutting-out point is ordinarily set at 212 degrees Fahrenheit and for the roasting oven, at 375 degrees. After the temperature required to operate the cut-out has been reached, the cooking proceeds with the heat already stored in the oven, the stove thus becoming a wireless cooker.

By reason of the alarm clock provided, the housewife may place the articles to be boiled, baked or roasted in the stove, and go away for the afternoon, knowing that the oven will begin heating at the time she has set the alarm. When the alarm operates, a lever on the winding key throws a switch closing the circuit to the heating elements. Later, when the predetermined temperatures have been reached in the ovens, the circuit is broken, and the ovens go on cooking with the heat they have stored up.

DR. CALDWELL'S GUIDE TO GOOD HEALTH

The natural tendency of people in this busy age to demand of the digestive organs more than nature intended they should perform, frequently results in throwing the entire digestive system into disorder. When the stomach fails to freely digest and distribute that which is eaten, the bowels become clogged with a mass of waste and refuse which ferments and generates poisonous gases that are gradually forced into the blood, causing distress and often serious illness.

Dr. W. B. Caldwell says that if the bowels are kept regular there will be much less sickness, and prescribes a combination of simple laxative herbs with pepsin that is most effective in relieving any congestion of matter in the bowels. This compound can be bought in any drug store under the name of Dr. Caldwell's Syrup Pepsin, and costs only 50 cents a bottle. It is mild in its action, pleasant to the taste and positive in effect, a dose at night bringing relief next morning, naturally and without gripping or other discomfort. A bottle of Dr. Caldwell's Syrup Pepsin in the house will save many times its cost in doctor bills. Your name and address on a postal to Dr. W. B. FOR THE IDEAL PUMPKIN PIE

Why Wait Until Thanksgiving to Enjoy This Exclusively American Delicacy?—Make It Now

Our neighbor came to call early this morning with lips-stained a dark purple from a saunter through the arbor; on his arm he carried a basket of grapes and in each hand a big red apple, and in his buttonhole a spray of goldenrod, and the first red autumn leaf made him quite gorgeous. Under his arm he carried a pumpkin, so we invited him to breakfast.

One should not wait until Thanksgiving for the first pumpkin pie, but begin putting their appetite in training for the feast by some preliminary work on the American pastry.

Steam the pumpkin instead of boiling it, and when cool press it through a fine sieve or vegetable press.

For each pie allow a pint of this strained pumpkin, one cup of rich milk, one egg, one-half cup of sugar, one teaspoon of ginger, one-half teaspoon of allspice, one-half teaspoon of cinnamon and a little salt.

If the milk is brought to the boiling point before the other ingredients are added the pie will bake more smoothly.

The crust should be baked before the filling is put in, as this prevents it becoming soggy. Unlike most custard pies, pumpkin requires to be baked quickly. When the top is brown, turn to the touch and glossy it is done.—Henrietta D. Grauel, in the Cleveland Leader.

TRY THE CASEMENT SCHEME

One of the Most Effective and Economical Window Dressings That Has Been Devised.

One of the neatest and prettiest ways of dressing the window of a room in which it is not desirable to have flowing draperies is to use the casement scheme of decorations. For this purpose there comes a specially sheer and fine cotton material called casement cloth, through which the light shines although the interior of the room is shielded from outside eyes, but a similar charming effect may be produced by cotton voile, by Chinese or wash silk, none of which materials are costly. The arrangements of the drapery are simple. It is shirred scantily at both its ends upon fine sliding rods of brass which fit into grooves at top and bottom of the casement, if it be a full length French window and against the sliding casements, if the window is of the American type. Another advantage of this scheme of window dressing is the ease with which the draperies may be laundered, for, being straight, guileless of ruffles and always unstarched, the merest tyro may wash, iron and readjust them.

Curried Cod. Two slices large cod, or remains of any codfish, three ounces butter, one onion sliced, one teaspoon of white stock, thickening of butter and flour, one tablespoon of curry powder, one-fourth pint of cream, salt and cayenne to taste. Bake the fish and fry to a nice brown, color with the butter and onions; put this in a stewpan, add the stock and thickening, simmer for ten minutes. Stir the curry powder into the cream; put it with the seasoning into the other ingredients; give one boil and serve. Time, three-quarters of an hour. Sufficient for four persons.

Buttermilk Cakes. One quart of buttermilk, one level teaspoonful of salt, two eggs, four to make a thin batter and one teaspoonful of baking soda. Beat up the eggs well, add to them the buttermilk; then add the salt and mix thoroughly. Dissolve the soda into two tablespoonfuls of boiling water, then stir it into the buttermilk. Now gradually add the flour, stirring all the time, until you have a batter that will pour smoothly from a spoon. Give a good beating and make quickly on a hot, well greased griddle.

Velvet Cake. Beat the yolks of three eggs and whites of two in separate bowls, add one-half cup of sugar to each, beat again, add whites to yolks, beat again, then add one round cup of sifted flour, to which has been added one teaspoon of cream of tartar and one-half teaspoon of soda, a little salt and one teaspoon of vanilla. Stir until smooth, add slowly one tablespoon less than one-half cup of boiling water, stir in just a little at a time. This sounds difficult, but is very easy to make.

Spinach Soup. Cook three quarts of spinach in eight cupsful of water forty minutes. Press through a sieve. Blend three tablespoonfuls of butter with three tablespoonfuls flour, add three cupsful milk, stir till boiling; cook five minutes, add salt, pepper, celery salt, red pepper, one chopped onion and spinach mixture; cook eight minutes and serve. Garnish with whipped cream.

Russian Poultry. Slice raw potatoes as for frying, and let them stand in cold water half an hour, then put in a mappy with pepper and salt and one-half pint sweet milk in an ordinary sized dish. Put in the oven and bake an hour. When taken out, put a tablespoonful of butter into small bits and scatter over the top.

Stewed Parsnips. Peel the parsnips and slice them; boil in a covered vessel until tender, with thin slices of pork; salt and pepper to taste.

Per-na and Ka-tar-no

I have received a letter from a young lady, who asks me: "Is the old Per-na (Ka-tar-no) better than the revised Per-na?"

Either medicine has its place. One is adapted for one condition, another for another. Ka-tar-no is a better remedy for some conditions than the revised Per-na.

On the other hand, the revised Per-na is a better remedy for some conditions than Ka-tar-no. They are both intended as catarrh remedies. They have both done a great work in relieving catarrh, chronic and acute. Many hundreds of cases of chronic catarrh have recovered while taking Ka-tar-no and the same is true of the revised Per-na during the last six years since its revision.

There is a difference, however, in the two remedies. Whenever catarrh is associated with constipation, then the revised Per-na is the best. Indeed, this is exactly why the revision was made, to meet such cases. But where no laxative is needed, where the bowels are regular or inclined to be loose, then the old Per-na (Ka-tar-no) is the better remedy.

Per-na, Man-a-lin and La-cupis manufactured by the Per-na Company, Columbus, Ohio. Sold at all drug stores.

SPECIAL NOTICE.—Many persons inquire for the Old-time Per-na. They want the Per-na that their Fathers and Mothers used to take. The old Per-na is now called Ka-tar-no. If your druggist or dealer does not keep it for sale, write the Per-na Company, Columbus, Ohio, and they will tell you all about it.

SOMETHING AKIN TO GENIUS

Young Man With Financial Ability So Well Developed Should Make Mark in World.

"Do you think there is any such thing as financial genius?" "I am sure there is. I know a young man who has it in a marked degree. After he had persuaded a beautiful daughter of one of our most prominent jewelers to become his wife he went around and induced the old man to let him have an engagement ring at the cost price."

"I don't see any indication of remarkable financial genius about that." "Wait. When he and the girl broke their engagement he took the ring back to her dad and got him to pay eight per cent. interest on the money that had been invested."

Jackson's Relief. Wilson (who has met his friend whom he hasn't seen for some time)—Let me see, you knew poor old Jackson, didn't you?

Johnson—Yes, I knew him well. Wilson—Then you will be pleased to hear he is out of his misery at last. Johnson—You don't say so. Poor old fellow; but I always thought he would pop off suddenly. When did he die?

Wilson—Oh, he's not dead; it's his wife.

Accounted for. "I will not let my wife go to these fashionable bridge parties."

"I'm glad you take that stand. So you think it is immoral to gamble?" "No, but she's such a wretched player."

At a Distance. "She certainly tries to obey her mother's injunction not to let the young men get too near."

"Why, I saw a young man with his arm around her last night." "I know, but she had a faraway look in her eyes."

The fountain of beauty is the heart, and every generous thought illustrates the walls of your chamber.—Smiles.

ANCHO
The W. O. W. organized a camp in Ancho last Saturday evening with twenty charter members. Officers elected: W. J. Barron, Council Commander; J. U. Carter, Lieutenant; J. A. Coomer, Clerk; E. B. Bush, Banker; Mr. Richardson, Secretary; Mr. Wright, Treasurer; R. H. Coates, Harry Stanley and Mr. Green, managers. The boys say they are now ready to accept new members to mount and ride the "goat". Meetings to be held the 1st and 3rd Saturdays in each month.
Last Sunday week Mr. and Mrs. John Wilson entertained several friends at dinner. Those present were: Mrs. Mary Peck, Phillipa, Chris-

are watching it with interest and it is believed that such an interest will soon be created that will cause one to be organized. This is the case.
Last Saturday evening the first public entertainment given by the school girls, but those who had the pleasure of attending, are wishing for another one soon. Practically every home in the little town was reached during the entertainment, and from the smiles upon their faces, and the many complimentary remarks heard as they departed for their homes at 10:30 o'clock, one can easily assume that all present enjoyed themselves and felt highly pleased with the program.
Miss Edith Ticknor is teaching in Carrizozo at present, substituting for Miss Humphrey who is attending at the bedside of a sick relative.
Thanksgiving Day is to be a big day in Ancho. Preschool services in the morning, dinner (Oh! how big that turkey dinner) on the ground and singing all the afternoon, that is, if any body is able to sing after dinner. Mr. Editor, come up and spend the day with us. We assure promises to be on hand with a nice dressed quail.
Some of the Ancho fell a took a ride on the Ancho, Jicarilla and Southern narrow gauge a few days ago. This is the trunk line of the Western City Company, and is used principally for bringing clay into Ancho for the purpose of making brick and tile. The road is two miles long, about 15 inches wide and sporting cars about 125 feet. It accommodates four passenger coaches, running in two cars of clay. Mr. Christmas is engineer, headman, conductor, fireman, porter and news boy. He's all right too. The cars are observation cars, being about four feet high and the same along the way is perfectly grand. As we near its center, terminus the majestic Jicarilla and Jacks mountains loom up in their splendor and the invigorating air makes one exclaim, "I'm glad I came."
Say, Mr. Editor, that "boondoggie" proposition is a great scheme. We are anxious to see the end of it, for it is sure to be a success.

Don't wait to be asked---just take hold and help push!

If we are going to have a big town and a big county we've got to cut out the little things.

Carrizozo's Thanksgiving turkey was a dandy, and there was plenty of stuffin' and cranberries.

And we'll bet thirty cents most of you daren't look a turkey in the eye for the next three weeks.

Be sure to get your name on the membership roll of the Carrizozo Development Association.

The eclipse of the moon Thursday night didn't have anything to do with the dark meat of the turkey.

We've got a perfectly bully experiment station on paper and a corking good place to put it. It is up to the committee now.

That "queer" name Peterson talked about is a real asset, just the same. "Carrizozo on the Borderland Route" will stick in the memory, all right, all right!

One swallow doesn't make a spring. One boost meeting doesn't build a town or develop a county. It's a case where keeping everlastingly, at it is the only thing that counts.

"Cow town," "sheep town" and "railroad town" are all good Carrizozo is mighty proud of all her important and permanent interests in these lines. Now if we can make her, in addition, the center of one of the best developed agricultural and horticultural sections in the State, we'll have a combination that will make 'em sit up and take notice. And don't forget the reserve forces of our big mining interests and the untold possibilities of our scenery and climate as all-the-year-round resort attractions--and a place on the great cross continent "Borderland Route" will put us somewhere. Who said "5,000 people in 1915" was a dream? Better, make it 10,000!

Dr. Laws Honored  
At the recent meeting of the big Tri-State Medical Association in Memphis, Dr. James W. Laws, of Laws' Sanatorium, at Lincoln, delivered an address on "Tuberculosis," which was featured in the Memphis Commercial-Appeal of November 26, attracting more general interest than any other paper during the meeting and which elicited a vote of thanks from the body. Dr. Laws is highly spoken of as a former resident of Memphis and much space is devoted to his paper, as well as to his sanatorium at Lincoln, and hearty approval given his advanced methods. Lincoln county may well be congratulated on having so able a representative of its unsurpassed advantages as a health resort at the meetings of one of the foremost medical bodies of the country.

FOUR TEMPTING DISHES MEANT FOR SEMI-INVALID, OR THE JADED PALATE.

Prepar Method of Making Noodles. Calves' Brains With Eggs—Recipe for Orange Cream Pudding—Mushrooms and Macaroni.

Rolling Out Noodles.—Beat up one egg, add a little salt, red pepper and grated nutmeg, and enough sifted flour to make a stiff dough.

Calves' Brains With Eggs.—Soak one calf's brain in salted water, wash it well and remove the veins. Then blanch it and drain and chop it small.

Making Orange Cream Pudding.—Dissolve two heaping tablespoons of powdered gelatin in one cupful of boiling water, then add two cupfuls of sugar, two cupfuls of strained orange juice and the yolks of three eggs.

Mushrooms and Macaroni.—Heat half a cupful of cream or milk in the chafing dish; add two heaping tablespoons of butter, half a cupful of chopped canned mushrooms, one cupful of cold boiled macaroni and four well beaten eggs.

Orange Puffs. Cream one-third cup butter, add one cup sugar, gradually, and two eggs, well beaten. Mix and sift one and three-fourths cups flour with three teaspoons baking powder and salt.

Fewer Pans. Cooking in casseroles or other earthenware dishes is growing more popular each year.

Tempting Club Slide Dish. Take the skin, juice and seeds from six, fresh tomatoes, chop what remains with celery and add this dressing: Yolks of two hard-boiled eggs, rubbed fine and smooth, one teaspoon of English mustard, one of salt, the yolks of two raw eggs beaten into the other, dessert spoon of fine sugar.

Cottage Soup, Baked. One pound of meat, two onions, two carrots, two ounces of rice, a pint of whole peas, pepper and salt, gallon of water. Slice the meat and lay one or two slices at the bottom of an earthenware jar or pan; lay on it the onions sliced, then the meat again, then the carrots sliced and the peas, previously soaked all night, and the gallon of water. Tie down the jar, put it into a hot oven for three or four hours.

Apple Sauce Cake. One cup of sugar, one-half of shortening. Cream together. Pinch of salt and a little nutmeg, about five times over the grater, one teaspoon of cassia, one-half teaspoon of cloves.

Beefsteak Pie. One and one-half pounds of best steak cut into small pieces. Put into boiling water and cook until tender. Remove any fat or gristle; add a piece of butter and thicken the gravy with cornstarch. Salt and pepper to taste.

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of Dr. J. C. Fletchering.

POLLY VICTIM OF DECEPTION

Bird Realized Period Between Its Temporary Oblivion Had Been Materially Cut Short.

The Goodloys have a sailor son, who on one occasion brought home a parrot for the amusement and enlightenment of the family. They kept it for the sake of the donor—on no other account would it have been given house room.

Recently, however, Mr. S. took advantage of a half-holiday according to him, and made an extra call on the Wednesday. As he was ushered in Miss Mary Goodley dexterously threw the cloth over Polly's cage.

"Well, I'll be everlastingly blessed," squawk from the covered cage. "Well, I'll be evaluating blessed," said Polly. "This has been a thundering short week!"

HARD LUCK. Dick—I told her that I loved her—that I was even willing to worship her at a distance.

JUDGE CURED HEART TROUBLE. I took about 6 boxes of Dodds Kidney Pills for Heart Trouble from which I had suffered for 5 years.

Accelerated Brain Activity. In the early days of Wisconsin, two of the most prominent lawyers of the state were George B. Smith and I. S. Sloan, the latter of whom had a habit of injecting into his remarks to the court the expression, "Your honor, I have an idea."

Rose Matilda's Splinter. "Ah! got a splinter in dat ol' winder sill in mah sange! Mis' Greene," announced Rose Matilda, who had been scrubbing window sills, exhibiting the injured member. "Is yo' got a pin or some sech sharp t'ing yo' cayn git it out wif? Ah don' jes' wan' to leave it in, 'ca'se dem splinters ain' to be trifled wif. Oh, dem's de t'ing'll do de business," as Mrs. Greene attacked the splinter with a pair of tweezers and triumphantly drew it out.

Out of Fashion. "I see where fuffy skirts saved a girl from drowning in the Chicago river recently. The old styles were the best styles after all."

Badly Burned on Leg. 200 Fuller St., Redwood, Cal.—"My two-year-old daughter tipped a basin of hot water on her leg between knee and ankle. She was burned so badly, in places as large as a man's hand, that the skin was loose. The appearance of the leg was dark red. I applied the Cuticura Ointment at once and put on a bandage. I removed the bandage twenty-four hours later, opened the water blisters, applied more Cuticura Ointment and bandaged again. The skin did not come off and I did this until she was completely cured. I did not let her walk much until it was healed. She did not complain after the first day, and after the Cuticura Ointment was put on, slept as usual. The scars are gone; Cuticura Ointment entirely cured her."

HIS MIND UP IN THE CLOUDS

Professor Imagined Appeal Was From Fido, and the Situation Became Embarrassing.

A great lover of animals, Professor Dryadust was much given to having his pet dog sitting beside him at meal times eating tidbits from his own little plate.

The duchess did not approve of this, and presently, to attract his attention, she pulled him gently by the sleeve. Then the professor woke up. Grabbing a half-picked chicken bone from his plate, he thrust it under her startled nose.

"Don't bother just now, Fido!" he said curtly. "Here, take this and go and eat it on the mat, like a good doggie!"

Liquid Measure. It was the time of the singing lesson at the local council school, and the teacher was explaining to the young hopefuls that if a "treble," and "alto," a "soprano" and a "bass" sung together, their united efforts would constitute a quartet.

There seemed no trouble about that, and the teacher thought the class was getting on very nicely.

"Now, Jimmy, leave off pinching your brother's leg and listen to me," said she. "If a bass and a tenor sang together, what would you call that?" Jimmy was the son of the local milkman, and a bright lad withal. His answer was not long in coming.

"Please, miss," said he, "that would be a 'pintotte'."

WOMAN SICK TWELVE YEARS

Wants Other Women to Know How She Was Finally Restored to Health.

Louisiana, Mo.:—"I think a woman naturally dislikes to make her troubles known to the public, but complete restoration to health means so much to me that I cannot keep from telling mine for the sake of other suffering women."

"I had been sick about twelve years, and had eleven doctors. I had dragging down pains, pains at monthly periods, bilious spells, and was getting worse all the time. I would hardly get over one spell when I would be sick again. No tongue can tell what I suffered from cramps, and at times I could hardly walk. The doctors said I might die at one of those times, but I took Lydia E. Pinkham's Vegetable Compound and got better right away. Your valuable medicine is worth more than mountains of gold to suffering women."

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female illness we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

**Notice of Forfeiture.**

To the Stockholders of the Commercial Hotel Co., a corporation.  
Each of you is hereby notified that the undersigned Co-stockholder has expended the sum of not less than one hundred dollars in cash, for labor and improvement on each of the following mining claims situate in the Nogal Mining District, Lincoln County, New Mexico, to-wit: H. & F. No. 1, and H. & F. No. 2, for the year 1911. You and each of you are further hereby notified that if you or either of you should fail to release to the undersigned your proportion of such expenditures within sixty days from the date of the last publication of this notice, as required by Section 221 of the Revised Statutes of the United States, your respective interests in and to said mining claims and each and every one of them will become the property of the undersigned Co-stockholder.  
J. H. WALKER,  
Co-stockholder.

**Public Notice.**

Of recent date, many complaints have been received at the Sheriff's office, in effect that numerous persons in Lincoln County who are engaged in business, are in the habit of keeping their respective places of business open on the Sabbath day of the week and do business on that day in violation of the Sunday law of the state, while others who have no particular place of business are in the habit of doing work and labor on that day that is not work of charity or necessity, in violation of said law.  
It is the duty of the Sheriff to report all violations of said Sunday law, that may come to his knowledge, to the District Court for indictment by the grand jury or information by the District Attorney, and while such duty is a punishable one, Public Notice is hereby given that the names of all persons violating said law in Lincoln County, those names to be known by the undersigned Sheriff of Lincoln County, will be reported to the court for its action at the coming October, 1912, term of the court.  
Deputy Sheriff, N. M. August 12, 1912.

quarters for all civic movements in the village. Their idea, as we understand it, is to secure a suitable hall and furnish it up, not only as a meeting place for the League, but for local dances and entertainments and purposes of that sort—a kind of central point for the citizens and citizenesses to get together for the promotion of common interests, as well as a larger and broader social development. They have asked the male boosters to join and help in carrying it out. If properly handled THE NEWS does not hesitate to "hand it to the ladies" that their idea is fraught with greater possibilities for a bigger and better Carrizozo than any of the rest. If they can start and run the plan successfully it means an incubator for public spirit and better things—and they can surely do it if they want to. It is a big thing and if the male contingent doesn't jump in and push they're missing the best bet on the board.

**DURING** the week arrangements were made by correspondence with President R. E. Twitchell, of the State Good Roads Association to put Carrizozo on the itinerary of Lecturer Eldredge, of the Government Good Roads office, with the great stereopticon entertainment which he is to bring to New Mexico the last of next month. Definite dates have not been set, but probably will be between December 16 and 20. This lecture is one of the biggest pieces of road boosting and the most interesting thing ever done by the Good Roads office. Just as an entertainment it will be, the finest thing ever brought to Carrizozo and entirely free to all. Due announcement will be made later as to time and place. And it means renewed interest in good roads in the county and is altogether important.

**A** NOTHER big bit of news comes in the shape of an offer by Director W. T. Conway of the Extension Department of the New Mexico College of Agriculture and Mechanic Arts at State College to co-operate with the local Experiment Farm committee in securing for Lincoln county the \$1,000,000 offered by the National Crop Improvement committee for establishing and directing better crop production and better farming methods. Mr. Conway writes Jno. A. Haley that he believes the local committee can easily qualify for this money and that it is really a practical proposition and has the indorsement of the Agricultural Department. The Committee has taken the matter up vigorously and will get it if possible. It means putting in experimental plots in a dozen or more sections of the county and expert advice and directions for every farmer who desires it, as well as plant and seed breeding to meet local conditions. It also means the highest quality of the most efficient publicity for Lincoln county—at practically no expense. Looks good, doesn't it?

**A**ND last, but of course we do not think it least—is THE CARRIZOZO NEWS' great School Children's Christmas Contest. The paper offers two suitable prizes—one for the best answer by the boy and one for the best answer by the girl pupil attending any public school in the county, to the two questions: "What does Christmas mean?" and "What do you want for Christmas?" The answers afford an excellent language lesson for the pupils; they give Old Santa Claus a mighty valuable pointer as to what will suit each child as a remembrance, and above all they set the youngsters thinking of the significance of the world's greatest event and instill the Christmas sentiment and spirit into their hearts. We hope the teachers and parents will encourage them to contest for the presents. They will be awarded by five disinterested judges and there is absolutely no expense to the children, the schools or the parents. Another feature of the contest, we believe, will be its interest to the grown-ups. If it scrapes the barnacles off one single heart and opens one single purse to the needs of some little one who might else go presentless this coming Christmas—we shall feel it has been worth while.
