

Only Five and a Half Billion Dollar Crop

Washington, Nov. 8.—The nation's principal farm crops this year are worth about five and a half billion dollars, exceeding by more than half a billion their value in 1914, the previous banner value year in the country's crop history. There has been an unprecedented harvest, many of the crops exceeding their best records, and high prices due to the influence of the European war have contributed to swell the total value.

Statistics announced today by the department of agriculture in its November crop report base values on prevailing November prices. Corn, with a production of 3,090,509,000 bushels—34,000,000 bushels below the record crop—worth \$1,913,025,071, the most valuable corn crop ever grown. It exceeds the former biggest value crop, that of 1914, by \$190,000,000.

Wheat, with the largest production ever known in any country, 1,072,029,000 bushels, or about one-fourth of the world's wheat crop this year, is worth \$938,888,999, or \$54,000,000 more than the record made in 1914.

The oats crop also was a record one, both in point of production and value. The harvest was 1,517,478,000 bushels, almost 100,000,000 bushels better than the record of 1912, and its value \$532,599,823, is \$33,000,000 more than the record value of the 1914 crop.

Barley, rye, sweet potatoes, hay and rice were record crops in point of production and tobacco almost equalled its best production. The rye and hay crops were records in point of value.

The approximate value of the barley crop is \$118,577,682; the rye crop \$37,861,403; buckwheat \$12,854,750; potatoes \$218,425,824; sweet potatoes \$42,456,050; hay \$177,054,890; cotton \$609,000,000; tobacco \$105,002,500; flax seed \$30,504,534; rice \$22,313,350; apples \$164,380,480; peaches \$60,613,736, and pears \$9,275,634.

In this year's harvest the corn crop passed the three billion bushels mark for the second time and the wheat crop crossed the one billion bushel mark for the first time.

Potato prospects declined nine million bushels during October, the crop now being placed at 359,253,000 bushels. That is 46,000,000 less than last year's crop and the prospective moderate supply for winter use is reflected in the sharp advance in farm price from 48.7 cents a bushel on October 1 to 60.8 cents on November 1. The November 1 price is 8 cents higher than a year ago. The crop is shortest in the northern states which grow the surplus of the late crop. The quality, too, is below the average.

Mrs. Watson Entertains

The Watson home was the scene of a pleasant gathering last Saturday evening. The event was in honor of Mrs. Edward L. Medler and this delightful home was made doubly pleasant by the charm and grace of the honoree.

Methodist Church

Regular services Sunday at the Methodist church. You are invited and will find a welcome. Sermon in the morning by the pastor. Subject, "The Abiding Task of the Christian Church." Let everybody plan to come. Sunday School at 9:45, Junior Church at 3 p. m., and Senior League at 6:30 p. m.

Fort Stanton

Dr. and Mrs. F. H. McKeon entertained a number of friends at their beautiful quarters last Friday evening, it being their fourth anniversary of marriage. Dancing and cards with light refreshments were enjoyed until a late hour. Guests from outside of the Post were Mr. and Mrs. A. J. Rolland, Misses Riley and Parker, of Carrizozo. Local residents in attendance were Doctors Rawls, Ruoff, Barrett and Reid, Mr. and Mrs. Harry Leach, Lieutenants Monroe and Besse, Miss Cody, Mrs. Rice, Messrs. O'Bannon, Hanna, Babbs, Gentry, W. H. Smith, Ferguson, Lynch, Dr. C. Irby, Mr. Weber and the chaplain.

The funeral of the late P. F. Duffy took place from the Sacred Heart chapel Wednesday afternoon, at 3 o'clock, Chaplain Frund in charge. A vocal solo by Miss D. Brockway with violin and organ accompaniment, and a violin solo by Mr. S. Beckstrom, were the principal musical numbers rendered. The impressive funeral service of the church was read by the chaplain. A number of floral pieces were presented by the members of No. 4, and Mr. and Mrs. Rolland, of Carrizozo. Interment took place in the Army cemetery just south of the Post.

Mr. J. J. Brown is able to be out after several weeks of illness.

On Sunday evening, November 21, there will be a special non-sectarian Thanksgiving service in Library hall. The chaplain announced a very interesting program. As a consequence of this special program the regular service for the 14th will not be held.

Chaplain Frund, P. H. S., is spending the week in El Paso attending the Bishop Schuler installation, reception and banquet, the latter being held at the Paso Del Norte.

The dance held one evening last week by a number of the Post attendants is reported to be the best had in many days. A large number of friends came from various parts of the county.

Mr. and Mrs. Nickle entertained a number of friends at cards one evening last week.

We are pleased to hear of the entertainment to be given soon in Amusement hall by a number of the residents. The committee in charge seems to be just the one to make it a go, and we are sure an exceptional program will be given us.

Evidence of Growth

Not only are there visible evidences of growth in Carrizozo and surrounding community, but the records in the local Mountain States Telephone & Telegraph Co. show abundant proof of that growth. When Manager McQuillen came here three years ago and assumed charge of the Carrizozo office there were just 52 phones in use. Now there are 104—an increase of 100 per cent during that time. This additional evidence of the growth of the community is very gratifying.

Thanksgiving Ball

The Woman's Club at White Oaks is making arrangements to entertain all comers on Thanksgiving night, November 25th. A regular club dance will be given on that occasion and lunch will be served. The reputation of the White Oaks Woman's Club has for entertaining will undoubtedly be the means of attracting a large crowd from surrounding communities and much pleasure is assured all who attend.

Educational Association

The New Mexico Educational Association will meet in Albuquerque November 22, 23, 24. Prior to the meeting of the association the educational council will hold a meeting on the 20th. The educational council is composed of a number of divisions, three in each division, to-wit: county superintendents, city superintendents, department of education, state institutions, commercial branches and manual training department.

Prof. A. McCurdy will be in charge of the manual training department, Mrs. Gumm will be in the county superintendents' department, and other Lincoln county teachers will work in various departments.

Quite a number of Lincoln county teachers will attend the sessions of the council and association, probably as many as twenty-five having signified their intention so to do. Practically all

Realized Neat Sum

The enchilada and hot tamale supper given at Real's hall last Friday evening drew a big crowd and netted the promoters a good sum, the receipts totaling \$85. The purpose was to raise money for the erection of the Mexican Methodist church which is under process of erection across the railroad. The committee in charge hopes to have the building completed at an early date.

Teachers along the railroad and those in touch with the line are going, and some others at a distance will also attend. School will not be in session Thanksgiving week, in order that teachers may take advantage of the assembling of teachers throughout the state. The association has a large membership, is rapidly increasing in numbers, and the percentage of attendance of teachers at these sessions is much higher than in many states more favorably situated as concerns means of transportation.

A GROWING INSTITUTION

The Stockmens State Bank opened for business at Corona, this county, May 7, 1913, and it has enjoyed a steady growth. Its deposits on the date it began business at Corona were \$34,395.48. June 4, 1915, the books of the bank showed the deposits to have reached the sum of \$171,751.65.

The following are the officers and directors of this growing institution, which has become closely identified with the commercial interests of Lincoln county.

H. B. JONES

President and director, is also president of the First National Bank, Tucumcari, N. M.; the First National Bank, Santa Rosa; the Torrance County Savings Bank, Willard; the Roy Trust and Savings Bank, Roy, New Mexico. Mr. Jones has been engaged in the banking business in this state for more than fifteen years.

A. B. McDONALD

The vice-president, and also director, is connected with a number of other banks. For more than twenty years Mr. McDonald has been identified with the stock interests of New Mexico and is one of the most successful stockmen of the state.

E. M. BRICKLEY

Is the cashier and has been engaged in the business of banking in this state for the past six years. Mr. Brickley has a wide acquaintance among the stockmen of the state, knows their needs, and his ability for handling in a satisfactory manner this character of business has materially aided in the upbuilding of the institution.

A. S. McCAMANT

Is one of the directors. Mr. McCamant is an old-time cowman and has spent the past fifteen years in New Mexico cattle ranching. He is one of the progressive men of Lincoln county and is constantly grading up his herds that graze on his ranches near Corona.

San Patricio

Mrs. Buster Wootson and Grandma Wootson visited Mrs. J. J. Reeves last week.

Mrs. Lou Hunter has been sick for some time with typhoid fever. Our Constable, Lofio Gallegos, last week took an old lady from near Hondo to Carrizozo, to be examined for insanity. Your correspondent did not get the name of the party.

Our people who had business in court and with the grand jury are all at home again, though report had it that some of them would not be back again for several years.

We suppose it is all right for court to adjourn without disposing of all the business, but some of the people around here are wondering why the business here should not come first; and after disposing of it, help anybody else that wants and needs help. It may be that the ends of justice are best served by delaying and putting it off as long as possible, but we never could see it that way. We may have more to say about our courts and lawyers if it comes handy and we can do it without getting in contempt of court or having the editor throw it in the waste basket. Until then, "nuff said."

Felix Miller passed through Sunday on his way to Carlsbad or thereabouts. Mr. Miller has located a bat cave and proposes to work it.

Frank Munroe went to Roswell Saturday for Murry & Rose.

Frank Wallace left for Palomas Springs Monday to take the 6411s. We hope he will come back much improved.

F. C. Stover took a load of apples over to the Spur ranch Saturday.

A Miss Chaves and Mr. Elcbree were married last week and a dance in honor of the event was given in the hall Friday night.

In our communication last week we should have said Francisco Aramero (we believe that is the correct spelling) made his escape when Mr. Gallegos and Mr. Purcella took the cattle from Felipe Saiz. Not being familiar with the people and names around here we find it rather difficult to get them all just right; however, we don't do it on purpose and are always willing to acknowledge our mistakes and promise to try to do better (with the editor's help) next time.

Sold Their Lambs

Sherwood Corn was down this week from his ranch near Ancho. Mr. Corn sold his lambs this fall for \$4.00 per head, and, while that appears to be a fancy price, yet he says he lost 34 cents a head on the basis other sheepmen sold—6½ cents per pound. His lambs weighed 67 pounds.

J. B. French, so they say, topped the market on lambs this year. He sold at 6½ cents per pound, and his lambs weighed 71 pounds. Four dollars, sixty-one and one-half cents for a six-months' lamb would make any sheepman smile, wouldn't it, J. B.?

Coal, Coal, Coal. Having enlarged our bins, we are now prepared to furnish the trade with Dawson Fancy Egg and Nut, and Swastika Lump, Humphrey Bros.

Joe R. Adams, Louis Adams, Doc Tice, Jerry Dolton and Jake Cole left Tuesday for a hunt in the Three Rivers country. We put in a requisition for a haunch of venison, a bear steak or a turkey and are impatiently awaiting the return of the ninruds.

Farm Products Of This State

Farm products are gradually growing and form no inconsiderable portion of our wealth. Notwithstanding the bumper crop of 1914, the 1915 crop excels it in every respect, save in apples, wherein a slight decrease is shown. The following are the comparisons for the two years, furnished by the bureau of crop estimates:

Corn.—Estimate this year 2,820,000 bushels, final estimate last year 1,838,000; price November 1 to producers 67 cents per bushel, year ago 87 cents.

Wheat.—Estimate this year 2,020,000 bushels, final estimate last year 1,838,000; price November 1 to producers 91 cents per bushel, year ago 103 cents.

Oats.—Estimate this year 2,160,000 bushels, final estimate last year 1,976,000; price November 1 to producers 34 cents per bushel, year ago 52 cents.

Potatoes.—Estimate this year 945,000 bushels, final estimate last year 900,000; price November 1 to producers 86 cents per bushel, year ago 100 cents.

Apples.—Estimate this year 273,000 barrels, final estimate last year 300,000; price October 15 to producers 96 cents per bushel, year ago \$1.10.

The Ancona Disaster

The manner in which the Ancona was destroyed by an Austrian submarine is strongly condemned by dispatches from Rome and Paris. It will require an investigation to determine the truthfulness of these reports, but the following are given as they have been sent out:

"Rome, Nov. 11, via Paris.—Only 225 passengers and crew of the steamer Ancona were saved out of a total of 428 on board, says a dispatch from Tunis to the Corrier Della Serra.

"Two boats have arrived at Tunis, the dispatch said, one with thirty-seven survivors and the other with twenty-seven.

"Passengers declared the steamer was shelled for an hour and a half by the submarine which was flying the Austrian flag when the torpedo struck the Ancona. The underwater craft had two white turrets and was armed with four guns."

Paris, Nov. 11.—A dispatch to the Havas agency from Tunis says:

"The captain of the Ancona, who arrived here today, confirmed previous reports that the hostile submarine fired upon his vessel while her boats were filled with passengers and ready to be lowered. Shells struck the boats, killing or wounding many passengers, the captain said, and boats were also struck by projectiles after they were in the water.

"The captain declared that no signal was given by the submarine, except that a shot was fired when the submarine was about five miles distant. The steamer immediately stopped completely. The last gun shots were fired at a distance of about 300 yards from the steamer. Several of the boats pulled close to the submarine, the captain said, but were warned off with insulting cries."

We failed to mention the arrival last week of a young lady at the home of Mr. and Mrs. Frank Lesnet. The young miss is up to the standard in weight, has dark eyes, a florid complexion, a good pair of lungs and she will take up permanent headquarters in the Lesnet home.

ROAD BUILDING

WORKING FOR BETTER ROADS

Ways in Which Department of Agriculture Offers Advice and Assistance—Free Lectures Given.

Communities interested in the improvement of roads are recommended by the department of agriculture to apply for a lecturer on the subject. Lecturers will be sent at the government expense wherever there is reason to believe that audiences will be large enough to make the expenditure of time and money worth while. Whenever possible it is, of course, desirable for a number of communities in the same vicinity to make arrangements for lectures at the same time, since in this way the traveling expenses for each stop made by the lecturer are materially reduced.

The number of lecturers at the disposal of the department is limited, and it is not always possible, therefore, to comply with every request. When a

Vitrified Brick Pavements for Country Roads—Filling the Gaps.

lecturer cannot be sent, however, the department will loan a set of suitable lantern slides to any responsible local association or individual who will pay the express charges. The only requirement is that the slides be made of active and practical use in the community and that they be returned in good condition in 90 days. In addition, a brief outline of a lecture to accompany the slides will be forwarded on request.

In addition to this educational work the department is always ready to respond to requests for practical assistance which may take the form of special advice and inspection, superintendence of county roads, road surveys, experimental road work, bridge work, or the development of a model system of highways for a county. To obtain such assistance local authorities should secure a blank form from the office of public roads on which to make applications. Requests from corporate villages or cities cannot be met, however.

Bridge work is one branch of road building in which the department may be of particular service to local authorities. Typical designs have been prepared and copies of these can be furnished on request. A few minor alterations would probably make such a design suitable for special conditions, or an engineer may be assigned to inspect the site and offer suggestions. In some cases designs by bridge companies have been reviewed by the department for the benefit of local officials.

Possibly the most important way, however, in which the department assists individual communities in the betterment of their roads is in laying out a model system of highways for a county which is about to expend a large sum of money on roads. In such cases the department assigns an engineer to make a thorough study of the district. He ascertains where the best road materials are, what roads are the most important, and, therefore, to be improved first, and provides for the location of each road so as to secure the best possible drainage and grade.

New Road Surfacing.
It is reported that an experiment is being made with a material which heretofore has been a waste product of glass factories, for road-making. This is a thick, slurry liquid that hardens when exposed to the atmosphere, forming a substance that somewhat resembles glass. A quantity of this material is mixed with crushed stone and used to surface a stretch of highway in Illinois, forming a surface that is as smooth as concrete. How this surface will stand up under weather and wear will be watched with interest.

Road Draggings.
Good roads save money, because they cheapen transportation to the markets; they reduce the drain upon capital invested in horses; they prevent waste of time, and "time is money;" they add to the joy of living, and joy adds to the effectiveness of life; good roads may be had by dragging; use the drag.

Sell Your Products.
Sell your wool when the price is fairly good. Holding wool, or any other crop, very long is risky business.

Good Reason.
First Motorist—This is terrible heat.
Second Motorist—But you must remember we have been scorching.
The Advantage.
"We want the bald facts in the case."
"Then we can't split hairs over it."

That's Different.
"When we want to say something that we don't dare say in English, we use French."
"And when the French want to say something they don't dare say in French."
"Ah, you could make your fortune in Paris if you could only discover that something."

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeit and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines. It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness. Genuine Castoria always bears the signature of *Chas. H. Fletcher*

It may be true that marriage is a failure. But so, for that matter, is remaining unmarried.

Most of the old axioms are as misleading as the one to the effect that women suffer in silence.

Don't be misled. Ask for Red Cross Bag Blue. Makes beautiful white clothes. At all good grocers. Adv.

His Error.
"He's a self-made man."
"I know. He surely made a mistake in not consulting an expert."

A Religion With Him.
"What is your father's religion?"
"Golf, I guess. It's the only thing he does on Sundays."

If You Need a Medicine You Should Have the Best

Although there are hundreds of preparations advertised, there is only one that really stands out pre-eminent as a remedy for diseases of the kidneys, liver and bladder. Dr. Kilmer's Swamp-Root is not recommended for everything. A sworn certificate of purity is with every bottle. You may receive a sample size bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Birmingham, N. Y., and enclose ten cents. For sale at all drug stores in bottles of two sizes—50c and \$1.00, also mention this paper.—Adv.

Tried Both.
The Widow—If you married again I suppose you would want a woman of intellect.
The Widower—Yes, but just about medium.

The Widower—Medium?
The Widower—Yes. My first wife was a strong-minded woman and my second was a weak-minded woman and one's about as bad as the other.—Judge.

Careful Diagnosis.
"Well, did you succeed with your first diagnosis? Did you profit by my advice?"
The Young Doctor—I think I did, sir. I told the patient that he was suffering from a combination of liver, stomach, heart, lung and brain trouble.
Old Practitioner—Good! No chance of a mistake there.—Stray Stories.

Acting in One Lesson.
"Do you think I could learn to be a moving-picture actor?"
"Sure you could. Just remember this one thing: A heaving chest denotes surprise, fear, hate or any other emotion."—Louisville Courier-Journal.

Stretched Out.
"What is your dachshund's name?"
"I call him 'Art.'"
"An appropriate name. Art is long."

If you are able to appear indifferent the man who wants to sell you his dog finally will give him to you.

The girl who doesn't play slang may be more attractive than the one who does, but she is less numerous.

A man plays golf because he likes to sport. A woman plays golf because it is a proper thing to do.

There are all kinds of chumps, including the one who has a ship tattooed on his arm.

Polliteness is like an air cushion; there may be nothing in it, but it eases many a hard jolt.

One of the compensations of life is that a man can't study himself through a microscope.

Instead of waiting for a rich uncle to die go and take lessons of the industrious ant.

Labor is the foundation of many a big fortune—but not necessarily of the laborer's.

The practice of combing the long hair over the bald spot never fooled anybody.

A woman often looks as well as the display in a shop window. But a man never does.

Other people may have good taste, but, of course, yours is a little better.

The rule in politics is that the side that wins the steam roller use it. Everything is becoming to the noble.

EVIDENTLY NOT AN ARTIST

Judging From Comment, Bilkins Had a Good Deal to Learn About Photography.

Young Bilkins is an enthusiastic devotee of amateur photography. He always insists upon "taking" his family and friends posed in more or less artistic attitudes.

Not long ago there was an exhibition of the work of a local photographic club to which the young fellow belongs, and where were displayed the results of certain of his efforts to immortalize his family and friends. In one corner hung a group of figures twisted into the most extraordinary positions, the general effect being that of persons in various stages of paralysis.

"Who in the world are those queer-looking people?" asked someone.
"Oh, those are some of Bilkins' strained relations," said a bystander.

Warrior of Today.
George Wharton Pepper said at a luncheon at the Plattsburg training camp for officers:

"The methods of warfare have changed enormously in the past year. The sword, for example, is no longer carried. The sword has quite disappeared from war.

"A story comes from the Argonne about a French chasseur who took a German officer prisoner. The chasseur, a boy, a tyro, said to the officer: "Give up your sword."
"But the officer shook his head and answered:

"I have no sword to give up. But won't my vitrol spray, my oil projector or my gas cylinder do as well?"

Speaking From Experience.
"Pa, what is the 'first line of defense'?"
"That depends on the circumstances, son. If this country were at war, the first line of defense would be the navy. When a man's married, it's usually the telephone line, by which he tries to square himself before he comes home."

Paw Still on the Job.
Little Lemuel—What's a bookworm, paw?
Paw—It's a worm that would rather digest a book by eating it than by reading it.

Graduating by Post.
"Dad, what's a postgraduate?"
"A fellow who emerges from a correspondence school, I imagine."

Notto for a lawyer: "I will." Motto for a fruit preserver: "I can."

It is easy to get around anyone you can manage to see through.

Assisting Ambition

Men of ambition—with the desire to forge ahead—need revitalizing food to help them to compel success.

Grape-Nuts

is a success food. It is made from whole wheat and malted barley and, pound for pound, contains far more "go" and "got there" than ordinary foods.

It retains all the nutriment of the grains, including their natural mineral salts—Phosphate of Potash, etc., often lacking in ordinary food, but essential to thorough upbuilding of sinew, brain and nerves.

Grape-Nuts is partially digested and agrees with all. It's the ideal vigor-food for child and adult.

"There's a Reason"
Sold by Grocers everywhere.

VARIETY OF RECIPES

ALL WORTH REMEMBERING BY CONSCIENTIOUS COOK.

Vegetable Soup as It Should Be Made for the Best Results—Potato That Will Be Attractive to the Invalid.

Vegetable Soup.—Take one large potato or two small ones, one carrot and one turnip of medium size, and one small onion; wash, pare and slice them, and let them boil for one hour in one quart of water, adding parsley or any herb preferred for flavoring, and more water as it boils away, so that there will be a quart when done. Thicken with a spoonful of flour or cornstarch, dissolved in a little cold water; or a spoonful of rice or any coarse cereal may be added when the vegetables are half cooked. Strain off the liquid, season to taste, and add a few spoonfuls of sweet cream. If a dish a little more substantial is desired, the vegetables may be rubbed through the strainer also and mixed with the liquid.

Bread Panada.—Toast slowly several slices of stale light bread, until they are a golden brown all through. Pile them in a bowl, sprinkling each one with a little sugar and a pinch of salt; then cover with boiling water, close tightly, set the bowl in a pan of boiling water and let simmer gently until the bread is like jelly. Serve warm, with sugar and cream and a grating of nutmeg.

Potato for an Invalid.—Where potato is allowed, select such as will boil up dry and mealy. Peel them and boil until well done, then mash very thoroughly with a wire masher until perfectly free from lumps. Add rather more salt than usual and several spoonfuls of thick, sweet cream; then beat until perfectly smooth and light, and serve at once. Potato served in this way is delicious and much more easily digested by a weak stomach than when eaten with butter.

Fruit Toast.—Fruit toasts are delicious and appetizing and may be made either with fresh or canned fruit. Dip the slices of toast in the hot juice, removing them quickly to a hot dish, then thicken the juice slightly with cornstarch, adding the pulp, rubbed through a sieve or finely chopped, and pour all over the toast.

Fruit Whip.—A nourishing way of serving fruit, either fresh or canned, is to press it through a sieve or wire gravy strainer and then stir it into whipped cream, regulating the amount of fruit as desired and sweetening to taste.

Egg Souffle Toast.—Place a slice of toast on a white enameled plate, spread with fresh butter or very thick sweet cream, heap on top the stiffly whipped white of an egg, hollowing out the top to form a nest. In this place the yolk. Set in the oven to cook the egg lightly.

Oyster Pate.
One pint oysters, one tablespoonful each butter and flour, one cupful cream, cayenne, grated nutmeg, yolk of one egg, chopped parsley. Line a shallow baking dish with rich crust. Make sauce of butter, flour, cream, sauce, and when heated through whip in the well-beaten egg yolk. At once pour into the pastry crust (previously baked) and heat in oven about eight minutes. The crust can be molded over inverted muffin cups or made in the regular baking dish lined with paste, and even covered with a second crust is most attractive.

Economical Cake.
The most surprising of cakes can be produced without eggs or butter. To a teaspoonful of bicarbonate of soda dissolved in a teaspoonful of warm water add a cupful of sour milk, three-quarters of a cupful of brown sugar and a half a cupful of treacle. See that the sugar is well dissolved, and then add two cupfuls of brown flour, a good pinch of ginger and a teaspoonful of cinnamon. Beat to smoothness, and pour in while stirring a quarter of a pound of floured raisins—less can be used. Bake in a slow oven for a good hour. This cake is economical, and will keep a long time, but it is better not to cut it for a day or two.

Manhattan Pudding.
Mix together the juices of three oranges, a lemon and a half cupful of sugar; let stand several hours. Whip a cupful of heavy cream, add a half cupful of powdered sugar and a cupful of chopped nuts or candied fruit. Rub a moist sparingly with olive oil, pour in the fruit juices, spread with the whipped cream mixture and cover with paraffin paper, put on the lid and bury in ice and salt for three hours. Serve garnished with sections of orange which have stood over night in a thick sirup of sugar and water.

Scrambled Eggs With Asparagus Tops.
Melt three ounces of butter in a saucepan, break into it six fresh eggs; season with a pinch of salt; half a pinch of pepper and a third of a pinch of grated nutmeg. Mix thoroughly without stopping for three minutes, using a spatula and having the pan on a very hot stove. Add a quarter of a bunch of freshly boiled asparagus tops.

Apple Pie.
When making apple pie, try baking the apples instead of stewing them. The pulp is removed from the skins and mixed with the whites of the eggs, which makes the pie much lighter than the old way.

NOT AS HE EXPRESSED THEM

Teamster's Words Would Have Required Adjustment Before Their Use in the Pulpit.

A man was brought before a police court charged with abusing his team and using loud and profane language on the street. One of the witnesses was a pious old dorky, who was submitted to a short cross-examination. "Did the defendant use improper language while he was beating his horses?" asked the lawyer. "Well, he talk mighty loud, suh."

The witness seemed puzzled. The lawyer put the question in another form: "What I mean, Uncle Aus, is—did he use words that would be proper for your minister to use in a sermon?" "Oh, yes suh," the old man replied with a grin that revealed the full width of his immense mouth; "but dey'd have to be 'ranged diffrunt.'" Everybody's Magazine.

One on Rufus Choate.
Judge Parry, in a recent article on "Rufus Choate, Advocate," says on occasion Choate would meet with his Sam Weller. Defending a prisoner for theft of money from a ship, a witness was called who had turned state's evidence and whose testimony went to prove that Choate's client had instigated the theft. "Well," asked Choate, "what did he say? Tell us how and what he spoke to you."
"Why," said the witness, "he told us there was a man in Boston named Choate and he'd get us off if they caught us with the money in our boots."

Are They Still Friends?
The young women present were discussing their ages. And one of the girls said: "I don't know what it is about my appearance, but everybody always guesses me a lot younger than I really am."

And another of the girls answered, oh, so sweetly: "Oh, that's after they have heard you talk, isn't it, dear?"

The Haughty Help.
"Do you miss the summer board-ers?"
"Kind o'," replied Farmer Cortesol. "A summer boarder is right comfotin' to have around from time to time. He ain't nigh so bossy an' fault findin' as the hired men."

Logical.
"Do you know, I think Dick acts rather bashful when he's with you?"
"Maybe so, but you should see him when we are where no one can see us."

Most of the so-called golden opportunities that come our way are only plated.

Canada's mineral production in 1914 was valued at \$128,475,499.

Keep Young

Just as well be young at seventy as old at fifty. Many people past middle age suffer lame, bent, aching backs, distressing urinary disorders, when a little help for the kidneys would fix it all up. Doan's Kidney Pills have helped thousands, young and old. They are the most widely used remedy for bad backs and weak kidneys in the whole world.

DOAN'S KIDNEY PILLS

50¢ at all stores

Foster-McBarn Co. Prop., Buffalo, N.Y.

Just as He Had Said.
"You remember selling me some hair-restorer when I called the other day to get shaved, you hoary-headed old thief?" roared the indignant customer. "You sold it under false pretenses, sir. You said it would restore my hair to its original condition."
"Well, didn't it work?" asked the barber.
"Work? No. It's taken off what little hair I used to have, and I am as bald as the pavement now."
"That's quite right, sir. No false pretense about that. I said it would restore your head to its original condition, and you know, sir, most of us are born bald."

Sure Thing.
"Carrie is a long-headed girl."
"How so?"
"Instead of trusting to luck at the seaside she got engaged before coming down, and makes her fiancé come down to see her once a week."

The Idea.
"What do you think is the most lucrative way of paving?"
"With gold bricks."

Don't Persecute Your Bowels

Cut out cathartics and purgatives. They are brutal, harsh, unnecessary. Try CARTER'S LITTLE LIVER PILLS. Purely vegetable. Act gently on the liver, stimulate bile, and soothe the delicate membrane of the bowels. Cure Constipation, Biliousness, Sick Head, Indigestion, as well as many other ailments. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature *Wm. Wood*

Sick Women Attention

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world? We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women—and every year we publish many new testimonials, all genuine and true. Here are three never before published:

From Mrs. S. T. Richmond, Providence, R. I.
PROVIDENCE, R. I.—"For the benefit of women who suffer as I have done I wish to state what Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and I overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."—Mrs. S. T. Richmond, 84 Progress Avenue, Providence, R. I.

From Mrs. Maria Irwin, Peru, N.Y.
PERU, N.Y.—"Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worn out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it."—Mrs. MARIA IRWIN, R.F.D. 1, Peru, N.Y.

From Mrs. Jane D. Duncan, W. Quincy, Mass.
SOUTH QUINCY, MASS.—"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."—Mrs. JANE D. DUNCAN, Forest Avenue, West Quincy, Mass.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

The Wool Market

The Boston Commercial Bulletin, discussing last week's trading in wool and wool market conditions throughout the world, says in part:

"The market is stronger. Manufacturers who go looking for concessions today do not find them. So far as the Boston market is concerned, there has been no general advance in prices but the tendency is upward and in some instances prices are a bit higher. When one turns to the foreign markets, he finds that values are still on the upward trend and if good wools are wanted—and they are wanted today very keenly—it is necessary to pay the price."

"Along the street one continues to hear discussion as to whether another boom is in the embryonic stages, or on the other hand, whether it is safe to operate with prices on the present high level. These questions are about as hard to answer as the frequent query as to what will happen to prices and manufacturing plants when the war is ended. However, two things are pretty certain. In the first place, the rest of the world is obliged to buy its wool about as far ahead of its uses as is the

United States and the rest of the world thinks well of wool (at any rate of good wool). In the second place, the large American manufacturers appear to believe in wool pretty thoroughly, if buying demonstration of the past two weeks is any criterion.

"Buying in local market this week has not been of such large proportions as was the case a week ago, although there has doubtless been sold a good five million pounds. The trading has been fairly well distributed among the various houses along

the street and has also been fairly well diversified. What has been especially satisfactory to the dealers has been the further demand for territory wools. The opinion is generally held in the trade that more territory wool might have been sold had holders been willing to accept the offers, but with the feeling, that the market is coming their way, dealers are disposed to advance prices rather than shade them, in order, if possible, to get a profit out of their high cost stocks.

"Demand for territory wools

has broadened this week and almost everything in the way of a territory wool has been in request. Sales might have been made more freely but for the fact that asking prices were so much firmer than what some anticipated. Just how much territory wool was sold this week is not certain, although it would seem that fully three million pounds had changed hands. Best half-blood and fine staple Montana and Soda Springs clip wools are figured to cost from 70 to 72 cents and some Oregon staple clips are said to have been sold at 68 and 70 cents. Other sales have included fine and medium Nevada and Utah wools, the best of which brought close to 67 and 68 cents, while Colorado and New Mexican wools have sold in the original bags at close to 65 cents, although some wool is figured at about 67 cents for the best staple. Wyoming wools have also figured in the transfers at about 68 and 70 cents for good stapled clips."

Notice of State Selection Department of the Interior United States Land Office Las Cruces, New Mexico

October 30, 1915

Notice is hereby given that the State of New Mexico has filed the following Indemnity School Land Selection for the unappropriated, non-mineral public lands described below:

Serial 02119 List 658 NE 1/4, N 1/2, NE 1/4, Sec. 17, T. 9 N. R. 8 E. N. M. P. Mer.

The purpose of this notice is to allow all persons claiming the land adversely or desiring to show it to be mineral in character, an opportunity to file objection to such selection with the Register, Receiver of the United States Land Office, at Las Cruces, N. M., and to establish their interests therein, or the mineral character thereof.

JOHN L. BURKHIDE, Register.

Nov. 12-Dec. 10.

Notice of State Land Selections

Department of the Interior United States Land Office Roswell, New Mexico.

November 1, 1915

Notice is hereby given that the State of New Mexico, under the provisions of the Acts of Congress approved June 21, 1898 and June 20, 1910 and acts supplementary and amendatory thereto, has filed in this office selection lists for the following described lands:

List No. 6366 Serial No. 02370 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02371 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02372 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02373 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02374 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02375 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02376 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02377 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02378 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02379 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02380 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

List No. 6320 Serial No. 02381 NE 1/4, Sec. 20, Tp. 9-S, Range 10-E, N. M. P. Mer. 100 acres.

Notice of Application for Survey

Notice is hereby given to all parties interested that the State of New Mexico has applied for the survey of the following lands:

Sections 1, 2, 3, 4, 5, the north 1/2 of Section 6, 10, 11, 12 Township 5 south range 13 East;

also the exclusive right of selection by the State for sixty days, as provided by the act of Congress, approved August 19th, 1904, (32 Stat., 201), and after the expiration of such a period of sixty days any land that may remain unselected by the State and not otherwise appropriated according to law shall be subject to disposal under general laws on other public lands. This notice does not affect any adverse appropriation by settlement or otherwise, except under rights that may be found to exist prior inception.

Dated at Santa Fe this 9th day of October, 1915.

W. C. McDONALD, Governor of New Mexico.

Oct. 15 - Nov. 12.

OUR PUBLIC FORUM

R. P. Schwerin On the Seaman's Bill

The American fishermen are interested in sea commerce. It is expensive and likewise humiliating to have to salute a foreign flag every time a farmer wants to ship a bushel of wheat, a bale of cotton or a pound of farm products across the ocean. The American farmer is entitled to the protection of his flag in sending his products across the sea, and Congress should give such encouragement to shipping interests as is necessary to meet foreign competition in ocean commerce. A recent bill known as the Seaman's Bill became a law under the President's signature and Mr. R. P. Schwerin, vice-president of the Pacific Mail Steamship Company, when asked to define this law and outline its effect upon American steamship lines, said in part:

"The bill provides that no ship of any nationality shall be permitted to depart from any port of the United States unless she has on board a crew not less than seventy-five per centum of which, in each department thereof, is able to understand any order given by the officers of such vessel, nor unless forty per centum in the first year, forty-five per centum in the second year, fifty per centum in the third year, fifty-five per centum in the fourth year after the passage of this Act, and thereafter sixty-five per centum of her deck crew, exclusive of licensed officers and apprentices, are of a rating not less than able seamen."

"The oversea trade of the world is competitive, therefore the original cost of the ship and the operation of the ship have to be reckoned with in the keen competition of these rival nations with one another. The Oriental sailor is obedient and competent and is the cheapest sailor in the world. It is therefore manifestly clear that if this law applied to all nationalities in the transpacific traffic,

Winter is fast settling down on blood-stained Europe, and to a certain extent, at least, operations will not be on such a scale as during the past six months. However, it appears that all combatants are taking time to spit on their hands and making preparations for a still more destructive and bloody war next year. No evidence exists that either side is thinking of quitting.

Mexican affairs continue to be pretty badly jumbled, notwithstanding the recognition that has been accorded the Carranza government by all the Americas. Nevertheless, Carranza holds the greater part of the republic and appears to have his enemies on the run, and it is possible that he may be able to bring peace to his unhappy country.

A British peer, speaking in parliament one day this week, made the startling statement that 15,000,000 men had been killed, wounded or otherwise put out of business during the past fifteen months of war. If his figures are correct it is pretty evident that the censors have been the busiest men engaged in the conflict.

Absence of a drought in Australia the year just passed does not seem to have affected the wool market, although its presence last year, according to Senator Catron, saved the sheepmen of this country. The senator must be wrong somewhere in his computation.

The English are shocked to learn that Uncle Sam objects to his sea policy. This is about the fourth time your Uncle Samuel has shocked the sensibilities of the British.

It is now reported that the Russians are holding the Germans and will let General Winter finish the job.

The proposition of the United States government to spend a half a billion dollars on the armaments and the navy should use a large quantity of raw material. The plan proposes the building of a large number of ships of various classes and, if carried out, will afford ample protection to our seaboard in case of attack.

The submarine activities of the Germans seem to have been transferred to the Mediterranean. They have a legitimate field of operations there, against English, French and Italian war vessels. If they confine their actions to sinking war craft of their enemies neutral nations can and will interpose no objections.

Australia has produced one of the biggest wheat crops in its history. As it requires some moisture to produce wheat, it is safe to assume that Senator Catron's drought didn't strike there the past season.

It appears almost certain now that the Austro-German drive will land them in Constantinople. British and French troops have been sent to the aid of the Serbians, but strategists believe it is too late.

It required the use of fifteen thousand words for Secretary Lansing to tell Great Britain what he thought of her actions, but from the howl Johnny Bull set up he must have hit the bull's eye.

Statistics show that we are exporting goods to the amount of \$300,000,000 per month. The American farmer and stockman are receiving a big share of these millions.

CARRIZOZO NEW MEXICO

State Students Both Non-"hazy," Non-lazy

The faculty of the University of New Mexico was annoyed and for a time concerned, Albuquerque people were interested and members of the university freshman class highly amused this week when one of the Albuquerque papers printed a story to the effect that hazing of freshmen had been introduced at the university. The state university has few rules of conduct for students. They are expected to know how to behave; but there is a rule against hazing and it is now and has for years been enforced strictly. The alleged hazing had its foundation in the appearance of the freshmen, men and women alike, a few days ago, wearing little skull caps on the backs of their heads, of a startling yellow that can be seen for blocks. The story was that the freshmen were being forced to wear the caps by the upper classmen.

This year's university freshman class of nearly 100 is stronger numerically than the rest of the classes put together; and is also proportionately powerful physically. The idea that any upper classes would undertake to haze them struck the freshmen as funny. Any hazing, they intimated, would be more likely to be done by them. The facts are that the freshmen voluntarily adopted the amazing yellow headgear as a means of identification among themselves and to foster class spirit. On organizing, all members of the class agreed to wear the caps during the year. They have proved so popular that their adoption as a permanent class custom seems likely. The cap is without class numerals, its color being considered sufficient identification.

Notice of State Land Selections
DEPARTMENT OF THE INTERIOR
U. S. LAND OFFICE, Fort Sumner, N. M.
September 30, 1915
Notice is hereby given that the State of New Mexico, by virtue of the Acts of Congress approved June 21, 1908 and June 20, 1910, and the acts supplementary and amendatory thereto, has filed in this office selection lists for the following described lands:
List 612. Serial 02020 W1/2SW1/4, Sec. 31, T. 4 S., R. 10 E. and NE1/4SW1/4, Sec. 12, T. 5 S., R. 10 E., N. M. P. M., 120 acres.
Protests or contents against any or all of such selections may be filed in this office during the period of publication, or at any time thereafter before final approval and certification.
A. J. EVANS, Register

Oct. 22--Nov. 19, 1915.
Lien Selection No. 3114 (011977) Las Cruces, N. M.
Notice is hereby given that on March 17th, 1909, Andrew M. Patton, whose Post Office address is 101 York Street, Denver, Colorado, made application to select under the Act of Congress of June 4th, 1877, (24 Stat. 39) the following described tract of unsurveyed government land, described by metes and bounds, then supposed to be, and now by official survey definitely established to be the South West quarter (SW1/4) of the North West quarter (NW1/4) of Section Sixteen (16) the North East quarter (NE1/4) of the North West quarter (NW1/4) of Section Twenty-one (21) the North West quarter (NW1/4) of the North West quarter (NW1/4) of the South East quarter (SE1/4) of the North West quarter (NW1/4) of Section Twenty (20) in Township Nine (9) South, Range Eight (8) East, New Mexico meridian.
All persons claiming said land adversely, or desiring to show it to be mineral in character, may file objections to such location or selection with the local officers of the land district wherein said land is situated, namely, the Register and Receiver of the United States Land Office at Las Cruces, New Mexico, and may establish their interest therein or the mineral character thereof.

HANDICRAFT FOR BOYS AND GIRLS

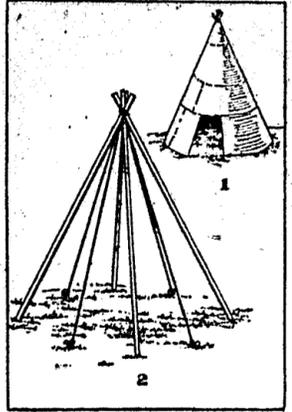

By A. NEELY HALL and DOROTHY PERKINS

(Copyright, by A. Neely Hall.)

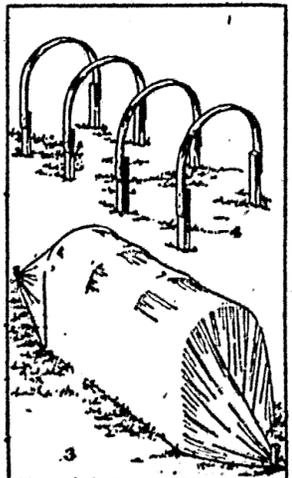

FOR BACK-YARD CAMPING.

We cannot all go camping in the woods, but there is opportunity for every one of you boys to build a camp in the back yard or a nearby lot.

Best of all, the near-to-home camp requires no equipment other than what you can prepare with materials that can be picked up around home. There is the tepee shown in Fig. 1; for example, made of clothes poles, clothes line and old pieces of cloth. You can likely borrow four clothes poles for the purpose, as you will in no way destroy them. Stand these poles on the ground with their lower ends spread five or six feet apart, and their upper ends crossed as shown in Fig. 2. Then, taking pieces of clothes

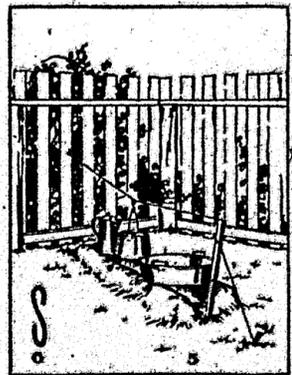

line, or any other heavy rope, tie them to the upper crossed ends of the poles, and run them down and tie to stakes driven into the ground half-way between the poles, as shown in Fig. 2. Figure 1 shows the framework covered with odd-sized pieces of cloth. The torpedo-shaped shelter tent shown in Fig. 3 is a new form that I have devised for you boys. Four barrel hoops and eight two-foot stakes are needed for its framework, and enough cloth to cover this.

Open the barrel hoops where their ends are joined, and nail each end of each hoop to one of the stakes. Then drive into the ground the other end of each stake of the frames thus formed, placing the frames in line with one another and about eighteen inches apart. The covering material must be made long enough to extend sufficiently beyond the framework to increase it in the manner shown in Fig. 3. Drive a stake into the ground about eighteen inches away from each end of the framework, to fasten the covering to.

A small campfire can be built with safety in the back yard if you make a fireplace like that shown in Fig. 6, with earth banked up on each side to keep the fire within a confined area. Bank up the earth in the form of two ridges, with four or five inches between the ridges at one end, and about twelve inches between at the other end. A coffee pot and other

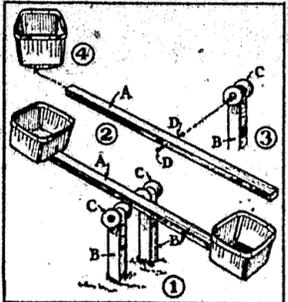

small utensils can be stood over the fire at the narrow end, and larger receptacles at the wide end. Pots may be hung over the fire by fastening a wire above it in the manner shown, and sending pitheeks similar to that shown in Fig. 6, out of wire, by which to suspend the pots.

A DOLL'S TEETER, MERRY-GO-ROUND AND FERRIS WHEEL.

The teeter (Fig. 1) requires a stick 24 or 30 inches long and two inches wide, for the teeter board (A, Fig. 2), two short sticks for supports (B, Fig. 1), a spool bearing for the top of each upright (C), and a berry box for each end of the teeter board.

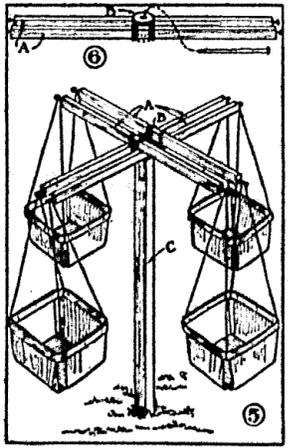

Locate the center of the length of stick A, upon each edge, and then drive a nail into both edges at this point (D, Fig. 2). Drive uprights B into the ground three inches apart.

then, after slipping spools C over uprights D, bind them to the tops of uprights B.

The form of merry-go-round shown in Fig. 5 is sometimes called the "flying airships." The toy requires four sticks about 24 inches long for cross arms (A, Fig. 6), a spool for a hub (B), a stick 24 inches long for a center upright (C), four berry boxes for cars, and some string and nails.

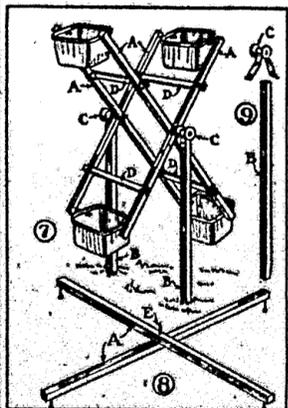

First bind a pair of the cross-arm sticks A to the sides of the spool (Fig. 6), placing the spool at the exact center of the length of the sticks, and wrapping the string tightly around the sticks so the spool cannot turn. Then cross these sticks with the other pair, and bind this second pair securely to the first, as shown in Fig. 5. Drive a nail into the end of each cross arm. Then, after driving the

center stick C several inches into the ground, pivot the spool hub to its top with a nail.

For the Ferris wheel shown in Fig. 7 you will need four sticks 30 inches long for cross arms (A), two sticks 24 inches long for supports (B), a pair of spools for bearings (C), four sticks ten inches long for connecting braces (D) and four berry boxes.

Cross the sticks A at their exact centers, in pairs, and drive a nail through the exact center, as shown in Fig. 7. Use a long enough nail so the point will project about one inch and one half, as shown at E. To keep the sticks at right angles, bind their centers with string passed diagonally around them as shown in Fig. 7. On the face opposite to that on which nail E projects, drive 2-inch nails into the cross arms near their ends, as shown in Fig. 8, on which to hang the cars.

Then, after driving the supports B into the ground about ten inches apart, bind the spool bearings C to their tops, slip the nails E of the cross arms into spools C, and brace the framework by binding the strips D to them, as shown in Fig. 7. After the braces have been put on, all that remains to complete the Ferris wheel is to cut off of holes through opposite sides of the berry boxes, large enough for the nails in the ends of cross arms A to slip through.

Implement Generally Used. "Sir, we are starting a new railroad and want your daughter to drive the first spike." "I have no doubt she will consider it an honor to officiate." "Thank you. We have provided a small gold spike. Also a silver hammer." "One minute. I don't think she could drive a spike with a hammer. Better provide a hair brush."

SAVED MINISTER'S LIFE.

Rev. W. H. Warner, Frederick, Md., writes: "My trouble was Sciatica. My back was affected and took the form of Lumbago. I also had Neuralgia, cramps in my muscles, pressure or sharp pain on the top of my head and nervous dizzy spells. I had other symptoms showing that my kidneys were at fault, so I took Dodd's Kidney Pills. They were the means of saving my life."

Dodd's Kidney Pills, 50c per box at your dealer, or Dodd's Medicine Co., Buffalo, N. Y. Dodd's Dyspepsia Tablets for indigestion have been proved, 50c per box. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free.—Ad—

Getting Even. "The cook asked for a week off to get married, so I gave it to her." "I don't think I would have done that. You can't spare her very well now." "I know I can't, but it was the only way I saw to ever get even with her."

And a lot of people would rather believe a lie than the nude truth.

Roofs don't wear out—they dry out. When properly made they dry out very slowly and give the best service.

Certain-teed Roofing

Made with soft center asphalt and coated with a harder blend of asphalt, which keeps the soft saturation within—the life of the roofing—from drying out quickly. Guaranteed 15, 10 or 15 years according to thickness—guarantee backed by the Largest Roofing and Building Paper Mills in the World. Sold in your town at reasonable prices by your own dealer whom you know. General Roofing Manufacturing Co. World's Largest Manufacturers of Roofing and Building Paper.

HAD REAL IDEA OF ECONOMY

Jap Explains How Family Was Enabled to Use One Fan Two or Three Generations.

Among the Japanese economy is held to be a high virtue. Two old wisers of Tokyo were one day discussing ways and means of saving. "I manage to make a fan last about twenty years," said one, "and this is my system: I don't wastefully open the whole fan and wave it carelessly. I open only one section at a time. That is good for about a year. Then I open the next, and so on until the fan is eventually used up." "Twenty years for a good fan!" exclaimed the other. "What sinful extravagance! In my family we use a fan for two or three generations, and this is how we do it: We open the whole fan, but we don't wear it out by waving it. Oh, no! We hold it still, like this, under our nose, and wave our face!"—Everybody's.

CUTICURA SOAP BATHS

Followed by a Little Ointment for Baby's Tender Skin. Trial Free.

They afford infants and children great comfort, permit rest and sleep and point to speedy healing of eczemas, rashes, itchings, chaffings and other sleep destroying skin troubles. Nothing better at any price for the nursery and toilet. Sample each free by mail with Book. Address postcard, Cuticura, Dept. XY, Boston. Sold everywhere.—Adv.

Enterprising White. A writer gives a little sketch of black and white in Natal. He tells how he came across a white boy, some fourteen years old, and a group of raw natives playing a game. They were shooting with an old muzzle-loading shotgun at a bottle on the top of a case. When the youngster smashed a bottle he received a "tucket" (a threepenny bit) from the natives. When a native hit it he received threepence from the boy.

"That seems a funny sort of game," remarked the witness to the boy. "Oh, the game's all right, sir," replied the lad. "You see, I load the gun."

Not Here. She was looking for an apartment. "It must be in a first class neighborhood," she said, "and it must have ten large rooms, three baths and all modern improvements, and I won't pay a cent over \$40 a month." "I know the very place you're looking for," replied the agent, "but if you want to find out how to get there you'll have to consult a clergyman."

Explanation. "What's an automobile lunch?" "Why, the kind you see put up all ready for a motor trip."

The Test. "I have been chasing a smuggler." "I call that a pursuit of duty."

Period of Romance Ended.

"No more shall I hear his footsteps on yonder walk just as the clock strikes eight." "Gracious Jeannette!" "And the old parlor light will never burn low for him again." "You don't mean it?" "I do; and, furthermore, he will never sit on this sofa three nights a week and call my pet names, as he has been doing for two years." "I am astonished!" "And tonight I am going to burn all the old love letters in my chest of drawers." "But why? Are you going to discard him?" "Discard him? Why, you goose, I am going to marry him!"

Too Much for Them. It was a minstrel performance, and in the intervals between the songs the usual jokes were being perpetrated. "What am de difference between an old maid and a married woman?" asked Sambo. "I dono give it up," replied Bones. "Why," exclaimed Sambo, "de old maid am lookin' for a husband every day, an' de married woman am lookin' for 'im every night!"

There was a pause, and several elderly gentlemen got up and stole softly into the night.

What He Used Them For. Customer—I want another fire extinguisher. Used the last one all up last night. Clerk—Glad to sell them to you, sir, but aren't you rather careless at your place. That is the third one I've sold you in a week. Customer—Oh, I don't use them for fire. They are the greatest thing on earth for chasing out your daughter's late callers.—Judge.

No Compromise. "Is Jiggers consistent in his vegetarianism?" "I should say he is. Why, he won't even eat cabbage, because it is so intimately associated with corned beef."

The Menu. "My friend is a woodman." "Then why not order chops?"—Baltimore American.

Why They Didn't Go.

"How did it happen you didn't go away during the summer?" I thought you were having an extensive outfit prepared for you?" "That was the trouble. By the time I got the outfit paid for I didn't have any money left."

Makes the laundress happy—that's Red Cross Blue. Makes beautiful, clear white clothes. All good grocers. Adv.

The silk hat falls too often into the hands of those who are strangers to the art of scenic inventors.

LOCAL & PERSONAL

R. E. Warden was in town Tuesday from his Ancho ranch.

Mr. and Mrs. Neighbauer were in town yesterday from their ranch beyond the mal pais.

F. R. Miller, government inspector, expects his wife to arrive from Roswell in the next few days. They will occupy the residence now occupied by Mr. and Mrs. Chisholm, the latter going to Tucumcari.

Mr. and Mrs. A. A. Highfill left Tuesday afternoon on their return to Hot Springs, Sierra county, their present home.

Brent Padén and Peter Johnson, Jr., returned Sunday from the Jicarillas, bringing with them a two-year-old buck of the black tail species. This was the first we have seen this season.

Work on the J. M. Taylor residence, located near the Athletic park, is going right along.

A fire in White Oaks one day last week destroyed Will Owens' barn, in which he had stored a winter's supply of feed. The dwelling was also threatened but was saved by hard work.

Morris B. Parler returned to El Paso this afternoon. He has been at Parsons the past week and after a short visit to the northwest may return and devote his efforts to the development of the Parson's country.

Chaplain Freund and Dr. Barrett came over from Fort Stanton Tuesday morning and went to El Paso that afternoon. They expect to return tomorrow.

Mrs. J. B. French entertained the card club last Friday evening, at which Mrs. Edward L. Medler was the honor guest.

Jim Gonzalez has been here the past week from Hondo, where his car has been undergoing treatment in hospital.

Jno. B. Baird has had a tussle the past week with a derangement of the stomach. He is able to be up and around now, but is not endeavoring to make any record runs.

Clement Hightower returned Sunday to his home at Hondo, after spending several days here.

Mrs. H. B. Dawson and little baby daughter returned Monday night from Alamogordo.

The county commissioners met in special session Monday, all members present. No contract was let on the heating plant, neither was the old court house sold at Lincoln, as satisfactory bids were not received.

Marshall West and Roland Box drove over today in a new Ford from their home on the Little creek. Mr. Box is only here temporarily, as he has moved to Palomas Springs.

Mr. and Mrs. A. J. Rolland, Misses Kittie Reily, Bella Lutz and Lina Parker visited Fort Stanton last Friday, returning the day following. They were guests of the commanding officer and family.

Quite a number of our people are arranging to go to El Paso next week to see the Liberty Bell. This famous old bell, which announced the adoption of the Declaration of Independence in 1776, has been on exhibition at the San Francisco exposition and is now on its way to Philadelphia, its permanent resting place. Large crowds have gathered all along the route to see this clarion of American liberty and the ceremonies attending its stops at various points have been impressive and patriotic.

Mrs. William C. McDonald left Monday night for Santa Fe, accompanied by Mr. and Mrs. George L. Ulrick and Miss Lina Parker. The two latter will be guests of Mrs. McDonald during Mr. Ulrick's engagement with the state tax commission.

Paul Mayer, of White Oaks, was an attendant upon the special session of the commissioners court Monday.

For Pen and Asylum District Court Adjourns

Sheriff Chavez and Deputy Loughrey left Thursday for Santa Fe with three prisoners who were recently sentenced to the penitentiary. Deputies Lalone and Sisneros left the same day with three persons for the insane asylum at Las Vegas. The names and sentences will be found in the court proceedings published elsewhere in this issue. The sheriff's party went in an automobile, while those bound for the asylum went by train.

Miss Mercedes Thompson

Will appear in the Baptist church on the night of November 25th at 8 o'clock for the benefit of the building society of the church. Miss Thompson has appeared in many states and has pleased large audiences wherever she has been. She chooses and arranges her own material, adopted from plays and books by the best authors, and possesses flattering testimonials as an entertainer. Be sure to see and hear her on the 25th inst.

Not a Square Deal

The News does not make a practice of using its columns to "get even" with some one, nor does it consciously permit others to do so. Last week, however, we received a communication with a signature attached whose authenticity has since been denied. It was not serious so far as the item itself was concerned, but its seriousness lay in the fact that the News was used to disseminate wrong information, and further, and more criminal, an innocent person's name was signed to the article. This made it even worse than if the writer had sent in the item anonymously.

Dan Freeman and Henry Hoffmann returned Sunday from a hunt in the Berhado Gap country, but without any visible evidences of success.

The first real wintry weather for the season struck us this week. The thermometer made a radical drop—some distance below freezing—and if it had not been clear and still it would have been much more noticeable.

Bowen Zumwalt, the pipe line man, was in town yesterday. Bowen killed a big buck on Lone mountain this week and has, therefore, secured his big game allowance.

Mr. and Mrs. William Chisholm expect to leave tomorrow night for Tucumcari, to be absent about one month. Mr. Chisholm has a suit pending in El Paso against the El Paso and Southwestern for damages, as a result of an accident in which he lost the use of a hand, last summer.

A break in the press room today delayed the appearance of the News. We are late at times without a reasonable excuse, it may be thought, but now as we have an alibi we hasten to spring it.

The fall term of District Court for Lincoln county formally adjourned Wednesday night, and Judge Medler and other court officials left the day following for their respective homes. It was a strenuous session, notwithstanding opinions to the contrary expressed in some quarters, night sessions being the rule, and every delay possible avoided. The following shows the disposition of cases since our last report and the sentences imposed by the court on those convicted during the term:

About 20 of the 30 indictments for failure to send children to school were disposed of, the defendants entering a plea of guilty and a suspended fine of \$5 imposed.

Elias Baca acquitted on a charge of assault with a deadly weapon.

Elaunorio Venegas convicted of assault with a deadly weapon and sentenced to not less than one year nor more than eighteen months in the penitentiary.

Julian Guerrero acquitted on the charge of burglary.

Daniel Sandoval was convicted on a charge of larceny and given a sentence of four to five years and to pay a fine of \$500 and costs.

Ross Connor vs. Clement Hightower, et al., injunction against defendants continued in force.

A. A. Highfill was sentenced on a plea of guilty to the charge of assault with intent to kill, for a period of from two to three years; sentence suspended at the discretion of the court.

State dismissed case against Lee B. Chase, charging embezzlement.

Mrs. A. M. Mathews vs. Carrizozo Cattle Ranch Co. Injunction against defendant dissolved; opinion of court shows Jakes spring to be upon land belonging to defendant.

Ayers vs. McIvers, appeal to supreme court granted.

The following persons were sent to the asylum for the insane at Las Vegas: Mauricia Martinez, Alcarlo Barnes and Francisco Hernandez.

Miguel Luna, assault with intent to kill; verdict of guilty; sentenced to not more or not less than 18 months.

Adjourned sine die.

Lute A. Skinner was down the early part of the week with some products from his Mesa farm, consisting principally of pork.

Maxwell and Lahaan are preparing to erect a dwelling on their ranch in the Gran Quivira country. Frank A. English has the contract.

Joseph Cockran was in the burg today. He and Tom Bragg had been on a bear chase in the Three Rivers country. The dogs found sufficient evidence of the presence of bruin, but the hunters themselves failed to get a sight of him.

Tom McDonald spent the greater part of last week here, as a witness on the Jakes Spring litigation. Mr. McDonald reports the range fine and cattle in good condition on his ranches in the Mocking Bird Gap country.

Governor McDonald left yesterday for Santa Fe, after a week's stay here. The governor was engaged while here looking after his interests at the ranch and also before the court, where he was a litigant in an important suit.

Miss Cole Wins

Miss Cora Cole was awarded the diamond ring by the carnival company last week, mention of which was not made at the time. The contest between Miss Cole and Miss Opal Morse was very close throughout the week, and Saturday night only a few votes separated them. However, Miss Cole's friends had held back a large number of votes and when the final count was made she was shown to be the victor by a safe margin.

Harry B. Dawson has purchased two lots across the alley from his residence, and is erecting a garage thereon. He intends later, we understand, to erect a cottage for rent on the same lots.

Instruments Recorded

DENNY & OSBORN, ABSTRACTORS
