

Millennium Tags Heels Europe War, Prediction

Mr. John W. Harrison, old-time friend of many of us in Lincoln county, writes in answer to our editorial of two weeks ago, "After the War, What?"

BY JOHN W. HARRISON The error made by Bishop Usher in fixing the date of the birth of Christ on January 1st, A. D. 1, has been the chief cause of the great confusion that has arisen in the interpretation of the time prophecies given in the Book of Revelations. Now that it has been definitely established that Christ was born in October of the second year preceding A. D. 1, no further difficulty is encountered.

St. John states in Revelations, chapter 4, that he was taken in the Spirit into the Temple of God, and he saw in the hands of Him who sat upon the throne a book written on the inside and back thereof, sealed with seven seals.

The whole context shows that book contained the written history of the Christian Era, written by Christ himself and sealed with His own hands. St. John states no one was found in heaven or earth who could break the seals except the Lamb of God, our Lord, Jesus Christ.

Now, on the breaking of each of these seals, St. John gives us a symbolic prophecy of the spiritual condition of Christian nations during the time covered by each seal.

Again to emphasize this division of the Christian Era into seven parts, he symbolizes it by the blowing of seven trumpets, and under the blowing of each trumpet gives us a prophecy of the most important worldly event that shall occur in Christian lands during the period covered by the blowing of that trumpet.

History so absolutely fixes the date of the fulfillment of each of the prophecies given under the blowing of the seven trumpets, that it is definitely established that each trumpet covers a period of 280 years, or 1960 years from the date of his birth in October of the second year prior to A. D. 1, to the date of the establishment of His kingdom on earth in 1959, as we now measure time.

Again, St. John divides the period covered by the blowing of the seventh trumpet, which began in 1679 A. D., into seven equal parts, covering exactly forty years each, symbolized by the pouring out of the seven vials of the wrath of God. The first two were poured out upon Western Europe to force the emigration of the last remnant of the seed of the woman to this country.

The third was poured out when Martin Luther arose against the safe indulgences by the Roman Catholic Church.

The fourth vial was poured out upon France, causing the French revolution, when God veritably gave them blood to drink.

The fifth was poured out on the seat of the beast, resulting in the complete overthrow of the temporal power of the Pope, who convened the Ecumenical Council of his church and promulgated the dogmas of the infallibility of the Pope.

The sixth vial was poured out in 1879 upon the Great River Euphrates. This will terminate in 1919, with the total overthrow of every Gentile nation in Europe; the total destruction of the Turks, as prophesied by Daniel, and the overflow of Europe and Asia Minor by hordes of Pagans, the

Fort Stanton

Chaplain Frund spent last Sunday with Rev. J. H. Girma at Lincoln.

Christmas time at Fort Stanton this year promises to be exceptional in the way of activity among the residents. Already plans are being made for dinners, entertainments, religious services, etc.; so many, that all through the holidays we will be entertained the same, if not better, than if we were residing in some city.

We were delighted to have with us last Friday evening to see "Officer 666" at the local theater Messrs. George Titsworth and John Norton and their escort of office and store clerks from the popular Titsworth Company's store at the mountain resort.

Our commanding officer has approved of some twenty-five of the leading magazines, which have been subscribed for through a private fund for the Post library.

Mrs. A. V. Sitton, of Jitney avenue, has kindly given us a bit of information which we feel is of special interest. In footing up her chicken yard expenditures, receipts, etc., she finds that thirty hens in the past ten months have brought in cash \$125. A splendid showing and something for the ranchers in this section of the country, to sit up and take notice of

Drs. Rouff and Barrett have returned from a week's hunt up near the Indian Agency, with what results? Plenty of experience in camp life, but nothing doing in the game line. Something must have tipped off the beasts as to the crack shooting of the hunters.

Mr. Falconio has just installed a new set of wireless receiving instruments, making it more convenient in receiving the daily news from all points east and west, notably Key West, Arlington and San Francisco.

The present attendants filling the various positions at Fort Stanton are as follows: No. 6, main dining hall and kitchen—Head cook, H. G. Barnes; first assistant cook and baker, George Olivér; second, William Binhauser; fourth, William Hale. Waiters, Messrs. Fredericks, Amiro, Nelson, Casey and Hale. No. 10 (hospital)—Frank Nelson, head cook; George Archuletta, assistant cook; waiter, Chris Abrahamson; orderlies, Messrs. Beckstrom, W. A. Gray and J. Berry. Nurses—Miss E. Cody, head nurse; Mr. Kimbell, night nurse; Ed Sweeney, surgical nurse. Farm—Messrs. J. Dixon, J. Zamora, J. Jiron, P. Shaw, G. Bunting, W. Hale, J. Anderson, L. Avant, H. Soderlund, P. Roudot and E. W. Alton. Painter, J. T. Darby. Yard man, Frank McDonald. Cart men, Mr. Nickel and H. Olsen. Dairy—Messrs. J. G. Goodman, J. Phillips, J. Richards, C. Deason and E. Deason. Plumbers, Messrs. A. W. W. and J. Alston. Dispensary attendant, W. Lindsay. Carpenters, Messrs. F. Brockway, Sr.; E. W. Burke and R. Brockman. Ranger riders—Messrs. J. Able, B. Coe and B. Swan. Poultry man, W. B. Brewer.

City Comforts For Out of Town Customers

To soften and whiten rough, chapped hands, apply Witch Hazel Lotion (25c and 50c sizes) at night, rubbing well and putting on a pair of rubber gloves (35c a pair). In this way the roughest hands will be made smooth and white. Sent postpaid to any address. Mail order department, The Warner Drug Co., El Paso, Texas.

San Patricio

Thanksgiving has come and gone and we are still living but we finished the turkey.

There was quite a family reunion at Mr. Wootson's Thanksgiving day. Mrs. N. M. Stover, Mr. Austin Reeves and family, and Miss Della O'Kelly, from Penasco, and Mr. J. J. Reeves and family, Mrs. Jim Jackson and Miss Hoard, from this part of the country being there. Needless to say it was an enjoyable dinner.

Mr. and Miss Pike visited at Jim Jackson's last week.

Jim Jackson came down last Friday and got three loads of Mr. Wootson's fine hay.

Mrs. Allie Posey, of James canon, near Cloudcroft, is visiting her father and mother, Mr. and Mrs. Whitt.

Austin Reeves and family, from the Penasco country, visited his brother, J. J. Reeves, and other relatives and friends on the river over Thanksgiving.

Mrs. N. M. Stover, from the Penasco country, visited her daughter, Mrs. J. J. Reeves, and her son, Allie Stover, of Hondo, over Thanksgiving.

Mrs. Cole and two sons, of Carrizozo, are visiting on the river.

C. D. Morrison recently lost a calf from blackleg.

Mr. Whitt has gone to Cloudcroft for the lumber to build his blacksmith shop. On his return from there last week, he brought his tools. He expects to be ready for business in a short time.

Buster Wootson is hauling Mr. Kirkland's apples to Roswell. C. D. Morrison started with a load of them today, as did Arthur Wootson and J. J. Reeves. Mrs. Wootson also drove a wagon. Tom Jones started with his load Sunday. Altogether they expected to take 545 boxes this trip. It is quite a haul to Roswell and the expense eats up much of the profit on the apples. We believe if the people up and down this river and the Bonito would get together and lay the matter properly before the railroad officials, that the E. P. & S. W. could be persuaded to extend its Capitan branch on down to Hondo or even farther. If the E. P. & S. W. would not do it, the Santa Fe might be induced to build up the river to Hondo or farther. The freight is here, and we doubt

Parsons

Mrs. Will Hightower and children, of Alto, spent Thanksgiving with Mrs. Hightower's parents, Mr. and Mrs. B.R. Robinson.

An old fashioned Thanksgiving dinner was enjoyed at Grandpa Robinson's and about as many of the children and grand children as the house would hold were there to dispose of the good things to eat.

The Thanksgiving entertainment and dinner at the school house Wednesday evening was a great success. Besides most of the people of the community being present there were quite a few visitors to the feast. Between thirty and forty people were present including men, women and children, and the babies were not left out. Among those present were the Robinson families, Mr. and Mrs. Ross Bently and children, Mrs. Will Hightower and children, Mr. and Mrs. Jennings and daughter, the Vincent family, and the families of Thomas Bragg and Harvey Lucas, and Mr. and Mrs. Merriam from Parsons. Numbered among the out of town guests were the Skinner girls from the Mesa district, Messrs. Brown, Brack and Keller. Carrizozo was represented by Misses Harriett Kimbell, Johnnie Spiller and Ruth Edmondson. After the supper Wednesday evening all joined in social games and the party did not break up till a late hour.

Mrs. Kimbell and daughter, Harriett, and Ruth Edmondson, returned home Sunday, after a most enjoyable visit to the mountains. Mr. Kimbell was called home Friday by the illness of his assistant.

Mr. and Mrs. Ira Greer were visitors this week at the old Greer homestead. Mr. James Greer was also home for the holidays and a hunting trip.

Mr. and Mrs. A. T. Anderson entertained Mr. and Mrs. Rice and Mrs. Kimbell, Harriett, and Ruth at a past Thanksgiving dinner Friday.

Mrs. Stanley L. Squier was hostess to the Women's Home Mission society Wednesday afternoon. An interesting devotional and business meeting was followed by refreshments served to the representative attendance present. The annual bazaar of this organization will be held Wednesday, December 15, at A. C. Wingfield's market.

In connection with this feature will be held the regular monthly sale of baked articles, Mr. Wingfield having on various occasions tendered the free use of this desirable stand. In the assortment of articles in the bazaar stock will be found many attractive pieces, and the baked good things have always found a ready sale. The ladies solicit your generous patronage.

A quartette of horse buyers have spent the past week here, looking over a bunch collected by the Finleys, Trude and Reily. The purchases are for the French army and the shipments from this county will total about 800. Most of the horses are for cavalry mounts, although some of the heavier class have been taken to be used for artillery.

The output of tungsten by the White Oaks mines is now being hauled to this point instead of to the Rohart siding, six miles above town. The haul is longer to this station, but better accommodations and a chance for a load on the return probably caused the change.

Bakery Goods Delivered

Phone 37 for Cinnamon Rolls, Cakes, etc.—Pure Food Bakery.

very much that the E. P. & S. W. people would or could remain idle and let the Santa Fe tap this country with a branch from Roswell. We are for it and believe the prospect is worth a trial.

STATE BANK REPORT Report of the Condition of the EXCHANGE BANK OF CARRIZOZO, NEW MEXICO At the Close of Business November 10, 1915

Sunk Well, Anyway

William and Frank Keehn were here Monday from Palma, Torrance county, where they had just completed a well, under contract with the state, the well having reached a depth of 500 feet, but without encountering water. The boys left the same day to return to Palma, and will begin another test well for the state. For more than 300 feet they had drilled the 500-foot well, which had been filled with scrap iron and pieces of steel, and all attempts to extract the objectionable matter were futile. However, the drilling continued and the contract was completed, notwithstanding the presence of the scraps of iron and steel.

The following from the Santa Fe New Mexican shows to what length the Keehns had to go to protect their work, and which may be operated in that section:

A "shotgun trap" for the men who have been plugging the test wells being bored for the state on state land near Palma, in northeastern Torrance county, has been set by the contractor, Frank Keehn, and his two brothers, who are helping him, according to news received here from the well drilling camp. It is stated that after the days' drilling is over the Keehns now plug the well opening with a wooden block, which is attached by a concealed wire to the trigger of a shotgun placed in such a position that anyone attempting to pull the plug will receive the charges from both barrels. According to reports, the trap has been set in such a way that it would be impossible to remove the wooden plug or cut the connecting wire without discharging the shotgun.

As announced in the New Mexican Saturday, two wells started by the Keehns were plugged by unknown parties by dropping pieces of iron into the drill holes.

White Oaks Couple Weds Mr. Clarence Palmer and Miss Edith Wells, accompanied by Mrs. Samuel Wells, Mrs. Will T. Coe and Mr. McMillan, motored to Carrizozo December 1st, where Miss Wells and Mr. Palmer were married at the parsonage by Rev. E. D. Lewis.

The wedding supper was served at the bride's home at White Oaks Springs. The house decorations were carried out in the Christmas color scheme. Only the immediate families of the bride and groom were present. Mr. and Mrs. Palmer left directly after the supper for their new home. The bride's dress was of ivory white satin and crêpe de chine.

Ore Hauling Contract William Barnett has been awarded the contract for hauling ore, timber, etc., for the White Oaks Mines Consolidated. Ore is to be hauled from the mines to the point of shipment. A large amount of timber and lumber is to be hauled for the purpose of retimbering shafts.

A shipment of seven tons of tungsten was made from here yesterday. Its value runs into the thousands—just how much we refrain from stating, for we might miss it several thousand dollars.

Horse Buyers Here

The output of tungsten by the White Oaks mines is now being hauled to this point instead of to the Rohart siding, six miles above town. The haul is longer to this station, but better accommodations and a chance for a load on the return probably caused the change.

Notes of the Carrizozo School

The big convention of the N. M. E. A. at Albuquerque last week was a success from every standpoint. Carrizozo was represented with its entire teaching force and the superintendent of Lincoln county schools. The display work of this school was especially well recognized in the awards of ribbons of merit; in fact, more articles were ribboned than rejected, although many pieces of genuine merit escaped the attention of the judges, who were no doubt confused by the miscellaneous array of everything it is possible for a school boy or girl to manufacture or concoct. It is impossible to give the names of all the prize-winners, but their name is legion.

Mrs. H. G. Clunn, supervisor of music, has been confined to her home this week with a severe attack of la grippe, and her physician's instructions have made it impossible for her to discharge her regular duties. Practice has gone on in the music room and the time will be made up as rapidly as possible when Mrs. Clunn is again able to take charge.

Mrs. E. V. Jewett and Miss Hanna Greenberg, who have had rooms at the Donaldson residence since the opening of the school, have taken a suite of three rooms at the Temple house, and will continue light housekeeping there. Mr. and Mrs. Cather have moved to the Peters' residence in Highland Addition.

After all due consideration it was deemed advisable to release from the obligation of her contract, Mrs. Sarah H. Moore, who was offered the principalship of a three-room school near her Albuquerque home, during convention week. The management seriously regrets so many changes in the primary department, but those who best understand conditions are best satisfied with the action taken. Immediate steps were taken to fill the vacancy thus created and Miss Claudia Beadle, of Dexter, N. M., arrived on Saturday evening's mail car, and took charge of this work Monday morning. She has had six years' experience in exclusive primary work and will ably fill the position.

White Oaks Couple Weds Mr. Clarence Palmer and Miss Edith Wells, accompanied by Mrs. Samuel Wells, Mrs. Will T. Coe and Mr. McMillan, motored to Carrizozo December 1st, where Miss Wells and Mr. Palmer were married at the parsonage by Rev. E. D. Lewis.

Subscribed and sworn to before me this 10th day of November, 1915. My commission expires Jan'y 2nd, 1917. FRANK J. BAUER, Cashier. GEO. L. ULRICK, Vice-President. HENRY SPENCE, Director. GEO. L. ULRICK, Director. FRANK J. BAUER, Director. GRACE M. JONES, Notary Public.

HIGHEST DAM IN WORLD DEDICATED

The Arrowrock dam, the highest in the world, was formally dedicated recently at Boise, Idaho, and one of the largest irrigation projects in the country was added to agricultural America. The total area of the land to be reclaimed is 245,000 acres. The dam is of solid concrete, 351 feet high, 1,100 feet long and 240 feet thick at the base.

PEONS SEIZE LAND

Large Estates in Hands of Mexican Laborers.

Will Be Difficult to Oust Them When Peace is Declared—Blow Up Own Huts to Celebrate Their Triumph.

Esque Pass.—Many of the large landed estates of Mexico have already been taken possession of by the peon or laboring class, and it is going to be a hard matter to oust them after peace is restored, according to Americans and others who have fled to this side of the border on account of the chaotic conditions there.

It is stated that labor and socialist agitators are spreading the doctrine all over Mexico that the land belongs to the "common people" and that they have a right to take possession of the farms and ranches. In some localities the land owners have been forced to flee for their lives because of uprisings of their former employees. The peons are being led to believe that liberty of the broadest kind has been granted them.

Manuel Figura, a wealthy Spaniard who owns a ranch and plantation of more than two million acres in the state of Durango, was notified by the spokesman of his employees that they had decided to take possession of the property and that Figura and his family would be given twelve hours to leave the place. In peril of death he fled. The state and district were without semblance of law and order, and he knew that death would be the penalty to himself and family if he stayed. He was informed that it was the plan

HEIR TO ITALIAN THRONE

Prince Humbert is shown in the picture embracing his father, Prince Humbert in King Victor Emmanuel's son and to the heir apparent to the throne of Italy.

SEVEN TEACHERS IN FAMILY

Five Daughters and Two Sons of Retired Indiana Farmer Are Imparting Knowledge.

Worthington, Ind.—Lewis Williams, a retired farmer, and his wife, who live in the southwest part of the town, have five daughters and two sons who are schoolteachers. The children are Joseph A. Williams of the department of philosophy and physiology, State Normal school, Superior, Wis.; Paul E. Williams, principal of the high school at Comstock, Wis.; Mary E. Williams, supervisor of art and drawing in the high school, Richmond; Nina Williams, head of the department of English in the State Normal school, Kent, O.; Clara Williams, teacher of English in the high school, Fort Wayne, Ind.; Rose Williams, teacher of English in the high school, Evansville; Miss Ida Williams, in charge of art and domestic science in the schools, Princeton.

Brownstown, Ind.—C. J. Reynolds of Medora, a mail carrier, has lost a faithful horse. It died standing on its feet, after more than twelve years' work in the rural mail service. During this time it traveled 103,333 miles and hauled 59,000 pieces of mail.

HORSE DIES AGED 53 YEARS

Mail Nag Was Noted Steeplechaser in Texas at Close of the Civil War.

The horse, according to the owner, was about fifty-three years old. Reynolds says at the close of the Civil war, in 1865, the animal was a three-year-old jumper on a Texas race track.

FILMS TO AID SCHOOL WORK

Will Be Used in Lessons to Pupils in All Grades at Deadwood, S. D.

Deadwood, S. D.—B. E. Myers of the Deadwood public schools has announced that he will use motion pictures to co-operate with the courses of study for the pupils of all grades. They will be given through the school year in a theater under direction of the board of education.

Deadwood is said to be the first city in the state to give such movie shows for the scholars.

AND THIS IS FASHION

Time was when the enterprising, zealous, but quaking missionary soothed the black-toothed and black-skinned African chieftain and diverted said chieftain's thoughts from missionary stew with a gift of a silk hat. Whereupon the chieftain promptly sought further decoration and capturing a tropical bird of one kind or another, divested it of its plumage and added same to the glistening hat. Little did that chieftain think that he was really setting the style which the dear ladies of civilized America would some day adopt. But they have. If you don't believe it, glance at the accompanying photograph of a young lady, gleefully wearing just such a hat of missionary design.

But the young woman in the photo has gone King Dom-bowa of Bulawayo island one better. She wears anklets of fur. To be sure the chieftain in all probability also wore anklets, but being a resident of the tropics he doubtless felt more content with anklets of hammered metal, and any missionary who would have added fur to his gift of a silk topper would have got himself into the stew, sure enough. However, the style is more practical in our climate than would be the hammered anklets, after which it is designed.

Look at the photo again. Observe that the smiling young person also boasts of leggings of corduroy. Likewise note that she has fur everywhere, ankles, wrists and about her neck and on her coat collar. Verily, verily, if this is a "sign," it is going to be an expensive year for husbands, for what they save on the hat they will more than lose in the purchase of the expensive fur.

WASHINGTON CITY SIDELIGHTS

Uncle Sam's "Money Laundry" Saves \$300 a Day

WASHINGTON.—"By washing soiled paper money we save the government \$300 every day," said Miss Annie E. Thomas, in charge of the "laundry" of the redemption division of the United States treasury. The laundry machines, of which there are four in Washington and eight in the subtreasuries, have been in operation four years. They are combination washers and ironers. Two girls work at a machine, which is operated by electricity. One feeds the dirty money to the washer and the other catches the clean money as it leaves the ironer.

The bills are laid on a moving belt of wet blanket, which carries them on to meet another moving blanket from a number of rollers in a tank of soapy suds which cleanses and sterilizes them. Then they pass through rinsing water, and on to heated rollers which dry and iron them.

They drop out at the end of the course into the hands of a girl, who scrutinizes each bill to determine whether it is fit to be sent out into circulation. As she asserts the bills she stacks those which she considers perfect into piles ready for the expert counters. When the counts are verified the laundered bills are made into packages containing 4,000 of one denomination and kind, and sealed for redistribution among the banks.

"Public opinion in banking circles is divided," Miss Thomas explained, "on this subject of laundered money. Some of our banks desire new money and stipulate that they will not accept any other, while many banks request the washed bills, saying that they are softer than the others and are easier to handle."

American Bluejackets Best Fed of All Fighters

OUR bluejackets are the best-fed fighting men in the world, and if a boy has any leanings toward enlistment in the nation's defense, he will make no mistake by casting his lot with the men afloat. He may have a hankering for terra firma, but it must not be forgotten that the army is outdistanced by the navy when it comes to the matter of dietary. The daily issue of food either to the soldier or the sailor, out of which three meals are made, is officially called a ration. This allowance for the army costs Uncle Sam between 34 and 35 cents, but last year the average cost of subsisting one man for one day in the navy was \$0.306, Jacky being the higher liver by the purchasing power of nearly 12 cents more than his soldier fellow in the national defense. It is not overstating the case to say that the major part of the fleet's efficiency and the contentment of the men is due, either directly or indirectly, to the generous and varied provender which is now given them whether the ship be in port or plowing her way through stormy seas. There was a time, not long ago, when tinned foods were extensively served on board our naval craft, but the fleet is using less and less of these all the while.

Upon this point Admiral McGowan, chief of the bureau of supplies and accounts, has recently said: "There are certain things that it is almost necessary to use as a part of a ration. For instance, there is canned corn beef, which is so well understood and so well liked in the navy that its use to a certain moderate extent is not only welcome, but most welcome to the men—they like it. Then canned tomatoes and a few other staples; canned fruits and some vegetables canned are very serviceable and are used right along. But the great majority of all the food furnished to the men now, at least in the battleship fleet, is fresh food—fresh vegetables, fresh meats, fresh bread, etc."

Thinks the Snail May Cut the Cost of Living

FROM hippopotamuses to anails is something of a shrinkage, but after advising the American people to substitute the steak of the great pachyderm for that of the western steer—if necessary—E. W. Rust of the federal horticultural board would cut the cost of living with the humble snail.

Mr. Rust, having eaten the luscious if somewhat glutinous gastropod of the genus Helix, proceeded to inform himself with reference to the improved methods of its preparation for table. His latest literary production will no doubt, in spots, be embalmed within the next national cook book to be issued by Uncle Sam. It embodies the recipes for making the snail palatable. First you catch your snail.

If you're sufficiently fleet of foot; you cleanse; you boil in a cauldron of salt water. Now the meat is removed, reduced to paste, seasoned with finely chopped parsley, chervil and shallots—the little hand dictionary refuses to divulge the identity of chervil and shallots—and is placed between two thin slices of unsalted butter. The shells "having been cleaned and dried, they are now stuffed with this mixture. If your stomach permits, you eat. There's nothing nauseating about it—almost everyone who has ever eaten well prepared snails, says Mr. Rust, admits their gastronomic worth, both from the point of nutritive value and that of flavor. They might be used to a great extent as a substitute for oysters, he suggests, which they resemble in flavor when properly prepared.

In the United States small growing would be a simple matter, for all that is required is a bushy hillside or, preferably, a limestone bluff near water and partially covered with vegetation.

Federal Bureau of Standards Is a Wonderland

UNCLE SAM has created a wonderland into which you may be ushered and there observe a grain of sand assume the proportions of a mountain; an inch expand into a mile; an unappreciable zephyr attain the velocity of a howling gale; the footfall of a tiny fly thunder forth like the tread of a draft horse; the heat of a candle expand into that of a roaring furnace; the cheer and comfort of a cozy home fire emanate from the unperceived warmth of a distant star, and the gentle pressure of a finger develop into the force of mighty giants.

This wonderland is the United States bureau of standards, and visitors to the Panama-Pacific exposition have had the chance to see there many of its marvels. Of course all the instruments and appliances of the bureau could not be taken to San Francisco for exhibition purposes.

For instance, it was not practicable to take the huge testing machines used to tear apart the string of steel girders employed in building bridges and skyscrapers, or, if necessary, by the same machine to crush an egg, and in each instance record accurately the foot-pounds or fractions of ounces of resistance.

Remarkable beyond degree are the heat-measuring instruments, which register infinitesimal fluctuations of temperature. A ray of light may have started ten years ago from some distant star, and may have spent all of those ten years to reach the earth; and yet, when the ray of light falls upon the sensitive bolometers operated by the bureau of standards, these will tell the observer the amount of heat that ray from the star brought with it to the earth.

"No!—I Said Calumet!"

"I want what I ask for—I know what it would mean to go home without it. Mother won't take chances—she's sure of Calumet—sure of light, wholesome, tasty bakings—of positive, uniform results—of purity and economy. You try CALUMET Baking Powder—lay aside your favorite brand once and you'll never go back to it. Calumet is the world's best Baking Powder—it's moderate in price."

Cheap and big can Baking Powders don't save you money. Calumet does—it's pure and far superior to sour milk and soda.

On the Right Track.  
"How did you arrive at that conclusion?"  
"By means of a train of thought."

A man never gets over thinking how smart he is to have almost succeeded at anything.

Smile on wash day. That's when you use Red Cross Flag Blue. Clothes whiter than snow. All grocers. Adv.

Idealize a woman and she doesn't care if she isn't understood.

Can't Do the Work

A bad back makes hard work harder. All day the dull throbs and the sharp, darting pains make you miserable, and there's no rest at night. Maybe it's your daily work that hurts the kidneys, for jar-ring, jolting, lifting, reaching, dampness and many other strains do weaken them.

Cure the kidneys. Use Doan's Kidney Pills. They have helped thousands and should do as well for you.

MILLENNIUM TAGS EUROPE WAR

(CONTINUED FROM PAGE ONE)

followers of the Dragon from Northern Asia, and hordes of Mohammedans, the followers of the false prophet from India.

The crisis caused in Europe by the influx of these vast hordes will force the Roman Catholic Church, in 1923, (a date definitely fixed in prophecies)—this organization being the only power left in Europe capable of mustering a force sufficient to meet this yellow peril—to issue an edict summoning to its rescue its followers from the whole civilized world.

Then will follow the battle of Armageddon, and St. John states so vast will be the number slain, "The blood will flow bridge deep to the horses, a distance of one thousand six hundred furlongs." This being the exact distance from Rome to the sea, by way of the river Tiber.

Immediately following this great battle, the ten kingdoms that yielded their support to this church will turn against her, destroy her flesh, and utterly burn her with fire. Revelations, chapter 17. Thus will end all Paganism, all Mohammedanism, and all Roman Catholicism; the three greatest nominal religious organizations on the earth today.

The seventh vial will be poured in the air in 1919, causing the condition of universal anarchy, prophesied by Daniel: "Beginning at that time, there shall be a time of trouble such as never was since there was a nation on earth."

In 1920, the entire labor organizations of Europe will unite and demonetize gold; thus fulfilling the prophecy of St. James, 5th chapter, 1st to 6th verses, in retaliation for the demonetization of silver. And from that date,

not a bond whose principal is payable in gold will be worth the paper it is written on.

In 1920, the women's rights movement will culminate in their securing equal rights with men in all the walks of life. This is the last curse that God will inflict exclusively on the Israelite nations: "Return, ye Virgins of Israel, to these thy cities, for why will ye wander, oh, ye backsliding daughters; for God shall create a new thing on the earth; a woman shall compass a man!" says the Prophet, Jeremiah. And in these words states what will result: "Why do I see every man with his eyes filled with tears; his head bowed down on his knees like a woman in child-birth, fearing those things coming upon the earth?"

The greatest curse found in the word of God is against the amalgamation of the white and negro races. In 1654, Anno Mundi, there was found on the whole earth but one family of pure white blood, Noah and his family. God destroyed all the mixed races by a flood and started the world anew.

Canaan, the son of Ham, had nine sons by his negro concubines. Two of the tribes descended from these sons, God destroyed in Sodom and Gomorrah. The other seven he used to prepare the land of Canaan for the future home of Israel. God ordered the Hebrews when they entered the land to destroy the remainder of these tribes, man, woman and child.

God will again purify the earth by destroying all mixed breeds of whites and negroes, says the Prophet Isaiah: "God shall come down on the earth to destroy the wicked. The earth shall disclose their blood and the earth shall not cover up the slain." The exact date for the fulfillment

of this prophecy is not stated. The last prophecy to be fulfilled prior to 1959 is given in Revelations, chapter 18: "And there shall be a great earthquake such as never was since there was a nation on earth, so mighty and so great; and the cities of the nations fell, and Great Babylon came into judgment before God."

There is scarcely a building above four stories high outside of cities. This earthquake will destroy every building over four stories, and thus will end this great curse of our modern civilization: the concentration of vast numbers in limited areas.

The southern coast of France has sunk five inches in the past fifteen years. Belgium, North Germany and St. Petersburg are perceptibly sinking. These countries will all sink below sea level by 1960, as is now taught by geology.

England is now undermined practically over its entire area for coal, tin and iron. Great Britain will be divided into three parts by this great earthquake: Scotland will be cut off from England on the north, Wales on the south. All the mine pillars now supporting the surface of England will be crushed, and England will slide into the channel of the gulf stream, which is 3000 feet deep, one hundred miles from its western coast. "And I saw an angel pick up a stone and cast it into the sea. In like manner shall this great city be destroyed. For her merchants were the great men of the earth and by their sorceries were the nations of the earth deceived."

During the period of the overflow of Europe by the Pagans and Mohammedans, the movable wealth of Europe will be sent to England for safe-keeping. And thus in one moment will the combined wealth of Europe be destroyed.

After 1960 nature will give up all her secrets and the earth shall bridge forth in such quantities that the poor man shall buy without money and without price. "Blessed be the man that cometh to the 1335th day," says the prophet. This is the year 1965, when all these prophecies shall be fulfilled.

The mystery of God, as taught in Revelations, being the preservation, segregation and identification of each of the Lost Tribes of Israel, was finished in 1799; the date fixed by Moses in Leviticus, chapter 26, when God's punishment of Israel should terminate by the fulfillment, literally, of every prophecy in the Bible given for their identification.

The Japanese are the tribe of Asher. The tribe of Gad has settled Korea and three adjoining provinces in China, and now numbers about ninety million souls. In the past 2600 years this tribe has not produced a single man, known to history, nor as a nation has it committed an act, worthy of historical record. Is it any wonder that Jacob exclaimed, when he saw this tribe, with the eye of prophecy, as we see them today: "Gad, a troop cometh Oh, Lord, I await thy salvation!" That is, if God can see anything in this tribe worthy of salvation, it is more than Jacob saw with the eye of prophecy.

The Poes are the tribe of Reuben. Unstable as water, they have never excelled.

The Danes are the tribe of Isachar, and in the past 100 years have furnished a queen for every throne in Europe.

The Dutch are the tribe of Zebulun. The English, the tribe of Ephraim. The Anglo-Saxons of this country, the tribe of Manasseh. There are sixty-nine prophecies given for the identification of these two tribes, jointly and separately.

The Scotch are the tribe of Naphtali. The Welsh, the tribe of Simeon. The Jews are Judah and Benjamin and half the tribe of Levi; the Hugonots the remaining half of the tribe of Levi.

The tribe of Dan. The Gats of Israel were never lost to profane history.

OUR PUBLIC FORUM

William Sproule On the Employment of the Employer

The employment of the employer is a phase of the labor problem not so well exploited as the employment of the employee but is equally as important to the prosperity of the country. The employer was never known to go on a strike nor to ask for a reduction in hours yet the trend of our legislatures has been to discourage his activities. Mr. Wm. Sproule, President of the Southern Pacific Company, when asked to discuss employment from the standpoint of the employer, said in part: "It is the habit of the time to speak of unemployment as if it related only to those who work for a wage, either hourly or daily, weekly or monthly. It is thought of chiefly as relating to those engaged in the humbler duties of life. The facts run quite to the contrary. It is the employer who is first out of employment. As a natural sequence he is followed by the employee who finds himself out of work. Unemployment begins only when the employer himself begins to be unemployed. When the employer is prosperous and his energies are profitably employed, employees have abundant employment and they also prosper. But why is this period of unemployment? It is because all business is bewildered and uncertain. It does not know whether it may proceed in safety. It does not know what snares its path may be laid. This condition began with transportation and now extends to all business. The greatest trouble with this country today is that every business which has been developed by the genius of the American people has become the object of unforeseen attack from some quarter or feels the threat or danger of attack. Our laws which formerly were precise and definite, have blanketed business with loose generalities called crimes which the men who drew the laws and the men who interpret those laws cannot themselves define with any precision. Even when they endeavor to expound those laws they make them more obscure and mystifying than before.

"There is nothing more distressing to an employer of labor than to turn away good men who desire to do good work; but until all wake up to the fact that unless the employer is prosperous the employee is failing in prosperity, we will have little improvement. When we have learned the lesson that in this nation we are simply a big industrial family in which we all prosper together or we do not prosper at all, we will then have promise of relief from the misunderstandings and adjustments which increase unemployment and destroy the comfort and the prosperity of the average man.

"I urge relief from the fads, fancies and fisms which have filled our streets with unemployment and put away the dinner pail of the working man empty upon the shelf in the impoverished home. I urge the restoration of confidence in the fact that American men of business are the peers of any in the world. I urge that the American workman cannot be prosperous unless the American men of business prosper. I urge that prosperity can come to us only with the full dinner pail. Finally, I urge that the public interest in transportation is that it shall no longer be in order that it may be a successful and energetic aid to all the business it is designed to serve.

Thucydides, the Greek historian, states the tribe of Dan, a sea-faring race, left Palestine in the eighth century before Christ and settled on the English channel in a country they called Danmarch, which today is known as Denmark. They were so noted in the sixth and seventh centuries as pirates on the commerce of the English channel, that Homer, in the Illiad and Odyssey, mentions them sixty-five times by name as Danois. They left Denmark in the end of the seventh century, when the Jutes and Angles reached the English channel and settled in Ireland. Caesar, in the last chapter of his commentaries, states there was an island north-west of England inhabited by a fierce race of sea-rovers and freebooters that called themselves Danan. Caesar wrote in the year 54 B. C., and they have been there ever since.

Jeremiah, the Prophet, on the overthrow of King Zedekiah, took his two daughters, who were his nieces, with such valuables as he found left in the temple in Jerusalem, and went to Cairo. He left Cairo about 602 B. C. and went to Ireland. The eldest of the two nieces was a noted performer on the harp. She attracted the attention of the Prince of Ireland and married him. The beautiful poem written by Ireland's most noted poet, known as the "Harp that Once in Tara's Hall," was written in her memory. Tara's Hall is the name of the palace erected by the Prince of Ireland as the home of his wife. Through her is descended the present royal family of England, that God's oath to David might be filled before the eyes of the whole world. "David shall not want an heir to sit upon the throne until Shiloh come."

Every tribe of Israel that has had the teaching of the Christian religion, with the sole exception of the tribe of Dan, has adopted a distinct Protestant Church. The Danes are Baptists, the Dutch, the Dutch Reform Church; the Scotch, the Presbyterians; the English, the Episcopalians; the Welsh, Swedenborgians; the Anglo-Saxons, the Methodists.

The tribe of Dan is the only tribe that gave its allegiance to the Pope of Rome; and in the seventh chapter of Revelations, in the selection of the 144,000 to reign with Christ at his second coming, the name of the tribe of Dan is omitted.

If the Word of God was properly preached in this country, we would not today spend a dollar in the building of war vessels. God's blindness inflicted upon Israel will terminate in 1919, and every tribe of Israel at that time will learn its identity, and from that time forth stand side by side in protection of their rights. Moreover, Isaiah states that in the latter days God's anger will be kindled against all armies, and that he would utterly destroy them, and that God's sword would be bared in the heavens. Within the next five years, the airship will be so developed that a warship as a means of defense will be utterly worthless.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst. I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework. I also had dreadful pains in my back and sides and when one of those weak-winking spells would come on me, I would have to give up and lie down, until it wore off. I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly believe I would have died if I hadn't taken it. After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely. I fattened up, and grew so much stronger in three months, I felt like another person altogether. Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution. Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, callow cheeks, fresh and rosy. Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today. Write for Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn. for 50-page book, 'How to Treat the Woman's Weakness' and 60-page book, 'How to Treat the Woman's Weakness'."

### Error in Statement

In the published report of the Exchange Bank last week two items were erroneously copied and the published report, of course, did not correspond with the original filed with State Bank Examiner. Hence the republication this week containing the items omitted last week. The error last week was in the item "Individual Deposits, subject to Check Without Notice," given as \$98,820.55, when it should have been \$96,012.76. The amount named for the item last week referred to "Certificates of Deposit," but the copy furnished the News gave one item with the amount of another opposite, leaving out one item and one amount; hence the necessity for republication this week.

### Fort Stanton

A number of Thanksgiving dinners were given by the various residents of the Square to their intimate friends on Thanksgiving evening. Notably, Nos. 1 and 2 combined and entertained at No. 1 the following: Dr. and Mrs. F. C. Smith, Dr. and Mrs. F. H. McKeon, Mrs. Bragg, Chaplain Frund, Drs. Reed and Rawls, Lieutenants Besse and Monroe, Messrs. Smith, O'Bannon, Lynch and Martin, Miss Dorothy Smith. The decorations were beautifully arranged and in keeping with the fall season. Each guest found at table a dinnergram which gave full expression to the welcome extended to each from the hosts.

At No. 4, Officers' Mess, a "home Thanksgiving dinner" was served at 12:30. One large table, placed in the center of the dining hall, neatly decorated, with a large punch bowl placed in the center, and Dr. Rawls as official carver, certainly took the bachelors by storm. Those present were Drs. Reid, Rawls and C. Irby, Lieutenants Besse and Monroe, Messrs. Lynch, Smith, Babbs, Martin, Gentry, O'Bannon and Chaplain Frund.

At No. 6, the large dining room, some two hundred sailors enjoyed the efforts of our popular steward, Mr. Leach, and head cook, J. W. Barnes.

At No. 10 the various hospital wards were given everything that goes with a good turkey dinner for the sick man. Mr. Nelson, the head cook of that department, saw to it that the sick man was looked after just the same as the well or convalescent at other parts of the Post.

At 13B an exceptional Thanksgiving day was celebrated by the Weber family, since on the eve of this great day the stork visited the home and left a bouncing baby boy, which was the real guest of the day. Congratulations, Mr. and Mrs. Weber. We welcome the young Expert Farmer within our midst, and here is hoping that he will soon be out at play with our half-dozen Angels of the Post.

Our former plumber, Mr. Brockman, met with a rather painful accident the other day while at work in the carpenter shop, losing one of his fingers. Mr. Brockman is for the present busy keep-

ing pain away, and hopes soon to be back at his place in the shop. Mrs. A. V. Sitton and son, Alva, motored to their old home at Tularosa last Monday, returning the latter part of the week.

A private dance of the attendants was held in Amusement hall Thanksgiving night and enjoyed immensely, according to the report given us.

Mrs. Rouff, who is spending a few months at her home in the south, writes her husband here of her enjoying the visit, but that she longs for Fort Stanton. So do all who leave us, be it for a short or lengthy period.

The regular non-sectarian services will be held next Sunday evening and will be known as a "Song Service." The aim is to prepare hymns, etc., for the coming Christmas celebration.

Mr. and Mrs. F. W. Brockway, Sr., spent Thanksgiving day with Mr. and Mrs. George Kimbrell at Picacho. They made the trip in the Brockway car.

Live Selection No. 3714 (011977) Las Cruces, N. M.

Notice

Notice is hereby given that on March 17th, 1909, Andrew M. Patton, whose Post Office address is 1101 York Street, Denver, Colorado, made application to select under the Act of Congress of June 4th, 1897, (30 Stat. 35) the following described tract of unreserved government land, described by metes and bounds, then supposed to be, and now by official survey definitely established to be the North West quarter (NW1/4) of the North West quarter (NW1/4) of Section 14 (10) the North East quarter (NE1/4) of the North West quarter (NW1/4) of Section Twenty-one (21) the North West quarter (NW1/4) of the North East quarter (NE1/4) and the North East quarter (NE1/4) of the North West quarter (NW1/4) of Section Twenty (20) in Township Nine (9) South, Range Eight (8) East, New Mexico meridian.

All persons claiming said land adversely, or desiring to show it to be mineral in character, may file objections to such location or selection with the local officers of the land district wherein said land is situated; namely, the Register and Receiver of the United States Land Office at Las Cruces, New Mexico, and may establish their interest therein or the mineral character thereof.

JOHN L. BURNSIDE, Register.

# THE CHARM OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

**TRAPPERS**  
Men and Boys—Attention!  
There is a better dress than any you have seen. It is made of the finest fur and is the most comfortable and stylish. We will help you choose the right one for you. Write for a free catalog.

**BLACK LEG**  
LASSES STRONGLY PREVENTED  
Cutter's Black Leg Pills. Low price. Free trial. Write for booklet and testimonials. Write for booklet and testimonials. Write for booklet and testimonials.

**PARKER'S HAIR BALM**  
A safe preparation of marjoram, ylang-ylang, and other fragrant oils. For restoring color and beauty to gray or faded hair. Write for free trial.

**FOR YOUR THANKSGIVING DINNER**  
You should have a copy of the "Cook Book" about 100 recipes printed on waterproof paper. Write for free trial.

**ANURIC!**  
The Newest Discovery in Chemistry

This is a recent discovery of Doctor Pierce, who is head of the Invalid's Hotel and Hospital at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

**Paxtine**  
A Soluble Antiseptic Powder to be dissolved in water as needed For Douches  
In the local treatment of women's diseases such as leucorrhoea and inflammation, the douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

**He Lived There.**  
James E. Ferguson, governor of Texas, smiled the other evening when the conversation turned to the subject of bad breaks. He said he was reminded of how Smith sadly fozzled.

Some time ago Smith was taken to an entertainment in an unfamiliar town by a friend, and being somewhat bored toward the end of the show he looked around the room for a sympathetic soul.  
"You look just the way I feel about it," he remarked to a sad-looking citizen. "These receptions are the most tiresome things on the face of the earth."  
"Yes," admitted the sad-faced one, with something akin to a sigh. "They are rather tiresome."  
"Bore you to beat the band," returned Smith, and then suggested, "Why don't you go home?"  
"I am home," was the startling rejoinder of the other. "I live in the bloomin' place."

## SUFFERED FOR FOUR YEARS.

Mr. J. M. Sinclair of Olivehill, Tenn., writes: "I strained my back, which weakened my kidneys and caused an awful bad backache and inflammation of the bladder. Later, I became so much worse that I consulted a doctor, who said that I had Diabetes and that my heart was affected. I suffered for four years in a nervous state and very much depressed. The doctor's medicine didn't help me, so I decided to try Dodds Kidney Pills, and I cannot say enough to express my relief and thankfulness, as they cured me. Diamond Dinner Pills cured me of Constipation."

Dodds Kidney Pills, 50c. per box at your dealer or Dodds Medicine Co., Buffalo, N. Y. Dodds Dyspepsia Tablets for Indigestion have been proved, 50c. per box.—Adv.

**Teddy Bear Saves Child.**  
A toddy bear saved Grace Mower, five-year-old daughter of Mr. and Mrs. C. E. Mower, from injury. Mr. Mower is the agent of the St. Paul railway and the family lives on the second floor of the depot building. The little girl was playing in one of the windows when the screen gave way and she fell to the brick walk. She held the teddy bear tightly in her arms and thus fell on it, preventing death or serious injury.—Cottonwood (S. D.) Dispatch to New York Sun.

## CUTICURA COMPLEXIONS

Are Usually Fresh and Clear, Soft and Velvety. Try One.  
The Soap to cleanse and purify, the Ointment to soothe and heal. Thus these superlative emollients promote and maintain the natural purity and beauty of the skin, scalp, hair and hands under conditions which if neglected might disfigure them.

**The Right Time.**  
"Your father must have been in a very good humor when he let you get a motorcycle."  
"Ah! I seized the cyclo-logical moment to ask for it."

**Not Gray Hairs but Tired Eyes**  
make us look older than we are. Keep your eyes young and you will look young. After the hours always murine your eyes—Don't tell your age.  
If you are not prejudiced you are not interested.

# ROAD BUILDING

## CONVICTS AS ROAD BUILDERS

Need for Co-Operation Between State Highway and State Prison Departments is Outlined.

"The state highway department should hire convicts from the state prison department in exactly the same way as it would hire free laborers, and at the same price per day. During the hours of work the men should not be thought of as convicts, but simply as employees of the highway department. No payment should be made for a single hour not worked and a man discharged should be removed at once and permanently, while the highway department should have no responsibility for nor authority over the convicts at any time nor in any manner except to conduct their work or to discharge them."

This need for co-operation between the state highway and state prison departments is strongly urged in a report made to the New York state highway department by David J. Shorer, who was in charge of the convict road work in Green county, New York, during the summer of 1914. Mr. Shorer's practical experience has demonstrated the importance of the recommendation for co-operation between the highway and prison departments in conducting convict road work, which the national committee on prisons and prison labor has advocated for a number of years and has been instrumental in embodying into the laws of the state of West Virginia.

The work in Green county, New York, was carried on under most difficult conditions. The men arrived at the camp before the organization and equipment were completed. They were sent there without regard to their suitability for the work and almost one-fourth were totally unfit and had to be returned to the prison. Arrangements for feeding the men were unsatisfactory, while winter made efficient work impossible fully two weeks before they were removed from the camp.

In spite of these difficulties Mr. Shorer reports that, taking the 60 convicts who were retained at the camp, and comparing them with 51 civilians also working at the camp, the convicts averaged better than the civilians and as good as any ordinary contract gang. Under proper conditions he maintains there will be no difficulty in using convicts for this type of work with good results for the money expended.

The national committee on prisons and prison labor calls special attention to this report and its conclusion that two factors are essential to the success of convict road work. Responsibility for administration must be placed in the hands of those competent to meet it, and the men encouraged through a system of rewards so that they feel they have something to gain through good work.

## LOSS CAUSED BY ROAD THIEF

Farmer Forced to Haul Small Loads and Deprives Him of Opportunity to Sell Products.

The bad-road thief forces you to haul small loads; drive slowly; wrench and twist the life out of your horse, harness and vehicle, often breaking and damaging the latter until great and expensive delays are occasioned. It also steals your opportunity to dispose of your farm when you wish to sell, for no man will pay as much for a farm bordered by a poor road system as he will for one with a well-kept highway, and some will not buy a farm at all when the road system is poor. The loss of time and money, where the above named conditions exist, makes it imperative that you open all the drain ditches along the road, drag this silent, notorious thief to death with the King road drag.

**Build Up Rural Communities.**  
What we need is good roads and modern homes. Help the farmers secure these and you will do more toward building up the rural communities than any other two things.

**Dangerous Road.**  
A road is a road—but when it is a high, narrow grade with steep sides and a flat surface, it is a poor road and a dangerous one.

**Brings Farms Nearer Town.**  
A farm ten miles from town on a hard road is nearer than a farm five miles from town on a soft road.

**Learn to Make Roads.**  
We need more men out learning how to make roads than locating routes to make them on.

**Odo Drops**  
Net Contents 15 Field Drachms  
ALCOHOL—3 PER CENT.  
A Vegetable Preparation for Assuaging the Food and Regulating the Stomach and Bowels of INFANTS AND CHILDREN.

In Use For Over 30 Years  
The Kind You Have Always Bought  
THE CENTAUR COMPANY, NEW YORK CITY.

Women are now making nearly all the wine used in France.

Write Murine Eye Remedy Co., Chicago for illustrated book of the Eye Procs.

**Craven Knight.**  
"Never speak to me again," exclaimed the fair maid, as with flashing eyes she handed back to the football hero the ring he had so proudly placed on her finger a few store days before. "I can never marry a cow ard."  
"A coward?" he stammered.  
"Yes, a coward. I saw you with my own eyes at the game this afternoon. You had the ball under your arm and ran with it the whole length of the field instead of facing the crowd and fighting like a man."

**English of the Diamond.**  
In the National League is an umpire who is a stickler for correct deportment on the diamond. In a game in which he officiated at the Polo grounds early in the season, as Chief Meyers, the Indian catcher for New York, came to bat, certain of the Boston players sitting on their bench began to guff the brawny red man.  
In an instant the umpire had left his place behind the catcher and was running toward the visitors' bomb-proof.  
"Cut out them personalities!" he ordered. "Cut out them personalities!"  
As he turned away a high-pitched voice filtered out through the grandstand behind him, saying:  
"Cut out them grammar!"—Saturday Evening Post.

**MOTHER'S "NOTIONS"**  
Good for Young People to Follow.  
"My little grandson often comes up to show me how large the muscles of his arms are.  
"He was a delicate child, but has developed into a strong, healthy boy and Postum has been the principal factor."  
"I was induced to give him the Postum because of my own experience with it."  
"I am sixty years old, and have been a victim of nervous dyspepsia for many years. Have tried all sorts of medicines and had treatment from many physicians, but no permanent relief came."  
"I used to read the Postum advertisements in our paper. At first I gave but little attention to them, but finally something in one of the advertisements made me conclude to try Postum."  
"I was very particular to have it prepared strictly according to directions, and used good, rich cream. It was very nice indeed, and about bedtime I said to the members of the family that I believed I felt better. One of them laughed and said, 'That's another of mother's notions,' but the notion has not left me yet."  
"I continued to improve right along after leaving off coffee and taking Postum, and now after three years' use I feel so well that I am almost young again. I know Postum was the cause of the change in my health and I cannot say too much in its favor. I wish I could persuade all nervous people to use it!"  
Name given by Postum Co., Battle Creek, Mich.  
Postum comes in two forms: Postum Cereal—the original form—must be well boiled. 15c and 25c packages.  
Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.  
Both kinds are equally delicious and cost about the same per cup.  
"There's a Reason" for Postum.  
—sold by Grocers.

**HORSE SALE DISTEMPER**  
You know what you sell or buy through the sales has about one chance in fifty to escape HALL'S STABLES DISTEMPER. "SPHINX" is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will never be rid of the disease. It acts as a sure preventive no matter how they are "spiced." 50 cents and \$1 a bottle, 50 and \$10 dozen bottles, at all good druggists, horse goods houses, or delivered by the manufacturer.

LOCAL AND PERSONAL

Judge C. I. Kennedy was in the city one day this week from Jicarilla.

Mr. and Mrs. J. B. French and children returned Monday from a week's visit to El Paso.

W. J. Langston returned Tuesday from Missouri, where he had gone two weeks previous to visit his father.

Coal, Coal, Coal. Having enlarged our bins, we are now prepared to furnish the trade with Dawson Fancy Egg and Nut, and Swastika Lump, Humphrey Bros.

W. K. Moore has completed his contract with the county, applying a new coat of paint to the exterior of the court house. The building now presents a greatly improved appearance, and is a practical illustration of what paint and brush can accomplish.

Mr. and Mrs. William G. Wells were down from their home, near Parsons, Sunday to Tuesday.

Mrs. E. B. Walker left Monday night for an extended visit to her old home in Louisiana.

Thos. P. Kehoe came over on Monday's auto from Fort Stanton and left the following day for El Paso. Mr. Kehoe may take a trip to California before returning.

J. D. Thomas was over Saturday from the Capitan country. "Chico" has been in Arizona and the western part of this state, but is now back in Lincoln county to put down his stakes permanently.

Col. L. B. Parsons, of Birmingham, Alabama, an old friend of Harry Dixon, is visiting the Dixons at their ranch home near the mal pais.

R. L. Hust, Roy Skinner and James L. Gatewood left yesterday afternoon for Elephant Butte. They are making the trip in one of Hank Ford's machines, and if it holds together they intend to return via El Paso.

Sent Free to Any Address

"Hand Book of First Aid" of Johnson & Johnson, a most useful affair for the household. Simply drop us a card, The Warner Drug Co., P. O. box 335, El Paso, Texas.

Classified Advertisements

Home rendered hard that is pure. Patty & Adams.

WANTED Everyone to know that I take subscriptions and renewals to the Ladies' Home Journal, Woman's Home Companion and Saturday Evening Post. These make excellent Christmas presents. Call telephone No. 1 or write P. O. Box 204, and I will save you trouble of ordering. Clarie McQuillen.

See us for poultry, butter, eggs etc. Patty & Adams. Phone 46.

LOST—Sorel mare, stocking-legged to knees, bald-faced, brand G on left hip; strayed from White Oaks, formerly lived in Ruidoso. Notify Lute Allen, Carrizozo.

WANTED—A few boarders in private family; good board, warm rooms; rates \$6.50 to \$7 per week. Mrs. Edith Booth, first north of Outlook building.

Phone 46 any cut of Fresh meat. Also groceries and lunch goods.

RAGS—Some more of those rags for cleaning type wanted at the News office. Pay for clean cotton or similar rags, without buttons or hooks.

This Paper can furnish you any kind of engraving for circulars, folders, booklets or catalogs. We stand back of the Quality and Service. Brock-Haffner Press, Denver - Colorado.

Operations at Parsons

Work in overhauling the milling plant at Parsons and the installation of new machinery is in progress. The power line lacks only a little of completion and it will reduce the power cost to the company about 65 or 70 per cent. J. H. Fulner, Jr., president of the company, in company with other stockholders of the company, recently paid the property a visit. A. B. Anderson, the superintendent, was down yesterday, and stated that they hoped to be milling ore by March.

Methodist Church

There will be preaching at the Methodist church Sunday morning and evening by the pastor. A series of sermons are being delivered on the "Idea of God." The second of this series will be given Sunday morning. It will be on the "Nature of God." Be sure to come and worship with us.

Sunday school at 9:45 a. m., Junior church at 2 and 3, the Junior department meeting at 2 and the Intermediate at 3. Senior League at 6:30. Preaching at 7:30. You come.

Mr. and Mrs. George J. Dingwall and Misses Kittie Reily and Georgia Lesnett spent Sunday with the Harris family on Three Rivers.

Soft, Velvety Hands Even With the Winds of Winter Time. We guarantee the preparation—Witch Hazel Cream, 25c and 50c sizes, postpaid to any address. Mail order department, The Warner Drug Co., El Paso, Texas.

Measuring Party

The measuring party which was announced to be held at the home of Mr. and Mrs. McCurdy's by the Home Mission Society some weeks ago, but was "rained out," is being planned again—and this time, in faith that the weather will not so seriously interfere.

Refreshments will be served, games and music are being planned, and a general good time is promised to all who come.

Five cents per foot, or the fraction thereof, is the price of admission.

The place, Mr. McCurdy's home. The time, Friday, December 10, 7:30 p. m. Everybody invited.

Baptist Church

Rev. J. M. Gardner, Pastor. Sunday, December 5, 11 a. m., "Let YO Light Shine." 7:30 p. m., "Ye Must Be Born Again." Everybody welcome to our Sunday school at 10 a. m., and to all preaching services.

If you are not a member of some Sunday school, come and give us a visit and perhaps you will want to become a regular member. Mr. S. W. Perry, Supt.

Marshall C. West was over one day this week from his home on Little Creek Mesa.
