

Ferguson Renominated

At the democratic state convention which met in the city of Albuquerque last Monday, Harvey B. Ferguson was renominated for Congress. This is well. If ever a public official was entitled to recognition it is our present congressman. He has not only been actively efficient and always on the job but he has been alert to the wants of his people. His unanimous nomination by the greatest convention New Mexico ever had was a fitting reward for his distinguished services. If usefulness, attention to every want of his people and support of remedial legislation distinctly to advantage of the people of New Mexico are to be taken at their value the nominee of the convention should be given the biggest majority in the history of the state.

For corporation commissioner the same convention named Adolph P. Hill, of Santa Fe, unanimously according him the honor. Mr. Hill has been in the office of Secretary of State the past two years, the last year as assistant secretary, and is a man of splendid training and a thorough acquaintance with the work in hand. He is a fluent speaker and writer in both English and Spanish, a native of the state and knows what is needed in the position for which his party has named him.

The convention did well in naming these two gentlemen, and if anyone has a doubt as to where the democratic party stands we wish to call their attention to the declaration of principles published on this page.

Jicarilla

News of the grave sickness of Prof. Burnett, of Ft. Sumner, was received here a few days ago. Mr. Burnett is well and favorably known here, and we deplore his misfortune.

Maurice Brooklyn returned from Clovis last week much pleased with the progressive spirit of eastern New Mexico.

E. E. Wilson made a business trip to White Oaks one day last week. He reports the vegetable market very dull.

Mrs. Burnett was visiting in this camp last week for a few days.

Sam Fambrough returned the last of the week from points in Texas, where he with his family visited relatives. They made the journey in their auto.

Samuel Wells, of White Oaks Springs, was through this vicinity last week with apples for sale.

Mrs. Johnson, of Sweetwater, Texas, mother-in-law of Ed Haskins, left for her home Sunday last, after a short visit with friends here.

A. H. Norton killed a large fat a few days ago. It is presumed that some thirty or more fowls were victims of this sneaking feline before a chance to kill him was obtained.

Mr. McBrayer left for White Oaks the fore part of the week, to secure work at the coal mine.

We were greatly shocked to learn of the death of Mrs. Haley, the dear consort of our editor. We had thought her health recovered, and that all was well with her again. But the tender flower, too frail for earthly contact, and withered by its blighting breath, will bloom triumphant in the land of Paradise. Mother, husband, and friends, we should not grieve too hard at the

Only Reasonable Salaries

EVERY democratic convention held in New Mexico—county, district and State—has emphatically declared in favor of lower salaries than those proposed by the republicans in the first state legislature. Every democratic convention has unqualifiedly endorsed Governor McDonald's veto of the two bills that legislature attempted to fasten upon the people. Every democratic candidate nominated for the legislature stands on a platform that denounces the extravagance of those bills that the governor felt should be vetoed.

Lincoln county, as of right she should, led the way. She not only nominated a candidate pledged to only reasonable salaries—and reasonable salaries do not mean \$3,000 for a \$1,500 job—but placed the name of John Y. Hewitt on its ballot which is a guaranty that when he goes to the legislature he will vote for only reasonable and, at the same time, liberal salaries for county officers; and his understanding of the world reasonable is so well known, that people appreciate the fact that he will never vote for such reasonable(?) salaries as did our two Lincoln county representatives in the last legislature. Pay an official what he earns—that's what Judge Hewitt stands for; that's what the people want. The difficulty with republicans is that they have been too generously liberal in voting away the people's money and their reasonableness can only be gauged by the few holding office against the many paying the taxes.

gain this loving one has made in dispelling all pain and, suffering for rest, peace and perfect happiness in the land, where Christ has insured our way. They have the sympathy of all their many friends.

There was an all day Sunday school picnic on the school house grounds last Sunday.

Methodist Church

J. DE W. HENDRIX, Pastor.

Services both morning and evening. Preaching by the pastor. Theme morning, "The Dignity of a Divinely Appointed Job." Theme evening, "The Conqueror Crowned."

At both services there will be plenty of choice music. We hope to make everything interesting to you. To this end we will do everything within our power.

Hours are: Sunday School, 10 a. m., preaching, 11 a. m. and 8 p. m.

Now place these hours in your program for the day and it will be easy for you to get around to them. Even you are invited.

The Hayseed Gather

Pursuant to an attractive invitation, bearing the clover emblem and wrapped round with a wisp of grass, a large number of hayseeds gathered at the home of Mr. and Mrs. H. S. Fairbanks Wednesday evening. The assemblage, sported all kinds of costumes, principally primitive and many "povarcite," the "fackiest" make-up suited the occasion the best. Mrs. Julia E. Gurney and W. H. Osborn were awarded the prizes, as they represented the most forlorn, woe-begone persons present. The party indulged in a hay ride, after which delightful refreshments were served.

The Democratic State Platform

WE, the representatives of the Democratic party of New Mexico, in state convention assembled at the city of Albuquerque, N. M., on the 17th day of August, A. D. 1914, do hereby adopt the following platform:

We reaffirm our devotion to the principles of Democracy, as enunciated by Thomas Jefferson and exemplified by Woodrow Wilson in their adaptation to modern conditions.

The Democratic administration—both national and state, since coming into power, have justified the confidence of the people in trusting their affairs to the direction of the Democratic party and its leaders.

The reduction of the tariff has been in the interests of the consumer without injury to the producer, and promotes competition and equalizes opportunity.

The Democratic national currency legislation is a guaranty of financial freedom to the whole country, especially to the west. We shall have no more papics originating in and dictated from Wall street, such as that of 1907.

We commend the foreign policy of the present Democratic administration. In the face of partisan abuse, this policy has been calmly pursued in the cause of humanity, with credit to this great nation, and is conducive to friendly relations with Mexico and our other sister republics to the south.

The trust problem is being dealt with by congress in a comprehensive manner in spite of opposition manufactured by the favored few, who would continue their power to exploit the people by such methods as were used in wrecking the New Haven railroad.

We have implicit faith in the lofty patriotism, splendid courage and unflinching determination of our great president.

We commend and endorse our faithful and persistent congressman, Harvey B. Ferguson, in his support of the national administration and his untiring efforts in behalf of the people of New Mexico, in the face of difficulties not well understood by the public.

We are proud of the record made by our governor, William C. McDonald, for the firm, able and courageous stand he has maintained in the face of a hostile majority of the legislature, and the manner in which he has, in the fight against him, protected the people from graft and iniquitous legislation, and especially do we commend his policy of compensation for county officials and his grasp of the tax situation.

We favor reasonable salaries for county officers, commensurate with the work to be performed, fair alike to the taxpayers as well as the officials. We also favor a fixed, definite sum for each official, with proper compensation for a deputy or deputies, as may be required to perform the services for the public, and to be paid directly to such deputy, or deputies, so employed.

We favor the reform of our taxation system from assessment to collection, including the creation of a tax commission, to the end that the burden of taxation may be equally imposed upon all classes of property subject to taxation.

We favor a libel statute, providing for the justification of the criticism of the public acts and qualifications of persons upon grounds of good motives and justifiable ends in both civil and criminal cases, and with all other possible safeguards against political prosecutions under such statute.

We favor the enactment of an efficient direct primary election law, whereby in the selection of candidates for office the will of each citizen in the state may be expressed.

We favor the enactment by the legislature of an efficient election law patterned after the Australian ballot, but so framed and designed as to meet the special conditions obtaining in this state.

Believing that the rule of the people should be the supreme law in every free country, we favor such legislation and such amendments to the state constitution as will enable the people at the ballot box to pass upon the acceptability of all laws intended for the government and control, and therefore, we favor the principles of the initiative and referendum.

We favor a more comprehensive and effective corrupt practices act to protect the purity of the ballot.

Mindful of the historic record of the Democratic party as the ever steadfast friend of the masses, as distinguished from the special interests, we here declare our continued and unflinching support of the cause of labor and pledge the legislature of this state, when we shall control that body, to enact such just and reasonable laws as have for their purpose the conservation and welfare of the actual producers.

We favor the enactment of a law providing for a special system of arbitration for the settlement of disputes between capital and labor, authorizing the governor to appoint a commission for such purpose.

We favor the compilation and codification of the entire body of our statute law.

We are in favor of one dollar per capita road tax instead of three dollars as now provided by law.

We believe it is the duty of the state to educate its children so that they shall become an asset to the state, in-

Resolutions of Respect

WHEREAS, the Eternal Father, in His infinite wisdom, has seen fit to call from the turmoils of this earth our beloved friend and co-worker, Mrs. John A. Haley; and whereas, we have experienced, through her demise, an irreparable loss; therefore,

BE IT RESOLVED:

That we unreservedly commend her life's example of willing, whole-hearted service, her unassuming loyalty to her Maker, and the influence of her sterling character in the home.

That we express our heartfelt gratitude for her untiring interest and helpfulness in the activities of the Woman's Home Mission Society, and acknowledge herewith our unqualified sorrow in the loss of a loyal Christian member.

That we extend to the bereaved husband, the sorrowing children and sad-hearted relatives and friends, our sincere sympathy and condolence in this their time of despair.

That we acknowledge the transplanting of a saintly wife and mother from this vale of tears to a purer, brighter realm, thereby manifesting the power of Him who died and rose again, that we also might share eternal life with Him in glory.

That we submit to the bereaved a copy of these resolutions, furnish a copy of same to each of the Carrizozo papers and spread a copy thereof on the minutes of the Society.

(Signed) Mrs. L. Brown, Mrs. F. W. Jones, Mrs. A. McCurdy, Committee.

Baptist Church

HERBERT HAYWOOD, Pastor.

Bible School at 10 a. m. Preaching services at 11 in the morning, and at 8 p. m.

Wednesday night at 7:45 is the midweek service. Good singing and gospel sermons. You are cordially invited to come and worship with us.

Basket Dinner at Alto

NEXT Sunday, Aug. 23 there will be a basket-dinner at Alto. There will be two services, one at 11 o'clock a. m. and one following the basket-dinner, conducted by Rev. S. M. Johnson and Prof. C. E. Bonner, the great singer from North Carolina whose singing so delighted the people at the Ruidoso Bible Conference. All are invited.

instead of a liability. Therefore, we favor the enactment of just and reasonable laws, looking to the greater progress and betterment of our public school system, and especially to the end that as nearly as may be, equal opportunities for securing at least a common school education may be given to all the children of all the people.

We favor the deposit of all public funds in any approved bank or banks of the county in which the funds originate or accrue for deposit offering the best rate of interest, such deposits to be protected by a surety company bond.

We favor a law requiring that all contracts, wherein the amount involved is in excess of \$300 for public printing and for public improvements including the improvement or construction of public school buildings shall be submitted for bids, the same to be let to the lowest and best bidder.

We favor the enactment of a law readjusting the fees now required for recording written instruments in the offices of the county clerks.

We oppose the amendment of section 2 of article 10 and section 1 of article 5 of the constitution of the state of New Mexico, proposed by the Republican majority in the state legislature, as being designed only for the political purpose of increasing the frequency of elections, and as being productive of no good result.

We oppose the amendment of article 8 of the constitution of the state of New Mexico, entitled, "Taxation and Revenue," proposed by the Republican majority in the state legislature, as being designed to open the way for further taxation abuses.

Registration Boards Appointed

The following boards of registration have been appointed for the general election in November: Precinct No. 1, L. H. Dow, Sipio Salazar, Francisco Gomez.

Precinct No. 2, John C. West, H. Doyle Murray, Alfredo Gonzales.

Precinct No. 3, Antonio Cordova, Nick Brill, Anselmo Pacheco.

Precinct No. 4, Modesto Chavez, W. E. Kimbrell, Francisco Vigil.

Precinct No. 5, Sabino Gonzales, Dolores Lueras, Apolonio Romero.

Precinct No. 6, John T. Hodo, Samuel Farmer, Rinaldo Mirabal.

Precinct No. 7, A. H. Norton, C. C. Hedges, C. L. Kennedy.

Precinct No. 8, Wayne Van Schoyck, Felix Guebara, C. D. Mayer.

Precinct No. 9, Jesse N. Dawson, Jose T. Sedillo, Ambracio Chavez.

Precinct No. 10, A. J. Gilmore, Jose M. Montoya, Reyes Mirabal.

Precinct No. 11, Thos. W. Henley, H. E. Keller, W. R. White.

Precinct No. 12, T. J. Grafton, R. J. Copeland, A. H. Consburch.

Precinct No. 13, F. M. Brickley, G. C. Cox, Pablo Chavez.

Precinct No. 14, B. F. Goff, Manuel Gonzales, Ben Lujan.

Precinct No. 15, W. P. Loughroy, Chas. F. Grey, L. B. Chase.

Precinct No. 16, F. M. Deel, Sam R. Wood, Harry S. Comrey.

White Oaks

Mr. and Mrs. Alonzo Hyatt arrived Sunday evening from Nutt, N. M. for a short visit with Mrs. Hyatt's father, H. S. Nanner.

C. D. Mayer last week purchased a new Ford car from Dr. T. W. Watson, of Carrizozo.

Mr. and Mrs. Weaver who have been visiting for the past two weeks at the home of L. H. Ruidoso, left Saturday for their home in Iowa.

Robert Lee is quite ill at the home of his parents with typhoid fever. Dr. Lucas is in attendance. This is the sixth case of typhoid here this summer, an unusual number for White Oaks.

Several from here attended the ball game at Fort Stanton Sunday.

Miss Leona Richardson gave a party to her young friends Monday evening at her home near the power plant. All report an enjoyable evening.

Mrs. J. G. Reasoner returned to her home in Carrizozo Sunday after a week's visit with relatives here.

E. E. Slaughter returned to his home in El Paso Sunday.

J. F. Pearson was in from his ranch near Carrizozo Monday

SCIENCE AND INVENTION

ARMOR COVERS VITAL SPOTS

Pieces of Mail Sewed Between Cloth and Lining of Coat Affords Means of Protection.

Since the days of dueling and promiscuous stabbing have passed, one would think that armor was no longer needed, but a California woman thinks otherwise. She has designed an armored coat that may not have a general sale, but will be a comfortable garment for persons threatened by the Black Hand or other blood-thirsty organizations. It may also be useful for fencers. In outward appearance this coat is not different from an ordinary coat, but between the cloth and the lining are sewed

Armored Coat.

pieces of mail, consisting of small metal plates joined together in such a way that they are more or less flexible. This mail can be distributed over practically the entire coat or it can be sewed in to protect only the vital parts of the body.

MAKE ARTIFICIAL SAPPHIRES

Stones Have All the Properties, Chemical, Physical and Optical, of the Genuine Gems.

News comes from Paris that at last artificial sapphires have been produced, after many unsuccessful experiments.

Artificial rubies are now an old story. The artificial stones have all the properties, chemical, physical and optical, of the natural gems. The only way in which experts can detect them is by finding them too perfect, as the natural gems have microscopic irregularities and included imperfections that are absent from the artificial product.

The stumbling block in the making of sapphires has been the color. Either the experimenters could not produce desired blue, or the stone would have a crystalline structure that made its detection easy.

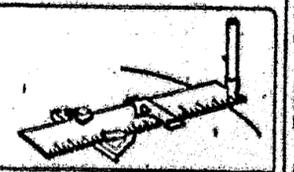

Now, however, M. Verneuil has submitted to the academy of sciences stones which he has made, colored with oxide of titanium, which, after a severe examination, are pronounced identical with true sapphires, though it is just possible that cutting them in gem form may reveal some irregularity of reflection or refraction.

MAKE CIRCLE WITH SQUARE

Seemingly Impossible Performed by New Tool—Advantages of the Improvement Shown.

The seemingly impossible achievement of making a circle by means of a square is accomplished by a new device which has been lately patented by a resident of New Britain, Conn. A view of this implement is given herewith and anyone who may be the least bit familiar with the construction and use of a T-square will see at once how it is done and also the advantages of the improvement.

A flat, graduated rule has a socket at one end, designed to hold a point such as a piece of lead or lead pencil, and the length of the rule is trav-

Circle Made With Square.

ered by a metal slide, designed to be secured at any point and adapted to perform the ordinary functions of a square. The slide is supplied with a projecting point which is used in making the circle in conjunction with the lead or pencil point, as shown in the illustration.

Work of Aviators.
French aviators flew 8,600,000 miles last year, as compared with 2,000,000 miles in 1915. 135,000 hours were occupied in flight, as compared with 35,000 hours, and 45,000 passengers were carried, four times as many as the previous year.

LOOKED FOR BOTTLES

Key Takes Place of Corkscrew With This New Stopper—Safety Assured in Poison Bottles.

An ingenious method of corking bottles has been invented which is applicable to the bottling of more expensive liquors. Chambers' Journal states. This latest device comprises the familiar cork made to standard sizes so as to fit bottles of varying capacity and shape and provided with a patent metallic double cap. The cork is driven into the bottle in the usual manner; but, instead of a corkscrew, a small key is used for its withdrawal. In the metallic cap is a small slot for insertion of the key, which is slightly depressed. This causes the upper part of the cap to fly upward by means of a spring. This movable disk, which slides upon a substantial though slender shaft, serves as a grip for the fingers, so that a steady and direct pull draws the cork without damaging it. Consequently, when some of the contents of the bottle has been poured out, the cork may be replaced and driven home, the bottle being thus sealed as tightly as it was originally. To all intents and purposes it is the application of the Yale lock used for doors, etc. The cork cannot be drawn without the key, so that tampering with the contents or improper use is impossible, because the key is in the possession of the owner or some responsible person. The drawing of a cork thus becomes an easy operation, and destruction of the cork is prevented. Although the stopper has been designed especially for the liquor, wine and spirit trade, it at the same time completely solves the vexed question of securing the safety of bottles containing poisonous liquids, as a bottle stoppered with this new appliance cannot be opened without the key; and as this is in safe keeping, premeditation is required to obtain the contents.

GUARD FOR POISON BOTTLES

Gummed Band Carrying Wire Loop Gives Warning That Fatal Contains Dangerous Substances.

A very simple device for conveying a warning that a bottle contains poisonous substances has been patented. It consists of a gummed band carrying a wire loop, the ends of which, terminating in spring coils, are firmly fastened to the texture of the

Band for Poison Bottles.

band, says Popular Mechanics. The wire loop is normally held over the top of the cork, but may be pulled back by the forefinger when the cork is to be removed, and springs back to upright position. It is obvious that the cork cannot be removed without indicating the nature of the contents of the bottle. The device is applied by simply moistening the gummed side of the band and sticking it around the neck of the bottle.

NOTES OF SCIENCE AND INVENTION

An attachment by which any camera can be used to enlarge negatives has been patented.

It is said that a hair from the tail of the horse is the strongest single animal thread known.

Radium may cause as well as cure cancer in human beings, according to an English physician.

Heroult, the French scientist, who made aluminum commercially valuable, died recently at Paris.

A new bracket is equipped with an automatic device which announces that it is empty when the contents evaporate.

More than 400 patents have been issued by the United States for devices intended to harness the power of sea waves.

London scientists are investigating a rare mineral found in rocks in Wales that radiates a faint light in its natural state.

The Chinese government is sending students to the Philippines to study scientific forestry under the insular government.

At 400 feet below the surface of the water the amount of illumination is about the same as that on the surface on a clear but moonless night.

Two Austrian engineers have invented a process for casting false teeth in metal, by which the necessary uniform density is obtained.

The development of powerful and reliable airplane motors has enabled French aviators to do most of their most daring flying with monoplane with a wing spread of not more than 25 feet.

TUNICS OF ALL SORTS

GARMENT MAY BE AS VARIED AS WEARER DESIRES.

No One Particular Style Has Been Selected for Exquisite Approval—Frocks That Seem in Fair Way to Be Popular.

The catch-word of the season is the tunic. Sometimes it is formed of circle after circle of ruffles or formed of shirtings and pinnings, and other models show tunics which extend to from three to four inches of the skirt bottom. One very smart and novel model taken from the modes of the time of Louis XVI was made with a long tunic of black taffeta, finished at the bottom with deep scallops, and placed over a white lace skirt the underskirt being scarcely visible.

Black taffeta of some somber tone, is considered extremely smart with the white lingerie materials, the former usually appearing in the shape of tunic trimming or one of the swathed girdles, which are so much in vogue.

Three frocks recently seen are a fair type of the frocks that will be seen at summer resorts. One is of eyelet linen, with a gay touch of color in the way of Roman striped ribbon trimming beading, a trail of the embroidery which forms a fleur, and forming a guide ending in loops at the front. The skirt has set on founces of the eyelet embroidery.

Another frock is of flowered rose-colored and plain taffeta. The blouse

is closed with a single row of material buttons, and has a plaited or gandy collar trimmed with a bill of lace. The skirt is made with a long tunic and plaited underskirt.

Still another model is made of black taffeta. This model has the new light-fitting corset shaped bodice, with organza vest and collar. There is a long tunic with a panel of plaited back and front.

A cape costume is also in vogue. Undoubtedly the modish cape costume of serge, of satin or of taffeta will be seen at every resort this summer. The cape costume of the small cut-in of white serge, and has broad bands of the material which cross at the front and button to the skirt. The blouse and long plaited tunic are of white crepe de chine, while the underskirt is of cape material. There is a flat turn-down collar of white crepe de chine.

Linen has always been worn, in spite of the fact that women have ever grudgingly contended that it gets mussy and straggly after the first wearing, and women will wear it and will continue—unless the dress code true of the so-called "unchangeable linens."

CHANGING COLOR OF EYES

Garniture Has Much to Do With Their Appearance—Some Things Worth Remembering.

Have you noticed how the color of your eyes changes sometimes with the weather, and sometimes with the color you wear?

With almost everything that the eyes it takes contrast to bring out color. For instance, a portrait of a blonde woman almost invariably has blue in the background, and somewhere about the portrait of a brunette you will find pink or red, blended to accentuate the dark skin and hair.

It is exactly the opposite with nature; a color brings out a color. You will see a russet-checked girl with a rose-colored hat on her head; remove the hat and replace it by a brown or green one and she will look pale.

A blue hat or veil casts a blue shade over the face, so that the sweetest natural complexion will appear as if paled.

You can make your blue eyes or gray-blue eyes deeper in color if you like. If you wear a blue facing or much trimming upon your hat the same shade will be reflected in your eyes.

Rebellious Embroidery.
It is a revival of the old Roman embroidery, of which there are three classes—Venetian, Renaissance and Ricketts.

The form usually seen is the "pique" or "net" work. In all forms of this work horizontal outlines the pattern and the spaces between are not away.

MAY NOT BE PERFECT, BUT IT IS ONE'S OWN FAULT IF THEY ARE DEFERRED.

A perfect foot is very rare. I heard a fashionable shoemaker say that out of every ten women who came in to be fitted, not more than one has a shapely foot, and the greater proportion have more or less deformed ones. Their feet have been spoiled by carelessness and neglect, by ill-fitting or cramping shoes and by ungainly, ungraceful walking.

If you want to keep your feet as shapely as nature made them, and free from corns, calluses and similar disfigurements, observe the following rules:

1. Never forget that the feet are hard workers and have to bear the burden of the whole body. Sit down when tired. Do not rest one foot at the expense of the other.
2. Bathe the feet every night. Use soft warm water, and be liberal with soap. A little salt added to the bath water braces and tones the muscles and skin. A few drops of eau-de-cologne in the rinsing water is soothing when tired.
3. Thoroughly dry the feet, dusting with a mixture of equal parts of boracic powder and the finest powdered starch.
4. Massage the feet for a few minutes every night. Begin at the toes and rub with firm, but gentle, pressure with an upward movement toward the leg. Put a little warm cocoa butter on your hands. This treatment helps to make the foot narrow and arched and ankle slender.
5. Change the stockings every day, and see that they are not overworn.
6. Never wear cheap horse leather. It is the reverse of economical. See that your shoes are well made, and not only wide enough, but sufficiently long. Short shoes are a frequent source of corns and bunions. Also they cause the joints to contract and enlarge and otherwise distort the foot. Do not constantly wear the same shoes, however comfortable they may be.—Chicago Journal.

PLUMPNESS NOW IN ORDER

Day of the Slim and "Slouchy" Women Has Disappeared for the Present.

The craze for slimmness is passing, and the thin, bony woman is disappearing before the plump, bonny type. Women cheerfully own now to a waist of from 26 inches to 30 inches. In fact, the very slim, "slinker-slouch" woman is now considered to be ugly and deformed.

The craze for slimmness, a beauty specialist said, produced the irritable woman, the nervous woman, the neurotic woman, the poseuse.

"To be healthy," said the specialist, "a woman should, as everybody knows, have a full bust and an uncramped waist."

"If a woman adopts the kind of 'slinker-slouch' figure her chest contracts, and nothing is worse for the general health than a contracted chest."

"If you want to grow beautiful or to retain your beauty, do not indulge in sarcasm."

This is the advice given by another beauty doctor.

"Why should anyone be habitually sarcastic?" she asked. "The person who is always on the alert to 'take it out' of someone else has probably just as many faults as those on whom he or she looks with contempt."

"The sarcastic woman has the least chance of any woman to keep beautiful. Nothing draws out the wrinkles as much as a sneering countenance."

"A woman who really has suffered can retain her beauty even though she is somewhat lined, but the sarcastic woman can never hope to be beautiful. She becomes dyspeptic and miserable."

WITH AFTERNOON FROCK

This tulle top is especially suitable for the afternoon frock. The model is of navy blue tulle with a row of white tulle.

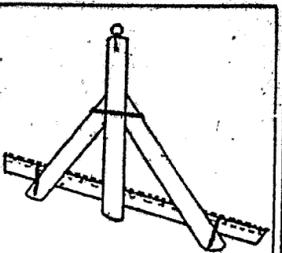

Black tulle in pale colors are heavily underlined with silk roses.

OPERATION OF ROAD GRADER

Harrow and Packer Can Be Used to Advantage at Finish to Properly Compact the Soil.

When the time comes to grade the road, put a plow team at work the day before, and go down as deep as you can, turning over the breaking of the previous year. Some folks think that the grader was made to plow with, but I never could figure it that way, writes H. R. Crowley in Farm Stock and Farm. Then start moving the earth over the center of the grade. Set the grader blade at a reasonably sharp slant, and begin on the inside of the plowing. Carry your first load well up the center of the new grade from either side before you bite into

Good Road Grader.

any more. Then take another load and move it in after the same fashion, and so on until you have come to the outside of the new ditch. In the meantime have one man along with a crowbar to dig loose and a plow team to turn loose on the ditches as soon as the first plowing has been carried out. In other words, don't try to plow with the grader. Not until you have raised the grade to what you want it, and are clearing out the ditches. Then scrape them down to a smooth surface, and carry the scrapings in. Meanwhile a harrow and a packer can be used to good advantage on the grade compacting the soil.

And after the whole job is completed, and you have a well-graded roadway built, drive back and forth with a wagon until you have made a path that others will follow.

TREES ALONG COUNTRY ROADS

Not Only Useful as Shade to Stock in Fields, but Add Greatly to Beauty of Thoroughfare.

At a recent farmers' institute meeting the planting of trees along the country roads was advocated. It is a plan worthy of consideration everywhere. Trees beside country highways are not of less value and importance than along the streets of a city. They are not only useful as shade to the stock in the fields and to those who travel along the roads, but they add greatly to the beauty of the thoroughfares and are a distinct asset to the farmers by increasing the attractiveness of their land, says an Illinois writer in Farmer's Review.

The theory of the speaker was that the trees should be planted inside of the road boundaries and not on the farm land, and that the planting should be done as a part of the road improvement at public expense or by local organizations out of a common fund. The work would have to be done with system, of course, and provision made for the care of the trees once they were planted, but this system could easily be worked out. Objection might be raised in some quarters that shaded roads would not dry out easily after rains and would, therefore, be muddy at inconvenient times, but the proper training and trimming of the trees would remedy this difficulty.

Every one, even the farmer without a shade tree on his premises, admits the attraction of a shaded road on a hot summer day. Every traveler on such a day greets a bit of woods or an overhanging orchard as an oasis in a desert land and wishes that it stretched for miles. The occasional land owner who has lined his side of the road with shade trees—or even with fruit trees—is regarded by the traveler as a good Samaritan and blessings go out to him. The time will come, perhaps, when trees along the country roads are desirable and essential and their absence will show lack of proper enterprise in the community.

Old-Fashioned Ideas.
Of course, there were, and still are in isolated localities, persons who cling to the bad roads of their grandfathers, and resist any attempt to make improvements. These are those who also regret the passing of the spinning wheel, and the domestic weaving loom, with which the women used to make the cloth for clothing the family.

It is a vital waste of money to spend it upon roads that are not given proper drainage.

Albany, N. Y.—By a majority of the Court of Appeals, the Union Pacific Railroad Company is permitted to distribute dividends to holders of common stock on certain holdings to the exclusion of holders of preferred stock. Action was brought by the Equitable Life Assurance Society, which enjoins the defendant from this action. The judgment of the appellate division was unanimously affirmed with costs. On January 3 last the directors of the Union Pacific declared an extra dividend of \$20,000,000.

Kentucky Elk Father of Thirteen.
Denver—Ben Marshall, who was among the delegates from Kentucky representing Frankfort, Ky., lodge, No. 530 of Elks, in place of former Secretary of State H. V. McChesney, who at the last moment, found it impossible to attend, Marshall, who is the recently appointed collector of internal revenue for the Seventh district with headquarters at Lexington, is a typical Kentuckian, standing over six feet in height. He proudly tells of his family of thirteen children, all living. He also has two married sisters, each of whom is the mother of thirteen children; and a brother who has fourteen children.

Fatality List Decreases.
Washington—A total decrease of 175 persons killed and 847 injured in all classes of railroad accidents was shown in the accident bulletin issued by the Interstate Commerce Commission for the quarter, ended December 31, 1915, as compared with the corresponding quarter of 1912. The report shows 1,450 collisions and 2,307 derailments for the quarter, with property damage of \$2,090,330.

WORST HORSE IN THE WORLD.

Prizes Offered at Cheyenne Frontier Days' Celebration.

Cheyenne, Wyo.—The worst horse in the world will be identified during the Frontier days celebration which is to be held in this city, August 15th, 19th, 20th and 21st. Heretofore, at preceding Frontier days' and other western celebrations, prizes have been offered for the "worst horse," but at the coming cowboy carnival at Cheyenne there will be conducted the first out-and-out contest, exclusively for bad horses. In this the determination of relative degrees of equine coarseness will not be a side issue in a rough riding contest, but will be the issue-in-chief of a contest designed to identify the worst horse in the world and for no other end.

Only in the West does value attach to a bad horse, elsewhere such an animal is worse than valueless. But in the West—the land of the broncho and those dauntless riders who subjugate the outlaw strain in the broncho's temperament—the worst a horse's disposition the higher his value.

Bad buckers here attain fame that spreads through many states and "outlaws" which defy continuously and successfully all efforts to break their spirit are property of great value. Noted riders will travel hundreds of miles to try conclusions with such horses as Stumler Bay, Old Steam Boat, Senator Warren, Rocking Chair, and others of their kind; thousands of dollars have been wagered on contests between such animals and cowboys who believe they possess the skill and strength to break them.

In the "worst horse" contest, owners of outlaw bronchos will enter their animals and provide riders for them. The cowboys doing the riding will be required to observe the same rules as govern the championship broncho busting contest, but judging will not be of the merits of the rider, but of the strength, cunning and wickedness of the horse. Inasmuch as it is expected that the worst horse in every state in which the broncho thrives will be entered it will be said that the result of the contest will be identification of the worst horse in the world.

LOCAL & PERSONAL

T. A. Spencer and little Helen Holland returned Wednesday from Santa Fe.

W. E. and Francis Blanchard were here from their Macho ranch Wednesday.

F. F. Mudge has assumed charge of the club house, succeeding L. Brown.

J. O. Nabours was in town this week with fruit from his Three Rivers ranch.

J. B. French and son, Miller, went to El Paso Tuesday, returning the following evening.

Mrs. J. B. Garyen returned yesterday evening from a visit to El Paso and Alamogordo.

Rev. S. M. Johnson and son were here Wednesday, having come up the day before from Roswell.

George Smith, road foreman of the Capitan country, was here Monday, attending the board meeting.

L. Brown, formerly manager of the club house, has succeeded Fred. W. Jones as station agent of this place.

W. H. Sevier was here Monday from his home near Lincoln. He reports a good fruit crop on his place this year.

Mrs. Wallace L. Gumm returned Sunday from Santa Fe, where she had gone to attend a State meeting of educators.

Syl G. Anderson and the boys who accompanied him returned this week from a two weeks fishing trip on the Ruidoso.

Miss Lorena Sager left Tuesday night for Denver, where she will resume her duties as instructor in the Dingley-Mathews Music Institute.

Dr. and Mrs. J. H. Cody are here from Capitan. The doctor is suffering from a severe attack of asthma and was compelled to give up his practice at Capitan.

Dr. T. H. Williams, a brother-in-law of Dr. Paden, arrived Tuesday from Chikasha, Oklahoma, on his way to Mescalero. He expects to return here before going home.

The board of County Commissioners met Monday, all three members of the board being present. Boards of registration were appointed and others matters given attention.

Mr. and Mrs. Alonzo T. Hyatt came down from White Oaks yesterday morning and left on No. 3 for their home near Denning. They had been visiting Mrs. Hyatt's father, H. S. Hauner.

Attorney H. B. Holt was here Monday, from Las Cruces, consulting with the bondsmen in the County seat removal case and also the attorney for the other side, as well as the Board of County Commissioners.

The Foreman farm has been marketing some excellent watermelons the past week. These melons, though not large, have a fine flavor, are sweeter than sugar and the best that have reached this market.

H. S. Hauner, who was quite seriously injured, by a fall from a horse, some three weeks ago, was sufficiently recovered to make the trip down from White Oaks yesterday. He was pretty badly shaken up and still shows evidence of the fall.

Attorney J. M. Hervey, of the firm of Reid & Hervey, representing Ben Betchel in his suit against the bondsmen in the court house litigation, spent Monday here conferring with the representatives of the bondsmen, Messrs. Barber & Holt and also discussed the matter with the County Commissioners.

DR. J. V. COMPTON Has Moved his Office to El Paso Avenue and is officing with Dr. R. T. Lucas

All desiring eyes tested and glasses fitted will find him at above location.

LOST.—Sorrel pony, white streak in face, about 4 yrs. old, branded rafter 8 on right hip and OV barred out on left hip. Last heard of near Vera Cruz. \$5.00 will be paid for information leading to recovery.

OLIVER PRAKOR, 8-7-21 White Oaks, N. M.

Rev. Haywood is spending the week on the east side of the county in the interest of a church house at Capitan. From present indications a very neat, modern, and well arranged house of worship will soon be erected in our neighboring town.

Ben Betchel was here the first of the week from Clovis. He came to a consultation of his attorneys with those representing the bondsmen whom he has sued, and the divergent interests also met with the board of County Commissioners. No settlement was reached however, and the matter will be fought out in the courts.

Fred W. Jones has resigned as station agent at this place, and, with his family, will leave in a few days for a 60 day visit to relatives and friends in various parts of Texas. For six years this family has resided here and their departure is a matter of sincere regret to the best people of the town. Mr. Jones has been active in every thing for the advancement of Carrizozo, and Mrs. Jones is one of our most accomplished ladies. We hope they will locate near us at the expiration of their vacation.

Card of Thanks We wish to thank our many kind friends who came so promptly to our aid with their help and sympathy at the time of our great bereavement in the loss of our beloved Father, J. W. Hale.

S. W. Hale and family, T. J. Hale and family Capitan, N. M.

MRS. HARVEY ENTERTAINS Mrs. A. H. Harvey entertained a number of friends last Wednesday afternoon complimentary to Mrs. Geo. L. Ulrick and Mrs. R. E. Blaney. After a pleasant hour with cards, the company enjoyed music, after which dainty refreshments were served by the hostess.

WARNING! No one can legally close any well established road or put gates upon same, or in any way obstruct or change roads without permission from the Road Board.

Citizens in localities where gates, fences or other obstructions are placed without legal permission having been granted by the Road Board have a perfect right to remove same without appealing to this Board.

THE "PRUDENT MAN" IS NEVER OUT OF A JOB AND WITHOUT MONEY IN THE BANK Regrets won't bring back the money you have extravagantly spent. One sure friend to a man in trouble is MONEY in the bank. But the man who banks his money is the man who gains the confidence of his employer and holds his job. Money in the bank also means CREDIT and CONFIDENCE. No man can afford not to have the confidence of his fellow men. Make OUR bank YOUR bank We pay 4 per cent interest on certificates of deposit EXCHANGE BANK, Carrizozo, N. M.

Lincoln County Road Board

The Lincoln County Road Board was in session Monday, utilizing a good part of the night before concluding the business before it. The members of the board present were: Dr. J. W. Laws, chairman, J. B. French, secretary-treasurer, and the clerk of the board, Harry B. Dawson.

Concerning the joint work with the state the minutes read as follows: Referring to warrants Nos. 227 and 228 for \$1,300 and \$600 respectively, it was deemed best, and also in obedience to the request of the state, to deliver same to the State Engineer upon the state agreeing to the conditions whereby these warrants were drawn. This was done some time in June and work is now in progress on the Lincoln-Otero county road in Otero county. The state, in relation to the bridge across Carrizo canyon north of Carrizozo west of the railroad track, agrees to put up \$400, to be used jointly with a like amount from this county, for this bridge. This was accepted, the state to build the bridge, costing in the neighborhood of \$800, and agreeing to use the \$200 additional of the \$600 forwarded by the county in making approaches to above bridge. Work is now in progress on the bridge.

The board issued a warning, concerning fencing and obstructing roads, which is published elsewhere in these columns.

The board at this meeting paid out about \$2,800, principally for the repair of roads that have been damaged by serious floods during the summer.

In addition to the regular road work, upon petition, authority for community work was given. O. P. Humphrey was directed to warn out men along the Angus-Alto roads and also a stretch of the Angus-Carrizozo road and receipt for same. Miles B. Gray was also given like authority on the Tortellito canyon road and directed to put the road in a passable condition.

Chickens Next to Babies

If the value of the prizes offered may be taken as any indication, chickens rank next to babies among the resources of New Mexico. The women who have been placed in charge of the "Better Babies" contest at the coming fair at Albuquerque October 5 to 10 have enlisted the interest of bankers and merchants all over the state, and as a result have a list of prizes to be given to winning babies ranging from a nursing bottle up to a bank account. Next in prize value comes the chicken show with a total value in eggs, trophies and special prizes of more than \$2,000. The chicken show is not included with the general agricultural display and the \$4,000 appropriated by the fair commission for prizes in the agricultural, horticultural and live stock departments, does not include the poultry section, which stands alone and has its own premiums and prizes. It has, therefore, a bigger premium cash value than any of the farm

Departments

The newspapers of the southwest are taking a very interest in the poultry contest and backing by the newspapers has been largely responsible for making the annual state fair poultry show one of the best in the west, as well as for the enormous increase in the poultry industry in New Mexico during the past few years. The El Paso Times has offered a magnificent silver loving cup this year. The Albuquerque Journal has a standing offer of a big silver cup each year and the Albuquerque Herald this year comes forward with a beautiful trophy cup. One of the finest chicken show prizes is a from the Denver Post. A special building is given the chicken show and the display this year will be considerably larger than ever before. Like all other fair departments, the demand for exhibit space early in the season has been enormous.

All Europe at War

The greatest nations of the world are engaged in deadly conflict. The whole map of Europe may be changed in a few months. Brain is pitted against brain, brawn against brawn.

Millions of soldiers are fighting. Thousands of war machines are in use. The scythe of death is mowing the eastern hemisphere. Everybody everywhere is reading of the greatest international war of all time.

For a postage stamp a day you may have the most accurate and complete reports of the happenings, which each day are given in the southwest's greatest newspaper, The El Paso Daily Herald.

SPECIAL EUROPEAN WAR OFFER

As a special inducement to subscribers at this time, we will send The El Paso Herald for three months and The People's Popular Monthly a whole year for only \$1.89. El Paso Herald, El Paso, Texas.

THE prediction made sixty days ago by Ralph C. Ely, president of the state fair commission, that the coming state fair in October would be the "Biggest State Fair in the State's Biggest Year" is being justified all around. The government's August crop report made public last week shows that all crops in New Mexico this year are far above the average, from hay to cantaloupes, some of the crops being 100 per cent above the average for ten years. At the same time comes an announcement from the fair headquarters at Albuquerque that up to August 7th more space had been reserved for exhibit purposes than ever before in the history of the fair on its opening day. This space includes reservations from every county in the state, either for a county or community exhibit, and an astonishing demand for individual exhibit space; caused, the fair secretary says by a combination of good crops, increased interest in the state fair and the large cash prizes offered for individual showings of grain, fruit, vegetables and live stock. This is the first time in the thirty-four years of the state fair's history that every county in the state has taken exhibit space.

Great Summer Assembly on the Rio Grande

It will be good news to the people of Lincoln county to know that the White Mountain Bible Conference has been permanently located in Lincoln county for Assembly Grounds for all the Protestant churches of the southwest, where each year the most distinguished preachers, teachers and singers will be brought and where the leaders of Christian thought and work from the entire southwest will gather for spiritual education and uplift. Rev. Charles D. Darling, D. D., of Roswell, is president of the association, whose corporate name is the White Mountain Bible Conference.

The association has bought 160 acres of the old Hale place including the famous Hale Spring. A beautiful six-room bungalow near the spring affords headquarters for the association. On the grounds there was erected ready for occupancy July 10 an auditorium of rustic design seating 1000 persons. The burden of starting and conducting the enterprise fell upon the Protestant pastors of Roswell with hearty cooperation from other points. The organization is upon an interdenominational basis and is designed to cultivate friendship and cooperation among the denominations. The purpose is to establish a place where parents may take their children and spend the summer in a healthful and invigorating region, where they may enjoy camp life, and also have the very best moral and spiritual surroundings.

The grounds are being planned by Mr. H. W. Vancheler, an eminent landscape engineer, and include beautiful parks and a zoological garden. Extensive tree-planting will begin this fall, the trees are already contracted for. Twenty-five lots have been sold already. The land was bought at a very low figure and the funds realized from the sale of lots profit no individual or company but are to be used to develop and beautify the property and to make the institution one of the greatest of its kind in the land.

This summer's session was very successful. Excessive rains washed out the roads and prevented many from attending, but the attendance, especially on Sunday was good and the services were inspiring, proving beyond a doubt the great value of such an institution.

Notice

Parties leasing state land should use every precaution possible to prevent prairie fires which are likely to occur this fall and winter, owing to the unusual growth of grass.

Fire guards should be plowed and the grass burned between such guards.

Grass growing in the center of roads should be burned and destroyed, as roads free from grass often make excellent fire guards.

From the office of Commissioner of Public Lands, Santa Fe.

Extra Examination for Teachers' Certificates

The last examination of this year for teachers' certificates will be held in Carrizozo, August 28 and 29.

Questions for any grade of certificate may be had by informing the county school superintendent in time. Teachers wishing to build on their second or first grade certificates may take such subjects as they wish, at this time. Fee for all or part one dollar.

Mrs. W. L. GUMM,
8-7-31 Supt. Lincoln Co. Schools.

CAUGHT BY CAMERA

By MILDRED CAROLINE GOODRIDGE.

"Doughnuts!" Ned Travers sniffed the air delicately, snatched his lips and peered through the trees towards a neat little farmhouse on the edge of the town. From its kitchen there came a constant odor of brown, crisp dough putting up into comely knobs and rings. Then he saw through an open window a dainty bustling young lady with tucked up sleeves and aproned and Ned thought of his sister. And then as the pretty maid set a great earthen bowl in the window, piled high with the creamy golden-faked results of her labor, Ned caught a full view of her winsome face. It gave his heart a warning thrill—and then a twinge.

Wherefore the latter? His pride answered promptly. Contrast brought a sudden blur to a manly longing heart. The picture before him was so sweet, so solacing that he would have liked to become a vital part of it. Of course the lovely face influenced this particular sentiment.

Ned was fairly dazed and out. Worse than that just at this special moment he was dust laden, travel worn, thirsty and hungry. He had but one possession of value with him, oddly out of place for negotiation just here and now. This was his rather bulky outfit for taking moving pictures.

Ned had been out for a month with a "movies" crew that had gone to places for lack of capital. A lesson well learned at heart, he was returning home, wiser, though chastened. So he had little part in or claim to the social or esthetic phases of life just at the present time. With a sigh, for he was a poet and a dreamer at heart, he started in the direction of the near village. Just then, however, the fair cook came out of the

"It Will Work in Well in Some Good 'Movies' Story," He Told Himself.

house and went to the well near by. An inverted goblin decorated the pump post. She drew it full of water with a healthy farm girl's yell, drained it and returned to the house.

The sight of the clear, sparkling water aggravated the thirst of the weary wayfarer. He boldly entered the yard and took half a dozen cool refreshing draughts. There was a rustic bench near at hand. He sat down to rest, appreciating the haven of peace about him. Then his glance fell upon the piled up heap of rich cookery set to cool on the window sill.

"Wish I was a boy again," murmured Ned. "It makes no think of the old happy days," and then he arose quickly from his careless attitude of repose. Evidently the young lady was lonely or she had noted his ardent glance at the doughnuts. She came tripping towards him, a plate in her hand well loaded with the product of her labor.

"I thought maybe you would be obliging enough to test my first attempt at doughnuts," she said quaintly.

"I am hungry enough," admitted Ned, in love with that honey face twice as much as before.

She stood near by as he devoured the first of her kindly offerings with a bright satisfied smile.

"Well, what is the verdict," she challenged with teasing eyes.

"Moral," answered Ned gallantly. "This must be the original land of milk and honey."

"I was flattered, I feared I might have spoiled them," said Eva Dodge with a sigh of relief.

"They will be spoiled quick enough if you are as liberal with others as yourself," he responded and then Miss Dodge told of a prospective barn dance with the accompaniment of doughnuts, cider and chicken sandwiches. She pointed again as she looked at the sun and told of how her brother Alan should have reported two hours ago to help trim up the barn.

"Suppose I try to earn the most famous meal I have enjoyed in a year by acting as his substitute," suggested Ned.

They were like old acquaintances when an hour, she directed, he set to work washing and seasoning of shrimps and oysters. And just as she had

slipped her pretty pink palms in daylight at the general effect, brother Alan appeared. Nothing would do but that the stranger must stay for the evening and for the night and when they learned that Ned played the violin they were more insistent than ever. Ned felt as if he was leaving paradise as he departed from the Dodge home the next afternoon. He carried with him a memory of his charming hostess that he knew would be abiding.

It was probably an hour later when he passed down a lane to notice a large barn building with smoke pouring from its lower story. In a trice the business instinct assailed him. Any odd or picturesque scene was worth the money in the "movies." He ran within the right focus and set his machine going. Absorbed in getting it in correct operation, he looked less at the burning building than to the details of operation.

"It will work in well in some good 'movies' story," he told himself, and ran a full reel, taking in the gathering crowd and the varied incidents of excitement in the episode.

A month later when the film was produced, Ned chanced to see it. Then for the first time he observed that its first scene showed a man in full view, leaping from a window near the door, a burning piece of paper in his hand.

"There was an incendiary, then," he reflected, "just as I heard it hinted. Ah, me! how all this brings back that beautiful day in my life—pshaw! I must forget that."

But Ned could not forget. Eva—the name was on his lips in his dreams. That sweet face floated constantly through his mind. He had secured now and better work. He could afford a week's vacation. He resolved to see Eva, at least once more.

Ned reached the Dodge home to find it in a state of great commotion. All hands were anxious and troubled.

Alan, the brother of Eva, had been accused of burning the barn Ned had caught with his camera.

His pocket knife, it seemed, had been found near the structure. Then, too, his owner had quarreled with him and did not like him.

Alan claimed he had loaned his knife to a young fellow who worked for the owner of the barn, who had been beaten by the farmer in a quarrel and had afterward disappeared.

Ned felt that he was going to be of some use when he got a description of the missing man. It tallied to the one shown in the fire film. Ned sent to the city for the duplicate. Half the town was at the motion picture playhouse the night it was shown. Half the town recognized the one figure in the foreground.

"You have saved my brother from disgrace," spoke Eva warmly to Ned. "How can I show my appreciation?"

"Some more of those wonderful doughnuts would be a grand reward," suggested Ned, smiling. And because her hand was just then resting within his own, he had the courage to tell Eva also how much he loved the maker of those same famous doughnuts.

And Eva blushing agreed to take the contract of supplying his favorite dainty for the remainder of their mutual lives.

(Copyright, 1914, by W. G. Chapman.)

MUST BE ABSOLUTELY CLEAN

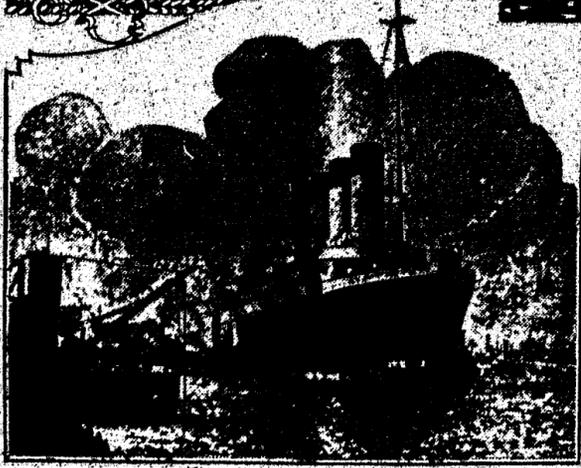

Hands of Surgeon, Before Performing Operations, Are Washed in Most Thorough Manner.

Most people attribute the immensely decreased rate of mortality in cases of severe surgical operations to the increased skill of the profession, to their greatly improved instruments, and to the more skillful nursing which is obtained in these days. But the surgeon himself would tell you that it is almost all a matter of absolute cleanliness, the fact that nothing is left undone to insure absolute freedom from infection of any kind. This fact is emphasized by the extraordinary hand-washing regulations which are in force at the various hospitals. Everybody who is even remotely connected with an approaching operation is supposed to spend 20 minutes in the all-important process of washing his hands.

For five minutes the surgeon washes his hands with soap and water, and then cleans his fingers with a brush. When he has done this he spends another five minutes doing it all over again. But this is but a preparation for a third and far more drastic abolition, for this time he must wash his hands in alcohol. Not content with this cleansing process, he must now put his hands through a process of sterilization by soaking them for at least five minutes in a wash of corrosive sublimate. By that time he may commence his duties, which mean life or death to some patient, with the satisfactory feeling that he has done his best to approach his task with clean hands.

Family Secrets.
A man with an unquenchable thirst for jagging with figures produced pencil and paper and commanded a friend to "put down the number of your living brothers. Multiply by two. Add three. Multiply the result by five. Add the number of living sisters. Multiply by ten. Add the number of dead brothers and sisters. Subtract 100 from the result." It was done.
"Now," he said with a cunning smile, "the right-hand figure will be the number of deaths, the middle figure the number of living sisters, and the left-hand figure the number of living brothers."
And it was so.

A DAY WITH THE PILOT

FIFTEEN or twenty minutes prior to the sailing hour of a huge transatlantic liner an unassuming man carrying a traveling bag joins the stream of passengers going up the gangplank. There is nothing to distinguish him from the hundreds of other male travelers, and you suspect he is an American business man going abroad for recreation. And yet for the space of two hours (sometimes 20) this individual guides the destiny of the ship and its human cargo through the tortuous waters of the bay until it reaches the open sea. He is a pilot for the port of New York and there are 119 of him in active service at the present time, writes Thornton Fisher in the New York Tribune.

I was privileged recently to spend a work day with the pilots. It began at pier 62, North river, where the steamship New York was waiting for the signal that sends her on the voyage across the sea. The final blast of the bugle warning visitors ashore was sounded promptly at the hour of 10 and gangplanks were released and, with an almost imperceptible movement, accompanied by a prolonged blast of the siren, the big liner left the dock and pointed her prow to the eastward.

All Very Simple.
On the bridge before the wheelhouse stoop Captain Roberts, a navigator, and Pilot Gayles, who had apparently been one of the throng of passengers a few brief moments before. One of the delusions of humankind is the mental association of authority at sea with glittering uniforms and men with ceaseless vigil pace the ship's deck. However, this keen-eyed, ruddy-complexioned man standing at the captain's side, attired in civilian apparel, does not bear a visible mark indicative of his calling, unless it be the alert manner with which he scans the water or searches intently for landmarks on the shore.

Out past Governor's Island, the statue of Liberty, slowly by Staten Island and you are in the open. On one side of the Jersey Highlands lofty shores rise, only to recede and disappear from view. In the distance Long Island is lost where the ocean meets the sky. The ship plows cautiously through the waters, obeying the slightest command of the pilot on the bridge, since it would be a comparatively easy matter to run her nose into the mud. The navigator, however, knows his course as an officer knows his beat.

It may be explained that the pilot does not operate the steering apparatus of the vessel under his charge. He communicates by a word or gesture of the hand to the man at the helm all directions for the course, which are repeated by the helmsman in acknowledgment of the order. "Steady! Steady!" says the pilot. "Steady, sir," responds the man at the wheel. "Port," directs the pilot, and again comes the echo, "Port."

In the meantime, while the navigator is engaged on the bridge, the passengers are busy writing farewell letters or telegrams to be dispatched with the pilot. Sandy Hook has now been left behind and the open sea is ahead. The pilot's work is finished, at least temporarily, and the captain grips him by the hand, wishes him good luck and orders the speed of the ship reduced as the navigator prepares to depart.

A yawl manned by two sturdy lads draws alongside the huge vessel. "Can you swim?" inquires the kindly pilot. Being assured by me in the affirmative, he swings over the side and descends "Jacob's ladder," as the rope ladder has come to be known among the seamen.

Fact and Imagination.
The uninitiated instinctively shudder as they gaze down the perpendicular length at the tiny yawl bobbing up and down with every wave that strikes the ship. From the lower deck to the waterline is perhaps twenty-five feet, varying with the proportions of the vessel, but I remember the assertion from personal experience that the distance negotiated between the deck and the yawl was no less than twenty-five hundred feet.
The crew, having lowered the pilot's yawling bag and mail sack, gently

urge me to follow down the ladder. I cautiously lift myself over the side and, gripping the ladder until the nails, meeting the palm, dig into the flesh, attempt to place my foot on the first rope rung. Slowly, calculating each step and tenaciously clinging to the ladder, which sways with each motion of my body, I gradually reach the bottom rung. A false movement might precipitate the novice into the water below. Timing myself, I drop into the yawl as it rises on a wave, and in a twinkling the boys are pulling with long swoop oars for the pilot boat, two hundred yards away.

There is a peculiar sense of relief in feeling a solid deck beneath one's feet again. The yawl is hoisted to the boat's deck, ready to put or receive one from an outgoing craft. The pilot fleet has four of these boats patrolling the entrance to the port of New York and one held in reserve. They are the Ambrose Snow No. 3, the Trenton No. 4, and the Washington No. 5, sailing vessels, and the steamers New York and New Jersey. This fleet is on duty 24 hours a day for 365 days a year. A total complement of 15 pilots is maintained on each of the steamers ready for instant duty at any hour. Through the long days and nights these men sweep the horizon for ships requiring their services.

Twenty years ago there were two companies of pilots, the Sandy Hook Pilots and the New Jersey Pilots' association, each operating independently. In those days only sailing vessels were used and competition was keen between the two companies. Each was eager to put its pilot aboard an incoming craft and receive the pilotage fee. Frequently these pilot ships cruised 500 miles to sea to beat their rivals. It is not to be wondered that the men have developed vigilance, overlooking nothing within range of vision.

RABID SPORTSMAN A BORE

Not Even the Most Ardent Woman Golfer Can Be Compared to Him.

A writer declares that since woman has taken up sport seriously she has become more of a nuisance, more tyrannical, even more dangerous, than in the old "It's only a woman, so give me a start" days.

Certainly the woman who is badly bitten by the golf mania, say, is rather a trial to non-golfers, but the sportsman, at her worst, is not so great a bore as the rabid sportsman.

A woman seldom or never lets her golf handicap swamp all other interests—the feminine mind is not made that way; but preserve one from the man to whom sport in one form or another is the pivot of his existence.

Your male golf maniac at times needs not only a gag to stop his description of the game, but a strait-waistcoat to prevent him from demonstrating with his walking stick — to the peril of the bystanders.

As for the football maniac—and especially the maniac who never played in his life, but can tell you the name of every player in the league, no fate could be too bad for him. It is a matter for gratitude that though women may sometimes take themselves too seriously over the golf course, they have not yet developed any great interest in football. When they do, it will be time to call for the revival of old maid, archery, spilkitties, and the other ladylike games of our grandmothers.—Exchange.

Likeness With Human Motor.
A lifeboat driven by a propeller which is worked by the crew, the invention of Mr. Winsor, was tried lately in England. Four lifeboats are provided, connected together in such a way that a crew of eight people can work the propeller, and crews of men and women were tried with good results. The lifeboat was loaded up to its full capacity—32 people, or the equivalent weight—and a speed of between two and three miles an hour was reached. The boat also has a reverse motion. In bad weather, it is claimed that the boat would be much more manageable than it propelled by oars.

HOW TO KEEP FOODS

HINTS FOR THE HOUSEKEEPER WHO HATES ICE.

Purchase Perishable Foods in Smaller Quantities and More Frequently—A Little Intelligent Care All That is Necessary.

The care of foods in the home is a problem that has solved itself to some extent in the last decade. At least, it is not so serious a question as it was, for the food supply is more readily reached by both city and village dwellers daily. This allows purchasing perishable foods in smaller quantities and more frequently where one has no refrigerator.

Ice is one of our greatest blessings in summer weather and cool running water or a cool basement is in the same class. After once having these comforts it seems as though it would not be possible to do without them. Yet there are thousands of women who have kept house for years and never have had ice or a basement for cooling and preserving food. It is not economy to do without these things, but it is good to know that it can be done.

Some foods have better keeping qualities than others; with meat, lamb, veal, young chickens and fish are most troublesome to keep.

If meat is to be kept any length of time it should be well cooked, as this destroys all germs and bacteria. After it is cooked it must be kept so no more can reach it by being closely covered. However, it must not be absolutely air tight and it must not be covered until it is quite cool. As often as any of the meat is used it should all be heated, as this heating is really the best preservative.

The best receptacle to keep any food in is unglazed crockery. Lettuce, radishes and such fresh vegetables should be wrapped in heavy, wet paper and placed in a wet, empty flower pot with a cover over it.

Milk will keep sweet longer in a large vessel than in a small one. The best way to keep it without ice is to pour it into an unglazed, wide dish or crock and cover it over with a sheet of cotton. This cotton permits the air to reach the milk, but keeps out all impurities. Set the crock in cold water in the coolest spot you can find.

Almost everything can be canned now, and this is the best means of saving left-over fruits.

Where you have a cellar, but no ice, keep it cool by airing it for an hour every morning, and then, before the sun grows hot, close it as tightly as possible. See that it is well screened from flies and clean and sweet as it can be made.

If you have no cellar, but have a yard, look for a shaded place, and have a hole dug there and walled with unglazed brick. Fit this with a trap door, and inside place a zinc or sheet iron box with a glass cover. In this you can place a crock of butter, a dozen or two of eggs and a pot of cream and keep them reasonably cool. Such a receptacle is called a "camp-box."

If you live within reach of ice, by all means try to have a refrigerator, for you can save the cost of ice and its container many times over by buying food in quantities. Many neighbors share their iceboxes, and this is a sensible co-operation. If you plan to do that, have a refrigerator with two food compartments and the ice well in the center. Place it in the basement or on the back porch so each can use it without intruding on the privacy of the other. Order enough ice to keep the box cool all the time, and use care in selecting your foods.

Chesse Pie.
Line a piepan with rich piecrust. Cut bits of string cheese and put into it, also bits of butter sprinkled here and there over the crust. Beat two eggs light and add to them one tablespoonful of flour mixed smooth in a little sweet milk and a pinch of salt. Add enough sweet milk to fill the pan, and bake. This makes an excellent breakfast dish and is a recipe brought from Switzerland in the latter part of the eighteenth century.

To Launder Corsets.
Make a strong soda of white castile soap and borax. Place soiled corsets in it and scrub them with a stiff brush on a rubbing board for convenience in handling. Rinse several times and finally add a little bluing to the last water. They may be starched if preferred, but usually the corsets of today worth washing are sufficiently stiffened with bones and stays. Hang them up to dry.

Keeps Pineapples Cool.
To keep pineapples cool seems a problem, for if it is put in the icebox, covered or uncovered, whole or ready to serve, everything else in the box absorbs the odor. To prevent this cut your pineapple into a quart jar, add sugar and seal tightly. In this way you can put it any place in your icebox without fear of having anything else absorb the odor, and it will keep for days in this way.

Ricettes of Spinach.
Cut squares of pastry and put a heaping teaspoonful of cooked spinach in the center of each piece. Fold over, press together, break with beaten egg, and fry in fat to cover.

To Take Out Stains.
To remove starch stains from hardware, rub them with a cloth wet with turpentine.

The ONLOOKER

HENRY HOWLAND

The TREE OF GOSSIP

Three gossips sat along one day, And where they were a tiny seed— The little seed of truth, indeed— Unharmful and unhidden lay.

One had gossiped long the night, Began to open, and a sprout; At first half timidly, peeped out, And grew as something watered well.

The stalk was big and coarse and strong, And sticky leaves upon it hung; Each shaped as in a gossip's tongue— The tree filled all the room ere long.

They dragged the slimy trunk outside, And there the warped tree spread and grew; And there by every breeze that blew Its foliage seeds were scattered wide.

The gossips three beheld the tree That from the little seed had grown; A stench from every tent was blown, Its fruit was horrible to see.

They held their noses and they turned Their backs upon the horrid sight; The three had met with much delight, With shame their cheeks at parting burned.

Technical.
Mrs. Duckoloy—What business is your husband in?
Mrs. Fustleigh—He manufactures wind instruments.
Mrs. Duckoloy—Oh, indeed! Now, that's a chance for my son, George. He's wild to get a flute. Do you think he could get one at your husband's factory at cost?
Mrs. Fustleigh—I really don't believe he could. You see, the wind instruments my husband makes are bicycle pumps.

How?
"Smithson claims that his wife is the most beautiful woman in this town."
"How is he going to prove it? Has her portrait ever been used as an advertisement for face powder or massage cream or anything like that?"

CHOOSING HIS TIME.

Charley—If you've decided to ask Miss Dalloway's father for her, have you? By George, you have more courage than I gave you credit for.

Fred—Courage? Why, I think no more of facing that man today than I would if he were not half as large as he is.

Charley—I'm astonished! Fred—You see he's laid up with a severe attack of gout.

Fatal.
"It says here in de paper," said Limping Lemuel, "dat dis fird wet just died was a member of de order of de bath."

"Poor old chap," sighed Easy Elias, "he might be livin' yet if he would of kept out of de water."

Success.
"Remember," said the orator, "that not all who succeed are rich."
"I know it," shouted a man in the gallery. "My wife succeeds in making me contradict myself every time I try to explain to her when I have been out late at night!"

Good, But Not Forgotten.
"Would you recognize a former husband of yours if you should meet him in the street?"
"I'm sure I don't know—er, yes, I think there are one or two of them that I would know almost anywhere."

A Call for Help.
Higger—Where are all those deputy sheriffs and policemen going in such a hurry?
Farlow—The home teleph' last today and the squire has telephoned that he wants to go to his hotel.

Mere Duty.
"Why is it," she complained, "that you never want to kiss me before other women?"
"Darling," he replied, "I wouldn't ask you to kiss me on my knees before other men."

Drink
Coca-Cola
The thirsty one's
one best beverage
Delicious
Refreshing

THE COCA-COLA CO., ATLANTA, GA.

To Blow In, Probably.
Mother—What are Richard and your father storming about?
Daughter—Oh, Dick's trying to raise the wind again.

Also Harren of Wealth.
"So that foreign suitor of Ethel's turned out to be no baron after all."
"Oh, he was a baron, all right—Baron Munchausen."

A Leather Belt in an English Factory has been running at a speed of 1,800 feet a minute from 9 to 12 hours a day for more than 32 years.

Makes the laundress happy—that's Red Cross Bag Blue. Makes beautiful, clear white clothes. All good grocers. Adv.

The morning after is a cheerful one for the man who devotes the night before to sleep.—Albany Journal.

REAL HOME FOR THE HOLE

Finds Secure Abiding Place After a Period of Troublesome Wanderings.

Everett P. Dahlgren, the millionaire opponent of woman suffrage, said at a suffrage debate in Boston:
"I always declare that woman shouldn't enter politics till she's fulfilled all her prior duties."
"Prior duties? Prior duties!" So a young lady mocked me one day. "What do you men mean by these 'prior duties' that you're always talking about, Mr. Dahlgren?"
"So then I told the young lady this story:
"Once upon a time, I began, a little hole was born; and it looked around to see where it should take up its abode.
"It first decided on a window, but a man came straightway and put in a new pane. It next chose a chair seat, but the housewife sent for a caner, and in a jiffy a new seat was put in the chair. The hole now selected a baby's rattle, and the baby was so pleased that it began to tear the rattle to pieces, and the poor hole, half-crazed with fright, had just time to escape. It threw itself, more dead than alive, into the first thing that came to hand, which happened to be the sock of a suffragist's husband.
"There, at least, the hole seems to have found a real home. Its peace has not been troubled from the beginning, six months ago."

Libby's Soups

Soup making is an art. Why trouble with soup recipes when the best chefs in the country are at your service? A few cans of Libby's Soup on your pantry shelf assure you of the correct flavor, ready in a few minutes. There are Tomato, Vegetable, Chicken, Oxtail, Consomme, Mock Turtle and other kinds. Your grocer has them.

WASHINGTON CITY SIGHTS

Swarm of Bees Is Attraction in Capital Street

WASHINGTON.—Chauncey C. Brainerd, the Washington correspondent of the Brooklyn Eagle, entered his office on Fourteenth street in the heart of the business section early this morning and found a compact group of visitors there ahead of him. The guests were rolling about the office, not on the floor, but halfway between it and the ceiling. A swarm of bees coming from the land of no man knows where had taken possession.
Brainerd knows little about bees except that they sting, a fragment of knowledge which made him cautious. He turned on the electric fan, and the visiting swarms getting into the path of the wind, passed out an open window to fasten themselves in a body in the place of a storm-broken maple.
The bees were an attraction. Traffic was blocked for a while with a throng of curious but none too courageous spectators. Finally a bold one stationed a big paper box to the tree just below the bees, saying that they soon would settle in it and that when this happy result was reached he would clap the cover on and be the owner of a swarm that would bring him \$20 in the market.
The bees would not go into the box. For half an hour the crowd watched expectantly, but the buzzing bunch clung to the foliage of the poplar and ignored the trap retreat. Soon there happened along James P. Hornaday, for years the Washington correspondent of the Indianapolis News. In his youth Hornaday had lived on a farm, and he knew about bees. He said: "Get a small bell, put it in the box, tinkle it and the bees will enter."
The crowd told Hornaday he was a fine jester, but that it could not fall for such stuff. The correspondent, finding his advice reproached, went his way. Five minutes later a man in a wagon came along. He was a farmer, for he showed it. He took a little bell off a bicycle which was standing at the curb, put it in the box and rang it. In two seconds the bees had dropped in a bunch from the foliage into the box, the cover was clamped on and the farmer drove away with his prize.

ONE SIDE OF POLITICS AT THE NATION'S CAPITAL

HE HAD a keen eye, and from the neck up he looked like a brilliant, successful young man. A survey of him from his chin down disclosed the fact that he wore a shiny evening suit a size too small for him, that he had a telltale sinking-in somewhere in the immediate vicinity of his whiskers, and the tops of his shoes were in far better condition than the soles. Altogether, he was on his uppers—a fact which he was confiding to his friend in the hotel lobby.
After a while there appeared in the distance the picture of unlimited wealth, unattained success, and uninterrupted prosperity. Instead of a sinking-in at the whiskers, he exhibited a Dutch-window effect. His clothes fitted him to perfection. Evidently he had come out a victor in every battle he had fought against adversity.
As soon as he appeared, the young man in the small evening clothes was electrified into new life.
"Excuse me," he said to his friend. "That olduffer is from Wisconsin, and he wants to get an ambassadorship. I'm helping him to get it."
All of which is another indication that strangers looking for honors in Washington will pay large sums of money to any needy person who claims to have influence with Bill Jones, who says he has influence with Congressman Smith, who is known to have influence with Senator Jones, who must have influence with a cabinet official who has more influence than anybody else with the president.
It's a fine old graft.—Popular Magazine.

Found a Good Way to Defeat a Political Boss

THE most abject slaves of a political boss will revolt if their slavery is sung in their faces," philosophized Representative McKellar, who comes from the Memphis (Tenn.) district. "I had a concrete example of that in my first congressional campaign," he continued. "One day I met in the street the political boss of Birmingham, a manufacturing suburb. For years he had voted the men like sheep, and he was proud of his automatic rule. He had opposed General Gordon, my predecessor, and was now violently, but good-naturedly, opposing me.
"Mac," he said, "you won't get but four votes in Birmingham; there are 252 votes there altogether, and I'll poll the 248. I carry them in my vest pocket."
"We'll see about that, Tom," I replied, with a laugh.
"And thereupon, relying upon that principle of human nature I have just stated, I planned my attack upon Tom's stronghold, where I was to speak the following night.
"I got my crowd in a good humor that evening with a few preliminary stories, and then electrified them by assuring them that I did not expect their votes; that they could not vote for me, even if they wished to, for, no longer ago than yesterday, I told them, their fellow townsman had informed me that he carried all their votes but four in his vest pocket—and they would all be cast against me. I called for a show of hands from those whose votes reposed in Tom's vest pocket; not a hand! I then called for the hands of the independent voters; and every hand went up!
"And, on election day, I carried Birmingham by a handsome majority!"

Wilson Likes June Brides, But Couldn't See 'Em

PRESIDENT WILSON has no desire to spoil the honeymoon of any June bride. Unfortunately, however, affairs of state prevent him from granting all the favors asked by June brides who happen to come to Washington on their honeymoons. That is why a certain June bride and her darling hubby from Passaic, N. J., had to leave town very much disappointed.
Accompanied by the aforementioned darling hubby, and clad in a very, very diaphanous gown, this June bride strode into the executive offices to see Secretary Tammuly.
"We have just been married," announced the bride, blushing.
"Congratulations," said Tammuly. "Isn't it delicious!" she exclaimed. "It is," agreed the secretary.
"We want to see the president," announced the bride.
"Sorry miss—I mean madam, but he is very busy."
"But," she pouted, "John and I thought it would be just too nice if he posed with us for a photograph."
The secretary gasped and then gulped. "Impossible," he said. "He's too busy."
"Then," exclaimed the bride, "won't you do it?"
"I am very sorry," explained Tammuly, "but the president needs me right away."

GET WIRELESS BY BEDSPRING

Eastern Amateur Experiments With a Novel Form of Antennae and is Successful.

Cyrus H. Flandreaux of Peekskill, N. Y., gives the following interesting account of his experiments with a novel form of antennae for wireless telegraphy:
"There are many things used as antennae to catch the mysterious electric waves which carry our wireless messages through space, and I find that the springs of my bed serve as very efficient antennae. My room is on the second story of my house, and by using these springs as antennae I can easily read the signals sent out every night by the wireless station at Sayville, L. I., although they are not by any means so loud as when I use my outdoor antennae, which are 40 feet above ground, 60 feet long and consist of four wires on spreaders, the wires being two feet apart.
"The bedspring antennae are best for use with nearby high power stations. Sayville, L. I., is about fifty miles from Peekskill. With my outdoor antennae I continually hear the Arlington (Va.) naval station when it sends out the correct time signals at 11:55 a. m. and at 9:55 p. m.; also the weather reports, Brooklyn navy yard; New London, Conn.; Cape Cod and others, including amateur stations too numerous to mention.
"I have an all-around good apparatus. I hold a station license and an operator's license, both issued by the United States government. My official call is 2 V U."

RASH ON FACE SPREAD

Granton, Wis.—My sister had a very bad, deep, wet, running sore on the side of her face and it ran up to her ear. It commenced with a small blotch of pimples which turned into a kind of rash and spread rapidly. It itched and looked red and sore for some time and slightly swollen. A thin fluid dripped and ran from the sores which looked like water. Then the swelling would go down and it would keep on spreading. It bothered her during sleep and she would be restless. It was a kind of eczema.
"She treated for some time and it did not help her. It kept spreading larger and deeper. Having always used Cuticura Soap we told her to try it so she got some Cuticura Soap and Ointment and used them. It was two months when it was gone." (Signed) Miss Emma Retzlaff, Apr. 7, 1914.
Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 22-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Responsibilities

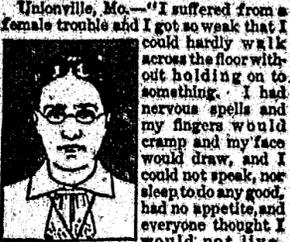

"Didn't you ask me why I paid rent instead of owning my own home?" asked Mr. Crosslot.
"I made that inquiry," replied the real estate man.
"Well, I'll tell you. When the roof leaks or a shutter drops off it's mighty handy to be able to ask your wife not to bother you, but to go and tell her troubles to the landlord."

Don't despise an humble beginning.

To master the violin it is necessary to play second fiddle first.

THOUGHT SHE COULD NOT LIVE

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Unionville, Mo.—"I suffered from a female trouble and I got so weak that I could hardly walk across the floor without holding on to something. I had nervous spells and my fingers would cramp and my face would draw, and I could not speak, nor sleep to any good, had no appetite, and everyone thought I would not live.
Some one advised me to take Lydia E. Pinkham's Vegetable Compound. I had taken so much medicine and my doctor said he could do me no good so I told my husband he might get me a bottle and I would try it. By the time I had taken it I felt better. I continued its use, and now I am well and strong.
"I have always recommended your medicine ever since I was so wonderfully benefited by it and I hope this letter will be the means of saving some other poor woman from suffering."—Mrs. MARTHA SEAVEY, Box 1144, Unionville, Missouri.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Scene: The Woodshed.
She—Tell me of your early struggles.
He—There's not much to tell. The harder I struggled, the more the old man laid it on.

Nothing Like Being Careful.
"Shall I pump up the tires, sir?"
"Wait until we get out into the country, Jacques. I heard a doctor say that the air around here is very impure."

Women's Times of Danger
Women suffer a great deal from kidney diseases. Their color life, tight clothing and trying work all tend to weaken the kidneys. Woman's life also includes times of danger that are apt to beget the kidneys weak and to start attacks of backache, headache, dizziness, nervousness and urinary ills. Prompt treatment, however, will avert the danger of dropsy, gravel, or fatal Bright's disease.
Take Doan's Kidney Pills, the best recommended, special kidney remedy. Doan's are used successfully throughout the civilized world—have brought new life and new strength to thousands of tired, weary, discouraged women.

THE HOME OF STANDARD MERCHANDISE

State Educational Conference Held

THE Educational Conference, which met in Santa Fe Aug. 10th to 14th, was well attended by city and county superintendents and representatives of the schools of higher education in the state.

The reading circle work was subject of much discussion. This has done much toward professional improvement and it was recommended that the state board allow an examination on books read to be a part of the regular teachers' examination.

It was recommended that a list of thirty books prepared by Hon. P. P. Claxton, U. S. Commissioner of Education be recommended to the teachers as a reading course.

That the legislative committee, appointed by the N. M. E. A. codify the school laws of the state and present same to the next legislature for its consideration.

A resolution was adopted which would increase the minimum school term of five months to seven.

The appointment of a high school inspector who would see that the accredited schools were doing standard work was recommended.

The question of school books and course of study was left to the state board with the recommendation that the latter be simplified. The English-Spanish books for the lower grades were indorsed.

On improvement of institutes it was decided to ask for school management and history in the

third grade and a credit of not more than three per cent be allowed on the average for daily institute work.

School Notes

Hondo reports the election of teachers for the coming term as Mrs. Olive Smithson and Miss Ethel Phillips.

The readers of the examination papers, say that Lincoln county stands with the first in the excellence of grades.

Miss Agnes Baca is to teach the first term in the new school house in the Zamora-Padilla neighborhood of S. D. 1. The term opens the last day of August.

Little Creek school with Mrs. Gertrude Keller in charge started the term, August tenth.

Lincoln County Teachers' Association will meet in Capitán, September 5th to consult as to the work of the coming term and to get acquainted.

Mrs. Emma Craddock commenced the term at Baca Canon school last week.

The school at Tinnie will be under the guidance of Mrs. Viola Thompson.

Miss Beula Brazel has been elected primary teacher for the town school of Lincoln.

S. R. Moss, A. W. Edwards, Mrs. De Nission and Mrs. Taylor are again in school after attendance of summer institute.

Prof. J. E. Koonce is reported to be rapidly recovering from an operation at Dr. Laws' hospital in Lincoln.

Notice for Publication

DEPARTMENT OF THE INTERIOR
U. S. Land Office at Roswell, New Mexico
Aug. 11 1914
Notice is hereby given that Henry F. Jones, of Alto, N. M., who on July 20, 1913, made U. S. Serial No. 22319, for S. 10, T. 28 N., R. 12 E., Sec. 21 and S. 10, T. 28 N., R. 12 E., Sec. 22, Township 28 N., Range 12 E., Section 21, 22, containing 160 acres.
Notice is hereby given that the State of New Mexico, under and by virtue of the Act of Congress approved June 21, 1910, and acts supplementary and amendatory thereto, has filed in this office selection lists for the following described land:
List No. 22319 (Serial No. 22319) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22320 (Serial No. 22320) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22321 (Serial No. 22321) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22322 (Serial No. 22322) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22323 (Serial No. 22323) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22324 (Serial No. 22324) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22325 (Serial No. 22325) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22326 (Serial No. 22326) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22327 (Serial No. 22327) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22328 (Serial No. 22328) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22329 (Serial No. 22329) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22330 (Serial No. 22330) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22331 (Serial No. 22331) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22332 (Serial No. 22332) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22333 (Serial No. 22333) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22334 (Serial No. 22334) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22335 (Serial No. 22335) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22336 (Serial No. 22336) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22337 (Serial No. 22337) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22338 (Serial No. 22338) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22339 (Serial No. 22339) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22340 (Serial No. 22340) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22341 (Serial No. 22341) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22342 (Serial No. 22342) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22343 (Serial No. 22343) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22344 (Serial No. 22344) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22345 (Serial No. 22345) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22346 (Serial No. 22346) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22347 (Serial No. 22347) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22348 (Serial No. 22348) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22349 (Serial No. 22349) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22350 (Serial No. 22350) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22351 (Serial No. 22351) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22352 (Serial No. 22352) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22353 (Serial No. 22353) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22354 (Serial No. 22354) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.

List No. 22405 (Serial No. 22405) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22406 (Serial No. 22406) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22407 (Serial No. 22407) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22408 (Serial No. 22408) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22409 (Serial No. 22409) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22410 (Serial No. 22410) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22411 (Serial No. 22411) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22412 (Serial No. 22412) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22413 (Serial No. 22413) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22414 (Serial No. 22414) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22415 (Serial No. 22415) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22416 (Serial No. 22416) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22417 (Serial No. 22417) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22418 (Serial No. 22418) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22419 (Serial No. 22419) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22420 (Serial No. 22420) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22421 (Serial No. 22421) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22422 (Serial No. 22422) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22423 (Serial No. 22423) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22424 (Serial No. 22424) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22425 (Serial No. 22425) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22426 (Serial No. 22426) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22427 (Serial No. 22427) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22428 (Serial No. 22428) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22429 (Serial No. 22429) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22430 (Serial No. 22430) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22431 (Serial No. 22431) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22432 (Serial No. 22432) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22433 (Serial No. 22433) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22434 (Serial No. 22434) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22435 (Serial No. 22435) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22436 (Serial No. 22436) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22437 (Serial No. 22437) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22438 (Serial No. 22438) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22439 (Serial No. 22439) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22440 (Serial No. 22440) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22441 (Serial No. 22441) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22442 (Serial No. 22442) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22443 (Serial No. 22443) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22444 (Serial No. 22444) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22445 (Serial No. 22445) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22446 (Serial No. 22446) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22447 (Serial No. 22447) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22448 (Serial No. 22448) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22449 (Serial No. 22449) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22450 (Serial No. 22450) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22451 (Serial No. 22451) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22452 (Serial No. 22452) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22453 (Serial No. 22453) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22454 (Serial No. 22454) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22455 (Serial No. 22455) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22456 (Serial No. 22456) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22457 (Serial No. 22457) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22458 (Serial No. 22458) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22459 (Serial No. 22459) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22460 (Serial No. 22460) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22461 (Serial No. 22461) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22462 (Serial No. 22462) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22463 (Serial No. 22463) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22464 (Serial No. 22464) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22465 (Serial No. 22465) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22466 (Serial No. 22466) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22467 (Serial No. 22467) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22468 (Serial No. 22468) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22469 (Serial No. 22469) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22470 (Serial No. 22470) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22471 (Serial No. 22471) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22472 (Serial No. 22472) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22473 (Serial No. 22473) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22474 (Serial No. 22474) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22475 (Serial No. 22475) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22476 (Serial No. 22476) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22477 (Serial No. 22477) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22478 (Serial No. 22478) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22479 (Serial No. 22479) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22480 (Serial No. 22480) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22481 (Serial No. 22481) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22482 (Serial No. 22482) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22483 (Serial No. 22483) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22484 (Serial No. 22484) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22485 (Serial No. 22485) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22486 (Serial No. 22486) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22487 (Serial No. 22487) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22488 (Serial No. 22488) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22489 (Serial No. 22489) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22490 (Serial No. 22490) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22491 (Serial No. 22491) S. 10, T. 28 N., R. 12 E., Sec. 21 and 22, containing 160 acres.
List No. 22
